I specify quantities:

- Naples Supply Directorate must still put at disposal :
25.000 cotton shirts 90.000 pairs of socks
30.000 pairs of woollen pants 4.000 green-grey trousers

5.000 belts.

- Bari Supply Dir. must still put at disposal :
10.000 woollen pants 5.000 pairs of shoes
5.000 pullovers 2.000 blankets
10.000 garrison caps.

- With letter 22022/V, dated 3 inst., that Ministry has allotted the following quantity of clothings:
from Naples Supply Direct.

20.000 cotton shirts
80.000 pairs of socks
5.000 belts

" Bari " " 5.000 pairs of repaired shoes
20.000 new pullovers

36.000 woollen pants
18. 3 blankets

No stock of these stuffs has been put at disposal of the CC.RR., by above ment. Directorates, as it has already been stated with phonogram 289/9, dated 22 inst.

All this is stated to that Ministry, in order to have these delivers hastened.

The most part of these clothings is allotted for Northern legions, which are in a very bad situation, unsustainable for winter cold. We need sending with most urgency blankets, pullover, socks, shirts, uniforms and this cannot be postponed, in order to avoid a gravious damage to service and to CC.RR. moral, of which many are still dressed in civil or ~~be~~ unsufficiently dressed.

I must add too, that Military Authorities, having understood the great urgency, in order to settle the matter, have stated that several trucks will be put at disposal for conveyances of the clothing, but this cannot be carried into effect, as long as Bari and Naples Directorates, will not have put at disposal the stuffs.

The question, on the opinio of Allies, is very urgent, regards too, to further evenements.

del Lazio, di Napoli e di Bari, incaricate da questo comando delle operazioni di ritiro e di smistamento degli oggetti assegnati rispettivamente sulla direzione comm. di Roma di Bari e di Napoli.

Specifico quantitativamente:

- La direz. di comm. di Napoli deve ancora mettere a disposizione:

25000 camicie di cotone	90000 paia calzini
30000 paia di mutande di lana	4000 pantaloni g.v.
5000 cinghie per pantaloni	

- la direz. di comm. di Bari deve ancora mettere a disposizione:

10000 mutande di lana	5000 paia di scarpe
5000 pullover	2000 coperte grandi
10000 berretti a busta g.v.	

Inoltre:

- con dispaccio n. 22022/V di data 3 corrente codesto Ministero ha assegnato i seguenti quantitativi di vestiario:

sulla direz. comm. di Napoli: 20000 camicie cotone
80000 paia di calze
5000 cinghie per pantaloni

sulla direz. comm. di Bari: 5000 paia scarpe riparate
20000 maglioni nuovi
30000 mutande di lana
18000 coperte imbottite.

Nessun quantitativo di questi oggetti è stato finora messo a disposizione dell'Arma dalle ripetute direzioni di commissariato - come già comunicato con fono n. 239/9 in data 22 corrente. 671v

Quanto precede mi premuro di far presente a codesto Ministero perchè con tempestivo intervento solleciti le cessioni.

Trattasi di vestiario destinato prevalentemente alle legioni del nord, che si trovano in situazione criticissima insostenibile per gli incipienti rigori invernali.

- 3 -

L'invio di coperte, pullover, calzini, camicie, divise grigio verdi, s'impone con pressante urgenza e non può più essere differito a meno di grave pregiudizio per il servizio e per il morale dei carabinieri, molti dei quali sono tuttora in abito civile, o insufficientemente vestiti.

Soggiungo infine che le autorità militari alleate, immedesimate nello stato di grave necessità, allo scopo di risolvere la cosa, si sono dichiarate disposte a mettere alcuni automobili a disposizione per l'invio del vestiario, provvedimento non attuabile fin quando le direzioni di commissariato di Bari e di Napoli non avranno messo a disposizione gli oggetti.

La questione è di estrema urgenza, a parere degli alleati, in relazione ai prevedibili avvenimenti.

I am not asking for new boots but I really must get them some-

MEMORANDUM.

Notes of a meeting held at 4 p.m. on the 3rd November, 1944.

Present: Col. Kerr (Army Sub-Commission)
Lt. Col. Hoakes (Army Sub-Commission)
Lt. Col. Wilson (Public Safety Sub-Commission)
General Orlando, Royal Carabinieri
Major Spachino.

General Orlando said that the Minister of War had received authorisation to issue to the Carabinieri 10,000 uniforms and 10,000 overcoats. At the last meeting Col. Kerr had said that an additional 10,000 overcoats would be authorised.

Col. Kerr stated that Army Sub-Commission had authorised the Minister of War to issue 10,000 uniforms and 20,000 overcoats.

General Orlando said that there must be some misunderstanding on the part of the Ministry of War, but that he would see the Minister of War and make the necessary arrangements.

General Orlando said that at the last meeting clothing had been issued for the total strength of the Carabinieri which then amounted to 43,000 men. Army Sub-Commission had then stated that as the Carabinieri strength increased additional clothing would be authorised. General Orlando said the strength of the Carabinieri had now been increased to 48,000 and asked for additional clothing for 5,000 men.

Col. Kerr said he would authorise the issue of the following articles:

5,000 sets of uniforms,
5,000 sets of boots,
5,000 pullovers,
5,000 shirts,
5,000 comforters,
5,000 waist-belts,
6,000 pairs of socks,
10,000 pairs of wollen drawers.

See 60A **6682**

Col. Kerr said that this allocation of clothing would be confirmed in writing. Copies of the latter being sent to the Commanding General of the CRR, the Minister of War and Public

5,000 sets of uniforms,
1,000 sets of boots,
5,000 pullovers,
5,000 shirts,
5,000 sweaters,
5,000 waist-belts,
6,000 pairs of socks,
10,000 pairs of woolen drawers.

See 60A 5682

Col. Kerr said that this allocation of clothing would be confirmed in writing. Copies of the letter being sent to the Commanding General of the CC.RR., the Minister of War and Public Safety Sub-Commission.

General Orlando said that 500 CC.RR. prisoners of war from North Africa had arrived in Italy. They were men of good physique and high morale. He thought it very desirable that these 500 men should be issued with new clothing. Col. Kerr agreed to authorize the Minister of War to issue 500 sets of new clothing, this number being part of the 5,000 uniforms mentioned above.

General Orlando said he understood that the Army Sub-Commission had placed a block on the black dress uniforms stored in CC.RR. Legion depots. General Orlando wished to make use of these

dress uniforms which numbered approximately 2,000.

Col. Kerr said that no block had been imposed by Army Sub-Commission and that General Orlando should make the fullest use of these uniforms.

General Orlando invited Col. Kerr to visit the Carabinieri Headquarters and Col. Kerr said that he would be very pleased to pay a visit sometime in the future.

SUBJECT : Flashlights and Batteries.

TO : Commanding General CC-RR.
Commanding General CC-FF.
Director of Public Security, Ministry of Interior.

1. Electric Torches and Batteries have been obtained from Military stocks for Police agencies and the following allotments by the Issuing Authorities have been made:

	CC-RR	CC-FF	A.P.S.
Lamps	1000	800	1000
Batteries	3000	2400	3000

2. The cost of these torches and batteries will be as follows:
Torches 50 lire each
Battery 5 lire each
plus 25% landed costs.

3. The number allotted is based on the requirements of the respective Police agencies for the whole of liberated Italy, including Sardinia and Sicily, and it is therefore requested that you will make an equitable distribution in accordance with the particular requirements of each unit.

4. Your attention is drawn to the fact that this Sub-Commission initiated the request for flashlights as a result of a demand for them for use by the railway police engaged on night duties in Naples Port and also for those police on constant guard at other ports of debarkation of materials and supplies for military and civilian goods. These services should therefore have the appropriate distribution.

5. Flashlights to be used for the above enumerated functions will be distributed daily only to those officials performing night duty. They will be turned in each morning for redistribution the same evening. It is not contemplated that certain officials will be in permanent possession of flashlights.

6. It is suggested that you send this Release Order with appropriate instructions to your representation at Naples for collection of the number of flashlights allotted to you and that they be taken to your store for appropriate distribution.

JUSTIFICATION: 1. Flashlights requested on this requisition cover re-
quirements for carabinieri, finance guards, and civil police for Regions I to
VIII, inclusive, and for public utilities for the cities of Naples and Rome.

2. ACC Public Safety Subcommittee has estimated 2,800
flashlights to be minimum essential requirements for all regions. These
will be distributed as follows:

REGION	CARABINIERI	FINANCE GUARDS	CIVIL POLICE
I	200	200	200
IX	100	100	100
III	100	100	100
IV	200	100	100

Set No. 2 of 3

REGION	CARABINIERI	FINANCE GUARDS	CIVIL POLICE
V	100	100	100
VI	100	100	200
VII	100	-	100
VIII	100	100	100
TOTAL	1,000	800	1,000

3. There exists at the present time 10 Legions of Carabinieri (two each in Regions I and VI). The average strength of a legion of Carabinieri is about 4,000 men.

4. There have now been organized 8 legions of Finance Guards the duties of which are to collect customs and taxes and to conduct operations against smuggling and black-market. Two of these legions are in Region I. The average strength of a legion is about 1,000 men.

5. There are also 10 legions of civil police (two each in Regions I and VI) whose duties are to maintain law and order and to maintain a constant guard at various ports of debarkation of materials and supplies for both military and civilian. The average strength of a legion is about 1,100 men.

6. Flashlights to be used for the above enumerated functions will be distributed daily only to those officials performing night duty. They will be turned in each morning for redistribution the same evening. It is not contemplated that certain officials will be in permanent possession of flashlights.

7. In connection with flashlights for public utilities, the ACC Public Works and Utilities Subcommittee has determined a need of 800 (400 for Naples and 400 for Rome). These are to be distributed to public utilities companies and are an operational necessity for watchmen, inspectors, and emergency and safety crews in maintaining water, gas and electrical utilities of the cities of Naples and Rome. These utilities are important not only for the civilian population but also for military population and military installations in and around these cities.

8. In general, flashlights are urgently needed by all classes of officials and other persons referred to in this justification. Police officials, finance guards, and carabinieri performing their nightly duty are forced to labor in total darkness because of black-out regulations or for lack of lighting facilities. Public utilities servicemen require flashlights in carrying out their normal duties where light is not accessible or performing emergency repair work, much of which is done at night.

9. Flashlights and batteries requested are available in theatre stock in quantity required without replacement from the States.

10. Price on batteries, BA-30, as quoted in the 1942 edition of the Signal Corps Catalog, is \$0.05 each. No price for flashlight TL-122-B is available, however, the same source as above quotes a price of \$0.55 each for TL-122-A.

11. It should be understood that costs quoted are catalog and not landed costs.

///////////////// LAST ITEM ///////////////////

Justification: 1. Flashlights requested on this requisition cover requirements for carabinieri, finance guards, and civil police for Regions I to IV (inclusive), and for public utilities for the cities of Naples and Rome.

2. ACC Public Safety Subcommittee has estimated 2800 flashlights to be minimum essential requirements for all regions. These will be distributed as follows:

REGION	CARABINIERI	FINANCE GUARDS	CIVIL POLICE
I	200	200	200
II	100	100	100
III	100	100	100
IV	200	100	100

AOC-RIC-21-5

2

REGION	CARABINIERI	FINANCE GUARDS	CIVIL POLICE
V	100	100	100
VI	100	100	200
VII	100	---	100
VIII	100	100	100
	1,000	200	1,000

3. There exist at the present time 10 Legions of Carabinieri (two each in Regions I and VI). The average strength of a legion of carabinieri is about 4,000 men.

4. There have now been organized 5 legions of Finance Guards the duties of which are to collect customs and taxes and to conduct operations against smuggling and black-market. Two of these legions are in Region I. The average strength of a legion is about 1,000 men.

5. There are also 10 legions of civil police (two each in Regions I and VI) whose duties are to maintain law and order and to maintain a constant guard at various ports of debarkation of materials and supplies for both military and civilian. The average strength of a legion is about 1,100 men.

6. Flashlights to be used for the above enumerated functions will be distributed daily only to those officials performing night duty. They will be turned in each morning for redistribution the same evening. It is not contemplated that certain officials will be in permanent possession of flashlights.

7. In connection with flashlights for public utilities, the AOC Public Works and Utilities Subcommittee has determined a need of 300 (AOC for Naples, and 400 for Rome). These are to be distributed to public utilities companies and are an operational necessity for watchmen, inspectors, and emergency and safety crews in maintaining water, gas and electrical utilities of the cities of Naples and Rome. These utilities are important not only for the civilian population but also for the military population and military installations in and around these cities.

8. In general, flashlights are urgently needed by all classes of officials and other persons referred to in this justification. Police officials, finance guards, and carabinieri performing their nightly duty are forced to labor in total darkness because of black-out regulations or for lack of lighting facilities. Public utilities servicemen require flashlights in carrying out their normal duties where light is not accessible or performing emergency repair work much of which is done at night.

With reference to the attached application, it is confirmed that this factory is actively engaged on the repair and re-conditioning of uniforms for the CC.RP Replacement Centre Rome. This Centre provides re-inforcements for all forward areas, as the man becomes available. The problem of supplying such re-inforcements has been made very acute by lack of uniforms, and a quantity of part worn uniforms are in course of being obtained, when it is anticipated that further considerable tailoring work will be allotted to the factory.

In addition, a scheme is in preparation whereby the work of making some hundred uniforms for Mobile Fire Brigades will be given to this factory.

It is strongly recommended therefore that this application be granted to allow for the transport of the material to enable this urgent work, essential to the war effort, to be carried on.

SUBJECT: Uniforms for GC IR

TO : Regional Commissioner, Rome Region
(Attn: Pub. Safety Div. - Lt. Col. Pollock)

1. Reference your letter dated 15 July 44, subject as above.
2. As the supply of uniforms to Carabinieri from resources at the disposal of this Sub-Commission would involve a change in policy, the request contained in your a/g letter was discussed with HSHK.
3. As a result of this discussion it is regretted that assistance cannot be given for the following reasons:-
 - a) Considerable quantities of Carabinieri uniforms are already available, subject to being repaired.
 - b) It has been decided on a high level that British Battle Dress, even if dyed, shall not be issued to GC IR.

This Hq. had agreed with the Allied Control Commission for the delivery of boots and clothing together with repairing material (see letter no. 154/3 and 154/3-1 respectively dated 5 and 8 of June on the attached copy).

It is obvious, that since these material cannot be furnished, it would be impracticable to draw the goods specified in the letter to which I am replying.

To : Hq. CC.RR. - Liberated Territory.

The Army S/C has granted 5000 boots and 3000 uniforms which require repair, in the expectation that this Hq might have means at their disposal for the repair of said goods.

Having contacted the Commander of the CC.RR. Legion, it has been found that various CC.RR. Legions do not have workshops and neither do they have the personnel such as, tailors, - pants-makers.

Being that the outfits would require delivery of material (cotton-leather goods - assortment of nails) which this Ministry is not ready to dispose of at the present time, it is believed that the delivery of the outfits would not be practicable and would only amount to a mere removal of goods. However, we are informing your Command so that it can forward any objection to the disposition about to be taken.

P.M.135

L'Army Sub Commission, nel comunicare a questo Ministero che codesto comando avrebbe mezzi adeguati per riparare note voli quantitativi di divise e scarpe, ha disposto la cessione di p.5000 di stivaletti e di n.3000 divise usate da riattare.

Preso contatto col comandante la legione CC.RR. è risultato che le varie legioni CC.RR. non hanno laboratori, ma bensì (e non tutte) la normale organizzazione prevista per gli Enti del R.Esercito (capi sarti e capi calzolei).-

Dato che la cessione di oggetti da riparare presupporrebbe la contemporanea assegnazione di materie prime (filati, cuoia=mi, chiodame ecc.), che questo Ministero non è, attualmente, in grado di effettuare, si ritiene che una cessione del genere non avrebbe alcuna portata pratica, risolvendosi soltanto in uno spostamento di materiali; comunque se ne riferisce a codesto comando soggiungendo che non si ha nulla in contrario per dare corso a tale disposizione.=-

Dear Colonel Kirk,

During his recent visit to Sicily the Executive Commissioner was informed that the Military Police of IBS and No. 1 District were taking prostitutes off the streets and those infected with V.D. were having their heads shaved. The Executive Commissioner would be very glad if you will look into this matter and take it up with the appropriate authorities.

Lt. Col. Snooks also raised the question of boots for officers of the SC.M. on the Island. Apparently there is a scheme in force for the clothing of the Carabinieri ORs but at that time nothing had been settled in regard to the officers.

3. As regards repairing uniforms the position is:

There are CCHR workshops with facilities for repairing uniforms and boots. The CCHR are prepared to accept at once 3000 partly worn Italian Army uniforms and 1000 pairs of worn boots. To carry out repairs they will need the undermentioned materials

As regards boots the CCRR state that when they received 5000 pairs of boots 5000 worn pairs were withdrawn and returned to the Italian Army.

GGFF

The GGFF have a few small workshops which are only capable of dealing with minor repairs to their own uniforms and will not be able to cope with the repair of worn Italian Army uniforms.

The GGFF ask to be issued with Italian Army uniforms already repaired. A list of materials for carrying out minor repairs to GGFF uniforms is being compiled and will be forwarded to you as soon as possible.

As regards boots, the GGFF state that when the 2000 pairs are received they will be issued to new recruits and it will not be possible to withdraw worn boots for repairs.

4. It is therefore requested that the Italian Army uniforms, the boots and the repair materials requested by the CCRR in paragraph 3 above be supplied.

5. The full requirements of both CCRR and GGFF in-order of priority are set out in previous correspondence from this Sub-Commission (vide AGC/14601/S/PS of 19th May 1944).

TO : Industry & Commerce Sub-Commission.

1. Representations have been made to this Sub-Commission that the Railway Section of the CCRR in Naples Province are seriously handicapped in carrying out their duties during the hours of darkness, owing to the lack of suitable flashlights.
2. In view of the serious crime and black market activities now prevailing, the efforts of the CCRR in detecting offenders at the various railway stations and yards is seriously affected and the advantages at night lie almost entirely with the criminal classes.
3. It is essential that these men be provided with flashlights in order to perform their duties.
4. Flashlights suitable for the purpose cannot be obtained through ordinary commercial channels, and it is therefore strongly recommended that 200 flashlights, similar to those used by the military, be supplied for this purpose.

3) CLOTHING AND EQUIPMENT (Extract from letter 2077/2 of the Xlth Corpo d'Armata)

deficiency in clothing and equipment is strongly felt. The CCRR, especially those in country stations, are often reduced to pitiful conditions. Stores of shoes, uniforms, underclothing for renewal or repairs are all exhausted.

In an Arm where correctness and propriety of uniform is of substantial importance, such deficiency is especially degrading.

I propose that - though I realize it is inadvisable in the tactical field - all the troops on the Island, including the CCRR, be equipped with khaki uniforms dyed green. Naturally, insignias and headgear will serve to distinguish the Carabinieri and serve to regain him his traditional and normal bearing.

4) NEW RECRUITMENTS

The deficiency in clothing and equipment (which has already hampered the preparation and training of the first group of 250 new members so much so that some are still obliged to dress in civilian garb) is impeding the enrollment of the second group which should have started on the 15th of April.

Therefore, it is urgent that the clothing problem be solved, and - if I may voice my proposal - that a supply of green uniforms be made available (about 10,000 in all), with relative supply of footgear and underclothing.

ER. 2A

The P.C. Poggia informs us that the boots of the CC.RR. in Poggia Province are in a very bad state which has led to an undue amount of sickness during the winter months and asks that the Italian Army Authorities be requested to supply 150 pairs sizes 28, 29 and 30 as a matter of urgency.

Although the Italian Army is supposed to supply the boots, practically none have been forthcoming for many months.

In view of the P. C's request, it is requested that this matter be taken up with the competent Italian authorities.
