SUBJECT: V - Vatican.

TO : Det. Sec. 4780, Home Area Allied Command.

1. Ref 5146/5 of 5 March 1945 refers.

2. Attached is a translation of letters 497 of 31 January 1945 and 479 of 21 February 1945 from the Directorate of the Vatican. Schedule 1 gives a resume of the position to date and Schedule 2 shows original allocation to Vatican (for administrative purposes only) compared to the allocations now requested.

3. It appears from para 3 of the Vatican's letter (confirmed by enquiries here) that they have been requested by us to undertake the distribution of additional supplies in devastated areas extending as far North as Rome. Food C/O who are organising the programme are arranging to build up supply centres using ordinary transportation services and PCAF will distribute to mobile kitchens from these centres. It is assumed that the 3 additional vehicles and the 35 mobile kitchens will be available to PCAF for this purpose.

4. It is thought that the original allocation of 1000 litres benzene and 7000 gallons should be allowed so as to take care of the PCAF vehicles operating in Rome out of Rome and as undertaking obtained from the Vatican that they will not allow them to draw supplies from elsewhere. A proportionate allocation should be made to take care of the 35 mobile Food Kitchens and 3 additional vehicles. This total would form that part of the Vatican allocation available to PCAF and subject to change according to circumstances.

5. The Vatican allocation as shown in Ref 30/2/45 of 21 February 1945, when increased by the above amounts, could be checked against the total number and type of vehicles shown on their schedule and any small adjustment which seemed reasonable could be made in the overall allocation.

1764

6. Will you please inform us what quantities (for administrative purposes only) you are prepared to allocate to the Vietnamese for the use of P.O. and also for their ordinary vehicles.

7. As we think the Vietnamese replies to our request for information far from satisfactory we propose to tell them in announcing the new allocation that, on the facts so far given, we are not prepared to recommend more generous treatment and that, if they are not satisfied, they should submit further and more easily understood figures in support.

Subject: Petroleum Supplies

To: ~~Governments, Vatican City~~

1. We acknowledge receipt of your letter of 31 January 45, in which you request that the existing allocations of petroleum products being made to the Vatican City for automotive purposes may be substantially increased. In effect your request, if granted, would result in the benzine being increased from 25,000 liters to 67,000 liters, the lubricants from 1500 kgs. to 5500 kgs., with only a small reduction in the petrol from 65,000 kgs. to 58,000 kgs.

2. It will be appreciated if some additional information can be given in justification of this very substantial increase on the basis of the number and types of vehicles to be supplied (registration numbers and make are not important). It is suggested that these might be divided for this purpose into three categories, namely, those owned and operated directly by Vatican City, those owned and operated directly by the Vatican or under its direct control as private vehicles, and those loaned to the various organizations (etc.). It would be convenient if the vehicles in each category could be divided into groups according to types such as motorcycles, cars, and trucks of various carrying capacity.

3. It is also noted from your letter under reply that the requirements of the RMA have increased from 3000 liters to 7000 liters of benzine and from 7000 kgs. to 12000 kgs. of petrol, whereas it is understood that the number of vehicles has been reduced from 100 to about 60. It would be appreciated, therefore, if some brief explanation could be given of the increased activities of this organization which have resulted or are expected to result in this very substantial increase, the more so as it is believed that the allocation originally made by Lanka-Maria Region was increased from about half to the figures indicated in your letter.

4. You state that the existing allocation of petrol is 65,000 kgs. which does not agree with the figure of 25,000 kgs. understood to be the part of the total allocation of 50 tons which is used for automotive purposes, and it is requested that you will kindly check this figure and confirm whether it is correct or not. If our figure is correct, there will also be a substantial increase in your petrol requirements.

1736

- 2 -

We would like to make it clear that it is not the wish of this headquarters to restrict the activities of the Vatican by reducing supplies of petroleum products if they can be made available, but, as you are aware, we are experiencing difficulty in getting these products into the district and the increases for which you are asking will have to be justified by this Headquarters to higher authority.

We are preparing all necessary and accurate information as requested by you, in the meantime we inform you of the following:

1) the Pontificia Commissione Assistenza Profughi has had a monthly allocation from the Ufficio Regionale Trasporti Lazio e Umbria of about 3,000 lit. on Benzina 7,000 litres of Gasolio and 1,500 Kgs. of lubricants.

2) Said allocation stopped on 31 October 1944 therefore this Governatorato has had to draw from its own small allocation (which is now finished) the necessary carburant for the months of November and December in order that the important work done by the Pontificia Assistenza Profughi be not interrupted.

3) That the amounts lent by this Governatorato in the two above mentioned months ought to be reintegrated in a corresponding measure to the concessions made by the Allied authorities before 31 October 31st 1943 in the following measures:

6,000 litres of Benzina
14,000 " " Gasolio

Whilst waiting to know the real needs of the Pontificia Commissione Assistenza Profughi and for all the other services performed by them we would be grateful if AC would issue the 6,000 litres of Benzina and 14,000 Gasolio for the months of November and December advanced to the above mentioned organization and also to make allocation of same amount of carburant and 3,000 Kgs. of lubricant for January and February; this being the length of time necessary to solve the question of supplies for motorvehicle circulation.

Con riferimento al cortese foglio ACC/144012/PS, del 23 ottobre u.p. e alla precedente nota di questo Governatorato n° 2367 del 12 ottobre 1944 si ha il pregio di comunicare che la Ditta SCIARRA, interpellata in proposito, ha precisato che essa non può disporre dell'autovettura Fiat 508 targata Roma 64819 non tanto perchè abbia avuto luogo una vera e propria requisizione, com'era stato riferito in un primo tempo, bensì per il fatto che detto autoveicolo è stato messo a disposizione delle Forze Alleate per i lavori dell'A.A.F.E. C./MMTO - Resident Engineer, ed è stato perciò munito di un "Permanent trip ticket" Allied n° 2945.

Prestando servizio continuativo per tale scopo, non può naturalmente circolare per i servizi dello Stato della Città del Vaticano e pertanto si torna a pregare di rilasciare il permesso di circolazione per la nuova autovettura, Lancia "Aprilia" targata Roma 67490 di cui è stato rimesso il libretto e la tassa relativa con la nota sopra menzionata.

Con riferimento al pregiato foglio: ACC/14412/PS del 1 ottobre 1944 si torna a trasmettere il "libretto di circolazione" dell'autovettura marca Fiat 500, targa Roma 74692 inclusa al n° 21 dell'elenco "B" dei permessi di circolazione richiesti da questo Governatorato.

E' esatto che per detta autovettura è già stato rilasciato il permesso di circolazione N° 71832 perchè, nel frattempo, era stato richiesto da uno dei proprietari per ragioni di carattere agricolo. Tuttavia si gradirebbe che lo stesso autoveicolo fosse autorizzato a circolare per l'esigenza di servizio del Conte Agostino SACCONI, Colonnello della Guardia Nobile di Sua Santità.

Pertanto si chiede che venga rilasciato altro permesso di circolazione per conto di questo Governatorato assicurando che il certificato già emesso verrà immediatamente restituito all'atto della consegna di quello nuovo.

1. Reference recent conversation, Eng. Perrone and Major Ballance, and the two lists marked "A" and "B" supplied to Eng. Perrone.

2. The lists referred to in paragraph 1 were submitted by the Holy See who ask for the issue of circulating permits in respect of the vehicles shown on the lists.

List "A" refers to vehicles used by the Governatorato.

List "B" refers to vehicles used by the Noble Guard.

3. As permits have already been issued in respect of a number of these vehicles, it is requested that this Headquarters be advised of the position with regard to each of the vehicles listed.

4. It is stated for information that the issue of motor vehicle circulation permits (and POL supplies) for vehicles used by the Vatican and Diplomatic Corps will be the responsibility of this Headquarters, and an instruction covering this matter is in the course of preparation.

To: ~~Secretariat of State~~
Holy See-Vatican

4. We refer to your letter of 31 Aug 44 and to the various conversations that we have since had with Messrs. McGeough.

We confirm that the Italian Ministry of Foreign Affairs has been requested to issue diplomatic circulation permits and petrol rations to those entitled to them. Until we receive the list of those to whom they have been issued we are not able to say how many other persons remain for whom you have also asked that some form of privilege may be granted.

3. We have, in the meanwhile, been in touch with the Governatorate of the Vatican, who have agreed in principle to the opening of a pump outside Vatican City; and a portion of supplies allocated to the Vatican by the Allies being made available thereat. They have further undertaken to operate this pump and to control the issue of petrol through it.

4. We regret that we cannot see our way to granting diplomatic privileges either in the shape of diplomatic circulation permits, or passport facilities, to member of the Holy See, or its Secretariat of State, who are not now entitled to diplomatic privileges under the Concordat, customs and agreement as interpreted by the 1954 Agreement of Foreign Affairs. Nor can we make more than one allocation of petroleum products to the Vatican, it being in view entirely a matter for the Vatican authorities to control the sub allocation or allotment to Ministries of petroleum products from the bulk allocation allowed

we are prepared to issue to the 22 members of the Secretariat of State, and such other persons as may be finally agreed upon, a special sticker bearing the Vatican colours for display on the windshield alongside the circulation permit, thereby distinguishing them from other members of the Vatican who do not enjoy diplomatic privilege, and who will have only the ordinary type of circulation permit without the addition of the special Vatican coloured sticker.

6. Should it happen that any members of the Vatican, or its Secretariat of State, have accidentally been granted diplomatic circulation permits, or patrol rationes, by the Rome Area Licensing Office, or otherwise, we shall be obliged to request their withdrawal, but suggest that this matter be left over until the Italian Government have presented us with a list of those who are entitled to diplomatic privilege.

SUBJECT: Vatican Supplies

TO : ~~1st. Sec. Adv. AFHQ, HQ AAI~~

1. The Governatorate of the Vatican City, who control supplies of Petroleum and are responsible for other Administrative Services of the Vatican, have requested that arrangements may be made for a portion of their allocation of gasoline to be made available in a pump located outside Vatican City where it will be more convenient to Civilian and Church employees of the Vatican not actually resident there.
 2. The Vatican undertakes to control the rationing of supplies and to operate this pump and have agreed that supplies to it shall be treated as part of their monthly allocation.
 3. They have suggested a pump in the Via Aurelia adjacent to Vatican City which was previously used for this purpose. There will be about a hundred users of this pump.
 4. They have also requested that some arrangement be made whereby Vatican City Officials travelling on business in Liberated Italy outside Rome can draw gasoline wherever they happen to need it, such supplies to count against the Vatican monthly allocation.
 5. They would be prepared to issue a "Gasoline Letter of Credit" which could either be marked at the pump where supplies are drawn or changed before leaving for petrol coupons which would perhaps be more readily acceptable at CIP depots.
 6. Provided these supplies were paid for in cash at the time of delivery it could appear that it is only necessary to deduct them from the Vatican Supplies.
- ./.

2

7. It is suggested that, to keep down the accounting, the Vatican should make application in triplicate to ACC for an allocation of coupons in Bulk which they can continue to issue until exhausted. Deliveries against the Vatican allocation will be reduced by a quantity corresponding to the total value of the coupons issued in bulk which will be notified to Pet.Sec. by one copy of the Vatican request certified as granted. The third copy will be retained by HQ ACC as a record of the transactions.

8. The Vatican will control and screen issues of these coupons which will only be necessary in cases of long journeys exceptionally authorised by the Vatican as necessary.

(Attention : Dott. G. Bellocredi).

1. 200 motor vehicle circulating permits, numbered 62501 to 67000, overprinted with the letters "CD", and endorsed by this Sub-Commission, are forwarded herewith for issue in the case of those motor vehicles in respect of which Diplomatic Corps number plates have been issued by the Italian Foreign Office in accordance established procedure.

SUBJECT: Petroleum Supplies for Holy See (Dipl. Corps)

TO:

The Hon. Allied Control Commission
Via Veneto
Rome

The Secretariate of State of His Holiness in referring to the letter of the Allied Control Commission (No. ACC/5087/Com) regarding the issuance of Diplomatic Corps Circulation Permits and Petrol Rations and dated August 28th. Curr., would make the following observations which will be numbered to correspond with the relative enumeration employed in that letter:

2. The adoption of a temporary measure to facilitate the allocation of petrol prior to the putting into effect of a comprehensive scheme is heartily endorsed in view of the already protracted period during which there has been no petrol allocation for the Diplomatic Corps of the Holy See.

3. With regard to the question of diplomatic credentials, these are, in their strict sense, the documents presented by the head of a diplomatic mission to the government to which accredited, at the time of the assumption of his diplomatic charge. Including such heads of Missions (Ambassadors, Ministers or Chargés d'Affaires), it is attested that the whole of the personnel mentioned in the list (Schedule A) are in possession of diplomatic passports (either of the accrediting Government or of the Vatican Secretariate of State) with the exception of the following four persons who have service passports of the Vatican Secretariate of State:

- a) Comm. Fernando Silvestrini and Sig. Anacleto Rinaldo (courier)
- b) Mons. Emilio Guano of the General Direction of Catholic Action;
- c) Rev. Don Fedel of the Osservatore Romano in whose service the machine of the Osservatore Romano is employed.

Both the Catholic Action Direction and the Osservatore Romano are under the direct dependence of the Secretariate of State.

3. With regard to the question of diplomatic credentials, these are, in their strict sense, the documents presented by the head of a diplomatic mission to the government to which accredited, at the time of the assumption of his diplomatic charge. Including such heads of Missions (Ambassadors, Ministers or Chargés d'Affaires), it is attested that the whole of the personnel mentioned in the list (Schedule A) are in possession of diplomatic passports (either of the accrediting Government or of the Vatican Secretariate of State) with the exception of the following four persons who have service passports of the Vatican Secretariate of State:

- a) Comm. Fernando Silvestrini and Sig. Anacleto Rinaldo (courier) both officials of the Secretariate of State;
- b) Mons. Emilio Guano of the General Direction of Catholic Action;
- c) Rev. Don Fedel of the Osservatore Romano in whose service the machine of the Osservatore Romano is employed.

Both the Catholic Action Direction and the Osservatore Romano are under the direct dependence of the Secretariate of State.

For those diplomats accredited to the Holy See, the diplomatic office has been indicated in each case as determined by their respective Governments.

4. Since the above four persons are the only exceptions with regard to the possession of diplomatic certificates, it has been requested that an equivalent treatment be accorded them owing to their essential association with the diplomatic service of the Secretariate of State. Should this concession encounter difficulty it is asked that a facilitation be offered them in obtaining circulation permits and petrol allocation.

Referring to the list (Schedule A) all machines of the diplomats on the first four pages have circulation permits with the "C.D.", exception being made for the last five machines on page for which ordinary circulation permits have been issued pending the reception of the Diplomatic Corps license plate for which

-2-

application has been made. Official recognition of the right to 4. On page 5 formal and already been sanctioned for some the diplomatic license plate has already been sanctioned for some time past for the Members of the Sacred College and of the Secretariat of State therein mentioned with the exception of the last three concerning whom it is understood the granting of this license plate will be accorded shortly.

It is noted that the circulation permits recently issued for the machines of Cardinals Pizzardo and Caccia Dominioni with official license plates numbered respectively 0255 and 0258 have been of the ordinary type without the distinctive "C.D." and it is thought that the Allied Control Commission will rectify this mistake in consideration of the already long-standing courtesy of the diplomatic license plate extended to the two above-mentioned Cardinals as also to Cardinal Canali.

5. As concerns the identification of the vehicles authorized to draw against the diplomatic allocation, the issuance of a special C.D. Circulation Permit is altogether desirable providing the petrol allocation is assigned on a personal basis independent of the number of machines. The Secretariate of State offers its good offices, should this be desired, in facilitating the identification of the authorized persons and the issuance of the petrol allocations credits.

6. With regard to the official diplomatic corps license plate, the Secretariate of State of His Holiness has not in the past requested, nor does it intend at this time to request, the "C.D." license plate, for all of its officials with diplomatic passports due to the fact that all of these officials are subject to immediate designation to diplomatic missions and the time of their service either in preparation for such missions or in the period of their recall between missions has been brief or at least indefinite. Many of the officials included in the enclosed list are awaiting the reopening of communications and of diplomatic missions unable to function as a result of the situation created by the war in order to proceed to their assigned posts. At this moment, the difficulty of transportation with the location of the Vatican away from the center of Rome as also the late hour of concluding the afternoon service in the Vatican (at 20:00 hours daily) constitutes a quite definite embarrassment for the ordinary functioning of the Secretariate of State and for this reason the courtesy

The possession of diplomatic passports, it was thought, would supply for the purposes of identification without the added inconvenience of applying for diplomatic license plates and the number of persons and machines involved is limited.

5. If weighty considerations make the granting of the request as presented inadvisable, it is asked that circulation permits and petrol allocations be granted to the officials listed on pages 6 and 7. In point of fact, Mr. Tittmann who, by common accord with the British Minister, was handling the preliminaries of this matter prior to the arrangement of direct contact as more expeditious, has indicated his support of a preferential consideration for the officials of the Secretariate of State by reason of their special status.

6 and 7. From the foregoing explanation it is believed that these points have been adequately covered.

8. The Secretariate of State of His Holiness certifies that all cars mentioned in the attached list (Schedule A.) are the property of the Vatican or of individuals either accredited to, or directly employed on a full time basis by the Vatican, and subject to Vatican control.

9 and 10. With regard to the omission of the American and British Representatives, their absence from the list was due to a delay in returning the forms circularised by the Secretariate of State and it was thought advisable to initiate steps towards a resolution of the present situation without further delay. The supplementary list attached (Schedule B.) includes their respective machines and for those without the diplomatic corps license, immediate approaches will be made to the Italian Foreign Office, where diplomats are involved, to obtain such permits. In the case of the two cars of H.E. Mr. Taylor, the ownership is noted as "U.S. Army" and this may involve certain complications.

The supplementary list also contains a substitution in that Mons. Guano (Schedule A.3.7) has found the original vehicle inadequate for his purposes and sold it, meanwhile acquiring a second one whose particulars are included in the supplementary list and for which a circulation permit and petrol rations are requested.

With the present letter are submitted the applications of 7 machines which still lack circulation permits. For those of Mons. McGeough and Mons. Guano, the applications are still incomplete owing to unavoidable delay in the transference of title. It is requested that the Circulation Booklets be returned as soon as there is no further need for them.

Guano, the applications are still incomplete owing to unavoidable delay in the transference of title. It is requested that the Circulation Booklets be returned as soon as there is no further need for them.

As to the confirmation of the lists as complete, it can be stated that everything has been done to make them as complete as possible. It is pointed out that the nature of the function of the Secretariate of State and that of the Diplomatic Corps implies occasional changes in personnel. The Secretariate of State of His Holiness, therefore, while confirming the substantial completion of the attached lists, reserves the right to submit further necessary applications as the need arises. Actually two members of the Vatican Diplomatic Corps have indicated their intention of acquiring machines but have not, as yet been able to do so and are thus not included in the lists.

Ref. ACC/5087/Com

SUBJECT: Petroleum Supplies and Circulation Permits
for Diplomatic Corps.

TO : Ministry of Foreign Affairs
Protocol Section
For the attention of Dott. G. Belcredi.

1. We refer to the conversations between Dott. G. Belcredi and Major Broseton when it was agreed as under.

2. The Italian Ministry of Foreign Affairs will continue, as is customary, to control the Diplomatic Corps accredited to the Quirinal and to the Vatican and will decide in accordance with existing Treaties and Diplomatic Practice who is entitled to Diplomatic Circulation Privileges and Petrol Rations.

3. ACC will indicate to the Ministry of Foreign Affairs their allocations of petrol for Heads of Missions and diplomats of lower standing and have arranged for the corresponding supplies of fuel to be made available at a fuelling point in the Piazza Ungheria. They will arrange for temporary Ration coupons so that the Diplomatic Corps can obtain immediate supplies. ACC will also furnish Diplomatic Circulation Permits.

4. After discussion with Comitato Italiano Petroli (C.I.P.) it has been found necessary to modify somewhat the procedure agreed with Dott. Belcredi as it is necessary for CIP to account to the Italian Government for all petrol supplied tax-free to diplomats. It is therefore requested that the following procedure may be adopted.

5. The Protocol Office, Ministry of Foreign Affairs, will issue a letter of Authority to the Head of each Mission stating the total quantity of petrol to which they are entitled and the basis on which it is calculated. They will also issue the Diplomatic Circulation Permits to be supplied by ACC to those entitled to them.

1506
./.

- 2 -

6. CIP will contact the Diplomats and will exchange the Letters of Authority for an equivalent number of Petrol Coupons on payment of the tax-free cost of the petrol authorized. The Petrol Coupons will be exchanged by CIP at the Piazza Ungheria for an equivalent quantity of petrol provided the vehicle carries a proper Diplomatic Corps Circulation Permit. The Coupons will be used by CIP to account for the sales of Tax-free petrol.

7. CIP will call on you to settle any small details. The Petrol Ration will be 100 litres for the Head of a Mission (or in special cases, those considered by you to be of equal status), and 150 litres per month for all others qualifying.

8. We confirm receipt of a schedule of Diplomatic Missions accredited to the Quirinal with their vehicles which was enclosed with your letter No 1652/34 of 25 August 1944.
Enclosure held

9. We also confirm having handed to Dott. Belcredi a list submitted to us by the Vatican, under cover of a letter requesting that Diplomatic Circulation Permits and Petrol Rations be accorded to them.

10. As you will see this list contains, in addition to Diplomatic Missions, 6 Senior and 3 Junior members of the Sacred College all of whose vehicles have diplomatic registration numbers. We are not, however, clear on what grounds they continue to hold these as they are understood, with one or two possible exceptions, to be now acting as ordinary members of the Vatican State Department.

11. Also included are 3 Secretariat of State Officials, of whom only one actually has a vehicle with a Diplomatic Registration Plate, the other two having, it is stated, applied for them.

12. Finally there is a list of 22 Vatican Secretariat of State cars none of which have Diplomatic Registration Plates, but for which Diplomatic Circulation Permits are requested.

13. It is requested that the Protocol Dept. will say whether they consider any or all of the vehicles in paras 7, 8 and 9 above should be granted Diplomatic Circulation Permits or the personnel given Diplomatic Petrol Rations.

./.

- 3 -

14. Meanwhile it is requested that the Circulation Permits being sent under separate cover and letters of authority to draw petrol should only be issued for those vehicles and personnel for whom the Ministry of Foreign Affairs is prepared to accept responsibility and to whom they consider list they should properly be issued in the light of present conditions.

SUBJECT: POL - Diplomatic Corps

TO : Petroleum Section - Adv. AFHQ, HQ AAF.

1. Conversation Col. King - Maj. Brereton refers.
2. As you are aware supplies for the Diplomatic Corps have now been made the responsibility of AOC.
3. It appears that, whilst some members of the Diplomatic Corps have received Circulation Permits under an arrangement made with Region IV Motor Transportation Division, none of them have received gasoline coupons and many may not even have received Circulation Permits.
4. This situation has already existed for several months and has upset to Diplomatic Corps who feel that they have been badly treated, even those who were given Circulation Permits being faced to acquire gasoline as best they could.
5. Before the arrival of the Allies and Rome Allied Area Command took over, responsibility for Diplomatic Corps requirements was that of the Italian Foreign Office who allocated supplies of Gasoline and controlled its distribution by a system of ration cards of a special type issued to the Diplomatic Missions.
6. They were responsible both for those Diplomats accredited to the Italian Government and for those accredited to the Vatican. Both received identical treatment under the treaty between the Italian Government and the Vatican and drew from the same Fuelling Point (Piazza di Spagna).
7. It is proposed to handle supplies of POL for the Diplomatic Corps on the same basis and to treat with them through the Italian Foreign Office who have indicated their agreement.

5/.

- 2 -

8. Up to September 1943 when the Germans took over, Heads of Diplomatic Missions all received an allowance of 350 litres per month whilst all Counsellors and Ministers received 150 litres per month but they are understood to have been cut by the Germans. The allowance was personal to the individual so that if they operated two or more cars - as many do - they had to re-allocate themselves ~~14~~ between cars.

9. The Italian Foreign Office and Vatican have been asked to submit lists of personnel entitled to Diplomatic status and who are in possession of cars entitled to the CD plate. That from the Vatican is to hand but we await news from the Italian Foreign Office.

10. The Vatican list shows a total of 23 Embassies or Legations each of which is entitled to one ration at the higher rate for the Head of Mission and 19 Counsellors, Attachés or Secretaries. (The Italian and Spanish (or Axis) Missions have 24 each which appears excessive in the light of the others).

11. In addition the Vatican have submitted lists of 9 Members of the Sacred College who hold Diplomatic status and a further 3 Officials of the Secretariat of State for whom application for CD plates has been made. Additionally they have requested that 19 senior members of the Secretariat of State and 3 cars associated with the Vatican Press may be accorded Diplomatic Circulation Permits and Gasoline Rations.

12. The members of the Secretariat of State are understood to be either Diplomats accredited to "unfriendly" foreign countries who have been withdrawn or Diplomats who have not yet taken up their assignments. Their exact diplomatic status and entitlement to CD plates is being investigated.

13. In view of para 4 above it is considered urgent that gasoline facilities for the Diplomatic Corps be made available w.e.f. 1 September 1944 if possible on the basis of 350 ~~litres~~ ^{litres} per month for Heads and 150 litres per month for Assistants. On this basis the total monthly requirements (assuming the complete list to be approved) would be 22,250 litres or thereabouts - say 17 tons per month.

./.

- 3 -

14. This is for Diplomats accredited to the Vatican only to which must be added the requirements of those accredited to the Italian Government.

15. The detailed investigations of the credentials of the individuals entitled to such diplomatic Circulation and Gasoline privileges will undoubtedly take some time as it is somewhat complicated by the Vatican and other Church set up. They then have to be issued Circulation Permits and Ration Cards.

16. It is suggested therefore that a pump be opened immediately and supplied at the rate of say a ton a day. Arrangements will be made with the Italian Foreign Office to notify the Diplomatic Corps that as a temporary measure Heads of Missions may draw up to 10 litres per day and assistants 5 litres per day subject to their cars being furnished with Circulation Permits (the Standard permit overprinted CD) and to production of their Diplomatic Credentials.

17. The exact form of these is being gone into and it is proposed to let the Italian Foreign Office issue some form of temporary ration card or coupon and Circulation Permit to all persons and vehicles on the approved list so that CIP will only have to collect them when they fuel vehicles.

18. May arrangements please be made to open immediately the Diplomatic Pump at the customary address and an indication be given whether you agree to an allocation of 350 litres to Heads and 150 litres to Assistants, per month.

SUBJECT: Petroleum Supplies for Diplomatic Corps

Vatican.

1. Reference is made to your application dated 24 August 1944 signed Monsignor J.F. McGeough that personnel and vehicles on the attached schedule A might be accorded diplomatic Circulation Permits and Petrol Rations.

2. Since to set up a comprehensive scheme will take some time it is proposed, as a temporary measure, to make available petrol at a special fuelling point and to allocate a daily allowance to each diplomat according to whether he ranks as head of a mission or otherwise.

3. To enable this allocation to be made it is requested that you will please let us have a letter certifying that the whole of the personnel on attached list marked A are actually in possession of Diplomatic Credentials and that you will also state in the case of those who are not actually Heads of Missions their rank which justifies their being treated as such.

4. It is understood from Mons. Mc Geough that there are some who are not Diplomats but for whom extension of diplomatic privileges is requested for special reasons. It is requested that in these cases the reasons may please be stated more fully.

5. Since some diplomats have more than one car it will be necessary to have some means of identification and it is accordingly proposed to issue a special C.D. Circulation Permit to those vehicles which are authorised to draw against the diplomatic allocation.

6. It is therefore requested that you will certify also that the vehicles on Schedule A are all in possession of Diplomatic

matic number plates or of Rose number plates which have actually been accepted by the Italian Foreign Office for the grant of diplomatic plates.

7. In a number of cases we understand that application has been made but that the matter is still pending. In these and all other cases, it is requested that you will state to whom application was made and on what grounds.

8. It is also requested that you will certify that the cars are all the property of the Vatican or of individuals either accredited to, or directly employed on a full time basis by the Vatican, and subject to Vatican control.

9. On receipt of this information, arrangements will be made for the issue of Circulation Permits and Petrol Ration Cards to authorized persons and vehicles.

10. It is also requested that you will confirm that the list is complete and that all diplomatic missions to the Holy See are included. It is noted that the American and British Embassies appear to have been overlooked.

HEADQUARTERS
ALLIED CONTROL COMMISSION
Public Safety Sub-Commission
APO 394

30 August 1944

ACC/14412/PS

SUBJECT : Circulation of Vatican & Diplomatic Motor
Vehicles.

TO : Director, Public Safety Sub-Commission.

1. Reference to letter 380/1/CA, dated 24 August 1944, in which the Executive Commissioner directs that the registration, etc., of the a/m vehicles is a matter for this Sub-Commission.

2. G-4, this Headquarters, has handed over to this Sub-Commission a supply of permits which they were preparing to issue in respect of the vehicles in question.

3. During the time I was Chief Motor Transportation Division, Rome Region (later Region IV), I made the arrangements described below with regard to these vehicles, and the following are extracts from the Rome press of about 21 July:-

"Requests for permits by the Diplomatic Corps accredited to the Quirinale will be forwarded through the Italian Foreign Office.
Requests for permits by the Diplomatic Corps accredited to the Holy See will be forwarded through the State Secretary to the Holy See.
All applications must be accompanied by the following documents issued by one of the following authorities:-

For vehicles owned by Religious Institutes and Orders and other Religious Communities or Ecclesiastical Foundations. The Vicar General of Rome. For vehicles with Italian Registration numbers and dependent upon the Holy See. The Stato della Citta del Vaticano - Direzione Generale - Servizi Tecnici.

4. These arrangements were made in agreement with:-

- (a) Political Branch, HQ ACC., as to Diplomatic cars accredited to the Italian Government. Vatican Relations Officer, through whom applications forms, etc., were transmitted to the Vatican.
- (c) Mr. Harold Pittman the American Chargé d'Affaires who supplied the list of diplomats accredited to the Vatican.
- (d) The Vicar General of Rome, Cardinal Marchette, who agreed to screen all applications submitted by religious except those connected with the Vatican.
- (e) Mr. Galeazzi, Vatican Governatorato, who agreed to the arrangement re Italian registered cars used in the service of the Vatican.
- (f) Commerce Sub-Commission (Major Brereton).

5. It was intended that the Vatican and Diplomatic Cars should be dealt with as follows:-

(a) Vatican Cars.

(i) Vatican State Registered Vehicles.

No circulation permits required, but a special sticker overprinted with the Vatican colors and issued by the Vatican Relations officer was agreed to. Petrol supplies to be furnished by the Vatican from their allocation.

(ii) Italian Registered Vehicles.

Standard circulation permits and POL ration cards to be issued on the request of Eng. Galeazzi. The POL involved to be deducted from the Vatican allocation and added to Region IV allocation by arrangement.

(I understand circulating permits are now issued on the request of any section of the Governatorato, but no fuel cards are issued, the Governatorato undertaking to supply the fuel).

(b) Diplomatic Cars.(i) Accredited to the Vatican.

Standard circulation permits overprinted with the letters CD have been issued in the case of 76 vehicles in accordance with the list supplied by Mr. Harold Pittman, American Chargé d'Affaires. Standard permits, without the letters CD, have been issued in the case of a supplementary list which was supplied by RAC.

(ii) Accredited to the Italian Government.

No permits have so far been issued.

The question of POL supplies in the case of diplomatic vehicles was referred to HQ ACC., and it is anticipated by Commerce Sub-Commission that a special pump for Diplomats will be available as from 1 September.

6. This Sub-Commission is working closely with Commerce Sub-Commission, and it is hoped that a draft instruction agreed to by the Vatican and the Italian Government covering all aspects of this matter will be submitted in a few days.
