1. Reference your letter W. 300/48049-4-3 dated 10 August 1945.
2. The thoroughness of your investigation and report on this important question is very much appreciated.
3. The difficulties outlined in determining American and British Service personnel is fully understood. In this respect representation has been made to AFHQ pointing out that unless some kind of uniform and universal travel orders can be issued to American, British and Polish Service personnel entering Italy, and the number of paramilitary organizations are reduced to a minimum, if not altogether excluded, maximum efficiency of your controls will not be attained.

1. Attached herewith is a copy of the Italian Ministry of the Interior letter N. 10/40000-1-1 dated 10 August 1945.

2. This letter is a reply to our letter of even reference dated 23 May 1945 copies to you, on the unauthorized entry of 1000 persons through the Benis pass during April, and also to other letters pointing out caused to the Ministry of the Interior where their controls were not enforcing the immigration regulations.

3. It will be observed that the Italian Frontier controls are having extreme difficulty in being able to determine American and British service personnel. This quite naturally is not at all surprising in view of the many different types of identity documents, travel orders and passport-like personnel with which they have to contend.

4. It appears therefore that the efficiency of the Italian Frontier controls can not be expected to improve until such time as the travel orders of American, British and Polish personnel can be of some uniform and universal nature and that the number of different passport-like documents are reduced to a bare minimum, if not altogether excluded.

SUBJECT : Italo-Austrian frontier control

TO : Public Safety S/O A.C.

 Ministry Foreign Affairs
 Confine Commission - Rome
 Ministry Foreign Affairs
 General Direction - Political Affairs.

In letter N. 182.806/47 dated 4 June 46 your Commission also referring to letters of the 23rd and 31st May, pointed out the necessity of reinforcing the control on the Italo-Austrian frontier.

The request made by your Commission was justified by the contents of letter n. C.E.I./189-806-48 dated 23rd May, of the passage thru the Resia pass during the month of April of more than 1400 illegal immigrants.

Following the a/m letters, this Ministry has ordered the Prefect of Bolzano to effect an accurate enquiry, tending to clear:

- 1) the effective existence of the illegal immigrations and the consequent responsibility.
- 2) the actual functioning of the controls along the Austrian frontier.

As to the illegal immigrations, from the enquiries made it has appeared that, during the year 1946, the following groups of Jewish refugees have immigrated to Italy from the Resia pass - coming from the places indicated at the side of each:

Date	From	N. 35	Refugees
17.2.1946	from Bucharest	N. 35	Refugees
27.2.1946	" Germany	N. 100	"
3.4.1946	" Gollisburg	N. 104	"
4.4.1946	" "	N. 129	"
5.4.1946	" Innsbruck	N. 218	"
6.4.1946	" Gollisburg	N. 230	"
15.4.1946	" Lankach	N. 31	"
15.4.1946	" "	N. 250	"
15.4.1946	" "	N. 230	"
18.4.1946	" "	N. 160	"
29.4.1946	" "	N. 100	"

3390

These groups of refugees arrived at the Italian frontier on 4/2 vehicles and each convey was led by an allied officer in uniform who proceeded it at about half an hour, to the Resia pass, showing as a transit permit, a collective list of the migrants which sometimes even bore the visa of the Italian Committee of Salzburg.

The convey usually passed shortly after midnight, an Allied sergeant of the I. P. C. of Trento being present, who also controlled the immigrants individually. Sometimes at Resia a captain (Domenico) of the I. P. C. also intervened to inspect the entry of each group.

The vehicles used for such purposes left Italy (from either Merano or Bolzano) to fetch the refugees in question in Austria.

It is noted that the m/m immigrants may be divided into three groups, according to the date of their entry to Italy.

1) 135 entered when the Italy-Austria frontier was still under the entire jurisdiction of the allied authorities.

2) 1508 entered between the 1st and 8th April 1946, i.e. when the Italy-Austria frontier had passed under the control of the Italian authorities, but previous instructions had not yet been given on the entrance of aliens into Italy. In fact, it is known that the dealings concerning such matter made by Cap. Rinaldi and Cap. Rinaldi, were concluded after the middle of April, so that only on the 19th April 1946 such dispositions could be issued in cable A.C. 411-41371. No responsibility therefore can be given to the boundary services of the Resia pass for the entry of the m/m 1508 Hebrews.

3) 101 entered on 11th April 1946 as at that time the P.C. office of Resia had received the m/m cable, but evidently it had been received by the procedure followed up till then, which was guaranteed by the fact that allied military were in charge of transit.

Later, due to the investigation of the Italian frontier Police and Maj. Bore, the matter was cleared in the P.C. office of Resia; therefore with the appearance of another convey of Hebrew refugees at the pass, a few days later, entry to Italy was prohibited, since then, no further inconveniences have arisen.

Regarding the actual functioning of the controls along the Austrian frontier, the Prefect of Bolzano, going to Austria, tried to contact the British officer of the A.C. in Austria, who had made observations on the functioning, also to know the unfulfillments noticed by him. Not having any success, the Prefect of Bolzano asked the allied police of Innsbruck for particulars, he was told that they knew nothing about such observations. The Prefect of Bolzano has added - and which this Ministry already knows - that there is no irregularity at the frontier controls as there is a continuous vigilance service.

It is not to be excluded that along the arch of the Italy-Austria frontier, which is a mountainous area, and where the frontier

defences have all been destroyed by the Germans, single infiltrations of unauthorized persons entering Italy may be verified.

same time, it is probable that there may be exceptions to the rules issued by the Ministry, on the entrance of Aliens at the pass of Terzio which is situated in territory subject to the jurisdiction of the Hill Corps and A.M.S., thus, concluding, our frontier services are not autonomous. But it is to be avoided that the Italian boundary services, due to ignorance or otherwise, grant entrance to Italy to unauthorized persons.

Reservations are to be taken as to the accuracy of the rules agreed upon by your Commission, on the entry of Aliens into Italy and which have been transmitted in the a/m cable of the 19th April 1946.

First of all, it would be necessary to exactly indicate the category of persons who are to be considered "British and American military personnel". In defect of this indication, and of the indication of identification documents which the parties interested must have in order to prove their belonging to one of the a/m categories, the boundary officers find themselves in the necessity to let all those, in possession of documents issued by an Allied command, pass, and on which it appears that the bearer is either a British or an American military.

Secondly, it would be necessary to make clear which are the "regular transit documents", which enable British and American military personnel to cross the Italian frontier, without these clarifications, it may happen that "anybody in an allied uniform with any sort of sheet of paper having the appearance of a document may pass the frontier", as your Commission has pointed out in letter n. 189-806/47 of the 10th July 1946.

The frontier Police services may only function regularly if the police forces are authorized to effect all the steps necessary to ascertain the personal identification of those transiting, based on a precise, uniform and unchangeable document. Therefore, until the frontier police forces have not the faculty of also controlling the personal identification of those persons in, either British or American uniform and not having identification documents enabling them to transit, the crossing of people "abusively wearing allied military uniform will always be verified".

The preceding observations are also partially in answer to the letter of the 10th July mentioned above. It is added that:

The officer sent to direct the P.S. Office of Roma, and who has assumed service there on the 15th June 46, by ordinance of the 19th July 46, has called the attention of all the dependent personnel, on the rules concerning the entry of Aliens; in these rules it is pointed out "that Aliens belonging to states where Italian diplomatic and consular representatives do not exist" in order to enter Italy they must be in possession of an allied permit (Anglo-American) issued by AFHQ, on which the particulars of the authorization granted by the Ministry of the Interior must appear", this corresponds with the rules in force;

assiduous inspection of the frontier services of the Roma

has been disposed in order to specifically and concretely
notice and reported irregularities.

Reservations are taken on any further communication on the
subject

In letter n.389.506/47 dated 4 June 46, your Commission also referring to letters of the 23rd and 31st May, pointed out the necessity of reinforcing the control on the Italo-Austrian frontier.

The request made by your Commission was justly provoked by the contents of letter n. G.E.I./389-506-40 dated 23rd May, of the passage thru the Resia pass during the month of April of more than 1400 illegal immigrants.

Following the a/m letters, this Ministry has ordered the Prefect of Bolzano to effect an accurate enquiry, tending to clear:

- 1) the effective existence of the illegal immigrations and the consequent responsibilities.
- 2) the actual functioning of the controls along the Austrian frontier.

As to the illegal immigrations, from the enquiries made it has appeared that, during the year 1946, the following groups of Jewish refugees have immigrated to Italy from the Resia pass - coming from the places indicated at the side of each:

11.2.1946	from Mathausen	n. 35	Hebrew refugees

18.4.1946	" Landech	n.360	" "

These groups of refugees arrived at the Italian frontier on W/D vehicles and each convoy was led by an allied officer in uniform

who preceded it of about half an hour, to the Resia pass, showing as a transit permit, a collective list of the emigrants which sometimes even bore the visa of the Italian Committee of Salzburg.

The convoys usually passed shortly after midnight, an Allied sergeant of the 311 P.S.S. of Merano being present, who also controlled the immigrants individually. Sometimes at Resia a captain (Douglas) of the 311 P.S.S. also intervened to inspect the entry of such groups.

The vehicles used for such purposes left Italy (from either Merano or Rimini) to fetch the refugees in question in Austria.

It is noted that the a/m immigrants may be divided into three groups, according to the date of their entry to Italy :

1) 135 entered when the Italo-Austrian frontier was still under the entire jurisdiction of the allied authorities.

2) 1506 entered between the 3rd and 13th April 1946, i.e. when the Italo-Austrian frontier had passed under the control of the Italian authorities, but precise instructions had not yet been given on the entrance of Aliens into Italy; in fact, it is known that the dealings concerning such matter made by Cap. Rauzzi and Cap. Backer, of your Commission and by Dr. Migliore and De Vito, of this Ministry, were concluded after the middle of April, so that only on the 19th April 1946 such dispositions could be issued in cable A.G.R./443-45837; no responsibility therefore can be given to the boundary services of the Resia pass for the entry of the a/m 1506 Hebrews.

3) 100 entered on 29th April 1946: as of said date the P.S. office of Resia had received the a/m cable, but evidently it had been deceived by the procedure followed up till then, which was guaranteed by the fact that allied military were in charge of transit.

Later, due to the intervention of the Italian frontier Police and Maj. Hare, the matter was cleared in the P.S. office of Resia; therefore with the appearance of another convoy of Hebrew refugees at the pass, a few days later, entry to Italy was prohibited. Since then, no further inconveniences have arisen.

Regards the actual functioning of the controls along the Austrian frontier, the Prefect of Bolzano, going to Austria, tried to contact the British officer of the A.C. in Austria, who had made observations on the functioning, also to know the unfulfillments noticed by him. a scrupulous inspection of the frontier services of the Resia pass has been disposed in order to specifically and concretely notice the reported irregularities.

fatto di Bolzano cinque obicquienti intorno a tali villaggi alla polizia alleata di Innsbruck: ne ebbe in risposta che, a questo risulta a quella polizia alleata, i villaggi stessi non hanno fondamento. E, dal canto suo, il Prefetto di Bolzano ha aggiunto - dove che questo ministero già conosceva - che effettivamente non esistono irregolarità presso i posti di controllo alla frontiera avvenuti servizio di vigilanza continuativa.

Non si esclude che lungo l'arco della frontiera italo-austriaca, che corre in territorio montagnoso ed incolto, e dove tutti i presidi di frontiera sono stati distrutti dai tedeschi, infiltrazioni singole possono verificarsi di gente non autorizzata all'ingresso in Italia. Del pari è probabile che le norme impartite da questo Ministero circa l'ingresso dagli stranieri soffrono eccezioni e modificazioni al valico di servizio, che è più in territorio soggetto alle giurisdizioni del Luogo Corvo e dell'A.M.G., onde in definitiva i nostri servizi di frontiera non sono autonomi. Ma è da escludere che i servizi, come fissati italiani, per ignoranza o altro, concedano di entrare in Italia a persone non autorizzate.

In tutto, si riserva dopo da muovere circa la precisione delle norme concordate a suo tempo con codesta On. Commissione circa l'ingresso degli stranieri in Italia, e che sono state trasfuse nei suddetti telegrammi del 19 aprile o.s.

In primo luogo, occorrerebbe indicare con assoluta precisione le categorie di persone che devono ritenersi comprese nella dizione "personale militare britannico e americano". In difetto di questa indicazione, e dell'indicazione dei documenti di identificazione ai cui devono essere in possesso gli interessati, per comprovare l'appartenenza ad una delle categorie suddette, gli uffici di confine si trovano nella necessità di far passare chiunque sia munito di una dichiarazione rilasciata da un comando alleato, da cui risulti che il portatore appartiene al personale militare britannico o americano.

In secondo luogo, bisognerebbe precisare quali sono i "regolari documenti di transito", che abilitano il personale militare britannico e americano a varcare la frontiera italiana. In mancanza di questa precisazione può avvenire che vengano alla frontiera "qualsiasi persone che si presentino in uniforme militare alleata con la semplice esibizione di un pezzo di carta che abbia l'apparenza di un documento", come codesta On. Commissione ha rilevato con la lettera n. 339-505/47 del 10 luglio o.s.

zetto di Dolzano chiese chiarimenti intorno a tali milievi alla polizia alleata di Innsbruck: ne ebbe in risposta che, a quanto risulta a quella polizia alleata, i milievi stessi non hanno fondamento. E, dal canto suo, il Prefetto di Bolzano ha aggiunto - cosa che questo Ministero già conosceva - che effettivamente non esistono irregolarità presso i posti di controllo alla frontiera aventi servizio di vigilanza continuativa.

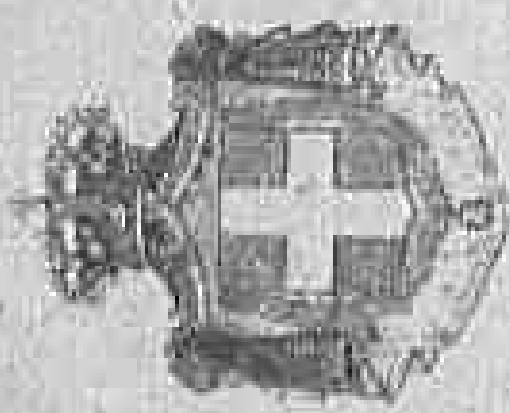

Non si esclude che lungo l'arco della frontiera italo-austriaca, che corre in territorio montuoso ed impervio, e dove tutti i presidi di frontiera sono stati distrutti dai tedeschi, infiltrazioni singole possano verificarsi di gente non autorizzata all'ingresso in Italia. Dal punto di vista è probabile che le norme impartite da questo Ministero circa l'ingresso degli stranieri soffrono eccezioni e modificazioni al valico di Tervisio, che è *filtrato* in territorio soggetto alla giurisdizione del XIII° Corpo e dell'A.M.G., onde in definitiva i nostri servizi di frontiera non sono autonomi. Ma è da escludere che i servizi, compresi italiani, per ignoranza o altro, concedano di entrare in Italia a persone non autorizzate.

Infattò, si sa che sono da muovere circa la precisione delle norme concordate a suo tempo con codesta On. Commissione circa l'ingresso degli stranieri in Italia, e che sono state trasfuse nel evindicato telegramma del 19 aprile c.a.

In primo luogo, occorrerebbe indicare con assoluta precisione le categorie di persone che devono ritenersi comprese nella dizione "persona militare britannica e americana". In secondo luogo, bisognerebbe precisare quali sono i "regolari documenti di transito", che abilitano il personale militare britannico e americano a varcare le frontiere italiane. I servizi di polizia al confine possono funzionare regolarmente soltanto se le forze di polizia sono autorizzate a compiere tutti gli atti necessari per accertare l'identità personale dei transitanti, in base a una documentazione precisa, uniforme ed inequivocabile. Finché, quindi, le forze di polizia dislocate sulla frontiera non avranno la facoltà di controllare anche l'identità personale dei transitanti, che vestono l'uniforme militare britannica e americana, e costoro non saranno muniti di documenti uniformi sia per l'identificazione sia per l'abilita-

Tali gruppi di profughi si sono presentati alla frontiera italiana su autoparadi militari alleati e ogni autocolonna era guidata da un ufficiale alleato in divisa, che la precedeva al valico di Resia di una mezza ora, esibendo quale permesso di transito una lista collettiva degli emigranti, che talvolta recava anche il visto del comitato italiano di Salisburgo.

Il transito delle autocolonne si effettuava di regola poco dopo la mezzanotte, presente un sergente alleato della 311^a F.S.S. di Merano, il quale procedeva anche al controllo individuale degli immigranti. Talvolta a Resia è intervenuto anche, per imbastire l'ingresso di tali gruppi, un capitano della 311^a F.S.S., certo Douglas, soubre.

Gli automezzi adibiti a tali trasporti partivano dall'Italia (smbta da Merano o da Rimini) per andare a rilevare i profughi in questo no in Austria.

Ciò prenesso in linea di fatto, si osserva che i sudindicati immigrati possono dividersi in tre gruppi, secondo la data del loro ingresso in Italia:

-) 135 entrati quando la frontiera italo-austriaca era ancora sotto la giurisdizione piena delle autorità alleate;

-) 1506 entrati fra il 3 e il 10 aprile 1946, quando, cioè, la frontiera italo-austriaca era passata sotto il controllo delle autorità italiane, ma ancora non erano state impartite disposizioni precise circa l'ingresso degli stranieri in Italia: è noto, infatti, che le trattative riguardanti tale questione, condotte dal cap. Ravasi e dal cap. Becker, di questa Or. Commissione, e dal dr. Migliore e De Vito, di questo Ministero, si conclusero dopo la morte d'aprile, al che solo il 19 aprile 1946 tali disposizioni poterono essere impartite, con telegramma A.S. 2. 443-45037; nessuna responsabilità quindi, può essere imputata ai servizi di confine del passo di Resia per l'ingresso dei suddetti 1506 ebrei;

-) 100 entrati il 29 aprile 1946: a questa data l'ufficio di confine di p.s. di Resia aveva ricevuto il telegramma suddetto, ma evidentemente fu tratto in lagano dalla pressa fino allora seguita e che era garantita dal fatto che del transito si occupavano militari alleati.

Successivamente, per intervento sia delle autorità di polizia di frontiera ^{alleate} sia del maggiore Mare, all'ufficio di p.s. di confine di Resia, fu meglio chiarita la cosa: onde a una nuova autocolonna di profughi ebrei, presentatasi a quel valico qualche giorno dopo, fu inibito l'ingresso in Italia. Da allora in poi, non si sono verificati altri inconvenienti del genere.

Per quanto riguarda l'attuale funzionamento dei controlli lungo la linea di frontiera austriaca, il Prefetto di Bolzano, recatosi in Austria, ha cercato di prendere contatto con l'ufficiale britannico della Commissione Alleata in Austria, che aveva formulato osservazioni circa il funzionamento stesso, anche al fine di conoscere in concreto le inadempienze da lui rilevate. La richiesta di cedesta on. Commissione era provocata, giusta il contenuto della lettera n. 9.3.1. 389-506-40 del 23 maggio, dal passaggio, durante il mese di aprile, del valico di Resia, di oltre 1400 immigrati illegali.

In ordine alle illegali immigrazioni, dalle indagini svolte è risultato che, nell'anno in corso, del valico di Resia sono immigrati in Italia i seguenti gruppi di profughi ebrei, con la provenienza e alle date a fianco citate:

SUBJECT: Frontier Control (Resia Pass).

TO : C.I.O., Bolzano.

1. In accordance with your instructions, on the end of July 1946 I proceeded to the Resia Pass and made enquiries as requested in the telegram received by you from D.F.R.S., HQ.AG, Rome, reference number 3690.

2. From the records available at the Pass, the following is a list of Jews who have passed through the UNRRA convoys:

11 February 1946	35	
12 February 1946	31	
2 April 1946	100	
3 April 1946	104	
4 April 1946	129	
5 April 1946	230	
7 April 1946	200	
13 April 1946	260	
15 April 1946	220	
18 April 1946	360	
10 May 1946	5	Jews on a mission from Milan to Munich, Movement Order signed by American Joint Distribution Committee.

3. The Italian Frontier Authorities at the Resia Pass keep four books:

- (a) For Civilians. - In this book is kept the record of all civilians in possession of regular passports who leave and enter Italy.
- (b) Tessere di Frontiera. - In this book are kept all particulars of the persons living within the 15 Kilometres zone either side of the frontier, who are in possession of Tessere di Frontiera issued either by the Italian Questura or the French Military Government, Lunenburg. These

3368

are a 168 Italians issued with Tessere di Frontiera by the Questura who use the Lenin Pass, and 160 Austrians issued with a Tessera di Frontiera by the French Military Government, Lensbruck, who use the Lenin Pass. Each time any of these persons cross the frontier, a record is made in this book.

(c) French and Polish Military.-- Record is kept in this book of all French and Polish Military passing through the Lenin Pass.

(d) Anglo-American Military.-- Record is kept in this book of all British and American Military passing through the Lenin Pass.

2. From my observation, the only means of entering Italy that the Italian Authorities know how to control properly are civilians in possession of regular passports and civilians in possession of Tessere di Frontiera.

3. This is only natural, as this form of frontier control existed before the war.

4. They have no idea of their powers, or what documents are required by Allied Military Personnel to cross the frontier.

5. A person wearing an Allied Military uniform and presenting a piece of paper that has any official appearance at all, can cross the frontier.

6. As far as Allied Forces Tessere are concerned, they appear to think that these documents open the doors of all frontiers, allowing the bearer to pass almost unchallenged.

7. The French Military Government appears to have little idea of the object of Allied Forces Tessere, as during the time I was inspecting the books at the Lenin Pass an Austrian citizen presented himself at the frontier, returning to Lensbruck.

8. He presented an Allied Forces permit No. 01954 authorizing him to make one journey to Merano. There was no Italian visa authorizing him to enter Italy.

9. This person had entered Italy through the Brenner Pass on 18 June 1946 and the Italian Authorities there had stamped it. He had reported to the Questura at Bolzano on 21 June and again the document was stamped. Under these circumstances it would appear that the Italian

Frontier Control at the Brenner and the Gestapo at Bolzano are of the opinion that the French Military Government of Innsbruck can authorize Austrians to enter Italy without reference to the Italian Government, which is of course quite wrong.

12. There is no suggestion that the holder of this pass had knowingly committed any offence, as he is a South-Tyrolean who opted for Germany and is now living near Innsbruck and the object of his visit was to stay for a few days with his son, an Italian subject, who did not opt for Germany, at Merano.

13. Whilst this particular case does not come directly within the terms of the agreement between the Prefect of Bolzano, the French Military Government and yourself, I feel that no objection would have been raised by any of the parties concerned, had he been issued with a permit under this agreement.

14. The people who are primarily to blame are the French Military Government for having issued an Allied Forces Permit without instructing the holder of the procedure to be adopted before proceeding abroad.

15. However, the Italian Authorities cannot complain of the number of foreigners entering their Country, when they allow persons in possession of such documents as this Allied Forces Permit to enter the Country before an Italian visa was obtained.

16. In fact from my experience of visiting the various Frontier posts in this Province there seems a complete absence of instructions to the Italian Frontier Guards as to who should and who should not be allowed to enter the country, and what authority is necessary.

17. In addition, it has been brought to my notice that a civilian of my nationality presented himself at the Italian Frontier with a document signed by an Allied Officer, especially if it is a British or an American Officer, is allowed to enter Italy without further question.

SUBJECT : Greek wives of Italian Nationals.

1. Further to our memorandum UNHRA/24/32/IT dated 22 June 1946, the following information has been received from UNHRA Greece Mission :

- " a) I am referring to previous correspondence and signals in connection with drafts of Greek wives and children of Italians sent to Bari on the Corvettes Thessaloniki and Patras.
- b) In our cable No. 360 to Rome dated June 13 we informed you that a member of the Greek Aliens' Bureau was travelling on board the Corvette Patras in order to make the necessary arrangements and checks in connection with the Greeks assembled in Bari waiting repatriation to Greece. We have now had an opportunity of seeing Mr. Anagnostopoulos on his return, and we naturally questioned him very closely as to the reception in Italy of the Greek wives of Italians when the Aliens' Bureau had embarked without our consent or approval.
- c) Mr. Anagnostopoulos informed us that when the ship docked in Bari all the Greek wives, that is to say the ones legitimately embarked by the Aliens' Bureau as non-eligible for UNHRA assistance and those for whom we are dealing and waiting a reply, were met by their husbands on the quay side.
- d) This, of course, strengthened his position in that the Aliens' Bureau rather high-handed move had apparently worked out most satisfactorily. However, Mr. Anagnostopoulos was prepared to admit that after a series of discussions in Italy, he had got the impression that a number of Greek wives of Italians who had returned previously without proper checking were now deserted by their husbands and were on the streets of Rome, Naples, Bari, etc.

3364

- 2 -

- 2) In view of this impression which he has brought back, I believe Mr. Anagnostopoulos has undertaken to stress to the Greek Aliens' Bureau the absolute necessity of first of all getting confirmation from your end as to whether the husbands will take back their wives or whether the family will support them etc., before embarking the wives in a haphazard fashion at this end.
- f) Mr. Anagnostopoulos brought to light however the following information which does seem to be important in view of the long time it seems to take for a reply to come through your channels to the various inquiries we have made. When Mr. Anagnostopoulos disembarked his draft in Bari, he contacted "the police and passport section" of the police which he believes is under the Ministry of Interior and not the Ministry of Foreign Affairs.
- g) Mr. Anagnostopoulos reports that these officials definitely state that they are prepared to investigate cases quickly provided that the individuals concerned carry with them (a) a certificate from the Swiss Legation here certifying that they are Italians or have acquired Italian nationality by marriage and (b) one photograph attached to this certificate. They are then prepared to allow them to enter Italy.
- h) I believe that in view of our strong protest to the Greek authorities here there will be no further repetition of embarking individuals without first checking with us but I would emphasize that the sooner you can possibly let us have definite replies to the outstanding cases, the easier it will be for us to convince the Greek authorities that we are not trying to obstruct their moves but that we are working for the same end, i.e. to arrange a successful repatriation of the Italians and Greek wives as expeditiously and satisfactorily as possible. "

2. With reference to paras (f) and (g) a copy of our reply to UNHRA Greece Mission is attached and it would be appreciated if you would comment upon this as quickly as is possible.

2. The information contained in this memorandum is being placed, immediately, before the Italian Government for their comment on the statement made by Mr. Anagnostopoulos on the question of entry and the outline of the procedure proposed by the 'police and passport' section at Bari.

3. While we await the Italian Government's reply we would point out that this proposed procedure is opposed to the policy as it is understood, at the present time, by this Mission and which is laid down in the Ministry of Foreign Affairs reply to questions placed before them by your representative Miss Galdard-Brown in February last; a copy of which was sent to Miss Galdard-Brown under reference UNHRA/24/02/IT dated 26 February 1946 and which was designed to prevent the entry into Italy of women who might find themselves not legally married or abandoned by their husbands. This procedure allows for a thorough check of all domestic circumstances and naturally cannot be done quickly.

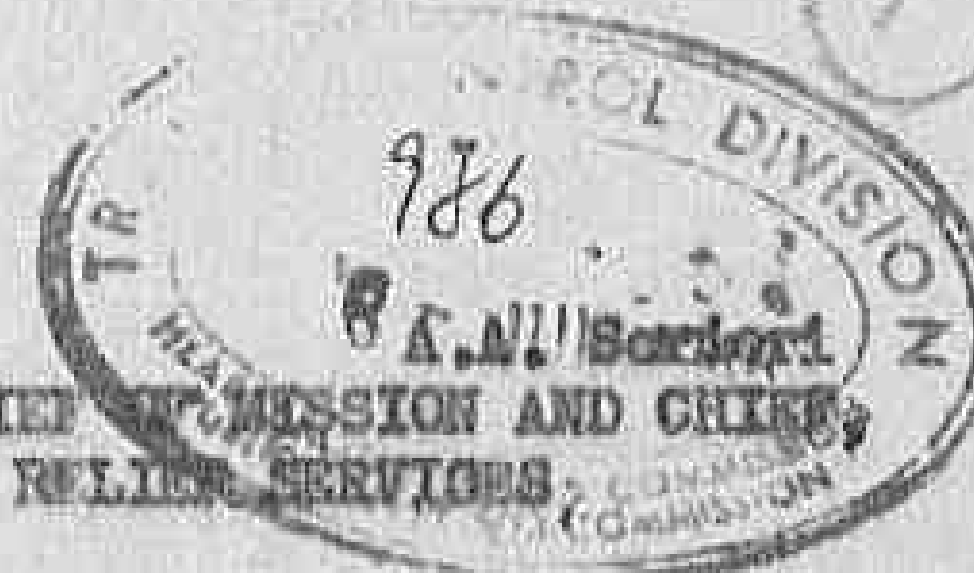

4. Furthermore, entry must be agreed between the Ministry of Foreign Affairs and the Ministry of Interior and it is thought that the officials at Bari had either overlooked or were unaware of this point of procedure.

1. Further to our USNSA/24/32/XI dated 4 June 1946.
2. The following information has been received from USNSA Greece Mission:

Je 25.

"We have been able to obtain a copy of the Aliens Bureau nominal roll from which we have been able to see who actually was embarked. As we feared, a number of Greek wives and other unauthorized individuals managed to get on the ship by merely making an application either to the Aliens Bureau or, we believe, in some cases, to the actual shipping agency at the moment of embarkation.

We are enclosing with this letter a list of the individuals concerned, a number of whom you will notice are still being dealt with by our Mission and yourself, and for whom we are still waiting clearance. You will also note that there are one or two individuals for whom we had received a definite refusal from you to allow entry into Italy.

Also enclosed with this letter is a copy of the complete nominal roll of the Italians and United Nations nationals embarked under USNSA auspices. You will, I trust, have received this from the I.C. draft but we are sending you an extra copy in case there has been any difficulty. You will notice from this copy that three people were delayed at the last moment. (2) owing to sickness (no. 71 and 74) (1) owing to the fact that at the last minute she discovered that her "husband" was already married in Italy (6)."

3. With regard to the list of persons who travelled without the consent of UNRRA and not under their auspices, the following information may help you to identify cases upon which we have had previous correspondence :

" It has recently been learned that, contrary to instructions and in spite of the fact that they had been advised that a permit to enter Italy had not yet been granted to them, Haralambos and Matina Costopoulos left Greece for Italy on

board the SS "Thessaloniki" on 25 May 1946.

You will notice from the lists sent to you that their names do not appear on either of them. This is due to the fact that they made independent arrangements with the SS Company to meet the cost of travel. This arrangement was made entirely independently of UNRRA. The above is sent for your information."

5. In connection with the subject of the entry into Italy of Italian and Greek wives of Italians not under UNRRA auspices, the following signal has been received from UNRRA Greece Mission:

"Confirm departure 12 June Corvette Patrai with seven eligible Italian PDs also embarked by Athens Bureau approximately 230 non eligible Italians and Greek wives. Athens Bureau draft again included without authority or consent UNRRA. Number of Greek wives of Italians for whom we are negotiating with your and for whom no firm answer yet received. We have protested strongly but were unable remove them from ship. Details and numbers will follow soonest."

Conversation Count Fabricotti - Mrs. Mamook refers.

6. While this Mission very much regrets that the incident of the THESSALONIKI has been repeated in the SS PATRAI it will be seen that it occurred in spite of all efforts on the part of UNRRA Greece Mission to prevent it.

SUBJECT : Repatriation of Italians ex GREECE

1. Further to our UNRRA/24/GII/IT dated 23 May 1946.
2. The following information has been received by signal from UNRRA Greece Mission :

" Re Corvette Thessaloniki, UNRRA filled 144 places with eligible Displaced Persons and agreed that remaining space could be used under arrangements between Ministry of Repatriation and other Authorities for persons not eligible UNRRA help but with clearances to ITALY.

We have just learned that amongst 204 thus shipped by Aliens Bureau were some Greek wives for whom we are waiting clearance and to whom we had refused space on ship.

We emphasize that they were shipped entirely without our knowledge and by Greek authority who knew we had refused approval.

We are taking this matter up immediately with Greek Government."

3. UNRRA Greece Mission further suggested that since this unauthorized move might encourage others to follow this example, it would be advisable that these women be returned to GREECE. It would be appreciated, therefore, if you will advise us of any action which may have been taken by your Port Security Officials and if any further action which you may have under consideration.

UNRRA - Italian Mission - Rome.

With reference to your N.C.B.I. 389.47, it is communicated that the Questura of Rome has arrested would be Zeff Jacob mentioned in subject, identified as the Rumanian subject Rub Hascal di Matan and di Zeni Kahan, born in Bucarest on the 5/6/1926 who has declared that while he was in a Refugee Camp of Salisburgo he was granted to be added on to a list of Hebrews by the Hebrew authorities, who were to be going to Palestine. On this list he is supposed to have been erroneously indicated under the name of Zeff. He later entered Italy together with other eight co-religionists under false names. Rub will be denounced to the Judicial Authorities for having given false descriptions when rendering his statement of sojourn and will be sent to the Concentration Camp of Fossoli di Carpi at the disposition of the Repatriation S/C when justice has been completed. 1. Further to our letter of even reference dated 23 May 1946.
2. Still further cases are coming to light of persons being allowed entry into Italy without the Italian Government's approval.
3. A case in question is the arrival of the two above-named Greek nationals at Bari on May 29, 1946; they arrived by a Greek ship "Eleniki" and were allowed to walk off the ship without even as much as being asked for their passports.
4. These two gentlemen visited this office to obtain permission to go to Austria, but their applications were not entertained pending their getting their stay in Italy duly regularized.
5. It would appear that the working of the controls at Bari leave much to be desired and it is thought that your Ministry might like to take this opportunity of advising them on the basis of this Headquarters letter of even reference dated 15 March 1946.

TO : The Ministry of the Interior.

1. As a result of a visit by a British Officer of the Allied Commission for Austria it has been found that the Italian controls on the Austro-Italian frontier are not enforcing either the Italian or Austrian immigration regulations; and in some cases the controls were not even at the frontier points.

2. The necessity of vigilant frontier controls, fully conversant in their duties at all the frontier crossing points cannot be too hardly stressed as has clearly been pointed out in our letters GBI.389-506/40 dated 23 and 31 May 1946.

TO : The Ministry of the Interior.

1. As a result of a visit by an officer of the Displaced Persons and Repatriation Sub-Commission, this Headquarters, it would appear that your Frontier Controls on the Regia Pass are unaware of the correct documentation required by persons to enter Italy.

2. It will be recalled that as a result of a meeting between Drs. Migliore and De Vito of your Ministry and S/Lt. Baker and Capt. Rausel of this Headquarters, on the hand over of responsibility of the frontier, airport and seaport controls, your ministry sent a cable Nr. 443/43837 dated 19 April 1946 informing all your controls of the categories of persons which were to be permitted entry into Italy.

3. During the month of April it was determined that over 1400 illegal immigrants were permitted through the Regia Pass under the guise of Displaced Persons.

4. Your attention is drawn to the agreement for entry into Italy of Displaced Persons whereby Italians and Alien Displaced Persons will only be brought into Italy after your Ministry's approval has been obtained and this approval has been endorsed on their D.P.2 cards and when your Ministry has advised the Frontier Control point concerned of their intended arrival. Furthermore in the case of Italian Displaced Persons these parties will be accompanied by Italian officers and other Displaced Persons will be accompanied by a conveying officer of the Displaced Persons and Repatriation Sub-Commission.

5. It would therefore be appreciated if urgent action could be taken to inform the Regia Pass controls, and once again draw to the attention of all your other controls, the categories of persons they should allow entry into Italy.

1. Reference your 3610/87/EO dated 18 March 1946.
2. A copy of our letter to the Italian Ministry of Foreign Affairs together with AFHQ letter G-5 09.112 of 9 March 1946 and OIC report are attached hereto.
3. The OIC report is somewhat misleading and would appear to have been misunderstood by AG of S., G-5. It is considered that our letter to the Italian Government is a true statement of the facts.
4. G-2 RAAC were contacted on 14 March and instructed to deliver the prisoners to the Questura. The prisoners had not contravened any travel regulation, control of exit from Italy was removed on 5 July 1945.
5. As it is known that both the American and British Embassies are endeavouring to persuade the Italian Government to institute some form of control over exit from Italy copies of our letter were forwarded to the Embassies.

SUBJECT : Unauthorized travel - Italy to Austria/Germany.

TO : Senior Jewish Chaplain
R.A.A.G., C.M.F.

1. Copy of a document issued by your department in favour of Arnold WEINBERGER is attached for reference. This is not the first of such documents which have come to our notice.
2. It is pointed out again that the control of travel into Austria and Germany is a G-2 A.F.H.Q. function and that the issuance of documents purporting to authorize a crossing of the frontier renders the issuing officer liable to disciplinary action.
3. In the case of WEINBERGER he has been arrested and will be duly tried and sentenced to imprisonment for illegal entry into Austria.
4. For your information, WEINBERGER when arrested stated that he had no duties to perform but merely wished to proceed to Munich to find his brother. It will be noted that the document issued by your department states that WEINBERGER is a welfare worker and that he was charged with certain duties which necessitate his presence in Munich.

SUBJECT : Illegal entry into Italy from the
United States of America - GUCCIO Savino.

TO : The Italian Ministry of the Interior.

1. Reference your letter N. 443/44058 dated 15 March 1946.
2. This illegal entry is a case for the Italian Government's decision. Under normal conditions he would be put on board the first Italian ship going to the United States of America and the authorities there advised of his deportation and time of arrival. However the situation is complicated as it is understood there are no Italian ships leaving for the United States of America at the present time.
3. It is therefore suggested that the matter be taken up with the American War Shipping Administration to inquire into the possibility of getting a space on an American ship for his deportation.
4. Failing this the above-named could either be arrested and held pending the making of arrangements for his eventual deportation on an Italian ship or perhaps, if there are no strong security or other objections, he could be granted a visa of limited duration on the understanding he leaves Italy at the first available opportunity.
4. The above information is passed for any action your Ministry deems suitable.

COPIA

L'anno millenovecentoquarantasei addì 17 del mese di febbraio nell'Ufficio Stranieri della R. Questura di Napoli, innanzi a noi sottoscritto Funzionario di P.S. è presente il cittadino americano Guccio Savino in Josino e di Vittoria Ragnateli, nato a New York City Ny il 28.7.1923, residente a Brooklyn 25 Woodholl St., il quale, opportunamente interrogato, quanto appresso dichiara:

Nel 1943 sono sbarcato con le truppe americane nel porto di Napoli ed assegnato al Comando H Ef e 37.30.A.F. - APO-512, di stanza a Caserta, dove ho prestato servizio fin dal dicembre 1945. Durante la mia permanenza in Italia ho conosciuto la signorina Anna Carthia, domiciliata a Napoli - Via S. Biagiodei librai 112 con la quale mi sono fidanzato.

Il 10 dicembre 1945 sono stato rimpatriato e successivamente enobilitato nell'America del Nord e precisamente a New Jersey. Non avendo potuto ottenere, in breve tempo, il passaporto per l'Italia, ed avendo desiderato di ritornare in Italia per rivedere la mia fidanzata con la quale intendo contrarre matrimonio, mi sono imbarcato clandestinamente nel piroscafo "Andrea Gritti" diretto in Italia. Il giorno 15 corrente sono arrivato nel porto di Napoli. Prima di sbarcare sono stato consegnato dal Capitano del piroscafo alla polizia inglese di servizio al locale scalo marittimo. Poi sono stato consegnato, essendo cittadino americano, alla polizia americana, che, a sua volta, mi ha consegnato alla polizia italiana per gli ulteriori provvedimenti.

Intendo rimanere in Italia, dove già ho trovato occupazione presso la fabbrica di seterie dei fratelli Bologna, residente in Sala di Caserta e, come ho già detto per contrarre matrimonio con la mia attuale fidanzata sono in possesso di 2861 (due milottocentesessantuno) dollari.

I miei documenti personali mi sono stati ritirati all'atto del mio fermo e consegnati all'Ufficio di P.S. del locale Scalo Marittimo.

2. The matter has been discussed with the appropriate authority at the British Embassy who consider that it should be taken up by you direct with B.T.A.

It is also thought doubtful if it would be possible to trace these persons now, as it is more than likely that the names recorded on the "AUSWEIS" are false and such a long time has elapsed since the start of the initial investigation.

SUBJECT : Illegal entry into Italy.

TO : The Ministry of the Interior.

1. As a result of a visit by an officer of the Displaced Persons and Repatriation Sub-Commission, this Headquarters, it would appear that your Frontier Controls on the Resia Pass are unaware of the correct documentation required by persons to enter Italy.

2. It will be recalled that as a result of a meeting between Drs. Migliore and De Vito of your Ministry and F/Lt. Baker and Capt. Raugi of this Headquarters, on the hand over of responsibility of the frontier, airport and seaport controls, your Ministry sent a cable Nr. 443/43837 dated 19 April 1946 informing all your controls of the categories of persons which were to be permitted entry into Italy.

3. During the month of April it was determined that over 1400 illegal immigrants were permitted through the Resia Pass under the guise of Displaced Persons.

4. Your attention is drawn to the agreement for entry into Italy of Displaced Persons whereby Italians and Alien Displaced Persons will only be brought into Italy after your Ministry's approval has been obtained and this approval has been endorsed on their D.P.2 card; and when your Ministry has advised the Frontier Control point concerned of their intended arrival. Furthermore in the case of Italian Displaced Persons these parties will be accompanied by Italian officers and other Displaced Persons will be accompanied by a conveying officer of the Displaced Persons and Repatriation Sub-Commission.

5. It would therefore be appreciated if urgent action could be taken to inform the Resia Pass controls, and once again draw to the attention of all your other controls, the categories of persons they should allow entry into Italy.

Referring to even numbered letter of 5 Oct. 1944 we communicate, for your information and for such action as you may consider necessary, that the a/m person Schulze Gerda, German, had her mother, Bothe Gertrud in Schulze fu Bertram, transferred from Fulpmes (Innsbruck) to this country without this Ministry's visa for her entry.

When questioned, Schulze explained that her mother arrived here on 23 Dec., accompanied by Allied soldiers whom she had casually met and to whom she had expressed her wish to have her mother brought to Italy from Austria.

Mrs. Bothe has likewise stated that a few days before Xmas, at Fulpmes, a soldier wearing an Allied uniform arrived at her home, and invited her if she wished to join her daughter in Rome, to take a seat in his car. She accepted the invitation.

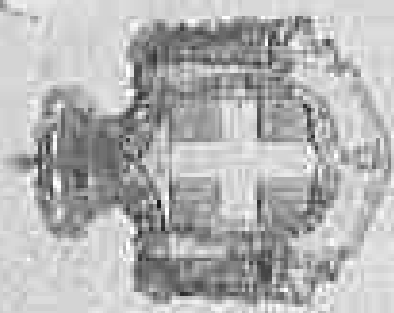

Miss Schulze refuses to give any particulars regarding the soldiers who brought her mother to Rome. She limited her statement by saying that she remembered only the name of a certain Major Vanderford (American).

We furthermore add, that this Ministry, in view of the past political and moral precedents of Schulze, proposes her repatriation.

Sir:

The receipt is acknowledged of your memorandum of January 15, 1946 regarding the illegal entry into Italy of Mr. Henry Zolini, an American employee of the United States Embassy at Prague.

Before the receipt of your memorandum this Embassy had directed an inquiry to the Embassy at Prague regarding the travel to Italy of Mr. Zolini, since his passport had not been validated for this country, and in reply was informed that he had been authorized to take leave to Italy, but that his passport had not been amended and that the circumstances under which he boarded General Webster's plane were under investigation.

Mr. Zolini was married while in Italy and both he and his wife are now in possession of Czechoslovakian visas. We have also been informed by the Liaison Section of the Allied Commission that they are properly cleared for travel in Czechoslovakia.

Very truly yours,

GHI. 389-506/47

SUBJECT : Illegal entry into Italy
- Mr. Henry ZOLINI

TO : American Embassy, Rome

1. The a/n member of the American Embassy, Czechoslovakia arrived at Ciampino airport by air from Prague January 10, 1946 and he was not in possession of an Italian entry visa or Allied Force permit.

2. As he stated that he will try to obtain travel orders for his return from your Embassy, it would be appreciated if his attention could be drawn to the necessity of obtaining the necessary visas for the countries to which he is travelling prior to his departure.

3. This action would not only exempt Mr. ZOLINI, but also the immigration controls, from further inconveniences of this kind.

SUBJECT: Convoy of Russian Jews crossing Brenner Pass without proper authority

TO: Commanding General
United States Forces, Austria
AG 777

1. Reference is made to your signal 1.1218 of 29 January and to Allied Force Headquarters signal FX 58928 of 13 January 1946.

2. Attached is a copy of travel orders in possession of the leader of the above-mentioned convoy which appear in the first instance to have been issued by UNRWA at VIENNA, Austria, and afterwards to have been supported by the French Refugee Liaison Joint Committee at TRIESTE. These orders were accepted as valid at the frontier in view of apparent UNRWA sponsorship and the party was allowed to proceed under the name of the Displaced Persons Sub-Commission of Allied Commission in Italy.

3. Two groups of Jews of assorted nationalities have recently been reported arriving at the Brenner attempting to get to Palestine. In both cases convoys were turned back as they lacked sponsorship and organization. There is no evidence to show the originating points of these parties but it will be appreciated that such attempts to gain admission into Italy without proper authority cannot be ignored here. You are earnestly requested, in order to avoid undue hardship being suffered by the persons concerned, to take such precautionary measures as may be possible to avoid recurrence of this type of movement towards the Brenner Pass.

SUBJECT : Illegal entry of Jews into Italy.

TO : G-5 Section, AFHQ (2)

1. We are submitting herewith a document which was taken from one of the persons travelling with the group of Jews mentioned on the attached Nominal Roll. These refugees arrived at Verona, Bolzano and Milan by train via the BRENNER and BOLZANO routes.

2. It would be much appreciated if you would kindly take this matter up with the French authorities concerned, as this appears to be another case of illegal entry into Italy, initiated in this case by the French authorities in Austria.

3. As a result of our investigation, we have ascertained that there is no evidence of any of these persons having been issued with a Palestine Entry Certificate. Moreover, there is no indication that anybody in Italy has agreed to these persons entering Italy.

4. We are of the opinion that such persons must be turned back at the border, otherwise it will be essential to use armed force to return them to their country of origin.
