SUBJECT : Supply of printed forms.

TO : Ad. P.C.I/S. Rome.

The prison establishments in territory administered by AMG are encountering serious difficulties in carrying out their activities from the almost complete lack of registers and printed forms.

The Rome prison printing house has prepared several packets of printed forms for the various establishments in Tuscany which, on account of the lack of communications, cannot be forwarded to the interested prisons.

Therefore the Commission is directly invited to indicate a suitable method of transmitting these printed forms to Florence where the local prison directorate will provide for their forwarding to destination.

With many thanks.

Certain DI NICOLA Nicola is making the following statement and application:

My brother DI NICOLA Giulio, son of the late Augusto, is more than 1 year prisoner in the Soriano nel Cimino establishment, following order of the Allied Command. Besides other physical troubles he is also suffering from consumption. Before he was confined to prison he took care of his old mother, 2 nephews and 2 sister-in-laws, whose husbands are prisoners of war. He possesses also some land-property, which in his absence is completely abandoned.

The purpose of this application is not his release, which would result beyond every hope, but his transfer to an infirmary, where he could enjoy the necessary treatment and be healed from his disease. This would encourage his old mother and give her the hope to see again her loved son.

Hoping that the application will be taken into favourable consideration, I, together with my mother and far away brother, am thanking you.

N. 6 - 23

Subject : Registered package addressed to the investigating Magistrate at the Leghorn Tribunal.

To : A.C. Public Safety Sub-Commission - Rome.

On the 10th of April, 1945, we sent to the Commission, for transmittal, together with other 13 envelopes containing Office correspondence, the enclosed registered and very confidential package, ref. 132808, addressed to the investigating Magistrate of the Leghorn Tribunal.

While the a/m 13 envelopes have been regularly forwarded by the Commission to the adressees, the confidential package addressed to Leghorn has been returned by the Commission to the Cabinet of H.E. the Minister, without any accompanying letter giving the reasons for the omission of forwarding to the investigating Magistrate of Leghorn.

It is pointed out that the package contains the regards concerning the investigation effected by Comm. Caldarera, director of Office N.6 of this Gen.HQ. for the facts which have occurred at Pianosa and Portolongone during September - October 1943 and which have been requested by the a/m investigating Magistrate, who is entrusted with the penal procedure against the directors Mazzeo and Macarone.

Therefore earnest request is made to the Commission to the effect that arrangements be made for the urgent transmittal of the package under discussion.

P.W. Agent MALUZZO Giovanni did a great deal of good work on the Rome clandestine front before the arrival of the Allies, among other things he was instrumental in the liberation of Captain Mosconi, for whose liberation the Allied Command apparently offered a sum of L. 2,000.000.

He spontaneously helped most efficaciously a number of patriots who fell into the hands of Carasi and helped them to continue their difficult work at great personal risk.

Finally he had to hide and Caruso arrested his sister and threw her into prison as a reprisal.

It was the audacity of Maluzzo which lead to the arrest of the ex-Questore Caruso.

Maluzzo says that he previously was not interested in the matter of reward, but now that he and his sister are in very straightened circumstances and the cost of living is becoming daily higher, the sister having lost her husband and having a boy of 21 suffering with lung trouble, he is driven to ask whether some monetary recompense may be accorded to them.

N. 111

Subject : Transfer Colony.

To : Ministry of Grace & Justice

To : Lieut. J. Guarini, Regional Prison Officer, Region VIII
(letter dated 4 March, 1945 refers)

Lt. J. Guarini, Regional Prison Officer of the VIII Region ordered at the time besides the transfer of the Barracks material and cattle from this Colony, according to instructions issued by the Ministry, also that of the whole direction with all office records.

As due to the past war events and the lack of communications between the Island and the mainland the Office work was stopped, and is being only gradually re-activated from a few months ago, it is, according to my opinion, necessary that the Direction of this Colony remains on the spot until the settlement of the various pendencies (quarterly accountancy, statement of account, settlement accountancy contractors etc.), which partly are already ready.

The necessity under discussion applies above all to this accounting office, inasmuch as removing the great quantity of records and files, a long period of time would be necessary to find the necessary documents when needed apart from the probability that some of them could be lost during the transport in spite of the greatest attention paid to their packing.

Therefore before putting into effect the order given by Lt. Guarini, I report the above to the Ministry, so that this Directorate may be authorised to remain at Gorgona until the total settlement of all accounts regarding the Colony and this in order to avoid losses, miscarriages and difficult work of re-construction.

I inform you that for the settlement of the accountancy I have at my disposal a graduate (Sott.Cirillo Corrado), who for about 5 years is acting as accountant and who is able to settle the whole work.

Awaiting superior instructions in this regard.

1. Reference your AC/14211/PS. The ruling is understood but is NOT being followed by the Sub-Commissions; as an example there are attached the 6 original cover notes received at this HQ today. None of the letters covered by these notes was translated yet in only one case is there any indication that the contents are "purely formal and might safely be forwarded". (In the one case half the correspondence is addressed to LUCCA in 5 Army Area).

2. If it is impossible to send translations, may each document be stamped as being screened and certified as purely formal. At present a covering note is attached by a clip to several large, open envelopes containing many letters. Neither envelopes nor letters are marked in any way and the clips become detached in the post.

3. The letter referred to in para 3 of AC/14211/PS is a good example of the difficulties met with. (Translation is attached.) The letter requires Prefects to instruct Sindaci that Russians can report at Rome at their convenience whereas in Army Area they must first get a pass and be vetted by FSS. The letters are being sent on with a suitable covering note.

1 Reference your CM/203/68 dated 23 Jan 45. The Chief of Staff has laid down the following ruling for the handling of correspondence handed to AC by Italian Govt officials for transmission to officials in AMG territory.

"That when the communication is for an Italian official in 5 or 8 Army area it will be screened and if it raises any matter on which SCAO might wish to exercise a discretion a translation will be enclosed. If no such question arises and the communication is purely formal, a translation need not be enclosed but the covering letter will state that the letter was purely formal and might safely be forwarded".

2 You will appreciate that owing to the volume of correspondence flowing through some Sub-Commissions (principally Public Safety and Local Government) it is not possible to make translations of every routine document.

3 In this particular case the file shows that translations of the two letters were in fact prepared. It would appear therefore that they have miscarried or been mislaid. A fresh copy of the translation is enclosed.

1. Reference your AC 14211/P.S. of 30 Dec 44 and this H.Q. CA/203 of 12th December, 44, it was understood that all correspondence from Italian sources via ROME delivered at this H.Q. for forwarding would be :

(a) Franked by an Allied officer at your H.Q.

(b) Accompanied by a translation so that this H.Q. could readily determine whether or not the subject matter was relevant and in accord with the policy of AMG in Army area.

2. Large quantities of mail, some franked by Sub-Commissions and some not, are arriving daily at this H.Q. (as many as 50 letters by a single courier). A great many are on trivial matters. 2 letters out of 50 received on a representative day contained translations and in both cases the translation was that of the covering letter from the Ministry to A.C., not of the letter actually enclosed (See att).

3. The routine circulars which form a large percentage of this correspondence are addressed to all Prefects in liberated Italy and are very largely not applicable to Army area.

4. This does not appear to be a matter for Public Safety Sub-Commission only since letters are received by each courier from many Sub-Commissions.

5. It is regretted that unless translations are enclosed and all envelopes are franked by an Allied Officer, this H.Q. is not justified in certifying such mail as "official" for transmittal via E.I.S., which is the only method of forwarding mail in Army area.

6. Italian mail arriving at this H.Q. in future, which is not franked by an Allied Officer signing as such and accompanied by a translation, will be handed over to Region H.Q. for delivery when the area concerned is transferred to Regional Control.

SUBJECT : Transmittal of Correspondence

TO : AMG 8th Army

1. With reference to your letter OA:203 of 11 December, 1944, and OA/203 dated 12 December, 1944 on transmittal of correspondence.

2. It will be appreciated that the opening of new territory, the establishment of the Italian Government in Rome, and the gradual rebuidling of administration, that the flow of correspondence will increase.

3. Routine correspondence received at this office has always been checked, but it was not "franked", this will be done in the future;

4. (a) With regard to circulars, copies of Decrees, etc. It has been the procedure here to have these translated, and a copy translation forwarded with a letter asking for distribution, where such matters apply in Army or AMG territory. Where it has been deemed inadvisable to forward them to Army or AMG Regions, they have not been sent. This procedure will be continued.

(b) In the event of Circulars calling for returns of certain information, they will be sent at the descretion of this Sub-Commission to Armies or AMG Regions, requesting that such information "as may be readily available and which will not affect AMG interests" be supplied.

5. In the case of the Circular which was enclosed with your above quoted letter, there is no record Here

AMG Rear 8 Army
OA/203 - 12 Dec; 44

SUBJECT : Communications from Ministry of Interior to Prefects of Provinces in Army Area.

HQ Allied Commission.

1. Recently the flow of communications coming from Ministry of Interior and addressed to the prefects of Provinces in Army Area has considerably increased.

2. Such communications come chiefly through the Public Safety Sub-Commission and are sent with a covering letter asking they be forwarded, though neither the actual documents nor envolopes are franked as being of a nature which are not dangerous to security. Sometimes they arrive with the mail with no covering letter at all. An instance of this was referred to in my letter OA/203 of 11 Dec, 1944.

3. The communications consist of circulars and copies of decrees but also of definite requests of confirmation on subjects and persons. Most of them are on points which cannot possibly be dealt with at this stage of the situation, especially in such provinces as Ravenna.

4. Whilst in no way wishing to be obstructive I would point out that there is in effect no communication allowed direct between Ministry of Interior and Provinces in Army Area, although in matters where urgent information is required we are always willing to obtain it provided it comes through AC channels, and is properly franked.

5. All such communications as those mentioned have to be translated and vetted for security reasons. Many of them ask for return which at this stage it is impossible or unnecessary to give, but it is never shown in the communication that the documents are for information for implementation after the Province has been handed over by Army.

6. It is pointed out that this HQ has not the staff of interpreters available to translate these documents, and also that there is nothing to shew that they have been read and approved by AC as they are not franked, and the covering letter, when there is one, is duplicated (including the signature).

SUBJECT : Civilian Communications

1. The attached letter was received at this HQ through the mail from AC HQ without covering note or any stamp to show that it had been passed by AC. The letter contains amongst other things a circular from the Ministry of the Interior addressed to various departments and Provinces in Liberated Italy.

2. This circular asks for a detailed monthly report on various aspects of assistance given to the Allies Military units and also assistance as regards supply of labour for mine clearance, road repairs and building taken over by Allied Military etc.

3. To render such a report would open up a channel which must inevitably be a source of danger from a security angle - as for instance rendering a monthly return of the number of dead and wounded Italians, even if such information were available to the prefect, which it is not.

4. The request for information on individuals and also of those P.S.Agents who have completed 35 years of service can be considered a proper one and will be attended to. The circular is returned and it is requested that this HQ be informed whether in fact it was sent with the knowledge of AC.

164A 1. With reference to your letter OA/203 of 11 December, 1944, and OA/203 dated 12 December, 1944 on transmittal of correspondence.

2. It will be appreciated that with the opening of new territory, the establishment of the Italian Government in Rome, and the gradual re-building of the administration, that the flow of correspondence will increase.

3. Routine correspondence received at this office has always been checked, but it was not "franked"; this will be done in the future.

4. (a) With regard to circulars, copies of Decrees, etc. It has been the procedure here to have these translated, and a copy translation forwarded with a letter asking for distribution, where such matters apply in Army or AMG territory. Where it has been deemed inadvisable to forward them to Army or AMG Regions, they have not been sent. This procedure will be continued.

(b) In the event of Circulars calling for returns of certain information, they will be sent at the descretion of this Sub-Commission to Armies or AMG Regions, requesting that such information "as may be readily available and which will not effect AMG interests" be supplied.

5. In the case of the Circular which was enclosed with your above quoted letter, there is no record here that it was transmitted from this office, and it is not the type of circular which would normally be forwarded.

Sir,

With reference to the attached letter from the Minister of the Interior received by 8th Army H.Q., with no indication as to office origin.

It would appear that there are two channels of communication for such correspondence through ALCOM to the addressees.

(a) Through Local Government S/C, who record all such incoming mail and pass it, with a stereotyped covering letter to the Regions etc., concerned for onward transmission.

(b) Through Public Safety Sub Commission who adopt a procedure similar to that outlined in (a) but who make no record of letters handled by them.

In neither case are the letters either translated or seen by an officer, the decision as to ultimate delivery resting with the Regions or Armies.

I have seen the clerks concerned but can obtain no information regarding the letter in question. P/Safety however, think that in view of the addressor and subject it was probably handled by their office.

Specimen covering letters are attached hereto.

As it appears most likely that these letters sent from Public Safety Office can you answer SCAO's question re the policy to be followed.

SUBJECT: Communications from Ministry of Interior to Prefects of provinces in Army Area.

AMG Rear Eighth Army.
OA/203 164A
12 Dec 44.

HQ Allied Commission.

1. Recently the flow of communications coming from Ministry of Interior and addressed to the Prefects of Provinces in Army Area has considerably increased.

2. Such communications come chiefly through the Public Safety Sub-commission and are sent with a covering letter asking that they be forwarded, though neither the actual documents nor envelopes are franked as being of a nature which are not dangerous to security. Sometimes they arrive with the mail with no covering letter at all. An instance of this was referred to in my letter OA/203 of 11 Dec 44. 164B

3. The communications consist of circulars and copies of decrees, but also of definite requests for confirmation on subjects and persons. Most of them are on points which cannot possibly be dealt with at this stage of the situation, especially in such provinces as Ravenna.

4. Whilst in no way wishing to be obstructive I would point out that there is in effect no communication allowed direct between Ministry of Interior and Provinces in Army Area, although in matters where urgent information is required we are always willing to obtain it provided it comes through AC channels, and is properly franked.

5. All such communications as those mentioned have to be translated and vetted for security reasons. Many of them ask for returns which at this stage it is impossible or unnecessary to give, but it is never shewn in the communication that the documents are for information for implementation after the Province has been handed over by Army.

6. It is pointed out that this HQ has not the staff of interpreters available to translate these documents, and also that there is nothing to shew that they have been read and approved by AC as they are not franked, and the covering letter, when there is one, is duplicated (including the signature).

7. This HQ would like a policy decision on this matter, and in the meantime is holding such letters and not delivering them.

HQ Allied Commission.

1. The attached letter was received at this HQ through the mail from AC HQ without covering note or any stamp to show that it had been passed by AC. The letter contains amongst other things a circular from the Ministry of the Interior addressed to various departments and provinces in liberated Italy.

2. This circular asks for a detailed monthly report on various aspects of assistance given to the Allies by Italian military units and also assistance as regards supply of labour for mine clearance, road repairs and buildings taken over by Allied military etc.

3. To render such a report would open up a channel which must inevitably be a source of danger from a security angle - as for instance rendering a monthly return of the number of dead and wounded Italians, even if such information were available to the prefect, which it is not.

4. The request for information on individuals and also of those P.S. Agents who have completed 35 years of service can be considered a proper one and will be attended to. The circular is returned and it is requested that this HQ be informed whether in fact it was sent with the knowledge of AC.

HEADQUARTERS
ALLIED MILITARY GOVERNMENT
FORCES IN ITALY

SUBJECT : M-PSS/APO/23 25 October 1944.

ADDRESS : Headquarters, etc.,

TO : Public Safety Subsection,
Headquarters A.F.H.Q. - G.M.T.

1. A vast amount of correspondence is reaching this office from Italian Industrial Houses intended for Italian Governmental Officials. Owing to the lack of communications this is understandable and every effort is made to cope with this problem.

2. Some case is necessary as it is to be remembered that much of Region VIII is still under Axis Control and not Region, therefore letters as per attached which do not conform strictly with the request of A.M.G. Proclamations cannot be passed to control.

3. As these letters all have to be translated in this office, it is requested that before they are sent forward for Allied use they be duly vetted by P.S.S..

A. T. POTTER
Lieut. Colonel, G. S.,
Regional Public Safety Officer.

SUBJECT: Promotion of Prison Guards
TO : RPPSO, ACC Southern Region
FROM : SPPSO, ACC Foggia Zone
REF. : FP/5032
DATE : 6/9/1944

PS

I. On arrival at Campobasso on 4/9/44 I was presented with the attached declaration of promotion for a prison guard of Campobasso named DI DOMENICO Antonio fu Enrico. The declaration was to be dated 18/7/44, that is two days before Campobasso Province was transfered from AMG to ACC.

2. I refused to sign this document, firstly because it is antidated and secondly because so far as I am aware all permanent promotions of prison guards must be made by the Minister of Grace and Justice in both ACC and AMG territory.

3. I understand the man has done well, and suggest the application be forwarded to the Minister.

L Montague Rayer
