Avv. Bruno Cassinelli
Via Mantovello

ROME

1 May 1945

Dear Sir,

In this case so dear to your family, who have been waiting since 1908, a friend of those beautiful times of the restaurant Olympia (even he from 1908!!) wants to give you a proof of his affection, assuring you that the reports of the Questura of Rome (and of all the informers not only of Rome!) are always and have always been in favour of you brother Bruno. Even those two big files will speak clearly on the watch which faction placed on both your brother and yourself.

In any case, this is the result.

Against Bruno there has been done twice, in 1908 four, requests.

One was sent by the famous Arcurio, who by a message dated 30 Nov. 44, stated to having sent an open letter to the "Unità", in which he stated that they had to act without fail against Bruno Cassinelli, Braxias, D'Annunzio, Carboni, Russo; Carulli, Caprin, who wanted to form, soon after the invasion of Anzio, a committee for putting ahead for the defence of Rome, and also in agreement with the G.P. This same committee is said to have given the names to Kapler of the forces (who were shot after) Montemonte, Briganti, Averna, De Carolis, De Crescenzo and others. And Arcurio said "and only the names".

Monday gave Arcurio's words any importance. He was arrested and sent on trial for robbery and for being a German agent. -- as the Questura of Rome was in possession of the following documents regarding Bruno Cassinelli.

1) On 15 Sept. 44 (as by the records) a grave announcement

you that the reports of the Gestapo of Rome (and of all the informers not only of Rome!) are always and have always been in favour of your brother Bruno. Even those two big files will speak clearly on the matter which Fascism placed on both your brother and yourself.

In any case, this is the result.

A alias Bruno there has been some three, in fact four, requests.

One was sent by the famous Arcurio, who by a message dated 20 Nov. 44, stated to having sent an open letter to the "Unità", in which he stated that they had to act without fail against Bruno Cassinelli, Prullaz, D'Alunzio, Carmona, Sasso, Carulli, Caprin, who wanted to form, soon after the invasion at Anzio, a Committee for public health for the defence of Rome, but also in agreement with the German. This same Committee is said to have given the names to a number of the heroes (who were shot after) Montemonte, Vignola, Aversa, De Carolis, De Vences and others. And Arcurio said "but only the names".

Nobody gave Arcurio's words any importance - who was arrested and sent on trial for robbery and for being a German agent. - as the insurance of Rome was in possession of the following documents regarding Bruno Cassinelli.

- 1) On 15 Sept. 44 (As by the records) a grave announcement was made on the 1 May 1944 against Bruno Cassinelli by General Semandini of the Republican Guards;
- 2) In a report, taken by private secret and precise information from Gott. Bella Vedova, states that Bruno Cassinelli had always been, against Fascism, against war, and against the Germans and had only succeeded to intervene so the German command for the prestige of his name, for his valour and for so a personal friend. The only consequence he had with them was "exclusively for professional reasons" and in order to obtain "the liberation of many towns".

100 "MONTEN" , patriot, arrested by the S.S.;

3) From a long memorandum dated July 1944 (by informant--
 tion obtained by the old anti-fascist group. Fogar, was from
 Captain Arnera) on reports on fascism by Bruno Cassinelli, who
 who expressed in front of all, his opposition, and succeeded
 in making himself respected for his ability. Insert himself
 in the internal dissent created by his friends and persons
 protected by him, Giovannielli, Carli, Invernizzi, and managed
 to get information on his family. It is confirmed the dis-
 interested assistance given to Montecarlo, Prignano and the
 Carole and the return thanks to Cassinelli of the sum
 of 350,000 lire, who consequently threatened a copy of the
Germania. On the mentioned report there was attached a copy
 of a letter dated 25 April 1944 by H.M. Fogar, very inter-
 esting for Bruno Cassinelli.

Everything was like this, in favour of his brother.

But after the publication of the "Unità" two other
 requests were made.

First, by voice, from a person which does not result
 in the file, and then on the 16 February 1944 by a memoran-
 dum handed over to H.M. the Head of the Police (as by a
 note at the top corner on the left of the relative folio)
 invited the Quersera of Rome to make investigations
 on the front Cassinelli's precedents. In this memorandum
 was made present that although Cassinelli was not allowed
 to practice his profession at the German War Tribunal had
 accepted charges and received large sums of money from
 Malacchini, from Paterno, and others, "specializing on the
 misfortune of others" and not doing anything "for those
 assisted by him. The pro-memoranda continues by saying that
 the person who had opened to Cassinelli the entrance to
 the German Police was the famous Alfonso Sansoni, one of
 the most dubious figures of the foreigner fascism, very
 attached to the Germans.

But the Quersera had, after the first request, al-
 once collected right up to 16 February 45, the deposition
 of all and on all, by information secretly collected by means
 of Luzzara. It resulted that Cassinelli was a registered
 socialist (qualified as such during fascism) that he was

changed over to the police (as by a note at the top corner on the left of the relative folio) invited the Questore of Rome to make investigations on the Hon. Cassinelli's precedents. In this memorandum was made present that although Cassinelli was not allowed to practice his profession as the German War Prisoner had accepted charges and received large sums of money from Calabrese, from Paterno, and others, "speaking on the misfortune of others" and not doing anything "for those assisted by him. The pro-memoria continues by saying that the person who had opened to Cassinelli the entrance to the German Police was the famous Alfonso Sansoni, one of the most dubious figures of the Italian Fascism, very attached to the Germans.

But the Questore had, after the first request, at once collected right up to 16 February 45, the names of all and on all, by information secretly collected by means of Luzzara. It resulted that Cassinelli was a registered socialist (qualified as such during Fascism) that he was always contrary to fascism, and always against war. During the Nazi occupation although he was not allowed to say so openly (like us all!...), he had never ceased to hate the Germans and the fascists; it results that all the contacts he had with the officers or officers of the Command of Rome were "only for professional reasons", favoured for his notoriety, by his casual friends, etc., succeeding thus in obtaining "the liberation of the young men and the patriots".

It is also confirmed, the hospitality and the disinterested assistance given to the victims of politics and to the glorious heroes, who fell after for the cause of liberty.

Reference to the accusations, always Arcadio, who had made and renewed his denouncement to the High Commissioner

is stated that, after the invasion at Anzio, "the attempt made by the Germans to start again the conversation on the peaceful evacuation of Rome, was not favoured by the Brothers Cassinelli";

In possession of these details the Questore of Rome with a report dated 20 March 1945, Proc.N. 660723, Div. U.P. referred all this to the High Commissariat, with the following slight modifications: 1) It is said in the report that it is not understood how Cassinelli succeeded in entering into relationship with the German Command. In fact while it is to exclude the mentioned relationship between Cassinelli-Sanschi, it has not been possible to establish with certainty which of the German Commands the Hon. Bruno Cassinelli was in touch with, nor the name of the officer, it is said interesting or Austrian, in as much that the memorandum written by the Brothers Cassinelli did not state the name;

2) It has not been possible to find the precise date of the beginning of the dealings for the evacuation of Rome, because some say it was in October and some in December 1944, but it is added that with the Committee for Public Health it was justly said that they wanted to "avoid useless flowing of blood at the moment of the evacuation of the German troops from the capital";

It is precised that the meetings were by Cassinelli "interrupted after the invasion of Anzio". As to Arcurio, the report of the Questore states that "nobody can confirm the accusation made by Arcurio, a bad moral and political element". It is proved that he, often came out of the prison in Via Tasso; although he had been condemned to death for services that he had to render to the S.S., Arcurio in precedence boasted of being Inspector of the O.V.N.A., and that he is "a person capable to commit any dishonest action in order to make illicit gains".

The Questore of Rome also declared, that, ~~there~~ were no witnesses to affirm that Avv. Bruno Cassinelli had ever taken part in the O.V.N.A.

In the report information was given of the other five persons named by Arcurio, that is an Crullas, a client of Cassinelli, Corboni (only he kept relations with Cassinelli

the beginning of the dealings for the evacuation of Rome, because some say it was in October and some in December 1944, but it is added that with the Committee for Public Health it was justly said that they wanted to "avoid useless flowing of blood at the moment of the evacuation of the German troops from the capital".

As to Arcurio, the report of the Questore states that "nobody can confirm the accusation made by Arcurio, a bad moral and political element". It is proved that he, often came out of the prison in Via Tasso; although he had been condemned to death for services that he had to render to the S.S., Arcurio in precedence boasted of being Inspector of the G.V.M.A., and that he is "a person capable to commit any dishonest action in order to make illicit gains".

The Questore of Rome also declared, that, ~~5/2/48~~ were no witnesses to affirm that Avv. Bruno Cassinelli had ever taken part in the G.V.M.A.

In the report information was given of the other five persons named by Arcurio, that is on Crullas, a client of Cassinelli, Carbone (only he kept relations with Cassinelli during the clandestine period), Rinaldo Salvatore, Capri Luigi and Carulli Guido.

But this report dated 20 March 1945 ... speculated Bruno Cassinelli although it was in his favour. As his arrest was already decided, a Warrant of Arrest was at once made dated 20 March 1945, that is six days after, because it was feared that other informations of the same type would have rendered his arrest impossible. It ended by hurrying up the matter!

On the 17 April 1945 the High Commissariat made an urgent request - red card! to the Questura asking them to ascertain the existence of the denunciation that

Cassinelli should have done in 1930 against a certain Pavan and of a statement of the Hon. Umberto Bianchi to the ex Duce on the 29 April or August 1935. The reason of these requests was at once understood: to dismount (!!) the report of the 20 March 1945 of the Questura, showing that the Questura had referred too suddenly, so much so that it had forgotten to collect the existing acts, from its archives.

The Questura of Rome, at once answered on the 33 April 1945 that there was nothing about the denunciation on Pavan, and that Bianchi condemned to 17 years imprisonment on the 22 June 1934 by the Special Tribunal for contra espionage in favour of the Russians, had really made to the ex Duce the mentioned statement, declaring in it to have been abandoned by his defender Bruno Cassinelli - so that he decided to substitute him - for three reasons: accusing him of being in possession of a suitcase which had aggravated his position before the Special Tribunal (so that, if true, it would not have certainly provoked the anger of Mussolini against Cassinelli) having kept it for himself, as due to him for services, money sent to Bianchi by friends and to have had reports not correct with persons near his family, which the Questura stated were of dubious morality.

Soon after the High Commissariat requested the original of Bianchi's letter to Mussolini, evidently taking it seriously in the absence of other excuses! Then he was not seen anymore, maybe he preferred to have no more light on the matter, after having seen the contents of the precedent informative reports.

I make the wish that justice re-gives the serenity to their families above the political parties.

Rome 2 May 1945

The undersigned avv. Guido Cassinelli - living in Rome, via Spallanzani n. 22 - has the honour to ask your Command to please intervene, so that justice can be done regarding the following:

- 1 -

The brother of the writer, avv. Bruno CASSINELLI - noted penalist, and noted for his antifascist and antinazi ideas - has been arrested on the 26 March 45 by order of the High Commissioner for the sanctions against fascist crimes, for four unfounded denunciations:

1) -for pretext action carried out to sustain fascism, as.. "political informant" of the Chief of the Police, Bocchini and Senise (the last named was deported to Germany and declared " enemy n.1"). And this without specifying which were..... the informations which Bruno Cassinelli was supposed to have given. (In reality, during the ventennio fascista, Bruno Cassinelli, taking advantage of his prestige and notoriety, asked Bocchini and Senise, on various occasions, requests and information in the interest of persecuted persons as well as arrested and political confinees - that is antifascist - with the aim to try and better the conditions and to cancel the errors and the abuses committed by the hierarchs and fascist authorities);

2) for having in December 43 made "proposals (?) to Mussolini". Even to this accusation, it has not been specified which were the supposed proposals. (In fact, when Mussolini hoped to illude the popular Italian class with ardent social reforms, had offered to Bruno Cassinelli, who was a socialist deputy, the charge of Minister of Justice; but Bruno Cassinelli refused, like he declined the invitation of a meeting at Merano or Salo);

3) for having, after the 6 September 43, " frequent and intimate talks", (?) with the German officers Kapler, Turnn, Priepke, Helfferich. Neither regarding this has it been specified the reason or object of such... "talks": while it is known to all in Rome, that these talks were made only regarding his profession as lawyer and only in order to be able to obtain the liberation of patriots arrested by the S.S.;

4) for having tried to make fall in to the hands of the S.S. Princess of Borbone and her secretary Mr. Rapana'. Please note that this accusation was made on the 26 March 1945: when since the 3 February 1945 the judicial authorities (Italian) had retained false the relative facts, denounced by a certain Arcurio: " dubious

"enemy n.1"). And this without specifying which were..... the informations which Bruno Cassinelli was supposed to have given. (In reality, during the ventennio fascista, Bruno Cassinelli, taking advantage of his prestige and notoriety, asked Bocchini and Senise, on various occasions, requests and information in the interest of persecuted persons as well as arrested and political confinees - that is antifascist - with the aim to try and better the conditions and to cancel the errors and the abuses committed by the hierarchs and fascist authorities);

2) for having in December 43 made "proposals (?) to Mussolini". Even to this accusation, it has not been specified which were the supposed proposals. (In fact, when Mussolini hoped to illude the popular Italian class with ardent social reforms, had offered to Bruno Cassinelli, who was a socialist deputy, the charge of Minister of Justice; but Bruno Cassinelli refused, like he declined the invitation of a meeting at Merano or Salo);

3) for having, after the 8 September 43, "frequent and intimate talks", (?) with the German officers Kapler, Turnn, Friepke, Helfferich. Neither regarding this has it been specified the reason or object of such.... "talks": while it is known to all in Rome, that these talks were made only regarding his profession as lawyer and only in order to be able to obtain the liberation of patriots arrested by the S.S.;

4) for having tried to make fall in to the hands of the S.S. Princess of Borbone and her secretary Mr. Ravana. Please note that this accusation was made on the 26 March 1945; when since the 3 February 1945 the judicial authorities (Italian) had retained false the relative facts, denounced by a certain Arcurio: "dubious individual; condemned seven times for fraudery"; and had been sent for trial - on the 3 February 1945 - for stealing, armed, and for having been found out to be an agent of the S.S.

All the four accusations are, thus, without foundation: We have also reasons to believe that the High Commissariat had initiated the proceedings against Bruno Cassinelli after the 8 February 45, for low internal political motives, in order to favour the Communist party, because Bruno Cassinelli - announced with a letter to the daily press in Rome, on the 8 February 1945 - denounced the "Unità" (organ of the Communist Party) for slander and abuse in his damage.

- II -

Regarding such proceedings the undersigned has received, now, the important anonymous letter which he herewith includes.

From this anonymous letter it results that the same Questura of Rome had declared false all the mentioned accusations, with the report dated 20 March 1945 sent to the High Commissariat. So it was not possible to proceed to the arrest of Bruno Cassinelli.... on the 26 March 1945.

In particular:

1) - Accusation n.1: was to be excluded in accordance to the report, made on the 20 March 45, by the Questura to the High Commissioner, for not having proved that Bruno Cassinelli belonged.....to the OVRA (secret fascist police);

2) - Accusation n.2: is to be excluded, because, the attitude of hatred against Fascism and the Germans by Bruno Cassinelli has been confirmed and also his certainty of the Nazi-fascist defeat - it was excluded that he made proposals to Mussolini in December 1943, in order to sustain the New and more than dying fascist republic;

3) - Accusation n.3: is excluded, because it has been ascertained by all the informations taken by the Questura, that Bruno Cassinelli had relations with some German officers, that exclusively for motives pertaining to his profession as lawyer, and "exclusively for the liberation of many young men and patriots" arrested by the S.S.

4) - Accusation n. 4: it was, and is, excluded, because according to the Questura of Rome - "nothing can prove the accusations of Arcurio, very bad element, both moral and political," and "a person capable to commit any dishonest action."

- III -

It is evident that the enclosed anonymous letter must have been sent by a person well informed: by a person who had in his hands the fascicule which is at the Questura of Rome.

As, in the uncertain political situation of Italy, it may be attempted to make it disappear - for personal jealousy and for the interest of the parties - the documents and the informations which are in the mentioned fascicule, and that, I repeat, are such that confirms all the four accusations made against Bruno Cassinelli.

than dying fascist republic;

3) - Accusation n. 3: is excluded, because it has been ascertained by all the informations taken by the Questura, that Bruno Cassinelli had relations with some german officers "exclusively" for motives pertaining to his profession as lawyer, and "exclusively" for the liberation of many young men and patriots" arrested by the S.S.

requests

that your Allied Command, to confiscate the fascicule regarding the Hon. Bruno Cassinelli which is at the Questura of Rome, or to examine it carefully and make a copy: so as to avoid that at a later date this important document may disappear or be altered.

Yours faithfully,

/s/ Guido Cassinelli

Prot.N. 1294/TR

SUBJECT: LIGUORI Aldo di Gennaro, born at Cassino on 12.5.1915.

The Questura of Rome has denounced LIGUORI Aldo for his activity as collaborator of the fascists and in particular with the Questore Caruso during the period of occupation and for having received the sum of 15.000 Lire from Mrs. Costanzo with the promise of freeing her husband who is under arrest.

Consequently we proceed against him for his help to the enemy and for fraud.

C O P Y

I hereby certify, that Dr. RAFFAELE ALIANELLO cleric in the Italian police, who was during the German occupation, liaison official between the Direction of the Italian and German Police, was in contact with me during the above mentioned German occupation and rendered many good service to the Polish cause.

In particular:

- 1) Hiding runaway Poles from the German Army and Todt organisation. We had different hiding places and between them a very well camouflaged refuge, in the territory of St. Cecylis Basilic. A certain number of Poles were hidden there. After some weeks of hiding, an instigator indicated this hiding place to the police. Dr. ALIANELLO informed me of this immediatly and we managed to take them away and find another hiding place.
- 2) In the case of the imprisoned Poles Pawlikowski, Michalowski, Loret and Kociemski it was through him that the State Secretary obtained their release from the German authorities.
- 3) In February, the fascist police arrested Mrs. Gawronska by German order. Thanks to ALIANELLO, the sentry before Mrs. Gawronska's door (she was ill at the time) was removed and she could get away and hide in the Vatican.
- 4) I was arrested in March 1944 in the house near Cola di Rienzo where I was present. I was kept for a couple of hours and all my personal documents and papers were taken away. I was set free on condition not to leave my rooms and it is thanks to ALIANELLO that I got back my documents and could disappear and hide in one of the convents.

SUBJECT : Cooperation of the Allies in Defascism

TO : See Distribution

1 All possible assistance will be given to Delegation Commissions consistent with care of Allied interests.

2 Documentary evidence as to the political past of individuals (including schedule) in Allied possession should normally be handed to or made available to the High Commissioner for Defascism or his Provincial Delegate unless it contains matter which would endanger the national security of an Allied nation or cause serious injury to the interests or prestige of any such nation.

3 In the case of a document originating in an Allied agency the following additional provisions apply; that

- a) it does not disclose the name of any informant, investigator or writer of any security report, nor the reason for, the extent of, or the procedure employed in any enquiry
- b) that the evidence contained therein is not available from other sources.

4 As the Italian people are in general far better aware of the past political history of each other than we are likely to be, the production of any document which originated in an Allied office can only very exceptionally be justifiable. In any case no such document will be produced without the consent of the office in which the document originated.

5 It will be exceptional for Allied personnel to have personal knowledge of the pre-liberation activities of an Italian national. A request for Allied personnel to give evidence can therefore seldom be justified. In any case, no Allied personnel will give evidence, whether for or against an individual, without the prior sanction of this HQ.

6 Where it is considered that an individual by virtue of good service to the Allied cause deserves that such service shall be taken into consideration in mitigation of his sentence the record of such service and the Allied view of the value thereof may be submitted to the High Commissioner or his Delegate for inclusion with the papers to be submitted to the Commission. Any such record will not include any request to the Commission to take any particular course nor will it otherwise attempt to influence the Commission from arriving at a free decision. It will be signed by the Regional Commissioner or by the Director of a Sub-Commission.

7 Exemption under Art 16 of DL 159 is granted only where the individual has done some act which is particularly notable or useful to the Allied War Effort

and not merely for being competent. Competence can be taken into account in mitigation of punishment.

Where a request for the suspension or removal of an individual for "fascism" is made by the appropriate Italian authority it shall be complied with, unless the Regional Commissioner or this HQ otherwise directs.

In arriving at his decision the RC shall be guided by the following direction:

- Where it is believed that the loss of the services of a man almost unique in technical or administrative ability would have a reasonably direct and seriously adverse effect on the Allied War Effort the suspension or dismissal will be deferred and the matter referred to this HQ. The use of this procedure will be quite exceptional and confined to the cases of experts holding very senior and important appointments. In other cases:
- Where essential work would be interrupted by the proposed removal the suspension or dismissal may be deferred but only for such minimum time as is reasonably necessary to appoint a successor whether or not that successor is as capable as the man to be removed.
