This former Headguard retired from the prison service prior to our entry into Northern Italy. He has been continually making demands from me to have his goods shipped to Bologna from Venice. I have refused to authorized the payment of such funds on the grounds that he had never worked for me and I have no interest in him.

It would be appreciated if this matter is brought to the attention of the Minister and for him to make a decision in the matter. If he says to pay the bill, I will authorize the payment, otherwise, it will stay as it is at present.

MINISTRY OF GRACE & JUSTICE

23rd April 1945

N. 15020.23/1

Subject : Transport of prisoners.

To : A.C. P.S. S/C.

The prisoners' transport service is arranged through contractors, who, according to the contract specification, have to use their own means of transport.

This Ministry has already represented to the Commission, that these contractors in order to be able to carry out the service, should be supplied with means, tyres and fuel.

It has been reported that, due to the lack of tyres, many auto-vehicles are out of use or will cease circulating in the near future; and, on the other hand, as none can be found on the market, the contractors, given the indemnities they are collecting cannot afford the black market prices.

Consequently the transfers cannot be regularly effected, causing serious damage to the functioning of the prison service, especially during the present time.

It is added, that as the actual contracts will expire on the 30th June, this Administration has some difficulty with the renewal of these contracts.

Therefore the Commission is requested to examine the possibility of supplying, against payment, the enterprises, which are entrusted with the prison transport service, with tyres for the auto-vehicles employed in these transports, at least in the province chief-towns and larger centres, where the movement of prisoners is more intense such as Naples, Rome, Palermo, Bari, Catania, Messina, Catanzaro, Cagliari, Reggio Calabria etc.

With reference to the request made with a.m letter, we communicate that the political confinement, which is a preventive measure within the competence of the Police Magistrature and not of the judicial Authority, is governed by the V^a para of the P.S. Law in force.

It is applied in regard to those well-known for crimes against the civil State, and exceptionally, in regard to individuals politically dangerous, who are denounced to the Prefect of the territorially competent Province, by the Questore, with a report, from which it must appear that the person in question is a danger for the public Security and for the National Order.

An Apposite Provincial Commission, presided over by the Prefect and composed by the Attorney for the Kingdom, by a Judge appointed by the President of the Tribunal, by the Questore, by the C.C.R.R. Commander of the Province and by a screened citizen pointed out by the Mayor of the Commune chief-town of the Province, is called in order to decide on the proposed confinement. At the trial before the Provincial Commission the denounced person can be assisted by a defending lawyer.

After having heard the person concerned and his defending lawyer, the Commission comes to a decision by an ordinance, and, by virtue of the powers granted to it by law, determinates the length of the confinement, which may vary from one to five years.

In those cases, in which the Commission does not perceive charges justifying the confinement, it can apply warning, forward the records to the Questore, so that he effects the warning, and also pronounce annulment of the case.

Against the ordinance of the Provincial Commission, the concerned can appeal at the Appeal Commission at the Ministry of Interior, composed by the State Under-Secretary for the Interior, by the Head of the Police, by the General Lawyer at the Appeal Court or Counsellor at the Supreme Court, appointed by the Minister of Grace & Justice, By an Officer General of the C.C.R.R. Force, appointed by the proper General Headquarters and by a screened citizen, cited in the lists of popularly elected judges and appointed by the Minister of Grace & Justice. Also at the Appeal Court the denounced person can be assisted by a defending lawyer.

- 2 -

The above Commission does not judge only in regard to the legality but also to the justice of the ordinance and gives therefore full guarantee for the re-examination of the provision and to its conformity with exigencies of general interest, and not to anxieties or reflections of a local character.

This Ministry provides for the vigilance of those confined, with a P.S. Official, having functions as Director of the colony, and with a nucleus of P.S. Agents and CC.RH.

Si applica nei confronti degli individui politicamente pericolosi, che vengono denunciati al Prefetto della provincia territorialmente competente, dal Questore, con rapporto motivato, dal quale deve risultare la pericolosità del prevenuto per la sicurezza pubblica o per l'ordine nazionale.

Nella sua facoltà discrezionale, può, nei casi in cui non ravvisi gli estremi per l'assegnazione, applicare l'ammonizione, rinviare gli atti al Questore perché faccia luogo alla diffida, ed anche pronunciare ordinanza di non luogo.-

Anche in sede d'appello il denunziato può farsi assistere dal difensore. Detta Commissione giudica non solo sulla legalità, ma anche sul merito dell'ordinanza ed offre, quindi, piena garanzia di riuscita del provvedimento, nonchè della rispondenza di questo ad esigenze di interesse generale, e non a preoccupazioni o riflessi d'indole locale.

Subject : Communications with the Tremiti Islands.

To : A.C. Public Safety Sub-Commission - Rome.

This Gen.HQ. would like to reinstate as soon as possible, the confinement colony, already existing on the Tremiti Islands, for the purpose to send there elements dangerous for the public safety.

The greatest difficulty to be met for the mentioned reinstatement is the lack of means of communication with these Islands, which, before the war, had a weekly navigation line.

Therefore we applied to the Navy Miristry for the re-establishment of mentioned line, or at least, to grant the means for the indispensable transport of persons and goods, including drink-water, which is lacking on mentioned Islands.

We inform the Commission of the above, begging you to intervene if necessary, so that the request of this Ministry may be granted.

Subj. : transfer to prison guards - transportation means

In order to ensure the prison service of the Capital, which, at present, is highly delicate, this Ministry intends to provide, with the necessary urgency, to the alternation of a part of the staff, who does not perform duties, with necessary uprightness.

The substitution of this staff will be done with warders of other institutes.

But as that Subcommission well knows, the railway service does not operate regularly and therefore these transferred warders should reach their seats with heavy expenses; so, as they are not able to suffer it, even willing, the transfer cannot be carried into action for lack of transportation means. This situation causes a continuous trouble to this Administration, as, in many cases, agents transferred elsewhere for urgent service exigencies or for disciplinary reasons, cannot reach their seats for lack of transportation means.

Consequently the service of transfers of the staff is almost paralysed, with a great damage to order in Penal institutes.

This Ministry therefore, earnestly asks that Subcommission to examine the question and to find out a manner to ensure the conveyance of agents, who, for service reasons, are often moving themselves, from one seat to another.

The Ministry would reserve to let You previously know the movement, in order to these provisions You will deem advisable to adopt.

Naturally, if above wish could not be met, this ministry will find itself in great difficulties to ensure order and discipline in penal institutes.

Communication on the subject, would be appreciated.

OSSERVIO: Trasferimento del personale di custodia delle Carceri,
Mezzi di trasporto.

Al fine di garantire il servizio carcerario della Capitale, che nell'attuale momento si è reso maggiormente delicato, questo Ministero ritiene di provvedere, coll'urgenza che il caso richiede, all'avvicendamento di parte del personale che non risponde col necessario senso di rettitudine alle attuali esigenze del servizio.

La sostituzione di detto personale avverrebbe con agenti di altri istituti.

Però, come è a conoscenza di codesta On.le Commissione, il servizio ferroviario non funziona regolarmente, e pertanto gli agenti trasferiti non potrebbero raggiungere la destinazione che con mezzi di fortuna e bastaanza onerosi; e poiché i medesimi per le loro modeste condizioni economiche, non sono in grado, trasferimento, se disposto, non potrebbe effettuarsi per la deficienza dei mezzi di locomozione.

Tale stato di cose mette in continuo interrizzo ~~degli~~ amministrazione, perché non sono pochi i casi in cui l'agente trasferito ad altra sede per ragioni di disciplina, non può eseguire l'ordine appunto per la deficienza dei mezzi sopra cennato.

Conseguentemente il servizio trasferimento del personale rimane quasi paralizzato con grave danno per l'ordine negli istituti carcerari.

...//...

Questo Ministero, pertanto, prega caldamente codesta Commissione di compiacerci, esaminare la questione e trovare modo di assicurare il trasporto degli agenti che, per ragioni di servizio, vengono di sovente trasferiti da una sede all'altra.

Il Ministero si riserverebbe di far conoscere preventivamente il movimento per le disposizioni che codesta Commissione riterrebbe di adottare.

E' evidente che se non si potesse venire incontro al desiderio su esposto, il Ministero si troverebbe in serie difficoltà per garantire l'ordine e la disciplina nei vari istituti carcerari.
Si gradirebbero comunicazioni in merito con cortese sollecitudine.

3. On 27 July 1944 Pass No. I.S. 7801 expiring 14 August 1944 was issued to CAMILLERA for "official work with prisons". This entitled CAMILLERA himself (not family) to travel with Chrysler motor car No. 79640 R.

4. Capt. Freeman, Prison officer Region I recommended the issue of a pass to CAMILLERA, and also endorsed his identity papers. He also informed CAMILLERA what constituted official business and it was specifically stated that private business or social journeys were prohibited.

5. As a result of the enquiries made it is clear that CAMILLERA was entitled to be in Sicily with his car between 27th July 1944 and 14th August 1944 on Prison business, any other travel or use was not authorised by Region I or the Ministry of Grace and Justice.

In reference to attached correspondence, the following is submitted:

1. Dott. Camilleri is a member of the Commissione Visitatrice e di Assistenza ai Carcerati; and as such carries his identity papers endorsed by the undersigned. He was given a single travel ~~PASS~~ permit by me to travel on official business from Rome to Naples only, on June 27, which expired on July 15. This pass was renewed, valid to Aug. 1, 1944, with the same stipulation only. Dott. Camilleri carries no valid travel permit from the undersigned, to travel to, or in, Sicily.
2. About August 1, Dott. Camilleri asked for permission to travel to Sicily. He was told that the Supt. of Prisons carried no authority outside of his specific jurisdiction, and that a trip to Sicily could be permitted only through other channels. Later, upon his presentation of a written request from the Ministero of Grace and Justice, testifying to the official nature of said trip, the undersigned sent Sig. Camilleri to the Permits and Passes Officer, RAAC, for consideration of his request.
3. Dott. Camilleri was told in this office that he would have to secure proper vehicle permits through the Via Tomacelli office, Rome. He was also informed what constituted official business and it was specifically stated that private business or social diversions were prohibited in any event.
