The confusion if any is more apparent than real.
 So many S/Es are only brought in. in order to clear the matter
 with all. Co-ordination is in being.

This whole question was raised because some customs
 schools in Rome were managed by Refugees. The CC decided
 that they should submit to find alternative accommodation
 for the refugees. That Education might try and find alternative
 accommodation for the schools. He thought that the suitability
 of certain buildings for these ¹⁰⁰ schools should be investigated.
 These proposals were among the buildings, ¹⁰⁰ ~~investigation~~
 seeing that some of the houses were very lowly
 and some were CC. R. R. Their suitability has to be cleared also
 with Customs and SS. even if they need to be cleared by
 R.A.C.

Co-ordination with R.A.C. on this subject is not in
 this form. SSA only indicates that even if these houses could
 be released they would not be available for education of Refugees.

The proper CC to deal with R.A.C. for the release of houses
 whether for the Army in the center is headquarters. They have the
 authority for the Army and say that there is no immediate prospect of

This Ministry with No. 300/47848/3-96 of 10 Oct. last, placed before you the grave difficulties met by the newly formed P.S. Office at the Naples harbour, owing to the urgent need of premises as quarters for P.S. Agents on duty there, and we begged you, as soon as the barracks situated in Villa Popolo was left vacant, to exclusively reserve it for the Harbour Police.

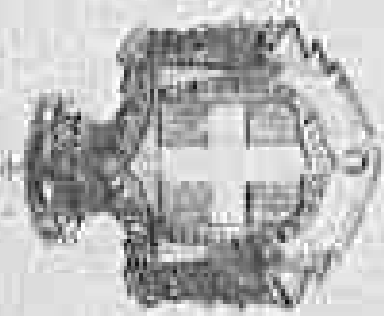

Following the concern of that Allied Commission with the Provost Marshall, on the 9th of Nov. last, with No. AC/14613/11/PS, we were informed that at the moment it was utterly impossible to derequisitioned the aforesaid barracks in favour of the harbour police, because the premises were still occupied by the Allied personnel.

Meanwhile, we particularly beg you to issue precise orders, that, as soon as the Allied Police leave the aforesaid barracks, the premises be exclusively reserved, in the interests of the police service, for the Naples harbour police.

Thanking you for an answer in regard.

Oggetto Porto di Napoli - Caserma ex milizia portuale
per agenti di P.S.

Questo Ministero con nota n. 300/47848/3-96 del 10 ottobre ultimo scorso, rappresentando all'On.le Commissione le gravi difficoltà che incontrava il ricostituito Ufficio di P.S. al porto di Napoli per la completa mancanza di locali da adibire a caserma degli agenti di P.S. addetti a quel servizio di polizia, rivolgeva preghiera affinché fosse riservata, non appena possibile, all'Ufficio di P.S. dello scalo marittimo, la caserma sita in località Villa Popolo, e già di pertinenza della disiolta milizia portuale.

A seguito dell'interessamento, di codesta On.le Commissione presso il locale Provost Marshall, veniva comunicato con nota n. AC/I4613/II/P.S. del 9 novembre scorso che, al momento, non vi era possibilità alcuna di derequisire la predetta caserma in favore dell'Ufficio di P.S. al porto, giacché i locali erano occupati dal personale alleato.

Si rivolge ancora particolare preghiera all'On.le Commissione affinché venga chiaramente disposto che, all'atto in cui le forze di polizia alleate abbandoneranno la suddetta caserma, i locali vengano riservati, nell'interesse dell'efficace funzionamento del servizio di polizia portuale, all'Ufficio di P.S. dello scalo marittimo di Napoli.

Sarà gradito un cenno di affidamento al riguardo.

It has now been found possible to withdraw all Allied Troops from the above barracks and to release them to the Ministry of War, by, or soon after, 15 January, with the exception of a small portion on the South West face of the barracks which it will be necessary to retain as a Disinfection Centre.

It is hoped that the retention of this small portion will not prove an embarrassment.

Headquarters,

Rome Area Allied Command.

DC/10.

12th December 1945.

Dear Maurice,

In reference to your AC/14612/11/FS of the 10th.

It is quite extraordinary how many guns from how many different directions have opened up on me in regard to the Caserma Ferdinando di Savoia, known to us as the Artillery Barracks, in the last week or two, and to what a multiplicity of purposes the Italian Government proposes to devote them. A few weeks ago Admiral Stone particularly asked for them as a home for refugees. It really begins to seem that the retention of these barracks is the outstanding obstacle which the Allies obstruct in the way of a re-birth of Italy.

At the present moment we have no discretion in the matter, for whatever may be the interest which the SAC takes in the Police, his Headquarters has instructed us not to release without his authority, which has not been given. I have asked that they may be removed from GHQ reserve and left to us for disposal at our discretion, but no favourable reply has yet been received. As a matter of fact I am not at all sure that, even if we were allowed discretion in the matter, we should be able to release them for they are of considerable importance to us, and though I must confess that at the moment we should concentrate there a lot of smaller holdings we have elsewhere in the City. However, I will see what we can do without them.

From another aspect I am bound to say that, according to our ideas, they are by no means ideally situated either as a Police training barracks or as pertainers for an internal security reserve. As you know as well as I, it has generally been the idea of the British Army in many parts of the world to have their schools and barracks in cantonments within reach of a city, rather than in its heart.

I am not at all convinced that full use is being made of the barrack accommodation which is already at the disposal of the Ministry of War in and around Rome, though of course I have to confess that we hold a good deal of it.

In the course of the next week or two the greater part of the barrack area in Cecchignola will be restored to the Ministry of War and this should provide particularly good and extensive accommodation, besides being in an area eminently suitable for training. This, however, I have discussed at some length with Wilfred Piggott.

I am not really being obstructive, and will help if I can.

From another aspect I am bound to say that, according to our ideas, they are by no means ideally situated either as a Police training barracks or as partners for an internal security reserve. As you know as well as I, it has generally been the idea of the British Army in many parts of the world to have their schools and barracks in cantonments within reach of a city, rather than in its heart.

I am not at all convinced that full use is being made of the barrack accommodation which is already at the disposal of the Ministry of War in and around Rome, though of course I have to confess that we hold a good deal of it.

1) - We transmit, for your information, copy of letter Q/219 dated 15 Nov. of the M.M.J.A.-

2) - We take this opportunity to inform you that at a meeting held, present the State Under-Secretary of the Interior, the Arma CC.RR. Commander, and a representative from this Cabinet, it was decided to make use of Ferdinando di Savoia barracks as training school for the 10,000 Public Safety Guards about to be recruited.

3) - We think that the ex Mussolini Barracks is more suitable, owing to its want of wide corridors and sheds, to hold Commands instead of Units. This Ministry will give further communication in regard.

4) - In connection with Systematization of CC.RR. units, you are begged to re-examine as a whole the quartering situation in Rome trying to proportion duly the needs of the Army with those of the CC.RR. Arma.

The Italian Government are most anxious to have the Ferdinando di Savoia barracks for either a Police Training School or the CO.ER in ROME. You know what a personal interest SACRED take in the police situation and how important it is to us as Allies. There have, I know, been made several requests by this Commission for the barracks.

Is there any possibility of you being able to release them as a special case?

My Dear Mr. Prime Minister:

I refer to your letter
of 10th November 1945 on the subject of the allocation
of the Ferdinando di Savoia barracks to the
Agents of Public Security for use as a Police School
in Rome.

The need for the provision of
accommodation for the Agents is well understood
but it is regretted that at the present time the
premises cannot be released by the military authorities
concerned.

Yours very truly

Dear Admiral,

You are aware that the Interior Department, which is doing everything to render the police forces more efficient, gives great importance to the functioning of the Police School in Rome, which it is trying to reorganize in the best possible way.

However, this school can only be efficient if it has sufficient and adequate premises, for it is advisable to have the largest possible number of people attending it.

To face such requirements, it would be most useful to allocate the Ferdinando di Savoia barracks, which according to our information, should soon be available.

Trusting in your interest for all that concerns the reinforcement of the Italian police, I bring this matter to your personal attention, and shall be most grateful if you kindly issue orders to have the said building handed over without delay.

Truly yours,

Caro Ammiraglio,

com' Ella sa, il Ministero dell'Interno, che persegue sempre con ogni impegno la sua azione intesa a rendere più efficienti le forze di polizia, annette particolare importanza al funzionamento della Scuola di Polizia di Roma, di cui si sta curando nel miglior modo possibile la riorganizzazione.

L'efficienza di detta Scuola è peraltro condizionata alla sufficienza e idoneità dei locali, tenuto anche conto dell'opportunità di accogliere il maggior numero possibile di partecipanti.

A tale esigenza potrebbe utilmente supplire l'assegnazione della Caserma Ferdinando di Savoia, che, secondo gli affidamenti già dati, si spera possa essere resa al più presto disponibile.

Fidando nella Sua sperimentata sollecitudine per tutto quanto ha tratto all'importante problema del rafforzamento della polizia italiana, mi permetto richiamare sulla questione la Sua personale attenzione, assai grata se vorrà compiacersi di dare disposizioni per la sollecita consegna di detto edificio.

SUBJECT: Barrack "Umberto I" at Ascoli Piceno for the Police training school;

As known, this Ministry has to proceed for urgent Police exigencies, to the enlistment of 10.000 P.S. guards, who shall be trained in an opposite training-school.

Because of the fact that we actually have no disponibility of rooms which could be used for the said school, it is absolutely necessary to temporarily occupy a barrack already used by ARMY units.

Among the fit barrack, has been pointed out the barrack " UMBERTO-I " at ASCOLI PICENO which is said to be requested as well by the Polish Command for the lodging of an artillery outfit.

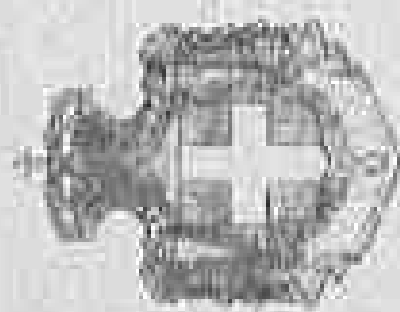

Considering the urgency of the P.S. exigencies which cannot be coped otherwise, we beg your Commission to arrange that barrack in question will be handed over to this Ministry.

As soon as your Commission shall communicate us its approval, this administration will proceed to the proper agreements with the Ministry of War for the temporary assignment of the barrack.

We beg your Commission to let us know at the earliest its opinion in regard.

Come è noto, questo Ministero per la indovinata esigenza di polizia, dove provvedere all'arruolamento di 10.000 guardia di P. S. che dovranno frangere apposti corsi di addestramento.

Perché attualmente non si ha la disponibilità di locali adatta per funzionamento della scuola allievi guardia, si rende assolutamente indispensabile edibile allo scopo, in via temporanea, qualche caserma già in uso di reparti dell'Esercito.

Tra le caserme idonee, è stato segnalato quella di locali Piceno denominata Umberto I°, che peraltro, sarebbe stata in questi giorni di per l'alloggiamento di un reparto d'artiglieria.

In considerazione di quanto sopra esposto, circa le urgenti necessità del servizio di P. S., che non possono essere altrimenti soddisfatte, si propone vivamente occorrente On. Comandante di compiacersi di voler disporre che la caserma in parola, sia prestata per uso di questo Ministero.

SUBJECT: PS. Motor-Pool situated via Tommaso Campanella -
Derequisition.

In reply to letter A.C. 14613/11 P.S. dated 1st inst.

With reference to letter No G.4/41/A dated 28 September ult and signed by Colonel C.M. Parkin, it is communicated that the question referring to the derequisition of the P.S. Motor-Pool Via Tommaso Campanella, has been attentively examined since many months by this General Directorate and its depending technical offices.

As at first the Allied Authorities and the Compartmental Inspectorate for Civil Motorization had communicated that the number of civil vehicles requisitioned to be delivered to the a/m Inspectorate was not over 80, the Direction of the P.S. Motor-Pool helped in every way to find out the premises fit to receive such vehicles. Thus a Pool was requisitioned in Via Salaria 81, but soon after the notification of the requisition decree, the premises were not occupied on account of unknown causes.

Besides it was offered to the technical staff of the Inspectorate for the Civil Motorization, to occupy another Pool situated Via del Velsomino, 40 kindly offered by PICCINI Brothers, assuring that the vehicles that could not find room in the garage, might remain, as long as the proceeding would take place, in the Motor-Pool of this General Directorate.

Also this offer was refused.

Having afterwards appeared that the civil vehicles to be derequisitioned were no more about 80, but some 200, the Direction

./.

- 2 -

of the Police Motor-Pool, while waiting the Compartmental Inspectorate should provide for the proper place, offered to the a/m Office to receive over one hundred of such vehicles in the premises belonging to same Motor-Pool.

As the Compartmental Inspectorate has not yet found a large enough Motor-Pool and considering that the Allied Authorities want to settle urgently this matter and the strict necessity as well of this General Directorate to have back its own Pool, new agreements took place among the Police staff of the Motor-Pool in question and the representatives of the Inspectorate for the Civil Motorization; accordingly the 200 cars that are going to be derequisitioned will find a suitable, even if temporary, settlement in the premises of the P.S.

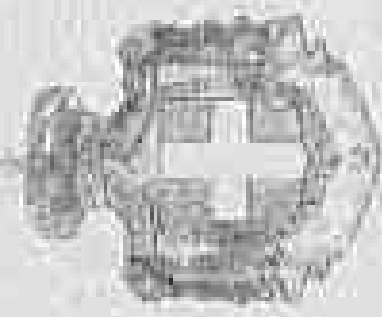

This General Directorate takes the liberty of pointing out to your Commission the uneasy condition of the Italian Police owing to the requisition of its Motor-Pool, the only one existing in the Kingdom which is furnished with the implements required to satisfy the growing exigencies of police services.

We also point out that in the Pool in question, besides the premises to keep the vehicles, there is also a workshop to repair the same, the halls, mess-room and kitchen for the technical agents, the service rack and central store for spare parts and accessories that being quite useless for the Inspectorate for the Motorization are of great importance for the technical police services of this General Directorate.

OGGETTO AUTORIZZAZIONE della P.S. sita in via
Tommaso Campanella 4 Derequisizione.

Con riferimento alla lettera n. S. 4/41/A del 28 settembre a firma del Colonnello G.M. Parkin, si comunica che la questione relativa alle derequisizioni dell'Autorimessa della P.S. in via Tommaso Campanella è stata oggetto da molti mesi di attento esame da parte di questa Direzione Generale e degli organi tecnici dipendenti.

Poichè in un primo momento le Autorità Alleate e l'Ispettorato Compartimentale per la motorizzazione civile avevano fatto conoscere che il numero degli autoveicoli civili requisiti da usare in consegna all'Ispettorato stesso non oltrepassava il numero di ottanta circa, la Direzione dell'Autocentro della P.S. dette tutto il suo appoggio per la ricerca di locali idonei per il ricovero di tali macchine. Si procedette così alla requisizione di una autorimessa sita in via Salaria 81 ma, immediatamente dopo la notifica del decreto di requisizione, per causa che si ignorava, il locale non fu occupato.

Fu offerto inoltre ai tecnici dell'Ispettorato della motorizzazione civile di occupare altra autorimessa sita in via del Gallesino n. 40, liberamente offerta dai fratelli Piccini, assicurando che le macchine che non avrebbero potuto trovare ricovero in tale garage, sarebbero rimaste, fino all'Autocentro della P.S. ricoverate nell'Autocentro di questa Direzione Generale.

Anche tale offerta è stata declinata.

Essendo venute successivamente a risultare che le macchine civili da derequisire ascendevano non più ad ottanta ma a duecento circa, nell'attesa che l'Ispettorato Compartimentale provvedesse alla ricerca di un idoneo locale, la Direzione dell'Autocentro

OGGETTO AUTORIZZAZIONE della P.S. sito in via
Tommaso Campanella - Derogazione.

Con riferimento alla lettera n. 4/41/A del 28 settembre a firma del Colonnello G.M. Parlin, si comunica che la questione relativa alla deroga alla P.S. in via Tommaso Campanella è stata oggetto da molti mesi di attento esame da parte di questa Direzione Generale e degli organi tecnici dipendenti.

Poiché in un primo momento la autorità alligata a l'ispettorato compartimentale per la motorizzazione civile avevano fatto conoscere che il numero degli autoveicoli civili requisiti da essere in consegna all'ispettorato stesso non oltrepassava il numero di ottanta circa, la Direzione dell'Autocentro della P.S. dette tutto il suo appoggio per la ricerca di locali idonei per il ricovero di tali macchine. Si procedette così alla requisizione di una autorimessa sita in via Solaris 81 ma, immediatamente dopo la notifica del decreto di requisizione, per cause che si ignorano, il locale non fu occupato.

Fu offerta inoltre ai tecnici dell'ispettorato della motorizzazione civile di occupare altra autorimessa sita in via del Gelsomino n. 40, liberamente offerta dai fratelli Piccini, assicurando che le macchine che non avrebbero potuto trovare ricovero in tale garage, sarebbero rimaste, fino al 30 settembre della pratica, ricoverate nell'Autocentro di questa Direzione Generale.

Anche tale offerta è stata declinata.

Essendo venuto successivamente a risultare che le macchine civili da derogare ascendevano non più ad ottanta ma a duecento circa, nell'attesa che l'ispettorato Compartimentale provvedesse alla ricerca di un idoneo locale, la Direzione dell'Autocentro della Polizia offre al prefetto ufficio di ospitare nei locali di cui già dispone nell'autocentro stesso, oltre cento di tali macchine.

Poiché l'Ispektorato Compartimentale non ha finora trovato una soluzione sufficiente al bisogno, in vista dell'urgenza che l'Autorità Alleata ha di definire tale pratica, e della inderogabile necessità in cui si trova questa Direzione Generale di rientrare in possesso del proprio Autocentro, sono intervenuti nuovi accordi tra i funzionari di Polizia dell'Autocentro stesso ed i rappresentanti dell'Ispektorato della Motorizzazione civile, accordi in base ai quali tutte le questo macchine che dovranno essere derivate potranno trovare idonee, se pur temporanea sistemazione, nei locali della P.S.-

Questa Direzione Generale si permette sottoporre a codesta Commissione le condizioni di particolare disagio in cui finora è venuta a trovarsi la P.S. italiana per l'avvenuta e perdurante requisizione del suo Autocentro, unico in tutto il Regno, munito di attrezzature tale che consente di soddisfare alle mille più o meno crescenti esigenze dei servizi di polizia.

Si fa presente al riguardo che nell'Autocentro di cui trattasi si sono compresi, oltre i locali per il ricovero delle macchine, la officina per la riparazione delle stesse, le camere, la sala di mensa e la cucina per gli agenti tecnici dipendenti, la stazione di servizio, il magazzino centrale dei pezzi di ricambio ed altri servizi accessori che, del tutto inutili per l'Ispektorato per la motorizzazione, sono invece di importanza capitale per i servizi tecnici di polizia di questa Direzione Generale.

It is known to your Commission that the Harbour Police Office at Naples has been formed again.

This Ministry, considering the importance of said office assigned to that service a sufficient number of P.S. Guards.

It is now necessary to find a fit barrack for the whole department, which could eventually be billeted in the barracks of the former harbour militia, presently occupied by the Allied Police (8 P.O.P. Direzione G.C.P. Leg. I.

Prot. N. 999.9752.D. Allegati 14/18969

Risposta al Foglio del Dir. Leg. I.

OGGETTO Caserma della disciolta milizia portuaria da adibirsi a Caserma Agenti del Commissariato di P.S. dello Scalo Merittimo di Napoli.

Come è noto a codesta On. Commissione, è stato recentemente ricostruito in Napoli l'Ufficio di Polizia del Porto.

Questo Ministero, in considerazione dell'importanza dello ufficio, ha stimato opportuno di assegnare un sufficiente numero di guardie di P.S. per il servizio in parola.

Poiché necessita, per accogliere l'intero reparto, un fabbricato idoneo allo scopo, e tale potrebbe essere la caserma della disciolta milizia portuale, si prega codesta On.le Commissione di compiacersi esaminare la possibilità, di disporre affinché, non appena la Polizia Portuale Alleata (3 P.O.E Provost. Marshall-Office-Piazza Municipio 4-Napoli) sarà per lasciare detta caserma, essa venga immediatamente assegnata alla Questura di Napoli.

La questione nell'interesse del servizio è di vitale importanza, per cui si confida che codesta On. Commissione voglia aderire alla richiesta di cui sopra.

Sarà grato conoscere le decisioni che saranno adottate al riguardo.

SUBJECT: Naples harbour - Barrack for P.S. Agents

Agents of P.S. on duty in the Naples harbour are badly in need of centre to exhibit as barracks. The want of this gives rise to serious difficulties for men to arrive at their posts and for officials to control and direct service pertaining to aforesaid duties.

We have been assured that the Provost Marshall P.I.E.P. Office, in Piazza Municipio N° 4, is about to leave said locality. We should be grateful to you if said premises were reserved for the Harbour Police Office, when the condition of the harbour traffic would greatly improve to the benefit of Allies and Italians.

We shall greatly appreciate an acknowledgement in regard assuring us of your concern.

OGGETTO : Porto di Napoli - Caserma per gli Agenti di P.S. -

All'On/le COMMISSIONE ALLEATA
Sottocommissione per la P.S.R O M A

I servizi di polizia per il porto di Napoli, che si vanno ricostruendo, non hanno, nel porto, una sede da adibire a Caserma degli Agenti di P.S. Ne conseguono gravi difficoltà, per gli uomini, di raggiungere i posti di servizio; per i dirigenti di eseguire un continuo ed efficace controllo sui servizi stessi.

Poichè, a quanto è stato assicurato, l'Ufficio del Provost Marshall P.I.E.E., che occupa i locali già destinati ai servizi di polizia portuale, in piazza Municipio 4, dovrebbe prossimamente lasciarli, si sarebbe molto grati se, con l'occasione, codesta On/le Commissione, volesse riservarli all'Ufficio di P.S. Portuale, che verrebbe messo, in tal modo, in condizioni di funzionare efficacemente, nell'interesse del traffico militare Alleato e civile Italiano, in quel porto.

Si rivolge particolare preghiera all'On/le Commissione di far pervenire, su quanto innanzi, un cortese cenno di affidamento.

MINISTRY OF INTERIOR

999.9627

12 OCT. 1945

8 Oct 45.

SUBJECT : Cession of Caserma 'Mussolini' for the P.S.
Cadet School.

TO : Public Safety Sub-Commission A.C.

In our letter of the 23 July 45, your command was kindly asked to examine the possibility of returning the Caserma 'Mussolini' to this Administration, as its derequisitioning was imminent.

This Ministry's request was justified by the necessity of accomodation for the P.S. guards in Rome, owing to lack of suitable premises.

A new and urgent situation has now arisen due to the pre-disposed enrollment of 10,000 P.S. Cadets, understood to prepare the means for affronting eventual disorders, in the imminence of the elections.

The enrollment of said men, according to the program, would be carried out in two sets of 3000 each for the partisans, and in two sets of 2000 each for the ordinary volunteers. There would be, at the same time, a course for officers and another for n.c.o.s.

Having examined the various solutions, under all points of view, this Administration intends to give the course for Partisans somewhere outside of Rome, and institute, instead, the training course for volunteers, officers and n.c.o.s in Rome.

While for the training course for Partisans, the Ministry of War is being interested for the use of barracks belonging to the army, for the course taking place in Rome, that which concerns officers and n.c.o.s could be given in the Police school, for the other instead there would be no premises available.

Thus in renewing our request on the de-requisitioning of the Caserma 'Mussolini' in favour of our Administration, we kindly ask you to also consider the possibility of granting, for the same purpose, either the caserma 'Ferdinando di Savoia' in Via Castropratorio (where, at the moment about 50 men of the English Police are billeted) or the caserma 'Margherita di Savoia' in Via Legnano (which is occupied by the French Infantry).

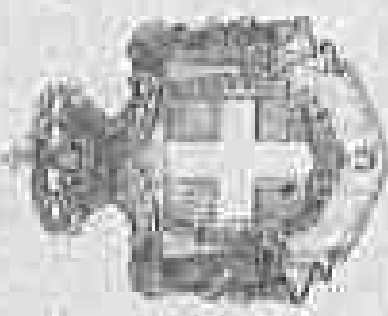

We hope in a benevolent consideration of our request anxiously awaiting decisions on the matter.

OGGETTO Cessione Caserma demaniale "Mussolini" per la Scuola
Allievi Guardie di P.S.--

Con lettera del 23 luglio u.s. fu interessato codesto On. Comando a voler esaminare la possibilità di disporre la consegna a questa Amministrazione della Caserma demaniale "Mussolini" della ex milizia, essendone imminente la derequisizione.

La richiesta di questo Ministero venne giustificata dalla necessità di fronteggiare le gravi deficienze inerenti all'accasermamento delle guardie di P.S. della Capitale, data la mancanza di locali idonei.

Una nuova impellente esigenza è venuta ora a manifestarsi in seguito al predisposto arruolamento di n. 10.000 allievi guardia di P.S., inteso soprattutto ad apprestare i mezzi per fronteggiare eventuali perturbamenti dell'ordine pubblico, nell'imminenza delle elezioni.

L'arruolamento di detti uomini secondo il programma predisposto, verrebbe eseguito in due scaglioni di 3000 ciascuno per i partigiani, e in due scaglioni di 2000 ciascuno per i volontari comuni. Contemporaneamente, verrebbero istituiti un corso per ufficiali e un altro per sottufficiali.

Esaminate, sotto tutti i punti di vista (inquadramento, casermaggi, trasporti ecc.) le varie soluzioni presentatesi, questa Amministrazione intenderebbe far svolgere i corsi per partigiani in centri fuori di Roma, ~~eseguire~~ ^{ed} invece nella Capitale i corsi per l'addestramento dei volontari comuni, nonché degli ufficiali e dei sottufficiali.

/.

Mentre per i corsi di addestramento dei partigiani si stanno svolgendo pratiche presso il Ministero della Guerra per la cessione in uso di caserme già di pertinenza dell'esercito, per i corsi da svolgersi in Roma, quello relativo agli ufficiali e sottufficiali, potrà aver luogo nella Scuola di Polizia, per gli altri invece non vi sarebbe alcuna disponibilità di locali.

E' pertanto, che, mentre si rinnova viva preghiera a codesto On. Commissione di voler derequisire a favore di questa Amministrazione l'ex caserma "Mussolini", si prega, altresì, di prendere in considerazione anche la possibilità di cedere allo stesso scopo la caserma "Ferdinando di Savoia" in via Castropretorio (ove attualmente sono accasermati soltanto una cinquantina di uomini della polizia inglese) o quella denominata "Margherita di Savoia", in via Legnano (che ospita un reparto di fanteria francese).

Si confida in un benevole accoglimento della richiesta e si resta in attesa di un sollecito cenno delle determinazioni che saranno adottate.

1. The Chief Commissioner made a visit to AAMU on 11 September to discuss the possibility of derquisition of the following buildings:-

- see we submitted 27*
- 1) Caserma Mussolini A 21 *Agents*
 - 2) Regina Margherita Barracks A 15
 - 3) Ferdinando di Savoia Barracks A 7 *CCRR*

2. It is possible that the first might be released: the second is very doubtful: for the third it is definitely impossible.

3. It appears that Land Forces Subcommission (MFA) are interested in the premises for accommodation of Italian troops and Displaced Persons, and Education Subcommissions for housing refugees in order to free schools.

4. May the matter be discussed between those interested and claims forwarded to this office.

SUBJECT: Requisitioned Garage at Via Tommaso Campanella

TO : Director, Public Safety Sub Commission

1. This office would be very grateful if you will give the following matter your study and consideration and inform us if the proposed solution will be practical at this time:

As you are probably aware AC has under requisition the premises of the Public Safety Garage located at Via Tommaso Campanella. This garage is now operated as a G-4 (A) pool for storage and maintenance of requisitioned and WD vehicles. It also contains some two hundred (200) requisitioned civilian motor vehicles which this office has endeavored for the past five months to turn over to the Ispettorato Compartimentale della Motorizzazione in accordance with Italian law; however the Ispettorato agency has been unable to locate a garage to transfer the vehicles to, and this office has also tried without results to locate a suitable garage to move the vehicles to.

2. Therefore the only possible solution left is to make the entire garage available to the Ispettorato Compartimentale but before this transfer is effected it is requested that your comments on the proposal be stated. The Italian Public Safety Official has offered a portion of the premises for the Ispettorato's needs. However, the portion allocated will not suffice.

3. It is requested that you inform this office whether or not this plan meets with your approval and if adopted will it bring about too serious a handicap to the Italian Public Safety Officials to function under in the immediate future.

September 1945

SUBJECT : Accommodation for Public Safety Agents

TO : AFHQ G-7

1. Reference is made to our Cable No. 6134 dated 26 September 1945.
2. When Milan was liberated, it was essential to get the Police functioning without delay. Most of the buildings suitable for barracks were badly bombed, but the Caserma TRELLIE an unoccupied Italian Army barracks showed possibilities. It was ascertained that owing to the damaged condition military authorities were not likely to require the building, and therefore permission was obtained from 4 Corp HQ to take over the premises for Agents of Public Security.
3. The Prefect of Milan advanced L.2,500,000 for necessary repairs and the Agents worked extremely hard for about four months removing debris etc in order to make the Caserma habitable.
4. Notice has been given by 59 Area Commander that the premises are required for Italian Army troops of the "GOITO" Battalion. The date originally set for evacuation was 10th September, but this has been extended to 30th September 1945. Alternative accommodation will take about 6 weeks to prepare, and in any case, the movement of 1200 Agents together with their equipment and stores is not possible by the end of this month.
5. DMIA have been approached in this matter but have stated that the position should be determined by the Area Commander who has given the order to vacate.

- 2 -

It is understood that barracks are available for the Italian Army at LODI about 12 miles from MILAN. If these barracks were used, this would clear up the present problem, and keep 1500 soldiers out of Milan City where their presence may create additional public safety problems.

6. It is strongly urged that the Agents be left in possession of the Caserma TEULIO, or, if that is not possible, that the date of vacation be set at 1st November 1945. This would give time for the repair of alternative accommodation and help to maintain the proper functioning of the Milan police force.

1. Attached hereto is correspondence concerning barracks occupied by Questura Agents in Milan as follows :

- 1) Letter NW1/7/Q from MMIA. L.O. to HQ. 59 Area dated 2 August 45.
- 2) " PS/3.1.3 from RPSO to MMIA L.O. dated 4 Aug. 45.

- 9) " from P.C. Milan to P.S.O. Milan dated 11 September 45.
- 10) " HQ/300/1 from 59 Area to P.C. Milan dated 15 September 45.

2. Briefly the position is that when AMG first came into Milan it was essential to get the police functioning without delay. Most of the suitable buildings were badly bombed, including the Caserma Teulio. However this Caserma showed possibilities and it was ascertained that owing to its damaged condition the Army were not likely to require it. Permission was accordingly obtained from IV Corps HQ. for Public Safety Agents to take it over. The Italian Authorities including the C.L.N. and Prefect all expressed agreement.

./.

= 2 =

the Prefet advanced L.2,500,000 for the necessary repairs and the Agents worked extremely hard for about four months removing debris etc. in order to make the place habitable. The order to vacate the premises now has therefore created a difficult public safety position. Every endeavour is being made to secure alternative accommodation and efforts are being made to obtain the use of other barracks which will however require about 6 weeks work in order to effect repairs and installations.

3. Apart from the extreme difficulty in obtaining accommodation it is desired to point out that the Questura Agents are, in spite of many difficulties becoming more efficient and reliable. They do however require much encouragement and continued discipline and to turn them out of their home at this stage and in these circumstances is, in my view, expecting too much of their somewhat untried sense of loyalty and duty.

4. There is, of course, no question that the barracks are Army and can be taken by the Army. It is however suggested that in the still abnormal conditions existing the public safety position merits some consideration.

5. It is understood that barracks are available for the Army at Lodi about 12 miles from the City. The presence of about 1500 Italian soldiers in the City will, of course, create some additional public safety problems.

6. However, any effort will be continued to furnish alternative accommodation for the Agents and in the meantime it is asked that the question of a delay of, say, a month in the date ordered for vacating the barracks may be favourably considered.

7. The Area Commander, Brigadier Mathews who appoints the position, is away temporarily on leave and Col. Mathews, formerly of AG, is the present acting Commander.

This matter has been the subject of discussion with the Home Office for the past year, but in view of the limited accommodation, and the fact that other organizations have a similar priority, there is nothing more that can be done at present.

The Home Office is of the opinion that it is not possible to provide accommodation for the British S.S. Training, and they allocate it to other organizations which are of a higher priority.

As far as the Home Office is concerned, it is not possible to provide accommodation for the British S.S. Training, and they allocate it to other organizations which are of a higher priority.

It has been pointed out to the Home Office that the requirements of the British S.S. Training are of a high priority, and it has been decided to give priority to the British S.S. Training, and to allocate it to the Home Office.

It would appear that the Home Office should give priority to the British S.S. Training, and to allocate it to the Home Office.

SUBJECT : Ex-"Mussolini" barracks requested by P.S. Guards

We have been informed that the Crown-property "Mussolini" barracks is being evacuated by the Allied Troops. Since the serious problem of the P.S. Guards in Rome regarding proper quarters, still remains unsolved the cession of said property to this Ministry would partly eliminate this difficulty. This deficiency has also had serious repercussion on the discipline and service of this Corps.

We, therefore, beg you to dispose of that a/m barracks is handed over to us as soon as it is evacuated by Allied Troops. And if our request meets your approval we ask you to kindly inform us at your earliest convenience so that we can station there at once a small number of Guards who will be kept there on duty until all arrangements have been made, for its cession, with the Crown.

SUBJECT : Ancona lodgings for the P.S. staff

On the elapsed month of June the questore of Ancona, following a persistent and grave difficulty in the research for lodgings for the staff of P.S. In merit it was appealed to the Town Major of this city and was interested to obtain a assignation in favor of the above mention staff, of some apartments available in the building of Via Piave, N.5.

With the sheet of the 29 June, the above mention Allied Officer informed the Questore that six apartments where assigned to the questura in the above mention building. Instead on the 7 instant the Questore as informed that the above mention apartments where not handed to him because the assignation as it was declare by the same Town Major was made by error of calculation to determinate the number of the apartment in effect available.

Beg the Commission to inform the above mention Town Major to take a kindly and a promptly consideration of it, for the urgent need of the assignation for the apartments requested for the questura staff, to guarantee the effeciency of service in the police, and to eliminate in part the discomfort that are to be affront by the P.S. staff.

Will greet a kindly answer

Oggetto: Ancona - Alloggi per il personale
 di p.s.

Nel decorso mese di giugno il questore di Ancona, a seguito della persistente grave difficoltà incontrata nella ricerca di alloggi per il personale di p.s. dipendente, interessato al riguardo il Town Major della predetta Città per ottenere l'assegnazione, a favore di detto personale, di alcuni appartamenti disponibili nello stabile di Via Piave n.5.

Con foglio 29 giugno u.s. il predetto Ufficiale Alleato comunicava al questore la disposta assegnazione alla questura di sei appartamenti dello stabile di cui sopra.

Senonchè in data 7 andante lo stesso questore ha comunicato che detti appartamenti non sono stati poi consegnati perchè l'asce-

In order to conclude, definitely, the serious question of the auto-vehicles services of P.S., the Command is requested to take into consideration the possibility to derequisition the locals of the garage of Via Tommaso Campanella, actually used by the Allied Army, and exactly the first floor and the ground-floor, comprehending the laboratory, the service station the cabin *for batteries*, the central store, the mess and the kitchen.

On this regard we report that this HQ. in consequence of the want of fit locals, is not furnished of an adequate machinery for the keeping of the auto-vehicles, which need continually to be repaired.

Beside which this General Direction is obliged to put the auto-vehicles-including some armoured cars, and armoured trucks.-in private locals, which from the point of view of the surveillance are not indicated.

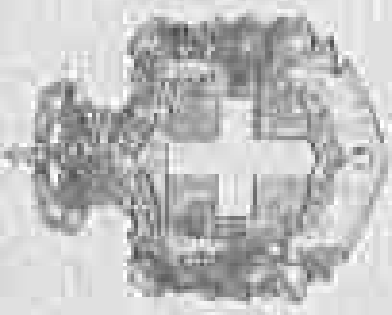

In consideration of the above, and for the serious service reasons, it is kindly requested to the Commission to intervene taking into consideration the case.

MINISTRY OF INTERIOR

5th March, 1945.

N. 999.10589.A.16

Subject : Increased recompenses to barracks service contractors for CC.RR. and P.S. Agents in Sicily and Naples-

To : A.C. Public Safety Sub-Commission - Rome
and for information

To : A.C. Finance Sub-Commission

The P.S. Administration is taking care of the supply and maintenance of the barracks material (beds, furniture, linen, kitchen and mess implements etc.) necessary in the barracks of the Police forces through special lease-contracts for the period of 9 years, paying to the contractors a recompense (daily rate) for each day of presence of the CC.RR. or P.S. Agents.

During the month of July, 1943, in each Province there were in force regular contracts for the CC.RR. service (average daily rate roughly 1,20 Lire), while for the P.S. Agents service, before the expiration of the old contracts in the month of June, 1943, the 5 contractors, including those of Sicily and Southern Italy, had engaged themselves to take charge of the service also for the nine years - 1st July, 1943 - 30th June, 1952, by means of the recompense of 1,40 Lire for each person.

During AMG Administration in Sicily and Southern Italy, while the greater part of the contractors was awaiting the liberation of Rome or began to contact the provisional Office of the Italian Government at Salerno, which was without archives records or officials expert in this specific matter, only 4 contractors applied to AMG of Palermo and Naples (Regional Finance Commissions) in order to obtain not only a sensible increase of the contractual recompenses, but also the stipulation of new contracts for the period of nine years.

The Palermo Prefecture in December 1943 - February 1944 and the Naples Prefecture on the 27th May, 1944, stipulated new contracts with the contractors, beginning from 1st July, 1943 (P.S. Agents of Sicily and CC.RR. of the Palermo Province, as well as Agrigento, Caltanissetta and Trapani) and beginning from 1st October, 1943 (Agents and CC.RR. of the Naples Province).

The a/m Prefectures, after the return of the Italian Government to Rome, have applied to this Ministry for the ratification of the contracts.

This Ministry having immediately subjected to examination the matter regarding a general revision of all contracts under discussion and in order to assure an equal treatment to all contractors as well as to limit the expenses,

-2-

given the difficult Italian financial situation, has noticed the serious prejudice represented by those contracts, which fixed increases burdensome for the Administration and disproportioned between themselves (Sicily: daily rate 5 Lire, 5,80 Lire and 6,40 Lire; Naples 10,90 Lire and 13,66 Lire). The ministerial project for the general revision contemplates in fact a uniform recompense of 7 Lire, but beginning from 1st July 1944 and not from 1943.

According to the Italian law in regard to the general State accounting, the contracts of the public administrations must be approved by Minister's decree to be registered at the Court of Counts and the Ministry can refuse approval to contracts even though they have been acknowledged regularly for serious reasons of public or State interest.

The four contractors (among whom ^{one} is submitted to requisition of property for Fascist profits) deserve blame, because they did not exactly inform the Prefectures in regard to their engagements with the Ministry, especially to that regarding the service for P.S. Agents. They are now of the opinion, that the measures taken by the Allied Authorities, by virtue of the proclamation of the General Commander of the Allied Forces in Italy, must be in any case put into effect.

Besides which, under the juridical viewpoint, it is to be noted, that these proclamations fix also, that the existing laws (Italian) remain in force until they are modified by proclamations and orders issued by the same Commander or under his direction. The contracts stipulated at Palermo, on behalf of with the authorisation of AMG, contain the clause, that the contracts are not engaging the administration unless they are not approved and put into effect by virtue of law.

But in the contracts signed at Naples, the stipulating official declares to work as a representative of the Italian Administration and the intervention of the Allied Authorities results from the following authorisation dated 23 June, 1944 "Approved Official Allied Control Commission: H. Mead Rogers Major Provincial Officer". The authorisation of the Allied Authorities has been requested by the Salerno ministerial Office in connection with the fact that the Naples Province was under the control of the Allied Military Authorities and that the approval of the latter was necessary to the effect of the necessary financing.

In fact the Palermo and Naples Prefectures have neither brought to evidence, nor alluded to formal orders of the Allied Authorities contrary to the Italian laws and regulations regarding the general State accounting, i.e. that the contracts should have immediate effect or should have definit binding effect for the Administration, on the contrary the High Commissioner for Sicily has reported on the 8th November, 1944 that a letter dated 20 November, 1943 of the Allied Regional and with a letter dated 20 November, 1943

Commission for Sicily, with which authorisation had been granted for the stipulation of the contracts, was subsequently sent - following request - to the a/m Commission, who did not return the letter.

This Ministry, in view of the facts and considerations stated above, for reasons of justice, economy and discipline, is of the opinion that to the matter under discussion the mentioned dispositions of law and of the regulation regarding the State general accounting must be applied (art. 19 of R.D. n.2440 dated 18 November, 1923 and art. 113 of R.D. n. 827 dated 23/5/24), stating that is that it does not approve the stipulated contracts at Palermo and at Naples, leaving valid the already existing contracts, exception made of the revision of the daily rates with general provision in the interest of all contractors on the basis of an exact study in collaboration with technical and financial State experts.

Nevertheless, as in the treatment of the cases by the competent Prefectures, there has been the support of the AMG Authorities, this Ministry deems it opportune, for reasons of delicacy, to apply to the Sub-Commission for approval of the a/m proposals.

In any case it is pointed out that the contractors under discussion have already enjoyed the benefits of the increases granted to them up-to-the month of June, 1944, differing from their fellow-members of the other Provinces and that the equalisation can be carried out afterwards with the increases which will be due beginning from 1st July, 1944.

In case the Sub-Commission should desire information from the competent Regional Commissions of Sicily and Southern Italy, we beg to consider that these Commissions will leave off from 1st April, 1945.

MINISTRY OF INTERIOR

9th March, 1945.

N. 999.1063/14600.A.88.B

Subject : Payment for maintenance work on auto-vehicles
and material cared for by the Police Garage
of via T. Campanella n. 10.

To : A.C. Public Safety Sub-Commission - Rome.

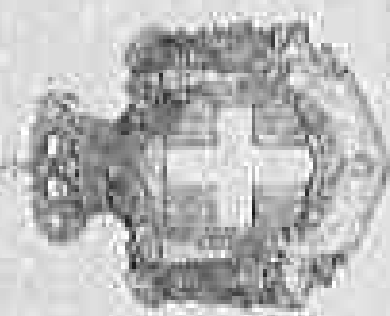

The Rome Commune with letter n.3555, dated 24th February, 1945, copy of which is herewith enclosed, has applied to this Ministry for the payment of the sum of 204,203,70 lire for expenses of maintenance etc. effected at the dependent Garage during the months June and July, 1944.

In this regard it is reported that the writer has had no profit from the execution of these works, as the Garage under discussion and the auto-vehicles recovered are employed by the Allies, who - as known - have requisitioned them at their arrival in the Capital.

Therefore, being of the opinion that this expense should not burden the limited funds of this Gen.Hq., it is requested kindly to bring these considerations to the knowledge of the IV Region A.C. Hqs., calling their attention to the settlement of the pending business.

Il Comune di Roma con lettera del 24 febbraio u.s. n. 3555, di cui si unisce copia, ha interessato questo Ministero per il pagamento della somma di L. 204.203,70 per spese di manutenzione e di altro genere eseguiti presso il dipendente Autocentro nei mesi di giugno e luglio 1944.

Al riguardo si fa presente che lo scrivente non ha conseguito alcun utile beneficio dell'esecuzione di tali lavori, poichè l'Autocentro in parola e gli automezzi ricoverativi sono in uso agli Al leati, che ne hanno -com'è noto- effettuata la requisizione fin dal loro arrivo nella Capitale.

Ritenendo, pertanto, che detta spesa non debba far carico sui limitati fondi di questa Direzione Generale, si prega di compiacersi prospettare tali considerazioni all'Headquarters IV Regione A.C.C., interessandolo in merito alla definizione di tale pendenza.

OCCETTO: Pagamenti disposti dall'A.M.G. di pertinenza del Ministero Interno.

MINISTERO DELL'INTERNO

Nei mesi di giugno e luglio 1944, in base a note redatte dall'A.M.G., la Tesoreria Comunale provvede al pagamento di personale di guida e di officina, e alle spese di manutenzione e di materiali, relative ad automezzi dell'auto centro di cotesto Ministero (Roma via Tommaso Campanella) per un totale di L. 204.203,70. I conti sono firmati alcuni dal Commissario di P.S. Carmelo Marzano, altri dal Capitano Ugo Figliolia, e sono vistati dal Magg. Sowers, o dal Maggiore Bellance, o dal Capitano Levy della Sezione Trasporti dell'A.M.G. -

A questa Amministrazione, che richiedeva all'Headquarters IV Region A.C.G. se tali spese dovevano essere rimborsate e da quale Ente, è stato risposto in data 2 novembre 1944 con una lettera di cui si trascrive la parte relativa a tali conti:

"One group of vouchers covers pay rolls for civilian employees used at the garage of the Ministry of Internal Affairs, located at via Tommaso Campanella, 10. Eight pay roll periods are involved covering the period from June 12 to Aug. 5, 1944 inclusive, total 200,901.80 L. Various material furnished total 3,301.90 L. making a total of 204,203.70 L. The vouchers state they are for machine shop personnel used for maintenance of bodies, electric plants, mechanical parts and painting of busses and cars used by AMG. The services undoubtedly belong to the Transportation Sec., AMG as approval for various vouchers were made by Maj. Sowers, Maj. Bellance, Capt. Levy and others at various times connected with the Transportation Sec. I know nothing of the working arrangement if any with the Ministry of Internal Affairs, and can see no reason for Rome Comune having assumed them."

Dal testo della risposta surriferita, si desume che le somme amministrare riguardano autoveicoli usati dalla Sezione Trasporti dell'A.M.G., che le spese furono disposte dalla detta Sezione, che personale, automezzi, officina sono di pertinenza di cotesto Ministero, (il che è confermato anche dalla firma del Capo dell'autocentro Dott. Marzano) e che l'Amministrazione Comunale non è tenuta in nessun modo a sostenere l'onere suddetto.

Si prega pertanto cotesto Ministero di portare con cortese sollecitudine il suo esame su tale pratica, e disporre gli atti per il rimborso delle sindacate somme a questo Comune.

1. Reference your letters AC/14613/11/PS, dated 25 February and 8 March in regard to the above-mentioned garage.

2. Since discussing this matter with Lt. Col. Wilcox, the circumstances have rather changed and the garage will, with LAZIO-UMBRIA Region having prepared to hand it over on 6 March 45, be operated by G-4 (A) for the rehabilitation of transport coming in from the Southern Regions before reissue to the Northern Regions. It is estimated that this work will take approximately two months.

3. Since meeting representatives of the Italian Public Security, when no promise was given whatsoever, investigation of the garage shows that the suggestion made at that meeting that possibly the third and fourth floors might be made available, is quite impracticable as these two floors are already filled with a considerable number of vehicles which are in an unroadworthy condition.

Attached hereto is copy of letter received at this office from the Italian Director of Public Security respecting the Ministry's Garage at Via Tommaso Campanella.

In view of the conversation on this subject between Colonel Robertson and Lt. Col. Wilcox, it is felt that satisfactory arrangements can be made between you and the Ministry, and it would be appreciated if arrangements could be made for the Italian Director of the Garage to get in touch with a representative from your office in that regard.

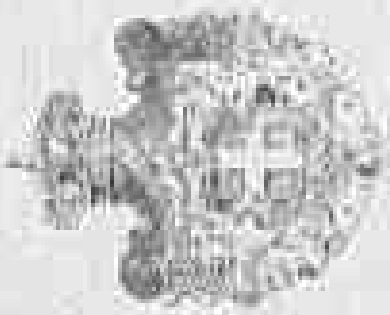

While it is realized that A.C. necessities must have priority, this Sub-Commission strongly supports the Ministry's application for the return of the Garage to its normal status, and would be glad of your co-operation to make any arrangements which will relieve the Ministry's urgent need for garage space.

This necessity arises also because our present garage in via Trionfale needs to be got free immediately on account of

./.

some urging repairs to the roof which is about to crash down.

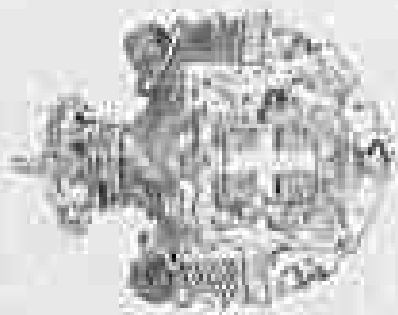

Such danger has been pointed out by the "Società Agricola Romana" which is the owner of the building.

On the other hand, owing to the allied recent requisition of the garage and premises of via Gubbio, this office would have no means for transferring elsewhere the cars which are now parked in via Trionfale, and it would be impossible likewise to carry out the necessary repairs and cleaning usually requested by our motor cars.

It would be greatly appreciated if your H.Q. would undertake to settle this matter so to ensure the good work of P.S. duties.

2. It is understood that the garage portion is not at present being used to full capacity, that only about 20 cars, and 10 mechanics are occupying a garage of 6 floors.

3. Under normal condition this garage serves the Agents of P.S., C.C.B.R., Ministry of Interior Officials and the Royal Household.

4. The Ministry has another garage at Via Trionfale, close to Tommaso Campanella. This garage would appear to be capable of meeting your Regional transport requirements.

SUBJECT : Garage, Agents of Public Security.

TO : Regional Commissioner, Lazio-Umbria Region.
(Attn: R.A.S.O.).

It is understood that since the occupation of Rome by the Allies, a garage and workshops of the Agents of Public Security, situated at Via. 30 Settembre Campanella, Rome, has been requisitioned and used by the Transport Section of Lazio-Umbria Region.

This garage has dormitories and feeding accommodation for the Agents, and it is now urgently required by the Italian Director of Public Security, for essential Public Safety Service, and in connection with re-organization of the Agents of Public Security.

It is stated that the premises are not now being fully used.

This Sub-Commission strongly recommends the application of the Director of Public Security, and requests that action be taken to de-requisition the premises and restore them to the full use of the Agents of Public Security.

Sub. Garage request from the Allied H.Q.

Allied H.Q. have asked to have the garage of via Gubbio put at their disposal, where, after the requisition of this General Direction's motor center, situated in via Tommaso Campanella No. 10, the vehicles for police service have been sheltered. I have declared to be willing to adhere to the request. As however giving up the via Gubbio garage there would be no way of sheltering the police vehicles, I asked if the motor center of via Tommaso Campanella could possibly be given back in exchange for which this administration would give a garage in via Trionfale. This retitution would be very useful because in the motor center's building there are also the dormitories and mess of P.S. agents. I point out the above to this On. Sub-Commission begging you to be willing to intervene with the H.Q. so that the proposal that I made in the interest of the service is kindly received and considered and so that no vehicles are requisitioned on account of the exceptional needs of this administration.

OGGETTO: Richiesta di autorizzazione da parte del Quartier Generale
all'atto

Il Quartier Generale Allato ha chiesto che si nasca e propria disposizione un'autorizzazione di Via Cabbio, dove, dopo la requisizione dell'autocentro di questa Direzione Generale, sito in Via Tommaso Campanella n° 10, sono stati ricoverati gli automezzi adibiti ai servizi di Polizia.

Ma sono dichiarato ben disposto ad aderire alla richiesta. Poiché, però, cedendo l'autorizzazione di Via Cabbio, non si avrebbe modo di ricoverare gli automezzi di Polizia, ho domandato che sia possibilmente restituito l'autocentro di Via Tommaso Campanella, in cambio del quale questa Amministrazione cederebbe un'autorizzazione in Via Brionfale.

Tale restituzione riuscirebbe molto utile perché nei locali dello Autocentro hanno pure sede le camerata e le stanze degli Agenti di P.S.

Informo di questo sopra codesta On. Sottocommissione con preghiera di compiacersi intervenire presso il Quartier Generale perché la proposta da me fatta nell'interesse del servizio sia benevolmente considerata ed accolte e può non venga requirita alcun autorizzazione stante le eccezionali condizioni di bisogno di questa Amministrazione.

Rome, 15 November 1944.

Colonel,

I am applying to your courtesy and benevolent comprehension, so as to again insist on my request, to intervene at the competent offices, in order to obtain electricity for the Police Training School every day of the week.

You, Colonel, can realize the damage, which this causes to the functioning of the School and to the maintenance of discipline among the already enrolled cadets; the lack of light is particularly felt during the winter season.

The Questura is also treated as the Civilians, as far as lighting is concerned. Now then, it is easy to realize, what value can a Police office have without light for its services during night hours.

I hope, Colonel, that steps will be taken.

I confess, that I regretfully think of the many entertainment places overflooded with light, while Police offices are without.

Please excuse me and accept my best regards.

Signor Colonnello,

mi rivolgo alla Sua cortesia e benevola comprensione per insistere nella preghiera, già da me rivolta, di intervenire presso gli uffici competenti al fine di ottenere che alla Scuola Tecnica di Polizia sia concesso l'uso della illuminazione elettrica in tutti i giorni della settimana.

Ella, Sig. Colonnello, può comprendere il danno che arreca al funzionamento della Scuola ed al mantenimento della disciplina dei 500 Allievi già arruolati; il difetto di illuminazione nei mesi invernali è maggiormente sentito.

Anche la Questura è trattata come i civili, per quanto riguarda la luce. Ora è facile comprendere cosa valga per il servizio, di sera e di notte, un ufficio di polizia senza mezzi di illuminazione.

Io penso, Sig. Colonnello, che si vorrà provvedere.

Le confesso che penso con rincrescimento ai tanti locali di divertimento inondati di luce, mentre la Polizia è lasciata nell'oscurità.

La prego di scusarmi e voglia gradire i miei ringraziamenti ed ossequi

SUBJECT : Electricity for Police Buildings.

TO : Public Works & Utilities Sub-Commission.

With further reference to this office letter 14613 dated 15 September 1944, on the provision of electricity for Police Buildings, application has now been made by the Director of Public Security, Ministry of the Interior, for electric light for the Agents of Public Security Training School, Via Guido Reni, Rome.

This school has opened on the 1st instant, and accommodates 500 students on a full-day programme.

These students are being enrolled and trained as fast as possible in accordance with the policy of this H.Q. to recruit new members into the force, to replace losses due to recent circumstances. The lack of electric lighting will seriously retard the programme, and result in decreased police efficiency.

Owing to the general state of the country, increased calls are being made for services of agents of Public Security, and only by a rapid recruitment and training of additional men can it be hoped to bring the force up to the required strength and efficiency.

This Sub-Commission therefore strongly recommends that special and immediate action be taken to provide full-time service of electrical current for this Police School.

caserme e uffici di P.S.

Con richiamo alla lettera di questo Ministero del 5 settembre u.s. ed alla comunicazione di codesta Commissione Alleata di cui alla lettera A.C.C./14613/II/P.S. dell'8 corrente, poichè pervengono dai comandi degli Agenti di P.S. di Roma, nuove segnalazioni di inconvenienti derivanti dalla mancanza di illuminazione nelle caserme e negli uffici di P.S. che debbono funzionare nelle ore notturne, si prega vivamente di affrettare, d'intesa con le competenti Autorità, l'adozione di un minimo di provvidenze che assicurino, alle attuali eccezionali circostanze, il funzionamento degli importanti e derivati servizi di polizia.

Questo Ministero non si nasconde la serietà degli inconvenienti che potranno verificarsi qualora il problema di una limitata essenziale fornitura di energia elettrica ed eventualmente di metri di illuminazione sussidiaria non venga prontamente risolto.

Le urgenti esigenze di segnalazione della fornitura di energia elettrica da parte dell'A.C.C.A. di locali della Scuola Tecnica di Polizia-Via Guido Reni - ove prossimamente dovrà ~~600~~ iniziare un corso di arruolamento di Allievi Guardie di P.S.

Subject Carlo Marzella Barracks.
Illumination.

To A.C.C. P.S. Subcommission

We make reference to letter ACC/14613/11/PS, dated 1/7/44, from that Subcommission, by which it was announced to this Ministry that the competent Authorities had been informed about the furnishing of electric light to barracks and police offices, and the satisfaction expressed by the Command of Police Auxiliary Agents Battalion for illuminating the Barracks "Carlo Marzella" in Via Cristoforo Colombo.

The Command of the above Battalion had asked the S.R.E. (Roman Electric Society) to give again electric light to the Barracks; the S.R.E. answered, on the 1/8/44 that the said Barracks were connected with a preferential cable which usually provides electric energy daily from 22 to 6 hours.

But, according to regulations, the above Command cannot use electric energy except in the regular hours, we beg that Subcommission to give authorisation to use it even out of regular hours, and, if possible, to secure distribution of 17hrs instead of 2hrs, so that the offices situated in the barracks may more easily work.

In regards to the limited distribution of electricity in the city of Rome, the various commands, offices and barracks of P.S., have been provided from June with candles and other means assuring strictly needed illumination in a few ~~no available~~ offices for the services working at night.

Since every supply means for illumination is used up and it is not possible to get supplies from the market.

We assume for now the study of the timely provided acts to assure at the approaching of autumn and winter, a limited service of illumination for the offices and barracks of the Police.

If this Commission would deeply take interest until the prospective emergency will be taken in consideration in the allotment of the electrical energy available or the permission of other means of illumination.

The request is needed for the regular development of the services of Public Security and of public order in the Capital that are getting more delicate and grave from day to day.
