SUBJECT: Petrol Coupons

TO : HQ Lombardia Region ANG
" Liguria " "
" Piemonte " "
" Venecia " "
" Emilia " "

1. After a careful examination of the possibility of adapting coupons now used in Lombardy Region for general use in the North it has been ascertained that more than two months would elapse before the first supplies could be made available.

2. A substantial reserve of the type of coupon booklet in current use in the South is now held in Rome and it has been decided, therefore, to utilise these for distribution in the North forthwith in order to achieve unity of system throughout the whole of Italy at the earliest possible date.

3. A schedule is attached (A) showing what quantities are being sent to each individual Regional HQ and it is estimated that these will be sufficient to cover about 2 months needs, taking into consideration allocations made to each Region and the fact that vehicles in ANG truck pools will not normally need to be issued with coupons. It is anticipated that despatch can be effected in about one week's time.

4. In order to take care of future supplies up to the end of the year a reprint has been ordered to cover the needs of the whole of Italy and further quantities can be made available to all Regions during the first week in September. It would help us to guard against possible shortages if all Regions would re-estimate their needs up to the end of 1945 and send in up to date requirements after allowing for the quantities now being

despatched. Remaining supplies of present type Ration Cards in use may naturally be used up before the new booklets are issued and stocks should be taken into account when making up estimates.

5. Two further schedules are attached showing (B) full list of types of booklets in use and (C) general instructions for use as sent out by Ministry of Industry and Commerce to all issuing authorities in Italian Government area. These instructions are sent for guidance and it is suggested that they should be observed as closely as possible in all Regions so that the rationing system will be in line with that which will operate under the Italian Government when the time comes to hand over the territory.

6. Military Contractors Coupons. Supplies of these are being sent to Regional Engineers in charge of Military Contractors by P.W.B. Sub-Commission and will be issued immediately to a limited number of contractors now engaged on Military Road works. This should be brought to the attention of local CIP offices with instructions that such coupons be honoured when presented. Military contractors' coupons are only issued through the Military office in charge of specific contracts and a general supply is not being sent to all Regions for this reason.

7. Allocations to Industrial and Agricultural users: Forms ACC Pet 2a and ACC Pet 3 will continue to be used for these purposes.

8. Methane Gas Ration Cards will also be supplied through this office in future for all Regions and a limited quantity is now available printed on the same watermarked paper as used for coupons. Please include requirements in the estimate requested under para 4.

9. It is left to the discretion of each Regional HQ to fix the date when the new coupon booklets will begin to operate and to inform all local CIP offices accordingly.

1. — A partire dal 1° luglio 1945 andranno in vigore i nuovi permessi di circolazione, e dal 1° giugno i buoni di prelevamento carburanti e lubrificanti, da distribuirsi secondo le norme appresso indicate, valevoli per il quadrimestre giugno-settembre 1945.

Per opportuna norma, si comunica l'elenco dei moduli, che questo Ministero sta approntando ed, in allegato, i quantitativi, con la relativa numerazione, che verranno destinati agli Uffici Provinciali dell'Industria e Commercio ed agli Ispettorati Compartimentali della M. C. T. C.

2. — PERMESSI DI CIRCOLAZIONE AUTOVEICOLI.

Modello	*Descrizione*
1. P 1	*Permesso di circolazione normale per gli autoveicoli azionati con combustibili liquidi* — con due sbarre colorate in verde-bandiera, spostate leggermente al centro, in modo da lasciare un margine bianco ai lati.
1. P 2	Copia del modello 1 P 1. — (non porta la colorazione).
1. P 3	*Permesso di circolazione per gli autoveicoli delle Amministrazioni Centrali dello Stato* — con due sbarre colorate in verde bandiera, spostate leggermente al centro, in modo da lasciare un margine bianco ai lati ed una S. colorata in verde bandiera al centro.

Modello	*Descrizione*
1. P 4	Copia del mod. 1. P 3 (non porta la colorazione).
1. P 5	*Permesso di circolazione per gli autoveicoli azionati da qualsiasi tipo di combustibile e con validità non superiore ad un mese* — con due sbarre colorate in verde bandiera, spostate leggermente al centro, in modo da lasciare un margine bianco ai lati ed una T colorata in verde-bandiera al centro.
1. P 6	Copia del modello 1. P 5 (non porta la colorazione).
1. P 7	*Permesso di circolazione per gli autoveicoli in servizio del Corpo Diplomatico* — con due sbarre colorate in verde bandiera, leggermente spostate al centro, in modo da lasciare un margine bianco ai lati ad una CD colorata in verde bandiera al centro.
1. P 8	Copia del mod. 1. P 7 (non porta la colorazione).
1. P 9	*Permesso di circolazione per gli autoveicoli azionati a gas metano, legna e carbone* — con due sbarre colorate in verde-bandiera, leggermente spostate al centro, in modo da lasciare un margine bianco ai lati ed una G colorata in verde-bandiera al centro.
1. P 10	Copia del mod. 1. P 9 (non porta la colorazione).

Il mod. 1 P (richiesta di un permesso di circolazione) resta invariato, salvo che si è ritenuto opportuno aumentare alcune voci necessarie per le notizie relative all'accertamento della utilità del rilascio del permesso di circolazione.

3. — BUONI PRELEVAMENTO CARBURANTI E LUBRIFICANTI PER AUTOVEICOLI, DA RILASCIARSI AI POSSESSORI DEI PERMESSI DI CIRCOLAZIONE — ESCLUSE LE AMMINISTRAZIONI CENTRALI DELLO STATO.

Data l'esperienza del precedente quadrimestre, si è ritenuto opportuno semplificare i modelli e diminuirne il numero includendo in ciascun modello anche i buoni dell'olio lubrificante, in percentuale al carburante. Tale sistema dovrebbe agevolare il compito degli Uffici emittenti, nell'intendimento di ridurre al minimo possibile il tempo occorrente per la consegna dei buoni agli interessati.

BENZINA.

Blocchetti con copertina colore camoscio, contenenti buoni benzina in carta verde speciale U. S. A. e buoni olio in carta comune bianca, stampa in inchiostro nero. Ogni buono porta il riferimento « Mar 45 » della serie di emissione in calce e attraverso la perforazione tra matrice e figlia.

Come appresso specificato, ogni blocchetto porta accanto al numero del modello una cifra, indicante il totale delle unità contenute dal blocchetto stesso (esempio: P.B. 1-25 contiene 25 unità benzina).

GASOLIO.

Blocchetti con copertina colore verde chiaro, contenenti buoni gasolio in carta speciale verdina U. S. A. e buoni olio in carta comune bianca, stampa in inchiostro nero. Ogni buono porta il riferimento « Mar 45 » della serie di emissione in calce e attraverso la perforazione tra matrice e figlia.

Come appresso specificato, ogni blocchetto porta accanto al modello del blocchetto una cifra indicante il totale delle unità contenute dal blocchetto stesso (esempio: P.G. 1-25 contiene 25 unità di gasolio).

Modello	Numero buoni gasolio per ogni blocchetto da				Numero buoni olio per ogni blocchetto da		
	5	10	20	25	½	1	3
	Unità				*Unità*		
P.G. 1-25	5	—	—	—	2	—	—
P.G. 2-50	—	5	—	—	3	—	—
P.G. 3-100	—	—	5	—	—	3	—
P.G. 4-250	—	—	—	10	4	—	2

Tanto i blocchetti della benzina che quelli del gasolio, hanno una numerazione progressiva per ogni modello, così come i buoni in essi contenuti. Allo scopo di poter individuare eventualmente chi ha ricevuto un blocchetto, conoscendo il numero del buono, si potrà operare come al seguente esempio:

Mod. P.B. 1-25 — ogni blocchetto contiene:

5 buoni di benzina da 5 unità
2 buoni di olio da ½ unita.

Per conoscere il numero della copertina del blocchetto e quindi il possessore del buono, dividere il numero del buono benzina per 5; il numero del buono olio per 2.

Il quoziente rappresenta il numero della copertina. Quando la divisione da un resto, aggiungere al quoziente 1, la somma risultante sarà il numero della copertina.

Per gli altri modelli operare in modo analogo.

4. — NORME PER L'UTILIZZAZIONE DEI BUONI DI PRELEVAMENTO CARBURANTI E LUBRIFICANTI.

a) Gli Enti che rilasciano i buoni di prelevamento carburanti e lubrificantti sopra descritti sono:

— gli Uffici Provinciali del Commercio e dell'Industria;

— gli Uffici Provinciali dell'E. N. A. C. (Ente Nazionale Autotrasporti Cose).

Nelle provincie in cui l'E. N. A. C. non ha iniziato il funzionamento, provvederà al rilascio dei buoni carburanti e lubrificanti soltanto l'Ufficio Provinciale del Commercio e dell'Industria.

I quantitativi dei blocchetti di buoni di prelevamento carburanti e lubrificanti, saranno inviati con le modalità di cui al paragrafo 5 della presente circolare agli Uffici Provinciali del Commercio e dell'Industria.

Le Direzioni Provinciali dell'E. N. A. C., nel periodo dal 25 al 30 di ogni mese, ritireranno presso gli Uffici Provinciali Commercio e Industria il quantitativo di blocchetti corrispondenti all'assegnazione di prodotti petroliferi per il mese successivo, dietro rilascio di regolare rice-

Declassified E.O. 12356 Section 3.3/NND No. 785016

vuta, in cui deve risultare il quantitativo dei blocchetti di buoni, suddivisi per modello e la loro numerazione.

b) Su ogni buono di prelevamento di carburante e lubrificante deve essere impresso tra la matrice e la figlia il timbro a secco dell'Ufficio emittente:

— Ufficio Provinciale del Commercio e dell'Industria

— Ufficio Provinciale dell'E. N. A. C.

c) Il mese di utilizzazione deve essere indicato a mezzo di timbro rotondo speciale, portante l'indicazione dell'Ufficio emittente ed il mese di validità. (I timbri di cui sopra sono stati forniti da questo Ministero agli Uffici Provinciali Commercio e Industria — per l'E. N. A. C. ha provveduto la Direzione Generale dell'E. N. A. C.).

d) I buoni non spendibili saranno annullati, tagliando metà del buono (figlia), seguendo la tranciatura al centro del buono stesso.

f) Soltanto l'addetto al « distributore » staccherà, all'atto della consegna dei carburanti, i buoni nell'ordine progressivo indicato dalla numerazione.

L'Ufficio emittente può autorizzare eccezionalmente il prelievo del carburante a mezzo fusti o bidoni, mediante apposizione sulla pagina n. 4 della copertina del blocchetto del prescritto timbro rettangolare bilingue, già fornito da questo Ministero agli Uffici Provinciali Commercio Industria.

g) Nessun buono può essere speso isolatamente, all'atto del prelevamento del carburante.

h) Il blocchetto usato, contenente le matrici e gli eventuali buoni annullati, dovrà essere restituito dall'utente, all'Ufficio emittente (Ufficio Provinciale Commercio Industria o Direzione Provinciale E. N. A. C.) per poter aver diritto al ritiro della nuova assegnazione di carburante.

A fine mese, la Direzione Provinciale dell'E. N. A. C. presenterà all'Ufficio Provinciale del Commercio e dell'Industria il rendiconto dei blocchetti, utilizzati nel mese, versando i blocchetti usati e restituiti dagli utenti.

5. — Data la difficoltà dei trasporti, si è ritenuto opportuno decentrare la stampa dei permessi di circolazione, dei buoni di prelevamento carburanti ed altri moduli in quattro zone:

ROMA: a cura di questo Ministero;

NAPOLI: a cura dell'Ufficio Provinciale Commercio e Industria;

PALERMO: a cura dell'Alto Commissariato della Sicilia;

CAGLIARI: a cura dell'Alto Commissariato della Sardegna.

Pertanto, ogni provincia farà capo per il rifornimento degli stampati alla zona assegnata e che qui di seguito si delimita:

a Roma faranno capo: Ancona - Aquila - Arezzo - Ascoli Piceno - Chieti - Frosinone - Grosseto - Latinia - Macerata - Perugia - Pesaro - Pescara - Rieti - Roma - Siena - Teramo - Terni - Viterbo - e le provincie dell'A. M. G.;

a Napoli faranno capo: Avellino - Bari - Benevento - Brindisi - Campobasso - Catanzaro - Cosenza - Foggia - Lecce - Matera - Napoli - Potenza - Reggio Calabria - Salerno - Taranto;

a Palermo faranno capo: Agrigento - Caltanissetta - Catania - Enna - Messina - Palermo - Ragusa - Siracusa - Trapani;

a Cagliari faranno capo: Cagliari - Nuoro - Sassari.

6. — Per oportuna norma, si descrivono qui di seguito i modelli dei blocchetti di buoni di prelevamento, che saranno posti in circolazione dagli Organi Alleati per:

TO : HQ. Venezie Region AMG
(Attn. Regional Commerce Div.) .

1. Several requests have come through to this Sub-Commission recently from you through Public Safety Sub-Commission for a supply of P.O.L. forms in general - your RXII/PS/I5.IO dated II July 45 to P/S Sub-Commission refers.

2. It must be pointed out in this connection that, in the same way as all other Northern Regions, you have been kept fully posted on development of plans for POL forms to be used in the North but have failed so far either to send us any report on rationing progress or any request for definite sets of forms required in connection therewith.

3. Circulars sent out to all Northern Regions (including Venezia) and other correspondence exchanged on this matter are listed below:-

June report re lack of POL forms.

4. There are 3 types of Green Circulation Permit in current use all over Italy .

I-P-1 and	I-P-2	Ordinary Permits
I-P-5 "	I-P-6	Temporary "
I-P-9 "	I-P-10	Methane Gas "

These can all be supplied from this office immediately if quantities required of each are stated. In view of the Methane Gas situation in Venezia Region it is impossible for this Sub-Commission to guess at the distribution required of the 20.000 permits requested in your letter mentioned in Para 1.

5. Supplementary supplies of other forms for bulk allocations to Industrial and Agricultural users as well as form of application for circulation permits should be printed locally as has been done in all other Northern Regions.

6. Coupon booklets and Methane Gas ration cards can be supplied from this office - this is a recent decision and a further circular in this connection will be issued shortly.

SUBJECT: Circulation Permits .

TO : H. Q. Emilia Region A.M.G.
(for A/R.F.S.O.)

1. Your R. IX/PS/4 (2)/136 of 11 June 45 refers .

2. The request for a further 10,000 Ordinary Permits contained in your para 2 is noted and it is desired to call to your particular attention the remarks made in para 5 of our AC/5087 dated 30 May 45 re careful screening.

3. Experience in Southern Italy has shown that the average number of permits issued per province to cover essential circulation is around 1000 and with 8 provinces 8000 would be the corresponding total requirement for Emilia Region. In all 11,000 Ordinary and 5,000 Temporary permits have already been sent to you of which 11,000 are valid until the end of December.

4. The issue of Circulation Permits is conditional upon there being POL supplies available to provide a ration and since it is believed that in Emilia the supply situation is still below normal the expectation was that fewer than the average number of permits would be required at this stage rather than the reverse.

5. The total number of Permits printed was based on the above assumption and the stock remaining is not sufficient to take care of your request in full for the time being. A parcel containing a further 2,000 Ordinary permits is being sent to you to tide over any possible emergency and a new order is being placed to cover future

1. Following negotiations with the Italian Government it has now been decided that the validity of yellow circulation permits at present current in all Southern Regions will be extended until June 30th and that the new series effective 1 July 45 will have six months validity instead of four.

2. The latter series is at the point of completion and the quantities ordered include reserve stocks which were estimated to cover three months needs in the North at the time the order was placed though it was not known then when they could be introduced.

3. It is thought likely that by this time more accurate data has become available and, so that we can be certain of having sufficient forms in reserve when the time comes it is requested that you let us have, as soon as possible, an up to date estimate based on the sizes of booklets shown on the attached sheet. It is suggested that you base your estimate on a 3 months period.

25 May 1945

SUBJECT: POL Supplies and Motor Vehicles Control.

TO : Piemonte Region
(Attn. Col. Reiter)

see 83 P

1. Your letter of 19 May '45 and enclosure refers also various other letters about Circulation Permits and Coupons.

2. I believe we have answered your queries about the letter although frankly we are in a difficult position over supplies at the moment as the current licensing period has been extended until 30 June and has caused a heavy drain on supplies which are now entirely exhausted. The new issue is not yet ready due largely to fantastic delays in getting anything done in a business like way down here.

3. Apart from the question of supplies we are most anxious that nothing should be done in the North which might result in the same state of chaos in Motor Vehicle Control and black marketing which occurred in Rome and Naples.

4. It has therefore been our thought that the Northern Regions (including Emilia) should continue to operate on the types of Circulation Permits and Coupons they already have (obsolete patterns formerly used in the South) until a sufficiently stable state of affairs exists for a thorough screening and reissue of Permits which will then remain valid until the end of the year.

5. On the other hand this interim period should not last too long as it is desirable that the issue of the

§ 2

./.

1049

Declassified E.O. 12356 Section 3.3/NND No. 785016

new Series Permits should be effected under AMG Control and not left until after the Italian Government have taken over.

6. It is therefore requested that you will let us know your thoughts on the matter and say what you consider would be a suitable date for the issue of the new Series.

7. POL supplies for Emilia and indeed for the whole of the North are critical and dependent on what has been found there plus what it has been possible to move into the area (inspite of transport difficulties) plus occasional help from the Armies. In the case of Piemonte it is hoped to make some temporary supplies available from Milan and to change over later to supplies from Genoa. At the moment you are unfortunate owing to your geographical position.

8. Detailed control over both allocations and supplies will be from an office which Petsec are opening in Genoa headed by Col. King who will have representatives in Emilia and Venezia Regions. He is doing everything possible to help you and your problems were discussed when he was here.

1. Our letter AO/5037 of 25 May addressed to Lagos (copies to all U.S. Posts) and AO/5037 of 14 May to addressees to all U.S. Missions refer.

2. We have just been informed that Immigration Service obtained a supply and put to hand the printing of a supply of the new series circulation permits (which are aimed for issue in the sub Area July 1st onwards) and intend to issue these immediately.

3. In view of this development it is felt since certain Governments may wish to effect the change over to the new series without further delay as soon as the supplies requested in our letter of the 14th are received, therefore, we could send out immediately the supplies of Embassy and Temporary permits required and leave it to each Post individually to decide when they will be issued. A special supply of certain Circulation Permits being printed in Lagos and Liberia should be placed on U.S. Embassies Region (Annexes XIV.) by all regions (excluding India) where Letters are already being used.

4. For India Region - A parcel containing an initial supply of various Visa Permits and Entry Cards for the Bolgana Province is being sent to you from this U.S. and a further quantity is on order to cover your future requirements in other areas.

5. Specimens of the new type permits (primary, temporary and extension) are attached and the importance of careful scrutiny is again emphasized since these will be valid for six months and no further opportunity to review applications for renewals or new permits will occur before the end of the year.

6. In regard to patrol coupons the situation is explained in our LM/WIRE dated 21 May 43 addressed to Immigration Region (Boston to Ft. Kent, Maine). It is hoped that a decision can be taken as to what general plan will be followed in the north during the next ten days and that, in the meantime, all Regions are well covered with stocks of the old type during so long until such time as stocks of whatever new type is adopted can be made available.

7. For Immigration Region : Your decision is noted and approved though it is requested that you did not advise us before printing locally in view of the contents of our letter dated 21 May.

Pistoia	2000	4000	1000	2000

2. Each parcel will be delivered to the respective Provincial H.Q. marked "for attention P.S.O." - please advise each Provincial Officer accordingly.

3. Reference para 5 of our letter 5087 dated 22 May 45 it has now been agreed with Italian Government that this new series will definitely be valid for six months i.e. for the period 1st July - 31st December, the main object being to provide ample time for careful screening both of renewals and new applications. It is requested that you bring this to the notice of all Provincial Offi- 6510
cers concerned emphasizing that the maximum use must be made of the extra period allowed for screening to weed out all doubtfull applicants and so bring about a reduction in the number of vehicles circulating irregularly.

SUBJECT: Circulation permits .

TO : H.Q. Emilia Region (Attn. R.P.S.C.) .

1. Your letter R/IX/PS/4/92 of 8 May 45 and our reply AC/5087 dated 21 May refer also our 5087 of 25 May 45 to Piemonte Region (Copy to you).

2. As you will see from para 4 of the latter our original thought was that Emilia should be included with the 4 Northern Regions where the old type of circulation permit is being used as a temporary measure. It is now realised, however, that in the southern provinces of your region current yellow permits have been in use for some time and that you require extra supplies which unfortunately are not available.

3. In order not to complicate your situation, therefore, the best solution appears to be to send you a supply of the new type permit which normally will be issued in Southern Italy only for the period 1st July to 31st December. This type will eventually be extended to the North as soon as sufficient control over circulation of vehicles has been established so that their immediate use in your region will not unduly complicate the general situation.

4. A parcel containing the following quantities is being addressed to you marked "Attention R.P.S.C."

Ordinary		Temporary	
I-P-1 (original)	10000	I-P-5 (Original)	5.000
I-P-2 (record card)	20000	I-P-6 (Record card)	10.000

5. In view of the fact that the validity of this type is six months instead of four it is essential that maximum care should be taken over screening before issue since no further opportunity to review applications will normally

TO : HQ LIGURIA Region AMG/AC
(for Regional Commerce Officer)

1. Your signal No. 44 of 13 May '45 (received in this office on 20 May 45 only) refers.

2. As explained in our AC/5087 of 25 April 45 it is not desired that circulation permits current in the Southern areas be issued in the North for the time being. In any case we have no further stocks of the present yellow type available but an added reason for this decision is that negotiations now in course with Italian Government will probably lead to an general extension of the period of validity of permits to 6 months.

3. In view of the above the new series now in course of print will not come into force until 1st July and it is highly undesirable that they should circulate in Northern Areas before that date.

4. When writing our letter of 25 April it was hoped that the old stock of AGO/PER 4 and 5 combined would be sufficient for your needs at least for the first 2/3 months. If this proves not to be the case the only way out is to print an extra supply locally until such time as the new series permits come into general circulation. It is pointed out in this connection that under the present emergency system you are in a position to attach whatever period of validity you deem necessary to

1. Our signal 7869 dated 17 May 45 refers also conversation Maj. Dring/Capt. Cowlin.

2. Under separate cover we have sent you today the following supplies of new type Circulation Permits for Florence Province.

1 - P - 1	2000	(Ordinary)
1 - P - 2	4000	(Record cards)
1 - P - 5	2000	(Temporary)
1 - P - 6	4000	(Record cards)
1 - P - 9	4000	(Methane Gas)
1 - P - 10	8000	(Record Cards)

3. It is understood that the validity of the present yellow series will expire in Florence Province only on May 31st so that steps should be taken immediately to proceed with the screening of all permits with a view to replacement by the new series (green border) as from June 1st.

4. It is further understood that this opportunity will be taken to withdraw permits from those vehicles still running on Petrol but which have at any time previously run on Methane Gas until such time as the necessary retransformation has been effected. You will notice, in this connection that the number of Forms 1 - P - 9 (Methane Gas) sent to you has been increased at the expense of 1 - P - 1 (Ordinary) and 1 - P - 5 (Temporary).

5. At the present time negotiations are taking place between this Subcommission and Italian Government which

6707

./.

1061

Declassified E.O. 12356 Section 3.3/NND No. 785016

will probably result in the validity of all permits in future being extended to six months instead of four. Though no decision has been made as yet it will eventually effect the new series (green border) when taken and we are sending you this advance information as an added reason why particular case should be taken over screening before re-issuing in doubtful cases. It is very probable that the next opportunity for putting the brake on unnecessary circulation will not occur before the end of this year.

SUBJECT: Circulation Permits & Petrol Coupons new series May/August 1945.

TO : Ministry of Industry, Commerce and Labour. see 65

1. Reference conversations Dr. Beltrami-Capt. Cowlin the following arrangements should be made when printing the new series Circulation Permits and Petrol Coupons for the period May/August 1945.

2. Circulation Permits.

(a) The following warning should be printed on the reverse side in English and Italian.

" Questo permesso non autorizza in nessun caso il passaggio di persone in zone ove si richiede un permesso di movimento personale a meno che esse si siano munite preventivamente di tale permesso regolarmente rilasciato."

" This permit does not authorise the movement of any person in any case in which a Movement of Civilian pass is required unless such person is in possession of such a Pass"

(b) Please arrange the text on the back so as to leave a blank space at least 7 mm. deep at the foot.

(c) The colour bar should be moved inwards as near as possible by I cm.

(d) The printing of the colour bar should be left until the last operation as a security measure against possible forgery. The printers should not be advised what the colour is to be until the last minute.

(e) Please prepare a draft showing the slight changes in wording you have suggested so that such changes can be approved.

(g) The same text will be printed inside both front and rear covers as for the present series.

(h) Use double clips instead of single when binding as complaints have been received that covers get too easily detached in the case of the present series.

4. In addition to the above a further series of booklets is required on which the name of the product is to be left in blank as per attached specimen. These are for use of Military Contractors when drawing products other than Petrol, Gas oil, or Lubricant oils and will therefore be printed in RED. It is suggested that the ref. P.D. be given to this series and details of requirements are as follows:

The need for this series is urgent and it is requested that you give it precedence so that at least a part of the supplies indicated can be made available for distribution, before April 1st. The same paper may be used as for the current series of Military Contractors coupons.

5. The present series of coupons for Methane Gas has proved to be impractical and it is desired to substitute a card system.

A specimen card has been drawn up by CIP and was delivered by hand to Dott. Beltrami . It is suggested that these be printed on the same paper as is used for coupons and folded in the middle to afford protection to the fly coupons for Lub. Oils.

Please submit a proof when ready for final approval.

The initial quantity of cards needed is 25.000.

6. Your attention is drawn to inaccuracies in printing which occurred for the last series and to the necessity for a rigid control to avoid their repetition.

(Attn: Major A.S.Brereton)

1. Your AC/5087/Commerce/POL 13, dated 20 Feb., refers.

2. The present layout of motor vehicle circulating permits is satisfactory to this Sub-Commission, but please see paragraphs 3 and 4.

3. Permits issued for circulation in "Liberated Italy" have been produced as purporting to authorize civilian travel in Army and Restricted Zones. In order to offset this tendency, it is requested that the back of the permits be endorsed as follows:-

"Questo permesso non autorizza in nessun caso il trasporto di persone, a meno che queste non siano provviste di un regolare permesso di viaggio."
This permit does not authorise the movement of any person, in any case in which a Movement of Civilian pass is required, unless such person is in possession of a pass.

4. With regard to the coloured vertical bars shown on permits it is suggested that these bars be inset ½ from the edges of the permits for half an inch; it is felt that this will make the bars stand out more distinctly.

SUBJECT: Circulation Permits

TO: Tuscana Region (Attn. S & S)

cc.

1. Your signal S3/110, 13 February 45, stating that Arezzo Province reports that they cannot change circulation permits to the new type in three days, is not understood. A supply of circulation permits were sent out to Tuscana Regional Headquarters for all provinces on 20 December, and we can see no reason why there should have been this delay in Arezzo, having regard to the fact that existing instructions called for them to be in use by the first of February.

2. It is requested, therefore, that some investigation may be made as to why no action has been taken to comply with the instructions and that immediate steps may be taken to have the matter dealt with expeditiously.

2. Of the forms listed on the latter Nº I, 2Y 7a and 2 only are still valid whereas the remainder have been replaced by the new coupon booklets and permits described in POL 15.

3. The supplies of the original forms were distributed at the time to each Regional H.Q., whereas a reserve stock of the new type coupon booklets and permits is held by Ministry of Industry, Commerce and Labour to cover the estimated needs of all Northern Regions.

4. With a view to checking whether a sufficient reserve has been constituted in case of a sudden call it is desired to know whether you can now give us an up to date estimate of the number of each type of form you might require before the end of the present rationing period i.e. April 30th.

SUBJECT: Supply of P.O.L. Forms .

TO : R.P.S.O. Piemonte Region .

1. We have been advised by Public Safety Sub-Commission that in your opinion the allotment of P.O.L. forms set aside for use in Piemonte is insufficient and that the probable registration of 5.000 vehicles should be covered.

2. This seems a very fair contention but it is pointed out that the quantities indicated in Para 2 of our circular letter 27th September 1944 are PER PROVINCE and that Piemonte Region includes 7 provinces in all.

3. After rounding up to the nearest 500 the total quantities of Circulation Permits set on one side for your use were 7000 Ordinary and 2500 Temporary and since other forms issued were in proportion these should cover the possible registration of 9.500 vehicles in all i.e. nearly twice the number now requested.

4. It is understood that the above supplies are already held in reserve at your Advance H.Q. but it must be pointed out that all are of the old type and no longer valid with the exception Items 1, 2, 2a and 3. A reserve supply of new type Petrol Coupons and Circulation Permits has been printed and is now held by Ministry Industry, Commerce and Labour whilst details of these new types were given in our circular letter AC/5087/Commerce/POL 15 dated 14/12/44 of which copy is attached.

57C

5. It is suggested that you should now study this whole question more in detail and advise us the approximate quantity of each new type booklet and Circulation Permits you anticipate needing to cover Regional requirements when the time comes so that we can arrange for these to be earmarked

I. It is intended to introduce a new type of Petrol coupon effective I January I945 having the advantage of greater flexibility than the existing type whilst retaining the same advantages.

2. Each coupon will be for a given number of UNITA' (instead of LITRI) so that, if necessary, their value can be changed overnight should stocks necessitate it. Normally I UNITA' = I LITRE.

3. The coupons will be available in 5, I0, 20 and 50 unità. They will normally be made up in booklets measuring I0 cm. X 6 cm. of five coupons each, so that individual booklets will total 25,50,I00 and 250 litres.

4. Each booklet will also contain an appropriate number of duplicating oil coupons on the basis of 3 % of the fuel validity. Each coupon is serially numbered and has a stub (like a check book) from which

I. It is intended to introduce a new type of Petrol coupon effective I January 1945 having the advantage of greater flexibility than the existing type whilst retaining the same advantages.

2. Each coupon will be for a given number of UNITA' (instead of LITRI) so that, if necessary, their value can be changed overnight should stocks necessitate it. Normally I UNITA' = I LITRE.

3. The coupons will be available in 5, IO, 20 and 50 unità. They will normally be made up in booklets measuring IO cm. X 6 cm. of five coupons each, so that individual booklets will total 25,50,I00 and 250 litres.

4. Each booklet will also contain an appropriate number of lubricating oil coupons on the basis of 3 % of the fuel validity. Each coupon is serially numbered and has a stub (like a check book) from which it can be detached. Cancelled (no validity) coupons are left in the book but are torn in half and the book with all stubs and cancelled coupons intact must be presented for renewal monthly.

5. The cover of the booklet carries details of the owner, his vehicle, quantity allocated, aerial numbers of the coupons and instruction for use. Coupons of 5,I0,20 or 50 litres are each printed on a special colour paper and put up in covers of a distinctive colour to facilitate quick handling. The cover carries a colour identification corresponding to that on the current Circulation Permit.

6. Coupons for special users (Military Contractors, Vatican, Diplomatic Corps etc...) conform to the general scheme but are printed in special coloured ink. Where coupons are issued in bulk for distribution singly to individual vehicles, they are made up in books of fifty (coupons) and each coupon and its stub carries details of the vehicle to which it was issued.

Declassified E.O. 12356 Section 3.3/NND No. 785016

7. Coupons are available for Benzina, Gasolio and Gas (Methane).

8. Circulation Permits remain generally as before and special categories are suitably overprinted (C.D. G. etc.). The code colour will be changed w.ef. I January 1945 and a Circulation Permit overprinted G. is introduced for all vehicles licensed to operate on bottled or producer gas. The temporary Circulation Permit overprinted T is retained.

9. Circulation Permits are already printed and will be dispatched in a few days and the petrol coupons will follow. Special category coupons may be delayed until near the end of the month. No action by Regions is necessary as supplies will automatically be sent to them.

1. The R.P.S.O., Piemonte Region has referred us to your letter AC/5087/Commerce, dated 27 September, 1944 (copy not held by this Sub-Commission) in which details are given of the allotment of P.O.I. forms to Regions.

2. The R.P.S.O. points out that the present allotment of forms is inadequate for their contemplated requirements. He suggests that provision should be made to deal with the registration of at least 5,000 motor vehicles. This estimate is considered a very conservative one having regard to the fact that 95,316 vehicles were registered in the region on 31 December, 1942.

3. Will you please arrange for the R.P.S.O. to be furnished with a supply of P.O.I. forms sufficient to enable him to deal with 5,000 motor vehicles.

1. Ref. ACC/5087/Commerce dated 27/9/44 giving particulars of the allotment of Ration forms and Circulation Permits for motor cars which we have received.

2. The Commerce Division has now given us particulars of the vehicles known to be in Piemonte Region up to 31/12/42. This report gives a total of 95,316 motor vehicles. Assuming that the figure is immensely lower at the present moment, it is likewise obvious that the allotment of forms received vide above mentioned letter is going to be far below our likely need.

3. Are you making any sort of distribution to Regions please? or do you want a "bid" from this HQ. In the latter event we shall need sufficient forms to cope with a registration of at least 5,000 motor cars, which is just over 5% of cars formerly used in the Region.

SUBJ. : Circulation of motorcars - Allotment of petroleous products - List of forms.

1°) The Interministerial Commission for Liquid Combustibles, met on 25 November 1944 and has deliberated about the issuing of motorcar circulation permits; it has been decided to keep in force the R.D.L.5 May 1944, n.133, bringing several modifications to the procedure of the examinations of applications, in the sense that, the opinion of the Prov. Offices of Industry and Commerce on each application, will have a binding force so far as the opportunity of issuing them is concerned. No change is brought to the authority of the Compartimental Inspectorate of Motorisation of submitting the issuing of the permit to the state of efficiency of the motorcar. Consequently, an application, can be rejected by the Inspect. of Motorisation only if the motorcar has not the technical requisites foreseen by the laws now in force.

It is agreed that, the Provincial Offices of Commerce and Industry, in examining the applications for permits, will bear in mind the absolute necessity of reducing to the minimum the consuption of benzine and of avoiding that motorcars, instead of being used for the exigencies of industry and commerce, according to which they have been asked, may be used for the clandestine traffic of stuffs or anyhow for an activity different than th ausual one of the owner of the motorcar.

RULES FOR THE UTILIZATION OF COUPONS FOR DRAWING CARBURETTING

A) The Offices which have authority of issuing above mentionned coupons for drawing carburetting are : the P.O. of Commerce and Industry for motorcars and little trucks; the M.A.C. for trucks.

The tax of 0,35 lire per liter will be payed when the block is issued and - partially modifying the directions about the stamping of the receipt on the back of the carburetting card - a regular receipt will be delivered for any amount of taxes. Its printing will be arranged by the P.O. of Comm. and Ind.

In those Province in which M.A.C. has not yet started running, all coupons for drawing carburetting will be issued by theP.C. for Ind. and Comm.

B) - For what concerns coupons allotted by the M.A.C.,the following procedure will be enforced :

In the period from the 20 and 30 of each month,the P.O. of Comm. and Industry,will deliver to the M.A.C. prov.Direction the quantity of blocks equal to the quantity of petroliferous products allotted for the following month and a regular receipt of this will be given,in which it will be marked the number of blocks subdivided in types and their number,and the amount of the taxes due.

Each coupon dullvered to M.A.C. will bear a seal stamp of the Prov.C.for C.and Ind.,on the both parts of it.

In case that, substractions of carburetting will be made from other sectors on behalf of the same,the P.O. for Ind. and Comm. will deliver some many blocks as the quantity of substracted products and a regular receipt will be given.

At the end of each month,the M.A.C. prov.Dir. will show to the P.O. of Comm. and I.,a return of the blocks used in the month,~~with the~~ and will pay the total sum of taxes equal to 0,20 lire per liter or kilo of petroliferous product,keeping the quote of L.0,15 per liter or kilo.

In this connection we point out that,while the P.O. will issue to the M.A.C a receipt for the quote of 0,20 lire per liter or kilo, the M.A.C will give to the assegnees of the carburetting a regular receipt for(0,35 lire per liter or kilo) the all amount received.

The expence for the printing of the receipt forms,willbe at burden of the M.A.C.

The P.O. of Comm. and Ind.,in ~~the~~ delivering the blocks to M.A.C. forthe following month, will keep an account of the quantities not used by the M.A.C prov.Dir.,during the month.

The sum of 0,20 payed by the M.A.C will be ~~marked~~ sent to the Interministerial Commission for Liquid Combustibles,through a payment made on the postal account n.1/29600 with the Chamber of Industry and ~~Commerce~~ of Rome,account for Liquid Combustibles.

following [illegible]
will be marked the number of blocks subdivided in types and their number, and the amount of the taxes due.

Each coupon delivered to MAC will bear a stamp of the Prov.O.for C.and Ind.,on the both parts of it.

In case that, substractions of carburatting will be made from other sectors on behalf of the latter, the P.O. for Ind. and Comm. will deliver some duty blocks as the quantity of substracted products and a regular receipt will be given.

At the end of each month, the MAC prov.Dir. will show to the P.O. of Comm. and I.,a return of the blocks used in the month, with the and will pay the total sum of taxes equal to 0,20 lire per liter or kilo of petroliferous product, keeping the quote of L.0,15 per liter or kilo.

In this connection we point out that, while the P.O. will issue to the MAC a receipt for the quote of 0,20 lire per liter or kilo, the MAC will give to the consignee of the carburatting a regular receipt for(0,35 lire per liter or kilo) the all amount received.

The expence for the printing of the receipt forms, willbe at burden of the MAC.

The P.O. of Comm. and Ind.,in delivering the blocks to MAC forthe following month, will keep en account of the quantities not used by the MAC prov.Dir., during the month.

The sum of 0,20 payed by the MAC will be remitted cash to the Interministerial Commission for Liquid Combustibles, through a payment made on the postal account n.1/29500 with the Chamber of Industry and Commerce of Rome, Account for Liquid Combustibles.

For your rule, it is brought to notice that the MAC prov. Directions, will start functioning only on January 1, only in the provinces marked in the annex.

6463

C) - Each coupon for the drawing of carburatting or lubrificating, will bear a seal round of the P.O. for Comm. and Ind.

The seal will be put on the both parts of the coupons.

If the P.O. lacks of the seal and has no possibility of having it made, it is allowed to use a stamp, untill the seal will not available. The month of validity will be marked with a special round stamp, bearing the name of the issuing office and the month.

When forms will be sent to each office, a stamp will be too enclosed, of which a sample is signed here below.

(stamp)

The MAC Prov. Directions will provide

1785016

Each ZNAC Prov. Direction will provide itself with a stamp with the wording: ZNAC Prov. Direction - January 1945

D) - The coupon not usable will be annulled cutting the compon in the middle following the line in the middle of it;naturally the void coupon will= not bear the ~~month~~ stamp of the month.

The distributer- he only- when the carburetting is supplied,will detach the coupon following their progressive number,bearing in mind that for each ten days,it is not allowed to draw a quantity superior then 1/3 of the supplied carburetting,save an exceptional authorisation of the issuing office.

The Office has exceptionally authority to authorise the ~~use~~ drawing of carburetting with tins or drums;an authorisation must be signed on the cover of the block.

For this purpose the Office,with the forms ~~used~~will receive also a stamp prepared by the Ministry,which sample is here below signed.

(stamp)

Coupons issued by the ZNAC,although being,for what concerns printing and seize,similar to the usual ones,bear on the back of each one, the n. of the plate ofthe motorcar to which they have been supplied and can be shown also separately to the distributer,intrusted with the supply.

7) - For your information,here below we describe the models of the blocks of drawing coupons,which will be issued by Military offices.

1) - La Commissione Interministeriale per i Combustibili Liqui
di, riunitasi il 29/11/1974, ha deliberato, in merito al rilascio
dei permessi di circolazione autoveicoli, di mantenere il di
del R.D.L. 5/5/1924, n.133, apportando, però alcune modifiche circa
la procedura per l'esame delle richieste, nel senso che il parere
espresso dagli Uffici Provinciali del Commercio e dell'Industria,
su ogni richiesta per ottenere il permesso di circolazione, deve
intendersi vincolativo per quanto riguarda l'opportunità di conce
dere il permesso, fermo restando la facoltà dell'Ispettorato Com=
partimentale della Motorizzazione di subordinare il rilascio del
permesso stesso allo stato di efficienza dell'automezzo.

//.

Declassified E.O. 12356 Sec. 3.3/NND No. 785016

Pertanto il rigetto da parte dell'Ispettorato della Motorizzazione della domanda presentata dovrà verificarsi solamente nel caso in cui l'autoveicolo non presenti i requisiti tecnici richiesti dalle disposizioni in vigore.

Rimane inteso che in sede di esame delle domande di permesso di circolazione, gli Uffici Provinciali del Commercio e dell'Industria, debbono tener presente l'inderogabile necessità di ridurre al minimo il consumo di carburante e di evitare che gli autoveicoli, invece di servire per determinate esigenze dell'industria e della professione per cui sono richiesti, siano destinati, come talora avviene, al traffico clandestino delle merci o comunque ad attività diverse da quelle normalmente esplicate dal titolare dell'automezzo.

2) - Ai Direttori degli Uffici Provinciali del Commercio e dell'Industria è attribuita la facoltà di rilasciare permessi temporanei di circolazione, per una durata non superiore ai 5 giorni in casi eccezionalissimi, in cui risulti inequivocabilmente documentata l'urgenza e la necessità del trasferimento, come ad esempio il trasporto di malati gravi al più vicino centro clinico.

La richiesta per ottenere il permesso temporaneo di circolazione dovrà essere corredata da certificati comprovanti l'indero[illegible] necessità di servirsi dell'autoveicolo, per il quale [illegible]sto il permesso di circolazione.

2) - Ai Direttori degli Uffici Provinciali del Commercio e dell'Industria è attribuita la facoltà di rilasciare permessi temporanei di circolazione, per una durata non superiore ai 5 giorni in casi eccezionalissimi, in cui risulti inequivocabilmente documentata l'urgenza e la necessità del trasferimento, come ad esempio il trasporto di malati gravi al più vicino ospedale o clinica.

La richiesta per ottenere il permesso temporaneo di circolazione dovrà essere corredata da certificati comprovanti l'indifferibile necessità di servirsi dell'autoveicolo, per il quale è richiesto il permesso di circolazione.

6465

3) - Con il prossimo primo quadrimestre 1945 dovranno essere muniti di permesso di circolazione anche gli autoveicoli azionati a gas metano, a carbone e a legna.

Per il rilascio di tali permessi di circolazione si applicheranno le stesse norme in vigore per gli automezzi azionati a benzina e a gasolio.

D) - Per quanto riguarda i buoni distribuiti dall'E.N.A.C. verrà osservata la seguente procedura:

Nel periodo dal 20 al 30 di ogni mese, l'Ufficio Provinciale del Commercio e dell'Industria consegnerà alla Direzione Provinciale dell'E.N.A.C. il quantitativo di blocchetti corrispondenti all'assegnazione di prodotti petroliferi per il mese successivo, dietro rilascio di regolare ricevuta, in cui deve risultare il quantitativo dei blocchetti di buoni suddivisi per tipo e la loro numerazione, nonchè l'ammontare dei diritti fissi dovuti.

Su ogni buono consegnato all'E.N.A.C. deve essere impresso il timbro a secco dell'Ufficio Provinciale del Commercio e dell'Industria, apposto tra la matrice e la figlia.

Nel caso che durante il mese venissero fatti degli storni di carburanti da altri settori a favore dell'E.N.A.C. l'Ufficio Provinciale del Commercio e dell'Industria consegnerà all'E.N.A.C. altrettanti blocchetti corrispondenti ai quantitativi di prodotti petroliferi stornati, sempre dietro rilascio di regolare ricevuta.

A fine mese, la Direzione Provinciale dell'E.N.A.C. presenterà all'Ufficio Provinciale del Commercio e dell'Industria il rendiconto dei blocchetti, utilizzati nel mese, unitamente al versamento globale dei diritti dovuti in ragione

6456

UFFICIO PROV. DEL COMMERCIO E DELL'INDUSTRIA - ROMA
GEN 1945

La Direzione Provinciale dell'E.N.A.C. provvederà per proprio conto a procurarsi il timbro con l'indicazione: Direzione Provinciale E.N.A.C. - Gennaio 1945 -

D) - I buoni non staccati saranno annullati, tagliando metà del buono segnando la perforazione al centro del buono stesso; s'intende che il buono così annullato non deve portare il timbro per il mese di validità;

L'addetto al "ricevitore" provvederà, altresì, all'atto del rifornimento del carburante, a staccare i buoni nell'ordine progressivo indicato dalla numerazione, con l'avvertenza che per ogni decade non potrà essere ritirato più di un terzo del quantitativo assegnato, salvo eccezionale autorizzazione dell'Ufficio emittente.

L'Ufficio emittente può concedere, eccezionalmente il prelievo del carburante a mezzo fusti e bidoni; mediante autorizzazione da apporsi sulla p.g.) della copertina del

per proprio conto e presentarli al timbro con l'indicazione: Direzione Provinciale E.F.A.C. - gennaio 1945 -

D) - I buoni non prelevabili saranno annullati, tagliandone metà del buono seguendo la perforazione al centro del buono stesso; s'intende che il buono così annullato non deve portare il timbro per uso, il mese di validità;

L'addetto al "Ufficio tributario" eseguirà quanto, dall'atto del riconoscimento del carburante stabilirà i buoni nell'ordine progressivo indicato dalla numerazione, con l'avvertenza che per ogni veicolo non potrà essere ritirato più di un terzo del carburante assegnato, salvo eccezionale autorizzazione dell'Ufficio emittente.

L'Ufficio emittente può concedere, eccezionalmente il prelievo del carburante anche in fusti o bidoni, mediante autorizzazione da apporsi sulla pag.1 della copertina del blocchetto.

A tale scopo ogni Ufficio riceverà insieme agli 6454
stampati il timbro approntato a cura di questo Ministero e qui di seguito riprodotto in facsimile.

UFFICIO PROV. DEL COMMERCIO E DELL'INDUSTRIA - - - -

I buoni rilasciati dall'E.N.A.C., pur essendo di formato e stampa del tutto simili a quelli ordinari, portano, su ciascuno, l'indicazione del n° della targa dell'autoveicolo al quale sono stati rilasciati e possono essere esibiti anche isolatamente al "distributore" all'atto del prelevamento.

2. Transmitted herewith are -

12 Movement of Civilian passes (yellow) Nos.123852-123863
12 Motor vehicle circulating permits (blue bars) Nos.62709 - 62720.
12 Motor vehicle circulating permits (red bars) Nos.64701 - 64712.

3. Yellow movement of civilians passes are the only civilian movement passes recognised by this Headquarters (apart from regular orders issued by military units covering the movement of civilians).

4. The passes (and duplicates) are made up in books of 50. The duplicates are blue in colour to distinguish them from the original passes.

5. Both types of motor vehicle circulating permits are valid until 31 December, 1944, a new permit with different coloured ~~bars~~ bars will be then introduced.

6. The circulating permit with blue bars was originally only valid until 30 September, but its validity was extended until 31 December, because of difficulties which arose in connection with the printing and issue of the permit with a red bar.

7. A temporary permit with a limited validity has lately been introduced. This consists of a standard permit overprinted with a large letter "T" in the same colour as the bar or bars.

8. The permits for the period commencing 1 January, 1945 are not yet to hand.

26th September 1944.

SUBJECT : Registration of Motor Vehicles.

TO : Director, Public Safety Sub=Commission, ACC = HQ.

Reference Message dated 23rd August, 1944, on the subject of the extension of validity of motor vehicle permits from 31st August to 30th September.

1. To date the new permits and fuel ration cards for the period 1st October to 31st December 1944, have not arrived. It takes at least three weeks to complete a new issue and in view of the fact that only 5 days remain in September it seems essential that by public announcement the validity of the present permits should be further ex=tended to 31st October.

2. It will also be necessary to devise some tem=porary form of fuel authorisation in the way of a letter issued by the Ispettorato Motorizzazione Civile, or similar means, if the new coupon cards are not received at once.

3. Some confusion has existed in this Region over the responsibilities of the Ispettorato Motorizzazione Civile and the Chambers of Commerce in connection with the issuance of permits and fuel coupon cards. The advice given since the change=over has been that although ACC. retains close control over the supply of fuel available, which in turn decides the number of permits that can be issued, the responsibility for deciding who receives permits and which Agencies shall authorise and distribute them are matters for the Italian Government. The former High Com=missioner decided that the Ispettorato Motorizzazione Civile should be primarily responsible and this seemed desirable in the interests of efficiency and uniformity. The present High Commissioner, however, seems to support the view that the Chambers of Commerce should be the de=ciding Authorities, but the officials of the Ispettorato Motorizzazione Civile object to what they feel would be an

the validity of the present permits should be further extended to 31st October.

2. It will also be necessary to devise some temporary form of fuel authorisation in the way of a letter issued by the Ispettorato Motorizzazione Civile, or similar means, if the new coupon cards are not received at once.

3. Some confusion has existed in this Region over the responsibilities of the Ispettorato Motorizzazione Civile and the Chambers of Commerce in connection with the issuance of permits and fuel coupon cards. The advice given since the change-over has been that although ACC. retains close control over the supply of fuel available, which in turn decides the number of permits that can be issued, the responsibility for deciding who receives permits and which Agencies shall authorise and distribute them are matters for the Italian Government. The former High Commissioner decided that the Ispettorato Motorizzazione Civile should be primarily responsible and this seemed desirable in the interests of efficiency and uniformity. The present High Commissioner, however, seems to support the view that the Chambers of Commerce should be the deciding Authorities, but the officials of the Ispettorato Motorizzazione Civile object to what they feel would be an intrusion into their functions. Can some guidance be given, please, as to the general policy in Italian Government territory for handling this important subject as regards the respective duties and responsibilities of the Authorities referred to above. 6719

TO : Headquarters Commandant.

1. With reference to attached letter and enclosed account from Emilio di Mauro, Printer, Cava.

2. More detailed accounts are also attached marked "A" to "F".

3. With regard to "A" and "B", the necessary forms were completed by this Sub-Commission some time ago and submitted to Headquarters Commandant with a view to payment being made.

4. The printing mentioned in "A" was made at the urgent request of S.C.A.O., A.M.G., Fifth Army, who stipulated that the work had to be completed in 48 hours. Main H.Q., A.C.C. were unable to comply with the request, and the S.C.A.O. was referred to Public Safety Sub-Commission, Rear Headquarters, who arranged for the printing as requested. Finance Sub-Commission (Lt. Com. Lawler) agreed that payment should be made from Rear Headquarters, and a report was submitted to this effect. The cards printed at "B" are in use in this Sub-Commission.

5. I have no knowledge of the printing supplied at "C". Perhaps Finance Sub-Commission are able to help.

6. The printing at "D" to "F" refers to motor vehicle circulating permits and fuel ration cards for P.O.L. products. The order was placed by Region III on instructions received from this Headquarters. The question of paying for the printing has been the subject of correspondence between Region III and Commerce Sub-Commission, this Headquarters :-

1. Your signal R/1060 of 26 June 1944 refers.

2. Reply has been delayed owing to a change of location.

3. It has not hitherto been contemplated that the full scheme for controlling Vehicle Circulation and Petrol Rationing would be practicable or desirable during the period that territory was under A.M.G. Armies.

4. It is considered that the matter would better be handled by some form of temporary control which would permit only a very few vehicles to circulate followed later, when conditions are more stable and the Regional Headquarters have taken over, by the regular system.

5. Experience has shown that any attempt to put the full scheme into effect before the Italian Agencies (CIP, MOTORIZZAZIONE, RACI & CPE) have been organised results in large numbers of quite unnecessary vehicles, particularly private cars, circulating on black market or stolen petrol and in others obtaining Circulation Permits without their being properly screened.

6. It has also to be remembered that the Rationing Scheme goes much further then the control of pol for motor vehicles and covers Industrial, Agricultural and Fishing requirements and that it forms and integrated whole which require simultaneous application if it is tobe effective.

7. Your further views would be appreciated.

CIRCULAR

In conformity with circular 2PG40/3250 dated 12 July 44 andtelegram n.3500, dated 4/8/44, we are informing you that both on the applications and on the new circulation permits in course of printing, the chassis number and motor number of the vehicle must be shown, as well as the area in which the vehicle is authorised to circulate.

For such the C.P.E. on receiving the applications, will make sure, that in addition to the provision contained in the circular 2PG25 / 1080 dated 12 April 44, the chassis and motor numbers on the applications will correspond with those on the circulation permits.

Furthermore, for all types of vehicles, the C.P.E. must give its opinion re the territorial validity of the permits to be issued, bearing in mind the necessity to conciliate, as far as possible, the exigencies of circulation with the maximum economy of fuel, imposed by the actual circumstances.

There will be two rough copies of the new circulation permits and the Compartimental Inspectorates will transmit one to the C.P.E. together with the original permit and keep the other in its files in case of eventual controls.

It is hoped that the forms for the above permits will come to you in time, making note that if any delay should take place, this General Inspectorate shall directly inform the A.C.C. for any eventual extension of the permits expiring on the 31st current month.

Awaiting an immediate receipt.

Circolare

A seguito della circolare 2PG40/3250 del I2 luglio u.s. e del telegramma n. 3560 del 4 agosto c.a. si comunica che tanto nella richieste quanto sui nuovi permessi di circolazione in corso di stampa, debbono essere indicati i numeri del telaio e del motore dell'autoveicolo, nonchè la zona entro la quale l'autoveicolo stesso sarà autorizzato a circolare.

Pertanto i C.P.E., all'atto dell'accettazione delle richieste, dovranno assicurarsi, oltre a quanto prescritto dalla circolare 2PG25 / 2PG40 I080 del I2 aprile u.s., che i numeri di telaio e di motore riportati sulle richieste corrispondano a quelli delle licenze di circolazione.

Inoltre, per tutte indistintamente le categorie di autoveicoli, i C.P.E. dovranno esprimere il loro motivato parere nei riguardi della validità territoriale dei permessi da rilasciare, tenendo presente la necessità di conciliare, per quanto possibile, le esigenze di circolazione di ciascun autoveicolo con la massima economia di carburante, imposta dalle attuali contingenze.

Le minute dei nuovi permessi di circolazione saranno in numero di due e di esse gli Ispettorati Compartimentali ne trasmetteranno una ai C.P.E. unitamente al rispettivo originale del permesso e conserveranno l'altra

SUBJECT: Vehicle Circulation Permits

TO : Public Safety Sub-Commission .

1. Experience indicates that there is a need for some form of temporary Circulation Permit which would have an expiry date as written on it and could be readily distinguished at a distance from the ordinary Circulation Permits valid for four monthly periods.

2. These permits are required in our opinion for use during the initial stages after a territory is liberated and before the full machinery of Regional Government under AMG becomes effective.

3. Experience has shown that attempts to introduce the full scheme in the early stages before the Italian licensing agencies such as RACI, Motorizzazione, etc., are reconstituted only results in incomplete screening and the issue of large numbers of Circulation Permits which are subsequently difficult to withdraw.

4. There are also occasions when the car has to be used during testing preparatory to the issue of a Circulation Permit or for emergency journeys on behalf of and authorised by the Allies which can at present only be covered by the issue of a permit valid until the end of the current licensing period which opens the way to abuses.

5. It is suggested therefore, that immediate arrangements be made to print such a temporary Circulation Permit, but before we take the matter up with the Italian Government we shall be glad to have your views. Major 639 Ballance has already expressed agreement.

6. For your information it is also proposed to print a specially coloured 15 litre Unit Ration Card for issue to civilian contractors working on military projects, whose supplies have to come from civilian stocks but do not count against civilian allocations.

SUBJECT: Motor Vehicle Circulation- Printing

TO : Regional Commissioner, Region III
(Attn. Economics & Supply Division)

1. When the new scheme for controlling vehicle circulation and petroleum rationing was introduced in May we arranged a joint printing of forms, permits, etc., with the Italian Government.

2. The work was carried out by DI MAURO CAVA, the numbers printed being largely a question of guess work.

3. We are still waiting for estimates from regions controlling ACC territory of requirements (a) to end of present circulation period on August 31st, (b) from then until 31st December.

4. Meanwhile, the opening up of two new regions and periodic demands from other regions have forced us to order a further printing, identical with the first as under.

a. Application for Motor Vehicle Permit and Authorization for POL Supplies (ACC Pet-1) - 5000.

b. Application for POL Supplies for Non-vehicular Use (Form ACC Pet-2) - 5000.

c. Application for POL Supplies for Agriculture (Form ACC Pet-3) - 5000.

d. Authorisation Cards for POL Supplies 5 l. benzine coupons (Form ACC Pet-1b) - 10,000.

e. Authorisation Cards for POL Supplies 15 l. benzine coupons (ACC-Pet-1c) - 5000.

f. Authorisation Cards for POL Supplies 15 l. gasolio coupons (ACC-Pet-1d) - 5000.

g. Block Authorisations - 5000.

h. Circulation Permits - 7000.

i. Circulation Permit Record Cards - 7000.

5. It is requested that you will supervise the execution and payment for this order and take delivery of the forms, coupons, etc. Items d, e, f, and h should be kept under lock and key.

6. We are arranging to send you during the next few days the few remaining forms we have in stock as under.

a. Form ACC PET-1. Application for motor vehicle circulating permit and authorisation for petroleum supplies - 5900.

b. Form ACC PET-1b. 5-liter Petrol Rationing Coupon Cards - 6230. (Nos. 96001 to 101000 and 134001 to 135230.)

c. ACC PET-2. Application for petroleum supplies for non-vehicular use - 500.

d. ACC PET-2A. Block Authorisation for Petroleum Supplies - 1000.

7. It is intended that requirements should be submitted by regions to Industry & Commerce Subcommission who will arrange with you for the dispatch of requirements.

8. These stocks will not take care of requirements beyond August 31st, when a change in color and/or layout is contemplated, but printing beyond that date will probably be done in Rome.

9. Will you please make contact with DI MAURO to whom the recent order was placed by Public Safety Subcommission at Palermo.

SUBJECT: Motor Vehicles Circulation Permits & Ration Cards

TO : Regional Commissioner, Region VII
(Attention: Requisition & Supply Division)

no copy to us

1. Your RVII/R/205/117 of 31 May 44 refers.

2. We note that you state requirements for your area as tons of paper of various categories after deducting local stocks, but are not clear whether these stocks represent permits, forms, etc., already printed and sent out by Italian Government or locally held stocks of suitable paper.

3. If, as we assume, the latter is meant, we presume you have in mind printing locally whereas it was our intention and, we believe, that of the Italian Government, to print centrally (and jointly) with any necessary changes in colour or layout and to distribute to each Region.

4. On the assumption that this is done it would probably be simpler if we had from you a simple statement of the numbers of each form required which, when totalled with those from other Regions, will enable the printer to calculate the tonnage of paper.

5. Alternatively local printing under suitable control would economise in transport and in your case, at least, would apparently ease the paper situation considerably.

6. Would you let us have your views in the light of the above and particularly whether you consider that actual Circulation Permits and Petrol Coupons could safely be printed locally under Italian Government auspices (possibly as part of a larger scheme for printing total requirements of Italian Government territory from which you can Regional Supplies would be drawn as a first priority).

SUBJECT: Circulation Permits & POL Ration Cards

TO : Lt.Col. S.A. Crump, I & C Sub-Commission,
Rear HQ. A.C.C., Salerno.

1. Attached are copies of letters from Public Safety Sub-Commission and enclosures from printer.

2. It is intended to handle the matter as follows in order to take care of future requirements.

a) Regions in AMG territory have been asked to submit stocks, requirements for balance of current licensing period and requirements for following period ending 31 December 44.

b) Region III, Economics & Supply will then arrange for necessary printing.

3. The style of printing, modifications if any and so on remain the responsibility of Headquarters ACC and it is suggested that they be handled jointly by Public Safety & Industry & Commerce.

4. Points which appear to call for immediate consideration are improving colour scheme of ration cards so that they can be cancelled more easily. It is suggested that the basic colour should be changed at fairly long intervals say once per circulation period as otherwise estimating normal requirements and emergency demands will be difficult. Circulation permits should presumably have a change of colour every period.

5. Will you please discuss these suggestions with Public Safety and subsequently with the printers as to practicability.

6. Three copies of each of the samples referred to are enclosed.

(Subject: Paper Supply for Petrol Vouchers).

To: ACC., Capt. U.C. BALLANCE.

Reference to your request made to our partner Mr. Antonio, at his last meeting with you, for a new supply of petrol vouchers, I confirm what he told you, informing you that the coloured paper similar to that of the previous supply, which is at our disposal, is very scarce and not sufficient to cover the further needs of your Allied Control Commission.

As Mr. Antonio suggested to you, we could supply you with paper of the same colour as the attached type, but of the same thickness of those vouchers we have previously supplied you. The printing could be made in different colours for each form of denomination of the various fuels.

Attached herewith are some printing proofs among which the colors you like should be chosen.

Hoping our suggestion is favorably accepted, we are at your disposal for any explanation you may need.

Awaiting your orders, we are,

Yours truly,
