Repairable clothing transferred at 35% of list price otherwise as rags cotton at 10 cents per pound or rags wool at 30 cents per pound to MMIA. Present transfers to MMIA direct have been extremely slow in reissue as shown by full warehouses and no issue of Class X shipped by AD in September. Limited liaison between MMIA and ACC and inadequate renovation facilities may be factors in accumulation of items possibly in excess on unknown MMIA needs little of which reached ACC for disposal. This means that such civilians as Transportation System and Allied Forces Employees and others directly or indirectly assisting in the war effort in ADRIATIC DEPOT Area are in critical need of such items as may be available in excess of present unknown MMIA requirements. Reason for disposal of rags to MMIA derived from articles of clothing not authorized for Italian Army Units is not understood. Estimate by MMIA is suggested of the quantities and types of items desired in the way of both repairable items and rags thus allowing quantities in excess of these requirements to be transferred to ACC direct or through sales made after redyeing to ACC approved buyers by Adriatic Depot through present machinery of bidding for sale of salvage now in operation.

It is felt that this procedure might more quickly help critical clothing situation among civilian employees of Allied Forces assisting in War effort. Coming inclement weather makes urgent action on this essential since this Depot relies heavily on civilian labor for its operation.

To : A.C. Public Safety Sub-Commission - Rome.

This Ministry provides for the supply and the maintenance of the barracks material for the CC.RR. and the P.S. Guards through leases for a period of nine years with various firms which receive payment calculated in accordance to their work.

The contracting firms have on the whole suffered noticeable damages due to destructions, requisitions, pillages and losses of material of their property in distribution in the various barracks and the reintegration of the most necessary dotation is very difficult and expensive in regard connection with the present market conditions and the communication means.

In order to assure as well as possible the service, the firms should be supplied under requests controlled duely by the CC.RR. and P.S. Guards Commands concerned, with various materials of impellent necessity.

By virtue of N.2 of the circular n. 14601/8/PS dated 16 November 1944, we heartly beg the Sub-Commission to examine the possibility, in accordance with agreements taken in this regard with the Commerce S/C and with the Ministry of Industry, Commerce and Work, to assign for the first quarter of the year in course, a certain quantity of blankets necessary to the contracting firms of the barracks services functioning in the liberated territory.

1534

Awaiting to be able to point out what is needed by the various contracting firms, as two of them, the most important have notified the necessity of 5000 blankets complessively- (Società Anonima Casermaggi di Roma n. 3000
Firm Vincenzo Caruso & Figli di Palermo " 2000 blankets)- we point out that any quantity whatsoever, which could be available will serve for the most urgent necessities, especially for the CC.RR. and P.S. Guards billetted in Rome.

OGGETTO Forniture di casermaggio per le ditte appaltatrici dei servizi per le guardie di P.S.e carabinieri. Cessione di coperte.

Questo Ministero provvede alla fornitura e manutenzione del materiale di casermaggio per i CC.RR.e per le guardie di P.S. mediante appalti di durata novennale con varie imprese le quali percepiscono dei compensi calcolati in base alle presenze.

Le imprese appaltatrici hanno generalmente subito notevoli danni a causa di distruzioni,requisizioni,saccheggi e dispersioni di materiali di loro proprietà in distribuzione nelle varie caserme e la reintegrazione delle dotazioni più necessarie pel funzionamento del servizio è resa quanto mai difficile e costosa in rapporto alle odierne condizioni del mercato e dei mezzi di comunicazione.

Per assicurare alla meglio il servizio,nell'attuale situazione,le imprese dovrebbero essere rifornite in base a richieste debitamente controllate dai Comandi interessati dei CC.RR.e delle guardie di P.S.di materiali vari di riconosciuta necessità.

In base al n°2 della circolare del 16 novembre 1944 n°[illegible]6/P.S. si interessa pertanto vivamente codesta On.Sottocommissione ad esaminare,giusta gli accordi presi in materia con la Sottocommissione del Commercio e col Ministero dell'Industria,del Commercio e del Lavoro la possibilità di assegnare per il primo trimestre dell'anno iniziato un certo quantitativo di coperte necessarie alle imprese appaltatrici dei servizi di casermaggio

- 3000 shirts
- 8600 pairs of socks.

These items should have been available at the Naples legion and sent together with the other items of clothing,; but the Hq. of the Naples Commissariato had not been able to place them at disposal, as it has to receive them from Sardinia.

The 940 (not,970) over-coats have been regularly delivered to a/m Florence legion on last 26th of October (receipt is in our possession).

Gli elementi di risposta al foglio in riferimento sono stati forniti da questo comando con foglio n°227/110-1 di data 30 novembre scorso inviato al Sig.Maggiore F.James Wilson.

I motivi per cui il corredo assegnato dal Ministero Guerra non è stato potuto recapitare ai reparti destinatari si riassumono - come fatto presente nella citata lettera - nella indisponibilità di mezzi di trasporto e nel fatto che le direzioni di commissariato di Bari e di Napoli non hanno ancora messo a disposizione tutti gli oggetti.-

No stock of the stuffs has been put at disposal of the CC.RR.,by above ment.Directorates,as it has already been stated with phonogram 209/9,dated 22 inst.

All this is stated to that Ministry,in order to have these delivers hastened.

The most part of these clothings is allotted for Northen legions, which a re in a very bad situation,unsustainable for winter cold.

We need sending with most urgency blankets,pullover,socks,shirts, uniforms and this cannot be posponed,in order to avoid a gravious damage to service and to CC.RR.moral,of which many are still dressed in civil or be unsufficiently dressed.

I must add too,that Military Authorities ,having understood the great urgency,in order to settle the matter,have stated that several trucks will be put at disposal for conveyances of the chothing,but this cannot be carried into effect,as long as Bari and Naples Directorates, will not have put at disposal the stuffs.

The question,on the opinio of Allies,is very urgent,regards too,to further evenements.

Subj : Clothing for Prison guards corps.

179.

Following above letter, received on 22 Novemebr, we inform that this Ministry has already provided to point out to that Subcommission, with letter 39452/I4, of November inst., the needs of clothing for members of the Corps of Prison Guards.

Anyhow, we deem advisable to repeat this needs :

Pants	I0I22
Shirts	I5I83
Blankets	I0I22
Vests	I0I22
Socks	30366 pairs
Pull-overs	5061

As, in answered letter, You ask too, the need of shoes, we communicate that we need :

Shoes	5061 pairs.

We point out that this need, included the full equipment of each of the 5061 agents, actually performing duties with Prision of Liberated Italy and that this allotment is absolutely necessary, because, since the beginning of the war, every distribution of clothing to agents has been almost completely suspended, so that now, they are unprovided of all equipments articles.

We deem advisable to repeat, that prison guards, ~~excell~~ earnestly need uniforms and overcoats, too.

Si fá presente che tale fabbisogno si riferisce ad un corredo completo a ciascuno dei 5061 agenti attualmente in servizio nelle carceri dell'Italia liberata, la fornitura del quale è assolutamente necessaria poichè dallo inizio della guerra è stata, in pratica, sospesa ogni distribuzione di casermaggio agli agenti stessi i quali sono del tutto sprovvisti di ogni capo di corredo.

Risposta al f.° N.°

OGGETTO: Fabbisogno effetti di biancheria per agenti di custodia.

Con riferimento alla richiesta telefonica di codesta Onorevole Commissione Alleata si comunica che il fabbisogno degli effetti di biancheria occorrenti per i 5061 agenti di custodia attualmente in servizio negli stabilimenti carcerari dell'Italia liberata (graduati e richiamati compresi), secondo le quantità regolamentari, sono i seguenti:

Mutande.....	N°	10122
Camicie.....	"	15183
Coperte.....	"	10122
Maglie.....	"	10122
Calzini.....paia		30366
Pull-over (non regolamentare ma egualmente necessario in sostituzione del vestiario)	N°	5061

E' da far presente, però, che il maggiore bisogno in cui versano gli agenti, oltre quello per la biancheria, è lamentato per le calzature, le divisa di panno e i cappotti, che da circa cinque anni non sono stati più forniti.

3. P.P.S.O., Aquila Province and P.P.S.O. Ascoli Province are both asking that the supply of equipment should be speeded up.

4. Copies of their letters are enclosed herewith. Maj. Mighall will arrange to collect the items for Aquila if he is informed where they are. The Colonel CC.RR. Ascoli asks if he could use his ration lorry to go to Bari and draw from the store there, but requires permission to do so.

Reference your letter ref R5/514/8 dated 20th Oct.44 the Colonel of the CCRR for Ascoli Province informs me that he has so far received no issues of boots or clothing in spite of the fact he has put his indent in. He requires approximately 200 complete sets so that every man can be properly shod and clothed.

Unless this clothing arrives soon it may come too late as some of the stations are situated high up in the mountains and are liable to become inaccessible in winter.

The Colonel suggests he should be authorised by CCRR HQ Rome to go with his ration lorry to Bari and drow from the store there but this cannot do so without a "buono" from HQ.

Can anything be done on these lines in order to cut through the Italian red tape?

PROVINCE OF L'AQUILA

TO : HQ AMG/AC Abruzzi-Marche Region.

FROM : Provincial Public Safety Officer, L'AQUILA Province.

SUBJECT : Carabinieri.

REF : R5AG/1748.

DATE : 17 Nov 44.

As requested by your letter of 9th October, (R5/514/8) last, I informed the Maggiore i/c CC.RR. Aquila Province of the good tidings contained in Allied Commission letter which accompanied yours.

The situation here regarding CC.RR. clothing is now as follows.

For a total strength of 528, overcoats have been issued for 307 men - many of the coats being well worn. No other item of uniform has been or can be obtained through the channels mentioned in your communication.

There are 130 CC.RR. in this Province entirely without uniforms; 60 or more entirely without boots.

There is considerable lawlessness in this Province and it is increasing. The morale of the CC.RR is extremely low and this is almost entirely due to their ragged and anshod condition. It seems hardly necessary to point out that the geografical nature of this Province makes the weather conditions the most trying in liberated Italy and it is impossible for CC.RR. to maintain law and order without being suitably clad.

May I be informed as to the allotment to CC.RR of Aquila of uniforms and boots and where are the items as I intend to collect them at once?

Answer letter A.C./14601/6/PS dated 16/11/44.

Subject : Clothing for the members of the Forest Corps.

To : A.C. Public Safety Sub-Commission - Rome.

With ref. to a/m letter, we point out, that the supply of: shoes, socks, clothing, pullover, blankets, shirts, for members of the Forest Copps, must be effected for 2800 persons, who are presumed to form the actual strength of personnel of the Forest Corps in the liberated territory.

We notify that it would be difficult to point out the personnel who needs clothing from that who does not as indistinctly they are all in very bad clothing conditions. This because the personnel of the Forest Corps by disposition of proper regulation must purchase all clothing articles necessary for its equipment from the free market and it is known that since several years, the latter offers only a few articles and at prices which are prohibitive for the financial possibilities of the Forest agents.

OGGETTO: Indumenti per gli appartenenti al Real Corpo delle Foreste.

Con riferimento alla nota sopradistinta, si precisa che la fornitura di: scarpe, calze, effetti di vestiario, pullover, coperte, camicie per gli appartenenti al Real Corpo delle Foreste, deve essere sempre eseguita per 2800 (duemilaottocento) unità, quanto ciò si presume sia la forza del personale del Real Corpo delle Foreste che trovasi attualmente in tutta l'Italia liberata.

Si fa presente che ben difficile riuscirebbe una discriminazione del personale che ha bisogno di indumenti da quello che non ne ha bisogno perchè tutti indistintamente versano in condizioni di indigenza di abiti. Questo perchè il personale del Real Corpo delle Foreste, per disposizione del proprio regolamento, deve eseguire gli acquisti di tutti i capi di vestiario occorrenti per il proprio equipaggiamento, dal libero mercato, ed è noto come da vari anni, ormai, quest'ultimo non offra che poche

SUBJECT: Boots and Clothing for Carabinieri.

TO : Headquarters, A.C., Public Safety Sub-Commission.

1. With reference to your letter ACC/14601/8/PS of the 18 October 1944, relating to the assignment of uniform and boots to the Carabinieri, I should be glad if the allotment to the Legion in Sardinia could be expedited.

2. I realize that the whole of the Carabinieri badly need re-equipping, but I feel that here they have a priority claim.

3. The "violent" crime rate is high and the most common of these offences, cattle stealing and robbery with violence , are largely committed in mountainous, roadless districts, where even tracks are very few. To provide patrols, which are very necessary, and to prevent and detect such crimes, the Carabinieri have to cover very long distances over the roughest country, frequently at night. In the present state of boots and clothing, the Carabinieri are practically immobilized. For example, in the Province of Nuoro, some 300 out of a total strength of 715, are unable to do other than local patrol work in the communes.

4. To stress the urgent need of boots and clothing, I cite a typical Sard situation which has developed and with which the Carabinieri, owing to these deficiencies, are having the greatest difficulty in dealing. A feud has arisen between on the one hand the town of Nuoro and on the other, the communes of Oliena and Argosolo, over grazing rights for sheep. So far, flocks comprising in all over 1000 head of sheep have been slaughtered by the Nuoresi. The inhabitants of the other two communes are stated to have declared that when they have finished there will not be one sheep left alive belonging to the Nuoresi. The feud shows no signs of abating and may well become more serious. The flocks attacked are widely dispersed over rocky, mountainous and roadless country. The situation calls for a number of strong night patrols of Carabinieri, but in their present condition they are unable to provide them. The country

62

Declassified E.O. 12356 Section 3.3/NND No. 785016

round Nuoro is about 500 metres above sea level, it has already started snowing there, and it cannot be expected of ill clad and ill shod men to carry out night patrols under such conditions of climate and terrain.

5. In addition to the above, between the 1st and 24th October, twenty-five (25) armed robberies occurred chiefly in country districts. Items in this list are, cash £ 162,000 (lire); 2 horses; 200 sheep; 273 sheep; 20 goats, etc. etc.

6. The Commaddant of the Legion has made repeated applications to the High Commissioner and Italian Military authorities for boots and clothing but has received nothing but promises which are never fulfilled.

7. The Commandant has now been informed by the Commissariat of the Italian Armed Forces that the 50 kgs. of leather for repairs, which he has been receiving monthly, has been discontinued owing to the lack of leather.

8. There is good reason to believe that the Commissariat has received about 700 kgs. of this leather, but for some reason refuses to part with any of it.

9. There is also a large quantity of used, but repairable boots in the Commissariats' store at Via Liguria 87, Cagliari. It is further known that certainly until recently, the Commissariat had a large quantity of new boots at the depot at Macomer.

TO : Regional Commissioner, Sicily Region and Abruzzi-Marche Region, (Attn: R.P.S.O.).

As great difficulty is being experienced in obtaining "Civil Police" arm bands for forward Regions, it is thought that some may be recovered from Regions where the Police have turned over from A.M.G. to A.C. Status, and have no longer the necessity or authority to wear "A.M.G." Police arm bands.

Would you please give this matter your earnest attention, and endeavour to call in all arm bands that are no longer required for use, and forward to this office for re-issue after necessary alterations.

Grazia Sartoria

We are asked to execute urgently for the central R.R.C.C. a very great number of overcoats, caps, jackets, gloves and as soon as we have yarn- doublets of mesh. Then a big quantity of regular shirts for the Vigili del Fuoco for whom we must assume obligation to consign in the shortest possible time. Besides a quantity of socks for the ministry of Comunication also this in the shortest time possible.

Not withstanding our good will and our obligation we cannot give the accelerated rythm to the work that is needed, and we are required for absolute lack of electric energy that keeps all our motors stopped. What is more with the shortening of the days, not only are we in the impossibility to do the supplement of turns, as would be necessary, but we will have to limit the normal hours, especially during the days of bad weather.

We allow ourselves to turn to you because understanding the above said situation, you will interest yourselves so that we are conceded the industrial electric energy indispensible for the work to be done.

We adjoin copy of solicitous facts of initiative of R.R.C.C. that they realized after many inspections of our difficulties

The laboratory "Grazia" with premises in Via Pietro della Valle 13C has various outfits for the account of this legion, among which overcoats.

It being urgent the consigning of the last for the distribution to the carabinieri, it is necessary to have the maximum reddition from the laboratory itself.

This for the moment is limitted, for the lack of electric energy and therefor we renew our prayer made to this administration to be willing to furnish this motor power to the laboratory in the interest of this legion.

We thank you..

As great difficulty is being experienced in obtaining "Civil Police" arm bands for forward Regions, it is thought that some may be recovered from Regions where the Police have turned over from A.M.G. to A.C.C. Status, and have no longer the necessity or authority to wear "A.M.G." Police arm bands.

Would you please give this matter your earnest attention, and endeavour to call in all arm bands that are no longer required for use, and forward to this office for re-issue after necessary alterations.

The difficulty experienced here is obtaining the material.

CARABINIERI GENERAB H.Q. 941

No 68/164-bis answer to ACC/14601/8/PS of the 14th last.

Subject: CLOTHES AND EQUIPMENT for CC.RR.

to A.C.C. P.S. Sub-Commission

1) The system of providing CC.RR. with uniforms, shoes, equipment etc, before sept. 1943, was as follows:
- In every legion there was a warehouse which was periodically refurnished with clothes, armaments and equipment, respectively by the directions of Military and Artillery Commissariati. These warehouses still exist, but for lack of necessities cannot meet requirements.

2) The distributing was as follows:
a) armament and equipment was intrusted to each soldier. The same is done now.
b) all clothing objects, after the first dressing were renewed at fixed intervals lasting, following the different objects, from a minimum of 6 months to a maximum of 3 years. All refurnishing came from warehouses of the Military Commissariaty Directions which, on their turn, and following previous agreements with the competent ministry organs, bought, by means of contracts, all the necessary row materials (cloth, linen, yarn, etc)

Shoes were provided to the above named directions by the Turin Military works, which in peace time were equipped with the machinery necessary to meet all demands of the Army.

3) In every legion there was a head taylor and a head shoemaker, elected following regular competition. They were equiped for making and repairing all out-fit objects. The work was payed following fees ~~xxxxxx~~ aproved and rendered executiv by the War Ministry. These head workmen kept in good order clothes and shoes. At present, in almost every legion, these headw workmen, for lack of yarn, linings, leather, etc, must remain idle, waiting to be provided with the above row materials.

4) Informations asked with No4 cannot be notified exactly owing to the dislocation of the various legions, and the minor or greater possibilities of the warehouses of the military Commissariati Directions.

It appears with certainty that the legions cannot face the urgent clothes problem; the few things they have been able to save or take from the warehouses of the Commissariati Directions, having in mind the present strngth of the legions, always in augmentation for the increasing liberation of national territory, (at present abour 43.000 men) are bearly enough to dress more or less the recovered soldiers, and those requested and destined to the allied formations of the 5th and 8th Armies.

Assignements received from the War Ministry, since 8/9/43 to this day, are approximately as follows:

- Cloth jackets	2000
- Cloth trousers	1000

Declassified E.O. 12356 Section 3.3/NND No. 785016

It is necessary to keep in mind that since 8/9/44, many soldiers wear the same and only uniform which they had on at that date, so that now they are torn and worn out, notwithstanding great care.

This is a great problem and it requires a radical, even if partial solution.

Thousands of CC.FF. operating on the front line with the Allied troops, are without coats, and winter is near. We think it human and dutyful to straighten this situation at once.

To do this it would be necessary to have at disposal 15.000 new uniforms, with linen, underclothing, stockings, coats and with 15.000 series of armament and equipment.

(through Col. Poletti).

1. The following is a copy of a report submitted by Capt. Godbold, P.P.S.O. Perugia Province:

"An urgent need exists in this Province for a supply of boots and clothing for the Carabinieri.
With the approach of bad weather it is impossible to expect these men to perform their duties satisfactorily when they are inadequately clothed and shod.
Of the 800 Carabinieri in this Province approximately 2/3 are without servicable boots; many are walking about with parts of their feet exposed, and when the wet season arrives the position will be worse.
Over 200 Carabinieri were received from Rome and these have only one uniform; with no spares.
The majority were in the grey service uniform but others have only the thin tropical dress. None have overcoats.
Representations have been made to the Command of the CC.RR. at Rome in order to obtain these essentials but nothing has been done about it.
It is absolutely necessary for about 500 pairs of boots to be allotted to this Province as soon as possible, together with a sufficient number of overcoats and other clothing.
All local resources have been examined with a view to obtaining some of these things locally but this has been found impossible.
I must add that these men are performing their duties loyally under AMG and seldom complain of hardship, but I do feel that it is unfair of us to demand such loyalty from them when they are so badly supplied with necessary articles.
Can you please take this matter up urgently with the Italian authorities in order that the articles may be forthcoming before the cold weather sets in.

sgd. C.E. Godbold Captain
Provincial Public Safety Officer
Province of Perugia. "

2. Similar complaints have reached this HQ. in respect of other provinces as to shortage of boots and clothing for CC.RR.

3. The difficulties confronting the Italian authorities with regard to clothing, boots etc. are well appreciated, and I am also well aware of the fact that Public Safety Sub-Comm. is doing all that is possible in this respect.

4. The matter is again raised however, as it is hoped that pressue may be put in higher quarters so that some urgent action is taken with regard to boots and clothing for all police agencies before the winter weather sets in.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5. I am afraid that unless we face up to this and get something done quickly the incidents of sickness and illness will be high amongst these men, who are insufficiently clothed and shod.

1. There is here, in common with other districts, an urgent need for boots for wear by Carabiniere. This need is aggravated by the approach of the winter season.

2. The demand is general, but the provision of fifty pairs of boots, sizes 8-11, would alleviate the immediate demand.

3. May information be given as to channels available through which requirements may be met?

SUBJECT : CC.RR. Clothing.

TO : Director Public Safety.

With reference to Folio No.804, on 12 August I contacted Major Head, M.M.I.A., Naples, who referred me to Major BANANNO, Italian Army (G.M. Staff) and with the Major I visited the factory and inspected the clothing. The blouses have been disinfected, but are in need of washing and repairing, but with some interprise and sewing MATERIAL, a large number of blouses could be made serviciable. The blouses are in course of being sacked, some 2000 are already in sacks. The officer in charge promised me that he could have the remainder ready within 4 - 5 days.

After taking an estimate of transport required, I thoroughly explored the possibilities of obtaining transport to move the blouses (or at least a portion of them) by road, but with negative results. I then contacted Capts. Smith and Body, Transp. Sub Commission A.C.C., and made arrangements for the blouses to be moved from Naples to Anzio by sea on or about 18 August (soonest possible date) and to be carried from Anzio by rail to the Tiburtina Goods Station. Rome. Capt. Smith has agreed to notify this office by signal when the boat leaves Naples. Duration of journey may be one or 3 days, and allowance of about 48 hours for rail transport from Anzio to Rome.

Arrangements were made by me with Capt.Saunders, Transport Officer, H.Q. Rep.III, for the necessary transport to convey the blouses from the warehouse to the ship, and Capt. Smith will inform Capt.Saunders when and where the blouses are to be moved.

R.P.S.O. Region III has arranged to obtain CC.RR to escort the lorries moving the blouses from the warehouse to the ship, and for 2 CC.RR to accompany the consignment on route to Rome. These CC.RR will have to return to Naples.

I respectfully suggest that on receipt of signal that ship has left, that the CC.RR H.Q Rome, be instructed to keep contact with the Tiburtina Goods Station, so that immediate collection can be made, also preliminary arrangements be made with Transportation Sub-Commission Rome, for transport to convey from the railway station to the Vittorio Emmanuele Barracks.

Also, On completion, a letter be forwarded to M.M.I.A. Naples, (atten. Major Head) informing him of the completion of the movement. and thank him for the assistance so willingly given to Capt. Powell.

1. The Army Sub-Commission M.M.I.A. has recently allocated for use of the Carabinieri a quantity of Italian Army uniforms, which were discarded, by the Army Units in exchange for dyed Battle Dress. These garments must be repaired before being issued to the membership of CC.RR.

2. The uniforms are now stored in the Italian Army warehouse "Magazzino Militare, Italiano Recuperi, Corso S. Giovanni a Teduccio" Naples.

It will be necessary to have them transported to Rome and delivered to the Commanding officer CC.RR Replacement Centre, Caserma VITTORIO EMANUELE, Via Legnano where repairs will be arranged.

3. Is it possible for your Sub-Commission to arrange for this shipment ? If you can ship by train or boat please let us know when the shipment may be expected to arrive at the railroad Station or the dock so that we can arrange for the CC.RR to be on hand to unload and trans-ship to the delivery point.

SUBJECT : Coal: for disinfecting worn Italian Army uniforms for CC.RR. use.

TO : Transportation Sub-Commission (Fuel Section).

1. M.M.I.A. has arranged to furnish The Carabinieri Reali with 10,000 worn Italian Army uniforms to be repaired and put in wearable condition by CC.RR. facilities.

2. The uniforms are stored in an Italian Army warehouse in Naples and are in such filthy condition that the garments must be disinfected and deloused before they can be accepted by the CC.RR.

3. We have made arrangements with "Stazione di disinfezione Municipale" Municipal Disinfecting Station across from CAPO DICHINO airport Naples, to have the disinfecting job performed, but it will be necessary to furnish the necessary coal.

4. Mr. BRAMA in charge of the Disinfecting Station advises us that the quantity of coal required for the job is (50) fifty quintals.

5. It will be appreciated if you can arrange for the delivery of this quantity of coal at the Municipal Disinfecting Station Naples as soon as possible so that the work can be proceeded with and the uniforms - which are very badly needed - be put in the repair shop to be made ready for issue to men being assigned to newly liberated areas.

TO : - Colonel Kirk, Chief, Public Safety S/C.

Following recent conference with Col Meaney, I contacted officials at Naples regarding facilities for disinfestation of clothing that is available for use by Carabenieri.

Dr. Franza, Director of Cotugno Hospital (Office phone 51113, residence phone 50709, Naples) stated the hospital staff would be glad to disinfest clothing for you at rate of 1000-1200 garments daily, without cost, if arrangement was made for fuel. It is my understanding that the facilities at this hospital are in very good shape for this work.

Suggest a member of your staff contact Dr. Franza directly regarding details.

SUBJECT : Italian Army uniforms for issue to CC.RR.

Provincia Building, Naples.

1) It will be greatly appreciated if you will furnish us with the following information regarding the above subject.

a. Location - Street, and number and name of warehouse where the worn uniforms are stored under Italian Army Supervision.

b. Lt. Toos, Region III, Naples informs us that the CC.RR. representative refused to accept these worn uniforms at the time he picked up the worn shoes, because of the generally filthy condition they presented. May we have your estimate of the situation from this angle ?

c. We are endeavoring to arrange for the disinfecting of the garments at a Hospital in Naples and would like to get an idea of the true condition before discussing the subject with the Hospital Authorities. It is important to know if they are vermin infested.

2) We regret having to trouble you on this subject, but we are anxious to get the matter cleared up and turn the garments over to the CC.RR. so they can repair and get them ready for issue where possible.

Preference has been given to units destined for the North by delivering to the replacement centre, 500 khaki uniforms and shoes.

The legional supply - store has supplied the merchandise from supplies received from the Naples and Bari Legions and other material received from the P.A.I. and elsewhere.

We have had great difficulty to obtain shoes.

The commercial house S.A.C.E.P.; Via Castelfidardo 8-1, Rome can furnish us from 1000 to 1500 pairs of leather boots monthly. The FERRINI commercial house will re-open soon.

Both commercial houses require a supply of tan from the Ceaare Giorgi Tannery situated in Tivoli.

Said Tannery would be able to re-open immediately if the military authorities would grant the following:

a) the consent of the A.M.G. of Tivoli in order to obtain tan necessary for CC.RR. shoes:
b) facilities in finding and transportation of acid extracts, tallow, oil, etc. in the necessary quantity for the functioning of the factory.

Questo Comando,per necessità contingenti,ha dovuto procedere oltre che alla vestizione dei militari assegnati ai reparti dipendenti,a quella di tutti gli altri affluiti al Centro raccolta.-

Ha dato la precedenza ai militari approntati per reparti diretti al Nord,cedendo al Centro raccolta 500 serie complete di vestiario in kaki,e calzature,per la vestizione diretta.-

Sino ad oggi il magazzino legionale ha fatto fronte con materiale avuto dalle legioni di Napoli e Bari e con altro ricuperato dalla P.A.I. o comunque rinvenuto.-

Attualmente,difficoltà enormi si incontrano per le calzature, per ottenere le quali questo comando ha spiegato tutto il proprio interessamento.-

La Ditta S.A.C.E.P. con sede in Roma,Via Castelfidardo n.8-1, presso la quale già in precedenza sono stati fatti acquisti,si impegnerebbe alla fornitura di 1000-1500 paia di stivaletti di cuoio al mese.-

Anche la Ditta FERRINI,già fornitrice della Legione,per le calzature dello Squadrone CC.RR. Guardie del Re,sarebbe disposta a riprendere la sua attività nell'interesse dell'amministrazione militare.-

Entrambe le ditte dovrebbero però essere agevolate nella fornitura del conciato,da parte della conceria Cesare Giorgi,con sede in Tivoli.-

La predetta conceria potrebbe riprendere immediatamente il proprio lavoro,qualora l'autorità militare la aiutasse nel farle tenere:

a)- il benestare del Governatore militare Alleato di Tivoli,per la ripresa,nell'interesse militare,della fornitura del conciato abbisognevole per le calzature dei CC.RR.;

b)- l'agevolazione nella ricerca e nel trasporto degli estratti, acidi,sego,olio,ecc. nel quantitativo abbisognevole al funzionamento dello stabilimento.-

Di quanto sopra si informa codesta Spett.Sotto Commissione, come da accordi verbali presi col Sig.Capitano Mastroianni,stante l'urgente necessità delle calzature.-

Con l'occasione si prospetta che è indispensabile l'assegnazione di kg.100 di chiodi (semenze) per le calzature testè avute dalle altre legioni,poichè tale materiale non si trova in commercio.-

NOTES CONCERNING INTERVIEW WITH GENERAL CERICA (9.30 a.m.)

Following my letter to General Cerica dated 13 July 1944., he came this morning to my office:

Genral Cerica says that when he left Public Safety Division office on 11th July 1944, he imediately contacted Col. Perinetti and discussed with him the matter of uniforms and fire-arms for CC.RR. He is very suprised that Col. Perinetti affirms the contrary.

Upon asking him straightforwardly where the uniforms and the arms were, which he mentioned during his previous visits, he said that as every Carabiniere had a uniform and fire-arm, they naturally, must have taken these things to their homes, when they were disbanded. He therefore suggests that a notice be put out ordering all Carabinieri when re-presenting themselves to bring along their uniform and fire-arm.

He further suggests one could use to refit the Carabinieri, Italian Army uniform and simply change the badges with those of the CC.RR. These uniforms are available at the COMMISSARIATO MILITARE.

General Cerica was asked to contact Col. Meany. A.C.C. Public Safety Sub- Commission.

General Cerica informed me that the Italian Government would today appoint a new General for the Carabinieri Arm, and that General Cerica himself would be given another appointment.

SUBJECT: Findings for Repair

TO : Public Safety Subcommission

1. Reference conversation Lt. Col. Wilcox - this H.Q. yesterday, with request for findings for the repair of salvaged Italian Army uniforms and Boots.

2. It is regretted that no assistance can yet be given in this respect, all the available findings are already in use, and this Subcommission could use ten times the quantity that it has at its disposal, without any difficulty.

3. Large requisitions for these materials, needles, thread etc., have been submitted, but until these arrive the shortage will remain critical, as local production facilities are negligible and have already been earmarked.

4. A release for a further 500 pairs of salvage boots is however being authorised, and you will receive collection particulars from Region III in due course.
