AL COMANDO GENERALE DELL'ARMA DEI CARABINIERI

- Ufficio Ordinamento -

R O M A

L'arruolamento nell'Arma dei CC.RR. é volontario e di due specie:

- a carabiniere effettivo;
- a carabiniere ausiliario.

A carabinieri effettivi - con ferma di anni tre - possono concorrere i giovani - celibi o vedovi senza prole - che abbiano compiuto il 17° e non superato il 26° anno di età.

A carabinieri ausiliari - con vincolo di servizio di 18 mesi - possono concorrere i giovani che non siano stati già incorporati nelle Forze Armate.

Gli aspiranti all'arruolamento devono riunire i prescritti requisiti morali e fisici (età m.I, 65, perimetro toracico m.O, 85) ed appartenere a famiglie insensurate.

Essi debbono possedere, inoltre, come titolo minimo di studio il certificato di proscioglimento delle scuole elementari.

I giovani, dopo espletata la pratica di arruolamento a cura dei comandi territoriali dell'Arma, vengono inviati alla legione allievi e quivi sottoposti a visita medica.

Per l'arma a cavallo vengono scelti, di volta in volta, a seconda delle esigenze di organico, gli elementi più fisicamente idonei (di statura non inferiore a m.I, 70) e, possibilmente, che abbiano già acquisito l'agilità con i quadrupedi.

Per i giovani riconosciuti idonei vengono compiute le seguenti operazioni:

- a) compilazione della scheda personale, ai fini matricolari e amministrativi;
- b) ammissione al vitto;

./.

- 2
- c) compilazione base di passaggio ai reparti d'istruzione;
d) vestizione e vaccinazioni.

In tempo di guerra ed in periodi di particolari contingenze, come quello attuale, i corsi sono della durata di mesi sei, per l'arma a piedi, e di mesi nove per l'arma a cavallo.

In tempi normali, la loro durata é di mesi nove, per entrambe le specialità.

Nel primo mese di permanenza alla legione, gli allievi vengono intrattenuti, a cura degli istruttori e degli stessi comandanti di reparto, su argomenti di carattere vario, che valgono essenzialmente ad orientarli e prepararli alla vita ed ai servizi di caserma.

Subito dopo hanno inizio le istruzioni, militari e professionali.

L'istruzione militare, detta anche formale, viene svolta al mattino, seguendo le norme previste dal regolamento sull'addestramento della fanteria e, per l'arma a cavallo, della cavalleria.

Gli allievi, riuniti in squadre, attendono dapprima alle istruzioni senz'armi. Perfezionate queste, essi vengono armati (di moschetto e pistola) ed inquadrati nei plotoni, per passare successivamente alle istruzioni in ordine chiuso sotto la direzione dei rispettivi comandanti.

Seguono le istruzioni di compagnia e di battaglione, quest'ultime svolte a cura degli ufficiali superiori.

Saltuariamente vengono compiute anche esercitazioni di marcia e di tiro al bersaglio. Dopo le prime due lezioni di tiro, gli allievi concorrono a turno, con i compagni di classe più anziana, nei servizi di guardia ed eventualmente in quelli di ordine pubblico.

Di pari passo con l'istruzione formale procede quella teorica sulle armi. Particolare importanza viene annessa all'istruzione sulle armi automatiche (mitragliatrice e fucile mitragliatore) che i reparti hanno in dotazione.

In giorni alterni (tre volte alla settimana) gli allievi eseguono anche, al mattino, esercizi ginnici - individuali e collettivi - e svolgono altresì corsi di box, di lotta, automobilistici, motociclistici, sulle autoblindate.

teraria e professionale, mediante esercizi di scritturazione e conferenze sul servizio d'istituto, nonché sulle leggi e regolamenti vari, militari e generali dell'Arma.

Nulla viene trascurato affinché gli allievi migliorino la propria cultura ed apprendano quanto è necessario per l'esecuzione pratica del servizio presso le stazioni territoriali dell'Arma.

Per lo svolgimento delle istruzioni in genere, gli ufficiali ed i sottufficiali ad esse preposti si attengono alle norme seguenti:

- curare in massimo grado le istruzioni militari individuali, essendo queste la base dell'addestramento dei reparti;
- nelle istruzioni professionali del carabiniere, fare il più largo uso possibile dell'esemplificazione.

Il massimo interessamento viene spiegato per l'educazione morale degli allievi e, soprattutto, per la formazione del loro carattere.

Al riguardo sono state impartite le seguenti direttive:

- a) la funzione di educatore è essenzialmente riservata all'ufficiale ed al comandante di reparto in ispecie;
- b) l'educatore deve trarre motivo da ogni occasione favorevole per influire beneficamente sulla mente e sul cuore dei giovani allievi, onde plasmare gli animi al sentimento del dovere e della disciplina.

Si allegano: 1 copia del programma delle istruzioni;

1 copia delle istruzioni particolari impartite ai comandanti di reparto. =

To : Ministry of War (Reply to letter n. 12007/R 24/3/45)

The strength of the CC.RR. Force has almost reached the fixed number of 55.000 men.

The few vacancies existing in regard to the authorised establishment and those which should occur with the elimination of the military no longer fit for the CC.RR. Corps, will be filled in:

- with new enrollments arranged from civilians (on the 5th May, 1945, there will arrive to the Cadet Legion 600 young men with preference of those of the 1925 class);

- with those recovered in the newly occupied territories;  
with those returned from PW camps.

For the reasons stated this Gen.Hq. will avail itself of the authority granted to it to draw the 4% of the strength among those called-up, who arrive at the districts (Sardinia excluded) only in case the authorised establishment of the CC.RR. Force will be increased to 65.000 men, according to proposal made..

SUBJECT: Enrollment of 1924-25 Classes in the  
Carabinieri Arm of Service

1. In the past the Royal Carabinieri drew from the recruits, - at the time the classes subject to conscription were called up - those who volunteered and were found fit for enrollment in that Arm of Service.

Such source of recruiting has always proven very useful and important since it made possible the selection of young personnel serving on a voluntary basis and possessing the necessary physical and moral qualifications, who could be used to fill shortages or make replacements among older elements in the Corps.

2. The enrollment procedure followed as indicated below:-

(a) Men, who applied for enrollment in the Carabinieri Corps as volunteers, were released provisionally, for at least one month, during which time they remained at the disposal of the Corps. During that period, Legion HQ's in the areas concerned, checked up urgently on the applicant's moral requisites.

(b) Those found unfit were reported to the districts, and were summoned by the latter for dispatch to the units of the Italian Army to which they had been assigned at the time of the Call-up.

(c) Those who were found to be fit were permanently enrolled in the Royal Carabinieri Corps.

3. The present strength situation of the Carabinieri is as follows:-

|                     |        |
|---------------------|--------|
| Authorized strength | 55,000 |
| Effective "         | 53,528 |

|------------------------------------------------|-------|
| Deficiency with respect to authorized strength | 1,472 |
|------------------------------------------------|-------|

728-

There are, moreover, serving as effective or auxiliary Carabinieri many recalled Army men of early classes, who do not fully possess the required physical and moral qualifications and who should, therefore, be gradually replaced with better elements (about 15,000).

Consequently, the need to draw upon the classes subject to conscription, is now felt to a greater extent.

The duties of the Royal Carabinieri are already exacting and numerous at this time, but will become even more so after the liberation of the occupied territory.

It would therefore be absolutely necessary to ensure the fullest efficiency of the Corps through the addition of young volunteers possessing the necessary moral

1. In the past the Royal Carabinieri drew from the recruits, as in the past, those who were found fit for enrollment in that Arm of Service.

Such source of recruiting has always proven very useful and important since it made possible the selection of young personnel serving on a voluntary basis and possessing the necessary physical and moral qualifications, who could be used to fill shortages or make replacements among older elements in the Corps.

During that period, Legion Hq's in the areas concerned, checked up urgently on the applicant's moral requisites.

(c) Those who were found to be fit were permanently enrolled in the Royal Carabinieri Corps.

3. The present strength situation of the Carabinieri is as follows:-

|                                                |        |

| Authorized strength                            | 55,000 |
| Effective "                                    | 53,522 |
| Deficiency with respect to authorized strength | 1,472  |

728-

There are, moreover, serving as effective or auxiliary Carabinieri many re-called Army men of early classes, who do not fully possess the required physical and moral qualifications and who should, therefore, be gradually replaced with better elements (about 15,000).

Consequently, the need to draw upon the classes subject to conscription, is now felt to a greater extent.

The duties of the Royal Carabinieri are already exacting and numerous at this time, but will become even more so after the liberation of the occupied territory.

It would therefore be absolutely necessary to ensure the fullest efficiency of the Corps, through the addition of young volunteers possessing the necessary moral requisites.

4. The 4% quota of call-ups (about 500 men) placed at the disposal of the Royal Carabinieri as reinforcements, was not sufficient to meet the needs of the Corps in full.

5. No instructions concerning the voluntary enlistment of recruits into the Royal Carabinieri Corps were issued in connection with the call-up of the 1924 (2nd Contingent\* - 1925 classes in PUGLIA, CALABRIA and SARDINIA, wherefore the Corps is losing an extremely important source of recruits, just now when the need for them is greatest.

- 2 -

It would therefore seem desirable to authorize such voluntary enlistment, as was done in the past.

6. The estimated number of young men of the 1924-25 Classes, who might volunteer for service with the Royal Carabinieri, may be placed at 200-300 at the most, for each region.

If it is not desired to lower the quota to be incorporated, fixed for each region, one might authorize the enlistment of young volunteers into the Royal Carabinieri Corps, over and above such quota, since it is estimated that the yield of the classes is in excess of such quota in all regions, in which a call-up has been ordered so far.

7. The authorized strength of the Carabinieri would not undergo any changes, because it would be kept within the established quota, through the release or return to the Italian Army of a number of recalled men of early classes, and of lower efficiency, corresponding to that of the young volunteers who enlisted in the Corps.

8. I am submitting the foregoing for your consideration in order to enable you to take proper action in the matter.

\*\*\*\*\*

Nella prima quindicina del corrente mese sono stati arruolati 302 carabinieri effettivi, 5 ausiliari con ferma di 18 mesi e 3 ausiliari con vincolo di 6 mesi dopo la pace.

Durante lo stesso periodo sono stati recuperati in territorio di nuova occupazione N.21 sottufficiali e 142 militari di truppa e sono rientrati dalla prigionia 1 ufficiale, 6 sottufficiali e 14 militari di truppa.

Nessun carabiniere aggiunto (4% dei richiamati che affluiscono ai distretti) è stato incorporato nella quindicina.

Saranno disposti nuovi arruolamenti man mano che saranno promossi carabinieri ed avviati alle legioni territoriali gli allievi che in atto frequentano i corsi.

Per contenere la forza nei limiti fissati di 55.000 uomini, sarà provveduto al congedamento di elementi anziani allorchè si venisse a superare tale cifra.

To : A.C. Public Safety Sub-Commission - Rome.

During the second fortnight of the month of February, 1945, 259 CC.RR. on permanent duty and 3 auxiliary CC.RR. for a period ending 6 months after peace, have been enrolled.

To : A.C. Public Safety Sub-Commission - Rome.

With ref. to a/m letter, we communicate that during the second fortnight of December 1944, 178 effective CC.RR. candidates, 2 auxiliary candidates with the term of 18 months and 1 candidate with the term of 6 months after the peace have been enrolled.

During the same period were recovered in the newly occupied territory 171 n.c.o.s and 474 privates and returned from P.W. 3 officers, 10 n.c.o.s and 72 privates.

No disposition has up to the present time reached this Gen.HQ. concerning the recruitment of the 2% of soldiers of the Italian Army, whilst the result of the recruitment of 4% of the soldiers called up is not yet known as their presentation to the military district Headquarters has just begun.

We add that the enrollment proceeds in a satisfactory manner and that during the 2nd fortnight of December it could not have greater increase as the training units have no more vacancies, and it is impossible to constitute other ones due to the deficiency of materials and means.

2. This Sub-Commission thoroughly appreciates the need for training CC.RR. non-commissioned officers and has done everything possible to find means of enabling 300 men to commence a course of instruction in the Central School at Florence.
3. Unfortunately there is no other building in the Army area where the 1877 CC.RR. now in the School can be accommodated. Indeed, it has only been with the greatest difficulty that the School has been retained for the CC.RR. instead of being occupied by Allied troops.
4. Even when some of the CC.RR. now waiting on reserve at the School move forward into newly occupied territory it will be necessary to fill their places with reinforcements ready for the more northern Provinces.
5. However, it has been possible to find sufficient room to allow 50 non-commissioned officers to commence a course of training at the School.

203/2-1.

TO : Public Safety Sub-Commission, A.C.

1. Reference AC/14601/61/PS dated 14th December, 1944.

2. At the outset it is recorded that on 15th December, 1944, a Colonel of CC.RR. called here with this request verbally and asked that the CC.RR. in the Scuole Centrale be transferred to Forli in Eighth Army area. Evidently, the CC.RR. are not aware of the demand in Forli and throughout both Army areas for troop accommodation.

3. It was with great difficulty that the Scuole was obtained and then only because it was required for Fifth Army CC.RR. when Fifth Army troops were evacuated which General HUME had to clear through General TATE.

4. If CC.RR. of Fifth Army, or forward area, are removed there is a grave risk that anyone other than Fifth Army personnel will be turned out and the building taken over as a rest centre.

5. There is no known building which could be used to house the men in Army area and if it is decided to remove Piemonte and Lombardia teams to billets out with Army area, the reserve, which is liable to be called on at any time, will be beyond urgent recall.

6. (a) From the Scuole, 200 CC.RR. have been loaned to Eighth Army comprised of the CC.RR. of Parma, Piacenza and Reggio teams.

(b) One hundred (100) of the Modena Group have had to be sent to IV Corps in the line for check post duties and similar demands may come in which must be met.

The above shows the necessity of having a good reserve on hand.

7. At present in the school there are :

Modena team	70
Bologna team	250
Piemonte team	790
Lombardia team	767
<u>Total:</u>	1,877

8. Due to the tactical situation part of the whole of the Bologna team may require to move and having regard to the fact that Eighth Army have no reserve to call upon in their territory it would be an unwise move to alter the status quo.

9. It is possible however to commence a school of 50, which could be added to by eligible men in the existing groups and as CC.RR. move on, the classes could be enlarged.

10. It is pointed out that if, and when, the line moves forward, the Scuole Centrale is the only suitable place to act as a feeder for the northern compartimenti.

SUBJECT : Course for CC.RR. n.c.o. cadets.

On January 15th, a course for 300 non-commissioned officers of CC.RR., will be started.

It is necessary that a portion of the Florence Central school be made available, since the school is specially equipped for the course.

As you know this building is now occupied by 1500 CC.RR. earmarked for the North; consequently it will be necessary to find billets for them elsewhere in the same town, or some other in Tuscany.

The transfer of the 1500 CC.RR has never materialized since all the buildings that could house these soldiers, have already been requisitioned by the Allies. It is felt that if you would interest yourselves, the evacuation of CC.RR of the Florence Central School could be effected.

There is additional reason, the acute lack of non commissioned officers demands that these course be started as soon as possible and in any case not later than the 15 January 44.

I am certain that the Sub-Commission will give consideration to this application, because of the urgency of the matter.

 AL COMANDO DELLA 2^a DIVISIONE CC.RR. "PODGORA" ROMA

Il 15 gennaio p.v. dovrà avere inizio un corso allievi sottufficiali dell'Arma per circa 300 aspiranti.

Si renderebbe pertanto necessario poter disporre di parte dei locali della Scuola Centrale di Firenze che, essendo stata istituita ed organizzata allo scopo, ha attrezzatura adeguata allo svolgimento del corso.

Com'è noto in atto nello stabile predetto sono stati accasermati 1500 militari dell'Arma approntati per il nord e che per conseguenza dovrebbero trovare, almeno in parte, adeguata sistemazione in altra caserma o fabbricato della città o in altro paese della Toscana affinché si possano usare gli ambienti strettamente necessari per l'alloggiamento degli allievi, lo sfruttamento delle aule ed il funzionamento del comando della Scuola.

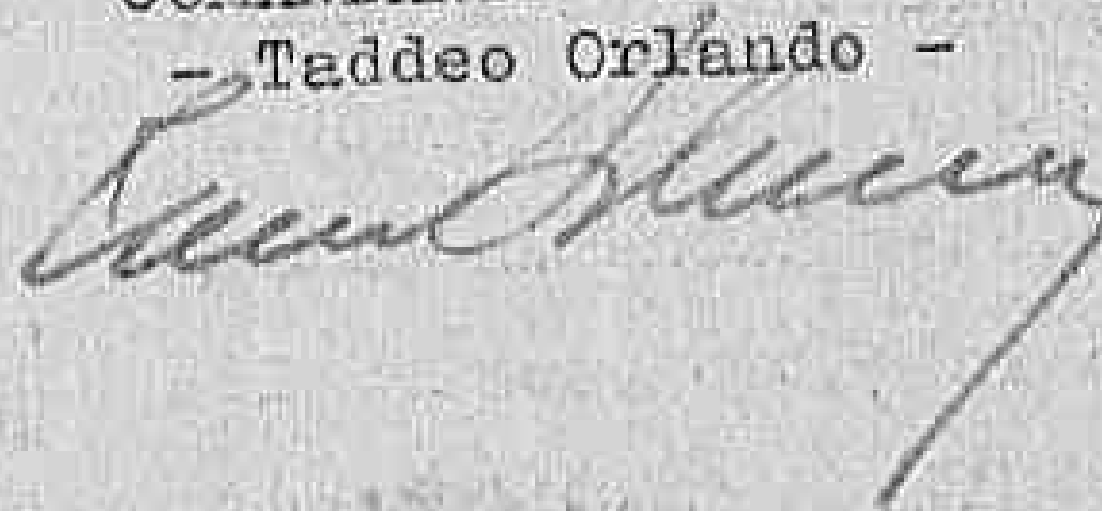

Tale spostamento, che non si è potuto attuare d'iniziale

tiva per le caserme o i fabbricati che potrebbero essere requisiti sono stati occupati dalle forze alleate, potrebbe essere invece facilitato qualora codesta Sottocommissione, bene al corrente della necessità che il menzionato istituto di educazione e di formazione dei nostri quadri ricominci a funzionare, si compiacesse interessarsi della questione.

D'altra parte la ben nota deficienza di sottufficiali consiglia che il corso in oggetto abbia inizio al più presto e possibilmente non oltre la data suspecificata.

Sono certo che codesta Sottocommissione, rendendosi conto delle prospettate esigenze, si compiacerà esaminare con ogni benevolenza la presente richiesta e mentre ringrazio, rimango in attesa di cortese riscontro.

SUBJECT: Strength of Carabinieri.

- c) Allotment of 4 per cent of the Italian Army Call-Up.

	<u>Regular CC.RR</u>	<u>Auxiliary CC.RR</u>	<u>Total</u>
1st to 15th Nov. 1944	65	6	71
16th to 30th Nov. 1944	226	49	<u>275</u>
November 1944	291	55	346

This recruiting is entirely voluntary, and the conditions of service are not attractive. Discipline is strict, the men are liable for transfer to any part of the country, including forward operational areas where they are exposed to war service conditions. In fact, CC.RR service is military service, and as such offers a limited appeal. The poor response of the average Italian to his military call-up is well known. Moreover, it must be borne in mind that a high standard of physique and character is demanded, and any relaxation of this standard will result in deterioration of the morale of the Service.

2

The improvement of CC.RR morale is receiving the constant attention of this Commission, and every effort is made to increase their prestige in the eyes of the public. Allotments of clothing have been made from the Ministry of War and these are sufficient properly to clothe the whole Force. The men are already fed on the Italian Army scale and receive a special War bonus of 35 lire per day when working in forward areas.

At the present time 1500 recruits are under training in schools at Bari and Rome. They will complete their course in February 1945. The normal course is 6 months, but as a temporary measure this has been cut to 4 months.

3. Transfer of Volunteers from the Italian Army.

Arrangements have been made to transfer 2 per cent of the Italian Army to the CC.RR. These men will be volunteers and will be selected by CC.RR Staff Officers visiting various units. The proposal has been agreed by the Minister of War and Land Forces Sub-Commission (MMIA). The number of men involved is 3,500. The selection of these men is going forward at the present time and everything possible is being done by Land Forces Sub-Commission (MMIA) to expedite the transfer.

4. Allotment of 4 per cent of Italian Army Call-Up.

It has been agreed with Land Forces Sub-Commission (MMIA) that 4 per cent of the men accepted into the Italian Army in each District will be enrolled as Carabinieri. It is planned that a representative officer of the CC.RR will be present at each District and will have the option of selecting the most suitable men. Priority will be after the Combat Groups and Specialists, but before other categories of re-inforcements: this is provided the recruit volunteers for enlistment into the CC.RR. It is anticipated that 1000 recruits for CC.RR will be obtained by this

3.

scheme in the period December/January.

5. Temporary Transfer of Piceno Group, Italian Army.

Arrangements have been completed for the temporary transfer of the Piceno Group, Italian Army, to the CC.RR. The numbers are 181 officers and 4,141 o/s. The soldiers will be dressed in CC.RR uniform and attached to various CC.RR Legions. A.A.I. have agreed to the attachment of the Montegranero Battalion to the Ancona Legion. Most of the necessary movements have already taken place and the transfer should be completed by 24th December 1944.

The effect of these transfers will be to make an equivalent number of CC.RR available for the north. It is not proposed to transfer the CC.RR thus made available until they are required by the liberation of territory in the north.

The release date of the Piceno Group for return to military service is at present 15th February 1945, but it is hoped that this will be extended.

6. Re-enlistment of disbanded CC.RR.

Replacement Centres have been established in forward areas for screening and rehabilitating CC.RR who report for duty in newly-liberated territory. During November a record number of men reported for duty and more than 1,500 CC.RR were accepted.

7. Repatriation of Prisoners of War.

Efforts are being made to repatriate CC.RR Prisoners of War. Large numbers are believed to be in North and East Africa. Lieut-Col. Jackling, G.S. AFHQ, is handling this matter and the position has also been fully explained for War Materials Disposal and Prisoners of War Sub-Commission, Allied

Commission, who are co-operating.

During October 1944, 500 GC.RR returned to Italy from East Africa; and during November 1944, 150 arrived from Greece.

8. Repatriation of GC.RR from Switzerland.

1,500 GC.RR are interned in Switzerland. At the request of Public Safety Sub-Commission, Political Section have recommended to G.5 AFHQ. that these men be repatriated as soon as possible as their presence is urgently required to increase GC.RR strength in Italy.

9. It is confidently anticipated that within the next few months the GC.RR strength will exceed the present approved ceiling of 95,000. Therefore a decision should be taken now to increase the ceiling to 65,000 (or 70,000 if circumstances warrant), a measure repeatedly urged by this Commission.

SUBJECT : Recruiting of Carabinieri.

TO : Director General, Land Forces Sub-Commission, AMIA.

1. At the present time the effective strength of the Carabinieri is 11,000 below the authorized ceiling of 25,000 and no less than 21,000 below the minimum strength considered necessary to maintain this force at an efficient level.
2. This has been discussed with the Commanding General, CO.MA., and it has been calculated that an intake of up to 1,000 recruits a month can be dealt with so as to augment their present numbers as quickly as possible. In order to provide these recruits it is proposed that men being called up for Army service should be given the opportunity of electing to serve with the CO.MA., instead of being drafted into military service. This proposal has been examined by the Chief Commissioner and his approval has been given.
3. It is understood that there is a substantial deficiency in the Italian Army strength but, on the other hand, the Army cannot by comparison with the Carabinieri be in greater need of recruits at the present time. The principle of making Police service alternative to Army service is one which has been successfully pursued in Great Britain since the beginning of the war. It will, of course, be necessary to exercise controls in such an arrangement. For example, restricting the percentage to be admitted to the Carabinieri and also prohibiting certain classes of technicians from Police service.
4. In a recent interview with Lt. Col. Ingledew 7228 subject it was suggested by him that a voluntary call-up be made of Italian soldiers over the age of 30 for Carabinieri service. The use was offered of the Italian Army recruiting

arrangements, but although this has been carefully considered, it is thought that owing to the very few volunteers who would be forthcoming, such a scheme would be impracticable.

5. In the meantime arrangements are going forward for the transfer of 3,000 volunteers from the Italian Army to the Carabinieri.

6. I should be glad therefore if you will consider the principle of making Police service an alternative to service with the Italian Army and let me know whether you will give your agreement to this scheme.

MEMORANDUM.RECRUITING OF CARABINIERI.

To Colonel Chapman.

As you know, during the last few days, I have been in discussion with our own Officers and with those of the Carabinieri Headquarters on the question of expanding the recruiting intake of the Carabinieri to the largest extent practicable.

This is particularly necessary for two reasons:

- 1) that a large number of new recruits are required for a short term period, and
- 2) that the likelihood of an augmentation by 5,000 Italian troops is by no means assured.

At present the recruiting plan lacks any real drive or enthusiasm, and is based, as always, on the voluntary spirit of the recruit to become a member of the Carabinieri. As you know, there are two classes of recruit who can be enrolled, firstly, the career or long service type, and secondly, the short service man, who is taken on for the war period only.

In practically every case these recruits are obtained directly from civilian life and hardly ever from the ranks of the Italian Army. In other words, although the Carabinieri Force is part of the Italian Army it does not take any advantage of the Italian Army recruiting scheme, and has to find for itself what recruits it can, on a voluntary basis.

It is obvious that in war-time, the Carabinieri are bound to suffer very serious depletion of their strength, since, not only are they called upon for combat duties, but also they serve with Army units as military police, therefore those remaining available for normal civilian police duties are considerably reduced in numbers. 7220

Having examined this recruiting situation I am of opinion that a great deal more can be done than is being accomplished at present, and expressed in simple form, the recommendations I put forward are as follows : -

- 4) that attention be paid to the present weakness of this scheme which lies in the fact that the Carabinieri Headquarters seem to have no real grasp of the situation and no real initiative. This is due to the fact that their Senior Staff Officer, Col. Della Chiesa, is a man who, although of long experience, is one too much concerned with his own position to be of real service to the Carabinieri. I do not think this scheme would succeed unless another officer is brought to the Headquarters of the Carabinieri to supervise and be responsible for it. The only officer I know who is likely to be competent is Brigadier General Taddei, at present in Florence, but the

Carabinieri Command seems to evidence particular reluctance to bring him to an executive position at Headquarters.

If the third and fourth points which I have mentioned above can be agreed in principle, I am confident that satisfactory arrangements can be made to ensure success. I believe that an average of more than 1,000 recruits a month could be successfully maintained over a period of one year, and the last but not the least advantage to be gained by employing these additional Carabinieri in a short service capacity will be the facility with which they can be released from police service when the substantial number of long service men, who are at present either prisoners of war or in enemy occupied country, have to be taken back into the service.

This is due to the fact that their Senior Staff Officer, Col. Della Chiesa, is a man who, although of long experience, is one too much concerned with his own position to be of real service to the Carabinieri. In my judgment, he is of weak and vacillating disposition and although when serving under a firm Senior Officer would undoubtedly be a very useful man, in present circumstances he has far too much power and far too little decision or ability.

I do not think this scheme would succeed unless another officer is brought to the Headquarters of the Carabinieri to supervise and be responsible for it. The only officer I know who is likely to be competent is Brigadier General Taddei, at present in Florence, but the

Carabinieri Command seems to evidence particular reluctance to bring him to an executive position at Headquarters.

If the third and fourth points which I have mentioned above can be agreed in principle, I am confident that satisfactory arrangements can be made to ensure success. I believe that an average of more than 1,000 recruits a month could be successfully maintained over a period of one year, and the last but not the least advantage to be gained by employing these additional Carabinieri in a short service capacity will be the facility with which they can be released from police service when the substantial number of long service men, who are at present either prisoners of war or in enemy occupied country, have to be taken back into the service.

MEMORANDUM

RECRUITING OF CC.RR.

The present strength of CC.RR is 43,000.

Public safety requirements, when the whole of Italy is liberated, make it essential that this strength should be increased to 55,000, and if possible to 65,000.

As it has not been found possible to transfer 5000 soldiers direct from the Italian Army to the CC.RR, urgent steps are necessary to increase the effective strength of CC.RR.

This can only be done by an intensive recruiting scheme. Recruiting falls under three headings

(a) selection of men for CC.RR from those being called up for Italian military service

(b) transfer of men direct from Italian Army to CC.RR

(c) recall for CC.RR service of Italian military discharged on reaching age limit of 30.

In considering the schemes mentioned above meetings have been held with M.M.I.A. and CC.RR HQ and results of discussions are set out below.

The present strength of CC.RR is 43,000.

Public safety requirements, when the whole of Italy is liberated, make it essential that this strength should be increased to 55,000, and if possible to 75,000.

This can only be done by an intensive recruiting scheme. Recruiting falls under three headings

In considering the schemes mentioned above

meetings have been held with M.M.I.A. and CC.RR HQ and results or discussions are set out below.

Meetings with M.M.I.A.

At 2.30 p.m. on 10 Nov 44 a meeting was held

attended by Lt.Col. Ingledew G-1 MMIA, Major Baumann

G-2 MMIA and Major Wilson. The necessity of increasing

the strength of CC.RR by 12,000 (if possible at the rate

of 1000 a month) was explained. Col. Ingledew proved to

be most cooperative but would not agree to CC.RR being allowed to recruit from classes being called up for military service. He explained that this would result in the cream of the recruits being taken from the Army. At the present time the Italian Army is 30,000 below its agreed ceiling, and a recruiting drive will commence in the near future to make up this deficiency. Accordingly he could not agree to any percentage being permitted to join CC.RR.

Apart from this disagreement of policy, Col. Ingledew was willing to use the Italian military machine for assisting CC.RR recruiting. In particular he offered an immediate release of 3000 men from the Italian Army to the CC.RR. He went on to say that an arrangement had already been made through the Ministry of War to enable CC.RR recruiting officers to contact the various Army units and select men from volunteers for CC.RR service. As the CC.RR has better pay and conditions of service than the Italian Army he was quite sure that there would be no shortage of volunteers, and that the 3000 men could be made available just as soon as they were selected by the CC.RR.

Discussion then turned to the only other source of recruiting - that is those men discharged from military service at the age of 30 years. Col. Ingledew had no objection to a decree calling up men over the age of 30 for CC.RR service. He suggested, however, that the voluntary

Ingledew had no objection to a decree calling up men over the age of 30 for CC.RR service. He suggested, however, that the voluntary call up might prove more satisfactory, and pointed out that there were roughly 100,000 men in the 30-33 year age class who had been released from military service. The particulars of these men could be made available to CC.RR in the various districts, and steps taken by CC.RR in the area to contact them with a view to CC.RR service. He thought

-3-

that from the 100,000 men it would be reasonable to expect 5000 suitable for volunteers. The military machine would be made available for bringing in and collecting these volunteers.

Col. Ingledew offered to take steps to insure that all men demobilising at 30 years or age should be informed of the opportunity of undertaking CC.RR service. In this way a man could, on demobilising, transfer (if suitable) from Italian Army to CC.RR.

As a final point it was agreed that MIA would circularise all military formations, and insure that any CC.RR employed by them on guard duties were released for police duties.

Meeting with CC.RR HQ.

At 11 a.m. on 11 Nov 44 a meeting was held, attended by Lt.Col. della Chiesa, Staff Officer CC.RR HQ and Major Wilson.

Col. Chiesa produced CC.RR scheme for recruitment.

This is attached. Broadly the scheme aims to produce 4000 recruits each 3 months for a period of one year, total 16,000 recruits. It is based on recruiting CC.RR from men called up for military service. The offer of MIA to supply 3000 soldiers, after selection by CC.RR officers, was accepted by Col. della Chiesa. The proposal of 7210

The proposal of 721,

MIA that the age group 30-33 should be asked to volunteer for CC.RR service was then discussed, and Col. della Chiesa stated that in his opinion very few volunteers would be forthcoming. He thought that such a scheme would be a complete failure, and would produce a negligible number of men. In support of this he stated that:

As good.

(a) CC.RR pay was very small, even when the special war subsidy was added, and that civilian occupation, including working on the land, would produce very much higher wages - even as high as 10 times the amount.

(b) Political bias - if a man volunteered for CC.RR service it was possible that his family would be persecuted by Communists. It was known that in the South there was opposition by extremist elements to recruiting for the forces of law and order.

(c) A man of this age group is old enough to have a family and accordingly needs more money than a young recruit.

(d) The only attraction to CC.RR service would be the rations. However, this would only apply to the man himself, and his family would not benefit. His pay was so small that he would be unable to send money for their support.

CONCLUSIONS.

As a result of consideration of this subject and the discussions held with CC.RR and MMIA the following points arise:-

1. CC.RR must be directed to take advantage immediately of the offer of MMIA to release 3000 soldiers for service with CC.RR.
2. The voluntary scheme suggested by MMIA whereby the 30-33 age group are asked to volunteer for CC.RR service is not practicable and will produce a negligible number of recruits.
3. The most satisfactory way of increasing strength would be to select men from those being called up for Italian military service. In putting forward this point it should be pointed out that men with special

3. The most satisfactory way of increasing strength would be to select men from those being called up for Italian military service. In putting forward this point it should be pointed out that men with special technical qualifications, who might prove to be very valuable for military service, would not be recruited into CC.RR. The percentage allowed to CC.RR in each call-up would have to be agreed. This is intact the scheme proposed by CC.RR HQ and would not entail the setting up

721

CC.RR service would not work, consideration might be given for the forced call-up by Decree of this class for some form of military duty on the lines of the Pioneer Corps. The men could be asked to volunteer for CC.RR service and there would be a good response, provided that those ~~not~~ volunteering were compelled to enter some form of military service.

5. The provision of recruits and their training is such an important matter that it is felt that a senior officer at the CC.RR HQ should be made specially responsible. Col. della Chiesa, who is the staff officer to CC.RR HQ has limited capabilities and insufficient drive to put life into a new scheme. Accordingly it is recommended that General Radici be recalled from Milan Division command to take over this work at CC.RR HQ.

RECRUITING OF "ADJOINED CARABINIERI" INTO
ROYAL CARABINIERI for special reasons of
Public Order.

Owing to the facts that Public Safety conditions have become worse as a consequence of events of war, it appears necessary and urgent to put the Royal Carabinieri Institution in a position, as soon as possible, to meet, with the necessary strength, the present very difficult circumstances, including the future conditions of public order which do not lack reasons for apprehension, as one cannot well foresee their development, intensity and possible consequences.

Even taking into consideration the valuable support which will be given by the CC.RR. when they eventually return from confinement as prisoners of war, it is fact that the number of CC.RR taken to Germany, as a result of the tragic events which followed the Armistice, amount to a very high total, causing the CC.RR organisation a heavy blow.

One hears that the same system of violently taking CC.RR to Germany is still being carried out in Northern Italy, and it seems that even recently 12000 CC.RR have been snatched away from their posts and sent to meet their obscure fate in Germany.

There is therefore reason to believe that in the Northern Regions, when they will be liberated by the Allies' advance, we shall find our barracks quite empty, and as it will be necessary to urgently reconstitute all CC.RR commands, one will have necessarily to draw further reinforcements from the stations which are all - especially those out in the country districts - already short of personnel.

Owing to this shortage of personnel the isolated stations at present carry on in a state of serious moral and material difficulty. Their direct Superior Headquarters are generally situated at a considerable distance; there is shortage of transport and communications, so that in cases of emergency the prompt arrival of reinforcements becomes quite a problematical affair, all to the discredit of the duties, dignity and prestige of the Institution.

It is necessary to supply the CC.RR stations with a strength sufficient to ensure to these most important pillars of the whole Institution the necessary firmness which will enable it to resist all clashes of political party explosions, to prevent the spreading of crime, and to meet, from the very beginning, all situations which might suddenly arise.

It will be possible to fully achieve this object if, when all Italy is liberated, the recruitment will give a number of cadets sufficient to attain the fixed strength of 65,000 men.

As long as the present situation lasts there seems to be no better way than to specially recruit 15,000 "adjoined" CC.RR to be directly recruited among the new class of men to be soon called to arms, as well as among the soldiers of the various Corps.

-2-

The choice will have to be made among those youths who have special physical qualities, good looking and possibly distinguished appearance and carriage, and at least 1.65 m. tall.

They shall not be tied to any fixed term and shall only accomplish their duties among the CC.RR as long as their class is at arms. They shall have free rations and equipment, and will be given the usual military pay with the additional special public safety indemnity to which the CC.RR are entitled.

They shall wear their original uniform and will carry the CC.RR badge horizontally on their sleeve.

Those who will prove not up to the standard of the CC.RR special duties, and those who may receive unfavourable reports, shall be returned to their original corps after having been replaced by better elements.

Once attached to the Institution, these "adjoined Carabinieri" will attend a special course of instruction lasting 3 months, which will take place in the Legion quarters, or with the battalions who have sufficient lodging possibilities (see a ppendix)

Besides the individual squad and platoon training whose main object is to give the men a sense of order and discipline as regards the individual, at the same time they will also get a technical and professional training through a progressive and rational study of the most elementary judicial rules which form the basis of our duties.

The following subjects shall be taught:-

Organic regulation of the CC.RR Institution

Institutions and privileges
Organisation
Strength and recruitment

General Regulations of the CC.RR Institution

Military discipline for the R. Army

Arms, shooting, explosives, chemical aggressive means, defence against poisonous gas, common penal code, military penal code

Special attention shall also be given to gymnastics and general physical training which, in strict synchronism with all other army institutions, is directed to develop and increase the physical qualities of the young men in order to accustom them to bear the discomfort and fatigues of military duties, and at the same time improve their moral qualities.
