SUBJECT : Military of the Arma enrolled in the "Civil"Police" of the Venezia Giulia -

TO ALLIED COMMISSION
Public Safety S/C
Rome

To regularize the position of the military of the Arma enrolled in the "Civil Police" of the Venezia Giulia, in order to determine their eventual reintegration in the Arma at the end of their special service, we wrote to the HQ. Venezia Giulia Police Force who communicated to the Padua Legion Command that the superior Authority do not consent to proceed to the census of the said personal.

Considered the aim of this General Command in the interest of the soldiers, we herewith transmit a list of CC.RR.'s and beg you to let us know for each one : his military situation (if of career, called or kept in service) at the time of enrolment in the Civil Police; the legion or mobilization centre to which the CC.RR. was attached; his branch of service and the date of enlistment in the Civil Police.

ALLA COMMISSIONE ALLEATA - DIVISIONE DI PUBBLICA SICUREZZA

ROMA

Per regolarizzare la posizione matricolare dei militari dell'Arma arruolatisi nella "Civil Police" della Venezia Giulia allo scopo di determinare l'eventuale loro reintegrazione nei ruoli dell'Arma, allo atto della cessazione dello speciale incarico, fu interessato, per notizie, l'Headquarters Venezia Giulia Police Force il quale ha comunicato, al comando della legione di Padova, che le superiori autorità non consentono di procedere al censimento del personale anzidetto.

Tenuto conto dello scopo che nell'interesse dei singoli questo Comando Generale si propone, trasmetto l'unito elenco di militari perchè codesto Comando voglia almeno compiacersi far conoscere per ciascun nominativo: la posizione militare (se effettivo, richiamato o trattenuto) all'atto dell'arruolamento nella "Civil Police"; la legione o centro di mobilitazione cui apparteneva; il vincolo di servizio al quale era legato e la data di arruolamento nella "Civil Police".

S

With reference to the recent authority of CC of S, for an increase of establishment of the CC.RR from 65,000 Officers and OR's to 75,000 Officers and Or's, the following gives some indication of proposed re-distribution of strengths and progress to that end.

As a preliminary, this HQ pressed CC.RR. HQ to bring up to strength all the small Casermas, (some stations had only 2, 3 or 4 men in them) and to increase the authorised establishment of such stations. CC.RR. HQ agreed to fix a minimum establishment of 7 (NCO and CC.RR), and that these stations would have absolute priority as new recruits arrived. These stations of 7 men each use up 5772 CC.RR. Orders issued by C.G. CC.RR stipulate that the actual number "present", after allowing for leave, sickness, etc, shall not be less than 6.

An increase has been made to all Territorial Legion strengths, ranging from approximately 14% to 33%.
Legion Commanders have been instructed to post these additional men to the stations, under their Commands in accordance with present day conditions and requirements.

From the figures supplied, it is noted that CC.RR. HQ have made provision to increase Divisional HQ Staffs from the present total of 14 to 45, and Brigade HQ Staffs from 14 to 36. They also retain 4 Mobile Bn Group HQ's with an establishment of 47 Officers and men. Regarding Divisional and Brigade Staffs, I suggest that CC.RR.HQ be informed that this HQ cannot agree to this increase at present, and that Major Sykes discuss the W.E. for Mobile Bn Group HQ's. To my mind, they appear redundant. Cadet Legion School Staffs also require further study.

3916

However, in fairness to the CC.RR. HQ it must be stated that the present order of Battle on the basis of 75,000 all ranks, is provisional, and was been drawn up as an interim basis on which to deal with the increased strength bef[illegible] June.

However, in fairness to the CC.RR. HQ it must be stated that the present order of Battle on the basis of 75,000 all ranks, is provisional, and has been drawn up as an interim basis on which to deal with the increased strength before June.

Also, as a temporary measure, it is proposed to utilise the Trieste Legion, 40 Officers and 2880 OR's, as Reserve Mobile Units, with Legions where there is not a Mobile Bn. These Legions are Abruzzi, Alessandria, Ancona, Bolzano, Catanzaro, Livorno, Messina and Verona.

The new order of Battle includes on Legion strengths the 1865 "Mobilitati" (i.e. those CC.RR serving with the Italian Armed

Forces, but included within the CC.RR "ceiling". As from 15 April, 1946, these men are deemed to be demobilised from Army service, and it is stated that they will gradually revert to service with Legions.

Final agreement has not yet been reached by CC.RR. HQ and Ministry of War on the new W.E. for Officers, and W.E. for Mobile Bns. The SMRE has authorised the CC.RR to go ahead with the proposals set out above, although final approval by the Minister of War is still awaited. The Minister had in mind the formation of 5 extra Mobile Bns, (not to be confused with the 8 Mobile Units formed from the Triveste Legion) and it is possible that he still has this idea in mind. (Latest information: Minister has now dismissed this idea).

The CC.RR. HQ has also submitted proposals to Ministry of War on the re-distribution of strengths by the formation of 4 new Legions and one new Brigade. While the formations of new Legions may have something to commend it, the formation of a new Brigade HQ is a very different matter. The proposal is being sympathetically considered by SMRE, and I have requested that this Branch be kept up to date with developments.

As a result of the authority to increase the CC.RR Force by 10.000 CC.RR. HQ have received Ministry of War authority to call back into service CC.RR of the 1915 - 1922 classes now in "congedo". It is estimated that 7000 to 8000 such men to will be available by the end of May. In addition some 1300 CC.RR can be expected from returning P.O.W.

Appendices are attached showing CC.RR. HQ's orders and proposed strengths.

SUBJECT : Increase of 10.000 men in CCRR strength.

DATE : 15 April 1945.

REF Nr : 209/33-1945.

As you have been informed by the circular Nr. 209/33-1945 dated 10 inst. the organic strength of the CCRR has been increased from 65.000 to 75.000 men, including officers.

In a temporary way, the organic strength of legions, brigades, divisions, General Headquarters mobile battalions and groups of mobile battalions have been fixed up as appears from appx 1.

I have informed accordingly the Ministry of War for subsequent orders to all Military Territorial Commands, so as to avoid any discussions for the increased number of rations that the above Commands have now to release to the CCRR.

As it appears from the appx 2 (Col 7) the following criterion was followed in fixing up the temporary establishment of territorial legions : 3905

- the organic strength calculated on the base of 55.000 men (Col 1) has been increased thus:

a) 50% increase to Headquarters companies;

b) the strength of all small stations (Col 3) has been brought from 5 or 6 men to 7 men (Commanding NCO included). On no account the strength of permanent or temporary stations or posts will be reduced to less than 6 men present; the absence of the 7th man is allowed only for the period of training or for the ordinary leave, but this last within the limits of

a) 50% increase to Headquarters companies;

On no account the strength of permanent or temporary stations or posts will be reduced to less than 6 men present; the absence of the 7th man is allowed only for the period of training or for the ordinary leave, but this last within the limits of percentage prescribed;

c) A certain percentage of personnel (Col 5) to be distributed by Legions' HQrs among those stations of a strength superior to 7 men whose organic strength based on a total force of 55.000 men, is no longer in keeping with the new requirements.

Declassified E.O. 12356 Section 3.3/NND No. 785016

c) A part of the force of the Trieste Legion will be passed to those Legions (360 men for each) who have no Mobile BNs. (Col 6).

==========

Consequent to the above increase, all movements previously made in order to keep the "ration" strength within the establishment on the bases of 65.000 must be cancelled.

Thus, must be considered cancelled the allotment of rations made in the past by the Cadet Legion to those of Palermo (200), Messina (300), Roma (400), and Lazio (300).

The following Legions will instead receive, from the total ration strength assigned to the Cadet Legion (4190), the percentage of rations required for the feeding of their depending Cadet battalions :

Turin Legion	800 rations
Bari Legion	350 "
Cagliari Legion	350 "
Total	1500

Of course, these rations are over and above those foreseen by the organic strength fixed for the Legions concerned.

==========

As far as the effective, present and "ration" strength is concerned, all previous dispositions are still valid, but it is added by this circular that in the effective and the "ration" strength of all Legions concerned must be included all military personnel (Officers and Ors) considered as mobilised.

In the effective, present and "ration" strength the following personnel (Officers and Ors) shall instead not be included:

a) Prisoners and dispersed personnel;

b) Personnel on leave exceeding 90 days;

The personnel of Trieste Legion, which is not yet formed, viz. 40 Officers and 2880 Ors, has been divided between Abruzzi, Alessandria, Ancona, Bolzano, Catanzaro, Livorno, Messina, Verona Legions 5 Officers and 360 Ors being assigned to each Legion.

Such mobile units which will substitute, for the time being, the Mobile Battalions in those Legions which lack them, will be added to the organical and effective strength and therefore fed by the Legions concerned.

These mobile units, commanded by a Senior Officer, will be organically divided in three companies of 120 men each, 20 of these for barracks duties and 100 to be kept at the direct disposal or the Legion Commanders for security services in their jurisdiction.

Three of the four junior Officers belonging to each of these mobile units will act as company commanders and the fourth will be assigned to the unit Headquarters.

I confirm hereby the orders contained in the GHQ 390 circular Nr.45/A dated 14 Feb. 1945 concerning the "Temporary variations to the territorial establishment of CC.RR Force", copy of which is attached, and I order the Legion of Milan to come in direct touch with the Legions of Alessandria and Verona in order to establish the new temporary organic strength for the Groups of Pavia, Mantova and Cremona to which Milan Legion will supply rations as usual.

The total organical strength of the above groups will be deducted from the strength of Alessandria and Verona Legions respectively.

Such provisional organics will be reported to this GHQ.

THE PRESIDENT OF THE COUNCIL OF MINISTERS.
No. 65205/34082/3/1.2.1

Rome, 29 March, 1946.

1 APR 1946

Dear Admiral,

Will you please express to the Allied Supreme Commander the gratitude of the Italian Government and mine for allowing the Carabinieri to be raised from 65.000 to 75.000 units. This gives us a new evidence of the friendship and understanding for our needs in the work of moral rehabilitation and material reconstruction of our Country; this work could not be carried out in any satisfactory manner if the law and public order were not secured and enforced, with traditional zeal, by the Carabinieri.

I also want to express to you, dear Admiral, my deep gratitude for transmitting to the Supreme Allied Commander, and supporting our request.

With best regards,

Yours sincerely,

(s) De Gasperi.

2 The Prime Minister bases his case mainly on the comparatively weak strength of the forces of law and order and on the present unsatisfactory state of public order.

As regards the strength of the police forces, the Prime Minister points out that before the war, with efficient communications and means of transport, and with normal conditions prevailing, the force in charge of the various services of public order amounted to 207,000 men without counting the Guardia di Finanza.

Of this force, 130,000 belonged to specialist militia, such as Railroad, Harbour, Frontier, Coastal, Forest, etc., Militia. 1 The Italian Prime Minister has raised with me the question brought up by his predecessor, of an increase of 10,000 in the strength of the Carabinieri, thus raising the ceiling of the Corps from 65,000 to 75,000.

2 The Prime Minister bases his case mainly on the comparatively weak strength of the forces of law and order and on the present unsatisfactory state of public order.

As regards the strength of the police forces, the Prime Minister points out that before the war, with efficient communications and means of transport, and with normal conditions prevailing, the force in charge of the various services of public order amounted to 207,000 men without counting the Guardia di Finanza.

In general, these specialist militia have been suppressed and though some of them are being re-activated on democratic lines, Carabinieri are carrying out tasks extraneous to their normal duties and will be compelled to do so for some time to come.

The extent to which Carabinieri strength is affected by employment on special tasks was fully set out in this Headquarters letter AC/14601/21/PS of 7 Nov 45 when this matter was last under consideration and when it was decided by your Headquarters that an increase was not to be recommended at that time.

Your Headquarters will be fully aware of the existing unsatisfactory state of public order in certain parts of Italy. There do not seem to be grounds for expecting any improvement in existing circumstances, specially

having regard to/

Declassified E.O. 12356 Section 3.3/NND No. 785016

having regard to the present shortage of basic foods.

The first Italian elections since the down-fall of fascism are due to commence on March 10th. Owing to the electoral rolls not yet being completed the local elections will cover only a small part of the country. It is anticipated that these local elections will be followed by national elections in April or May and subsequently the majority of the local elections will take place. The country is therefore faced with a considerable period during which security and public law and order will be of paramount importance to it, when its democratic efforts are on trial.

3 I feel, however, that there is a more cogent reason for acceding to the request of the Prime Minister than any of those given above. The whole of Italy has now been liberated and only a very small portion is being retained under Allied Military Government.

Italy is a soverign state and should be allowed to determine the strength of the forces of law and order necessary to enable its citizens to live under peaceable and stable conditions.

3869

4 The last request for an increase in the manpower ceiling of the Carabinieri was not recommended by your Headquarters on the grounds that the needs of the Italian Government could best be met by improvement in the quality and organisation and distributionof the existing force of 65,000. Every effort is being made to this end but as the Prime Minister points out, it is the extraneous duties which must be performed by this 65,000 Carabinieri which militates against the effectiveness of their strength and that these steps cannot make up entirely for shortage of men.

In this connection I wish to point out that the Carabinieri are the first line of the police forces in this country and the counterpart of the

by national elections in April or May and subsequently the majority of the local elections will take place. The country is therefore faced with a considerable period during which security and public law and order will be of paramount importance to it, when its democratic efforts are on trial.

3 I feel, however, that there is a more cogent reason for acceding to the request of the Prime Minister than any of those given above. The whole of Italy has now been liberated and only a very small portion is being retained under Allied Military Government.

Italy is a soverign state and should be allowed to determine the strength of the forces of law and order necessary to enable its citizens to live under peaceable and stable conditions. 3869

4 The last request for an increase in the manpower ceiling of the Carabinieri was not recommended by your Headquarters on the grounds that the needs of the Italian Government could best be met by improvement in the quality ~~and~~ organisation and distributionof the existing force of 65,000. Every effort is being made to this end but as the Prime Minister points out, it is the extraneous duties which must be performed by this 65,000 Carabinieri which militates against the effectiveness of their strength and that these steps cannot make up entirely for shortage of men.

In this connection I wish to point out that the Carabinieri are the first line of the police forces in this country and the counterpart of the city and village police in America and Gt. Britain. If a satisfactory state of public order is to be attained it is essential that the police should have, or should regain, the confidence of the public and in this respect numbers play an important part.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5 I strongly recommend that early approval should be given to an increase in the manpower ceiling of the Carabinieri from 65,000 to 75,000. Whether or not this increase should be within the present ceiling for the Italian Army is a matter, no doubt, which your Headquarters will wish to consider before putting forward any recommendation.

9 February 1946.

SUBJECT: Increase in Strength of CC.RR.

TO : Allied Force Headquarters.
Attn: G-5 Section.

27B

1. The Italian Prime Minister has now raised with me officially the question brought up by his predecessor of an increase of 10,000 in the strength of the CC.RR, thus raising the ceiling of the corps from 65,000 to 75,000. I attach his letter which represents the views of the Italian Government as a whole and, in my opinion, of the local government authorities and, one might even say, the Italian public generally.

2. The Prime Minister bases his case mainly on the comparatively weak strength of the forces of law and order and on the present unsatisfactory state of public order.

3. As regards the strength of the police forces, Dr. de Gasperi points out that before the war, with efficient communications and means of transport and with normal conditions prevailing, the forces in charge of the various services of public order amounted to 207,000 men, without counting the CC.RR.

Of these forces, 130,000 belonged to Fascist specialist militia such as railroad, harbour, frontier, custom, forest militia. Generally speaking these specialist militia have been suppressed and though some of them are being reactivated on democratic lines, it is a fact that the CC.RR are now carrying out tasks extraneous to their normal duties and will be compelled to do so for some time to come.

97A 38A Cover

4. The extent to which the CC.RR strength is affected by employment on such tasks was fully set out in my letter AC/14601/21/PS of 7 Nov 1945 when this matter was last under consideration. It was then decided by your HQ that an increase was not to be recommended at that time.

5. You will be fully aware of the existing unsatisfactory state of public order in certain parts of Italy. There do not seem to be grounds for expecting any improvement in existing conditions, especially having regard to the present shortage of basic foods and the prevelance of arms illegally held.

6. The first Italian elections since the downfall of Fascism are due to commence on 10 March. At first these local elections will cover only a small part of the country. It is however anticipated that local elections will be followed by national elections in April or May, and even after this further and possibly the majority of local elections will follow. The country is

therefore faced with a considerable period during which security and public order will be of paramount importance to the Government and to the country as a whole, at a time when their efforts to implement the policy of democratic government will be on trial before the world, and at a time when the Allied troops in Italy may be considerably reduced.

7. I submit, however, that there is an even more cogent reason for acceding to the request of the Prime Minister than those given above. The whole of Italy has now been liberated in accordance with the policy of the Allied Governments that the Italian Government should assume the full responsibility for the administration and control of their country. Italy has thereby become virtually a sovereign state entitled to determine the strength of the forces of law and order necessary to enable its citizens to live under peaceful and stable conditions. The Italian Government might justifiably plead that to give them the task of governing their country and at the same time to refuse them the means with which to do so would be to place them in a position which no Government could accept.

8. The last request for an increase in the manpower ceiling of the CC.RR was not recommended by your HQ on the grounds that the needs of the Italian Government could be best met by improvement in the quality, organization and distribution of the existing forces of 65,000. Every effort is being made to this end, and definite improvement has resulted, though the full reorganization must inevitably take time and the immediate future is all important. Moreover, the Prime Minister points out that the extraneous duties which must be performed by the existing forces militate against the effectiveness of their strength and the steps now being taken by the Italian Government with the assistance of the Land Forces and Public Safety Sub-Commissions cannot make up entirely for shortage of men.

9. In this connection I must point out that the CC.RR are the "first line" of the police forces in this country and the counterpart of the city and village police in the US and Great Britain. If a satisfactory state of public order is to be attained within a reasonable time it is essential that the CC.RR should regain confidence in themselves and thereby the confidence of the public. In this respect and because the CC.RR must be scattered in the many communes of the provinces, numbers play an important part. I understand that a project is now being discussed by the head of the CC.RR and the Minister of War whereby some three quarters of the increase asked for would be devoted to reinforcing the detachments of village and city police which have fallen in many cases to very small figures; and to form the remaining 2,500 into five reserve battalions for use as necessary.

10. I also understand that the Italian Government would find no great difficulty in recruiting the additional numbers and that they could in fact obtain about 5,000 men at once out of ex-CC.RR, many of whom have already applied for re-employment.

11. CCS Land Forces Sub-Commission, whom I have naturally consulted with regard to this proposal, is in agreement with me that the increase should now be permitted and I therefore strongly recommend that the request of the Prime Minister who has a very heavy responsibility in this matter, and whom, I submit, we must support to the fullest extent in the exercise of his responsibilities, should be granted.

Executive Commissioner has agreed that as this is a matter which mainly affects police operation rather than training and equipment, it is one on which action should be taken by Public Safety Sub-Commission. rather than Land Forces Sub-Commission.

Executive Commissioner said he would amend distribution lists accordingly.

Will you please, therefore, start action on this letter in the same way as the previous request was dealt with. Translation

The President of the Council of Ministers

58557/ 31083.1/1.2.1

Rome, 26 January 1946

Dear Admiral,

some time ago, the Italian Government asked the Allied Commission to be allowed to raise the number of the Carabineers from 65 to 75 thousand units. Regarding this proposition. M.M.I.A. considered that the service of the Carabinieri would in fact be improved by bet ering their equipment and armament and giving them better means of transport, instead of increasing their number.

The steps suggested by M.M.I.A. would doubtless be most useful; however they cannot make up for the scarsity of the men.

Before the war, with efficient communications and transport means, active indudtries, a general state of well-being, in short, in normal living conditions, the forces in charge of the various services of public order amounted to 207 thousand men, without cou ting the Guardia di Finanza.

Of such men, 130 thousand belonged to the militie specialized in the various services (railroad, harbours, road, post and telegraph, frontier, coast l and forest militia). Such specialized Corps were suppressed, and the Carabineers were entrusted with tasks which, in normal times, were carried out by thousands of agents, who, among other things had special competence and outfits.

However, the Carabineers Corps must now supply not only soldiers for the above mentioned services which are not included among the special duties of the Corps, but also the men that are continually requested by the Allied Army Forces, by various other allied organizations and by nu erous organisms of the Italian Government. Thus about 17.000 men are withheld from the service, and to this figure, we must add another 6 thousand carabineers forming 12 battalions that must be kept as movable reserve.

The remaining force is quite inadequate to carry out the service of local detached commands where where the prevention and repression work of the Carabineers takes place in very dif icult conditions. In the provinces and in isolated places where incidents and riots trouble public order more frequently, policy duties are entrusted to the Carabineers Corps only, for the activity and service of the Public Safety Corps are limited to the towns.

To the problems of a general character regarding the safeguard of public order, and are of vital importance, we must add, in a near future, those which are relative to the organization of the elections. The Italian

Government is aware that voting must take place in a regime of utmost freedom and order if the elections are to be the first step towards the concrete reestablishment of a democratic administration procedure.

This is why I wanted to bring once more to your attention the problem regarding the increasing of the number of the Carabineers, so that you may efficaciously support the request of the Italian Government with A.F.H.Q., hoping that approval may be granted in time for the new contingent to take up its duties before the beginning of the electoral period.

For equipment, arms, ammunition, clothing, uniform, etc it is intended to consider whether all supplies should in future be drawn from Italian Army channels of supply. It is suggested this be done at CC.RR Legion level. Is this advisable and practicable and if so will this effect (at that level) any saving in manpower and transport ?

10. REDUNDANT STATIONS

Operation of small stations should receive close scrutiny. Information is desired as to the number and location of stations which could, with advantage in efficiency and security, be closed and personnel concerned centralised at stations where communications are/or will be more satisfactory. This is dependent on the provision of adequate transport and inter-communication; recommendations in those respects are required.

SUBJECT:

TO Director, Public Safety S/C. 11 Jan 1946

At the last Chief Commissioner's Meeting, held on Wednesday, 9 Jan 46, a question arose as to increase in the strength of the Carabinieri. I understand that our recent request, based on the late Prime Minister's letter, was turned down by AFHQ but I have not seen the AFHQ reply as I was away at the time.

The Chief Commissioner directed that we should find out whether the present Government wants the ceiling of the CC.MR. raised. I think the only way to do this is for the Chief Commissioner to write a letter to the present Prime Minister.

Please speak.

AIDE MEMOIRE

AC/14601/21/PS 16 January 1946

SUBJECT : Increase of Strength of Carabinieri

TO : Chief Commissioner, Allied Commission.

1. Should the Italian Government make another request for authority to increase the strength of the CC.RR., the Allied Commission should support it and press for the granting of such authority.

2. Under date of 7 September, 1945, Parri, as Prime Minister, and on behalf of the Italian Government, made a request that the CC.RR. strength be increased by 10,000 bringing it up to 75,000 officers and men. This request was put forward to G-5, AFHQ, with a recommendation for its approval. However, MMIA expressed an opinion to try and meet the commitments by increasing mobility, armament and communications rather than manpower. Under date of 15 November, 1945, G-5 advised this Headquarters that the SAC did not propose at that time to recommend an increase in the manpower ceiling of the Carabinieri and that he reaffirmed his previous view "that the needs of the Italian Government can best be met by means of vigorous measures to improve the quality, organization and distribution of the 65,000 Carabinieri at present authorized". 3841

3. So long as the present attitude toward the use of Carabinieri continues no amount of improvement of quality, organization and distribution can obviate the necessity for actual manpower in place. Under existing conditions there is a deficiency in strength which is not fully appreciated due to several factors which are mentioned herein after.

1813

Declassified E.O. 12356 Section 3.3/NND No. 785016

4. The first factor is the failure to recognize that the aggregate number of police in Italy to day is less than the number employed before Italy's entry into the war, before its industrial, commercial and economic resources had been destroyed, and before its population was confronted with hunger, homelessness, unemployment and inflation. Before Italy's entry into the war the aggregate number of police engaged in maintaining law and order (excluding the Royal Finance Guard) was approximately 207,000 officers and men. Of this number 130,000 were organized into specialized police agencies as follows:

a. Railway Police, 29,500
b. Port Police, 1,000
c. Highway or Road Police, 1,250
d. Post and Telegraph Police, 1,500
e. Frontier Police 2,400
f. Coastal Police 33,750
g. Forest Guards 5,000
h. Anti-Aircraft Guards 56,250.

These agencies were manned from the M.V.S.N. (Blackshirt Militia), and were considered as Fascist organizations. So when Mussolini was overthrown and Badoglio was given control, he ordered the disbanding of the Volunteer Militia and the transferring of all its personnel to the Italian Army. At the time of Allied occupation orders were issued abolishing all fascist institutions. Thus the specialized police agencies disappeared, and no replacement has been made. Carabinieri are being used for railway, port, road and frontier police - a few hundred withdrawn from their regular duty attempting to perform the duties of several thousand. The Italian Government appreciates this situation and has issued decrees creating railway police and within the body of Questura Agents, are being trained 38 [illegible] port police and road police. Until sufficient men are recruited and trained, the country's general police force is depleted in order to do specialized guard duty.

5. The second factor is the use of Carabinieri by Allied Forces and agencies and by the Italian Government

Declassified E.O. 12356 Section 3.3/NND No. 785016

again on forms of specialized guard duties thie prevent-
ing their employment on regular and normal police duty.
In this category are carabinieri assigned as guards for
airfield, to UNRRA, to ENDSI, to FSS, CIC, CID, SIB, and
MP detachments, to PWAC, to Epuration Committees, to
various Ministries and offices, and others. A recent
inspection of the Naples Legion disclosed that from that
Legion alone 1,056 are so employed and in addition 182
on port duty and 209 as railway guards. Continually
requests are made by Allied officers and others for
Carabinieri to be used on guard duties. If the strength
cannot be increased then all Carabinieri now engaged on
guard, escort and like duties should be released for
police duty.

6. This brings up the third factor which is the misconception of the status and functions of Carabinieri. Regardless of the fact that the CC.RR. is a unit of the Italian Army and organized as such, it is primarily a police force and its members are policemen, peace officers if you please, to the same extent that the Metropolitan of London and the Metropolitan of New York are police forces. The principal difference is that the CC.RR. is a national police force whereas the others are city or metropolitan police forces. So, as in London and New York, there are police stations at which a certain number of policemen are assigned whose function is to preserve the peace, also in Italy there are police stations, 4,809 to be exact, to which policemen (carabinieri) must be assigned for the purpose of keeping the peace and of performing the many other functions which policemen are called upon to perform. The location and importance of the station determines the number of policemen who must be assigned. The first function of a policeman is to preserve the peace and prevent the commission of crime. The second function is, in the event of a crime having been committed, to apprehend, if possible, the criminal. This is elementary. These functions cannot be performed by policemen on static guard duty, nor by policemen who are held in reserve bodies who may be held in readiness to put down riots or other disturbances beyond the capacity of the patrolman or constable. And so today in Italy must be withdrawn from

Declassified E.O. 12356 Section 3.3/NND No. 785016

consideration as policemen, the 6,000 carabinieri who constitute the 12 mobile battalions.

7. Finally it should be understood that the agents of public security, the questura agents, are concentrated in cities and provincial seats and are not distributed into communes as conservators of the peace and that Finance Guards are revenue agents not police. The Carabinieri are the police of Italy. They are the conservators of the peace, the policemen in the communes who have the respect of the general public. If their strength is to be dissipated in assignments of guard duty and by concentration in mobile battalion formations then the strength must be augmented for normal police functions and no amount of improvement in quality, armament and distribution can be a substitute.

1. I have completed an inspection of the Naples Legion and find that its strength is badly depleted due to the employment of carabinieri on duties other than those normally pertaining to the CC.RR. However, in addition to those so employed, I also found that there are approximately 974 on leave of various kinds. This figure is far in excess of the 10 per cent permitted to be on leave at any one time.

2. It would seem to be advisable to direct the responsible commanding officers to recall from leave a sufficient number so that no more than 10 per cent of the unit strength is on leave.

SUBJECT : Strength situation of Naples Legion, CC.RR.

TO : VP Civil Affairs Section.

INTER OFFICE MEMORANDUM

1. Following the rather insistent demands that the CC.RR. at Naples be re-inforced with another 1,000 men, I went to Naples and personally investigated the strength situation. I am submitting the results of my investigation.

2. The W/E of the Naples Legion as authorized by AMMIA, including officers and men, fixes the strength at 3,815. This figure includes a Mobile Battalion of 578 officers and men. However, there is actually effective (nominally) a strength of 5,185. Thus, on the rolls, the Naples Legion is already overstrength by 1,370. Were it not for dissipation of the force, this strength would be sufficient to permit the 386 stations to be manned by an average of 12 carabinieri and still have the Mobile Battalion standing by for emergency operations.

3. The strength of the Naples Legion is disposed as follows:

On duty with A.F.H.Q.3, Naples	883
On duty with the Italian Army:	
1st Company	164
94 Section	50
318 Section	50
357 Nucleo	25
Guard at Royal Villa, Naples	64
On duty with M.N.D.S.I. Naples	138
On duty at Naples Port	182
Attached to Allied organization (Schedule 1)	51
On duty as railway guards	209
Various other duties (Schedule 2)	291

1818

Declassified E.O. 12356 Section 3.3/NND No. 785016

On duty with Catanzaro Legion	82
On duty at Taranto	122
On duty at Bari	102
On duty at Potenza	48
On duty at Matera	21
On duty at Rome	3
In hospital	111
On various kinds of leave	974
	2,832
Available for normal police duty in Naples area	2,353
	5,185

4. It is not necessary to discuss the merits of the various duties to which carabinieri have been assigned. The point is that practically all of the assignments call for nothing more than static guard duty which could be performed equally as well by detachments from other police agencies or from the Italian Army. If even one half of those shown as not available for normal police duty could be returned to the disposition of the Legion Commander, they would constitute a force larger than the re-inforcements that have been requested.

5. There is one figure in the list, however, to which attention is invited and that is the number of carabinieri on various kinds of leave. There is a regulation controlling all units of the Italian Army, including the CC.RR., which restricts the number of men on leave to 10 per cent of the strength of the unit. Thus the Naples Legion with a strength of 5,185 should have no more than 578 men on leave. Yet the report shows 974 men on leave, being 456 more than its entitlement. 3830

This situation is being brought to the attention of CC.RR. Headquarters.

6. It can be said definitely that 1,000 CC.RR. reinforcements cannot be sent to Naples except at the expense of public order and security in the area or areas from which such numbers might be withdrawn. There are no CC.RR. reserves. It has heretofore been pointed out that there are only 65,000 carabinieri in

Declassified E.O. 12356 Section 3.3/NND No. 785016

all of Italy and of this number upwards of 25 per cent are not available to perform normal police station duties because of employment on other types of duty. The situation in the Naples Legion is very illustrative of how the strength of the CC.RR. has been, and is being, dissipated to the detriment of public order and internal security.

7. This Sub-Commission understands that Allied Authorities in general are in agreement that the CC.RR. constitute the first line in the maintenance of internal security. That being so, then they should refrain from requesting the assignment of carabinieri for miscellaneous guard and escort duties and should be willing to return, and insist upon the return, to their proper commands of all carabinieri now employed on duties extraneous to police station and mobile battalion duties. It is suggested that Agents of Public Security and Finance Guards might well serve in many of the assignments and thus release carabinieri for the duties for which they are trained and experienced. Even detachments of the Italian Army might be used for some of the duties.

8. It is recommended that this matter be brought to the attention of higher authority.

8 January 1946

SUBJECT : Strength of CC.RR.

TO : Commanding General CC.RR.

1. Naples Legion CC.RR. has received on loan 8 Allied military trucks to be used on crime patrol duty. The vehicles will be serviced through Allied workshops. It is reported from Naples that there are insufficient CC.RR. to man these vehicles.

2. During disturbances in the BARI area, a number of CC.RR. were temporarily transferred to that district from the Naples Legion. It has been asked that 150 of these men be returned to Naples in order that the CC.RR. Patrols in Allied vehicles can be put into operation. The value and necessity of such a patrol system in the Naples area is of course well known to you.

3. May we be informed please if the 150 CC.RR. concerned are likely to return to Naples in the near future.

(Attention: Director of Public Safety Sub-Commission).

1. Referring to the attached correspondence and further to telephonic conversation of 31st December 1945, on the above subject.

2. The figures for Carabinieri strength of this area total 1284. Of this strength only 620 are actually available for duty, as per report 4A attached.

3. To make this limited number of men, more effective against the prevailing crime wave, 8 small trucks have been loaned from No. 3 District, after a conference of DPM, APM, G.5 Caserta and myself. To work the Mobile Patrols instituted (full particulars in Monthly Report) it is desired that 150 of the CC.RR. of the Naples Legion lent to Bari (as shown on report 1A) be returned.

4. G.5 and No. 3 District made enquiries of Bari and arranged with the Military Authorities there for the release of 150 of these loaned men.

3822

5. As these men belong to Naples, the letter 2A was sent to CC.RR. HQ. Naples, but apparently nothing can be done here.

6. In the meantime, the 8 trucks are idle, and No. 3 District is continually enquiring about when the Mobile Patrols will commence work.

7. The other CC.RR. on duty in Naples are strained to the utmost, and Colonel MECLI has asked for 150 CC.RR. to work the Mobile Patrols.

...../2

Declassified E.O. 12356 Section 3.3/NND No. 785016

8. The Commissioner is asking for re-inforcements of 1000 CC.RR. for Naples.

9. Whilst I expect that this demand is impossible, there seems to be no reason why 150 of our own CC.RR. lent to Bari cannot be released when arrangements have been made by G.5 Caserta for their return and I am informed that A.C. Headquarters have been consulted.

10. It is asked that the necessary orders be issued from your Office for the return of the 150 men to Naples, please.

1. Application has recently been made for reinforcements for the CC.RR. in the Naples Area.

2. In view of urgent needs in other parts such reinforcements are not available, however there is little doubt that a large number of CC.RR. are employed in your neighbourhood on other than normal Police duties.

3. Will you therefore please examine the position carefully, ascertaining the number of CC.RR. who are extraneously employed, particularly in the Port area, and consider how and by what means some if not all of them can be replaced by other personnel and so be made available to perform urgent Police duties.

4. Will you please notify this Hq. of your action as soon as possible.

2. It is regretted that at the present time reinforcements of CC.RR. are not available for the Naples area, as all CC.RR. in Italy are fully engaged on urgent Police duties, further the strength of the CC.RR. Legion at Naples is already up to establishment.

3. However it may be that some CC.RR. in the Legion, at present performing extraneous duties can be relieved and thus made available for normal Police duty.

4. With this end in view, Major Saunders, your Public Safety Officer is being asked by this Hq. to ascertain the members of CC.RR. employed on miscellaneous duties and what measures can be adopted to make full use of them on urgent Police matters.

1. The extent of crime particularly in and around Naples, which has been reported in the regular monthly reports from this office, has been causing concern and I attach for information copies of:
(a) - A letter dated 7th December from the Commander P.B.S.
(b) - A letter 176/35A of 10th December from the G.O.C. District in which an addition to the Carabinieri is asked for.

2. With regard to (a). Of the eight thieves involved in the incident one is dead, 2 more are prisoners and search is being made for the other five whose names are now known. Both letters (a) and (b), however, draw attention to the prevalence of crime. In the monthly report for November, 21 serious cases of crime with violence were listed, they included 2 cases where British soldier guards were killed and 6 cases of bandits against trains. Further in the report, 40 cases were cited in which Italian civilians were reported to have been attacked and/or robbed by Allied soldiers, including 14 cases involving coloured soldiers.

3. I do not want to exagerate the needs of Naples and realize that general lawlessness is prevalent in many parts of the world outside Italy and also realize that the police forces in Italy have many calls on them.

4. This District has, however, large numbers of Allied troops in it and exceptionally large quantities of valuable stores which are subject to pilferage. These stores include highly dangerous ammunition and explosive and a case occurred recently, of a disastrous explosion due probably to action by would-be thieves who endanger many lives besides their own by their nefarious activities.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5. One of the bad districts is Nola where ammunition etc. has been pilfered and a British Officer was recently held up in day light by criminals armed with tommy guns and robbed. But the Carabinieri at Nola are at a strength much less than they were 18 months ago and actually below pfe-war strength.

A similar shortage exists all over and it is impossible to make up one area without depleting some other centre. Figures for the 6 companies of Naples Carabinieri (including Castellammare, Casoria and Nola) are:

	Total Officers and Men
Pre-war	1235
War time 1943/44	1984
Present strength	1364

From the present figures, Carabinieri employed on special duties (none are employed guarding A.M.G. Offices) have to be deducted. The present sick rate is also somewhat high.

6. In addition the Carabinieri are handicapped by lack of equipment and transport particularly as they now have to deal with thieves armed on an unprecedented scale In recent drives, besides ordinary weapons, tommy guns, machine guns and even two pieces of mountain artillery have been seized. In the attempt to economize police forces a policy has been adopted of concentrating police and making raids on bad areas in turn. This has had a good effect, but there is no doubt an increase of the police forces in the district is required with additional means of transport so that flying squads can be organized. My Public Safety Officer, Major Saunders, has detailed proposals, and, under prevailing conditions, he asks for an addition of 1000. May consideration, please, be given to this request for additional Carabinieri.

1. On 5 December 1945, at about 1430 hours, two kilometers west of Marcianise, Italy (R220705, Map of Italy), approximately twenty Italian civilians stopped and robbed a truck carrying 198 cases of American Coffee and driven by German prisoners of war. They unloaded and carried away thirty cases containing 570 pounds of coffee, while holding the german guard and driver at gun point.

2. Upon the approach of armed American personnel pasing in a truck the Italians fled. In the ensuing pursuit, one Italian was killed, one wounded, and one captured. Those apprehended are now in our custody.

3. I respectfully and urgently request that strong and effective action be taken by the proper Italian authorities to apprehend the civilians involved, as a partial deterrent to such future activity and that I be kept informed as to the steps taken and progress made.

4. I know you will agree, in view of many recent cases of violence, that it is of the utmost importance that this obvious loss of control of security and safety on the highways be terminated forthwith. It is essential that law and order be reestablished by Italian agencies while it is still possible to take effective measures. In order that better coordination may result, it is advisable that I be informed as to the plans and operations of the Italian authorities in this matter and would appreciate your advice therein from time to time.

1. I am much concerned over the number of Serious Incidents with Italians which are occurring in my District. There has been a very considerable increase during the last two months and at Appendix 'A' you will see a list of them. I would call your attention to the last incident when on 6 Dec a Brit Officer was held up.

2. Naples Area is particularly bad. Despite frequent representations to A.C. and Italian Authorities, the situation, far from improving, has actually deteriorated. Unless immediate and drastic steps are taken this lawlessness will get out of hand and may necessitate the use of considerable armed force in order to suppress it.

3. In my opinion this situation is due to shortage of C.C.R.R. and their consequent inability to take any effective action against armed gangs, some of which comprise considerable numbers.

The Italian authorities have carried out several large-scale round-ups which have, presumably, had some degree of success in roundingup a certain number of known criminals. Such measures are, however,not adequate to deal with the present situation, which requires continuous aggressive action.

To permit of this it would be necessary considerably to augment C.C.R.R. resources, which, I understand, is hardly possible owing to a general shortage of such personnel. The only alternative I see, therefore is to reinforce the C.C.R.R. by well-trained tps, in the same manner as was done in the Bari Area a few months ago.

4. I cannot emphasize too strongly that unless early and vigorous action is taken in this matter the situation will undoubtedly deteriorate.

I would be glad, therefore, if suitable representations could be made to the Italian Government.

I would also suggest that the latter part of

been a very considerable increase [illegible]. I would [illegible] and at Appendix 'A' you will see a list of them. I would [illegible] your attention to the last incident when on 6 Dec a Brit Officer was held up.

2. Naples Area is particularly bad. Despite frequent representations to A.C. and Italian Authorities, the situation, far from improving, has actually deteriorated. Unless immediate and drastic steps are taken this lawlessness will get out of hand and may necessitate the use of considerable armed force in order to suppress it.

In transmitting the report of the Arma forces up to the 3I of last month, we point out that a few legions have an effective force superior to that body foreseen in the battle order transmitted with Ref.99/5 dated 2 July last.

To remedy this inconvenience this General Command has wired orders for the discharge (still in course) of re-called troop military, excepting those, if it is their wish to remain, belonging to classes up to I92I.

If this measure will not give the results aimed at, other discharges will be brought about.

Nel trasmettere lo specchio della forza dell'Arma alla data del 31 decorso mese, si fa presente che alcune legioni hanno una forza effettiva superiore a quella organica per esse prevista dall'ordine di battaglia trasmesso con foglio n.99/5 del 2 luglio u/s.-

Per ovviare a tale inconveniente questo Comando Generale ha ordinato per telegrafo il congedamento(che è ancora in corso) dei militari di truppa richiamati e trattenuti, che lo desiderino, appartenenti alle classi fino al 1921 compresa.

Qualora dopo l'attuazione di tale provvedimento dovessero risultare eccedenze, saranno disposti altri congedamenti.

1. Reference is made to your letter AC/14601/21/PS of 7 November 1945.

2. The Supreme Allied Commander does not propose at this time to recommend an increase in the manpower ceiling of the Carabinieri. He moreover reaffirms his previous view that the needs of the Italian Government can best be met by means of vigorous measures to improve the quality, organisation and distribution of the 65,000 Carabinieri at present authorised.

3. To this end, all possible assistance and advice should be afforded to the Italian Government by the Allied Commission and MMIA.

4. In this connection, your attention is directed to paragraph 5 of this Headquarters letter of 10 November 1945, requesting information as to the availability of certain British police officers for duty with MMIA.
