a No objection to BAZILLO, Giulio.

b See attached report please from Captain FORSTER, Fire Officer for Lucca Area. It would seem that this young man is not subject to discipline and ignores the instructions not only of an Allied Officer, but also the Regional Italian Official, Col. BACCARETTI.

c NUTI's presence is still desired in Florence by Col. BACCARETTI and Captain MacDOUGALL, hence the switching of COSIMINI to Grosseto from Lucca, which on COSIMINI's own admission is already under the quite capable leadership of Ing. FILE : K-7111/73/10.2

11 December 1944.

SUBJECT : Complaint against Capt. Cosimini, V.F.F.

TO : S.P.S.O., Tuscan Section.

1. On Thursday 7 December, 1944, I instructed Captain Cosimini to proceed, as soon as road conditions permitted, from Lucca to Grosseto to take command of the Fire Dept there.

2. On Saturday 10 December, 1944, he left Lucca in a small Fiat furnished with a tankfull of petrol and 10 litres of spare. The amount considered necessary to complete the trip.

3. The car returned to Lucca on Wednesday 13 December, 1944.

4. His transfer was completed with the full agreement of Col. Baccarettti of Florence and the various persons concerned were duly notified of the move.

5. Captain Cosimini informed me that Grosseto did not warrant the rank of Captain as Commandante but I told him that he should go just the same and that he should write a letter to Col. Baccarettti which I would send through channels, stating his case and that on arrival at Grosseto he should speak to Major Tuson whom he knows. It was made quite clear to him that his presence was urgently required at Grosseto. The letter to Col. Baccarettti was sent to Capt. in MacDonell for translation.

6. This morning Thursday 14 December, 1944, I interviewed the driver of the car and ascertained the following facts:

I Left Lucca on 10 December, 1944, stopped for lunch at Grosseto and proceeded to Rome.

II Captain Cosimini then proceeded on his private business I am informed, at the Ministry of Interior.

III The car left Rome on evening of Monday 11 December, 1944, spending the night at Grosseto.

IV The car returned to Cassina Lucca on morning of Thursday 12 December, 1944.

V Captain Cosimini remained in Rome.

6. 25 litres of petrol were supplied to the car at the V.F.F.

5. Captain Cosimini informed me that Grosseto did not warrant the rank of Captain as Commandante but I told him that he should go just the same and that he should write a letter to Col. Pascaretti which I would send through channels, stating his case and that on arrival at Grosseto he should speak to Major Munon whom he knows. It was made quite clear to him that his presence was urgently required at Grosseto. The letter to Col. Pascaretti was sent to Captain Macdougall for translation.

6. This morning Thursday 14 December, 1944. I interviewed the driver of the car and ascertained the following facts:

I Left Lucca on 10 December, 1944. stopped for lunch at Grosseto and proceeded to Rome.

II Captain Cosimini then proceeded on his private business I was informed, at the Ministry of Interior.

III The car left Rome on evening of Monday 11 December, 1944. spending the night at Grosseto.

IV The car returned to Caserma Lucca on morning of Tuesday 12 December, 1944.

V Captain Cosimini remained in Rome.

VI 25 litres of petrol were supplied to the car at the P.S.S. Caserma at Rome and 15 litres at Grosseto.

7. On Tuesday 12 December, 1944. I phoned P.S.O., Grosseto to ascertain if Captain Cosimini had reported for duty and while I held the line called the Fire Station and was informed that no Commandante had arrived. 3411

8. If these facts can be fully established may the strongest possible action be taken against this officer as I have no intention of allowing any Italian Officer over whom I have jurisdiction treat my orders in such fashion. He was also informed that they were equally the orders of Col. Pascaretti and so he not only disobeyed my orders, but those of the Senior Italian Fire Officer of the Region. He also misused the car and petrol placed at his disposal for specific purpose.

TO :- Maggiore Albertini, 3 Corpo Vigili del Fuoco, Ancona.

FROM :- HQ. AMG/AC., Abruzzi-Marche Region.

SUBJECT :- Control of Fire Brigades.

REF :- R5/514/6.

DATE :- 9 November 1944.

1. As you will see from the attached letter it is the policy of the Italian Ministry of the Interior to appoint a senior fire brigade officer in a district to be superintendent over all brigades in that district, to inspect them and give orders which may be necessary.

2. The Ministry wishes to make you superintendent over the fire brigades of Marche and Umbria - that is of Ascoli Piceno, Ancona, Macerata, Pesaro-Urbino, Perugia, and Terni, and this HQ and HQ. AMG/AC. Lazio-Umbria Region (which controls Perugia and Terni) are in agreement. You will therefore take over your additional duties immediately.

3. It is particularly desired by this HQ to use the resources of alla brigades for the benefit of all and any recommendations you may make for transfer of men or equipment or spare parts will be welcomed by this HQ. and any necessary orders will be given and the Ministry informed of the moves.

4. You will note that all reports to the Ministry must be made through AMG while the province c oncerned is under the Allied Military Covernment. A report of each inspection of a provincial brigade should be sent in triplicate to the Provincial HQ. of AMG so tha one copy may be forwarded to this HQ or HQ AMG/AC Lazio-Umbria Region and a second to HQ AC for transmission to the Ministry. Where you make a report recommending proposals concerning more than one province the reports should be sent to this HQ through Ancona Province HQ; where the provinces of Umbria are involved in such proposals this HQ will forward a copy to and consult HQ AMG/AC, Lazio-Umbria Region.

5. In those provinces where Civil Defence has been put under the control of the Comandante of the corpo dei vigili del fuoco you will naturally inspect these services also. In the four provinces of Marche good Civil Defence is essential at Ancona (where full cooperation with the British military authorities is particularly important), Falconara, Fabriano, Iesi, Fano, Senigallia, Urbino, Pesaro, Macerata and Porto Recanati.

6. Before visiting any brigade you should contact the Provincial Public Safety Officer of AMG and enquire whether there is a particular point which he may have you to investigate or improve. Provincial Public Safety Officer, Ancona

The Staff Officer P.A.D. attached to one of our military areas has asked me to bring to your notice the circumstances surrounding the dismissal from the Italian Fire Service of Commendante Michinelli of Catania.

Apparently this officer, in an effort to supplement the civilian rations allowed to his firemen, purchased some extra food for them in the black market - his actions were discovered and he has been dismissed from the Service as a result. I am informed that apart from this indiscretion his record as a disciplinarian and as a fireman was exemplary.

I am bringing this matter to your notice because I understand it may be probable that the dismissal having been effected locally it has not been brought to your notice. It also occurs to me that with the dearth of existing qualified officers in the Italian Fire Service that you might wish to reconsider, or at least investigate the circumstances under which Commandante Michinelli was dismissed with a view to possible reinstatement if the facts of the case warrant it.

1. Enclosed is a copy of letter from H.Q. AMG/AC Abruzzi-Marche Region, in which they ask that [illegible] Mesini (Second Officer) be released from Aquila for temporary duty at Pescara.

2. There appears to be no sound reason why this transfer should not take place therefore, it is hoped that favourable consideration be given to this request without delay.

TO :- HQ. AC.

FROM :- HQ. AMG/AC. Abruzzi-Marche Region.

SUBJECT :- Fire Officer for Pescara.

REF :- R5/514/6.

DATE :- 30 October 1944.
31/10/44

1. On 26 September 1944 it was requested of Ing. VOLPI, the comandante 5 Corpo Vigili del Fuoco, Aquila, that he should transfer his second officer Ing. MASINI temporarily to Pescara Brigade where there was no officer, but only one brigadier and a great deal of work to be done, pending the long promised arrival of Ing. SMARIGLIA from Naples.

2. Ing. Volpe has obstructed and delayed this transfer until after the province became ACC territory on 16 October 1944, and then refused to carry it out on the grounds that he needs his second officer. In fact the Aquila Brigade is unimportant, should be reduced by at least 20 men and has no need of two officers whereas the position of Pescara has been causing anxiety and the brigadier in charge after doing very good work indeed is becoming almost ill through overwork and the unexpected responsibility.

3. It is suggested that the Ministry be asked to send an immediate order to Volpe to release MASINI for temporary transfer to Pescara. Masini is willing and eager to go.

4. Volpe appears to be harbouring a grudge because his family is in Sicily and he has not been granted the two month's leave he desired to visit them; if he can be spared for two months in his own opinion it is quite clear to this HQ. that he can remain on duty and lend his second officer to Pescara.

1. The F.S.S. reported with regard to BATTAGLINI Nicola, comandante of the Chieti Fire Brigade that he "was Mayor of VACRI for seven years; ispettore di zona della federazione fascista, Chieti, until 1940; joined Fascist party 15.2.22; took keen interest in politics both at VACRI and at Chieti; considered strong fascist; recommended for dismissal".

2. In the reorganisation of the Chieti Fire Brigade Battaglini has always caused difficulties instead of helping; omitted to carry out an order to reopen the Ortona Station as desired by the Army Fire Service; and appears to have turned any chance of the Italian authorities' finding spare parts locally needed for the fire brigade by squabbling with the Major of CC.RR; he was finally arrested by CC.RR. on 15 October 1944 for "failing to stop etc" at a road block and was again temporarily detained by FSS; he has now been released on liberta' provvisoria before appearing in the Italian courts.

REGIA QUESTURA DI R I E T I

Rieti, 24 September 1944

SUBJECT : Fire Brigade Commander.-

TO : Captain HOBT - A.M.G. - R I E T I

On the 6th inst. this R. Questura having received an order to requisition four cars for the A.M.G., V. Commissario Ausiliario of P.S. MONTUORO Dr. Domenico left in a truck for the Farm Sabina area.-

The truck had been given by the local Fire Brigade and the Commanding Officer was on the car. Dr. Montuoro was accompanied by two P.S. Agents; the car was escorted by a motorcyclist of the Allied M.P.-

After having requisitioned a car at Poggio Moiano, Dr. Montuoro went to Farfa of Tera Rubina where - according to the list given by Dr. Tambatta - he should have requisitioned two cars belonging to Sig. Paradisi Leo. Only one of the cars - and precisely a Fiat 508 - was found on the spot because the other, according to Sig. Paradisi's statement, was in Rome. The Fiat however was minus the four tyres which were not found in spite of an accurate search.-

According to facts ascertained, Paradisi invited the Fire Brigade Commander, Dr. Montuoro, the Allied M.P. and P.S. Agent Fontino to dinner. After dinner, according to Fontino's statement, two of Sig. Paradisi's workmen loaded a demijohn containing about 50 litres of oil and a sack containing flour on to the truck.-

Next day oil and flour was divided into equal parts between Dr. Montuoro, the Fire Brigade Commander and P.S. Agent Fontino.-

Dr. Montuoro, after the facts ascertained against him, was asked to give in his resignation which was immediately accepted by the Prefect.-

P.S. Agent Fontino has received the maximum punishment contemplated by the regulations.-

L'Ing. BERNI Franco, (della classe 1902) Ufficiale permanente di IV^ classe nei Vigili del Fuoco, a disposizione del Ministero dell'Interno presso la Direzione Generale Servizi Antincendi di Roma, come Triestino aspirerebbe di ritornare a Trieste, perchè colà ha vissuto fino al 1940, ed è a perfetta conoscenza di tutta la zona, avendovi espletato lavori per conto del Genio Civile e Militare, ed essendo stato come Comandante e organizzatore del servizio antincendi nelle provincie di Trieste e Pola dal 1932 al 1940.

In seguito alle disposizioni del Governo fascista per cui tutti i funzionari statali delle provincie annesse all'Italia dovevano dare il cambio a quelli del meridionale, il BERNI fu trasferito a Palermo.

Il suddetto ufficiale, nell'agosto del 43, dal Corpo di Roma dove era stato trasferito in precedenza, fu mandato in missione temporanea al Corpo di Frosinone.

Nel settembre dello stesso anno, dopo che i tedeschi avevano preso tutto il materiale antincendi efficiente e adibito gran parte dai vigili ai lavori bellici, l'Ing. Il BERNI era sempre un antifascista, e non ha prestato giuramento al governo repubblicano. Io ebbi occasione di conoscerlo specialmente nel periodo che era nascosto a Roma dal febbraio 1944 al

Gen. HQ. of Fire-Services

N. 525/3000.17.B.54. 15 September 1944.

Answer letter n. 1627,
Cabinet, dated 28/8/44.

Subject : Functioning of the Fire-men in Naples.

To : Under-Secretary of the State - Rome.

From the inspection effected at the 54th VV.F. Corps of Naples, it appears what follows:
The present organic strength of the Corps is constituted by:

Permanent officers	N.	11
Volunteer "	"	9
Permanent N.C.O.s	"	159
Volunteer "	"	8
Permanent fire-men	"	101
Volunteer "	"	1194
Total	N.	1482

In the Communal territory the personnel is detached in the Del Giudice barracks, seat of the Command, in 11 small barracks, in the workshops of Tondo Capodimonte, in the deposit of Fontanelle and in three maritime detachments for the port service.

In the Province, the personnel is dislocated in 8 detachments, two of which - Torre Annunziata and Castellammare di Stabia - have each 2 small barracks, one for the land service and the other for the maritime service, being that the Allied Command desired, that to the latter only personnel destined exclusively to the port may be employed.

With the machinery in dotation to the Corps, actually in efficiency, the Command can dispose of the below mentioned daily starts for various helps :

in the chief-town	N.	18
for the port service	"	4
in the Province	"	10
Total	N.	32

Requesting every departure n.9 fire-men, the complexive number appears of n. 32 x 9 = N.288 336

To these must be added the fire-men destined to various services :
offices, telephones, orderly, kitchens workshops etc.
who may be calculated as " 40
Adding the absences for disease or fourlough in average " 22
Total N.350

0107

Declassified E.O. 12356 Section 3.3/NND No. 785016

Bearing in mind, that the personnel perform duties in two turns of 24 hours each - 24 hrs. of service and 24 of exemption - it appears that in order to assure the service, as it is now organized, a maximum of 700 men are necessary, and this is about the half of the present strength.

In average about 20 fire-men are discharged every month for various reasons.

Among the personnel on duty, there are 30 pensioned fire-men and 80 VV.F. coming from the dissolved Anti-Fire Units of the R.Army, taken into service by the Command, because they had no recources, being all of Northern Italy.

These latter could be demobilized as soon as they can join their respective residence, whilst the pensioned VV.F. could be the first ones to be demobilized.

We notify, however, that the Naples Corps must within a short time put at the disposal of the A.C.C. N. 250 VV.F. for the formation of the Mobile Columns destined to betake themselves to the Northern towns, as soon as those will be liberated.

In any way the demobilization of the VV.F. Corps has a general purpose, which has to be taken in consideration as soon as possible, being connected with the state of the War, which is thought to soonly come to an end.

Stated this, it is deemed, that the 54^VV.F. Corps could proceed to the demobilization of 450 fire-men, causing ang disadvantage to the service.

This, however, for intuitive reasons appears inopportune and therefore we propose, that the demobilization may be gradually effected, limiting the discharges of the fire-men to a maximum of 50 for each month.

The precedence must be given to those, who more easily have the possibility to find another position, to singles and before all to those who are punishable for lack of discipline.

Acting Vice Prefect
Sgd. De Feo.

BATTAGLINI Nicola, Chieti, Senior Fire Officer

Records show him as Mayor of Vacri for 7 years. Ispettore di Zona of Federazione Fascista Chieti until 1940. Took keen interest in politics both at Vacri and Chieti. Considered strong Fascist. Joined party 15 Feb 1922. Not considered dangerous to security.

BATTAGLINI was "recommended for dismissal - to be retained pending replacement."

The Prefect asserts that he acted on the recommendation and a promise was made to comply. BATTAGLINI is undesirable in his capacity in view of his former political assertions.

May some reference be made to the Ministries responsible with a request that the replacement be made as soon as possible

Gentilissimo Sig. Maggiore Mason.

La squisitezza del Vostro animo e l'amicizia della quale mi degnate ed onorate mi suggeriscono l'ardire di rivolgermi a Voi.

Come sapete io mi trovo a Palermo dall'aprile del 1943 e sono l'unico ufficiale "in missione" che al momento dell'ingresso delle Truppe Alleate in Sicilia vi restai deliberatamente, mentre tutti gli altri se ne allontanarono con più o meno sollecitudine.

Ora qualcuno di quegli stessi ufficiali, che a suo tempo chiesero ed ottennero l'assegnazione a Corpi del continente (non certo per ragioni sentimentali e familiari), pare che si stiano agitando per farvi ritorno, magari chiedendo di occupare il posto di chi non ha ancora espresso il desiderio di lasciarlo.

Sono perciò a pregarvi, gentilissimo sig. Maggiore, di voler considerare la mia aspirazione che è quella di rimanere per ora al 58° Corpo al fine di poterla eventualmente sostenere e caldeggiare presso la Direzione Generale. Questa mia aspirazione è giustificata dalla determinazione che ho preso di portare qui la famiglia dopo tanto tempo di lontananza forzata ed avere nello stesso tempo la possibilità di non far perdere un altro anno agli studi universitari della mia figliuola maggiore.

E' sottinteso che io sarei contento di rimanere al 58° sia come Vice comandante che come ufficiale in sott'ordine.

AL COMANDO MILITARE ALLEATO di

R I E T I

In data 5 luglio 1944 ho presentato a codesto Comando Militare Alleato di Rieti, (Magg. Schepert, Comandante della Polizia) la domanda che allego in copia.

Ho presentato anche la scheda personale fattami compilare dal Sig. Magg. Schepert, corredata di otto allegati. (che prego cortesemente di restituirmi trattandosi di documenti originali.)

Successivamente il Sig. Magg. Schepert mi restituì la scheda personale con una lettera indirizzata al Comando F.S.S. Mi recai personalmente al predetto Comando, presentai la lettera e la scheda personale; che mi fu restituita dopo accurato esame unitamente a lettera indirizzata al Sig. Magg. Schepert. Riconsegnai personalmente l'una e l'altra al Sig. Magg. Schepert, il quale mi fece conoscere a mezzo dello interprete addetto al suo ufficio che avrebbe inviata la pratica al superiore Ufficio di Roma per la decisione.

Non avendo nulla saputo fino ad oggi Vi prego cortesemente di esaminare la mia domanda tendente ad essere reintegrato nelle mie funzioni di Comandante dei Vigili del Fuoco di Rieti.

Se crediate che il provvedimento debba essere adottato dal Ministero dell'Interno, Direzione generale dei Servizi Antincendi, abbiate la cortesia di comunicarmelo per scritto, affinché possa, con il vostro benestare, rivolgermi al predetto Ministero.

Nuovamente informo che l'attuale Ufficiale che comanda provvisoriamente il Corpo di Rieti, non é un ufficiale permanente, (cioé di ruolo

Nuovamente informo che l'attuale Ufficiale che comanda provvisoria= mente il Corpo di Rieti, non é un ufficiale permanente, (cioé di ruolo nella Direzione Generale Servizi Antincendi), ma un semplice ufficiale volontario, assunto provvisoriamente dal Comando dei Vigili del Fuoco di Roma per esigenze di guerra. Il Comando dei Vigili del Fuoco di Roma ha già provveduto alla smobilitazione di tutti gli ufficiali volontari assun= ti, come il Massalini.

Non riesco a comprendere come si tenga ancora in servizio un ufficiale volontario, come il Massalini, che ha collaborato con l'esercito tedesco e con i fascisti in tutti i modi, ed ha consegnato persino al Capo della Provincia Di Marciano ed agli Ufficiali della Milizia, cinquecento litri di benzina, per farli fuggire al nord, consegnando anche ai medesimi due

AL COMANDO MILITARE ALLEATO

R I E T I

Con piena fiducia nel provvido intervento di codesto Comando, mi onoro esporre quanto appresso:

Comandante del Corpo dei Vigili del Fuoco di Rieti fin dal 24 aprile 1930, ed inquadrato nei ruoli organici del Corpo Nazionale dei Vigili del Fuoco con il grado di Capitano ed in qualità di Comandante di questo 72° Corpo fin dal 1° gennaio 1940, tenni il comando del Corpo stesso per oltre tredici anni, e più precisamente fino al 5 novembre 1943, epoca in cui dal superiore Ministero dell'Interno mi fu concesso un mese di licenza di convalescenza per malattia. (allegato n. 1).

Allo scadere di essa ebbi dal Ministero una proroga di un altro mese. (allegato n. 2).

Durante tale periodo fui sostituito dall'ufficiale volontario Massalini Alvaro del 1° Corpo di Roma.

Non appena fui sostituito dal Massalini, il Capo della Provincia Sig. Ermanno Di Marsciano, già in precedenza Federale di Rieti, prese senz'altro a bersagliarmi per essere io ritenuto antifascista, e mi fece persino arrestare per quattro giorni (dal 3 al 6 novembre 1943) da parte del Comando della M.V.S.N.

La mia casa fu messa ripetutamente a soqquadro con minuziose perquisizioni.

Fallita la artificiosa macchinazione intesa a trovare fatti e pretesti per giustificare l'iniquo operato ai miei danni, fui finalmente rimesso in libertà.

tredici anni, e più precisamente fino al [illegible] superiore Ministero dell'Interno mi fu concesso un mese di licenza di convalescenza per malattia. (allegato n. 1).

Allo scadere di essa ebbi dal Ministero una proroga di un altro mese. (allegato n. 2).

Durante tale periodo fui sostituito dall'ufficiale volontario Massalini Alvaro del 1° Corpo di Roma.

Non appena fui sostituito dal Massalini, il Capo della Provincia Sig. Ermanno Di Marsciano, già in precedenza Federale di Rieti, prese senz'altro a bersagliarmi per essere io ritenuto antifascista, e mi fece persino arrestare per quattro giorni (dal 3 al 6 novembre 1943) da parte del Comando della M.V.S.N.

La mia casa fu messa ripetutamente a soqquadro con minuziose perquisizioni.

Fallita la artificiosa macchinazione intesa a trovare fatti e pretesti per giustificare l'iniquo operato ai miei danni, fui finalmente rimesso in libertà. 331

Non pago di ciò il Capo della Provincia Di Marsciano, volendo assolutamente fare di me una vittima, per altra via, trasmise contro di me un rapporto al Ministero (in data 14 dicembre 1943) accusandomi di notoria tendenza antifascista e di avere, per conseguenza, svolta notevole attività (dopo il 25 luglio 1943) per l'abbattimento di tutti i fasci littori esistenti nella Città di Rieti, e per tale falsa accusa, allo scadere del secondo mese di licenza per malattia (6 gennaio 1944) non venni più riammesso al comando del Corpo di Rieti e lasciato in posizione di " a disposizione del Ministero ". (allegato n. 3).

0141
Declassified E.O. 12356 Section 3.3/NND No. 785016

A chiarimento di quanto sopra rendo noto che dopo il 25 luglio 1943, da parte del Capo del Governo fu ordinata la rimozione di tutti i fasci littori dagli edifici pubblici, e conseguentemente, il Corpo dei Vigili del Fuoco ebbe ordine di fare ciò da parte del Prefetto e del Questore di Rieti; ordine che, come sempre, fu eseguito con quella sollecitudine che distingue l'organizzazione ed il servizio tecnico del nostro Corpo.

Sono trascorsi ben otto mesi, ma fino ad oggi non si é ancora provveduto a togliermi da questa ingiusta, umiliante posizione che mi cagiona tanti dolori morali, privazioni, e sacrifici finanziari.

Io sono il solo Comandante Titolare del posto, e l'interino, Ufficiale volontario Massalini avrebbe dovuto avere l'incarico di sostituirmi limitatamente al solo periodo della mia assenza per malattia.

Mi é noto che il Comando Alleato ha già provveduto, in Roma, al licenziamento di tutti gli Ufficiali volontari, non più ritenuti indispensabili al servizio per eccezionali esigenze di guerra.

In considerazione che questo fatto potrebbe nuocere agli interessi del Massalini stesso, e siccome l'organico di questo 72° Corpo prevede un ufficiale permanente, Comandante, e due Ufficiali volontari, Subalterni, il Massalini potrebbe continuare a prestare servizio in questo Corpo nella sua qualità di Ufficiale volontario.

Prego pertanto codesto Onle. Comando di volere esaminare con benevolenza il mio caso personale e di disporre, con atto di giustizia riparatrice, la mia immediata reintegrazione nelle funzioni di Comandante di questo Corpo dei Vigili del Fuoco.

Per opportuna notizia faccio infine presente che, in qualità di Funzionario dello Stato, non ho giurato fedeltà al Governo Repubblicano.

Iscritto al P.N.F. dal 1931 (per obbligo di Legge) fino al 25 luglio

Su conforme parere della Commissione Federale di Disciplina ho adottato nei riguardi della S.V. la sanzione disciplinare del "ritiro della tessera" con la seguente motivazione:

" Nella vita pubblica e privata ha da tempo assunto un atteggiamento che denota uno spirito non ligio alle norme di vita che devono guidare il fascista, specie quando riveste cariche di particolare responsabilità.

Nel settembre 1935 comunicando con i suoi inferiori si esprimeva con frasi poco riverenti all'indirizzo della M . V. S. N. dimostrando così di non possedere le qualità che costituiscono lo spirito tradizionale fascista."

La invito pertanto a dimettersi entro 24 ore da ogni e qualsiasi incarico politico affidatole ed a restituire la tessera ed il distintivo alla Segreteria del Fascio di Rieti.

Ai sensi dell'art. 21 dello Statuto la S.V. ha un mese di tempo per ricorrere contro tale provvedimento al Segretario del P.N.F.

TO : S. E. The Minister of Interior.

1. Your letter Ref. No. 3783 dated 25th August was received at this Headquarters and the appointment of the new C.D. is approved.

2. Your letter Ref. No.3807 dated 27 August which cancels the previous letter has now been received. It is regretted that this H.Q. cannot agree with the retention of the present C.D.

3. It is felt that it is the duty of this Headquarters to draw your attention to our view that a change of organization of the Control of the Fire and P. A. Service at the present time is inopportune. We would reiterate the view expressed by Major Mason to S.E. Canaveri that there would be no objection to a change of system at the proper time.

This time would be on the completion of the liberation of Italy. It is stressed that the urgent need of the moment is a strong Director General.

POSITION REGARDING
FIRE & P.A.ORGANIZATION
4th Sept. 1944.

1. There is a clique of about 5 senior officers of the Fascist Anti Fire & P.A. Directorate who are seeking to return to their posts. 14503/PS
The names of 3 of them were submitted by the Ministry and we expressed our views. 86 A 87 A

2. The under Secretary is a very weak man with no experience of the work. He is being badly advised and influenced by this group of officials.

3. The Director General is weak and in response to a request from the Ministry we wrote and said so and suggested a stronger man. 14503/2/PS 4A reply at 6A

4. A Preffetto Sepe was appointed as D.G. on the 25th July - a strong man. On 27th July the appointment was cancelled and no reason being given except that a change of system is being considered. 76 A 77 A

5. Proposed letter to be sent to the Minister ACC/14503/ES dated 4/9/44 (with file)

6. It is reported that the intention of those officials is to obtain control of the Service - taking advantage of the weakness of the D.G. They are reported to have said that ACC was being consulted too much - being told too much.

7. Ing.Colangelo. who has done all the work since the Govt. was set up at Salerno was suspended on 1/9/44. His immediate recall was asked for since he is the only official who knows our policy and the only one who does anything. In a letter to the Minister it was suggested that in order to make his work easier he should be considered for a higher grade. He with our officers, is engaged in the formation of a Mobile Column of Firemen. He has just carried out a survey of Region V on our behalf since we have no Allied Officer available. 61 A Reply at 68 330

During his absence nothing has been done to improve matters or to get on with the job. It has all been a series of intrigues - culminating in his suspension.

8. Since AFHQ & AAI have decided that the Fire Service shall be used to protect Allied property and that the Allied Fire Fighting personnel may be allied with Italian Firemen, it is essential that a very firm control be exercised over their service and the C.D. Service.

9. It is suggested that the under Secretary be sent for and that it be explained to him that in view of the importance of the service, this HQ must be consulted over all important matters and that the officials shall not be dismissed or appointed without our prior agreement. The view should also be put very clearly to him that the present Director is too weak and must be replaced by a better man. He should be again informed that we cannot agree to a change of the administrative system being introduced at this juncture.

10. Copy of report to D.P.S on 23 Aug. is attached. 89A

11. Prior to coming to Rome and the advent of these ex-officials there has been the closest co-operation and no trouble at all, thanks mostly to the good work of Eng. Colangelo.

Memo : Fire Service

C.P.S.

I am somewhat perturbed at the trend of events in the Italian Fire Service at present.

It would appear that similar tactics to the Fascist are creeping in this time operated by the Communists.

The three important figures are Carevani, the under-secretary, Calvino the Commandante of Rome and Magnotti - ex-Commandante of Rome.

It is known that the two latter are communists and it is thought that the under-Secretary is also that way inclined.

A scheme proposed by the under-Secretary for the control of the Fire Service includes the appointment of Calvino as Senior Inspector in full charge of the Service and Magnotti as the second in charge.

During the time that Magnotti was Commandante of Rome a kind of internal "works" committee was set up in the corps. This is being continued by Calvino and instead of the service being controlled by the Directorate this committee is proposing to act on its own.

Furthermore firemen from Rome have been sent by the committee (or Calvino) to many of the other corps in liberated Italy and have been urging them to set up similar committees.

If the proposed scheme were adopted at present and the "committee" idea developed it would turn the whole service into a Communist organisation.

As it is at present the control by the Directorate General is being undermined and the whole control of the service is being jeopardised.

The Acting Director General Rescued is too weak and this has been reported to the Ministry with a suggestion that a stronger man be found. At the present time we are concerned with the smooth running of the service and the use of

3300

Senior Inspector in full charge of the Service [illegible] as the second in charge.

During the time that Marzotti was Commandante of Rome a kind of internal "worker" committee was set up in the corps. This is being continued by Calvino and instead of the service being controlled by the Directorate this committee is proposing to act on its own.

Furthermore firemen from Rome have been sent by the committee (or Calvino) to many of the other corps in liberated Italy and have been urging them to set up similar committees.

If the proposed reforms were adopted at present and the "committee" idea developed it would turn the whole service into a Communist organisation.

As it is at present the control by the Directorate General is being undermined and the whole control of the service is being jeopardised.

The Acting Director General rescued is too weak and this has been reported to the Ministry with a suggestion that a stronger man be found. At the present time we are concerned with the smooth running of the service and the use of 3600 personnel and equipment in conjunction with the Allied Fire Service.

This is known at the Directorate General and is agreed to but at Rome there is evidence that the officers at least are not prepared to co-operate.

When Ing. Colangelo went to see Calvino to tell him that the D.G. proposed to take over one of the Rome Fire Stations as a training Centre to be set up at our request to train the Mobile Column in the use of Allied equipment, Calvino said that he didn't agree and he thought that the request should be refused. He didn't see why the D.G. should assist the Allies after all "We are Italians and should be independent" was the gist of his remarks.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Colangelo pointed out the facts and Calvino still stuck to his views and said he resented an Allied Officer being at the Fire Station and resented my control of the service. Colangelo felt it his duty to report the facts to me which he did yesterday. He stated that Calvino was spending most of his time at the Ministry with the undersecretary and in his view they were planning to undercut the Director General and seize control of the Service under the guise of the new proposed scheme. I had expressed to the undersecretary and the Chief of the Cabinet that provided the right officers were selected there was no reason why the kind of control proposed should not work but in my view it would be wrong to make a change until the whole of Italy is liberated and a full stock taken of all available officers.

Previously Colangelo had expressed the view that the officers left behind by the Fascists - including Calvino and Magnotti were left for the express purpose of wrecking the Service.

On the 20th of this month Capt.Brown who had been put in specially to re-organise the Rome Service, submitted a report in which he expressed the view that Calvino should be sent away and another Commandante found. The report is attached. In the report also is the statement that Calvino is often away from his station - this is probably because he is spending so much time with the Under-Secretary with whom he has been seen walking arm in arm.

It is my view that the Fire Service should be entirely non-political and that if the present conditions spread we shall be unable to obtain the full use of the organization as all central control will cease.

In fact the Rome firemen are tending to ignore the D.G. and are saying that Calvino is their Inspectore Generale. This would re-act adversely on our war effort.

Since the political aspect enters so largely into the matter I do not feel I can go further in dealing with the matter without reference to higher Authority. After we have gone and the war is over they could do as they like but at present I feel we should insist on the Central control and

3305

It is significant that up to the present there have been no difficulties and every officer and man has co operated with us to the full.

My view is that we can only call for the Schede personnle of both Calvino and Magnotti and express the view that Calvino is to old and inactive and that Magnotti should be restored to his original post as Chief Technical Officer. In addition we should ~~reiterate~~ REITERATE the view that at present the Directorate General should remain till the end of Allied Control.

I attach hereto a note in the history of Calvino & Magnotti:

He was Colonel (Grade VI). Previously he was Commandante of Milan. Was reported as serious and honest not keen on Fascism, had little Military inclination but expert on Fire Fighting problems. In the past few years he has taken great interest in the construction of Fire Stations. He was recalled as Commandante of Rome at the end of last month.

SUBJECT : Fire Brigade Commandante.

TO : Major Mason, Fire & Civil Defence, Sub-Commission.

I regret to have to report that the present fire brigade Commandante does not appear to be sufficiently co-operative and active in his duties. I am of opinion, that there will be little improvement in the discipline and efficiency of the brigade whilst he remains.

He is not deliberately obstructive but he feels rather insulted to think that he should have to take orders from any Allied Officer.

When he first came to the office he placed himself at my desk during my brief absence and on my return asked me at which desk I would like to sit. I let him know that I was in control and that he would find himself an office elsewhere. He did not like this and tried to argue that he could not exercise discipline and that he was the Commandante with extraordinary powers etc. Finally he went to another office and put his notice "Commandante" on the door with the suggestion that a notice "A.M.G." be put on my door.

He is never to be found during the afternoons and at this time the brigade is in a state of coma.

My orders are either forgotten or ignored, for example; two weeks ago I ordered that the engine room be washed down with a line of hose every Saturday morning and that the engines be washed at the same time. Nothing was done. The same thing happened when I ordered fire bells to be fixed on the engines. I ordered that no cars or light trucks were to be used excepting in connection with fires or special services. I have finally to go to the job myself. These are all small things but unless there is whole hearted co-operation I do not think that we shall see much improvement in the Rome Fire Brigade.

I am informing you that if necessary, I am at your disposal in all those questions, which regard the Fire-Service in Trieste and Istria Provinces, which you are directing, in view of the knowledge I have in regard to said Provinces since I lived there till 1940, as student, professional man and state employee of following services:
As officer (Capt. of 5th genio) of Trieste, I know almost all buildings built till 1936, in the Carsica zone North-Western of Trieste.
As director of maritime works on behalf of Genio Civile and successively as house and port constructor, I know a great part of civilian and military buildings and maritime fortifications including the lighthouses and landing quays, also in the Istria Islands.
As Vice Commandant of Pola Fire-Service, I know very well the industrial, naval and military zone, as well as arsenals, schools, c.r.e.m., powder-magazines and old fortresses of the Port.

TO : S. E. The Under Secretary of State
(Fire & P.A. Services).

1. Reference is made to an unsigned memorandum dated 28 August and addressed for attention of Major Mason of this Headquarters.

2. The Memorandum states that S.E. The undersecretary of State considers that the following officers might be recalled to the service and asks for the opinion of this Headquarters.

GAIANI	Ing. Mario	Age 59
BERTINATTI	Ing. Levante	Age 58
PULEJO	Ing. Giuseppe	Age 58

3. The Schede Personale of these officers has not been seen by this Headquarters but it is presumed that they have been found satisfactory by your Department.

4. Our records on BERTINATTI and GAINI indicate that they are extremely capable and experienced officers and it would appear from these records that these two officers might very well be recalled at least temporarily in spite of their age. Of PULEJO we have no record and therefore are not in a position to express an opinion.

5. It is noted that your Excellency is proposing that Ing. GAIANI should be appointed as Capo dell'Ufficio Tecnico. It is thought that possible consideration might be given to the comparison of the suitability of Ing. GAIANI and Ing. MAGNOTTI for this post, bearing in mind the fact that Ing. GAIANI is extremely competent in the Service of the Ports and might well be better employed in his previous capacity of specialist controlling the Port Service, which is in need of re-organisation.

1. Reference the attached memorandum.

2. The movement of Italian Fire officers in ACC territory is a matter for the Italian Government.

We only advise a cancellation in event of technical difficulties.

3. Few, if any, of the Italian Fire officers wish to move and they all produce personal reasons why they should not. They also invoke the assistance of outside people on their behalf.

Most of the Allied officers also have wives they have had to leave to assist this country and it is felt that the Italians themselves must be prepared to serve the best interests of Italy. The efficiency of the service comes before personal objections.

4. There appears to be no valid reason why the transfer of Ing. GELATI ORESTE should not take place. He will be replaced by a more efficient officer.

5. The case of Ing. TIRONE, FRANCESCO has already been dealt with by this Headquarters. He is not discharged at present but like many others is suspended.

of Sicily.

Palermo, 31 July 1944.

To : Major C.H.L. MASON Hq. A.C.C.

Subject: Command of Fire-Service in Catania.

From the first informations received relatively to the situation of the Catania corps, it is deemed opportune to place there temporarily a Commander until the situation is definitively cleared.

Eng. ATTARDI, commanding the Reggio di Calabria Corps, stated, that he would not have any objection in assuming the Command, but on the condition he be sent to the Catania Corps on temporary duty, until the situation is solved.

For obvious reasons the transfer of said officer to Catania, constitutes undoubtly an unfavorable measure, when we consider the position he already occupies.

This Hq., knowing the ability of Eng. Attardi, proposes that he should be assigned immediately to the Catania Corps.

In a few days we shall forward to you a detailed report. We attach for your information an article of the local press.

Respectfully

1. Ing. Vito Magnotti was removed by me on 30 June 1944, as Chief of the Fire Department of Rome. This was done pursuant to our policy to change the heads of all units and agencies of government in the ex-Governatorato of Rome.

2. However, it should be stated for the record that our information indicates that Magnotti has no Fascist background. He is an excellent public servant.

3. My recommendation is that Magnotti be returned to his previous position which in fact is a higher grade position, namely Capo Dell'Ufficio Tecnico, Direzione Generale Servizio Anti incendi, Ministry of Interior, and that the return be effective 1 July 1944. *

Subject: Ing. Luigi Bigi - Commandant of the Firemen of Rome.

URGENT CONFIDENTIAL LETTER

It is reported that the Regional Commissioner of Rome has appointed as Commandant of the 1st. Firemen Corps of Rome the officer Dr. Ing. Luigi Bigi, formerly Commandant of the Firemen Corps of Palermo. The above mentioned, who in the Fire Services Company held the grade of II class officer (grade VII), bears also the badges of the grade of 1st. class Officer (grade VI) and it appears that he was promoted by the Allied Command.

As stated in the personnel roll of the Fire Services, Mr. Bigi was "Squadrista", "Marcia su Roma", and "Sciarpa Littorio" and he availed himself of these fascist merits for the purpose of being enrolled in his office.

Mr. Bigi has always shown an attachment to the past fascist regime, giving definite and repeated proofs.

In fact, he presented on the 6th. of April 1941 the group of "squadristi" of the National Corps of Firemen, assembled from all provinces, to the Under Secretary of the Interior Buffarini Guidi, as

In fact, he presented on the 6th. of April 1941 the group of "squadristi" of the National Corps of Firemen, assembled from all provinces, to the Under Secretary of the Interior Buffarini Guidi, as may be ascertained in the photographic document published in No. 6 (1941 year) of the "Firemen's Review" and, on the entry of the Allies in the city of Palermo, he sent a last radio message, praising the Duce, to the General Direction of Fire Services.

The appointment of this person has raised great resentment among the Corps of Firemen in Rome, who, from what we learn unofficially, feel a great resentment and disrespect towards the new Commandant.

The city press has already represented these feelings and in the daily newspapers "Italia Libera" and "Tempo" of the 12th. inst. have appeared bitter criticisms in regards.

Il predetto,che nell'organico dei Servizi Antincendi riveste il grado di Ufficiale di II^classe (grado VII), si fregia inoltre dei distintivi del grado di Ufficiale di I^classe (grado 6°) e sembra che sia stato promosso da parte del Comando Alleato.

Dal ruolo del personale dei Servizi Antincendi risulta che il Bigi è stato "Squadrista", "Marcia su Roma" e "Sciarpa Littorio", e si è avvalso di tali benemerenze fasciste agli effetti dell'inquadramento della carriera.

Il Bigi ha sempre dimostrato attaccamento al cessato regime fascista dandone indubbie e ripetute prove. 1. I herewith submit the following for your information.

2. Comandante MAGNOTTI VITO of the ROME Fire Department, visited my office on this date for permission to get a pass to return to Rome.

3. I asked him why he was in Naples and he told me the following story. Said that he was temporarly relieved from in charge of Rome about two weeks ago. He gave as the reason for being releived that the Allied Authorities wanted to investigate his record. He said that it was not necessary to get a pass to leave Rome.

4. I advised him to proceed via the regular channels in order to receive a pass to return to Rome.

A S.E. Il Prefetto - Bari

Con riferimento all'oggetto, vogliate Eccellenza prendere nota delle seguenti considerazioni:

1) All'epoca del mio arrivo in Bari, il lavoro svolto dall'allora Comandante il 10º Corpo VV.FF. di Bari, non poteva certo definirsi del tutto soddisfacente- Col'andare del tempo però, la sua cooperazione ed attività in generale é andata sempre più migliorando, sicché circa un mese fa giunse dal Ministero degli Interni l'ordine di trasferimento dell'Ing.Pini da Bari a Le sina e dell'Ing. Lumetta da Messina a Bari.

2) Pelo trasferimento a parer mio, per quanto riguarda Bari Città é stato più che altro causa di rallentamento nei riguardi del normale svolgimento del lavoro in questo periodo, con una conseguente diminuzione del grado di rendimento ormai raggiunto sotto la guida dell'Ing. Pini. Ciò é naturalmente dipeso dalla non conoscenza degli uomini e del posto da parte dell'Ing. Lumetta-

3) Proporrei perciò all'Eccellenza Vostra di prendere in considerazione queste mie osservazioni con le Autorità competenti affinché ogni cosa venga rimessa così come prima, per un sempre migliore funzionamento del Corpo che giornalmente é chiamato ad assumere compiti di cui la serietà non Vi é certo ignota.

1. Based on their knowledge of the personnel, the officials of the Anti-Fire Directorate of the Minister of the Interior S.E. PASCUCCI and Ing. The original vice commandante, Bagnetti, has apparently been suspended and a man of insufficient experience and rank, D'Acierno, is left in charge.

Bigi, at present working with our Fire Officer, to take over the Command at Rome even if only temporarily until the Govt. has time to take stock of the few available Fire Officers.

2. As this matter concerns more than one Region and a Government Dept., the Provincial P.S. Officer should have made his report to this HQ through the proper channels. This HQ. would then have taken the matter up with Italian Government in the proper form.

3. It is pointed out that the communications from A.C.C. Officers should in all cases be transmitted in the English language. Assistance may be given in translation but the meaning as expressed in English, stands in all cases of dispute - hence the ruling.

SUBJECT: VV.FF. Office, Engineer SERRI-PINI Roberto.

TO : HQ., A.C.C., Public Safety Sub-Comm.

We are informing you that on 12 June the Prefect of Bari transmitted to this Ministry a letter, of which we are enclosing a copy, by Major Reveley, Provincial Police Officer ACC Bari, recommending the transfer of Engineer SERRI-PINI from Messina HQ to Bari HQ and consequently of Engineer LUNETTA from Bari to Messina.

Your Commission knows the several reasons which led to the removal of Eng. SERRI-PINI from Bari; therefore this Ministry does not think as advisable the return of said official to that town.

From the date of their transfers both Egn. Serri-Pini and Eng. Lunetta have shown a scarse feeling for discipline as they acted in an underhand way with the purpose of returning to their previous residences.

In consideration of that this Ministry proposes to transfer - when we have other capable officers at our disposal - Engineer Serri-Pini from Messina to Cagliari where the regular Commander is missing, and Engineer Lunetta from Bari to Ragusa.

SUBJECT : 10th VV.FF Corps Commanders.

TO : H.E. The Prefect.

Reference to VV.FF. Corps Commanders will you please take into notice the following consideration:

1- At the time of my arrival in Bari the work do ne by the then Commander of the 10th VV.FF. Cops in Bari, might have not been considered entirely satisfactory. With time his cooperation and his activity, has in general improved, so that about last month, the order of transferring Ing.Pini from Bari to Messina, and Ing.Lunetta from Messina to Bari, came from the Ministry of Interior.

2- This transfer, in my opinion,as far as concerns the city of Bari, has been the cause of delay the normal routine of work in this period, consequently lessening the progress which was reached under Ing.pini.This is due to the fact that Ing.Lunetta lacked knowledge of the place and men.

3- I ask your Excellency, together with the authorities concerned, TO TAKE my observation into consideration, so that everything may be settled again as before, for a continuous improvement of the Corp,which is daily called to assume duties whose gravity is not unknown to you.

With my thanks.

OGGETTO : VV.FF. 10° CORPO = COMANDANTI =

A S.E. IL PREFETTO BARI

Con riferimento all'oggetto, vogliate Eccellenza prendere nota delle seguenti considerazioni:

1) All'epoca del mio arrivo in Bari, il lavoro svolto dallo allora Comandante il 10° Corpo VV.FF. di Bari, non poteva del tutto definirsi soddisfaciente.
Coll'andare del tempo però, la sua cooperazione ed attività in generale è andata sempre più migliorando; sicchè circa un mese fa giunse dal Ministero degli Interni, l'ordine di trasferimento dell'Ing.Pini da Bari a Messina e dell'Ing.Lunetta da Messina a Bari-

2) Tale trasferimento a parer mio, per quanto riguarda Bari Città è stato più che altro causa di rallentamento nei riguardi del normale svolgimento del lavoro in questo periodo, con una conseguente diminuizione del grado di rendimento ormai raggiunto sotto la guida dell'Ing.Pini; ciò naturalmente dipeso dalla non conoscenza degli uomini e del posto da parte dell'Ing.Lunetta-

3) Proporrei perciò all'Eccellenza Vostra di prendere in considerazione questo mio osservazioni con le Autorità competenti affinchè ogni cosa venga rimessa così come prima, per sempre migliore funzionamento del Corpo che è giornalmente chiamato ad assumere compiti la cui serietà non Vi è certo ignota-

Ringraziandola sinceramente-

It has now been ascertained that Ing. BONTA who was until recently commandante of the ROME Fire Service has been sent to the Fascist Government offices at VERONA. His place at ROME was taken by Ing. VITTO MAGNIOTTI. MAGNIOTTI is about 50, active and a good officer. He is described as a Lukewarm Fascist.

Prior to his transfer to ROME he was at the Ministry of Interior (Fascist) and before that he was Vice-Commandante of Naples.

It is thought advisable to find a better known and more reliable Commandante for ROME.

1. With the advance of the armies into former enemy held territory, the provision of Civil Public Safety Officials has to be considered so that civil government may operate as soon as it is compatible with the military situation to do so.

2. With your co-operation, a prison director has been found for Littoria Province. It would be appreciated if this H.Q. could be advised whether the new men, Dott. SOMMA, Angelo, from REGINA Prison, will be responsible for the whole of Region 4, exclusive of Rome City, as, if not, directors will required to be found for Frosinone, Provincial Rome, and the other provinces of Region 4.

3. Likewise, there will require to be appointed Questori and Directors of Vigili Fuoco, the latter not being of such great urgency, but, nevertheless, important.

Could personnel be found by the Italian Government, for these posts?

SUBJECT : Transfers of Officers - Italian Fire Service

TO : R.C. Regions I, III, VI (for attention of P.S. Officers)

1. The following transfers of Italian Fire Service Officers are proposed.

2. Owing to certain circumstances affecting Region VI there is at present no Commandante of the CAGLIARI Fire Service. It is considered essential to have an experienced and reliable officer to command this Corps. The Italian Government has therefore applied for the services of Ing. MARIO SOLIMENA of the Naples Brigade for transfer to CAGLIARI.

3. On 30th March 1944 under reference ACC/14503/PS the Italian Government asked for the transfer of NICOLA DE PERUTA, Commandante of BENEVENTO to AVELLINO as Commandante. This was agreed to by Regions I and III. The Government now wishes to cancel this transfer and this HQ has given approval.

4. Following the decision in para. 3, the Minister of Interior now suggests that Ing. VINCENZO SALZANO at present at NAPLES should be appointed Commandante of AVELLINO. This officer should do much good in re-organising the AVELLINO Fire Brigade.

5. A reply is requested from Region III as to whether or not there is any objection to the transfers of SOLIMENA and SALZANO.

Replacement of Italian Officials in AMG Territory.

1. It is appreciated that when a vacancy exists in AMG areas for the appointment of a senior Italian official; the Regional Commissioner will frequently be at a loss to find a candidate of sufficient experience and seniority within his own region to fill such a post. Instances have occurred in which under these circumstances; officials have been appointed to a status far beyond their normal expectations of promotion.

2. In most cases when such a vacancy occurs, a qualified replacements is available elsewhere but through lack of information, the R.C. is not able to give him consideration. There must, for example; be many qualified persons in King's Italy who should be available for employment in AMG ares.

3. It is suggested that this problem of demand and supply be co-ordinated with the appropriate Ministries of the Italian Government by requesting them to recommend eligible candidates for appointment.

It is anticipated that they would be more than willing to co-operate, since the proper selection of Italian officials would be of long term advantage to them, having regard to the time when they themselves will have to administer these officials.

4. If, when such a vacancy occurs in future, the Regional Commissioner will refer to this HQ, submitting also the particulars of any local candidate whom he wishes to consider, it would be possible to ascertain from the Italian Government what other qualified persons are available for selection. The appointment would be made by the R.C. subject to the necessary confirmation required from this HQ Such a method would ensure that the selection would be made from competent and acceptable candidates, and, furthermore that the choice would no longer be limited to an otherwise restricted field.

5. The following official appointments are those which are recommended for inclusion in such a scheme.

"During the 6 months I was acting as SCAPO in the Province of Ragusa, I received the most willing and ready co=operation with Comandante ZIINO..... I found his fire brigade the most efficient Italian organization i had any dealings with. The condition the fire apparatus was maintained in, the constant fire drill of the men and their performance at actual fires was most impressive and the comman=dante was tireless (at times almost impor=tunate) in his efforts to obtain extra fire fighting equipment".

The facts of this case are as under:=

2. Records shew that in January 1944, with other Italians holding public office, ZIINO was subjected to the 'vetting' process then in operation in this Region. In consequence of enquiries conducted locally he was suspended from duty by the S.C.A.C.

3. Attached hereto is a copy of a Scheda Personale completed by subject. By reference to this it will be seen he is a Fascist of long standing having joined the P.N.F. on 2nd March 1924 and from January to December of 1942 was a Political Secretary of the Party = under the policy then existing, subject was barred from holding office.

4. It was also a practice to call upon the Questori for reports concerning individuals under investigation, and such a report was forthcoming in this instance = a copy translation is attached hereto for information. In this document it is alleged ZIINO was a very active Fascist and obtained personal advantage through his contact and influence with the Fascist Party; further= more, it is said he held a second office as Commander of the Urban Guards (municipal police) = incidentally, it is contrary to the regulations of the fire depart= ment to hold two positions.

ZIINO COLANINO DOMENICO.

Commander of the Fire Brigade.

For many years Ziino has vexed the people of Ragusa, treating them in the fascist manner with impolitness and arrogance. He came to Ragusa without means, became rich through the cooperation with fascism, serving with zeal in every way.

Trustee of the local fascio, he developed direct work to consolidate the repression of the antifascists.

Through his office as a commander of the Urban Guards he did **earn** great money with the control of the country mills, imposing compensations every time he facilitated the black market.

He was hated by all and at the moment of the occupation by the Allied Forces, he took active part in the plot devised by Major of CC.RR. Vasco, in order to throw back the Allies, who had occupied Ragusa on July 11th. As a Commander of the Fire Brigade he has developed a defamation work against the Firemen, who manifested antifascist sentiments, many of whom were transferred elsewhere or dismissied. His cooperators have been: Brig. Fiornovelli, 1st class Sgarioto Salvatore, guard Carfi Giuseppe and Guastella Francesco.

TO: The Regional Public Safety Officer, ACC, HQ. Region No. 1.

1. Reference attached letter No. ACC/14502/1/PS, dated 22nd March 1944, from the Chief, Public Safety Sub=Commission, Rear H.Q., Allied Control Commission, APO 394, in which information is asked concerning the dismissal of the above=named from his position as Comandante of the Ragusa Fire Brigade. The facts of this case are as under:=

2. Records shew that in January 1944, with other Italians holding public office, ZIINO was subjected to the 'vetting' process then in operation in this Region. In consequence of enquiries conducted locally he was suspended from duty by the S.C.A.O.

3. Attached hereto is a copy of a Scheda Personale completed by subject. By reference to this it will be seen he is a Fascist of long standing having joined the P.N.F. on 2nd March 1924 and from January to December of 1942 was a Political Secretary of the Party = under the policy then existing, subject was barred from holding office.

4. It was also a practice to call upon the Questori for reports concerning individuals under investigation, and such a report was forthcoming in this instance = a copy translation is attached hereto for information. In this document it is alleged ZIINO was a very active Fascist and obtained personal advantage through his contact and influence with the Fascist Party; furthermore, it is said he held a second office as Commander of the Urban Guards (municipal police) = incidentally, it is contrary to the regulations of the fire department to hold two positions.

319

5. Our case papers shew that subject's suspension was considered by Captain F. Brannigan, then Superintendent, Fire and Civil Defence Section, No. 1

ZIINO COLANINO DOMENICO.

Commander of the Fire Brigade.

For many years Ziino has vexed the people of Ragusa, treating them in the fascist manner with impolitness and arrogance. He came to Ragusa without means, became rich through the cooperation with fascism, serving with zeal in every way.

Trustee of the local fascio, he developed direct work to consolidate the repression of the antifascists.

Through his office as a commander of the Urban Guards he did ~~earn~~ great money with the control of the country mills, imposing compensations every time he facilitated the black market.

He was hated by all and at the moment of the occupation by the Allied Forces, he took active part in the plot devised by Major of CC.RR. Vasco, in order to throw back the Allies, who had occupied Ragusa on July 11th. As a Commander of the Fire Brigade he has developed a defamation work against the Firemen, who manifested antifascist sentiments, many of whom were transferred elsewhere or dismissied. His cooperators have been: Brig. Fiornovelli, 1st class Sgarioto Salvatore, guard Carfi Giuseppe and Guastella Francesco.

1. In compliance with letter, your headquarters, file AFHQ-384.51, dated 19 November 1943, the following report is submitted covering AMG and AGC:

(a) The number of specialist officers assigned for Fire and Civil Defense duties with the AMG/AGC — 5. Of these, one is expected to be transferred to a combat unit.

(b) Number of specialist officers assigned (as known) to Regions for Fire and Civil Defense duties.

2. It is considered that in some of the Regions of Northern Italy, the inclusion of more than one large city may call for the provision of more than one Regional H.Q. officer (Civil Defense and Fire). These additional officers to be assigned when and where the necessity arises. Definite allocation to Region X, XI, and XII is at present impossible as the boundaries are not known in this H.Q.

3. In view of the fact that the Fire Service is a permanent one whilst the Civil Defense is a temporary one which would lapse entirely in the event of cessation of hostilities, it is requested that specialist officers assigned in future should be primarily Fire officers with a knowledge of Civil Defense.
