CCRR STRENGTH IN BOLZANO

Reference is made to Fifth Army report of the conduct of the Folgore Gruppo dated 22 August 1945. Therein it is recommended that

> " more civil Carabinieri be installed in Bolzano in addition to the troops required there "

The expression "civil carabinieri" is not understood. Carabinieri are part of the Italian Army and are clothed equipped and rationed as such.

If the request is for Carabinieri it must be pointed out that they are not available for guard duty. The strength of Carabinieri throughout Italy is 65.000 and the personnel are distributed in accordance with the Order of Battle approved by AFHQ. The strength of the Legion of Bolzano is 34 Officers 2.034 ORS, Total 2068. Any increase in this authorized strength could only be arranged as a result of the corresponding decrease in other areas. The Public Safety situation in Italy is such that the CCRR force allotted to each area is barely sufficient for the duties to be performed. In particular the Italian Government have been promised that no CCRR will be transferred from Sicily, Sardinia or the South of Italy to assist the North. In the North, all CCRR Legions require their full strength to cope with their own local problems. The Questura of Bolzano is responsible for Public Security in his area. In conclusion, no increase in Carabinieri strength for Bolzano can be considered, but additional Agents of Public Security could be recruited, if the conditions of Public Safety justify such a course. 1. Reference the President's Council's letter at 38A-B
2. I see that at 35A MMLA have already replied to the Ministry of Air letter at 34A.
Ministry of Air's Remit seems to be that the Commitment should be mainly a military one vide letter at 34A.
I am not clear whether the 4000 CCRR are this element of the CCRR referred to in the Ministry of Air's letter or whether the full goal is that the CCRR should be wholly responsible.
3. I suggest we should take up at once with M.M.I.A. the extent to which recalled and unreleased Canadians could be held and maintained under approved Civilian for a period sufficient for Landing over of materials to Civilian industry — as proposed in C.G. CCRR's letter at 36A.
A decision could then be taken as to the extent to which the Commitment should be borne by the Military or CCRR.

The matter was discussed on the above general lines at this Ex. Comm's meeting this morning but I should not see the relevant papers.

Ref. Min 12

This matter has been discussed with Col. Sidsley NMHA and the following points agreed:

1. Reduced and unreleased CCRR cannot be held and maintained under the existing ceiling as suggested in Para 3. of Min 12.

2. It is against Policy to use CCRR for guard duty and in fact they are not available under the existing ceiling. A request has already been made to AFHQ for an increase in strength of 10,000 CCRR for Police duty. No reply has been received to date, and a request to AFHQ for an additional 4000 CCRR for guard duty would weaken the case for the increase in strength now being considered.

3. The 4000 CCRR requested would have to be carried within the total Australian Army ceiling which cannot be carried out the present time. NMHA cannot recommend a reduction of 4000 in the Australian Army proper (as distinct from CCRR) to allow for an increase of 4000 CCRR.

4. NMHA adheres to the views expressed in 35[A] i.e. a reasonable use of Australian troops under War Ministry control.

It is suggested that a reply be sent to the President of the Council stating that CCRR cannot be used, nor can CCRR strength be increased for this special purpose, and embodying the views expressed by NMHA in 35[A] Draft prepared at CRB. If agreed, copies will be sent to CCRR and Ministry of Reconstruction.

Should you so wish.

SUBJECT : Thefts of telephone and telegraph cables and wires - Vigilance.

TO : Prefects of Caserta

and for info
CC.RR. General Command - Rome.

Lately, especially in the provinces of Caserta and Naples, numerous thefts of lengths of aerial lines and bits of telephone and telegraph cables have taken place, which, besides causing serious economical damage, have provoked the interruption of the relative services.

The Allied Commission has, more than once, approached this Ministry owing to the interruption of the communications of the Allied Forces, caused also by the a/m thefts.

The last report received on this matter is from the CC.RR. Company of Capua dated 14th inst., in which it reported the theft of 120 mtres of telephone cable of the national line with the interruption of the communications between north and south, verified on the 11th in Ponte Calvi, commune of Pignatarp Maggiore and Calvi Risorta (Caserta).

The services of vigilance disposed of up till now and which have given quite good results by the arrest of a number of persons caught while removing material of the telephone and telegraph lines, have not succeeded in preventing further similar thefts, thus it is the convincement that the criminal activity in question is due to a vast criminal association, which must be discovered and conveyed to justice if this serious,phenomenon is to be stopped.

Please see that the enquiries on the a/m crimes are effected with the utmost care and endeavour.

Furthermore, it would be appreciated if contacts could be made between the Questuras of Caserta and Naples in order to organise, also making use of the CC.RR., well co-ordinated services of vigilance along the telephone and telegraph lines of the respective provinces, especially where the most frequent thefts have taken place - to avoid the repeating of such activity and to assure a prompt and decided repression of such crimes which reflect on the whole economy of the country.

It is deemed useful to bear in mind that the Ministry of Tele-Communicatior has been approached to provide in intensifying the vigilance and co-operation of the police bodies.

Your attention is particularly drawn to the importance of these services while information is awaited on the measures disposed in co-ordination with the other police bodies interested.

La Commissione Alleata è più volte intervenuta presso questo Ministero, in seguito all'interruzione alle comunicazioni delle Forze Alleate, provocata pure dai furti suddetti.

QUESTURA OF ROME

13/12/1946.

N. 04824. Gab.

14 DEC 1946

SUBJECT : Guarding service at Villa Carrubba - Hdqs of the Russian Military Commission.

TO : Dr. Rodriguez - Allied Commission, Rome.

The guarding service at the Hdqs of the Russian Military Mission, is being effected by the P.S. Commissariato of 'Flaminio' by means of five P.S. agents, who take turns in the service, thus assuring continuity by one man during the day and two at night.

Shortly after the institution of such service, which took place on the 5th February 1946, two P.S. guards, come off duty, referred to the director of the PS Office of Flaminio, that they had been sent away from their post (in front of the Villa) by the very Russian officers, who, moreover, had shown their desire that such surveillance be accomplished in a non-apparent manner and by Carabinieri instead of P.S. Agents.

Owing to this, it was disposed that said service was to move from the entrance gate, at a certain distance from it, so as to be able to practise the necessary surveillance, without catching the eye. - I point out that Via Sassoferrato, where the a/m Commission is located, is in a high and isolated area, exposed to all weathers having the minimum means of shelter. Furthermore the area is slightly illuminated and thus the task of the PS Agents is much more difficult. For this, the P.S. Commissariato of Flaminio has prospected the necessity that the P.S. agents be permitted to effect their service in the garden which surrounds the villa and not outside. This would render the service less tiresome and at the same time more efficacious.

1. Much inconvenience continues to be caused to Allied interests by military telephone cables being cut or broken.

2. A request has been received through Rome Area Allied Command for co-operation by the Italian Mobile Police in conducting immediate investigations into such instances as are reported.

3. It is suggested that the assistance required would call for the services of about 3 Italian police personnel with a Jeep or other such vehicle, who would be available on a case of wire cutting being reported to the Field Security Police to accompany an F.S.S. 4298 the F.S.S. to investigate the circumstances.

4. It is not considered that this would make any great call on the services of Italian Police but would be extremely helpful in the investigation of such incidents. In this connection it is pointed out that although the cables involved are at present working for Allied interests it is probable that in the near future they will be made available to the Italian cable authorities and any cutting or stealing of such cables is detrimental to both Allied and Italian interests.

With phonogram n.78838/005 GAB, dated 13 June 46, I inform you that 3 P.S. Agents wearing uniform are on service without interruption (any man for 8 hours) at Russian Delegation, which is located at 10 via Sasso Ferrato.
It is learned that these Agents always fulfilled their duty and always wore uniform.
The a/m Agents have been examined. They stated that probably the Russian Officer mistook one among the men who are used to rest in a meadow wich is located near Villa Carruba, for an Agent on service.
Anyhow, the Agent on service did not see anything of the fact probably because it happened while the Agent, on orders received, was turning round the Villa or watching the house of Minister GASPAROTTO.
I forward the records of the interrogatory of DEMEO Gesualdo, who was on service at Russian Delegation when the fact happened, to Divisione Agenti.
The other Agents are: DE CARLI Giuseppe and AMICUCCI Amedeo.

Trattandosi di agenti di sicuro affidamento, sempre in uniforme, che adempiono scrupolosamente l'incarico loro affidato, come si è potuto rilevare nelle frequenti ispezioni.

Gli agenti suddetti, interrogati a verbale, non hanno escluso che l'Ufficiale Russo abbia scambiato per un agente di servizio, uno dei borghesi che amano riposare, sdraiandosi, in un prato alberato sito nelle immediate vicinanze della Villa Carruba.

Il fatto, comunque, non è stato notato dall'agente di servizio, perchè avvenuto probabilmente fuori dalla vista di questo mentre cioè, secondo le istruzioni ricevute, girava intorno alla Villa o si era recato a sorvegliare l'abitazione del Ministro Casparotto, pure sita nei pressi.

1. Reference your letter AC/14601/26/PS of 29 April; this matter has already been under review and as a result one Vice Brg. and two Carabinieri have been returned to proper duties. They had been employed on guarding of Allied property.

2. Of the others employed with Allied Units in this Group's territory, all are employed with Military Police on joint patrols and duties & it is felt they are usefully employed.

3. On and about forthcoming political election, their services will, if necessary, be immediately available to local CC.RR Commanders.

1. With reference to your AC/14601/26/PS of 29/4/1946; the employment of Carabinieri by Allied formations has been rigorously controlled in this Region from the earliest days.

2. Very few CC.RR. were ever employed by Allied formations and most of them returned to ordinary duty a long time ago.

3. At the moment the only CC.RR. performing duty with Allied formations in Lombardia are the 24 working with the CMP, one with Major Coxhead at 3 BLU and 3 employed by this office.

4. All the above CC.RR. are actually performing work directly connected with the CC.RR. but the numbers will be decreased as circumstances permit.

1. Reference your letter of the 27/4/46 File N. A.C./14601/26/PS, relating to the above quoted subject;the number of CC.RR. employed by various Allied Units for the whole of Liguria Region at the time of your communication was 52.

2. I have discussed the position with the various units concerned, the CC.RR. command,and effected a reduction to 28,utilised as follows : -

(a) F.S.S.	-	3 CC.RR.	(Enq.Agents,Escorts,etc.)
(b) ZCI/Z-C.I.C-		3 CC.RR.	(Enq.Agents,Escorts,etc.)
(c) A.C.Genoa	-	1.Brig.4.CC.RR.	(Various duties in conjunction with A.C.)
(d) 71 Camp.	-	1 Brig.9CC.RR.	(An A.C.- D.P.S.Camp,with 500 inmates,CC.RR.do general discipline, guards and escort duties.)
(e) Military Police	-	7 CC.RR.	(General duties with Military Police).

R O M E

SUBJECT : Request of services by the Allies.

The Officers of the Allied Commission Chief Liaison Office and of the C.I.C. of Bolzano and Merano, frequently request soldiers of the Arma for various service, which sometimes do not pertain to the normal service of institute.

We attach herewith a letter by which the Chief Liaison Officer of the Allied Commission of Bolzano, asks for a continual guard service for the C.E.M. Office in order to survey documents formerly belonging to the American Embassy, which have been recovered in Bolzano.

As services of such a delicate nature might bear serious responsibilities on the Arma, We beg your Commission to examine if it is possible to avoid that the carabinieri be called to perform services not of institute, bearing in mind that the strength of the Arma is scarce even to face the more and more increasing exigencies of public order and security in the country.

The Commanding General

R O M A

Spesso ufficiali dell'Allied Commission, Office of the Chief Liaison Office ed ufficiali della C.T.C. di Bolzano e Merano richiedono militari dell'Arma per servizi vari che, talvolta, esulano dai compiti del normale servizio di istituto.-

A comprova si unisce l'accluso lettera con la quale l'Allied Commission Office of the Chief Liaison Office di Bolzano chiede una guardia continuativa all'ufficio del C.E.M. per la sorveglianza di documenti già appartenenti all'Ambasciata Americana e ricuperati a Merano.-

Poichè servizi di natura così delicata possono - tra l'altro - far ricadere sull'Arma gravi responsabilità, si prega compiacersi esaminare l'opportunità di evitare che i carabinieri Reali siano chiamati a disimpegnare compiti non d'istituto, tenuto anche conto della deficienza della forza complessiva dell'Arma in rapporto alle sempre crescenti esigenze dell'ordine e della sicurezza pubblica del Paese.-

1. Transmiteed herewith for your information is a copy of a letter which has been sent to P.B.S. to endeavour to obtain the return of Carabinieri to perform Police Duty.

2. This matter was previously discussed with B.L.U. mainly to ascertain whether matters of this description were for their attention or not. As we have taken the action it is obvious that B.L.U. were not sufficiently interested.

3. It is not considered that P.B.S. will be co-operative and if their decision is negative the matter will then be referred to you for such further action as is possible.

4. A copy of any directives issued in respect of the functions of B.L.U. so far as Carabinieri are concerned would be appreciated.

SUBJECT: Carabinieri on Detached Duty with Allied Military Units.

TO : Officer Commanding, P.B.S. (South).

1. The high rate of crime in the Naples Area causes grave anxiety and is throwing a tremendous strain on the understaffed Civilian Police Forces. It will be readily appreciated that every available member of the Forces should be performing police duty.

2. To illustrate the present difficulty it is pointed out that within the past few days 100 Carabinieri were withdrawn from Naples for temporary duty at Avellino to enforce the olive oil amassing and the explosion at Torre Annunziata required the services of every available man even to detriment of other essential duties. The Provost Marshal, P.B.S. has been conducting large scale raids and his requests for assistance by Carabinieri have always been met. This week, however, arrangements made for the supply of 50 men to conduct a raid had to be cancelled as other commitments made it impossible to find that number.

3. It is therefore brought to your attention that approximately 180 Carabinieri are employed with Military Police in the Naples Port Area. They have been there since 1943 and it is believed that most of them are on guard-duty and this is not the function of that Force.

428

4. It is appreciated that the services of the Italian Guards in the Port are essential but it is felt that after consideration you will agree to the release of the Carabinieri to perform their proper duty particularly if you are assured that an equal or greater number of Finance Guards are provided as replacements.

5. The question of Finance Guards being provided has been tentatively discussed with the Commanding Officer of the Naples Legion of this organization and, supervision and protection of Ports being one of the normal activities of Finance Guards, he is more than ready to assume the responsibility.

SUBJECT: Disposal of Captured Enemy Material in ITALY.

TO : Allied Force Headquarters.
Attn: Chief Administrative Officer.

1. Action is being taken on your CAO/214/6 of 20 Oct 45 but the Italian Government, in the person of the Prime Minister himself, has raised a point of great importance which is referred to in para 6, i.e., the guarding of the material.

2. The Prime Minister recognizes the immense value to the Italian Government of this material. He also recognizes that the police forces of the country are inadequate for the task before them and that in computing the strength of the interim army the Minister of War did not take into account the added responsibility of guarding the depots and dumps of captured enemy material. I think that the Minister acted reasonably in this.

3. As you know, in previous communications the Prime Minister has asked for an overall increase in the strength of the CC.RR from 65,000 to 75,000. It has not yet been possible for this figure to be accepted. He now does make this specific request that the strength of the CC.RR shall be increased, temporarily at any rate, by 4,000 men in order that this most valuable material can be guarded and that the responsibility of the Italian Government can be properly implemented. He proposes to effect the increase by deferring the discharge of time expired CC.RR up to the number proposed for a period of 4 - 6 months, during which time he hopes to dispose of the material.

4. I think that the Prime Minister's request is eminently reasonable. We cannot expect the Italian Government to fulfil their responsibilities in keeping law and order and in guarding this immense amount of material if we do not allow them to maintain the force which they consider necessary. In this matter I fully concur with the Prime Minister that the extra CC.RR are necessary and that unless he receives them, either law and order will suffer or the material will not be properly guarded, the economy of Italy will suffer and additional materials will be demanded from the Allies.

5. I therefore strongly recommend that without prejudice to consideration for the overall increase of the CC.RR from 65,000 to 75,000 which will be the subject of a further communication, immediate permission be granted to the Italian Government to maintain with the colours the 4,000 CC.RR requested. Only in this way can the terms of your directive be properly implemented.

Ref 224826/11 of 12 Nov 45.

1. I am in agreement with you on the necessity of guarding effectively the stores now being handed over to you but I am not authorised to discuss over question of placing or retaining under arms any personnel in excess of the 205.000 authorised for the Italian Army (including CC RR), in MMIA Directive N° 1 of 2 Nov 45.

2. Within the numbers allowed for the different arms and services you are at liberty to employ those personnel which have been handed back to your control as you think fit, consulting MMIA if you think fit should any doubtful or difficult situation arise. 42-9

3. In this case it is suggested that if you are unable to allot the necessary number of soldiers or carabinieri for this duty you may feel justified in employing (as unarmed civilians) a number of watchmen who could be supported by a few armed guards at convenient positions. This might substantially reduce the number of troops employed and might find employement for many of the demobilised personnel.

SUBJECT: Guarding of stores depots handed over by the Allies

1. As I stressed in letter 222629/II of the 17th Oct., the Italian Government, in view of the considerable value to the country of the large quantity of stores handed over by the Allies, is concerned with ensuring the safe custody of these stores by means of personnel from the Army, the CC.RR., and the Finance Guard.

2. In view of the fact that, referring to the contents of your SD/13 of the 23rd Oct., the employment of Army units on guard duty will be limited to the indispensable minimum, it becomes necessary to have a sufficient quota of CC.RR available.

3. G.H.Q., CC.RR. some time ago approached the P.S. Sub Commission to obtain authorisation to retain, surplus to the strength laid down, four thousand Carabinieri, delaying the discharge of the older ones, already replaced by ex-P.O.W.s.

4. In view of the importance of the matter and that we are dealing with retaining in the service a not very high number of Carabinieri temporarily only, i.e. until said stores have been handed over to civilian industry, I agree with the proposal of G.H.Q., CC.RR. and beg of you to kindly give your support to the retention in service, surplus to present war establishment, of the Carabinieri necessary for the duties mentioned, up to a maximum of 4,000 4203

SUBJECT : Provisional Liberty for Thieves.

TO : Ministry of Grace and Justice.

1. A report has been received from Allied Forces in which it is stated:

42-1

> "Along with the reduction of guard personnel, another factor makes the control of pilferage difficult. That factor is the ineffectual methods in which thieves are handled by civil authorities. Such culprits caught by depot guards are turned over to Military Police who in turn turn them over to Italian civilian authorities. It has been noted that frequently it has been only a matter of hours until the thieves are free. Such thieves have sometimes been apprehended a second time within a few days after their first offence. Such policies of the civil authorities (or absence of any policy) is bitterly discouraging to the depot personnel responsible for the stocks".

2. May some action be taken immediately to put a stop to the practice of granting provisional liberty to thieves.

I refer to your letter of 18 October 1945 on the subject of guards for War Material Dumps.

The need for the provision of guards on these Dumps is well understood. It is regretted however that the employment of Carabinieri cannot be authorised, nor can the present strength of Carabinieri be increased for this purpose.

The General Officer Commanding Land Forces Sub-Commission has already replied to the Ministry of War agreeing to the employment of Italian troops for guard duty, provided such employment does not cause interference to training and reorganisation. It is urged however that Territorial Commands be instructed to restrict their guard commitments to a minimum.

The President of the Council of Ministers

Rome, 18 october 1945

Dear Admirel,

as you know, the Italian Government is very much interested in obtaining surplus allied and ex-German war material. Operations for the assignment of some camps are already taking place. However, the result which the Italian Government aims at, risks to be frustrated, because of the scarcity of our police forces, and the impossibility of using even a small part of them for anything except for public order, if there is no way of assuring the protection of the camps that have been ceded.

Unfortunately a large amount of property has already been stolem, to the great damage of national economy, for the stolen material is sold on the black market, thus causing regrettable speculations to take place.

To be able to dispose (36A) of a certain number of well armed guards (34A), the High Command of the CC.RR. Corps and the War Department, in agreement with the Minister for Reconstruction, sent requests, of which we enclose a copy, to the Public Safety and Land Forces Sub-Commissions.

I take the liberty of bringing such requests to your attention, my dear Admiral, requests which cannot be reduced, for they express the requirements of the Italian Government; I feel sure that you will understand the importance and urgency of the question. At the same time, I want to ask for your kind intervention with the Supreme Allied Commander, so that the Allied Military Authorities have the guard duty carried on , at least in the larger among the camps which are being ceded to the Government, this, till the above mentioned special units are formed.

Believe me,

Truly yours,

OCT 19 RECD 388

Roma, 18 ottobre 1945

23 OTT. 1945

Caro Ammiraglio,

come Ella sa, il Governo italiano è vivamente interessato al ricevimento del materiale residuato di guerra alleato ed ex tedesco. Al riguardo sono già in corso operazioni di cessione di taluni campi. Ma il risultato che il Governo italiano si ripromette di conseguire da esse rischierebbe di andare frustrato, data la limitatezza delle nostre forze di polizia e l'impossibilità di distrarne una qualsiasi parte dagli impieghi per l'ordine pubblico, se non vi fosse modo di assicurare la custodia dei campi ceduti.

Purtroppo si lamentano già notevoli sottrazioni di beni, con danno dell'economia nazionale, poichè il materiale rubato viene immesso nel mercato nero e dà luogo a deprecabili manovre speculative.

Per poter disporre di un certo numero di guardie efficientemente armate, il Comando Generale dell'Arma dei CC.RR. ed il Ministero della Guerra, d'intesa con il Ministero della Ricostruzione, hanno rivolto le istanze, di cui si allega copia, rispettivamente alla Sottocommissione per la Pubblica Sicurezza e l'Esercito.

Mi permetto di richiamare, caro Ammiraglio, la Sua attenzione su dette richieste, che costituiscono per il Governo italiano l'espressione irriducibile delle sue esigenze, sicuro che Ella intenderà l'importanza e l'urgenza della questione. Nello stesso tempo vorrei pregarLa di spendere la Sua autorevole parola presso il Comandante in Capo Alleato affinchè, in attesa della costituzione degli speciali reparti sopra indicati, le Autorità Militari Alleate mantengano il loro servizio di guardia, almeno nei campi di più vasta dimensione che vengono ceduti al Governo italiano.

SUBJECT: Arma personnel needed for vigilance of Allied material stores which are expected to be ceded to the Italian Government.

The Ministry of the Reconstruction requests 4.000 Arma men, regularly organized, for duty service for surveillance of Allied military stores about to be handed over to the Italian Government.

This General Command would adhere to aforesaid upon the following conditions:

1)- that said personnel be considered extra in respect to organic strength arranged for the CC.RR.-65000 men (including the territory of the Trieste legion), and of 75000 men in case noted request of increase of 10000 military is granted;

2)- that the Ministry of War provides to, in full, for their accountrement, equipment and food supply as well as barrack material, transport and quarters.

These men would be chosen from those recalled and unreleased who were to be discharged, in order to withhold the fixed limit of strength established by competent body, and now wish to remain in the service.

The Subcommission is begged to grant its approval for concession of said-personnel in accordance to aforesaid conditions.

1. The importance of safeguarding material which may become available from Allied sources is fully recognised.

2. The employment of troops from such units of the Italian Army as are under control of the War Ministry in support of the CC RR and GF is justified to a certain extent, which is a matter for the Italian Government to decide.

3. It is pointed out that such employment of Italian Army personnel in large numbers is to be deprecated in view of the interference caused to training and reorganisation.

4. For this reason it is urged that Territorial Comds be instructed to restrict their guard commitments to a minimum and to secure wherever possible storage accomodation which in itself will constitute a safeguard against theft, fire or other losses.

Subject :- Guarding of Material Dumps

As is known, the Allied authorities concerned have forewarned the Italian Government that there will be ceded, on payment, large quantities of residue war material, stored in many vast dumps.

The Ministry of Reconstruction have pointed out the necessity of providing for the custody of such dumps, during the period which, of necessity, must transpire between the cession of the said dumps and the handing over of the materials to civilian industries.

Taking into account the vital interest which this matter holds regarding the national reconstruction, I would consider it advisable to employ units of the Italian Army, together with elements of the CC. RR and the Royal Finance Guard, in the guarding of the above mentioned dumps.

I should, therefore. be grateful, should the M.M.I.A. kindly authorize the temporary employment of units drawn from the Territorial Brigades at present being formed, and, in the event of the said dumps being located in garrison areas held by the Combat Groups, also the employment of these latter units.

For the present I cannot specify the size of the force which would be employed in the above duty, because the Allied authorities have not yet communicated which dumps will be ceded. However, owing to the fact that the said cession might occur suddenly, it would be necessary to have, as soon as possible authorisation for the maximum requirements which would permit an immediate provision for the above needs. Any delay would be to the depredation of the materials, therefore most harmful to the National Economy.

3. The AMG officer responsible for the detailed arrangements in connection with the provision of the guard is Major Luckman, Public Safety officer, Naples, who will work through his Carabinieri liaison officer, Major Zanchino. These officers have been instructed to contact Capt. Farquharson, Aide to the Supreme Allied Commander (Telephone - Freedom 213). It is understood that the guard will be required on or about 6th November 1945.

4. Your attention is called to the great shortage of Carabinieri for normal police duty. Accordingly it has been the policy of this Commission not to employ carabinieri for guard duty. At the present time the President of the Council has requested an increase of 10,000 in carabinieri strength owing to the shortage of men.

5. Can consideration be given to the replacement of the proposed Carabinieri guard on the Supreme Allied Commander's villa by Italian military personnel ?

3. To my knowledge Capt. PICCIONE is 'persona grata' with the population of Venice and in consequence is rather unpopular with his senior officers in the Legion.

4. I agree with Major Harris that it is desirable that he should continue his duties in the CC.RR. in Venice but I anticipate that if this is suggested to CC.RR. command you will find that they desire (on representations made to them from Legion Headquarters) to transfer him elsewhere. This I would ask you to oppose.

5. In any event I feel that orders as to his future should emanate from Rome and on receipt of such orders the necessary steps will be taken to return him to normal CC.RR. duties.

CCRR STRENGTH IN BOLZANO

Reference is made to Fifth Army report of the conduct of the Folgore Gruppo dated 22 August 1945. Therein it is recommended that

> " more civil Carabinieri be installed in Bolzano in addition to the troops required there "

The expression "civil carabinieri" is not understood. Carabinieri are part of the Italian Army and are clothed equipped and rationed as such.

If the request is for Carabinieri it must be pointed out that they are not available for guard duty. The strength of Carabinieri throughout Italy is 65.000 and the personnel are distributed in accordance with the Order of Battle approved by AFHQ. The strength of the Legion of Bolzano is 34 Officers 2.034 ORS, Total 2068. Any increase in this authorized strength could only be arranged as a result of the corresponding decrease in other areas. The Public Safety situation in Italy is such that the CCRR force allotted to each area is barely sufficient for the duties to be performed. In particular the Italian Government have been promised that no CCRR will be transferred from Sicily, Sardinia or the South of Italy to assist the North. In the North, all CCRR

In the North, all CCRR Legions require their full strength to cope with their own local problems. The Questura of Bolzano is responsible for Public Security in his area. He controls the Force Agents of Public Security which is the Civil Police Force. The strength of this force is not

controlled by a ceiling at present, and increase can be made when necessary to deal with abnormal local conditions.

In conclusion, no increase in Carabinieri strength for Bolzano can be considered, but additional Agents of Public Security could be recruited, if the conditions of Public Safety justify such a course. No request of this nature has been received from the Regional Public Safety Officer, Venezia Region.

SUBJECT : Carabinieri on Refugee trains.

TO : The Director.
Public Safety Sub-Commission
(Attn. Col. CHAPMAN).

Confirming our conversation this morning (23 August 1945).

1. It has become increasingly necessary to have a train guard of Carabinieri on each regular authorised refugee train travelling from the north of Italy to Rome and Bari. We think that one Carabinieri N.C.O. and five Carabinieri would be a minimum requirement.

2. The Carabinieri would be responsible for discipline on the journey such discipline to include the keeping of order at Food Halts. They would also attend to and give a decision on any complaints brought to their notice on the journey so far as they were able. On arrival at the terminal station (at present either Rome or Bari) they would render a verbal report of the journey to the O.C. or manager in charge Refugees at that station and would then report to Carabinieri H.Q. for accommodation, rations and return journey to starting point.

3. The Chief difficulties necessitating the train guards are :

(a) An increasingly large number of unauthorised travellers getting on the trains, who are not refugees.

(b) Refusal by travellers to carry out necessary instructions in entraining and detraining.

(c) Lack of discipline and control at Food halts at times resulting in :

(i) The women and children not getting any food at all.
(ii) Impossibility of checking documents.
(iii) Scramble for food by unauthorised travellers.
(iv) Disturbances, resulting in one known case in two men stabbing each other.

4. Attached is a schedule (marked A) of trains to run from north to south during the two weeks beginning monday 27 August 1945. The total of 18 trains shown for each weekly period should thereafter continue, possibly till the end of September.

Complying with your Sub-Commission request, a liaison officer has been designed for Bari Area and Brindisi Sub-Area.

No officer has been designed for Salerno Sub-Area as the territory formerly belonging to the 94^ English Sub-Area has been transferred to Naples Area jurisdiction with effect from 1st inst.

The officers still on duty at Salerno, namely the 501^ P.M. Company and the 66 S.A.B. address themselves to Cap. DEL PORTO, Commander of the local External Company.

The a/m co-operation was authorised by Naples Area Command.

SUBJECT : CC.MI Liaison Officers

TO : Commanding General CC.MI

8A

1. Reference our letter of even number dated 22 June 1945.

2. Information has now been received from the Deputy Provost Marshal that owing to a change in administrative organization a liaison officer is not now required at Foggia.

3. It is specially asked that an officer be appointed for Salerno, instead of relying on the services of Major Zanolino who is temporarily stationed at Naples.

4. The request is thus for 3 liaison officers. They would be stationed at BARI, Brindisi and Salerno.

2. Supplementing this memorandum, we wish to say that we have done everything possible to remedy losses due to pilferage not only at the warehouses, but at the different ports under our supervision without obtaining any noticeable results. We believe this matter is very serious and additional personnel as suggested by the Italian Ministry of Treasury should be allocated for this service.

MEMORANDUM FOR A.C. FROM MINISTRY OF THE TREASURY

The distribution of food stuffs imported by the Allies has since the 1st of September 1944 passed to the Italian Government, and is effected by the Federazione dei Consorzi Agrari, who organizes the distribution of such food stuffs on the market for consumption.

In the POST [redacted] the Federazione dei Consorzi Agrari has seen to the security of the warehouses by means of Allied Troops, Carabinieri, or Guardie di Finanza.

Following the withdrawal of the armed troops from this service, the Federazione dei Consorzi Agrari has tried to replace them with disabled ex service men, however they are not suitable and not in suffivient number to fulfil the job.

Though the local Commands ofthe Carabinieri and the Guardie di Finanza have been repeatedly asked to give their assistance, they have always answered that, due to a shortage of personnel they are not in a position to continue this service.

As a consequence of what has been mentioned above, the pilferage and plundering of warehouses etc. has grown considerably and is causing great trouble for the rationing system, and considerable loss to the State. 4178

The Ministry of the Treasury is greatly preoccupied by this state of affairs which appears to be general in warehouses, or during the transport by road or rail, and has therefore in agreement with the [redacted] appealed to the Comandi Generali (HQ.)

As a consequence of what has been mentioned above, the pilferage and plundering of warehouses etc. has grown considerably and is causing great trouble for the rationing system, and considerable loss to the State. 4175

The Ministry of the Treasury is greatly preoccupied by this state of affaires which appears to be general in warehouses, or during the transport by road or rail, and has therefore in agreement with the High Commission for Food, appealed to the Comandi Generali (HQ.) of the Carabinieri and the Guardie di Finanza, callingtheir attention to the situation and requesting that they should provide an adequate number of guards to be detailed exclusively for this service.

The above mentionedCommands have offered some suggestions which however do not seem to solve the immediate problem.

Declassified E.O. 12356 Section 3.3/NND No. 785016

In order to put an end to this state of affairs, which as has already been said, is a great menace to the welfare of theState and the civil population, we are requesting that the Finance Sub-Commission should put pressure on M.M.I.A. (Major Bauman) for the purpose of obtaining the release of 1000 men (soldiers or guards) to be put at the disposal of the Italian Ministry of War for the Carabinieri Corps who together with the men it already has could easily accomplish this task.

The following plan indicates the warehouses to be guarded and the number of men required for each one.

Leghorn	60
Naples - Warehouses	50
" - Port and Escort from the Port	150
Bari - Warehouses	30

1). Reference to this morning's conversations.

2). As stated, 47 railroad trucks have arrived at the station of Roma - Tuscolana, loaded with salvage tires and other rubber materials sent to our firm in connection with the new job of sorting, repairing and distributing to civilians through the Italian Government.

3). As the unloading of the said rail trucks will require some few days, we have asked you to provide for a military guard at the station, as we could not take the responsibility for the material, until it is safely stored at our plant.

4). We have been addressed by you to Public Safety Sub-Commission, who have given us verbal assurance that a proper guard of Carabinieri will be sent, according to our request.

5). We trust that this will immediately be done, as we have already started to unload.

Reference your 732/2 dated 8 June 1945. 1A

1. This matter has been discussed with the Regional Public Safety officer Naples and the attached copy letter from the Deputy Provost Marshal indicates the reasons for the application for Liaison officers.

2. It can be seen that 3 officers only are required. They would be at Bari, Brindisi and Foggia. Major Sanchino stationed at Naples could attend to the problems arising in Palermo.

3. In the absence of A.M.G. Police officers in the above named, liaison with the local Military Police Headquarters is made more difficult. It is now understood by the Provost Marshal that English speaking CC.RR officers are not available. He would be pleased to deal with Italian speaking officers who could work through an interpreter.

4. The terms of the letter from the Deputy Provost Marshal indicate a willingness to cooperate fully with Italian civil Police agencies in the problems of Public Safety, and it is considered that the appointment of these 3 officers would be to the mutual advantage of both sides.

1. The delay in answering your letter No. Pro 21 dated 22 Mar 45 relative to the proposed appointment of CC.RR. Liaison Officers is regretted, but the entire CC.RR. establishment in the South of Italy has been 'scoured' to locate English speaking Officers - unfortunately, these efforts have met with no success.

2. CC.RR. Officers speaking only Italian could be appointed, but this would not seem to solve the problem. The only English speaking Officer is one Major Zanchino who at the present time is attached to and operating from this HQ. As a Liaison Officer he is at your disposal and at the disposal of any of your Officers and it obtainable at Room No. 10, Mezzanine Floor, Provincial Building, Naples, telephone No. Naples 53335 or 53296.

1. At a recent conference held by me and attended by APMs/DAPMs in this District, it was unanimously agreed that the services of an English speaking liaison officer of the CC.RR in Area/Sub-Areas would be invaluable in the absence of an officer of Allied Commission. This liaison officer would be attached to and have his office in very close proximity to the APM/DAPM Area/Sub-Area.

2. It is realised that there is a scarcity of English speaking Civil Police officers, but it would be appreciated if special consideration could be given to this request, as it would greatly facilitate dealings with the CC.RR., and would undoubtadly be in the interests of efficiency.

SUBJECT : Police employed on Guard Duties.

TO : Regional Commissioner I. IV. V. VI. VIII, IX. Liguria Piemonte, XI. XII Southern HQAOs Fifth And Eighth Armies.

1. The strength of the police, particularly the Royal Carabinieri is dangerously low. Considerable numbers of Carabinieri are being taken from presently liberated Italy to police the north of Italy where it is expected, the enemy will withdraw or disband the police. Orders have already been given for 4000 CC.RR to move from the south to forward areas, and it is possible that more will be needed in the near future.

2. In order to make the best use of trained policemen, Carabinieri, Finance Guards, and Agents of public security will not be used in the future for guard duties or any kind of work other than regular police duty. Applications from Allied Military units for Italian Police to perform extraneous duties will be refused.

3. As regards Italian Police already employed at the request of Allied Force on work other than normal police duty, notice in to be given that they will be withdrawn at the expiration of 14 days. This will allow the military commander employing the police to obtain military guards if he wishes.

4. The decision as to whether or not Italian Police are being employed on essential police duties will rest with the Regional Commissioner. In the case of police employed by Italian agencies in Italian Government territory, Regional Commissioners will limit themselves to advising the competent police authority.
