SUBJECT : Revision of Epuration Procedure

TO : See Distribution

100

29/11
2181
520-1

Enclosed is an English version of DL 702, the new law on epuration which replaces Part II of DL 159.

- 1. The grounds upon which persons may be epurated are re-defined and are somewhat differently stated. The old grounds are therefore superseded. Broadly speaking, officials and civilians of equivalent rank down to the 7th Grade inclusive are liable to epuration if they have shown activity as fascists. Employees of lower grades are not epurable unless they have shown serious fascist bias or have committed certain named acts or hold certain named offices. Persons who distinguished themselves in opposition to the Germans are still excused.
 - Art 15
 - Art 1
 - Art 2
 - Art 3
- 2. The machinery is also varied. The present Commissions of first Instance remain and continue to function under the same rules. The order for dismissal however will be made by the Head of the Service. Dismissed employees are normally entitled to pension though they may be deprived of this in exceptional circumstances. Employees may be suspended pending proceedings and officials may be transferred from one district to another.
 - Art 4
 - Art 5
 - Art 6
 - Art 7
 - Art 9
- 3. Employees of concerns of national importance and of companies exercising public utility functions are epurable under similar conditions to those mentioned above.
 - Art 8
- 4. The procedure for dealing with professions is varied and they are made more or less self purging. The present commissions are abolished.
 - Art 10
- 5. The procedure with regard to appeals is completely changed. The Central Commission is abolished and a special section of the Council of State is substituted therefor which will hear ordinary appeals but appeals against decisions of Provincial Commissions will be to a new Section of the local Court of Appeal. In either case the respective courts of appeal will operate according to the rules of procedure which previously applied for the abolished Central Commission.
 - Art 11
 - Art 12
- 6. All previous decisions as to dismissal from Service, removal from the register of a profession or acquittal stand but all minor punishments (with one exception mentioned below) are revoked. Provision is made for dealing with pending appeals. The minor punishment which is not revoked is a reduction in grade but this is intended only to be used to restore to his proper position a person who has received undue promotion in fascist favour.
 - Art 13

308

7 Suspensions of all persons of lower than Grade 7 are revoked unless they are ~~revoked~~ against whom proceedings are to be continued under Part 2 of Art 1 or under Art 2. All "de facto" suspensions, however occasional, are revoked. This is intended to apply to those persons who have been warned or instructed by bodies or persons, who are not legally empowered to do so, that they are dismissed or will not in future attend their offices. It does not apply to suspensions ordered under Art 55.

8 Art 14 46 or three months after the handing back of the territory to Italian administration, whichever is the later, but this will not re-open time limits which expired before this decree came into force.

9 Art 16 New provisions are contained to enable the operation of those directors and managers who by Italian law are, technically speaking, not employees. If such persons have been guilty of named acts or have held named offices their contracts are declared dissolved and any employer who continues to employ such persons is liable to punishment by imprisonment or fine. This Art 18 dissolution will not be applied in certain cases. Persons may apply to a Art 17 Special Commission for an order that the dissolution does not apply. Persons Art 19 whose employment is dissolved are, under certain circumstances, entitled to compensation.

10 All provisions of DL 159 and of the subsequent operation decrees, e.g. 357, which are not inconsistent with any of the above provisions, continue. The principal changes are the restriction, in normal circumstances, of operation to the first 7 Grades, the addition of managers and directors to those separable and the change of procedure with regard to the professions and as to appeals. For all practical purposes, so far as Sub-Commissions and Regions are concerned, the machinery under DL 159 continues to operate unchanged so far as the restricted classes of employees are concerned. It should not be overlooked that any employee of a grade lower than the 7th may be operated if he has shown serious fascist bias as well as for reasons contained in Art 2.

BY ORDER OF THE CHIEF COMMISSIONER

Subjects: Moro Ernesto.

With reference to your 520.I #182 dated 15 Nov. 1945 concerning subject. We communicate to you the informations received by the Ministry of Navy. Moro Ernesto of Pasquale and of Fozzi (and not at all of Grassi) Maria, born in Rome on the 18th Oct. 1925, was employed temporarily by the a/m Ministry as a beginner-draughtman, while his father was usher in the same office.

After the fact happened on the 8th Sept. both, father and son, were fired and their family, deprived of any means, lived in very serious financial difficulties. During the month of Feb. 1944 Moro Ernesto got off from the Capital and went up to North, but the activities he carried on there are unknown. The afore said subject, during his stay in Rome, always had a good reputation and no records result in the a/m office.

His family, composed of his father, mother and brother 4 years old, lives in Rome Via Otranto 39

It does not result that the subject has done service in the Ministry of Navy as a diver.

1. Reference communications from this Division regarding
subject under cover of our 62/550.05 dated 8 Sept. 1945.

2. At present there are 49 cases outstanding upon whom
no final action has been taken by the Italian Courts. Some of these
cases date back as much as one year and should by now have been
completed. It is urgently requested that precise reports as to
the status of these cases be immediately forwarded to this HQ.

3. It is to be noted further that lately many requests for
the hand-over to some particular court are being sent directly
to Allied Force Headquarters. The correct procedure in these
matters is to channel all such requests through this HQ; corresponden-
ce by Italian authorities directly with AFHQ is irregular.

4. It is strongly recommended that your Ministry (Commissariato)
make necessary arrangements to ensure:

- a. That requests for hand-over are not made to this HQ, until the case is ready for trial.
- b. That a status report be submitted by the recipient courts within 30 days from the date of hand-over.
- c. That internees will not be released to the Italian Government until they are processed through this

FATTO IL CARTELLINO

13 AGO 1945

Pende presso questa Procura Militare il procedimento a carico di Pagliardini Lino fu Agostino e di Manetti Assunta nato a Borgo Pace (Pesaro) capite della compagnia distrettuale di Pesaro nel periodo dell'occupazione nazi-fascista, imputato del delitto di cui all'art. 5 D.L.L. 27.7.44 n. 159 in relazione all'art. 58 C.P.M.G., di duplice tentato omicidio volontario, di illegale perquisizione domiciliare e di sequestro di persona.

Il Pagliardini ristretto nelle Carceri Giudiziarie di Urbino, venne in data 7.2.1945 scarcerato dal Comando F.S.S. di Urbino portato altrove: sembra in un campo di concentramento.

Al fine di definire il su citato procedimento penale, prego comunicarmi se possibile mettere a disposizione di questa giustizia militare il predetto Pagliardini, e, nella affermativa, dare disposizioni perchè egli sia tradotto alle carceri giudiziarie di Bologna.
