".....when I will be able to come we will think about that which must be done. Insofar as that which pertains to my coming, at the moment we are in the dark, because the occasion has not yet presented itself as I had already explained to you; afterwards we shall see; therefore, from your side, as soon as you receive this you will think of making the affidavit in this way I will be able to have it quick; on the other hand you find out whether or not it is permitted for you or Sandra to recall me with the arrangements I had already made I had already made up my mind that I would arrive suddenly in New York and this is how I could arrive suddenly, (but may be I will not do this so as not to upset you, but I will notify you by telephone as you have already told me). Ciccio who lives in Catania, has become acquainted with a friend who has a brother-in-law who deals in these aeroplane trips and may have come to the U.S. in this way quickly paying 30,000 lire and I will do the same as soon as I can contact this friend. Even in ships many many have come to the U.S. but because the fascists who would like to escape at present they have put into effect a very strict vigil therefore it is difficult to get space on the ship; that is why we may leave by a/c. You will understand that I am somewhat nervous in these times, thinking that all this projects are uncertain"
