Rec. Aug. 4th 1944
Deliv. Aug. 5th

Document: Circular Letter
Date : July 11th, 1944.
From : Marshal of Italy Chief of Gen. Staff Giovanni Messe.
To : Army, Marine, Air Force Commanders (Riserva to personale)

With his letter of the 6th inst., H.E. the President of the Cabinet Council has confirmed the task I had already been entrusted with to promote inquiries on the behaviour of the component of the Italian forces, authorizing me to extend them also to the area which is being gradually liberated, and to apply them not only to Command and Commanders at the conclusion of the armistice, but also to all officers and non-commissioned career officers and especially to those having collaborated with republicans and Germans.

After hearing the Ministers interested therein, I have disposed that the inquiries should be carried on on the following lines:

I) The work of ascertainment is to be divided into two quite distinct parts;

1) Continuation of the inquiries upon the behaviour of officers who were staying in the liberated area of Italy before May 11th, beginning day of the present stage of operations, or that have come to this area through the lines or from oversea within this date: the circular 3039 remains in force. This work of purification must be thoroughly and speedily carried out.

2) Examination of the behaviour:
- of the officers in S.I.M.
- of the officers called back from leave and belonging to this class, who were in activis service on Sept. 8th;
- of the complement officers still in service.
- of the career non-commissioned officers;

who have been already liberated or will be liberated from the German occupation after May 11th.

The examination in question must drew into light the personality of each one from a technical, political and moral point of view and ascertain:

a) the behaviour at the conclusion of the armistice and in the following days with regard to the German attack

b) the behaviour in the following period, namely from the constitution of the republican government until the day when the residence or service locality was liberated.

II) The inquiries as per comma a) shall begin with the officers of highest rank, as their responsibility with regard to the behaviour held by the different departments or offices after the German attack, might in several cases cover or attenuate that of their dependants. The behaviour in the following period as per comma b) is investing the responsibility of every single person; there will have therefore to be clearly ascertained for every officer and non-commissioned officer;

a) if he has taken active part against German and Fascists;

b) if he did not submit to [illegible]

c) if he has collaborated with German or fascists having given or not oath to the Republic;

d) if he has taken oath to the Republic;

e) if he has cashed money, without doing service, from republican fascist authorities or from German;

Special attention is to be given to the examination

of those declarir to have made a double play as in general this attitude is characteristic of all those who wanted to be in safety whatever turn the events might have taken.

A favourable although very careful judgment may be taken with regard to those who have adhered to the Republic or worked under the nazi-fascists in order to help the patriots or serve the cause of liberty, provided they can prove to have been authorized by the Committee of National Liberation or by the military centers depending from the Head Command.

A favorable judgement may be given also with regard to sanitary personnel who continued to work in the territorial hospitals, under the compulsion of service agencies.

III. - Subdivision in categories:

The examination in question is not made on the purpose of classifying the personnel according to their merits but aims chiefly at detecting and punishing those who have been guilty.

This examination will have therefore to divide officers and non-commissioned officers in the following categories;

1) 1st category: those who at the armistice and in the following days until the dissolvement of the units have complied with duties deriving from the contingent situation and with the laws of military honour, and in the following period have actively cooperated against German and fascistsy.

2) 2nd category: those whose behaviour, considered from a threefold point of view: technical, political and moral, is not liable to any remark, from the armistice until the dissolvement of the units, and that during the period following the German-republican domination, have not submitted to any order from German-fascist.

3) category:

a) Those who at the time of the armistice and immediately afterwards, until the dissolvement of their units, have failed to the laws of military honour.

b) those under these circumstances have acted against the duties deriving from the contingent situation.

c) those who in the successive periods having or not adhered to the fascist republican, have in any way cooperated with the Germans or fascists.

d) those who have taken an oath to the fascist republic;

e) those who have received money, but without doing any service, from fascist or German authorities;

taken .

A favourable although very careful judgment may be taken with regard to those who have adhered to the Republic or worked under the neo-fascists in order to help the patriots or serve the cause of liberty, provided they can prove to have been authorised by the Committee of National Liberation or by the military centers depending from the Head Command.

A favorable judgement may be given also with regard to sanitary personnel who continued to work in the territorial hospitals, under the compulsion of service agencies.

III. - Subdivision in categories;

The examination in question is not made on the purpose of classifying the personnel according to their merits but aims chiefly at detecting and punishing those who have been guilty.

This examination will have therefore to divide officers and non-commissioned officers in the following categories;

1) 1st category: those who at the armistice and in the following days until the dissolvement of the units have complied with duties deriving from the contingent situation and with the laws of military honour, and in the following period have actively cooperated against Germen and fascists.

2) "nd category: those whose behaviour, considered from a threefold point of view: technical, political and moral, is not liable to any remark, from the armistice until the dissolvement of the units, and that during the period following the German-republican domination, have not submitted to any order from German-fascist.

d) those who have taken an oath to the fascist republic;

e) those who have received money, but without doing any service, from fascist or German authorities;

4) 4th category: those who through lack of evidence are in a not weel defined situation which is later on to be made clear through next evidence.

IV. - Modalities for the proceedings of as' rtainmed

The behaviour of rank officers must be examined during the periods namely before and after the dissolement of the units; it is therefore necessary that all officers be examined according to C.U. groupe or to offices(ministry ,staffs, stc.) s that no one may be judged if the enquiry upon the direct superior has not already been made.

A more speedy proceedings may be obtained by making only the report for officers groups belonging to a same unit or office but with a not judgement for every single officer.

The reports on every officer will have to carry remarks from his durect superior; if same has already be judged and included on the 3 rd. category, his opinion will not be required any more.

Considering the dispersion of personel owing to the political and military events, a strict application of above might have as a consequences a suspensive judgement for a large number of officers.

To avoid this: 59 3

a) if the behaviour of the officer during the second period has been one of the active participation hostilities against German and fascists or of cooperation,or of double play,the person in question may be included in the according category,even of the judgement upon the first period has to remain in suspense.
Exepting particular wases for which a decision have to be taken gradually, the above will have to be supplied to:

b) Officers and high officers who did not command troups or posts of special importance will be judged without seeking the opinion of higher authorities, provided the evidence on their behavior if is not liable to any doubt,

V. Judging organs and final judgement.

a) whilst every Ministry will have to appoint a judging commission for all officers below the rank of colonel and for non commissioned officers, every staff will have to appoint one or more commission for generals up to army generals (included) and for colonels and corresponding ranks. The commission appointed by the staff wil apply their activity alto to general and colonel of the carabineers and custom-house corps, for the officers below of the rank of colonel , the respective general Commands will receive orders from the competent ministry.
The judging commission will have to exchange news, documents, and

Declassified E.O. 12356 Section 3.3/NND No. 785046

results in order to get a clearer view of the ltyation and to abtain a uniformity of judgement.

b) The final judgement on the classification in oje of the cate= gories named at III, will be expressed:
- For generals and admirals up to army generals by the Chief of general staff, after having heard the commission appointed by him.
- for all colonels, or captains (navy) from the chief of staff of the respective armed force, after having heard the opinion of the commission appointed.
- for all the officers anf for career non-commissioned officers according to directions of the competent ministry.

VI. The final judgement, as for above comma, given by the chief of general staffs will have to be comunicated to the compe= tent ministry in order to enable him:

a) to take the necessary steps every time the judgement in proposing provisions to be taken by the gobernement or that a charge be brougt to the Military Court of Kustice.
b) to inform the advancement commission and every ministerial office.
Therefore the authorities which as for paragr. V comma b will have to give their final judgement, will have to clearly state the reasons according to;which the person in question has been assigned to a certain category.

VII. By order of the President of the Cabinet Council the enquires are not to be extended for the moment,either to officers covering at the conclusion of the armistices,the post of ministers of the armed forces, or to Marshall of Italy and corresponding ranks, as the Government of Italy and corresponding ranks,want to judge themselves on such cases.
This does not exclude that said personalities may be questioned in order to throw light on the behaviour of their dependents at the conclusion of armistice.

VIII. Officers and non commissioned officers included in the 3 rd. category comma a and b will be subjected to state provisions or defered to the military Court of Justice upon the proposals of the authorities whi have to give the final judgement os par.V.
The provisions agaisnt offucers and non commissioned officers in= cluded in the 3 rd. cat. Comma c) d) will be taken by the competent ministry.

Impelling necessities of political, moral, and organic order request that the position of officer and non- commissioned officers of the armed forces may be quickly and thoroughly cleared. I am applying therefore to all interested offices in order that this may be done with the utmost speed.

SUBJECT : CC.RR Officers detained on Security Grounds.

TO : G.S.I.(b) A.A.I.

1. With reference to your letter of 27th August 1944 (ref.1402/8/GSI(b)) and later communications on this Subject, it is stated that the men who are handed over to the CC.RR. for screening by their Investigation Commission continue in the status of civilian P.W. and that reference in certain cases should be made to you before the decision of the Commission is implemented.

2. Enquiries have revealed that the Commission can deal with them as under -

(a) dismissal
(b) referring the case to the High Commissioner for Epuration
(c) a sentence of imprisonment up to 60 days.

In (a) and (b) they are completely free after the Commission makes its decision and in (c) the maximum time they are detained is two months.

3. It will thus be seen that from an Allied Security point of view the decision to hand them over to the CC.RR Commission is no great safeguard, and I feel this should be borne in mind when considering whether they can properly be transferred.

4. It might assist, however, if the existence of the CC.RR Commission be borne in mind when deciding whether a member of the CC.RR who has been arrested by the Security personnel in forward areas, should be sent to 371 Camp or not and it may save considerable time and trouble if all but the most flagrant cases be handed over to the Legion Commander of the CC.RR for their Commission to deal with.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5. I take it that internees handed over from 371 P.O.W. Camp should be kept in detention until the Commission makes its decision, implemented in the appropriate cases by reference to you. They can be detained in the CC.RR. barracks. Are persons arrested in the Army areas and handed over to the CC.RR instead of before being sent to 371 Camp also to be treated as civilian P.W. and kept in custody until the cases are decided ?

Yes.

M E M O R A N D U M

At the General HQ. there is, at the dependence of the President of the screening Commission, an inquiry-office directed by Col. DE VITA. Said office has the task to give instructions on the positions , which deserve particular consideration, of those officers, who have to be submitted to the judgement of the Commission.

The officers, as soon as the zone, in which they are, is liberated, fill in a declaration for the inquiry-Commission under a circular which foresees the many points, which they are to discuss. Besides, the Commands, which establish themselves in said zones are obliged, under another circular issued some time ago, to point out every fact, which appears on behalf of the officers found there. On behalf of these, informations, signallings or accusations may be received from different sources: ffom S.I.M, authorities, private persons, fronts of resistance etc. Every document will be diligently examined, pondered and if necessary completed.

The screening Commission judges under the statements of the officers, who are admonished not to go away from truth so to avoid serious consequences, and on the results of the procedures concluded by the inquiry-office. The Commission is acting in conformity with the criterions of the circular in force (at first that of the Supreme Command n.1235/1/i, dated 11 July and actually the other one of the War Ministry Cabinet - n.1151/U.A., dated 10 September 1944) and subdivides the officers according to the categories foreseen in the circular.It then proposes the sanctions, which vary from the complete setting free up to the provisions of the State and for the most compromised up to the denunciation to the judicial Authority.

Up to now the Commission has examined 127 officers and has proposed 44 for various provisions (n.2 denunciations to judicial Authority, n.16 to provisions of State, n.24 arrests in fortress, n.3 maximum arrests, plain and of rigourous). The Commission, in judging, inspires itself with the criterions of the luogotenenziale decree in force for the sanctions against Fascism, as applicable to the Military organisation and particularly, regards the oath, in art.17.

Besides it bears in mind, in order to value the co-operation or other actions, which the accused officer is charged with, the seriousness of the fact, the clarifications and tracings of the responsible agencies, having borne in mind for the carabinieri officers, their double duties of appartainers to the Army and to a Police Corps.

Regards the oath, it considers if, (a/m art.17) it was taken for co-action, for threats, for determined legal purpose, if after authorisation of the clandestine front etc.etc.

Declassified E.O. 12356 Section 3.3/NND No. 785016

As also fo[illegible] the complexive judgement it has observed that, foreseen in n. 11 of the circular n.1[illegible]5/1/1, dated 11 July 1944.

When the Commission recognises not having sufficient facts, it issues judgement on suspension.

Recently 45 suspensions of officers have been requested by the High Commissariato for the sanctions against Fascism and whilst it is officiously appearing, that for some the provision would be revoked, for others, it has been taken when the screening Commission had already determined an analagous provision.

The Commission is always composed of 3 members and 1 secretary.

The President is always the Division General FERRARI Alfredo, the members change according to circular of the War Ministry to the rank of Lt.Col.

The Commission in carrying out its tasks tries to hasten the judgements in order to enable the Arma to starts its services again and postpones the decisions only of those cases in which action is impossible. If new circustances should appear (up-to-now it has never occured) on an already judged officer, the procedure is re-opened.

The verdicts of the Commission are submitted to the approval of the General Commandant of the Arma and the definitive decisions are of the competence of the War Ministry. -

subj: Behaviour of officers and n.c.o. at the moment and after the armistice

H.E. the Prime Minister with paper dated 6th July inst., confirmed my commission relative the verification of the components of the FF.AA, "autherising to extend them" in the territory that becomes progressively liberated besides the Commands and Commanders at the act of the armistice, to all officers and n.C.O. of career expecially regarding those who collaborated with republicans and germans.

There fore, having heard the Minister concerned I issue here following orders according to which will have to be founded and led the relative delicate work.

I) In consequence with the way that the war and political events have turned out and of what has already been done and is in course, the work of verifications must be divided in two parts clearly seperated:

1) - The pursuit of the verification on the conduct of the officers that found themselves in liberated Italy before the IIth May (date of the beginning of the actual operating cycle) or that have streamed across the lines or across the sea within the epoch: remains in full vigour in all its modalities, the circular 3699.

It is indispensable that this work of epuration be energetically and rapidly brought to a close.

2) - Examination of behaviour :

Of the officers in S.F.E.

of the officers recalled from leave, coming from that category and being in service on the 8th of September.

Of the officers on temporary duty that should be still held in service

Of the N.C.O. of career

that have already been and will be liberated from the german occupation after the above personel the IIth of May.

The examination of the above personel must specify the character and the triple aspect, teorical political and moral of each and verify:

a) the behaviour at the moment of the Armistice and in the days immediately following, in relation to the German agression.

b) the behaviour in the following period, that is from the constitution of the republican government untill the day of the liberation of the residential locality or of service.

II) The verification on the behaviour at the time of the armistice and

1) - The pursuit of the verification on the conduct of the officers that found themselves in liberated Italy before the IIth May (date of the beginning of the actual operating cycle) or that have streamed across the lines or across the sea within the epoch: remains in full vigour in all its modalities, the circular 3639.

It is indispensable that this work of epurations be energetically and rapidly brought to a close.

2) - Examination of behaviour :

Of the officers in S.F.E.

of the officers recalled from leave, coming from that category and being in service on the 8th of September.

Of the officers on temporary duty that should be still held in service

Of the N.C.O. of career

that have already been and will be liberated from the german occupation after the above personel the IIth of May.

The examination of the above personel must specify the character and the triple aspect, tecnical political and moral of each and verify:

a) the behaviour at the moment of the Armisitcie and in the days immediately following, in relation to the German agression.

b) the behaviour in the following period, that is from the constitution of the republican government untill the day of the liberation of the residential locality or of service.

II) The verification on the behaviour at the time of the armistice and in the days immediately following, as in the previous paragreph a), which will have to be done giving the priority to the Com ands with the highest grade in as much as their responsability, in regard to the behaviour held by the reparts or various offices, in occasion of the german aggression, in many cases it may cover or attenuate that of the dependents.

The behaviour and conduct following which paragraph b) involves inetad the responsability of each one, there fore for each officer and N.C.O., it must be absolutely verified a) the conduct if he separated actively

against the germans or fascist .
b) If he evaded every injunction or order of the germans or fascist
c)If he collaborated with germans or fascists having or not,given oath to the republic
d)If he swore loyalty to the fascist republic
e)If he collected checks without giving service to republican or fascist authority.
Particular attention willhbave to be used in examining those who will declare to have dome double crossing because in general such an attitude incharacteristic of who tried to put himself in a good position,which ever way the events turned. A favourable judgement but surrounded by every possible guaranty,will be able to be pronounced however for those who gave their oath or adhered to the fascist republic or anyway any how passed in service of the nazi fascist with the aim of helping the patriots and serve the cause of liberty,always however when that they show for such acts they have been authorised previously by organisations of the resistance.
Like wise a favourable judgement will be able to be expressed for the sanitary that for exigencies securely verified of his particular task continued to give service in the territorial hospitals.

III)- Subdivision in category
The examination of the behaviour of officers and N.C.O.,who at present circular,has no aim to establish a classification of merit of the personnel itself,task which remains for the competent organs by law or by dispositions in vigour,because such a classifcation will have the task inexamination also other elements but we promise again to essentially, look,and hit those who have shown themselves not at the height of the situation or directly guilty,such an examination however will bring to the subdividing of officers and n.c.o. in the following category;
1)Ist category : those who on the armisticeday or in the days immediately following,untill the dissolving of reparts happened,they complied with their duty deriving from the contingent situation and the laws of military honour and in the following period they acted actively against the germans and the fascits.
2) Those whose behaviour examined under the triple point of view:tecnical,politicial and moral,does'nt give place to any significance for the period of the dissolving of the reparts,and in the following period of the dearman republican domination and they evaded the injunctions and orders of the germans- fascists
3) a)those who on the armistice and on the days immediately following untill the dissolving of reparts came least to the laws of military - honour.
b)those who in such circumstances acted in contrast with the duties from the contingent situation.
c)those who following period having at least sworn loyalty or adherence to the fascist republic have in whatever form collaborated with germans and fascists.
d)those who have sworn loyalty to the fascist republic
e)those who collected checks,but without giving any service s to the

Declassified E.O. 12356 Section 3.3/NND No. 785046

passed in service of the nazi fascist with the aim of [illegible]
triots and serve the cause of liberty, always however when that they
show for such acts they have been authorised previously by organisations
of the resistance.
Like wise a favourable judgement will be able to be repressed for the
senitary that for exigences securely verified of his particular task con-
tinued to give service in the territorial hospitals.

III)- Subdivision in category
The examination of the behaviour of officers and n.c.o., who at present
circular, has no aim to establish a classification of merit of the perso-
nel itself, task which remains for the competent organs by law or by
dispositions in vigour, because such a classification will have the task
inexamination also other elements but we promise again to essentially,
look, and hit those who have shown themselves not at the height of the
situation or directly guilty, such an examination however will bring to
the subdividing of officers and n.c.o. in the following category;
1) Ist category : those who on the armisticeday or in the days immediate-
ly following, until the dissolving of reparts happened, they complied
with their duty deriving from the contingent situation and the laws of
military honour and in the following period they acted actively against
the germans and the fascits.
2) Those whose behaviour examined under the triple point of view: tecni-
cal, politicial and moral, does'nt give place to any significance for the
period of the dissolving of the reparts, and in the following period of
the german republican domination and they evaded the injunctions and
orders of the germans- fascists
3) a) those who on the armistice and on the days immediately following
until the dissolving of reparts came least to the laws of military -
honour.
b) those who in such circumstances acted in contrast with the duties
from the contingent situation.
c) those who following period having at least sworn loyalty or adheren-
ce to the fascist republic have in- whatever form collaborated with germe
ans and fascists.
d) those who have sworn loyalty to the fascist republic
e) those who collected checks, but without giving any service s to the
fascist and german authorities.
4)-Those who for insufficiency of proofs or of testimony find them-
selves in a situation not very definable to clear in times following by
means of bringing new elements to testify.
IV) - Procedure for verifications
The verifications in regard to the officers higher up in grade, involves t
the examination of the behaviour in two periods : that is the one pre-
vious to the dissolving of the reparts and that following; consequently
it is necessary that all the officers are examined by blocks eg C.U.
(mobilised -territorial etc) or for offices (Ministry - Staff - etc.) in

Declassified E.O. 12356 Section 3.3/NND No. 785016

IM

order that as a rule nobody is judged if he has not been either contemporaneously or previously brought the practise relative to h his own direct superior.

For rapid work there also may be compiled relations, one only for a block of officers belonging to one same unit or office with judgement however explicit or single for each officer.

The report of each concerned will have to be, as far as possible, noted by the higher hierarchies, when however the superior who must make the note has been already judged and inscribed in the third category and had already received the comunication, it would be opportune he should not be invited to express his own opinion.

Given the dispersing of the personel in consequence of political and military events, the rigid application of what above might bring , for the absence of the superiors directed to a suspensive judgement for a great number of officers.

To attenuate such a grave inconvenience I specify:

a) If the behaviour of the officer in the second period has been of active participation with the activities against the Germans and fascists or else of collaborating with these or of doublecrossing, the person concerned may be inscribed of competence even if one must leave suspended the judgement relative to the first period.

As above except particular cases which may be decided each time.

b) for the officers even if of superior grade who did not have a commend of troops or places of particular importance to the effect of a possible active action against the Germans at the moment of the armistice (personel of the Ministry Staff, administration offices, etc) the judgement may be expressed even without research the opinion of the hierarchic authorities of the speech provided the elements in possession leave no doubt on the behaviour of those concerned.

Vo) Judging organs and definitive judgements.

a) While the single Ministries provide directly for the naming and functioning of the judging committee for the officers of all grades inferior to Colonel (or grades corresponding) and for n.c.o. every staff will provide to the naming and functioning or more judging committees for the Generals up to the Generals of the Army (included) and for the Colonels of the CC.RR. and of the Regia Guardia di Finanze; for the officers of inferior grade to Colonel the respective general Commands will receive orders from the competent Ministries.

The committees either of the same army force or of a different army force, will have to exchange news, documents and results of acts to clear situations that interest entirely personel of various army forces; and to determine uniformity of judgement.

b) the definitive judgement is incontrollable on the inscription to one of the categories contemplated from paragraph 5° will be pronounced:

for all the officers Generals - included the CC.RR. and the Regia Guardia di Finanza- and Admirals up to Army Generals included, from the general chief of staff, heard the opinion of an expressly made

, for the absence of the superiors directly [illegible]
for a great number of officers.

To attenuate such a grave inconvenience I specify:

a) If the behaviour of the officer in the second period has been of active participation with the activities against the Germans and fascists or else of collaborating with these or of doublecrossing, the person concerned may be inscribed of competence even if one must leave suspended the judgement relative to the first period.

As above except particular cases which may be decided each time.

b) For the officers even if of superior grade who did not have a command of troops or places of particular importance to the effect of a possible active action against the Germans at the moment of the armistice (personnel of the Ministry staff, administration offices, etc) the judgement may be expressed even without research the opinion of the hierarchic authorities of the epoch provided the elements in possession leave no doubt on the behaviour of those concerned.

V°) Judging organs and definitive judgements.

a) While the single Ministries provide directly for the naming and functioning of the judging committee for the officers of all grades inferior to Colonel (or grades corresponding) and for n.c.o. every staff will provide to the naming and functioning or more judging committees for the Generals up to the Generals of the Army (included) and for the Colonels of the CC.RR. and of the Regie Guardie di Finanza; for the officers of inferior grade to Colonel the respective general commands will receive orders from the competent Ministries.

The committees either of the same army force or of a different army force, will have to exchange news, documents and results of acts to clear situations that interest entirely personnel of various army forces; and to determine uniformity of judgement.

b) the definitive judgement is uncontrolable on the inscription to one of the categories contemplated from paragraph 3° will be pronounced:

for all the officers Generals - included the CC.RR. and the Regie Guardi di Finanza - and Admirals up to Army Generals included, from the general chief of staff, heard the opinion of the expressly made committees named by him for all the Colonels included the CC.RR. and the Regie Guardie di Finanza, and Captains of warships of the chief of staff of the respective army forces the opinions heard of the committees of which paragraph a) of the present paragraph.

for the officers of all the other grades and for the n.c.o. of the CC.RR. according to the dispositions that the competent Ministries issued.

VI9) The definitive judgement of which in the previous paragraph pronounced by the General Chief of Staff or by the Chief of Staff of the FF.AA. will always be comunicated to the competent Ministry so

Declassified E.O. 12356 Section 3.3/NND No. 785016

that this can :

a) proceed to the sections of its competence at the time the judgement concludes with the proposal of State measures or denouncing to the Military Tribunal;

b) keep informed the Advancement Commissions and every other ministerial office interested.

In consequence the certificates of which para V) comma B) in forming their definitive judgement will have to clearly indicate in following of what behaviour or attitude each one of the concerned has been designated to a certain category.

VII.) For order of the Prime Minister, the verifying must not be extended for now to the High Military Personalities, who at the moment of the armistice held the charge of Ministers of FF.AA. Chief and Under-Chief of General Staff- Chief of Staff and Under-Chief of Staff of the three FF.AA: nor to the Marescialli of Italy and grades corresponding because the government intends to evoke to itself such judgements.

That does not exclude that such personalities can be interpellated in order to clear the position and behaviour of officers depending on them at the moment and after the proclamation of the armistice.

VIII) The officers and N.C.O.s inscribed in the third category para a) and b) will be submitted to State measures or deferred to Military Tribunals on proposal of the authorities which are comitted the definitive judgement, determined at para V).

The measures charging officers and N.C.O.s inscribed in the third category para c) d) e) will be determined and taken by the competent ministries.

IMPELLENT NECESSITIES OF POLITICAL MORAL AND ORGANIC ORDER REQUEST THAT THE POSITION OF THE OFFICERS AND THE N.C.O.S OF THE FF.AA. BE RAPIDLY DEFINED .

I CALL THEREFORE ON ALL THE INTERESTED OFFICES SO THAT THE WORK IS PRODUCED WITH THE IMPOSED ALACRITY IN ACCORDANCE WITH THE ACTUAL DELICATE AND DIFFICULT SITUATION.

SUBJECT: Arrest of CC.RR on Security Grounds.

TO : Public Safety Sub-Commission,
Headquarters,
Allied Control Commission.

Reference ACC/14601/47/PS dated 20 September, 1944 addressed to AAI.

1. It is noted from para.2 of your letter that in cases where the Investigation Commission deals with CC.RR personnel it can, even in cases of a conviction only award a sentence of 60 days imprisonment.

It is understood that the High Commission for Epuration can award far more severe sentences but it is assumed that you consider the latter tribunal would usually be inappropriate, and that cases of CC.RR personnel are not likely to be referred to it.

2. It is considered that security will be obtained by the adoption of the following procedure.

(a) As laid down in para.6 of A.A.I. letter 1402/8/GSI(b) dated 27 Aug.44, the status of CC.RR. personnel already interned in 371 P.W. Camp will remain unchanged until release to CC.RR authorities is authorised. Since 371 P.W. Camp is now under control of A.F.H.Q. authority for release will be granted, or withheld by this Headquarters and not by GSI(b), H.Q., A.A.I.

(b) The assumption, therefore in the first part of para.5 of your above-quoted letter that internees sent from 371 P.W. Camp should be kept in detention in CC.RR barracks-if convenient - pending decision by the Commission is correct. Decisions of the Commission should be referred to this H.Q. for information.

3. (a) The policy to be adopted regarding the arrest and disposal of CC.RR personnel encountered in the future advance of the Allied Armies, is set out in the following instructions issued by H.Q., A.A.I. concerning the handling of members of the G.N.R. (i.e., M.V.S.N., P.A.I., and CC.RR):

(i) CC.RR members of the GFR will be interned if positive information is obtained indicating the probability of their endangering our security if left at liberty.

(ii) Other such members should be instructed to report to the nearest AMG Public Safety Officer, who will arrange for them to proceed to one of the CC.RR reception centres located at GROSSETO and CHIETI, where they will be screened. (N.B. A CC.RR Reception Centre has now been set up at FLORENCE also).

Any information which FSP/CIC may obtain concerning such members, and which would assist the screening officers at the reception centres in deciding how to deal with them, should be passed to the nearest Public Safety Officer.

If no Public Safety Officer is readily available, it would be of assistance to AMG if FSP/CIC would, if at all possible, arrange for such members to be despatched to the Reception Centre concerned."

(b) As an additional safeguard it is considered that you should instruct CC.RR reception stations to render weekly to this H.Q. a return of all CC.RR personnel who have passed through their hands, in order that their names be checked against records.

4. The instructions referred to in para.3a. above provide the answer to the second query in para.5 of your letter - namely that CC.RR personnel handed over to the Italian authorities instead of being sent to 371 P.W. Camp are under their control and need not be kept in custody unless they consider it necessary.

5. Your comments, in particular as to the adequacy of the instructions referred to in para.3, are invited.

NAZI FASCIST CARABINIERI COLLABORATORS

In the Carabinieri barracks in Piazza del Popolo there are many individuals who deserve punishment.

Amongst these there is the famous staff sergeant Major MEDICI Renato, on the 7th Oct 1943, whenthe Germans assaulted the Carabinieri barracks in Rome, pistol in hand he prevented the flight of many carabinieri who could thus have been saved from deportation to Germany.

Now this same MEDICI is in service in the very barracks where he acted for the Germans; he is head of the administrative office.

As if this were not sufficient, and in order not to find any opposition in his dealings, he has got hold of a good number of Republicans, employing them in all the Administrative offices.

1) Staff Sergeant Major SALANITRO Benedetto-formerly in Command of the Carabinieri group at Amatrice (Rieti), now in service at the Rome Legion. -Ardent Fascist, he denounced the sender to the Rieti National Republican Guard; because on the 21 March the petitioner disarmed the Accumoni Carabinieri as well as some republican militiemen in the same village.

2) M.C. CAPUANO Giovanni who was in command of the Accumoli (Rieti) group; he too a fascist and collaborated with the Nazi-Fascist, together with the above named Salanitro he denounced the sender to the Rieti Republican National Guard.

Active German collaborator, whilst in command of the Castelgandolfo group, he acted most zealously and was inexorable towards the population, even abusing his powers. He wore the black shirt as also the double M.

THE MINISTER OF THE ROYAL HOUSEHOLD

1318

Rome, 11 October 1944

88A

Dear Brigadier,

H.R.H. the Duke of Ancona drew the attention of H.R.H. the Lieutenant General of the Kingdom on the case of Captain Alfredo De Renzi, Carabinieri Reali, son of the late Giuseppe, who, on September 14th, was sent to a concentration camp in South Italy; his family is asking for him to be discharged.

Lt. Colonel Umberto Galloni, Carabinieri Reali, member of the National Committee of Liberation of Florence, and Marchese Filippo Gerlupi Crescenzi certify that though Captain De Renzi took his oath to the republican Government, he always worked with feelings of patriotism and solidarity with the victims of political persecution.

Considering this, and according to the instructions of H.R.H. the Lieutenant General of the Kingdom, I communicate to you the request of the family of Captain De Renzi; the decision lies with you.

I remain, my dear Brigadier,

Yours truly,

/s/ Lucifero

Illustre Brigadiere Generale,

Sua Altezza Reale il Duca di Ancona ha segnalato a Sua Altezza Reale il Luogotenente Generale del Regno il caso del Capitano dei Carabinieri Reali Alfredo De Renzi del fu Giuseppe, il quale in data 14 settembre u.s. è stato inviato in un campo di concentramento dell'Italia Meridionale e del quale i familiari invocano la liberazione.

Il Tenente Colonnello dei Carabinieri Reali Umberto Galloni, membro del Comitato di Liberazione Nazionale di Firenze e il Marchese Filippo Serlupi Crescenzi attestano che malgrado il Capitano De Renzi abbia prestato giuramento allo pseudo governo repubblicano, il suo operato è stato sempre inspirato a sentimenti di patriottismo e di solidarietà con i perseguitati politici.

In vista di questa circostanza e secondo le intenzioni di Sua Altezza Reale il Luogotenente Generale mi

2. It is noted that arrangements are being made to set up a screening centre in Milan to deal with CC.RR. of Lombardia Region, but a point arises regarding the screening prior to the occupation of Milan. Should the Region be occupied Province by Province would it not be possible for the Committee, presumably already selected by the General Commanding, to sit in a Provincial Capital, other than Milan, until such time as the latter city is in our hands?

3. In connection with the officers, who are to be screened in Rome, are any steps being taken to collect and transport them please or is this being left to Regions. In the latter case will it be necessary for an escort to accompany them?

1. The matters mention in your letter N. 120/73 of 16th September 1944 have already been taken up with the Headquarters of the Allied Command in Italy.

2. It must be borne in mind, however, that the Security personnel of the Allied Armies in forward areas are charged with the responsibility of ensuring the safety of these armies, and a certain number of CC.RR officers who have served with the Republican Army might in these circumstances quite properly be arrested.

3. I have suggested, however, that all but the most flagrant cases be handed over to the nearest Command of CC.RR to be dealt with by the Commission.

Sub. Soldiers dell'Arma interned in the Concentration camp of Afragola (Naples)

I know that in the War prisoners camp of Afragola (Naples). there are prisoners who are political internees the below-mentioned N.C.O. dell'Arma accused of collaborating with the Germans during the nazi occupation. As such a compulsory measure, adopted without the necessary caution, and distinction; besides impairing the decorum of those concerned, compromises, in a grave way the prestige of the Institution, I retain the duty to submit to the kind examination of this subcommission the opportunity to put the soldiers above mentioned at the disposition of the special Inquiry commission instituted with the general command, which will proceed to verify rapidly and with every rigour, the charges they are accused providing in consequence with comparison of those responsible

Such a solution would be more conform to the directives dictated in matters of the Allied Command of the XV gruppo Armate with the paper n. 15 A.G./8653/4 B.G.S. dated November 19, 1943.

Sono a conoscenza che nel campo prigionieri di guerra di AFRAGOLA(Napoli),si trovano detenuti - quali internati politici - i sottoindicati sottufficiali dell'Arma,accusati di collaborazione con i tedeschi durante l'occupazione nazista.

Poichè tale misura coercitiva,adottata senza le debite cautele e distinzioni,oltre a menomare il decoro degli interessati,compromette in modo grave il prestigio dell'Istituzione,ritengo doveroso sottoporre al benevolo esame di codesta Sottocommissione l'opportunità di mettere i militari predetti a disposizione dell'apposita commissione d'inchiesta,istituita presso questo comando generale,la quale procederà ad accertare sollecitamente e con ogni rigore,gli addebiti loro mossi provvedendo in conseguenza nei confronti dei responsabili.

No. 128/29 answer of the 16 inst.
Sub. Special Inquiry Commission for Officers of C.C.R.R.

The rigorous verification accomplished by the above Inquiry Commission on the behaviour of the officers of the C.C.R.R. in which mentioned in the paper above distinguished, have allowed to establish, that the same, ~~they~~ though they were induced to serve the Italian Social Republic following threats, and intimations of superiors and always with the mirage to save the Institution and to defend as organ of the police the interests of the population, they haven't however collaborated actively with the Nazi Fascist authorities towards which they have what is more done negative work or even sabotage.

Not being however emerged in charge of the officers above mentioned ~~elle~~ elements of any kind that implicates penal responsibility and having to exclude in an absolute way that the may be able to constitute a danger for the safety of the country or for the cause of the Allies, they have been proposed to the ministry of War measures of State that imports the elimination from the service.

For the Lt. Col. Bentivoglio Alessandro and ~~Maria~~ Morra Raffaele and for Captain Teseo Carlo the verifications are still in course with the Alto Commissariato aggiunto for the epuration.

For the Lt. Col. Cao Pinna Riccardo it has been referred to the Ministry of War with the proposal of not to take place in his comparisons, to measures of the kind, inas much the officer himself, for the energetic behaviour held towards the germans and Fascists and for the efficacious protection and assistance ~~[illegible]~~ offered to the population in the province

of Littoria, without ever leaving off his carabiniere uniform, he knew how to earn in that environment of the greatest sympathy and grateful esteem of all the social classes.

No sanctions we have retained to propose for the temporary Lt. Polverelli Volfango because the irreprehensible behaviour kept by the subaltern after the 8th of September 1943 and the grave consequences that such firm attitude derived to his fisical integrity, and the economical position of his family, constitutes proof of certain repentance, and honorevole amends of his Fascist past.

The Captain Sottiletti Roberto has been instead proposed for a grave disciplinary punishment, adequate to the results emerged to his charge.

For all the officers above indicated we await the definitive judgement of S.E. the War Minister.

Finally I state that for the Col. Maueri Salvatore the competent Commission with the Chief of Staff of the army have not made known yet their decisions

OGGETTO: Commissione speciale d'inchiesta per ufficiali dei CC.RR.

AL COMANDO A.C.C. - Sottocommissione P.S. -

R O M A

I rigorosi accertamenti compiuti dall'apposita Commissione d'inchiesta sul comportamento degli ufficiali dei CC.RR., di cui è cenno nel foglio sopra distinto, hanno permesso di stabilire che gli stessi, sebbene si siano indotti a servire la Repubblica Sociale Italiana in seguito a minacce e diffide di superiori e sempre col miraggio di salvare l'Istituzione e di tutelare, come organi di polizia, gli interessi delle popolazioni, non hanno tuttavia collaborato attivamente con le autorità nazi-fasciste verso le quali hanno per lo più svolto opera negativa o addirittura sabotatrice.

Non essendo pertanto emersi a carico degli ufficiali predetti elementi di sorta che implichino responsabilità penali e dovendosi escludere in modo assoluto che essi possano costituire un pericolo per la sicurezza del Paese o per la causa degli Alleati, sono stati proposti al Ministero della Guerra per provvedimenti di Stato che importano l'eliminazione dal servizio.

Per i tenenti colonnelli BENTIVOGLIO Alessandro e MORRA Raffaele e per il capitano TESEO Carlo sono anche in corso accertamenti presso l'Alto Commissariato aggiunto per l'epurazione.

-:-

Declassified E.O. 12356 Section 3.3/NND No. 785016

Per il tenente colonnello CAO PINNA Riccardo è stato riferito al Ministero della Guerra con proposta di non far luogo, nei suoi confronti, a provvedimenti di sorta, in quanto l'ufficiale stesso, per l'energico contegno tenuto verso i tedeschi e i fascisti e per l'efficace tutela ed assistenza prodigata alle popolazioni della provincia di Littoria, senza mai smettere la sua divisa di carabiniere, ha saputo guadagnarsi negli ambienti di quella sede le più larghe simpatie e la stima riconoscente di tutti i ceti sociali.

Nessuna sanzione si è ritenuto altresì di proporre per il tenente di complemento POLVERELLI Volfango, perché la condotta inequivocabile serbata dal subalterno stesso dopo l'8 settembre 1943 e le gravi conseguenze, che da tale suo fermo atteggiamento son derivate alla sua integrità fisica e alla posizione economica della sua famiglia, costituiscono prove di sicuro ravvedimento e onorevole ammenda del suo passato fascista.

Il capitano SOTTILETTI Roberto è stato invece soltanto proposto per una grave punizione disciplinare, adeguatamente all'esito delle risultanze emerse a suo carico.

Per tutti gli ufficiali sopra indicati si attende il giudizio definitivo di S.E. il Ministro della Guerra.

Infine faccio presente che per il colonnello MAUCERI Salvatore la competente Commissione presso lo Stato Maggiore del Regio Esercito non ha ancora fatto conoscere le sue decisioni.-

Subject : Arrest of personnel of CC.RR. Arma.

To : Colonel A.E. YOUNG
A.C.C. Public Safety Sub-Commission - Rome.

It continually occurs, that CC.RR. officers and N.C.O.s, only for having served the Italian Socialist Republic or for other vague accusations, are arrested by Police Forces in the train of operating Allied Units and are then aggregated to penal establishments or interned in concentration camps, without, however, that this General HQ. have the possibility, as it occured in many cases, to timely know the lot of said personnel.

As it is known to your S/C, the examination concerning the conduct of the dependent military of the Arma, on the act and after the proclamation of armistice, is to be passed to the competent inquiry Commission, which after severe screening, charges every one with provisions adeguated to the results.

Since a/m procedure carried out by the Allied Police, prescinds from the present particular situation, which for obvious reasons advises to safeguard the prestige of the Arma, I should be grateful to V.E. if, in conformity with the provisions issued by the Allied Command of the XV Army Group with letter n. 15 A.C./8653/4 B.G.S., dated 19 November 1943 - copy of which is attached - would kindly arrange, so that the dependent units would not directly proceed to the arrest of the Arma personnel, and that in those occurrences, in which they cannot act otherwise, they would deliver immediately the arrested soldiers to the nearest Command of CC.RR. pending further actions.

The Italian Authorities have requested, to arrest, when necessary, any soldier belonging to the CC.RR. Arma, the request should be forwarded - through Amgot - to the competent Italian Superior Authorities. These Authorities will immediately discharge him from duty and put him at our disposal.

In case of urgency, it has been asked, that the arrest (or the removal from duty) be carried out with discretion, and that any form of publicity be avoided, as this would only prejudice the prestige of the force to the eyes of the public.

Since it is our expressed intention of maintaining the CC.RR. Arma, every effort must be made, so as to avoid compromising its position and so diminishing its efficiency for the Allied Forces.

Cases so urgent as to require immediate removal of the offcial, will be very rare and it is deemed that it will almost always be possible to act in conformity with the requests of Italian Authorities.

This - naturally - does not in any way prejudice our right of acting - immediately - if necessary.

Would you please - therefore - make sure that the a/m provision, will be communicated to the troops under your orders.

1. At present screening of CC.RR. from forward areas takes place at Grosseto and Chieti.

2. As the armies move forward it is thought that time and transport is wasted in transporting CC.RR. back to these centres.

3. Accordingly it is suggested that screening should be carried out in the above mentioned towns until those CC.RR. awaiting examination there have been dealt with.

4. At the present time, steps should be taken to set up at once a commission for screening in Florence and Leghorn for the CC.RR. of these two Region areas.

An Officer of the local CC.RR called on me today. He produced a letter purporting to come from H.Q. A.M.G. Public Safety Region IV, dated 10 Aug:/44 no reference number, addressed C.I.C. P.O.W. Camp. It was a request for the release of Mar Capo. Lo Vio Vincenzo to the CC.RR.

The CC.RR Officer informed me that he had instructions to take above mentioned internee to Rome, but had no pass for the driver of his car and asked me to issue one, which I refused to do. I also informed him that Lo Vio Vincenzo could only be released on receipt of proper written instructions from the approiate authority.

I consider the method of approach most irregular and would be glad if you would inform Public Safety Region IV as to the correct procedure.

In accordance with para 3 of AAI letter 1403/8/GSI(b) dated 27th: Aug/44 I will continue to hold Lo Voi Vincenzo and other internees concerned until such time as I receive direct instructions from you as to their disposal.

1. With regard to those CC.RR officers reported to be held in REGINA COELI Jail, ROME, enquiries are being made with G-2 RAAC concerning the status of these cases and your suggestion for their disposal has been put forward. We will keep you informed of future developments in this matter.

2. It is, however, pointed out that only part of the REGINA COELI Jail is used for the custody of suspects arrested by Allied security agencies. It is understood that the other half of the jail houses officials detained under the Italian Epuration Laws and it is possible that the officers in question may be found among these.

1. With regard to those CC.RR officers reported to be held in REGINA COELI Jail, ROME, enquiries are being made with G-2 RAAC concerning the status of these cases and your suggestion for their disposal has been put forward. We will keep you informed of future developments in this matter.

2. It is, however, pointed out that only part of the REGINA COELI Jail is used for the custody of suspects arrested by Allied security agencies. It is understood that the other half of the jail houses officials detained under the Italian Epuration Laws and it is possible that the officers in question may be found among these.

Following the liberation of Rome by order of the Allied authorities, the below-mentioned cc.rr. officers were arrested and sent to the Regina Coeli prison, as deemed responsible for having sworn fedelity to the pseudo-republican government and for having collaborated with the Germans during the period of the nazi-fascist occupation of the capital:

1. Col. in s.p.e.(permanent service) MAUCERI Salvatore (not brought to the prison being sick at home).

Since said coercive measures, adopted without the necessary cautiousness, besides lessening the personal decorum of theinterested persons, was harming in a serious manner the prestige of the institution, I turned to the Allied police authorities obtaining that the said officers return to the Arma to be submitted to the judgement of a special commission of inquiry.

Said commission has appraised with just severity the charges made by the above mentioned officers, on behalf of which, not having met with elements of crime, it has suggested disciplinary and state provisions.

Meanwhile said officers are kept under arrest in the barracks.

Re the ~~matter~~ above, I beg this commission to inform me if the Allied Commands which made the arrest, have specific accusations to make on the above officers and if they may be set free for the execution of the a/m provisions.

Successivamente alla liberazione di Roma, per ordine delle Autorità Alleate, vennero tratti in arresto ed associati alle carceri di Regina Coeli i sottonotati ufficiali dei Carabinieri Reali, siccome ritenuti responsabili di aver prestato giuramento di fedeltà allo pseudogoverno repubblicano e di aver collaborato coi tedeschi durante il periodo di occupazione nazi-fascista della Capitale:

SUBJECT: CC.RR.s interned in the 37I P.O.W. Camp at Padula.

TO : P.S. Sub-Commission, A.C.C.

I am informed that in the P.O.W. no.37I Camp at Padula (Salerno) the below listed cc.rr. officers, non-commissioned officers and carabinieri are prisoners, as political internees, accused of collaborating with the Germans during the nazist occupation.

Since such coercive measures, adopted without the necessary cautions and distinctions, besides reducing the decorum of those interested, seriously compromise the prestige of the institution, I retain it my duty to submit to the benevolent examination of this Sub-Commission the opportunity of placing the said militaries at the disposition of the competent commission of inquiry, instituted in this general command, which will proceed in solicitly ascertaining and with every severity with their charges, consequently providing in confronting th ose responsible.

Such solution would also be more in conformity with the directives dictated on the subject by the Allied Command of the XVth Army group - sheet n.I5 A.G./8653/4 B.G.S. dated I9th November I943, of which a copy is enclosed.

The Italian authorities have asked that if it should be eventually necessary to arrest one belonging to the CC.RR. Arma, the request should be made through the A.M.G.O.T. to the superior competent Italian authorities. The latter shall remove him immediately from hes post, placing him at our disposition.

If the case be very urgent, it has been requested that the arrest (or removal from post, be effected with discretion and that any form of publicity shoul be avoided because this cannot but prejudice the prestige of the force, to the eyes of the public.

As it is our expressed intention to maintain the cc.rr. Arma, every effort must be made to avoid compromising its position, in such a way, thus rendering it of less efficiency to the Allied forces.

Such urgent cases, which require the immediate removal of the officer, will be very rare and it is thought that action may almost always be taken as by request of the Italian authorities.

this, naturally, does not in any way prejudice our right of immediate action - if necessary.

Will you please be kind enough to assure me that the above directives are communicated to the troops dependent on you.

The Italian authorities have asked that if it should be eventually necessary to arrest one belonging to the CC.RR. Arma, the request should be made through the A.M.G.O.T. to the superior competent Italian authorities. The latter shall remove him immediately from his post, placing him at our disposition.

If the case be very urgent, it has been requested that the arrest (or removal from post) be effected with discretion and that any form of publicity shoul be avoided because this cannot but prejudice the prestige of the force, to the eyes of the public.

As it is our expressed intention to maintain the cc.rr. Arma, every effort must be made to avoid compromising its position, in such a way, thus rendering it of less efficiency to the Allied forces.

Such urgent cases, which require the immediate removal of the officer, will be very rare and it is thought that action may almost always be taken as by request of the Italian authorities.

this, naturally, does not in any way prejudice our right of immediate action - if necessary.

Will you please be kind enough to assure me that the above directives are communicated to the troops dependent on you.

AL COMANDO V ARMATA
AL COMANDO VIII ARMATA

OGGETTO: Disciplina- Carabinieri.

^^^^^^^^^^

Le autorità italiane hanno chiesto che nella eventualità sia necessario arrestare un appartenente all'Arma dei Carabinieri, la richiesta sia fatta - tramite l'Amgot- alle competenti superiori autorità italiane. Queste ultime lo rimoveranno dal posto immediatamente e lo metteranno a nostra disposizione.

Se il caso fosse urgentissimo, è stato chiesto che l'arresto (o la rimozione dal posto) sia effettuato con discrezione e che ogni forma di pubblicità sia evitata, perchè ciò non può che pregiudicare il prestigio della forza agli occhi del pubblico.

Poichè è nostro espresso intendimento di mantenere l'Arma dei carabinieri, ogni sforzo deve essere fatto per evitare di compromettere la sua posizione, in tal modo, e renderla così di minor rendimento per le Forze Alleate.

Casi tanto urgenti che richiedano l'immediata rimozione del funzionario saranno rarissimi e si ritiene che si possa quasi sempre agire come richiesto dalle autorità italiane.

Ciò - naturalmente - non pregiudica in alcun modo il nostro diritto di agire - immediatamente, se necessario.

Vogliate - perciò - cortesemente assicurare che la suddetta direttiva sia comunicata alle truppe da Voi dipendenti.

SUBJECT : Defascistization of Italian Officials.

TO : Commanding General CC.RR. & GG.FF.

In accordance with the policy of Allied Military Government renewed steps are being taken to ensure that Italians who hold official positions in A.M.G. areas are suitable to do so and are not those who were previously ardent members or supporters of the Fascist Party.

This principle of elimination of undesireble officers will apply equally to the CC.RR. but in this instance in order to obviate the necessity of investigating CC.RR. officers in their own areas, this responsibility will be entrusted to you as Commanding General.

Will you therefore take such measures as are necessary to ensure that all CC.RR. officers under your command in A.M.G. territory are investigated.

Please report in writing when this has been done to your satisfaction, giving me full particulars of any officers who you consider should be dismissed.
