REGISTRATION OF ALLIED NATIONALS
SEPT. - NOV. 1945

Polad (E):
C.A.S.:

I agree with Polad (E) that it is inconsistent with our general policy to ignore all Italian immigration and police laws with respect to United Nations nationals in Italy as we do at the present time. I feel it is not only inconsistent with our policy but that a continuation of the present situation is actually working against our own (Allied) interest in Italy that public order be maintained and the authority of the present government be strengthened for this purpose. While it could probably be argued that under the armistice terms no United Nations national is required to submit to Italian regulations while in this country it surely makes sense that we should wish to cooperate with the Italian forces of public security to the extent of complying with their regulations while sojourning in this country.

Obviously the Armed Forces are exempt and furthermore they have a discipline and law of their own. As far as United Nations civilians are concerned, however, I should be in favor of all of them complying with Italian regulations governing the sojourn of foreigners in Italy regardless of their connection with official or semi-official agencies, if proper assurances could be obtained from the Italian Government that such regulations would not hamper them in the performance of their duties here. The regulations are not onerous and are obviously of great assistance to the Italian public safety authorities in the execution of their duties.

We all seem to agree that civilian
Aldrich national is inconsistent with official basis in Italy
sh. day we have registration regulations. The next stage
seems to be an exchange of letters between the A.C. &
the Hq. of Interior putting the matter on a formal basis.

1. Due consideration has been given to Minute 2 on the question of permitting the Italian Government to require the registration of UNRRA personnel.

2. While UNRRA may be referred to as a civil organization it is in reality a governmental agency Chartered by Act of Congress and Parliament. It came into existence as a result of the war, and the occupation of Italy by the Allied Forces, that is the only reason it is here.

3. This Sub-Commission has heretofore ruled that UNRRA property is Allied Government property subject to the jurisdiction of AMG courts.

4. It is the opinion of this Sub-Commission that it would be unwise to permit the Italian Government to require the registration of Allied Nationals serving with UNRRA.

5. It is understood also that certain officials of UNRRA enjoy diplomatic privileges.

To: Q.A. Sect. It would seem that any organizations which are not Governmental, employing Allied Nationals, could not claim about such a registration, but Allied personnel of even quasi Governmental ^{status} should be excluded.

CHS Please see ^{1A-D} The Italian Police Regulations
as to Aliens reporting are shown at 2^A.

This ~~is~~ recommends registration of civilians.
This would cause no particular hardship, as, after the
first report, only permanent changes of address need
be notified.

Refer 1A It is agreed that the Italian Govt has no
legal right to require registration of allied nationals who are
part of the armed forces of occupation, whether even if they are
civilians.

But it is thought that this does not apply to personnel
of bodies which are not part of the armed forces even though
such bodies may be cooperating with the armed forces.

UNRRA is a civil relief organization of allied personnel.
It is believed not to be part of the armed forces. Is there any
justification for saying that its personnel is not bound by the
laws of the country in which it is operating. Similarly ~~are~~ are
other non-military exempt from the national laws.

1) All aliens have to report, within three days of their entering into the territory of the State, to the Authority of public security of the place where they are (Public Security Officer, or, where there is not a public security Officer, to the Mayor, who in such case is considered a public security Officer as, under the administrative side (licensing etc) he is always considered a public security Officer with priority to Carabinieri).

They have to report also when their residence is changed from ~~one~~ commune to another, but, in case they have come as tourists, they are obliged to report only the first time (art. 142 R.D. N°773, 18th June 1931 - Law of P.S.).

2) The report shall be made in writing by every person above 16 years of age, upon a proper form which has to be signed and contain :-

- a) Name, surname, father's and mother's name, place and date of birth of the reporter and his relatives, under 16, who accompany him;
- b) Nationality and place whence he comes;
- c) The date and the place of the crossing of the border;
- d) Motive of his coming to Italy;
- e) How long he will probably remain;
- f) The place where he dwells;
- g) Whether he possesses or is responsible for any immovable articles in Italy such as land, Property etc.
If so, details must be given.
- h) Whether he carried through or will carry through any and which profession or business, on his own, or in partnership, on account of other people;
- i) His religion.

This form will then be handed in together with Identity documents. He is given a receipt by the Authority of Public Security to whom he reports (Art. 261 & 262 Regulations for the law of P.S. - N°635, 6th May 1940).

3) The Aliens have to produce personally the completed forms but, in case they lodge in a place duly authorized (by license) such as hotels, boarding-houses etc. they may deliver the form and the identity documents (which must be listed on the form) to the hotel-keeper, who by law, is charged with the responsibility of delivering to the Public Security officer. Aliens who are prevented from personally reporting due to illness, may report through a second person, provided a medical certificate is produced. (Art. 263 & 265 of the Regulations).

4. The Authority of Public Security may, at any time, summon the aliens to produce their identity documents or give information about their persons.

Should the aliens cause any doubt about their identity they may be compelled to undergo an examination for descriptions and finger-prints (art. 144 a/n law).

5. Temporary absence from a Registered address need not

be reported. There is no time limit to this clause, which is completely dependent on the regulation requiring report of a change of permanent residence.

The a/m dispositions do not apply to the members of Holy College and Diplomatic or Consular Corps.

Subject: Registration of Aliens

With reference to our telephone conversation of October 5th, I enclose a copy of a letter addressed by the CGAO of AMG-2 Naples to all Consular representatives in that town together with its enclosures.

So far as I am aware the Italian civil authorities have no locus standi for requiring the registration of United Nations nationals in AMG territory. I am inclined to think, moreover, that so long as the armistice régime lasts they have no right to do so anywhere in Italy. On the other hand, it appears to be somewhat inconsistent with the general policy of the United Nations towards Italy to ignore all Italian immigration and police laws as we do at the present time. Possibly some compromise could be reached to meet the Italian Government half way as an act of grace at least.

I should be grateful for your views.

MINISTERO DELLE GUERRE
STATO MAGGIORE R.E. 808 BTG.C.S.

Memorandum To: Lieut.-Col. Piot

The Italian regulations in force oblige the foreign citizens to present themselves to Public Safety Authorities (R. Questura of CO.RE):

- in the case of entrance into Italy, within three days, in order to obtain the statement of stay;
- in the case of transfer, within three days, for the approval of the said statement.

It has been noted however that many foreign citizens, of whom many are without identity documents, have not presented themselves to P.S. Authorities. This fact causes serious inconveniences, as it does not permit to find out the displaced persons, to watch over the suspected men and to control the various facts caused by the presence of these citizens.

It is therefore necessary, also through the Press, to advise all foreign citizens residing in Naples, to regularise their own status at the local Questura of Naples within a certain lapse of time (for example: within 30/9/1945).

Of course the Allied Military personnel is not included, but the provision should be extended also to the foreign civilians employed by Allied Commands.
