ACLO 13.1

10 January 1947

1. POLITICAL

Following the Vatican policy of energetic action against recent attacks on the Roman Catholic Church, the Catholic Action Party in VENICE held a crowded meeting in the Malibran Theatre on Sunday Dec. 29th to protest against the scurrilous and vulgar anti-clerical press. In spite of heckling and outbursts of hooliganism on the part of about a hundred Communist youths, the meeting was kept under control by the Police, and at its conclusion a procession was formed and marched to St. Mark's Square where it was addressed in vigorous terms by the Patriarch of VENICE. Here again insults and cat-calls were directed against the Patriarch, but public order was maintained by the Police.

The Prefect and representatives of many public bodies (with the exception of the Sindaco, who is a Communist) have expressed their indignation in person to the Patriarch and a resolution of solidarity with the Catholic Action party has been passed by the Christian Democratic members of Parliament in TREVISO province.

In TREVISO Province, and surprisingly in ROVIGO as well, the most Red of all the Provinces in the area, the local Socialist Parties have voted in favour of anti-fusion with the Communist. In ROVIGO there was a large majority, while in TREVISO the votes were 2600 to 2250.

In TRENTO Province the Republican and Action parties have decided on amalgamation, while the ASAR (autonomists) have kept quiet except for their weekly public meetings.

In general this month has been one of the periods of political calm on the surface in all provinces, with an increased activity behind the scenes as a prelude to a propaganda drive for the political elections which are not so far off. The tension between Communists and Demochristians is reported to be noticeably on the increase in VICENZA Province.

2. PUBLIC SAFETY

Police Forces

The Public Safety liaison officer reports that as a result of a new decree, a total of 53 CC.RR. officers are to be retired from their commands by 28 February 47.

Questori are to have "direct" instead of "indirect" control of all agents of Public Safety, and there is a possibility that the Questore may have the same rank as a Prefect in the Province.

The above factors, it is considered, will in the near future make more evident the lack of cooperation between C.C.R. and Public Safety Agents.

In addition to these projected changes a high Police appointment has been found in VENICE for Col. GALLI Commander of all Agents of Public Safety in the Veneto. He hold a leading position in the ANPI movement wherein his successor may be a communist from Emilia.

Public Order

Numerous demonstrations and disturbances occurred during the month. Apart from those already mentioned in this report under paras 1, 3 and 6 an ANPI demonstration of about 500 collected in Piazzale Roma (VENICE) on 31st December, carrying a large variety of crudely painted slogans, directed chiefly against the neo-fascists. But such signs as "Clean up the Questure" "Judges beware" and demands for work were also in evidence. An orderly quiet and rather depressed looking procession then formed and marched along the main route to St. Marco Square. There was no disorder and few onlookers as they set off. Later they sang songs and were addressed by various speakers in a Cinema. Other demonstrations include one by women at CHIOGGIA (Venice) in protest against bad bread distribution, and another by farm labourers in VERONA claiming an increase in family allowances, and the payment of the Republican and Christmas Bonuses.

In addition to these projected changes a high Police appointment has been found in ROME for Col. CARUSO Commander of all Agents of Public Safety in the Veneto. He held a leading position in the ANPI movement wherein his successor may be a communist from Emilia.

Crime

An increase is noted in armed robberies in the Provinces of PADOVA and VERONA. Many daring robberies have been made by masked bands, which have so far escaped identification.

A horrible murder, which has been widely reported in the press took place at VERRICCO (Trento) on the evening of Dec. 9th. A young man named CASTELLO ALDO di Adolfo first shot and killed three members of a neighbouring family with a small automatic weapon, and then turned the gun on his own father and mother whom he killed, and also wounded his sister.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785046

The murderer has been arrested and it is believed that the reason for the crime was a quarrel with the father of the neighbouring family, with whom he was associated in some criminal activity. He killed his own father and mother because they strongly disapproved of his way of life.

3. EXCHANGES

General

Probably the most distressed of all the provinces in this area at the moment is [illegible]. The greater part of the population are compelled to live under poor conditions because of unemployment, high cost of living, lack of housing, and lack of firewood. Fuel difficulties are due largely to the completely inadequate allocation of railway goods wagons.

The general discontent came to a head with an assault on some local warehouse of the "Peoples Groceries" by crowds mostly composed of women.

Cost of Living

Some interesting figures have been produced by the Chamber of Commerce of [illegible] Province, to compare the index number of the cost of living in July 1939 with that of three periods during 1946.

In the table set out below, the index number for July 1939 is to be taken as 100. The figures are reckoned on current expenditures for a family (standard) consisting of two adults and three children, aged between three and fourteen : 9633

Expenditures for	Index Number for		
	Jan. 46	Oct. 45	Nov. 46
Foodstuffs	3465	3423	3756

Heating & Light	2023	2030	2152
Sundry Items	1955	1931	2405
Average Index Number	2984.5	2770	2965

This table shows how the situation has got worse since Oct. 45, as it indicates an average rise of 195 to an index number of 2965 at the end of November 46.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785016

An analysis of the single items also discloses that the new rise in the cost of living was mainly due to higher prices of foodstuffs, sundry outlays (School & Health in general) and heating and lighting.

The foodstuffs index number has in fact increased from 3423 in October to 3756 in November chiefly because of higher quotations on the free market. A standard family has had to face up to the following prices :

	October			November			
Bread	from Lire	46	to	Lire	55	the Kg.
Maize flour	" "	40	"	"	45	"
Olive oil	" "	780	"	"	820	"
Butter	" "	810	"	"	970	"
Sugar	" "	550	"	"	620	"
Eggs	"	22	"	"	27	each
Cheese (table)	" "	600	"	"	650	the Kg.
Pig fats & Salami	" "	700	"	"	750	"
Dried beans	" "	150	"	"	180	"
Fish	" "	200	"	"	250	"
Potatoes	" "	25	"	"	30	"

During November, of the calories generally indispensable to a standard family, only 37% was provided by rationed foodstuffs, whereas the remaining 63% had to be bought on the free market.

These percentages have grown less favourable since October when they were 42.40% and 57.60% respectively, as a consequence of a smaller distribution of pasta, milk and pig fats.

It must be noted that VENICE is supposed to be better off than any other provincial capital in the Veneto region, and that unfortunately the situation shows a further deterioration in December.

4. LABOUR

There were less strikes this month. VENICE heads the list with the following :

chief attractions on the free market. A standard family has had to face up to the following prices :

13 Dec.	Parastatal workers	2 days
2 Dec.	Shipyard workers	1 day

Declassified Authority E.O. 12356 Section 3.3/NND No. 785016

Other strikes in the area were :

(ROVIGO)	Agricultural workers	5 days
(TRENTO)	Forestetal workers	7 days

5. INDUSTRY

The position of industry shows little change throughout the area, except that both TRENTO and VICENZA provinces are somewhat less dissatisfied than the others. TRENTO was reported on last month, but now in VICENZA there are encouraging signs of activity in their textile, wool, cotton, and hemp factories, while there is some improvement in the paper mills and chemical manufactures.

VERONA or the other hand is very depressed over the situation particularly in its metal industry.

6. PUBLIC RELATIONS

The Public Relations officer has summed up after the recent anti-British disturbances in PADOVA on the 10th and 11th December.

There was undoubtedly, he says, some blame and some justification on both sides. The Italians were incensed at what appeared to them a bad case of careless driving, while the British troops, though their march on the following day, was a regrettable breach of discipline, had a feeling of understandable resentment at the destruction of their vehicles and attacks on individuals. This resentment was probably increased by their feeling that their conduct in PADOVA in the past had not deserved the hostility which they had experienced. The hostile acts committed by the Italians after the first incident bore the signs of being organised, but opinion differs whether it was the Right or Left who were responsible.

Those who favour the former view point out that the threatened resumption of AMG control is the last thing which the Left desires, and therefore the organising must have been done by the Right. There appears to be no justification for the statement made in a letter to the London "Times" newspaper just before Christmas that one of the main causes of the disturbances was the resentment of the people of PADOVA at the military requisitions in the town. These requisitions are the cause of much grumbling

In addition to this a beginning had been made in systematic derequisitioning before the disturbances started.

of the month, resulting from a mass brawl, ended satisfactorily with better relations between troops and civilians than before the trouble started.

Good relations between troops and civilians have been greatly helped by Christmas parties, particularly the large party given by 88 Area to poor children on Boxing Day in the San Marco Cinema, VENICE.

MONTHLY REPORT NOVEMBER 1946

BELLUNO, PADOVA, ROVIGO, TRENTO, TREVISO, VENEZIA, VERONA, VICENZA

ACIO 13.1

11 December 1946

1. POLITICAL

There has been the usual intense and varied political activity during the month in the Veneto, but meetings and demonstrations have taken place in an orderly manner and there have been no incidents to disturb the public order, except for the following in VENICE.

Two ineffectual bombing attempts were made on 12th Nov and 19th Nov in VENICE against the Communist Party Offices, causing some material damage, but injuring no one.

Arrests were made and it was found that the oldest of the perpetrators was not more than 17.

Following this, a 15 minutes stoppage of work and a demonstration was held in VENICE on 20 Nov. as a protest, without disorder. There have been no reprisals so far.

In TRENTO province the delayed administrative elections for 24 of the 40 Municipal Councillors took place on 24 Nov. The results were 19 Demochristians, 12 Socialists, 6 Communists, 3 Liberals and Independents.

Another public demonstration in TRENTO was organized by ASAR (Associazione Studi Autonomia Regionale) on 21st Nov.

This organisation, which claims to number 100.000 out of a total population of 400.000, is agitating for a combined autonomous region, with the ALTO ADICE, stretching from the village of ALA (35 Km south of TRENTO) to the BRENNER. They are strongly opposed by the BOLZANO autonomists, who fear their numerical superiority. A modified scheme for autonomy proposed by the Prefect of BOLZANO has been turned down by ASAR, who in their turn have approached the VOLKSPARTEI, (S.Tirol Party) for a basis

Mussolini and the "X" Battalions, with references to TRIESTE, VICENZA, PADUA, BELLUNO and UDINE.

Great efforts are being made to trace the authors.

As reported by the Public Relations Officer the general tendency for the presence of the Allies locally to be criticised less and less, in the press of the Veneto, continues. Credit is due, in part, to the consistent policy of HQ SC Area with regard to derequisitioning, one of the main causes of friction. Every case is given the most careful consideration from all points of view, provision is made for adequate publicity when buildings are released and the problems and needs of the Allied troops are explained, so that there should be no complaint of high handed methods.

2. PUBLIC SAFETY

While the number of crimes of a less serious nature compares favourably with previous months, a slight increase is reported in more serious crimes.

Armed robberies have resulted in the loss of large sums of money and goods in VICENZA province, and an attack was made on nine Carabinieri travelling in a lorry in VERONA province. Shots were fired and the Carabinieri succeeded in killing two and arresting two others of their attackers.

A British soldier was murdered in PADUA in the early hours of the 1st November. The killer has not been found though his name is known; it is believed from enquiries that the crime was committed under provocation.

Trafficking in Allied property is reported to be continuing as before, and the fluctuating prices for such goods are a good indication of the quantities available in the area. Some 35,000 "Free Issue" cigarettes have recently been recovered and handed over to the C.C.P.

Traffic accidents involving British drivers still cause some adverse criticism, but there is a decline in the number of critical articles in the press on this subject.

3. CIVIL GOVERNMENT

The new Prefects mentioned in my report of September 46 have now settled down in their provinces.

In every case the choice seems to have been a good one. BRACCALI of TREVISO and PASSI of BELLUNO in particular are definitely more energetic and more experienced men than their predecessors.

4. ECONOMICS

(a) Food

Prices still continue to rise. The "Calmiere" or price controls which were never seriously considered to be a solution to the problem soon caused the disappearence of essential foodstuffs from the shops, and have had to be abandoned.

In NOVIGO one of the reasons for the price increase is said to be the buying up of large stocks of commodities by certain sections of the population as a speculative investment, in fear of the result of the forthcoming monetary conversion.

The following are examples of prices with some fluctuations which are prevailing up and down the Venetos :

Butter	Lire	1.400	the Kilo
Lard	"	520	" "
Oil (olive)	"	900	" litre
Meat 1st quality	"	450	" Kilo
" veal	"	450	" "
" mutton	"	280	" "

(b) Industry

In general the situation has not improved, and the lack of electrical power is seriously impending industry.-

In TRENTO however there is a brighter note. The production of alluminium is reported to be progressing well and the output is slightly increasing. Progress is also being made there in the production of cement, lime, and chemical products. After representation by the workers in these industries, electrical power is cut off for two hours every day in lieu of cuts on particular days.

In PADOVA there is depression and uncertainty owing to lack of raw materials but the agricultural industry is more successful, in spite of damage by violent hail storms. There is also a substantial increase in livestock.

In VENEZIA, in addition to the lack of coal and shortage of electrical current there is a great need of industrial alcohol, tinfoil, and paraffin wax which are necessary for certain industries.

(c) Labour

The following strikes took place in VENEZIA provinces, to improve the standard of living :

1 Nov — Agricultural labourers
7 Nov — Glass workers, MURANO
9 Nov — Naval arsenal workers, VENICE
12 Nov — Workers of the Gas Company, VENICE
22 Nov — Comunal employees of VENICE and MESTRE
23 Nov — Kelachrom Company employees, VENICE

All these strikes were settled without disorders.

On the morning of 25 Nov also was staged in MESTRE a demonstration by 5000 employees of the Allied Forces to protest against the non-payment of the Republican Bonus, and retrospective wage increases; and to complain about their internal organisation. "Orders of the day" were read to the crowd and addressed by G.U.Q. - P.C.U.L., the CGIL, the Ministry of Labour, and the Prefect of VENICE. Work was resumed in the afternoon without much disorganisation. The demonstration attendance was by no means 100%.

This demonstration and the strikes are the result of constant agitation by the Camera del Lavoro of MESTRE whose policy it is to keep labour in this area always in a state of unrest.

Although the payment of the Republican Bonus had been agreed before the MESTRE demonstration, the workers were led to understand that it was this action on their part that finally forced the issue.

5. PUBLIC WORKS & UTILITIES

In all the 8 provinces covered in this report, with the addition of BOLZANO and UDINE, the Magistrato alle Acque which is also the Regional Directorate of Public Works, has on hand 4000 different projects, costing about 11 billion lire and employing some 21.000 workmen.

The technical committee of this Directorate is considering new projects for the winter months and have approved a further 35 projects totalling 350 million lire.

Much of this work is being devoted to repairing and building of new houses.

The Venice also had the benefit of an extra supply of streptomycin.

(h) Welfare

There are at the moment five Refugee and Displaced Persons Centres in VENICE housing a total of 1170 persons. The large refugee camp at CITTADELLA (PADOVA), which contained over 2000 persons chiefly from VENEZIA GIULIA and ISTRIA has now been taken over by Allies for other purposes, and the inmates have been successfully transferred, mostly to PADOVA.

7. DERequisitioning

As stated in item 1 of this report careful attention has been paid to derequisition in the area particularly to schools. AG Area have now found it possible to order the derequisition of 9 schools of various categories in PADOVA and another 6 in VICENZA province.

Beside this, a large number of properties including separate rooms, store-houses, garages and shops in PADOVA and VICENZA provinces, have also been scheduled for derequisition.

ROME

Urgent

SUBJECT: Venezia Giulia.

Report reaches us that on 6th June last, at about 9 P.M., an Allied car carrying aboard two Allied officers and a British soldier, drove towards the Trieste-Pola main road and turned into nearby way called Parenzo S. Lorenzo del Pasenatico.

About one Km. from crossroads, the car changed route again and drove towards Villa Cecchici and halted before the farm of a certain Gaspare Cleriach.

From the car alighted , besides the three a/m aAllied soldiers, also three armed Jugoslav soldiers. The six men marched into the wood next to Cleriach's property, until they were no longer in sight of eye-witnesses. Later shots and mitre showers were heard not far the distance.

On the following day, traces of blood, soldiers clothing and Allied service plate numbers were found.

^^^^^^^^^^^^^^^

Si apprende che,il 6 giugno scorso,verso le ore 21, una macchina alleata con a bordo due ufficiali alleati e un soldato inglese,deviò dalla nazionale Trieste-Pola ed imboccò la strada secondaria Parenzo S.Lorenzo del Pasenatico.

A un Km. circa dal bivio,la macchina deviò ancora,verso Villa Cechici e si fermò davanti al campo di proprietà di Gaspare Cleriach.

Dalla macchina scesero,oltre i tre alleati,anche tre militari jugoslavi armati di mitra. Le sei persone si avviarono verso l'interno della zona boscosa prossima al terreno del Cleriach,sottraendosi così alla vista di alcuni testimoni che ne avevano notato l'arrivo. Quindi alcuni spari e raffiche di mitra,non molto distanti.

Il giorno seguente,nelle vicinanze di due foibe si trovarono tracce di sangue e indumenti militari,nonchè medaglioncini di riconoscimento in uso presso gli eserciti alleati.

REF:- DISTURBANCE

Sir,

I have to report that at Trieste on the 8th July 46 I was on duty at H.Q. at approx 2200 hrs, when I was informed by the Station Sgt. that a fight had been reported between soldiers and civilians in Via Carducci. I immediately turned out the Stand-by of 10 NCOs and proceeded to Via Carducci.

At the road junction Via Carducci-Via Battisti I observed a crowd of 200 soldiers and civilians milling around. I proceeded to break up the disturbance. While we were doing so a nearby cinema closed and the audience, mostly soldiers, came into the street, and it was impossible to distinguish between them and the original crowd. (I had seen two instances of soldiers striking civilians but had been prevented by the size of the crowd from making any arrest.)

I therefore ordered my NCOs to clear the area completely. This was done. I then heard shouting coming from Piazza Dalmazia and observed a large crowd gathered there. We immediately proceeded there and found 500 British soldier? I again broke up the crowd and while doing so I observed some soldiers attempting to break into the Cafe ROMA. We succeeded in arresting two, but as there were still several large groups of soldiers to be dispersed, I handed the two arrested soldiers over to a V.G. Police W/T Jeep in which was a British Major whom I believe to be Maj.HENDERSON. We then dispersed the remainder of the soldiers and drove them down Via GHEGA. When the last group approx 200 strong, was dispersed at approx 2245 hrs.

We returned up Via Carducci to Via Battisti where we dispersed another group of approx 250 soldiers and them patrolled Viale XX Settembre where we turned a number of troops out of Cafes as it was after 2300 hrs. The area of Viale XX Settembre was cleared by 2330 hrs. and we then proceeded up Via Rossetti where we assisted several soldiers back to their billets who were the worse for drink.

After a final check round the town, we returned to Coy HQ at approx 2345 hrs.

The following points were observed, the troops did not offer any violent resistence to the CMP but there was continuous passive resistence. It was impossible to take any action, other than to clear the streets, due to the large number of soldiers involved, and the fact that my total force was only 10 CMP

We returned up Via Carducci to Via Battisti where we dispersed another group of approx 250 soldiers and them patrolled Viale XX Settembre where we turned a number of troops out of Cafes as it was after 2300 hrs. The area of Viale XX Settembre was cleared by 2330 hrs. and we then proceeded up Via Rossetti where we assisted several soldiers back to their billets who were the worse for drink.

After a final check round the town, we returned to Coy HQ at approx 2345 hrs.

The following points were observed, the troops did not offer any violent resistence to the CMP but there was continuous passive resistence. It was impossible to take any action, other than to clear the streets, due to the large number of soldiers involved, and the fact that my total force was only 11 CMP personnel, plus one W/T Jeep.

The conduct of the British troops was deplorable, no assistance being rendered to the CMP by anyone, and remarks were passed constantly, on the following lines "It is time we taught these people (i.e. Italians) a lesson " " Let us have a go at them" " Have you B.... nothing better to do" " Is this what we have been fighting for, for 6 years" " Why do not you get into some real fighting".

It was also observed that a very large number of the soldiers concerned were excited by the amount of "Drink" they had consumed, and the standard of dress was extremely poor, the chief offences being: No head dress, sleeves rolled up, and shirts undone.

The units identified in the disturbances were : The scots Guards, Coldstream Guards, London Irish, London Scottish, and R.A.S.C.

I wish to report that I consider the behaviour and counduct of the NCOs under my command, was exemplary, under most trying conditions, expecially considering that the majority are very young (19-20 years) with only 3 or 4 months experience of CMP duties.

20,000 Pro-Yugoslavs Attack Trieste Shops

Blast Wrecks Allied Udine Railway Line

By Joseph Bacich
United Press Correspondent

TRIESTE, July 11—An estimated 20,000 pro-Yugoslavs attacked shops and markets here early today in another outbreak of violence that closed down all business and transportation, again paralyzing this troubled city.

Local police fired at least 100 shots, wounding ten persons, and American troops used armored cars to control the mobs, while Yugoslav elements reportedly mined and blew up the main Allied rail supply line between Udine and Trieste, halting all traffic.

Italian police, arresting at least 50 persons in an attempt to quell the angry mobs, reported that the supply of electricity for trolleys in one section of the city had been completely cut off as a result of the destroyed Udine-Trieste rail line.

Meanwhile, police said that hundreds of Yugoslavs were entering Trieste from the surrounding countryside to join Communist elements inside the city. Crowds of Italians, gathering in piazzas at noon today, were threatening counter-action against the Yugoslavs.

Four mines exploded near the small town of Pieris, Italian police officials reported, destroying a large section of the Udine-Trieste rail line and halting all trains normally running over it.

Yugoslavs started forcing all shops to close down about 10 AM today, threatening to sack them if they remained open. Then, 20,000 strong, they marched into Italian markets, destroying vegetables, breaking up carts and smashing stands.

U. S. Army troops, in full war

TRIESTE, July 11 (UP)—A mysterious explosion on the Gorizia-Trieste rail line near Lucinico today killed several persons, wounded 30 and damaged nearby houses. Earlier the deliberate demolition of the Udine-Trieste line, as well as an explosion cutting off one section of Trieste from electricity, was confirmed. Meanwhile, Anglo-American troops, backed by six U.S. armored cars, restored order in Trieste after 11 were wounded, three critically, by bullets and 53 arrested in riots earlier today.

U. S. Army troops, in full war kit and wearing steel helmets, then appeared on the scene in armored cars to dampen the enthusiasm of the crowd which dispersed 20 minutes later.

Italian elements, in a short letter to Trieste's police chief, later stated that unless they are properly protected "we will take personal protection into our own hands."

1. The following information received from Col. Lee, Director of Police at 2.45pm 2nd July 1946:-

On Sunday 30th June 1946 demonstrations took place in Tokyo. Approval had been given by GHQ 13 days for Public processions and it was hoped by the Japs that this would stem the tide of Sunday riots. When some modification towards this was asked for the Japs explained the situation by saying that the people had already been told.

In Tokyo thousands of people had already been gathered to cheer on the demonstrators. When it became known that the riots had been interfered with, rioting began and before the Police and Japanese Officials from the demonstrations were all their heights Military Police were called upon to assist the U.S. Police there. At one stage a jeep was rolled under a lorry carrying Japanese soldiers and overturned slightly wounding 2 officers. 2 soldiers were also wounded, one seriously one slightly.

Police Casualties

British M.P.	1 serious	1 slight
American M.P.		1 slight
U.S. Police	2 Inspectors 3 M.P.s slightly injured.	

Civilian Casualties

10 arrests have been made.

2. During the late evening of Monday 1st July 1946, 2 U.S. Police were fired upon. 1 dead, 1 seriously injured.

3. A general strike commenced on 1st July 1946 but is not expected to last for many days. 34

This is a brief report on the Venezia Giulia situation in zone A, which menaces to burst out into a revolt, especially if the campaign of hatred, made by the local press for Tito, and the istigating speeches of the yugo-communist orators in public and private meetings, are borne in mind.

With the arrival of the Allied Commission the preparation of the town to be decked up with Yugoslav flags was very limited, in spite of the pressures, threats, corruptions and briberies. In order to make up for such failure the Yugo-Communist leaders incited members to hang up, wherever possible, Yugoslav flags, on public buildings, trams, churches etc. in spite of the disapproval of the Allied Military Govt., which only limited it where volontary - to private abodes.

Owing to said dispositions and telephone requests made by organisations and civilians, the civil police hastened to all the most eccentric parts of the town, being welcomed by insults, menaces spits, aggressions and attempts to disarm on behalf of numerous groups of ruffians. 4 or 5 P.S. agents were wounded and one had his ear cut off, whilst others were disarmed, without any,violent reaction against the aggressors.

On Sunday afternoon, 10th inst. the civil police, by order of the Allied Command, on going to Servola to take down a Yugoslav flag which had been arbitrarily hung up on the church steeple, was assaulted by two groups of persons addicted to violence, one group in the steeple and the other in the square.

The agents prudently tried to calm them, but some shot was fired by the crowd gathered round, thus they (agents) were obliged to use their arms, causing the death of two of the revolters and the wounding of 15 or 20.

This conflict was welcomed by the Yugo-Communists who, from 0 hrs of the 11th inst. went on a general strike, imposing the closure of all premises,schools, businesses etc. thus roaming around the town, complete masters of the situation.

Whilst the Allied police was kept in barracks, the civil police refused or preferred not to go out, as the Allied authorities had ordered them not to use arms. In vain did the citizens phone for the intervention of the civil police against the Ygo-Communist squads, owing to this, on the 11th and 12th March, Trieste was at their complete mercy, still going through hours of anxiety and terror.

Resentment, amongst the majority of the population of Trieste against the Allied Military Govt. is noticed, and particularly against the C.L.N. of Venezia Giulia which has passively endured the situation not wishing to take any reaction.

Declassified E.O. 12356 Section 3.3/NND No. 785016

On the afternoon of the 12th inst. the funerals of the two victims of the Servola incident, took place, many Yugo-Communists were present, having come from the Carsica zone - Gorizia and B zone (only from Fiume - 20 vehicles arrived full of Yugoslavs). At the end of the funeral, those participating, gathered outside the hotels of the members of the Allied Commission, invoking Tito - Yugoslavia and Russia. At 1900 hrs the demonstrators scattered, but some slight incidents took place during the course of the evening.

The strike has been suspended this morning 13th inst. awaiting the result of the inquiry disposed by the Allied Military Govt. on the event of Servola, but the conviction is that it will soon be resumed, because the inquiry on the truth will give unsatisfactory results for the agitators, who, yesterday approached Col. Robertson, asking that the civil police be dissolved; this was energetically rejected, together with their desire to confer with Gen.Harding, commander of the 13 Corps.

Yesterday Gen.Harding arrived in Trieste and admired the civil police's activity (our officials) during such a particularly critical moment. This admiration reached the press and was a blow for the Yugo-Communist agitators, even more so as the Allied Military Government ordered the closing of the Yugoslav schools.(Elementary and Secondary) in Trieste " owing to the persistent striking of the scholars and seeing that the parents make advantage of it as a means for propaganda and political pressure and not as an Education

The town is patrolled by 3 or 5 civil policemen, as a future strike is feared, while groups of Italians besides the C.L.N. are getting organised to reject the Yugo-Communist violences.

Mongst the Italians there is an air of opposition against the C.L.N. and yesterday the Italian Partisan Association decided to present the C.L.N. with an ultimatum for it;to assume a more energetic attitude in accordance with the seriousness of the moment, otherwise with the adherence of other Italian groups it would give birth to a dissident committee which would assume the direction of the movement in defence of the Italian interests in Venezia Giulia. The situation is fluid and therefore anything may happen.

Information has justbeen received that a Partisan group has detached itself from the National Partisan Association owing to the accentuated tendency to Communism of the Central Direction. The members of this group have mobilised themselves and being armed, are ready to defend their brothers (Giuliani).

This is the situation up to 1600 hrs of the 13 March 46.

Only energetic and decisive action taken by the Allied Military Govt. will be able to bring back normality and trust.

The Italian press should also help the population and not be a fount of information, as the newspaper 'Corriere d'Informazioni', which does nothing but blame Italy and praises the Yugoslavs. This Italian miscomprehension greatly depresses the people who are

Declassified E.O. 12356 Section 3.3/NND No. 785016

fighting for the one cause.

It is understood that members of the Yugoslav army, well armed, have entered zone A, lying in wait not far from Trieste. This has also been confirmed by Yugoslav deserters, surrendered to the Allies. Owing to this situation, Gen. Harding has sent an order to the Civil police to take energetic action against the perturbers, assuring his support and that of the Allied Forces.

Continuous incidents are verified, luckily not serious, always originated by the Yugo-Communists.

UDINE 12 March 46

The very powerful terroristic Yugoslav organisation, known as "Oena", has its Hdqs in Lubiana, with its main branches in Fiume - Pola - Trieste - Gorizia - and its secondary branches in Pisino - Postumia - Idria - Tolmino, Tarvisio - Gradisca d'Isonzo - Monfalcone - Palmanova - Cervignano del Friuli and Latisana.

Many elements of the province acting for the Communist Party appear to be attached to Tito who expects to extend his republican policy up to the Tagliamento river.

From confidential sources, on May 1st, Tito's terroristic forces should invade zone A and the Friuli plain. As Tito's forces in zone B of the Venezia Giulia are superior to those of the Allies, undoubtedly they will reach the Tagliamento river without any great effort, and since the disparity in strength and the scarse fighting ability of the American troops is well known amongst the population, who understand the situation and the drastic consequences, a justified anxiety has arisen.

Such an insurrection would be very dangerous, as it is well known that Tito's men are strongly armed. On the other hand the Anglo-American authorities do not give much importance to this problem, as they are convinced that all controversies existing at the moment will be settled at the treaty of peace, even if it means affronting accomplished facts.

3473

Examining the situation, it can be said that in the Cervignano zone, one of the most inquinated, 80% are Communists for Tito. Though such current is not so developed as in the Cervignano area, it is present and active all over, as propagandists succeed in easily convincing the great mass of unemployed, land labourers etc. promising them espropriations, future wealths etc., should the Friuli area eventually take part in the Yugoslav republic. It is also to be borne in mind that there is a deficient counter-propaganda to bring to reality the actual facts, in simple words, for the laborious and honest people, against false aspirations which menace to upset the social peace of the country. The truth is, though, that such action of propaganda, made under these circumstances has risks for the personal security of the author.

Declassified E.O. 12356 Section 3.3/NND No. 785016

The Yugoslav organisors have been tactful in choosing, in the various localities, groups of individuals notoriously feared for their violent tempers, who, being well recompenced, succeed in threatening the communities, they not daring to rebel, for fear of deportation. The task of these elements is rendered much easier, as the Italian authority, in these areas, is represented by a few carabinieri, who, owing to location and minimum strength, have not the possibility to carry out an efficacious control to prevent and repress such violences. Thus the population feels depressed and abandoned in the hands of a few persons addicted to violence. Furthermore, especially in the Cervignano and Palmanova areas, great quantities of foodstuffs are bought and sent to zone B of the Venezia Giulia. Even recently - Yugo-Communists and merchants without scruples were able to let several quintals of meat cross the line of demarcation. Due to lack of means, especially transport, the police is not always in a position to affront, with a probability to success, situations which require immediate intervention.

At the moment, the province of Udine, owing to its geographical position constitutes a particularly delicate point, and in order to safe-guard the interests of Italy in the confining areas, the presence of a numerous and chosen police force, with adequate means, would be necessary. It is true that the destiny of this country will be decided at the Treaty of Peace, but it is even more true that, in order to maintain the sympathy and esteem of the population living at the border, it is indispensible, that Italy makes itself heard and where possible, ready to intervene, when it means protecting citizens menaced by the Yugoslavs' intrigues.

Concerning the task which the Commission should carry out in Venezia Giulia, it has been heard (from a trustworthy source) that it's presence and work is more or less a 'formality' inasmuchas the political confines between Italy and Yugoslavia have already been determined in London and correspond with the old Wilson line. The only contrast might be the mines of Arsa for which they would be more in favour of Italy, which, already poor in raw materials, should not be deprived of them.

Furthermore, from an equally confidential source, during the second fortnight of February, about 15 Yugoslav officers of the monarchic party, arrived in Trieste from Italy, who, on orders received by Allied members, should have passed the line of demarcation, in order to assume information on the political military situation of Yugoslavia. After a fixed period, these officers should present themselves, some to Villacco, some to Klagenfurth and some to Graz, to refer to the Allied Military Authorities there, the result of their trip.

Always from confidential sources, the internal situation of yugoslavia has been known and i.e. - The situation of the VII Republic of the Federative States of free Yugoslavia is not of the most flourishing and is different from what the various propagandists of Tito

Declassified E.O. 12356 Section 3.3/NND No. 785016

make believe.

The reaction is continuously becoming more intense, even though the actual government is trying to make believe that it is made up of Fascist elements. This is not so. The real reason is that the population is tired of Tito's dictatorship, of the communistic terror and lack of freedom.

Well organised units, led by Gen.Mihailovic act all over Yugoslavia and the people see in them, true liberty, the beginning, with their success, of a real period of freedom.

Besides the internal reaction, which aims at turning the actual govt. upside down, there is a considerable ferment also on the outside. This movement, already organised, can, at any moment, pass from a passive phase to an active one.

Recently, information has been given from a person who has returned to Italy from Yugoslavia, that the actual Government has decided to shortly break the agreements with the Allied nations, cross the Italian frontier and militarily occupy the areas of Venezia Giulia, Trieste and part of Friuli. The same person further refers that this is well seen in the reactionary circles inasmuch-as these elements are waiting for a spark, to act openly, thus finding a sure means to overthrow the government and install monarchy with King Peter.

The monarchic government would have no terroristic preferences on Italy.

In zone B the afflux of Maresciallo Tito's troops has greatly increased within the last 24 hours. They are well armed; portable automatic arms are in abundance. The morale of these troops is very high as propaganda has succeeded in inculcating hatred for Italy.

Occasionally an odd case of desertion is verified . Their equipment is quite good. The majority of the soldiers are young, and have participated in the partisan war. Their compensation is quite good and their families receive subsidies. The government pays most of its attention on these troops as the very existence of the govt. depends on them.

Confidential Information on Venezia Giulia (zone B) and other towns of Yugoslavia.

ZARA : The town has been completely abandoned by the population. The majority of men have gone to the woods thus strengthening the partisan troops against Tito. The reason for this is that the Yugoslav army and a landing of the Allies is shortly expected in Zara. Meanwhile Tito' troops have literally looted everything.

LUBIANA : Lubiana is in a state of siege owing to the disorders provoked by partisans against Tito. Provisions are lacking and the population is terrified.

RAGUSA : In the IPOW camp of Ragusa, the treatment of the prisoners is simply beastly. They are obliged to work continuously, and, in spite of their physical conditions due to denutrition, they are made do the heaviest work. They live as pigs, sleep clothed and without blankets. One thing abunds in the camp and that is - fustigation, practised for nothing at all.

KARLOVAC : In Karlovac there is an Italian Military prisoners' camp. To this camp, all those military, born or residing in Venezia Giulia, are sent preferably. The prisoners receive a better treatment than in other camps, both because they are considered citizens of Yugoslavia and because an attempt is made to wheedle them into frequenting political courses in Russia. In fact, those who adhere, are immediately given the best treatment and sent, under escort to the Bolscevic paradise.

BELGRADO : Military call-up of men between 18 - 28 continues. As they present themselves they are clothed and sent to strengthen the troops along the Morgan line. Arms and ammunition are given by Russia who puts a number of officers at the disposal of Tito's army. In a concentration camp, not far from Belgrado - Diziplinskog - there are about 500 Italians the majority from Greece. Their treatment is absolutely beastly eevn surpassing the German.

CATTARO : In Cattaro there is another concentration camp n.59 where there are more than 400 Italian, not far from this one, there is another also n.59 where about 150 women are gathered amongst which a number of Germans. There is no difference in treatment.

The condition of the population is drastic for lack of food supplies, and is terrified of the abuses etc. The men try to go to the woods to join the partisans against Tito.

FIUME : The raiding of men in this town is becoming more frequent. Those of Fiume are obliged to join the Yugoslav army, whilst the Italians are sent to concentration camps.

PISINO : The population of Pisino, obliged to stand for the abuses of those of Tito, wishes to let the Italian authorities and the Commission

1392

Declassified E.O. 12356 Section 3.3/NND No. 785016

known that in S.Elena di Pisino there is a sort of cave in which 40 bodies of Italians are thrown, guilty of being only Italian. In this area there are quite a few of these caves, in similar conditions, which the population has not forgotten. The parish priests of these localities, on various occasions, have begged the Allied Authorities to have these barbarities stopped, but in vain.

These same priests, in name of the citizens, ask that these scenes be described to the Commission.

SESANA : Near Sesana, at the confines of zone B, an armed division has been echeloned, a number of canmns, pointed towards Trieste have been placed in the same area.

10 March 46.

Political Situation in the Province of Gorizia

The administrative situation of Gorizia appears to have improved since 10 Sept. '45, as Yugoslav elements were substituted by those prefemed by the Allies.

In the 8 Italian communes and in a Yugoslav one of the Alto Isonzo (Bergamo) the local administrations have been reconstructed. The political situation of the province should be examined and distinguished in 4 zones:

a) in the Friuli Zone (completely Italian on the ethnic side), the communist ideal, which is maintained more in Tito's Yugoslavia, nevertheless makes propaganda amongst the Italians, for Tito. Thus this attitude of the population which is now disposed towards Yugoslavia, is explained.

b) in the Vipacco Valley and Carso (ethnically Yugoslav) the Italian action is difficult, as the situation is still locally dominated by extremist elements, often coming from beyond the frontier.

c) in the Isonzo Valley (Yugoslav) the antagonism between communists and 'demobranzi' (?) and the reaction of the latter is accentuating more and more.

d) in the Collio area (which up to a few months ago was absolutely impenettable) the Yugo-communist party has reached a minimum, inasmuchas the population, gradually getting away from the action of the local committees at the orders of Tito, approaches the legal organs accepting to collaborate, for the return to order and normality.

Italian Element : (ethnically attached to Gorizia town and Friuli zone); some elements illumined by the communist propaganda have easily been led astray, others instead (the majority intellectuals) appear to be quite indifferent though still being strongly attached to Italy. This attitude is explainable, in a way, owing to the fear created by the Yugoslavs who persist in the active action of the

./.

Declassified E.O. 12356 Section 3.3/NND No. 785016

of the OZNA with a certain amount of diffendence for the Allies.

Yugoslav Elements : a communistic terroristic and propagandistic organisation, well paid and instructed, holds through the local Committees of the OZNA, the greater part of the Slavs in awe, except for quite a strong group of demobranzi openly and decidedly contrary. These appear to be for the Italians, but intimately are nationalists. Nevertheless, for the moment, it is convenient to take advantage of their hospitality towards Tito, always bearing in mind their true anti-Italian character. It is pointed out that the action of the Italain Govet. these last few months, has been based on criterions of ballance and partiality, which have given the sensation that the Italians know how to administer with justice and without hatred. This action though should be supported by a formal obligation of the Italian Govt. to recognise and grant the most ample regional autonomy.

Such an obligation would help in removing the diffidence and worries of the Slavs, thus showing them that today Italy no longer means Fascism, and would concur in undervaluing their propaganda. With regards to propaganda, it would be necessary to try to organise and strengthen it, in order to raise the morale of the Italians creating a special organisation of careful and capable elements amongst the Slavs, to oppose Tito's propaganda. In Gorizia, the Italian press is represented by two newspapers - l'Informatore (the Informer) and il Lunedì (Monday) - the former, weak and not very influential - the latter - quite aggressive. The latter, though, is read, above all, by the middle class, instead, through a newspaper carefully grounded, it would be necessary to reach the working class.

An efficacious means of propaganda would be the official sending by Italy, of supplies and clothing to be distributed free amongst the working class.

Clergy : According to the opinion of a few Italian priests, a noticeable improvement could be obtained, by the appointment of a Yugoslav Vicar General, in Gorizia - he could be Mons. Brumat. The Yugoslav clergy strongly insists on this point, but it should be done very tactfully, in order to give the impression that it is a concession not due to their pressings, but in recognition of their rights. Thus it would be advisable to have them understand that things have changed, not through their will but on direct initiative of Italy. Such an action is of great importance and urgency, inasmuchas the Yugo-Communist movement carries out amongst the clergy a new and dangerous propaganda, making believe, through emissaries, disguised as Catholics, that Tito ' is a phenomenon, behind whom Yugoslavia stands and for which it is necessary to fight.'

Thus it is necessary that the Italian Govt. take immediate action in dealing with the minority. This should be done at once so that its

Declassified E.O. 12356 Section 3.3/NND No. 785016

reflection, the first symptoms of reconciliation o' the Yugoslav clergy to Italy, on behalf of the Yugoslavs against Tito and the Inquiry Commission for 'enezia Giulia, is noticed. It is to be pointed out that Mons.Brumat in May 1945, expressed himself very favourably towards Italy, affirming that Venezia Giulia was Italian.

Gorizia Province

Pàlitical Situation : The political situation of Gorizia and province after the liberation and following the agreements between Alexander and Tito in June 1945 is as follows :

The events of last May are also known in this province, exclusively liberated from the nazi invasion by the contribution of Italian patriots.

Immediately after the liberation and a few hours before the arrival of New Zealand troops, the Yugo-Communists, attempted an enormous and tragic - bluff - und the Italian Committee of Liberation, trying to assume power, received an answer from two armed partisans, that their help was no longer required, as the tpnn and province had been occupied by Tito's troops and annexed to the Yugoslav Progressive Federative Republic, made part of Yugoslavia, without anyone's knowledge, in the famous -- -- - Aidussina convention.

All the deportations etc. are well known, also of those who had nothing to do with Fascism. Such a state of terror lasted till the 12th June, (period of the entering into force of the Alexander - Tito agreements) day in which the Yugoslav troops left the town and placed themselves along the Morgan line.

The anxiety of the Italian population was not yet over, as a large meeting of military and partisans of Tito, was held in the Vittpria Square of said town, in which it was affirmed that sooner or later they would return.

The U.A.I.S. (Unione anti-fasciste italo-sloveno - Italo-Yugoslav Anti-Fascist Union) having plenty financial means, has spent for propaganda (information received from confidential sources) up to this day, about 2 miliards lire. 3405

The methods of the Yugoslav Progressive Federation for the elections are well known, as all sorts of tricks have been thought of, for the gathering of signatures.

The dispositions issued by the U.A.I.S. awaiting the arrival of the Commission have been known through the Italian press, and are :- the expulsion of all Italians actually working in factories; the entry to Trieste and surroundings of 40,000 Yugoslavs, inviting the communists of Trieste to give them help and hospitality; Yugoslav flags will be brought to Trieste and all other flags taken down, using arms if necessary; a Women's Committee will go to the Allied Commission and talking completely in Yugoslav will ask for the annexation to the Yugoslav federation; dissolution and destruction of the offices, if necessary with the use of arms.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Deposits of arms are kept in the town, and further quantities are continuously arriving at the 'Casa del Popolo', hdqs of the U.A.I.S.

Confidential information reveals that there should be a revolt of Yugoslav elements, helped by the Italian Communists for the Yugoslav cause - in zone A.

The organisation of this revolt seems to have reached lately an impressing height. Naturally the Italian population lives in a state of continual anxiety. Furthermore, it is to be added that the political situation of Gorizia is serious, because a lege part of the civil police in uniform instituted by the Allied Military Government, is made up of Yugoslavs, the majority belonging to the O.Z.N.A;, the leader of which is said to be a certain OSSEBREK.

Italian propaganda is very scarse in comparison with that of the U.A.I.S. Various communes, absolutely Italian and where the Friuli dialect is spoken, have been completely conquered to the Yugoslav cause.

The Yugoslav population in zone B lives in a complete state of fear, as they have understood that their local leaders are fanatical communists ready to do anything.

Discontent is still felt among the population owing to the following provisions : searches in all houses and confiscation of foreign currency especially Italian ; doubling of taxes and confiscation of items of clothing, each member of a family being left with only five items of clothing.

Fortifications are being prepared in the Cal di Canale area. The local Yugoslav troops have been sent away and transferred tp Lubiana, being substituted by Croatian troops.

Italian and German concentration camps have been evacueed, as fortifications are being made.

Gorizia 1 March 46.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Political Situation of Venezia Giulia

While waiting for the arrival of the Allied Commission in this area - the people are living hours of anguish - especially in Trieste - there is an invasion of peasants from all over, gathering at the most central parts of the town, to create an artificial Balcanic atmosphere. The search for windows and balconies to hang out Yugoslav flags at the passing of the Commission, has reached a maximum. It appears that, especially in the main streets of the town - up to 20.000 lire have been paid for this. Communist elements, paid by Tito, have spent large sums in buying red varnishes for the paintings on the walls - 'Long live Tito ' etc.

Life is'nt worth living in Trieste - suspicion and fear reign everywhere, it seems that the very air will burst any minute.

A few days ago, in broad daylight 11.30 hrs - avv. Protulipac Giovanni - head of the Catholic Youth of Zagabria, was killed by a silent pistol shot, by an agent of the O.Z.N.A. (terroristic Yugoslav organisation).

The assassin, immediately arrested by the civil police, has not yet been identified, nor ever will, as he is in possession of covering documents issued by the Yugoslav authorities of Fiume. This crime has greatly shocked the citizens as being committed with such an insidious arm.

A number of members of the O.Z.N.A. circulate undisturbed and it is said that they are well armed with silent pistols.

The Allied Authorities, bearing an impartial attitude do not adopt any measures of protection to restore calm and trust amongst the Italians.

By the Alexander - Tito agreement - it had been understood that all deported persons and all things illegally taken away from Venezia Giulia during the 40 days of occupation, were to be returned, but 9 months have passed and nothing has been done - and owing to the reported requests of the Italian press, Col.Bowman, Governor of Venezia Giulia, has stated " that, one thing is having the right, and another is maintaining it ". His very words.

It appears that in the caves of the Carso area, there are bodies of Italians lying there beastly massacred. Only in that of Basovizza the Allies have found more than 1000 bodies reduced to a mass of human flesh.

From zone B very allarming news have reached us. Troops, cannons and armoured vehicles, transit during the night from the station of Fiume to all parts of Istria.

Fortifications are being prepared everywhere.

The general opinion is that, foreseeing the decisions of the Conference, not in conformity with the Yugoslav aspirations - the troops would make an attempt on Trieste, thus creating a situation which could cause repercussions of an international nature. Near Gorizia an

American soldier was murdered, in Trieste two American soldiers were also murdered whilst returning to their barracks. Many arrests and searches have been made within the area of the crime.

The mass of Italians has lost its reckoning regards the politics to follow. The various parties arisen, fight between themselves instead of forming one Italian party to combat the Yugoslav propaganda.

The National League has just come out again, famous for the work accomplished for the Italian cause. Its task is to develop popular institutions, to foster the best knowledge and diffusion of the language.

About 15.000 have inscribed to this League and the inscriptions are continuously increasing.

Trieste 13 Marzo 1945

Mi affretto ad inviare una breve relazione della incandescente situazione giuliana della zona A della Venezia Giulia, che minaccia di divampare in una rivolta, specie se si tien conto della parossistica campagna di odio della stampa locale asservita a Tito, e delle infiammatorie concioni degli oratori slavo-comunisti delle riunioni pubbliche e private.-

In occasione dell'arrivo della Commissione Alleata il lungamente preparato imbandieramento slavo della città rimase limitatissimo e periferico nonostante le pressioni, le lusinghe, le minacce, le coercizioni, i ricatti. Per sopperire almeno in parte a tale fiasco i caporioni slavo-comunisti ordinarono i propri adepti di fare bandiere jugoslave con stella rossa ovunque fosse possibile, sui pubblici edifici, su stabilimenti, su chiese, su tram ecc. nonostante il divieto del Governo Militare Alleato, che ne limitava la esposizione, sempre che volontaria, alle sole abitazioni private.-

In esecuzione a tale disposizione e su richiesta telefonica di enti e di privati la polizia civile accorreva nei punti più eccentrici della città, accolta ovunque dai dileggi, da insulti, da sputi, da minacce e da tentativi di aggressione e di linciaggio da parte di numerosi gruppi di scalmanati.

Quattro o cinque Agenti di Polizia ebbero a riportare ferite di varia entità ed uno ebbe asportato un orecchio dopo un colpo di roncola, mentre altri vennero disarmati, senza alcuna reazione violenta, pur tanto giustificata, contro gli aggressori.-

Ma agli agitatori slavo-comunisti necessitava l'incidente, che giustificasse l'inizio del maturato programma di sommosse o di terrorizzazione della popolazione. Ed ecco che nel pomeriggio di domenica 10

divampare la una rivolta,specie se si tien conto della parossistica campagna di odio della stampa locale asservita a Tito,e delle incendiarie esortazioni degli oratori slavo-comunisti dalle tribune pubbliche e private.-

In occasione dell'arrivo della Commissione Alleata il;lungamente preparato imbandieramento slavo della città riuscì limitatissimo e periferico nonostante le pressioni,le lusinghe,le minacce,le corruzioni, i ricatti.Per supplire almeno in parte a tale fiasco i cospiratori slavo-comunisti ciascuno i propri aderenti ad issare bandiere jugoslave con stella rossa ovunque fosse possibile,sui pubblici edifici,su stabilimenti,su chiese,su truc eco. nonostante il divieto del Governo Militare Alleato,che ne limitava la esposizione,sempre che volontaria,alle sole abitazioni private.-

In ossequio a tale disposizione e su richiesta telefonica di enti e di privati la polizia civile accorreva nei punti più eccentrici della città,accolta ovunque dai dileggi,da insulti,da sputi,da minacce e da tentativi di aggressione e di disarmo da parte di numerosi gruppi di esaltati.

Quattro o cinque Agenti di polizia ebbero a riportare ferite di varia entità ed uno ebbe asportato un orecchio da un colpo di roncola,mentre altri vennero disarmati,senza alcuna reazione violenta,per tanto giustificata,contro gli aggressori.-

Ma agli agitatori slavo-comunisti necessitava l'incidente,che giustificasse l'inizio del maturato programma di sommossa e di terrorizzazione della popolazione.Ed ecco che nel pomeriggio di domenica 10 corrente,gli agenti della polizia civile,recatisi nel sobborgo di Servola,d'ordine del Comando Alleato,per togliere una bandiera jugoslava con stella rossa arbitrariamente issata sul campanile di quella chiesa, furono aggrediti da due gruppi di facinorosi,uno asserragliato nel campanile e l'altro stazionante nel piazzale,quest'ultimo tendente a stringere in una morsa sinistra gli agenti operanti,che cercavano di in-

giurie,di sputi,di volgarità,di minacce.-

Con francescana prudenza gli agenti cercarono invano di calmare gli energumeni ed assolvere il loro compito,ma qualche colpo di arma da fuoco partito dalla folla stessa costrinse gli agenti asserragliati a far uso delle armi,causando la morte di due rivoltosi ed il ferimento di altri 15 o 20.-

Il conflitto fu accolto con soddisfazione dagli agitatori slavo-comunisti che prevalsero,a partire dalle ore 9 dell'11 corr.lo sciopero generale,imponendo a mezzo di squadre di facinorosi con stella rossa all'occhiello la chiusura di tutti i locali,delle scuole,delle aziende e la cessazione di qualsiasi attività produttiva.Indi scorrazzarono per la città,e specie nel centro,padroni incontrastati e provocatori insolenti, determinando infiniti incidenti (ad una bambina di 12 anni strapparono un piccolo distintivo tricolore italiano che portava all'occhiello.-)

Mentre la polizia alleata veniva consegnata in caserma,la polizia civile rifiutava di era restia ad uscire perchè le autorità alleate avevano prescritto di svolgere il servizio senza armi e col solo sfollagente,invano i cittadini invocarono telefonicamente l'intervento della polizia civile contro le squadre di facinorosi slavo-comunisti,per cui nelle giornate dell'11 e del 12 marzo la città di Trieste è stata alla loro completa mercé,vivendo,come vive tuttora,ore di angoscia e di terrore.Nella stragrande maggioranza dei triestini si annida il risentimento verso il troppo tollerante Governo Militare Alleato e particolarmente contro il Comitato Liberazione Nazionale per la Venezia Giulia,che ha passivamente subito la situazione e non ha voluto utilizzare i propositi reattivi,e più precisamente difensivi di gruppi di uniscoi italiani,ormai insofferenti degli arbitri e dei delitti slavo-comunisti.-

Nel pomeriggio di ieri 12 corrente si sono svolti i funerali delle due vittime del conflitto di Borvola con grande affluenza di slavo-comunisti,fatti venire con ogni mezzo dalle zone carsiche,dal goriziano,dalla

Questi precedenti fatti al Colonnello Robertson,che sostituisce l'assente Bowman,hanno chiesto lo scioglimento della polizia civile,richiesta respinta energicamente dal predetto ufficiale,nonché di conferenza col generale Harding,comandante del IXº Corpo Alleato,richiesta anch'essa non accolta.

La città è percorsa ogni da pattuglie di 3 o 5 uomini della polizia civile,perché si ritiene prossima la ripresa dello sciopero,mentre gruppi di italiani si organizzano,all'infuori del C.L.N.,per respingere la violenza slavo-comunista.Stamane una riunione dei commercianti ha deciso di tenere aperti i negozi in caso di ripresa dello sciopero e di opporsi a qualsiasi sopruso.-

Tra i gruppi filitaliani più numerosi spira un vento di fronda contro il C.L.N. e già ieri l'Associazione Partigiani Italiani,che ha pronti 1900 uomini pronti a tutto osare,decideva di presentare un ultimatum al C.L.N. perchè assumesse un energico atteggiamento contro la gravità dell'ora,altrimenti con l'adesione di altri gruppi italiani avrebbe immediatamente dato vita ad un comitato filitaliano che assumerebbe la direzione del movimento di difesa degli interessi italiani nella Venezia Giulia.La situazione è fluida e quindi potrebbe subire improvvise ed imprevedibili precipitazioni.-

carri armati pesanti e di artiglieria.-

Or ora mi giunge notizia che nel Friuli e nel Veneto le divisioni partigiane ""Osoppo-Friuli",formate di elementi aperti al comunismo che tanto proficuamente operarono nella regione triveneta nel periodo clandestino,si sono staccate dall'Associazione Nazionale Partigiani Italiani per le accentuate tendenze comuniste della Direzione Centrale (a Trieste,ad esempio,è venuto un rappresentante dell'A.N.P.I. di Milano recandosi e riconoscendo soltanto l'Associazione partigiani Giuliani - slavi al cento per cento- e misconoscendo l'Associazione Partigiani Italiani,circostanza ampiamente sfruttata dalla stampa locale slavo-comunista) e si sono mobilitate e riarmate per accorrere, ove fosse necessario,in difesa dei fratelli giuliani.-

Questa è in sintesi la situazione alle ore 16 del 13 marzo.-

Cosa avverrà nelle prossime ore o nei prossimi giorni? Soltanto un atteggiamento energico e risoluto del Governo Militare Alleato potrà contenere eccessi e riportare nella zona la normalità e la fiducia.

E' necessario che anche la stampa italiana assista la popolazione giuliana e non la faccia come il "Corriere d'Informazioni",il quotidiano più divulgato qui,che negli editoriali del suo direttore Mario Borsa non fa altro che attribuire colpe all'Italia e meriti alla Jugoslavia. Questo affligge e tormenta ancor più i giuliani delle prepotenze e violenze slave.- Non si potrebbe suggerire al Sig.Mario Borsa di essere meno jugoslavo o,quanto meno,di venire a vivere in privato in questa zona martoriata ed in questo particolare periodo? La stampa italiana molto deprime questi eroici ed oscuri combattenti,questi profughi,questi ignudi,questi affamati per la santa causa italiana.

All'ultima ora apprendesi che gli eccitatori slavo-comunisti continuano a minacciare fulmini e saette e che elementi dell'esercito jugoslavo,fortemente armati,si sono infiltrati nella zona A appostandosi a brevissima distanza da Trieste. Tale circostanza è stata anche confermata da disertori jugoslavi passati agli Alleati, in

In città continuano a verificarsi incidenti, per fortuna non gravi, sempre originati da slavo-comunisti.

Udine, 11 [illegible] 1945

La potentissima organizzazione terroristica jugoslava, nota sotto la sigla "O.N.", poneva che riguarda la Venezia Giulia e parte della provincia di Udine, ha il suo centro prevalente a Lubiana, con diramazioni principali a Fiume, Pola, Trieste, Gorizia e secondarie a Udine, Monfalcone, Idria, Tolmino, Caporetto, Gradisca d'Isonzo, Cormons, Cividale, Palmanova, Cervignano del Friuli e Latisana.

Molti elementi della provincia che militano nelle file del partito comunista vicentino appartengono alla politica guerrafondaia ed annessionistica di Tito, il quale pretenderebbe di estendere a gradi il territorio della sua repubblica federativa fino al fiume Tagliamento.

Le informazioni avute da fonte confidenziale, la presenza in mezzo le forze politiche-terroristiche di Tito comprendono invece la zona a e la pianura friulana.

Quando alle forze militari schierate dal dittatore jugoslavo nella zona e della Venezia Giulia fanno ritenere forze militari ingenti relativamente ingenti, è quasi logico che in caso di un colpo di testa, Tito rinuncerebbe a spingersi, in un primo tempo, il suo esercito fino al fiume Tagliamento, senza contare un possibile sforzo.

Alcune parte dispersa di forze e la scarsa capacità combattiva della truppa costituirebbero gli elementi che compongono nella maggior parte di reclute, sono note alla popolazione della provincia, così come è noto il nome di coloro fra i componenti i collegi di Tito, si è avuta in tutti coloro che erano rendersi conto di quella situazione una giusta [illegible]

sotto la sigla "O.V.R.", perciò che riguarda la Venezia Giulia e parte della provincia di Udine, ha il suo centro propulsore a Tarvisio, con diramazioni principali a Udine, Gorizia, Trieste, Gorizia secondarie a Tolmino, Postumia, Idria, Pelagno, Tarvisio, Gradisca d'Isonzo, Monfalcone, Palmanova, Cervignano del Friuli e Latisana.

Tutti elementi della provincia che ultimano nelle file del partito comunista slavo-italiano agganciati alla politica sovversiva ed espansionistica di Tito, il quale progetterebbe di estendere a grandi il territorio della sua repubblica federativa fino al fiume Tagliamento.

Le informazioni avute da fonte confidenziale, il pericolo maggiore le forze politiche-terroristiche di Tito provengono intorno la zona a e la pianura friulana.

Poichè allo scopo ulteriori schiarente del dittatore jugoslavo nella zona B della Venezia Giulia forse piuttosto forse ulteriori alcune relativamente colpo, è un mi fatti dubbio che in caso di un colpo di mano, Tito riuscirebbe a spingere, in un primo tempo, il suo esercito fino al fiume Tagliamento, senza incontrare un valido effettivo sforzo.

A circa questa direzione di forze e la scarsa resistenza contraria dell'esercito regolare nel Friuli, in quanto composto nella maggior parte di reclute, sono note alla popolazione della provincia, così come è noto il caso di sangue italiano da noi sono versati i soldati di Tito, ci è grata la tesi [illegible] rendersi conto di quale situazione una giustificata preoccupazione, per lo avvenire conseguente e le ulteriori irrevocabili a cui potrebbe condurre un simile iniziativa da parte di Tito.

Per il che maggio anche i comunisti filoslavi del la provincia dovrebbero insorgere per appoggiare un colpo di Tito.

Una tale insurrezione non sarebbe di pericolo quanto mai serio, in quanto è notorio che, nonostante i forti quantitativi di armi e munizioni già occultate e sempre ricercate durante i mesi scorsi dagli organi della polizia, i filoslavi subdoli posseggono ancora, ed in misura non trascurabile, materiale bellico di vario genere.

D'altra parte, le autorità anglo-americane attribuiscono grande problema [illegible] anzi risolvono, convinti come sono che in definitiva tutte le controversie ora esistenti debbano trovare [illegible] giuste soluzioni nel tavolo della pace anche se ci trattasi di [illegible] tare fatti compiuti.

Per un esame comparativo relativo alla situazione dei comunisti filoslavi della provincia, si può dire che nella zona di Gorizia -che in quel punto di vista è una delle più importanti- vi sia l'80% degli iscritti al partito comunista concernente ad una soluzione del problema della Venezia Giulia in favore di Tito.

Per quanto il filoslavismo non abbia in tutte le zone della provincia ancora lo sviluppo che si lamenta attualmente nel goriziano, è però fuori dubbio che il proselitismo per Tito e per la sua teoria di governo esiste ed è presente ed attivo ovunque, in quanto estendersi e propagandisti al servizio di tale ideologia sono ora facilmente a fare leva sulla massa dei disoccupati, sui mezzadri e sugli operai agricoli, ai quali vengono fatte promesse di benessere futuro a mezzo di spartizione ed espropriazione [illegible], qualora il Friuli entri a fare parte della repubblica federativa e progressista jugoslava.

A parte il fatto che alla gente umile e non sotto agli occhi degli [illegible] propaganda manca la possibilità di fare un giusto ragionamento ed una differenziazione fra quanto può essere raggiunto per il benessere sociale e fra quanto invece costituisce speculazione

Declassified E.O. 12356 Section 3.3/NND No. 785046

degli eventi della politica, i "fili invisibili" che legano ancora, ad un niente non trascurabile, materiale bellico di vario genere.

D'altra parte, le autorità anglo-americane attribuiscono grande problema importanza nel senso, convinti come sono che in definitiva tutte le controversie ora esistenti debbano trovare la loro giusta soluzione al tavolo della pace anche se si tratti di affrontare fatti compiuti.

Per un esame comparativo relativo alla situazione dei comunisti filoslavi della provincia, si può dire che nella zona di Gorizia -che in quel punto di vista è una delle più importanti, vi sia l'80% degli iscritti al partito comunista corrispondente al suo solito nella questione del problema della Venezia Giulia in favore di Tito.

Per quanto il filoslavismo non abbia in tutte le zone della provincia avuto lo sviluppo che si lasciava attualmente nel goriziano, è però fuori dubbio che il proselitismo per Tito e per la sua teoria di governo esiste ed è presente ed attivo ovunque, in quanto emissari e propagandisti al servizio di tale idea, riescono con facilità a fare leva sul [illegible] senso dei disoccupati, sui meno abbienti, sugli operai agricoli, ai quali vengono fatte promesse di benessere futuro a mezzo di spartizione ed espropriazioni, qualora il Friuli entri a fare parte della repubblica federativa e progressista jugoslava.

A parte il fatto che alla gente umile e non molto agli appartenenti alla propaganda manca la possibilità di fare un giusto apprezzamento di una differenziazione fra quanto può essere raggiunto per il benessere sociale e fra quanto invece costituisce speculazione politica di partito, va altresì tenuto presente che difetta generalmente un'efficace azione di contropropaganda che smascheri alla realtà i fenomeni e che riesca con parole facili e piane opere la giusta difesa del popolo lavoratore ed eserciti contro subdole suggestioni, che riescono di avvolgere l'anima umana e del passato. Vero è, però, che un'azione propagandistica del

Declassified E.O. 12356 Section 3.3/NND No. 785016

genere commesse nelle attuali contingenze rischi per la sicurezza personale di cui se ne vanta fautore, come i due casi qui di seguito descritti stanno a dimostrare.

Tempo fa, un guardaccampo della tenuta "Colombare", nel pressi di Aquileia, già appartenente alle organizzazioni ecovane durante il periodo di lotta clandestina per la liberazione, essendo stato scoperto -per un linguaio postale- come elemento che agiva contro il movimento filoslavo, veniva da emissari di Tito fatto sparire e probabilmente deportato in Jugoslavia, dato che di lui non si è finora riusciti a trovare la minima traccia.

Altro fatto, assai grave del precedente, ma ugualmente caratteristico ai fini di illustrare l'atmosfera di terrore instaurata in certe zone della provincia contro chi osa manifestare sentimenti di italianità, è quello accaduto giorni or sono a tale CASTELLI Mario, abitante in Fulfaro (Cividale), il quale, per disapprovato la propaganda filoslava, per essere sospettato di avere trasmesso ai suoi delle frasi di italianità e di avere denunciato ai organi della polizia alleata l'esistenza di una radio-trasmittente clandestina, che serviva a tenere contatto con emissari di Tito della zona B, veniva da alcuni suoi compaesani aggredito e malmenato, nonchè minacciato di conseguenze peggiori, qualora non avesse provveduto a modificare sollecitamente le sue idee.

3453

Come si è avuto gli altre volte occasione di riferire, gli organizzatori del movimento filoslavo hanno avuto cura di scegliere in diverse località, situate specie sulle Prealpi Giulie e nelle valli dell'Judrio e del Natisone, gruppi di individui notoriamente temuti per il loro temperamento violento, i quali, bene compensati, ricevono ogni genere di armi e tutte le istruzioni per la lotta che non cessano ribellarsi, in questo tempo, soprusi

[illegible] un [illegible] della tenuta "Colombara", sul prossimo di Anzio, già appartenente alle organizzazioni sovversive durante il periodo di lotta clandestina per la liberazione, essendo stato scoperto -per un disguido postale- come elemento che agiva contro il movimento filoslavo, veniva da emissari di Tito fatto sparire e probabilmente deportato in Jugoslavia, dato che di lui non si è finora riusciti a trovare [illegible] alcuna.

Altro fatto, meno grave del precedente, ma ugualmente caratteristico ai fini di illustrare l'attività di terrore instaurato in certe zone della provincia contro chi osa manifestare sentimenti di italianità, è quello accaduto giorni or sono a tale CERUTI Mario, abitante in Sulmona (Dividale), il quale, per disapprovare la propaganda filoslava, per essere sospettato di avere trasmesso nei suoi delle frasi di italianità e di avere denunciato ai organi della polizia alleata l'esistenza di una radio-trasmittente clandestina, che serviva a tenere contatto con emissari di Tito dalla zona M, veniva da alcuni suoi compaesani aggredito e malmenato, nonchè minacciato di conseguenze peggiori, qualora non avesse provveduto a modificare sollecitamente le sue idee.

3453

Come si è avuto già altre volte occasione di riferire, gli organizzatori del movimento filoslavo hanno avuto cura di scegliere in diverse località, situate specie nelle Prealpi Giulie e nelle valli dell'Judrio e del Natisone, gruppi di individui notoriamente temuti per il loro temperamento violento, i quali, bene organizzati, riescono con minaccie di ogni genere a tenere soggiogata intera comunità, che non osa ribellarsi, in quanto temono rappresaglie e deportazioni da parte di gruppi armati slavi, che possono facilmente varcare la linea di demarcazione per portare in territorio nazionale.

L'opera di questi elementi avvalenti dell'"OZNA", riesce tanto più agevole, in quanto l'autorità italiana risulta rappresentata

Declassified E.O. 12356 Section 3.3/NND No. 785016

i quali sono unicamente da pochi carabinieri, i quali, per dislocazione o per esiguità di forze, non hanno logicamente materiale di svolgere una efficace opera di controllo onde prevenire o reprimere le violenze che vi si lamentano. Gli abitanti di detta zona si sentono perciò avviliti, nonchè abbandonati all'arbitrio di pochi facinorosi.

Continua inoltre, specie nella zona di Cervignano e Palmanova, l'incetta di viveri di ogni genere, i quali vengono avviati nella zona B della Venezia Giulia. Anche recentemente -accogliendo i numerosi filoneisti o trafficanti con la complicità diversi quintali di carne suina ha potuto raggiungere ed oltrepassare la linea di demarcazione.

Per difetto di mezzi, specie nei trasporti, gli organi di polizia non sono sempre in grado di affrontare con probabilità di successo situazioni che richiederebbero rapido ed immediato intervento.

La provincia di Udine costituisce per la sua ubicazione geografica nel momento attuale, un punto nevralgico particolarmente sensibile e per salvaguardare i nostri interessi nella zona è perciò quanto mai necessaria la presenza di numerose e scelte forze di polizia, dotate di mezzi adeguati.

3457

E' vero che in ultima analisi i destini di questa terra saranno fissati al tavolo della pace, ma non è men vero che per conservare la simpatia e la stima della popolazione che vive ai margini della linea di demarcazione, è indispensabile che l'Italia si faccia carico di tutti di proteggere i cittadini minacciati dagli intrighi slavi, specie quando i cittadini stessi appartengono a comunità con

per le violenze che vi si lamentano. Gli abitanti di dette zone si sentono perciò avviliti, rassegnati abbandonati all'arbitrio di pochi facinorosi.

Sentiamo inoltre, specie nella zona di Cervignano e Palmanova, l'incetta di viveri di ogni genere, i quali vengono avviati nella zona B della Venezia Giulia. Anche recentemente sono stati eseguiti rilevanti e tradizionali con un scrupoloso diversi quintali di orzo che avrebbero potuto raggiungere ed oltrepassare la linea di demarcazione.

Per difetto di mezzi, specie di trasporto, gli organi di polizia non sono sempre in grado di effettuare con probabilità di successo situazioni che richiederebbero rapido ed immediato intervento.

La provincia di Udine costituisce per la sua ubicazione geografica nel momento attuale un punto nevralgico particolarmente sensibile e per salvaguardare i nostri interessi nella zona di confine sarebbe necessaria la presenza di numerose e scelte forze di polizia, dotate di mezzi adeguati.

E' vero che in ultima analisi i destini di questa terra saranno discussi al tavolo della pace, ma non è men vero che per conservare la simpatia e la stima della popolazione che vive ai margini della linea di demarcazione, indispensabile che l'Italia si faccia sentire presente e nei limiti del possibile pronta ad intervenire non solo ai fini di proteggere i cittadini minacciati dagli intrighi slavi, specie quelli i cittadini stessi appartengono a comunità cospicue entro i vecchi confini.

In merito al compito che dovrà svolgere la costituzione recentemente giunta nella Venezia Giulia, si apprende, da fonte degna di fede, che la sua presenza ed il suo lavoro costituirebbero una specie di "pro-forma", in quanto il confine politico tra l'Italia e la Jugoslavia sarebbe già stato tracciato a Londra e corrisponderebbe

Declassified E.O. 12356 Section 3.3/NND No. 788016

bo, salvo qualche lieve rettifica, alla vecchia linea Wilson. Unico motivo di contrasto rappresenterebbero le miniere dell'Arsa, per le quali vi esisterebbero però molte probabilità in favore dell'Italia, alla quale, già padrona di materie prime, non si vorrebbe togliere questo bacino carbonifero.

Da fonte ugualmente degna di fede si apprende, inoltre, che nella seconda quindicina del mese di febbraio erano stati fatti dall'interno d'Italia a Trieste una quindicina di ufficiali jugoslavi appartenenti al partito comunista, i quali, per incarico che avrebbero ricevuto da superiori elementi, avrebbero oltrepassato la linea di demarcazione, allo scopo di assumere informazioni sulla situazione politico-militare della Jugoslavia. Dopo un periodo di tempo preventivamente fissato, gli ufficiali stessi dovrebbero presentarsi parte a Villacco, parte a Klagenfurt e parte a Graz, per riferire alle autorità militari alleate ivi dislocate sul risultato del loro viaggio.

Sempre per tramite confidenziale, è stato appreso sulla situazione interna della Jugoslavia, quanto appresso:

"La situazione nella VII Repubblica degli stati Federativi della libera Jugoslavia non è delle più fluide e diversa da quanto è i veri, più o meno presunti propagandisti di Tito vogliono fare credere.

La reazione si fa sempre più intensa e per quanto l'attuale governo voglia fare credere che esso sia attuato da elementi democratici e filofascisti, ciò è falso. La realtà è che il popolo è stanco della dittatura titina, del terrore comunista, della mancanza della libertà di culto, di parola e di ogni altra sorta.

Reparti bene organizzati e capaci ti dal generale Mihailovic operano in tutta la Jugoslavia ed il popolo vede in essi la vera libertà e, finalmente, col concorso di questi, di un vero periodo di li-

bacino carbonifero.

Un fatto ugualmente degno di nota si apprende, inoltre, che nella seconda quindicina del mese di febbraio scorso sono giunti dall'Italia a Trieste una quindicina di ufficiali jugoslavi appartenenti al partito monarchico, i quali, per incarico che avrebbero ricevuto da organi alleati, avrebbero oltrepassato la linea di demarcazione, allo scopo di assumere informazioni sulla situazione politico-militare della Jugoslavia. Dopo un periodo di tempo preventivamente fissato, gli ufficiali stessi dovrebbero presentarsi parte a Villacco, parte a Klagenfurth e parte a Graz, per riferire alle autorità militari alleate ivi dislocate sul risultato del loro viaggio.

Sempre per tramite confidenziale, è stato appreso sulla situazione interna della Jugoslavia, quanto appresso:

"La situazione della VII Repubblica degli stati federativi della libera Jugoslavia non è delle più floride e diverse da quanto i vari più o meno prezzolati propagandisti di Tito vogliano fare credere.

La reazione si fa sempre più intensa e per quanto l'attuale governo voglia fare credere che essa sia attuata da elementi fascisti o filofascisti, non è tale. La realtà è che il popolo è stanco della dittatura titina, del terrore comunista, della mancanza della libertà di culto, di parola e di ogni altra sorta.

Soprattutto tutti gli organismi e congegni del generale Mihailovic operano in tutta la Jugoslavia ed il popolo vede in essi la vera liberazione, l'inizio, col successo di questi, di un vero periodo di libertà in un clima di giustizia e di benessere.

Oltre alla reazione interna, che ha lo scopo di rovesciare l'attuale governo, c'è un fermento considerevole anche all'esterno. Questo movimento, che da tempo organizzato può da un momento all'altro dar una fase storica, quale attuale passare ad un'azione decisiva, ha una probabilità di quasi il cento percento.

Da quanto riferisce una persona fidata,recentemente venuta in Italia dalla Jugoslavia,si apprende che l'attuale governo è deciso nel volere proseguire nell'impegno gli accordi con le Nazioni Alleate e oltrepassare con reparti in assetto di guerra la frontiera italiana e militarmente occupare,per sorvegliarvi il territorio,la zona della Venezia Giulia,Trieste e parte del Friuli.La stessa persona che riferisce questo,soggiunge che ciò è una cosa ben vista negli ambienti della resistenza in quanto gli stessi capotenebbero un tanto per poter agire apertamente ed avere così un mezzo sicuro per rovesciare il governo ed instaurare la Monarchia con Re Pietro.

Il Governo monarchico non avrebbe pretese territoriali nei confronti dell'Italia.

Nella zona B è avvenuto di molto,nelle ultime ventiquattro ore,l'afflusso di truppe dal Montenegro.Il movimento di queste truppe è diretto,abbondano armi automatiche portatili,provenute in parte da materiale tolto agli italiani e tedeschi ed in parte di fabbricazione russa.Si notano diversi pezzi di armi automatiche e anche qualche pezzo di artiglieria di non lunga gittata.Il morale di queste truppe è ottimo in quanto la propaganda è diretta ad incitare in essi l'odio contro l'Italia e gli italiani,definiti,anzi della razza di sangue italiano.

Nei reparti di rientro di tanto in tanto qualche caso di diserzione.Il loro equipaggiamento è discreto.I soldati sono in prevalenza elementi giovani,la quasi totalità dei quali ha partecipato alla guerra partigiana.Il loro compenso è discreto e viene provveduto alla loro famiglia a mezzo di sussidi.Il governo pone la massima attenzione su queste truppe (dislocate lungo la nostra frontiera),in quanto da esse dipende l'esistenza del governo stesso".

lente sull'atteggiamento dei reparti di pronto intervento italiano e alleato ancorato per sorvegliare il territorio della Venezia Giulia e parte del Friuli. La stessa persona che riferisce questo, aggiunge che ciò è una cosa ben vista negli ambienti della reazione in quanto gli stessi aspetterebbero un fatto per poter agire apertamente ed avere così un nuovo alibi per rovesciare il governo ed instaurare la Monarchia con Re Pietro.

Il Governo americano non avrebbe pretese territoriali nei confronti dell'Italia.

Nella zona B è corsa voce di molto, nella ultima ventiquattro ore, l'afflusso di truppe del IX corpo. L'armamento di queste truppe è discreto, abbondano armi automatiche portatili, ricevute in parte in materiale tolto agli italiani e tedeschi ed in parte di fabbricazione nuova. Di nuovo è vero portaferi con di armi automatiche e anche qualche pezzo di artiglieria di non lunga gittata. Il morale di queste truppe è ottimo in quanto la propaganda è riuscita ad infiammare in essi l'odio contro l'Italia e gli italiani, addirittura, nati dalla sete di sangue italiano.

Nei reparti di vertice di tanto in tanto qualche caso di diserzione. Il loro equipaggiamento è discreto. I soldati sono in prevalenza elementi giovani, la quasi totalità dei quali ha partecipato alla guerra partigiana. Il loro compenso è discreto e viene provveduto alle loro famiglie a mezzo di cupons. Il governo pone la massima attenzione su queste truppe (dislocate lungo la nostra frontiera), da cui dipende l'esistenza del governo stesso".

Nel trasmettere il presente rapporto si fa riserva di comunicare quanto prima ulteriori notizie sulla situazione della Venezia Giulia e sugli sviluppi che la situazione prenderà in quella zona, specie dopo l'incidente accaduto giorni or sono fra la popolazione di Servola (Trieste) ed organi della polizia civile alleata e di cui è stato ampiamente riferito dalla stampa.

In merito all'incidente stesso si ritiene opportuno richiamare l'attenzione su un discorso recentemente pronunciato dal Generale Sir John Harding, comandante del 13° Corpo, agli ufficiali comandanti di unità da lui dipendenti, in cui ribadisce la necessità di fare rispettare la legge e mantenere l'ordine durante i prossimi mesi.

NOTIZIE CONFIDENZIALI RIGUARDANTI LA VENEZIA GIULIA (ZONA B)
ED ALCUNE CITTÀ DELLA JUGOSLAVIA

= ZARA: La città, é stata completamente abbandonata dalla popolazione, costretta dalle autorità a portarsi nell'interno. La maggior parte degli uomini validi si é data ai boschi, ingrossando le fila dei partigiani del movimento contro Tito. La ragione del provvedimento é spiegata dal fatto che l'esercito jugoslavo si aspetta, molto prossimamente, uno sbarco da parte degli Alleati a Zara. Intanto le truppe di Tito hanno saccheggiato letteralmente la cittadina casa per casa.-

= LUBIANA: Da qualche giorno Lubiana é in istato di assedio per i disordini provocati da elementi partigiani contrari al regime di Tito. Mancano assolutamente i viveri e la popolazione di Lubiana é atterrita di fronte all'incerto sviluppo della situazione.-

= KRANJ: Nel campo di concentramento per prigionieri italiani di Kranj, le cose non vanno come la stampa di sforza di fare apparire. Il trattamento fatto ai prigionieri é bestiale e contrario ad ogni legge umana. Essi sono costretti a lavorare continuamente, e, malgrado le condizioni fisiche in cui sono ridotti dalla prolungata denutrizione, vengono adibiti ai lavori più pesanti. Vivono in una sporcizia metallosa, dormono vestiti e senza coperte, ed il vitto si riduce ad una brodaglia, amministrata una sola volta al giorno. Una sola cosa abbonda nel campo: la fustigazione praticata dai sorveglianti per un nonnulla.

= KARLOVAC: A Karlovac esiste un campo di smistamento di prigionieri militari italiani. A tale campo vengono inviati, di preferenza, tutti i militari nati o residenti nella Venezia Giulia. I prigionieri vengono quivi trattati assai barbaramente che in tutti gli altri campi ove peraltro ritrovasi già cittadini del settimo stato

- MACERATA: Nel campo di concentramento per prigionieri italiani di Ragusa, le cose non vanno come la stampa si sforza di fare apparire. Il trattamento fatto ai prigionieri è bestiale e contrario ad ogni legge umana. Essi sono costretti a lavorare continuamente, e, malgrado le condizioni fisiche in cui sono ridotti dalla prolungata denutrizione, vengono adibiti ai lavori più pesanti. Vivono in una sporcizia indescrivibile, dormono vestiti e senza coperte, il vitto di ridotto ad una brodaglia, somministrata una sola volta al giorno. Una sola cosa abbonda nel campo: la punizione praticata dai sorveglianti per un nonnulla.

- KARLOVAC: A Karlovac esiste un campo di smistamento di prigionieri militari italiani. A tale campo vengono inviati, di preferenza, tutti i militari nati o residenti nella Venezia Giulia. I prigionieri vengono quivi trattati meno barbaramente che in tutti gli altri campi sia perchè ritenuti già cittadini del settimo stato federativo jugoslavo, sia perchè si cerca selezionarli per inviarli a frequentare corsi di politica in Russia. Infatti, coloro che aderiscono, vengono subito trattati benissimo e fatti partire, segretamente, alla volta del "paradiso bolscevico".

- BELGRADO: Continuano, a ritmo accelerato, le operazioni per la chiamata alle armi degli uomini dai 18 ai 25 anni. A mano a mano che questi si presentano, sono vestiti con divise di varie qualità e vengono inviati a rafforzare lo schieramento presso la linea Morgan. Le armi e le munizioni sono fornite dalla Russia la quale mette a disposizione dell'Esercito di Tito il numero necessario di ufficiali richiesti.

- BELGRADO: Nel campo di concentramento, posto a pochi chilometri da Belgrado, e, più precisamente a UZICIPLIENGROD, si trovano circa 500 uomini italiani provenienti per la maggior parte dalla Grecia. Il trattamento è addirittura bestiale e tale da superare lo stesso metodo tedesco. Le persone che hanno una certa coltura, vengono adibite a servizio di Ufficio, ma con la proibizione assoluta di scrivere a chicchessia, di far conoscere che sono in vita e dove si trovano.-

- CATTARO: A Cattaro esiste un altro campo di concentramento distinto col n. 99, ove sono raccolti poco più di 400 uomini italiani.

A poche centinaia di metri da esso esiste un altro campo contrassegnato col n. 99 II, ove sono state raccolte circa 2407 donne, tra le quali alcune decine di nazionalità tedesca. Anche nel campo femminile il trattamento non differisce dagli altri, con l'aggravante che le donne, poste in vicinanza del reparto uomini, devono sottostare alle voglie insane della soldataglia preposta alla vigilanza, alla presenza dei propri connazionali.

Il vitto è composto da un pasto giornaliero consistente in una broda di rape e carote e da 50 grammi di pane, che non viene distribuito tutti i giorni.

SITUAZIONE POLITICA IN PROVINCIA DI GORIZIA

La situazione amministrativa in quella città presenta attualmente un sensibile miglioramento rispetto a quella esistente al 10 Settembre 1945, allorchè i cosidetti organi popolari jugoslavi vennero sostituiti con quelli preposti dalle Autorità Alleate.

Negli 8 Comuni Italiani e in uno sloveno dell'Alto Isonzo (Bergamo) si è ricostituita integralmente l'Amministrazione locale con i Presidente e i rispettivi Consigli Comunali.

Negli altri (sloveni) si è riusciti a riorganizzare gli Uffici municipali e a farli funzionare discretamente,ma gli uffici stessi,continuano ad essere retti da Ufficiali Alleati,in quanto agli elementi locali,costantemente minacciati dai fiduciari di Tito,non è consentita alcuna partecipazione alla vita politica.

La situazione politica della Provincia va esaminata distinguendola in quattro zone:

a) nella zona friulana (compattamente italiana dal lato etnico),l'ideale comunista,che alla massa operaia si fa credere più facilmente realizzabile nella Jugoslavia di Tito,agevola purtroppo fra gli Italiani la propaganda a favore di quest'ultimo. Ciò spiega l'atteggiamento di quella parte (non forte del resto) della popolazione che propende per la Jugoslavia.

b) Nella Valle del Vipacco e nel Carso (etnicamente slovena),la mostra azione è difficile,perchè la situazione locale è ancora dominata,con il terrore,da elementi estremisti,spesso provenienti da oltre frontiera.

c) Nella Valle dell'Isonzo (slovena) si è accentuato l'antagonismo fra comunisti e democratici e la reazione da parte di questi ultimi va facendosi sempre più netta e più forte;

d) nel Collio Goriziano (che fino a mesi fa,era ancora per noi politicamente e amministrativamente impenetrabile),il partito slavo-comunista è stato dopo lungo lavoro,messo in netta minoranza,in quanto che la popolazione, sottraendosi all'azione dei Comitati locali agli ordini di Tito,si avvicina agli organi legali ed accetta di collaborare con essi per il ritorno all'ordine ed alla normalizzazione.

ELEMENTO ITALIANO (etnicamente compatto a Gorizia capoluogo e nella zona friulana): di fronte ad una parte che,allettata dal miraggio comunista si è lasciata travisare e staccare dalla propaganda slovena,sta la grande maggioranza che però (salvo i giovani e il gruppo intellettuale) si dimostra piuttosto inerte,pur essendo profondamente attaccata alla Madre-patria.

Tale atteggiamento si spiega,da un lato,con lo stato di timore creato dall'opera intimidatrice slava che persiste specie con azione molto attive

Declassified E.O. 12356 Section 3.3/NND No. 785016

dell'OZNA e,dall'altro,con un certo senso di diffidenza verso gli alleati.
ELEMENTO SLOVENO: un'organizzazione comunista terroristica e propagandistica,ben istruita e ben pagata,mentre, a mezzo dei Comitati locali e dell'OZNA,in soggezione la gran parte degli sloveni,salvo il gruppo,abbastanza forte,dei democratici apertamente e decisamente contrari.

Costoro si affiancano agli elementi italiani,ma nell'intimo però sono anch'essi irriducibili nazionalisti. Comunque per il momento sarebbe opportuno sfruttare la loro ostilità al regime di Tito,tenendo,peraltro,sempre presente il loro vero carattere anti-italiano.

Si fa presente che l'azione del Governo Italiano negli ultimi mesi, ispirata a criteri di saggio equilibrio e serena parzialità,ha valso a rimuovere diffidenze e ad incrinare il campo avversario,in quanto si è avuta la netta sensazione che gli Italiani stanno amministrare con giustizia e senza preconcetti di odio o intenti oppressivi nei confronti degli sloveni.

Tale azione però,a giudizio anche di autorevoli esponenti politici locali,dovrebbe ora essere corretta da un impegno formale del Governo Italiano di riconoscere e concedere la più ampia autonomia regionale, con piena equiparazione e rispetto dei diritti di ambedue le nazionalità.

Un impegno del genere gioverebbe a rimuovere ulteriormente le diffidenze e le preoccupazioni degli sloveni,dimostrando così che l'Italia oggi non significa più fascismo,e concorrerebbe non poco a svalutare la propaganda avversaria.

A proposito di propaganda poi, è consigliabile di cercare di organizzarla e potenziarla al massimo,al fine di risollevare il morale degli italiani,creando un'apposita organizzazione con elementi esperti e capaci,anche nel campo sloveno,per contrapporsi alla propaganda titina.

La stampa italiana in Gorizia è presentemente rappresentata da due settimanali: l'Informatore e il Lunedì,debole e poco influente il primo ed alquanto aggressivo il secondo. Quest'ultimo,però,è letto soprattutto dalla classe meno,mentre invece occorrerebbe arrivare con un giornale

Inoltre sarebbe opportuno sfruttare la divisione "Gorizia",purchè sia intesa (e sempre dopo rigoroso vaglio dei suoi elementi) non come strumento militare,ma come organizzazione propagan-

distica e informativa.

Se,oltre ad un'azione "animatrice" per sollevare il morale degli italiani,occorrerebbe un'abile propaganda nel campo avversario,sfruttando fin che possibile le forze democratiche,da un lato,e contemporaneamente cercare di contrapporsi alla propaganda "slavo-comunista",con un potenziamento della propaganda "italiano-comunista". A tale ultimo fine,può riuscire utile il nuovo fronte comunista-italiano testè costituitosi a Gorizia.

Un efficace mezzo di propaganda sarebbe l'invio ufficiale da parte dell'Italia di viveri e vestiario da distribuirsi gratuitamente fra la classe lavoratrice.

C L E R O: Infine,per quanto riguarda il clero,anche secondo le opinioni di alcuni sacerdoti italiani,un sensibile miglioramento si potrebbe ottenere nominando a Gorizia un Vicario Generale sloveno,che potrebbe essere Mons.BENIAT. Il clero sloveno insiste molto su questo punto,ma occorre però che la cosa venga fatta con molto tatto,sì da dare agli sloveni l'impressione che si tratta di una concessione non dovuta alle loro pressioni,ma di un riconoscimento dei loro diritti. Gli slavi cattolici, infatti,insistono nel non credere alle promesse dell'Italia che "li ha bistrattati per troppi anni".

Pertanto sarebbe consigliabile far loro capire che le cose sono cambiate,ma non per loro volontà,bensì per iniziativa diretta dell'Italia stessa. Un'azione in questo senso è urgentissima e di estrema importanza, tanto più che il movimento slavo-comunista svolge fra il clero una nuova pericolosa propaganda,facendo credere, a mezzo dei loro emissari camuffati da cattolici,che Tito "è un fenomeno transeunte,dietro al quale sta la grande Jugoslavia per la quale è necessario lottare".

Si ritiene quindi necessario che il Governo Italiano prenda,senza indugio,in esame il problema ed il trattamento delle minoranze. Siccome però occorrono fatti concreti,sarebbe opportuno almeno per ora,che agli slavi dell'alta valle del Natisone,le cui Italianità è più che provata

cercare di contrapporsi alla propaganda "slavo-comunista",con un potenziamento della propaganda "italiano-comunista". A tale ultimo fine,può riuscire utile il nuovo Fronte comunista-italiano testè costituitosi a Gorizia.

Un efficace mezzo di propaganda sarebbe l'invio ufficiale da parte dell'Italia di viveri e vestiario da distribuirsi gratuitamente fra la classe lavoratrice.

C L E R O: Infine,per quanto riguarda il clero,anche secondo le opinioni di alcuni sacerdoti italiani,un sensibile miglioramento si potrebbe ottenere nominando a Gorizia un Vicario Generale sloveno,che potrebbe essere Mons.BENUAT. Il clero sloveno insiste molto su questo punto,ma occorre però che la cosa venga fatta con molto tatto,si da dare agli sloveni l'impressione che si tratta di una concessione non dovuta alle loro pressioni,ma di un riconoscimento dei loro diritti. Gli slavi cattolici, infatti,insistono nel non credere alle promesse dell'Italia che "li ha bistrattati per troppi anni".

Pertanto sarebbe consigliabile far loro capire che le cose sono cambiate,ma non per loro volontà,bensì per iniziativa diretta dell'Italia stessa. Un'azione in questo senso è urgentissima e di estrema importanza, tanto più che il movimento slavo-comunista svolge fra il clero una nuova pericolosa propaganda,facendo credere, a mezzo dei loro emissari camuffati da cattolici,che Tito "è un fenomeno transitorio,dietro al quale sta la grande Jugoslavia per la quale è necessario lottare".

Si ritiene quindi necessario che il Governo italiano prenda,senza indugio,in esame il problema ed il trattamento delle minoranze. Siccome però occorrono fatti concreti,sarebbe opportuno almeno per ora,che agli slavi dell'alta valle del Natisone,la cui Italianità è più che provata e che non propendono per Tito,venissero immediatamente fatte delle lievi concessioni (tanto più che essi non le hanno chieste) ed a ciò la stampa nazionale dovrebbe dare una grande risonanza.L'azione però dovrebbe essere svolta immediatamente in modo che il riflesso venga subito ricevuto dalla parte slovena avversa a Tito e la Commissione d'Inchiesta

pere la Venezia Giulia quindi,possa già notare i primi sintomi di risveglio sentimento del clero sloveno all'Italia.

Si fa rilevare che Mons.Brumat si espresse - nel marzo 1945 -quando cioè l'occupazione jugoslava di Gorizia lo costrinse a fuggire e a riparare a Verona - in modo molto favorevole all'Italia,affermando che la Venezia Giulia era ed è Italiana. E poichè Mons.Brumat è un autorevole esponente del clero sloveno,con lui potrebbero venir presi i primi contatti ed a lui potrebbe venir rilasciata una dichiarazione scritta e confirmata da chi ne fosse autorizzato dal Governo Italiano circa le concessioni agli sloveni che verrebbero fatte dall'Italia. In cambio Mons. Brumat dovrebbe impegnarsi a svolgere un'azione a noi favorevole o quanto meno contraria a Tito . Per evitare poi un eventuale voltafaccia di Mons.Brumat a nostro danno,in un opportuno momento,basterebbe ricordargli che i suoi discorsi tenuti a Verona nel 1945 potrebbero venir pubblicati immediatamente in Italiano e in Sloveno.

Di tutta quest'azione dovrebbero essere incaricate una o due persone che,munite di pieni poteri del Governo Italiano,possano liberamente agire.

SITUAZIONE POLITICA

La situazione politica della città di Gorizia e provincia, dopo la liberazione del nazi-fascismo ed in seguito agli accordi ALEXANDER-TITO del giugno 1945 è la seguente:

sono noti gli avvenimenti del maggio decorso anche in questa provincia, liberata dall'invasione dei ceti armati dai nazisti, soltanto col largo contributo di sangue da parte dei patriotti italiani.

Subito dopo la liberazione e poche ore prima dell'arrivo dei reparti neo-alleati che subirono un ritardo dovuto al fatto che i partigiani di Tito avevano fatto saltare i ponti sull'Isonzo per occupare prima la città, nella confusione generale determinatasi per tali avvenimenti, gli slavi-comunisti, tentarono un grossolano e tragico - bluff - ed al CONSIGLIO DI LIBERAZIONE ITALIANA che cercava di trattare per l'assunzione dei poteri dove la cacciata dai tedeschi, venne risposto, a cenno di due partigiane armate, che ormai la sua opera non era più necessaria, poichè questa città e provincia, erano state occupate dalle truppe di Tito ed era stata proclamata la loro annessione alla nuova Repubblica Federativa Progressista Slovena, facente parte della nuova Jugoslavia, annessione fatta all'insaputa di tutti nel famoso!..... convegno di Aldussina.

Sono note le foibe, le deportazioni di tutti gli esponenti italiani, anche di coloro che col fascismo non avevano avuto nulla a vedere, alle persecuzioni del tutto arbitrarie con relativo ruberie, dell'ordine di mobilitazione di tutti gli uomini dai 16 anni in poi e del trattamento degli arrestati che hanno riprodotto alla lettera i peggiori misfatti elettati dalla SS germaniche.

Tale stato di terrore durò fino al 12 giugno (epoca dell'entrata in vigore degli accordi Alexander-Tito) giorno in cui le truppe jugoslave sgombrarono la città e si acquartierano sulla linea di demarcazione "Morgan".

L'incubo della popolazione italiana non era ancora finito a tale data,

Sono noti anche i sistemi delle liste e schede di elezione alla Federativa Progressista slovena, per cui é fatto ricorso a tutti i trucchi possibili, prima sottacendo lo scopo della raccolta delle firme, poi procedendo con minacce, infine dichiarando che in caso di mancata elezione sarebbero state effettuate rappresaglie sui deportati ancora sono trattenuti nei vari campi della Jugoslavia.-

Innumerevoli sono gli archi di trionfo preparati in tutti i villaggi slavi per l'arrivo della Commissione Interalleata per la delimitazione del confine tecnico e l'apposizione su tutti i muri, sull'asfalto delle strade, in tutti i punti panoramicamente più evidenti, di scritte prestabilite inneggianti alla Jugoslavia, al Maresciallo Tito, ai poteri popolari.-

Ruggeri, Presidente di Zona (Prefetto) é orientato verso un'autonomia regionalistica, ma da una impressione di carattere subiettivo ricevuta in occasione di un suo colloquio con persona degna di fede, pare che ceda un pò troppo alle pretese degli slavi, che ai giorni scorsi chiesero il confine etnico nei pressi di Cividale.

Ai sistemi di propaganda dell'U.A.I.S. occorre sono stati quelli opposti dalla propaganda italiana, in parte per mancanza di mezzi ed in parte perchè nella popolazione italiana si é ingenerato un senso di paura.

Comuni come quelli di Grafenca, Parra, Sagrado, Villanova, Mariano del Friuli, Lucinico, Cormons ed altri, pressi prettamente italiani dove si parla il dialetto friulano, sono stati completamente conquistati alla causa slava.

Nel Comune di Cormons, 15 famiglie italiane che sono state individuate, hanno inviato i loro figli alle scuole slovene. (Nel Comune di Cormons sotto il dominio dell'Austria non é mai esistita una scuola slovena perchè Comune prettamente italiano.)-

Pertanto mezzi ed uomini per la propaganda dovrebbero essere forniti all'A.S.I. - Associazione Studenti Italiani - alla A.P.I. - Associazione Partigiani Italiani - alla A.G.I. - Associazione Giovanile Italiana, alla Camera del Lavoro ed, infine, con molto tatto dovrebbe essere convenientemente assistito il partito comunista italiano che é una frazione distaccata del partito comunista giuliano.

Si ha notizia di una formazione di Patrioti Italiani, elementi quasi tutti ex militari, al comando di un ufficiale superiore, che ha assunto la denominazione "Divisione Osoppo" che ha disegno di molte sovversione.

Quanto é stato possibile conoscere fino a é oggi é che la popolazione slovena nella zona B. vive in uno stato di spavento, poichè hanno visto con i loro occhi che i capi locali sono dei fanatici comunisti pronti tutto ad osare .

Mentre in tutto il territorio della Venezia Giulia si vivono spasmodiche ore di attesa nell'imminenza dell'arrivo della Commissione Alleata,si nota,specie a Trieste,un afflusso ininterrotto di contadini della Slovenia,della Croazia,del Carso che invadono le vie della città,sostando nei punti centrici con clamoroso vociare,per creare un artificioso colore balcanico.

La ricerca di balconi e finestre disponibili per esporre la bandiera jugoslava all'atto del passaggio della Commissione,si è intensificata al massimo grado.-

Risulta che,specie per le vie del centro,si sono pagate sino a L. 20.000 per l'esposizione di una bandiera jugoslava.

Nei giorni scorsi elementi comunisti giuliani,al soldo di Tito, hanno speso ingenti somme per comperare colori e vernici rossi che devono servire per cambiare il volto alla città con scritte inneggianti a Tito e al VII stato nella Federativa Jugoslava.

In Trieste non si vive più,vige la legge del sospetto e della paura,si sente nell'aria qualcosa che può sfociare da un momento all'altro in grevissimi torbidi.-

Sono diventati normali i rapimenti sulla pubblica via e spesso di pieno giorno,di italiani e slavi,invisi al governo di Tito.

Il Protulipac era in rapporti epistolari con personalità residenti in Inghilterra, Stati Uniti e col Vaticano.-

Il delitto ha prodotto enorme impressione sulla cittadinanza poichè commesso con un'arma così insidiosa.

Molti elementi dell'O.Z.N.A. circolano per Trieste indisturbati e si dice siano tutti armati di pistole con silenziatore.

Le Autorità Alleate, preoccupate di mantenere il più possibile un atteggiamento imparziale, non adottano misure cautelari che potrebbero restituire la calma e la fiducia nella stragrande maggioranza degli italiani che, fra l'altro, non si sentono sorretti dalla politica rinunciataria del nostro governo di Roma.

Nulla si sa ancora della sorte toccata ai 6 o 7 mila deportati dalla Venezia Giulia, durante i quaranta giorni della terroristica occupazione titina.

I familiari di tutti questi poveri infelici vivono in una angoscia indescrivibile, poichè non è dato loro sapere dove sono i loro cari.

Con l'accordo Alexander- Tito era stato convenuto che tutti i deportati e quanto era stato illegalmente prelevato e depredato nella Venezia Giulia durante i quaranta giorni di occupazione, doveva essere restituito, ma dopo nove mesi nulla è stato fatto e alle ripetute domande della stampa italiana nelle consuete conferenze stampa, il Governatore della Venezia Giulia Colonnello Bowman, (che molto opportunamente si è messo in congedo e ritornerà qui ai primi di aprile) ha dichiarato "che una cosa è avere il diritto e un'altra il poterlo fare valere" testuali parole.-

Risulta invece che nelle profonde foibe del Carso, giacciono dunque, massacrati bestialmente, corpi di nostri fratelli.

Nella sola foiba di Basovizza sono stati estratti dagli Alleati, nella massima segretezza, più di mille cadaveri ridotti ad un ammasso informe di carne umana.

giungono di questi giorni notizie veramente allarmanti.

E' un afflusso continuo di forze militari,provenienti dall'interno della Jugoslavia,che vanno ad aggiungersi ai già numerosi reparti dislocati nella zona.

Convogli ferroviari carichi di truppe,cannoni e carri armati,transitano di notte dalla stazione di Fiume per irradiarsi in tutta l'Istria.

Si stabbo allestendo febbrilmente ovunque lavori di fortificazioni campali specie nelle zone di Dignano,Gallesano,Pucana e Bosco Siana, località in prossimità di Pola.

Ovunque sono stati messi in efficienza i trinceramenti e i bunker a suo tempo costruiti dai tedeschi.-

Sulle **altume** circostanti la italianissima città di Capodistria,vicina alla linea di demarcazione verso Trieste,sono state collocate numerose batterie di cannoni a lunga gittata.

E' opinione generale che,in previsione di decisioni della Conferenza dei Quattro,non conformi alle aspirazioni jugoslave,le truppe metterebbero a ferro e a fuoco tutto l'Istria e tenterebbero un colpo di mano su Trieste,con l'evidente scopo di creare una situazione che potrebbe avere delle ripercussioni di carattere internazionale.

Nei pressi di Gorizia è stato assassinato da due militari jugoslavi un soldato americano. Identificati gli assassini,le autorità militari jugoslave si sono rifiutate di consegnarli agli Alleati e ora in tutti i comuni della Zona A sono affissi i bandi di ricerche delle Autorità Alleate,con le generalità e le fotografie in divisa militare dei due assassini.

Anche a Trieste due militari americani sono stati assassinati mentre rientravano alla loro caserma di Zaule.

I vari partiti sorti,come nel resto del Regno,con l'aggiunta di autonomisti e di indipendenti,si lottano fra di loro per principi programmatici ,quando invece dovrebbero formare un blocco granitico di italianità da contrapporre alla ben organizzata propaganda slava.

./.

Di questi giorni, però, è risorta a Trieste la Lega Nazionale, già famosa sotto il dominio dell'Austria, per l'opera di italianità svolta.

Essa ha il compito di dedicarsi allo sviluppo delle istituzioni popolari, di promuovere la migliore conoscenza e diffusione della nostra lingua e delle tradizioni culturali della nostra gente.

A questa Lega in una quindicina di giorni si sono iscritti oltre 50mila triestini e le iscrizioni continuano con un ritmo incessante.

SUBJECT : Public Order in Trieste.

TO : VP Civil Affairs Section.

1. With reference to the reports in the British and American newspapers on 12th March 1946 respecting a general strike and a clash between Police and Public in Trieste.

2. Information was received by phone from Lt. Col. Richardson, Assistant Chief of Police, Trieste, that on 11th March Police were called by the Churchwarden, at the behest of a Bishop of a Church in a suburb of Trieste, to remove a Yugoslav flag which was flying from the building.

A crowd gathered and becoming very hostile, stoned the Police and later a shot was fired at the Police by a person in the crowd.

The Police returned the fire. Two persons, one Italian, one Yugoslav, were killed and a number injured. The situation remained ugly for a time but eventually complete order was restored.

3. A Court of enquiry, ordered by the Corps Commander, to enquire into the incident is sitting at the present time.
