OGGETTO Corpo Vigili del fuoco di Ancona.-

Nel ringraziare per la cortese segnalazione fatta col foglio sopradistinto, si comunica che in considerazione della situazione deficitaria relativa al macchinario, determinatasi nel 3°Corpo "Ancona", in seguito alla restituzione degli automezzi, a suo tempo concessi in uso dalla Commissione Alleata, questo Ministero ha provveduto all'assegnazione di due unità antincendi al Corpo predetto.-

Subject: Fire Service Vehicles.

To: HQ A.C. Public Safety Sub Commission. — 1450611 Ref.: AMG/4/101

From: A.C. Ancona Date: 22 Sep 45.

1. In accordance with instructions received from G-4 (B) (ref. G-4/103/2/3 of 5 Sep 45) the following Fire Service Vehicles have been returned to 1C Adv. R.V.P. Cesena:-

3 Ton 4 x 2 Austin L. 4678355
" " " L. 4675365
" " Bedford L. 526233.

2. On receipt of these instructions 102 Fire Fighting Coy. immediately pointed out the serious consequences of the vehicles being removed from Ancona, and the difficulties which would face the Italian civil fire-service in covering the local fire risk without the help of the vehicles. As a result of telephone messages from this office, G-4 (B) agreed to suspend the operation of the order for a few days, and in the meantime, I understand, made direct inquiries to AFHQ and to your Sub-Commission to see whether the order should be cancelled. However, after all inquiries had been duly made fresh orders were issued to return the vehicles and they have been returned as stated above. It is understood that at the same time 102 Fire-fighting Coy made representations to higher authority to try and obtain the retention of the vehicles.

3. It is therefore necessary for me to confirm the telephone messages of the last few days, and to report that the local fire services regard the present position with some anxiety. While the military fire services would do everything in their power to help cover the local fire risk, the removal of the vehicles makes it impossible for them to guarantee a cover which they regard as adequate.

4. In the absence of a Public Safety Liaison Officer in Ancona, I forward this report for your consideration.

SUBJECT: Motor vehicles for fire-men service in Milan.

In thanking you for the kind support mentioned in a/indicated letter, I should like to make clear that the Ing. BETTI of Milan has been authorized to regolarize the stock supplies left in suspense by the ex- "Direzione Generale" of Milan.

He is charged to take care for a rapid and concrete solution and deal with the furnishers in order to operate liquidations and to obtain the supply of the goods ordered.

Therefore, the requests forwarded by said Ing. BETTI, with letters n. 3348/I.3 and n. 3949/I.3. dated 3-18/8/1945 respectively, are the exact disposition given by this Ministry, begging to take full consideration and to give authorization.

TO the Public Safety Officer AMG Ancona.

Following the request of inquiries relating to Cini Manlio made by you, for the fact that he was suspected of having stolen an Allied truck, I report as follows :

" In the month of September 1944 CINI obtained permission for the leave from the HQ fire Brigade in Naples and came to this town on the 13th of 14th of that month to visit his parents in law . In this circumstance, as has been stated by Sampaloesi Igino living in Via Trieste 38 he travelled from Naples to Rome with a truck belonging his HQ, reaching this town with transport he found on the road. He remained here until the 28th or 29th of Sept.(more exact information can be given by Fire Brigade)

When he left Jesi Cini told Sampaolesi and the father in law. Bezzecheri Guglielmo living in Piazza Grannercato 54 that on the return trip he would have used an Allied Military lorry having fixed en appointment with the driver of one I do not if meet in Via Cavallotti or in Via Roma near the local paper factory.

From that date I do not believe Cini has returned any more to see the father in law or the son living here.

Subject : Civil Complaint.

TO : Claims & Hirings Officer
62 Claims & Hirings.

Attached is copy translation of letter received on the subject from Comandante Vigili del Fuoco of Naples.

Further investigations at Jesi, suggested in para 4 of said letter, appear therefore necessary to clear hypothesis of responsabilities outlined in paras 2 & 3 .

It would be appreciated if, to save time, you could forward any further particulars in your possession directly to Public Safety Liaison Officer, Ancona, so as to enable him to carry on necessary enquiries at that end.

54° CORPO VIGILI DEL FUOCO
NAPOLI

File N° 3382 B 2/G

Naples, 9 May 1945

Subject: Civil Complaint.

To : Public Safety Division A.M.G.Naples.

Reference to your letter PS/13.3 dated 20/4/45 your Division.

1. From the register books of this Corps it does not appear that Chevrolet N° L.4625645, left place nor has ever filled up with petrol. It was deposited in the barracks Alessandro Volta. It is not to excluded that it might have gone out for a few days without being noticed due to the condition of the said barracks which is completely open and where a continous traffic is held of Allied cars for the needs of the Hospital and British factory.

It is not to be excluded that the absence of the car could have been hidden by person concerned.

2. From investigations it appears that a Vigile, born in Jesi, belonging to this Corps, a certain CINI Manlio, was absent from duty for illness from the 24.10 to the 4.11.44. He was asked if he had taken the car to Jesi, naturally he denied.

3. Almost at the same time, precisely from the 28.10 to the 5.11.44 The Vigile driver CARRASCO Elvidio from Naples, at present not belonging to the Corps because dismissed on the 26.1.45, was absent for illness.

4. We deem, for better investigations it would be better to ascertain at Jesi if Cini was seen there during those days or supply to this Command more details how the said truck was identified and noticed.

sgd Ing. Agostino Pelsani.

In view of the closing down of Southern Region, this Branch is informed by Transportation Sub Commission that addressees are responsible for all transportation problems as follows:

Major Bowers - Naples Area.
Major Taylor - Bari, Foggia and Campobasso Areas.
Captain Price - Gioia and Apulia Areas.

This Branch is concerned with records and supply for all W.D. vehicles of the Commission, whether used for domestic purposes, civilian supply or fire service. Responsibility for rendering the appropriate casualties and other returns for areas as shown will therefore devolve on addressees. A copy of Annex 'B' to Establishment Memorandum No. 34 is enclosed for guidance.

Addressees will also be responsible for fire service vehicles in their areas, and particulars of location of these vehicles are attached hereto. These vehicles will be taken on charge by the appropriate addressee and included in returns.

Public Safety Sub Commission is being asked to instruct fire brigades to get in touch with addressees in order to obtain any necessary instructions.

During the retreat of German troops In June 1944 a Fiat truck 15/Ter property of the Ministry of Interior was taken from the 61 Corps VV.F. detachment at CItta di Castello.

After some time it was found near that city.It results that the truck has been transformed and assigned from the "Ufficio Recuperi" Perugia (Vehicle Recovery Office) to Signor Bellei Pietro address;Frazione Trestina,Comune of Citta di Castello and now carries plates No.ACC 61.This H.Q. took the vehicle from Bellei Pietro but the Comandante of the CC.RR. ordered it returned.

Since the Citta di Castello has no appliances we beg the Ministry to assist us in recovering this vehicle.

Before being taken the truck carried plate No.VF.700,engine No. 24812- 53/A.

We await your answer.

SUBJECT: Allocation of truck for salvage service.

The Hq. of the 44th Fire Brigade of Littoria, has informed us of their very urgent need of a truck, to be equipped for salvage service in the territory under its jurisdiction.

Since the a/a Brigade has lost almost all its equipment owing to the battles that took place in that zone and, on the other hand, that Brigade has to carry out many salvage services for the buildings recently damaged by the a/a war actions, we ask you to take into kind consideration the possibility of allocating a medium Allied truck to the 44th Fire Brigade of Littoria.

2. I am informed by a Fireman that has just returned from Rome that this machine is still there but is out of commission due to burned out big end bearings.

3. During the last month two Fire Appliances attached to Lucca Province have been involved in accidents with Allied vehicles and have been severly damaged, one of these is an Autobottepompa.

4. In towns where the water systems have been damaged, these kinds of machines are ideal. Lucca Brigade are confident that they can repair the machine if only they are permitted to have it back.

5. If this is agreed, arrangements can be made to send a lorry from Florence to Rome to tow it back to Lucca for the necessary repairs.

6. If it is true that this machine is standing out of commission in Rome, may application be made for its return to Lucca where it is urgently required.

1. There still seems to be some misunderstanding as to British W.D. vehicles used in connection with Italian Fire Service.

2. Under the terms of Establishment Memorandum No.34 these are made the responsibility of Regional Commissioners and other "Responsible Officers" and will only be moved from the charge of one "Responsible Officer" to another on the orders of G-4 (B) branch.

3. Regional Commissioners etc. can only divest themselves of responsibility for these vehicles by a proper transfer evidenced by A.F.C.1033 to another Region etc. and it should be the Regional Transportation Officer who sees that this is done.

4. At the moment these vehicles are often being moved by Public Safety Officers in such a way that it is most difficult for this branch to know where the vehicles are. It is feared that Regional Transportation Officers must be in no less difficulty, so that it becomes impossible for them to see the vehicles are properly maintained and repaired.

5. It is requested that Regional Transportation and Public Safety Officers will get together on this matter and that Transportation Officers satisfy themselves for what Fire vehicles they are responsible.

Every effort should then be made to see that January returns are accurate and that future movements are only made on the instructions of G-4 (B), which will always be sent to Transportation and Public Safety Officers. Such transfers must always be properly evidenced by A.F.G.1033 and a copy sent to G-4 (B).

1. Petrol Section AFHQ have informed us that instances are still occurring where military vehicles being used for civilian work and for which a haulage rate is charged are drawing petrol from military petrol points.

2. It is definitely agreed that where W.D. vehicles are used for civilian work and are operated on a Truck Pool basis where road haulage rates are charged then P.O.L. must be obtained through C.I.P. on payment.

3. Petrol Section informs us that it is very difficult for personnel at military petrol points to be able to distinguish what vehicles come under the category referred to in para 2 above and in order to tie this matter up they requested us to mark very clearly all such vehicles.

4. Will you therefore please see that instructions are issued that all W.D. vehicles operating on a commercial basis are marked in the following manner:

2 in letters as follows:

NO W.D. GAS.

and these markings should be placed as near to the petrol tank filler cap as is practicable according to the make of the vehicle.

No. 2.....:

POL Supplies for Contractors Employed on Military Projects

1. Civilian contractors employed directly by the Army on Military projects are provided with petrol coupons and draw supplies from civilian stocks which are replenished automatically so that civilian alloscations are unaffected.

2. It has now been decided to extend this system to Civilian Contractors employed by ACC/AMG on military projects.

3. Public Works and Utilities Sub-Commission will accordingly instruct their Regional Engineers to supply the local licensing authority with a certified schedule in duplicate of these Military projects showing the total monthly POL requirements for each contractor and will send copies directly to Public Works and Utilities Sub-Commission, ACC HQ, and to Pet.Sec., HQ AAI.

4. The local licensing authority will issue special coupons in bulk to the total requirements shown. Regional Engineers will be responsible for rationing these out to the contractors in accordance with actual daily needs of the vehicles and will only issue coupons for minimum necessary consumption.

5. Any coupons remaining unissued at the end of the month will be used to reduce the number claimed for the following month.

6. The same system will apply equally in Military Government and Italian Government territory, and ACC/AMG Officers supervising the local rationing authority will see that the new scheme is properly understood. The Italian Government is being advised separately.

7. Steps are being taken to have the special coupons printed. When available, they will be used also for direct issue to contractors employed by the military. Meanwhile the standard coupons will be used.

SUBJECT: POL - W/D vehicles used for civilian purposes.

TO : Public Safety Sub-Commission .

1. At a meeting in this Sub-Commission on 26 November 1944 at which representatives of Region IV Public Safety were present it was understood that some W/D vehicles are being operated on Fire Service Work and that whilst they are also being used for water hauling to Hospitals their use is mainly civilian and they draw civilian supplies of POL.

2. There may also be other uses of W/D transport by branches of Public Safety of a similar nature.

3. To prevent such vehicles drawing POL from Army Petrol Points - inspite of not having a W/D Works Ticket - it has been decided to mark them specially.

REF : R.IX/PS/22/16
SUBJECT : Fire Fighting Equipment
TO : Major G.H.L. Mason, Public Safety Sub-Comm., A.C.
THRU : Regional Public Safety Officer, Emilia Region.

1. On Sunday October 29, 1944, two pieces of fire apparatus which were loaned to Emilia Region in anticipation of an early entry to an industrial area of that Region, arrived in Florence.

2. One piece, a modern pumper with two men from Rome is still in Florence awaiting a call from us to proceed.

3. The other piece or truck from Naples with two men was brought to Saltino Friday November 3, 1944. It consisted of a Chevrolet truck, No. L1307016, which carried a rectangular water tank having a capacity of about 425 gallons; a small portable pump, a length of stiff suction, 20 lengths of single jacket hose, four playpipes, sections of ladders, picks and shovels. The truck was in very poor condition and it was necessary to have our Regional Mechanics make repairs.

4. The trailer pump mentioned in your communication of 24 Oct. 44, (ACC/14506/PS) that was to accompany this truck did not arrive and I assume that the portable pump was sent in its place. This also was in poor condition and our mechanics had to put it in order.

5. The tank was corroded and evidently never had been painted or cleaned. The short outlet pipe leaks where it was welded to the tank. The valve on this pipe also leaks so that the tank cannot be used for carrying water until repairs are made.

6. We have had the twenty lengths of hose tested by the two firemen who are in charge of the piece and found thirteen lengths were in such bad condition that they cannot be used. This leaves seven lengths. I would appreciate having you inform me as to how to dispose of the defective lengths.

7. You will see by the above that while the portable pumper is of very limited capacity, it may be of some use, likewise the truck, but the tank is of no use until repairs are made and as for the thirteen lengths of hose, they are absolutely useless as there is no way of repairing or re-coupling them.

8. We will endeavor to keep this equipment in the best possible condition until it is returned.

9. Thanking you for sending us this equipment.

1. A Chevrolet truck No. L 1507016 with two firemen arrived in SALERNO at 1600 hours on Nov 3rd 1944 after a stay of a week in FLORENCE.

2. The truck carried a metal rectangular tank having a capacity of about 425 gallons, a small portable pump, a length of stiff suction, twenty lengths of single jacket hose having 2½ inch couplings, four play pipes with diameters ranging from ½ inch to ⅝ inch, sections of ladders, picks and shovels.

7

3. In the communication of 24 Oct 44 (AGO/14506/ES) from Public Safety Sub-Commission, signed by Major Mason, a trailer pump was to be sent with the truck. This failed to arrive and I assume that the small portable pump was sent in its place.

4. The truck falls far short of my minimum expectations for the following reasons:

(1). It was in poor condition and our Regional mechanics had to make repairs.

(2). The portable pump is of a very limited capacity and also had to be repaired.

(3). The water tank is badly corroded and apparently never had been painted or cleaned. The short outlet pipe leaks where it is welded to the tank and the valve attached to this pipe also leaks which makes it impossible to carry water until repairs are made.

5. It will be seen from the above that the truck itself and also the pump may be of some use, but the tank cannot be used for the present.

FROM : Z.P.O.-Foggia Zone

REF. : FP/ 5003

DATE : 19/10/1944

With reference to attached letter received from Regional Public Safety Officer, Abruzzi e Marche Region.

I was for several months stationed at Termoli; during the time Campobasso was attached to Region 5.

The position with relation to the Termoli civilian fire brigade is as stated in the letter, viz that the only thing needed to enable the brigade to operate, is a motor lorry, for the purpose of towing the pump and carrying the equipment.

Every effort was made by the Provincial Commissioner, Campobasso to obtain a vehicle, without success.

There are a large number of Air Force Units in the Termoli area and if vehicle could be provided it would be of considerable assistance to the Army Fire Service, in addition to supplying an urgent civilian need.

4A Reference your PS/10.3 of 18 October 44 and list attached and PS/10.3 of 23 and 24 October 44.

10A This H.Q. is informed by Major Brannigan that Chevrolet 3 ton 4 x 4 L. 4721217 was a stolen vehicle and had to be returned to Vehicle Park. (Your PS/10.3 of 30 August 44 refers).

If this vehicle has been handed in, the location of these trucks seems to be as follows:

1 at Pescara - Abruzzi-Marche Region.
1 at Florence for Emilia Region.
7 at Rome - Lazio Region.
45 in Southern Region.

The statement in your letter of 24 October that there are 50 in Southern Region is therefore not understood.

It is requested that the position as to these vehicles be cleared up as quickly as possible so that they may be taken on charge.

The bearer of this note is Ing. Castellano of the Directorate General of Anti-Fire & P.A. Services, Ministry of Interior.

He is in charge of the vehicles and personnel. As he does not speak English I am sending my personal interpreter, Sig. Cucchi with him.

Ing. Castellano will also look over the P.A. Services such as sirens, shelters etc. with you and the local P.A. officials. He will make notes of any requirements you might need urgently and which might be available further south.

Please arrange with the Commandante of the Fire Service or the local P.A. officials for the rations and accomodation of Ing. Castellano, Sig. Cucchi and the personnel.

The 3 ton truck which accompanies the column will return to Rome with all personnel on completion of duty.

2. One motor pump and one water tanker from 54° Corpo Vigili dle Fuoco of Naples will leave Naples at 0600 hours 25 Oct. 1944 for Rome en route to Florence.

3. The drivers, ARDUINO Luciano - Identity Card N° 1492 and OTTIGLIO Mario - Identity Card N° 1036 are carrying 6 days rations, they have been instructed to report to the Fire and CD. office in Rome to collect their passes and to report to the Comandante of Fire Service in Florence.

4. Particulars of the water tanker are as follows:-

British "Chevrolet" 3 tons 4x4 N° 130716
complete with water tank.

5. It is impossible at the moment to supply further water tankers owing to the inability to effect repairs to existing tanks by virtue of the absence of acetylene for use in oxy-acetylene burners, a shortage which is applicable to the whole of the Fire Stations in Southern Region.

6. Application has been made through Economics and Supply Division for acetylene, either loose or in cylinders, but without success. A request has been forwarded from this office to A.D.O.S. 56 Area in an attempt to obtain some from military sources, so far no reply has been received.

1. At 1130 hours on Thursday 12th October 1944 I met the Fire Committee of the Ministry of the Interior, accompanied by Capt. A.J. Brown, Regional Fire Officer, Region IV.

2. The following Committee Members were present:-

Ispettore Eng.	CALVINO	Giovanni
" "	GAIANI	Mario

3. I discussed at some length the necessity of providing Fire Equipment for the industrial area of BOLOGNA, bringing out the fact that this is the first of the large and important manufacturing cities that will be occupied and, as it is not known what Fire Equipment will be found there, if any, it is necessary that some arrangements be made to have Fire apparatus and a trained crew ready to take care of the numerous special duties that firemen will be called upon to do in a devastated area.

4. After some debate and compromising I finally left with the assurance that two Fire Pumpers and two Tank Trucks, fully equipped and manned with crews, would be at the immediate disposal of the Regional Public Safety Officer of Emilia Region. In addition to this, a mobile unit is now being organised and will be for the use of this Region.

2. It is understood that a pump is available in Rome and it is thought possible that another pump and at least one tanker could be loaned by Naples.

3. The appliances are required at once and should be sent with 2 drivers to report to the commandante, Florence Fire Service where they will be held at the disposal of Capt Packman Fire Officer, Emilia Region.

4. R.F.C.C. Naples is asked to agree to the loan of a pump and at least one tanker from that Brigade.

5. Should the tyres of the Naples vehicles be in bad condition it is thought possible that Rome Fire Brigade could supply good tyres.

6. The personnel should carry 5 days rations with them to enable them to go on to Bologna.

7. R.F.C.C. Emilia Region is requested to arrange further rations and accomodations for the personnel and also to arrange for their return to their own station after delivering of the vehicles to Bologna.

8. The names and identity card numbers of the personnel should be submitted at once to this H.Q. so that passes may be prepared. Personnel will report to this office the day before departure to sign and collect passes.

9. The appliances will be returned to their proper station at the earliest opportunity.

Foggia	"Chevrolet"	"	"	4518841

3. Our report mentioned in 1 above showed the total number of these British trucks in the possession of the Fire Brigade as 57, including 3 at Foggia, whereas the total should read 55 with 1 at Foggia.

4. It has been ascertained that only two vehicles were delivered to Foggia from the 15th Vehicle Park in Terlizzi on 10 Sept. 1944 and the remaining vehicle a "Chevrolet" 3 ton, 4x4 truck No 4525861 was deposited with 641 Service Station REME, Foggia, as it was beyond local repair by reason of fair wear and tear, vide BER certificate attached dated 17 October 1944. This vehicle has not been replaced.

54° CORPO VIGILI DEL FUOCO
NAPOLI

Naples, 9 May 1945.

File No.3382 B 2/G

SUBJECT: Civil complaint.

TO : Public Safety Division A/M/G/ - Naples.

Reference to letter PS/I3.3 dated 20.4.945 your Division.

1. From the register books of this Corps it does not appear that Chevrolet No.L 4625645, left the place nor has ever filled up with petrol. It was deposited in the barracks Alessandro Volta. It is not to be excluded that it might have gone out for a few days without being noticed due to the condition of the said barracks which is completely open and where a continuous traffic is held of Allied carS for the needs of the hospital and British factory.

It is not to be excluded that the absence of the car could have been hidden by the person concerned.

2. From investigations it appears that a Vigile, born in Iesi, belonging to this Corps, a certain CINI Manlio, was absent from duty for illness from the 24.IO to the 4.II.I944. He was asked if he had taken the car to Iesi, naturally he denied.

3. Almost at the same time, precisely from the 28.IO to the 5.II.I944, the Vigile driver CARRASCO Elvidio from Naples, at present not belonging to the Corps because dismissed on the 26.I.I945, was absent for illness.

4. We deem, for better investigations it would be better to ascertain at Iesi if Cini was seen there during these days or supply to this Command more details how the said truck was identified and noticed.

SUBJECT: Care Maintenance of Fire Vehicles

TO : H.Q. ACC (G 4) British; Capt. to ACC Public Safety Sub Commission

FROM : Z.P.O.-Foggia Zone

REF. : FP/5003

DATE : 15/10/1944

With reference to Memo 10/3 relating to Fire Brigade vehicles; the following is the position as regards Foggia Province.

Two British vehicles, not three as shewn on your memo; were collected from Bari about one month ago. I questioned the Chief of the Brigade, why only two were collected and he stated that when he enquired at Bari he was told that an additional vehicle had to go to Naples and in consequence he must make do with two instead of three.

The two vehicles which he had in his possession are both Chevrolet 4 x 4 G.S. 3 ton open steel bodied trucks. No : L.4625663 and L. 4518841.

On my visiting REME, Foggia where the vehicle L.4625663 had previously been taken for repairs; I was informed that the engine and the transmission were entirely worn out and that for this reason the vehicle was Beyond Local Repair.

I inspected the vehicle 4451884I, which is at the moment off the road owing to three of the tyres; size 10-50 x 20; being unfit for service.

The vehicle appears to be a Class 5 vehicle and I am confident that should it ever be necessary to take it to REME for repairs, it will immediately be BLR.

quence he must make do with two instead of three.

The two vehicles which he had in his possession are both Chevrolet 4 x 4 G.S. 3 ton open steel bodied trucks. Nos : L.4625663 and L. 4518841.

On my visiting RSMD, Foggia where the vehicle L.4625663 had previously been taken for repairs; I was informed that the engine and the transmission were entirely worn out and that for this reason the vehicle was Beyond Local Repair.

I inspected the vehicle 4451884I, which is at the moment off the road owing to three of the tyres; size 10-50 x 20; being unfit for service.

The vehicle appears to be a Class 5 vehicle and I am confident that should it ever be necessary to take it to RSMD for repairs, it will immediately be BLR.

2727

Before leaving Foggia I managed to acquire 3 second hand tyres and it is hoped that they will enable the vehicle to be put on road; but this must only be regarded as a temporary measure.

I am arranging to re-visit Foggia in the course of the next week and will then forward a further report as to the success or otherwise of the attempt to get vehicle 4451884I readworthy.

FILE : R-VIII/PS/10.5

27 April 1945.

SUBJECT : Long-range Projectiles

TO : Public Safety Sub-Commission,
Headquarters, A.C. - C.M.F.

1. Reference our communication R-VIII/PS/10.5 dated 13 March and the proforma report form attached to same.

2. A certain amount of improvement in equipment and transport has been made since that report was written.

3. Appended is a copy of letter written to Region VIII Transportation Officer by his A.C. Sub-Commission, in reply to our frequent requests for the essential items required for the reactivation of Livorno Civilian Defence Services.

4. All these items have been indented for in accordance with procedure laid down in para 5 of "Minutes of Conference" held at A.F.H.Q. on 26 Feb. 45 which quoted letter AG/400. 312/031 GEC-O. 22 February 1945, as authority.

5. It is now further stressed that all possible steps have been taken with local resources at Livorno but that if the organisation is to be efficient, some aid must be forthcoming from Military resources as was originally promised.

(a) All W.D. vehicles - The definition of which is any vehicle issued from Ordnance sources, American or British, and held on charge. This covers both vehicles held against W.E.(B) and T.E.(A) and those used on civilian supply:-(These latter are termed "excess T.E." by G-4(A) and "excess W.E." G-4(B). Applications for tires and tubes will be made from Regional Headquarters in the form of indents, or requisitions, to this Headquarters - for attention G-4(B) or G-4(A) Branch, as the case may be.

2710

(b) In the case of G-4(B), the indent will be accompanied by BLR certificate (beyond local repair, i.e. Army Form

Declassified E.O. 12356 Section 3.3/NND No. 785016

G1043), which will be issued by the nearest REME unit, RASC or RACC workshop unit. A.C. Headquarters G-4(B) Branch will draw from Ordnance stores and will advise Regional Headquarters where and when to collect.

(c) In the case of G-4(A), the indent, or requisition, will be accompanied by either the old tire or tube together with a certificate of "fair wear and tear" signed by the responsible officer; or failing the return of the old tire or tube, a certificate of "droppage", i.e. a certificate to the effect that the item has been lost, damaged, or destroyed without fault or neglect by the party concerned in accordance with MTOUSA Circular N°.57. Headquarters G-4(A) will draw from Ordnance stores and will advise Regional Headquarters where and when to collect. In order to avoid undue loss of time which might be caused by application to [illegible] A.C., it has been arranged that application may be made direct to the nearest Medium Maintenance Ordnance shop where the exchange will be made on the same lines.

(d) Headquarters A.C. Commandant will indent in the same manner as above for W.D. vehicles and apply as below for requisitioned vehicles.

(e) AC/AMG regional pools, by which is understood all requisitioned vehicles used by AC/AMG Officials and carrying the AC green and white registration permit. Applications for tires for these vehicles should be made directly to Commerce S/C, HQ A.C. on the forms provided. These tires and tubes will not be charged, but a Pro Forma invoice will be rendered for accounting purposes.

(f) Civilian applicants, by which it is understood vehicles owned and operated by civilians including E.F.A.C., and Italian officials, and carrying a yellow and white circulation permit with, however, the exceptions as given in the following paragraph. Such tires and tubes will be billed.

Note: In sending in particulars for tires and tubes sub-paragraphs e and f are entered on separate forms.

III. Public Works and Utilities S/C will collate and forward requirements of

(a) Regional Genio Civile

(b) Appaltatori

(c) Utility companies

IV. Headquarters Commandant will collate and forward requirements for Super Garage.

5. Instructions regarding retreading and repairing tires will follow at a later date.

6. In view of the great scarcity of rubber, it is strongly recommended that salvage tires and/or tubes be taken in equal exchange against fresh issues. Those taken in exchange will be collected as scrap rubber and held until arrangements have been made to receive same at Pirelli Depots.

7. Full justification must accompany all demands for tires and tubes so as to include the following information:

(a) Complete data on tire and tube requirements for AC/AMG Regional Pools, civilian vehicles by quantity and size.

(b) Show breakdown as to what quantities are for goods by categories, i.e. Agriculture and food stuffs, Industry and Commerce, Medical, Alcom personnel transport, bus services, et
