TO : Regional Commissioner Liguria
(attention AMG)

118

1. Reference your Lig/Saf/559 dated 22 June 45.

2. The disposition of CC.RR strength and the feeding problems involved is an AMG matter in Liguria and the only valid instructions are those received from this Headquarters.

3. No notice should be taken of contrary instructions that a Legion Commander has been given to understand by CC.RR HQ. This suggestion that CC.RR HQ are issuing instructions in AMG territory is being taken up strongly with the Commanding General.

4. At present all recuperated CC.RR in your Region must be fed in accordance with Par 5 of AC/14601/3/PS dated 1 May 45. This feeding scale is established by AG/43-1/POW dated 18 October 1944.

5. From your figures it is noted that you have 1270 Regular CC.RR transferred from the South in addition to your spearhead. Other Regions did not receive equivalent reinforcements. In fact Lombardia received none. This was because shortly after your men were sent forward, the Chief Commissioner stopped further transfers from the South at the request of the President of the Council of Ministers who was apprehensive as to Public Safety conditions.

4093

6. Your actual strength of regular carabinieri is proportionately greater than any other Region in the North. All other areas are compelled to manage with a number of recuperated CC.RR who are dissatisfied with

Declassified E.O. 12356 Section 3.3/NND No. 785016

the present ration scheme.

6. It is confidently anticipated that AFHQ will approve the issue of rations on a 65000 ceiling in the near future. An Order of Battle showing the break-down to Companies of 65000 strength will be forwarded to you shortly. When recruiting commences, you will increase your strength in accordance with the detail shown.

7. In conclusion it is pointed out that the Police problems of the North are the prime concern of this Division and that no one Region is specially favoured above any other.

Reference your letter AC/14601/21/P.S. dated 10th June respecting Carabinieri.

1. I desire again to raise the question of rations for recuperated Carabinieri and to bring to notice the following facts :- .

2. So far as is known to this Headquarters the authorised establishment for Carabinieri for the Provinces of Genoa, La Spezia, Savona and Imperia is 2079. To meet this establishment the following numbers of Carabinieri have been received :-

Spearhead	580
From Florence	170
" Rome	480
" Catanzaro	500
" Leave, Hospital, Transfers etc,.	120
	1850

HEADQUARTERS
24 JUN 1945
A. G.

3. It will be seen therefore that the Legion is 229 under strength and is not entitled to draw Rations for this number.

4. The Carabinieri Legion Commander has been informed by his Command that his organic strength is 2270 and he has been given to understand that this figure is his allocation for Rations under the ceiling of 58000 approved by A.F. H.Q. .

5. This is not supported by figures from your office but if it be correct this Region is entitled to draw a further 420 rations.

6. Your letter of 10th June referred to above does not indicate the number of Rations which can be drawn but it does confirm that none of the additional 3000 rations have been allocated to this Region. Your letter of 2nd June to the Commanding General CC.RR. states that if recuperated Carabinieri are not available in Piemonte they will be transferred from Lombardia but Piemonte nevertheless receives an allocation of 500 Rations, whereas Liguria with 797 recuperated Carabinieri gets none.

Your letter of 10th June states that an allocation was not given to this Region because we had received 1150 Carabinieri from the South. I submit that it was the duty of the R.P.S.O. to get these Carabinieri from the South as soon as possible and that the Region should be penalised in respect of this action as far as rations for recuperated Carabinieri are concerned does not seem right in principle.

8. I have had several conferences with the Legion Commander on the question of pay and feeding of these recuperated Carabinieri but as previously explained the men are spread out all over the Region in small numbers living with other Carabinieri and there seems no practical way of carrying

./.

Declassified E.O. 12356 Section 3.3/NND No. 785016

into effect the provisions of para 5 of Directive AC/14601/3/P.S. dated 1st May.

9. Having regard to all the circumstances the Legion Commander is of opinion that in order not to contravene the Rationing regulations as they stand at present the best solution is to send all recuperated Carabinieri home until such time as the matter is satisfactorily settled and in the meantime to request the Carabinieri General Command at Rome to send forward from the South sufficient Carabinieri to bring the Legion up to Establishment.

10. I feel bound to agree that the position is most unsatisfactory.

If the authorised establishment for the 4 Provinces in the Legion is 2079 I submit that we should draw 2079 rations regardless of the number of Carabinieri we have brought in and that any reduction in number necessary should be made in the South as suggested in my letter of 23rd May.

11. I have directed the Legion Commander not to take any action until he has contacted his Commanding General in Rome but in the meantime I suggest that the matter be urgently reconsidered by Public Safety Sub-Commission and this office informed what action is desired.

1. Reference your LIG/SAF/555 dated 4 June 45.

2. The northern Regions are 7,500 below their 55,000 ceiling. On 26 May 1945 an increase of 3,000 to the CC.RR. ceiling was authorized by AFHQ. These ceiling spaces were allotted as follows :-

Lombardia	1,500
Emilia	500
Piemonte	500
Venezia	500
TOTAL	3,000

None of these 3,000 were allotted to you as you had already received 1,150 CC.RR from the 2nd wave of 4,000 from the South.

3. No approval has yet been given by AFHQ to enrol additional carabinieri above the 3,000 mentioned in Par 2. However, when further increases are made towards the 65,000 ceiling, a certain number will be allotted to your Region.

4. Your difficulties in dealing with recuperated Carabinieri are well understood at this Headquarters. It is quite obvious that the present ration policy is most unsatisfactory and one that is bound to lead to misunderstandings and ill-feeling between the carabinieri themselves. Pay and clothing are equally important problems.

5. This position has been brought to the notice of AFHQ but no increase of ration strength has been permitted above that settled in recent directives.

6. You may be assured that the attention of AFHQ will be drawn to the complaints on this subject received from all Regional Public Safety officers. As soon as any favourable decision is reached you will be informed by cable.

Reference Memorandum AC/14601/21/3/PS dated 1 May 45. 1B

1. A weekly return of Carabinieri rejoining this Region has been forwarded to Hqs for weeks ending 18 May, 25 May and 1 June.

2. Up to date 385 Carabinieri have been screened and returned to duty.

3. No approval has yet been received from Headquarters to enrol these Carabinieri, but owing to deficiency in strength and the non-arrival of reinforcements it was imperative that the majority be pressed into service.

4. Most of these Carabinieri come from Partisan sources. They are spread out over the whole Region, a few in each station, and reside with the other Carabinieri. It is, therefore impracticable to pay and ration them from Civilian Sources.

5. Authority is therefore sought to immediately take these men on to the strength of this Legion, which is still below establishment.
