SUBJECT : PRISON Personnel
TO : Public Safety Sub-Commission, A.C., Pgs., Capt. Freeman

1. In reply to your letter AC/14240/PS dated 7 August 45, I wish to state that the guard situation in this Region has been pretty well adjusted. A shortage of guards on our arrival has been overcome by a proper enrollment of new guards. These men, after they have been passed by the Procuratore del Regno, Questore, and medico, are put into service awaiting final disposition by the Minister. In the meantime they have filled a very important gap and have made it possible for us to eliminate all auxiliary guards and police from almost all our prisons. The removal of these people; to my mind, was very important if it was hoped to re-establish the prisons. In view of this, I am now prepared to permit a limited number of guards from this Region, who live in the South, to return to their homes. From the very beginning no director in this Region was permitted to send any guards South without my approval and for this reason I have had very little trouble in this respect. From the start I personally thought that new guards in the service were preferable to what ever guards the Minister would send me if I made a request for such. From past experience I knew too that such a request would be very slowly full filled, if at all. I had the opportunity this morning to address 26 new guards at the Casa di Pena di Padova and I personally am more impressed with the new type than I am with the ones that have been in service. One very important thing is that these new men are not corrupted with the tinge of public accusation that is present against so many of the veteran guards. As time goes by many of the old guards will be investigated and discharged from service for deeds committed while the Fascists were in power.

2. This past week, in conjunction with the Legal Department, and approved by the Regional Commissioner, a Regional Inspector of Prisons was appointed to operate from the Procuratore Generale's Office. The Procuratore Generale had previously approved of this idea. This man is Grand'Uff. Dott. Roberto Mollame, who retired from the prison service in 1940 as a director first class after 40 years of service. He is a man very well thought of with a presentable and intelligent manner. I regarded this office as being necessary to enable the Procuratore Generale to be in proper touch with the prisons when this Region is handed over to the Italians. I suggest that the Minister of Grace and Justice be informed that we consider this position an

I regarded this office as being necessary to enable the Procuratore Generale to be in proper touch with the prisons when this Region is handed over to the Italians. I suggest that the Minister of Grace and Justice be informed that we consider this position an important one after we hand over and that he recognize the appointment. Dr. Mollame's first job was to take over the prisons of Padova City as Dr. D'Atri, the former director, is now under epuration.

69-5

3. Considerable work has been done to the Concentration Camp of Padova to establish it along semi permanent lines and at the present moment it is shaping up as one of the better prisons of the Region. This will afford space for 900 prisoners when completely finished. A very important addition to the prison space that now exists in this Region. Efforts are also being made to repair and clear out the Casa di Pena di Padova with the intention of placing all the prisoners of the Region in it that are serving sentences longer than 6 months. This is also progressing favorably.

(2)

4. Needed in this Region badly are two directors, one to report to the Casa di Pena di Padova, to relieve Dr. Mollame so that he may perform his regular duties, and one to relieve Dr. Tedda at Belluno in order that he may go to Venezia to assist Dr. Guccione in the administration of the 5 major prisons of that City. Several requests have been made for these men but no directors have been forthcoming. The re-establishing of the prisons have progressed very favorably here but the lack of sufficient regular prison directors plays a block in that way that should be easily removed. In view of the fact that so little has been asked of the Minister by this Region some extra push be applied to see that we get these two very much needed men.

5. The enrollment of new guards plus the fact that a number of other guards have lost everything due to the war, leaves us with many guards that have no uniforms. It is requested that some information as to what chances there are of obtaining material for such, be sent to this office. The new guards are of decent calibre and the uniforms would help considerably in keeping their morale up and jest in their work.

Reference our AG/14030/15 dated 9 July 1945.

1. In view of the shortage of prison guard personnel in your Region the following is brought to your attention for action as you find necessary.
2. RPSO's are advised that both administrative and guard personnel of prison establishments in all Northern Regions are either making direct applications for transfer to the Ministry of Grace and Justice (without the sanction or knowledge of the prison officer concerned), or are securing leaves of absence entirely on the authority of the civilian prison director.
3. As mentioned in our communication referred to above, this personnel presents all manner of excuse as to why the transfer or leave is necessary, and these applications commonly bear the endorsement of the Ministry before submission to this Sub-Commission for approval.
4. This Headquarters has consistently refused to approve these applications except with the endorsement of the RPSO concerned. In order to prevent the trickling of prison personnel out of the Northern Regions it is again suggested that Prison directors be

202

deprived of their authority to grant leaves of absence
and that direct application to the Ministry be prohibited.
It is felt that every prison official who is absent from
his post of duty in the Northern Region should be in
possession of documentation to prove that his presence
in Italian Government territory is sanctioned by the
Prison officer of the Region concerned.

2. It is suggested that Prison officials in AMG territory make their requests known to the AMG prison officer in their area who is authorized to grant such requests on his own responsibility. In such cases much time could be saved.

R O M E

The undersigned Caddeo Dr. Edoardo, Director
1st class at the prisons Bologna, at the moment on special
leave is setting forth as follows:

On June 24th 1945, owing to the doctors advices
treating my son Dante, I took him urgently to the sanatorium
of Vecchiazzano (Forlì).

He was taken ill three months before with a very serious
form of polisierosite (pleureisy?).

In that occasion I got an ordinary leave of 30 days, starting
from 23 June 45, from the General Dir. of the prisons.
Instead of getting better as hoped, my son's state of health
gradually was getting worse, so much so that his state
appears by now to be desperate.

Under the circumstances, the writer has neither
the strength, nor the quietness of mind, necessary to
resume his service at the Bologna prisons, as the thought
of losing his son, chief aim of his own life, is enough to
torture his soul, condition which only a father can understand;
for a/m reasons, he takes the liberty of begging earnestly
that a special leave of 30 days be granted to him, indispensable
to attend his son, in his perhaps last days of his life.

Attached herby a certificate of the Sanatorium
Manager, trusting in the benevolent consideration of the
Ministry.

I beg that communications be made through the
Direction of Forlì prisons, where I am temporarily staying.
