SUBJECT :POLICE INQUIRIES IN P.A.C.I. PREMISES -

Yesterday, 2nd August, at 1 o'clock afternoon, some english policemen under the command of Sergeant Jones - 76 Sec.S.I.E., Via della Pilotta, Rome - came to this Central Sec in order to make enquiries about a fraudulent fact concerning the issue of a permit for tires for which the responsibility of the P.A.C.I. has resulted from the first ascertainments as excluded.

After having blocked the doors of the premises, the aforesaid policemen have requested all the employees should be assembled for ascertainments.

The fact has caused a grievous trouble for all the employees who were about to go home and were obliged to remain in the office for an unpleasant confronting with a civilian who was with the policemen.

This Administration has no doubt about the necessity of the aforesaid enquiries but is obliged to express its remonstrances for the fact which, doubtless, has hurtled the prestige of P.A.C.I. and the reputation of the employees.

R.A.C.I. - Provincial Seat of Pisa -

Prot. 15

Pisa 11 September 1944

To R.A.C.I. = ROME

Subject : Reports -

I have started from Rome on 7 August and I have arrived to Siena, where I have remained during the night.

The following day I have been to the Provincial Seat who has not had any damages. I have spoken with Rag. Palombo and with him I have gone to the Regional A.M.G., where I have known that the provisional seat in Volterra had been moved to Pisa and that a camionette was about to start for Pisa. I was allowed to take place in this camionette and the same day, in the night, I arrived to Pisa.

I don't refer to you what Rag. Palombo has communicated to me about the situation of the Provincial Seat in Siena because I know that Rag. Palombo was about to start for Rome and I think that he has already let you know the questions concerning that Seat.

As soon as I arrived to Pisa, which offers a dreadful spectacle - at my arrival many cannon shots felt on the city - I have gone to the Command of the A.M.G., where I have been begged to go to the Caserma of Carabinieri for obtaining my lodgment. Now I eat with the officers, but I sleep in a private house where I also carry out my work. My address is following : Via di S. Cecilia n. 16.

The following day (8 August) I have tried to find the offices of R.A.C.I. who are in Via del Collegio Ricci 4 because the old Seat has been abandoned, owing to the damages it has received.

After many tries in the roads, in which the circulation is difficult on account of the ruins, I have succeeded to find them. There was a great disorder : dust everywhere, the furnitures

Now I eat with the officers, but I sleep in a private house where I also carry out my work . My address is following : Via di S. Cecilia n. 16.

The following day (P august) I have tried to find the offices of R.A.C.I. who are in Via del Collegio Ricci 4 because the old Seat has been abandoned, owing to the damages it has received

After many tries in the roads, in which the circulation is difficult on account of the ruins, I have succeeded to find them. There was a great disorder : dust everywhere, the furnitures damaged, papers and documents in disorder, no typewriter machine . I have found no money : I hope it have been saved.

After a swift research , I think that the schedario of the P.R.A., the volumes of formalities and the schedario of road taxes can be put in order. I have not found the archivio of the P.R.A. The guardian of the premises doesn't know anything, but I thing that R.A.C.I. is obliged to find other premises , which I have not succeeded to find.

According to this situation I think that now it is useless to make an official report on the situation of the offices . I prefer to wait the return of some employees who may clear to me the situation in which the offices were left on the moment in which the population was obliged to go out. I think that this relation will be more rational.

My work about A.M.G. will concern following matters :

- a) to provide for the issuance of circulation permits for motor cars;
- b) to provide for the cents through the application of the owners for all motorcars and tyres . In the meantime purchases of motorcars will be forbidden ;
- c) to provide for the issuance of personal permits for travel in favour of those who drive motorcars circulating besides 10 km. from their residence ;
- d) to prepare a project for the utilisation of trucks for the transportation interesting public services.

The work will be very heavy and now already is very much. It will be carried out through the Sindaco of the different cities because the private owners are not allowed to reach Pisa.

Now I have assumed a typist woman, with whom I have established a reward of 60 lire pro day.

I hope to go as soon as possible to Volterra for taking the list of the expenses I have had since 14 to 31 august.

My work proceeds very slowly because the printings have not been yet handed from the typotraphie, which cannot work for want of electrical currency.

I have send to all Sindaci of the province the printings on which the motorcars owners will make the application for the circulation permits and the printings concerning the aforesaid permits are ready.

The orders concerning the obligatiry cents of motorcars of the province and the modules on which the aforesaid cents will be made are about to be printed.

Would you please transmit the attached letter to my HQ.

The local situation obliges me to ask you a great favor. You will remember, that to my request how I should solve the food and lodging questions in Volterra, you assured me of the assistance of the Allied Authorities.

I applied to your friend Col. Walters, commanding the local A.C.C., but he answered me that the Authorities could do nothing for me. I succeeded in finding a lodging, but in regard to the food question, it is impossible for me to find any satisfactory solution.

The local food conditions, especially for a foreigner, are precarious, because the restaurants lack reserves and the meals are scarce, even if one does not spare with money.

I am informed that in other places many officials belonging of Italian Civilian Administrations, who co-operate with Allied Authorities enjoy a special food treatment and for this reason I am begging you to write to Col. Walters, so that I also can enjoy said facilities. Without said assistance my position in Volterra would become critical.

I am thanking you in advance. Please excuse me the trouble.

With best greetings

Ho riferito al Sig. Col. Walters, Sue <sup>332</sup>

passabili per ciò che riguarda l'alloggio, ma assolutamente  
insoddisfacenti per il vitto.

Le condizioni alimentari locali, specie per  
chi non é del posto, sono quanto mai precarie poiché le trat-

1. With reference to the "Instructions to Visiting Inspectors" (English text) recently left at this Headquarters by Count Perotti, of the R.A.C.I., Central Seat.

2. A copy of the instructions was forwarded to Finance Sub-Commission, this Headquarters who have since made the following comment :

" It is suggested that the Instructions do not lay sufficient stress on the examination of the accounts. These are complicated by the fact that the income received has to be credited to several different accounts, accounts which may only be drawn on for certain specific purposes.

The instructions might usefully include one to the effect that Inspectors should audit the accounts as from the date of the last inspection and ensure that where, during the stress of the early occupation period, payments had perforce to be made out of accounts contrary to usual practice, as we are aware was done, the necessary adjustments have been made."

3. It is requested that a suitable instruction be issued to the Visiting Inspectors on the lines suggested by Finance Sub-Commission, and that two copies of the instruction be forwarded to this Headquarters.

MALE AUTOMOBILE CIRCOLO D'ITALIA

FOGLIO N.

The first duty of the functionaries sent to visit the Provincial Seats is to originate, since the beginning, a new spirit of loyal collaboration. They must therefore get sure that the managing principles should be entirely modified in order that the action of Headquarter will be directed only to help and to improve the activities of the Provincial Seats.

Concerning the relations with the local managers it should be made clear the strong confidence of Headquarter in their dignity and reliability.

The problems interesting the reorganisation of the activities will be examined with reference to the necessities of each office and according, as much as possible, with great care should be examined the resolutions apt to ensure the continuity or the prompt resumption of the State services. Within the limits of the circumstances in being in each Province, all initiatives should be taken to give a new start to the institutional services, helping as much as possible the reconstitution of the automobilistic patrimony. For this purpose all activities should be given to look after the interests of motorists adopting or suggesting the best measures to obtain this object.

For this purpose all activities should be given to look after the interests of motorists adopting or suggesting the best measures to obtain this object.

For this purpose, in the first place should be examined the conditions of the premises and of furniture, the number and <sup>310</sup> qualification of employees, the financial situation of each Provincial Seat.

In the offices which have suffered the complete destruction of premises and working facilities, and for the ones who where more or less damaged, orders will be given to recover all that is available and to initiate the proceeding for the reimbursement of war damages. In the meantime directions should be given also for the temporary settling of the offices in premises

given by the "Prefettura" or by the Comune or by other authority, with the minimum of expenses and the maximum of speed in order to enable the quickest possible return to work.

In the same time should be examined the state and economical situation of the staff in order to start again on solid basis the operation of all services.

The new organisation of the Provincial Seats and of the offices of P.R.A. should as much as possible be unitarian, bearing in mind the different conditions of each province not to squeeze the creation of particular initiatives not in opposition with the interests and principals of the institution.

It is also convenient that the Headquarter's employees in occasion of their visit to the Provincial Seats go to the Italian and Allied Authorities (Prefettura, Procura del Re, Finance Intendency, Ispettorato Compartimentale della Motorizzazione Civile, Civil Military Allied Authorities, etc.) in order to ascertain if the R.A.C.I.'s services are good organised and if they are useful. They have also to clear the position of the offices, their possibilities and the opportunity that for the general interest they may be valued for the solution of the problems concerning circulation and especially the organisation of motor transports.

Motor transports are, it is well known, the most important problems in this moment, the question through which R.A.C.I.'s leaders are in the position to show their capacity.

SUBJECT : Rations for civilians travelling  
under A.C.C. orders.

TO : Director, Public Safety.

1. An urgent request has been received from A.M.G. 5th Army for a representative of the Reale Automobile Club d'Italia to proceed to Volterra and report to the Provincial Commissioner of that place.
2. Arrangements are being made for a Signor FARINA Sansone Marcello, of the R.A.C.I. Central Seat, to travel to Volterra under orders issued by the Adjutant.
3. Present instructions preclude the Adjutant from issuing orders for this man to draw rations, and as matters now stand neither "Q" nor the Food Sub-Commission are in a position to help.
4. In this particular instance, Signor FARINA may be able to make other arrangements for the supply of food for the journey, but it does seem that when a request is made for a civilian to travel as in this case some provision should be made for the supply of rations from Army sources.
5. As similar cases affecting other Sub-Commissions may arise in the future, I suggest the matter be raised at the next V.P.'s meeting with a view to the Food Sub-Commission being asked to find a solution.

SUBJECT : Rations for civilians travelling  
under A.C.C. orders.

TO : Director, Public Safety.

1. An urgent request has been received from A.M.G. 5th Army for a representative of the Reale Automobile Club d'Italia to proceed to Volterra and report to the Provincial Commissioner of that place.

2. Arrangements are being made for a Signor FARINA Sansone Marcello, of the R.A.C.I. Central Seat, to travel to Volterra under orders issued by the Adjutant.

3. Present instructions preclude the Adjutant from issuing orders for this man to draw rations, and as matters now stand neither "Q" nor the Food Sub-Commission are in a position to help.

4. In this particular instance, Signor FARINA may be able to make other arrangements for the supply of food for the journey, but it does seem that when a request is made for a civilian to travel as in this case some provision should be made for the supply of rations from Army sources.

5. As similar cases affecting other Sub-Commissions may arise in the future, I suggest the matter be raised at the next V.P.'s meeting with a view to the Food Sub-Commission being asked to find a solution.

SUBJECT ; Licensing of Civilian Vehicles.

TO : H.Q. A.C.C. (R.C. & M.C.S.)

1. Recent experience emphasises the need for restarting a system of licensing motor vehicles (as outlined in General Order No.20) at an early date after Provincial Administrations are set up. Before this can be done it is essential that RACI be reorganised as soon as possible and that RACI representatives be sent up along with the CIP men sent up to each Provincial Commissioner.

2. Both CIP and RACI are now at work in Grosseto ; RACI representatives are immediately required for Livorno and Pisa for which CIP men are expected daily.

3. In addition it is requested that in future the Transport-Commission coordinate the appointment of RACI men with the dispatch of CIP representatives from Petroleum Section AAI.

4. An early reply is requested.
