No. 85064/SA

19 January 1945

Dear Captain Renfurly,

The Secretariat of State is in receipt of a request from Signor Gennaro Giannino, Via Tardella 12B, Margherita di Savoia, (Foggia), asking whether it would be possible to obtain the full name of the "Giannino" who, according to the public press of mid-December, was executed as a German spy by the Allies.

The reason behind this request is that Signor Giannini's son VITO GIANNINI - has been a prisoner in Germany since September 1943 and his parents think that the boy may have been forced into the German espionage service. In view of such a possibility the above request is made.

With cordial regards, I am

Very sincerely yours,

SUBJECT : Enemy Action at MARINA PALMENSE.

Ref my telephone message concerning the landing and raid from the sea at MARINA PALMENSE on 10 Jan 45, I now attach the CC RR report on the occurrence.

The local P.S.S. and that from 61 Area are making investigations. The whole raid achieved nothing, the bridge on Route 16 was hardly damaged and the damage to the railway culvert is negligible, as the railway is out of use.

The "Cremona" Division here were alerted and sent a platoon down but this did not arrive on the spot until 0500 hrs. The objects mentioned with CC RR report were found by the Italian officer in charge of the platoon and passed on by him to 51 PLU attached to the Cremona Div. This unit has not left this area.

ANCONA TERRITORIAL LEGION OF ROYAL CARABINIERI
Porto S. Giorgio Station

Reference No. 5/SECRET

Porto S. Giorgio, 11 January 1945

SUBJECT: Disbarkation of a German contingent on the beach in
front of the fraction of Torre di Palme.

TO : Group Headquarters of the CC.RR. ASCOLI-PICENO
AMG - Public Safety Office ASCOLI-PICENO
Company headquarters of the CC.RR. FERMO

On the night of 9-10 January, about 0140 hours, the enemy disembarked with a force of unknown size but probably limited to 20 or 30 men at the most, near Torre di Palme, a place four kilometers south of Porto S. Giorgio and mined the three bridges located on the "pitch of the Towers" and having no particular name. These bridges are over the State Road Adriatica, the coast railway and the national road which is between them. The railway bridge, a culvert of about a meter in diameter, was completely demolished, while the other two, also culverts, suffered no serious damage, involving only the part above the road.

In fact, the road traffic was not halted at all.

The explosion of the mines was preceded by signal lights shown from the highest point of the fraction named, that is close to the inhabited part itself. These were answered by similar signs from the beach in front. Evidently the latter signified that these disembarking were about to shore or had already reached the beach, since no later signals were observed; the explosion of the mines was heard at intervals of about a quarter of an hour apart.

There seems to be no doubt of the fact that the signals noted at the highest point of the fraction of Torre di Palme were made by a German spy. In fact, in the course of the investigations carried out, it was discovered that on the 2d or 3d of this month, about 1100 hours, an individual disguised as a pilgrim, of medium-robust stature, with reddish hair and beard, with a reddish complexion, with a rotund face, age apparently 40 to 45 years, wearing a civilian cap of a dark red color with a visor, with a faded dark red overcoat, ragged and carrying a stick, was seen going around the fraction and paying attention to the points which overlooked the beach. An adolescent boy, sensing that he might be a spy, asked him, "Do you speak German," and he acted as if he would hit the boy with the stick, showing evidently that he well understood what the boy meant. He spent about half an hour in the inhabited part of the fraction, then the pilgrim went toward the beach, where he was lost to view.

-2-

Yesterday, the 10th, at about 1100 hours, the same self-styled pilgrim was seen to go past on the road that leads from the Adriatic national road to the fraction of Capodarco, in the direction of that town, with a sack on his left shoulder. Following this, according to orders received, a search was immediately begun for the criminal, but up to now it has been without result. At the same time, neighboring stations were notified so that they could provide for similar searches in their territory unless higher command provides otherwise.

Independent of the considerations under which the giver of the signals could be no one other than the spy sought, the writer has nevertheless proceeded with careful investigations regarding the individuals of the fraction of Torre di Palme and of the surrounding places but so far nothing has been discovered to draw attention upon local persons inclined politically. It is thought proper to note that after the explosion of the mine which caused the destruction of the railway bridge, an airplane, whether allied or enemy is not known but presumably of the United Nations, made a reconnaissance in the place where the disembarkation took place and dropped four flares, which permitted several inhabitants of the fraction named who ran to the windows to see what was happening, to see clearly, anchored some 30 or 40 meters from the beach, three or perhaps four large rafts. Shortly thereafter, and when the flares had already gone out, there was heard the second explosion and later three others at intervals of about ten minutes the one from the other.

A captain of the Cremona division who in the early hours of yesterday morning was sent to the place to find out what had happened, found on the stretch of beach where the disembarkation took place a glove, a flask, a life-belt, a loader for an automatic pistol and two hand grenades, all of them evidently of German make and manufacture. There were also found some pieces of bread on the beach, easily identified as the type distributed to the German army.

Apparently symptomatic is the fact that this enemy action occurred just the night before the day in which the Cremona division passed along the coast road in the direction from the south to the north.

GDI-389.704/9

7 January 1945.

SUBJECT : Briefing of Enemy Agents.

TO : See Distribution.

A recently captured enemy agent disclosed that he was given the following tips before leaving on his mission: -

1. It is easy to get rides on military vehicles.
2. By riding on military vehicles controls at road blocks can be avoided.
3. Negro drivers can be bribed to give rides by the offer of a bottle of cognac.
4. If stopped at a road block say that you have come from some town less than 10 kilometers away, and are travelling within the 10 kilometer limit.

As cover story he was instructed to say that he had escaped from the TODT organisation at GERMANY where he had been employed working on fortifications.

CAPT. ELLIS
Allied Commission
Security Division
R O M E

Milan, 17 May 1946

I, the undersigned TRINGALI Franco, born in Milan on 16 Nov. 1921 and there living at 1 via dei Mille, dare to apply to you in order to get some information.

On 1 Jan. 44 I joined the X Flottiglia MAS, and on 15 Oct. 44 I left this group. On 5 Nov. 44 in order to reach the Allied territory, I joined the German Intelligence Service.

So, I was able to cross the front line by airplane and to arrive at S. Lorenzo Maggiore (Naples). Afterwards, I presented myself to the F.S. in Florence.

After collaborating with the F.S. Field Security (Palazzo Strozzi - Florence) I was brought to "R" Terni Camp. On 19 April 46 I have been released by the British Authorities.

At present, I need a document showing that I presented myself to the Allied Command at Florence. I have already applied to the F.S. in Milan and to the Allied Commission (Montecatini Sede - Milan). But, as I am not recorded in their files, I have been advised by them to apply to you.

Information on this matter will be very much appreciated.

Thanking you in advance, I remain yours

s/ Franco TRINGALI

1. An enemy agent, recently parachuted in the CASERTA area, was found to have in his possession an open L. I. C. pass the size of a postcard with "ALLIED MILITARY GOVERNMENT, Caserta Headquarters" printed on the top. "Caserta" had been written in in handwriting over "TRIOLI" which had been crossed out. The card bore the official L. I. C. stamp and was signed by "Major R. L. Liller". The following was written in English on the card:

"Trioli, Franco has been questioned by G.I.C. and A.I.C. They can see no reason why he cannot be O.C. He comes from Sicily and is eager to find his father in Rome. From a security angle".

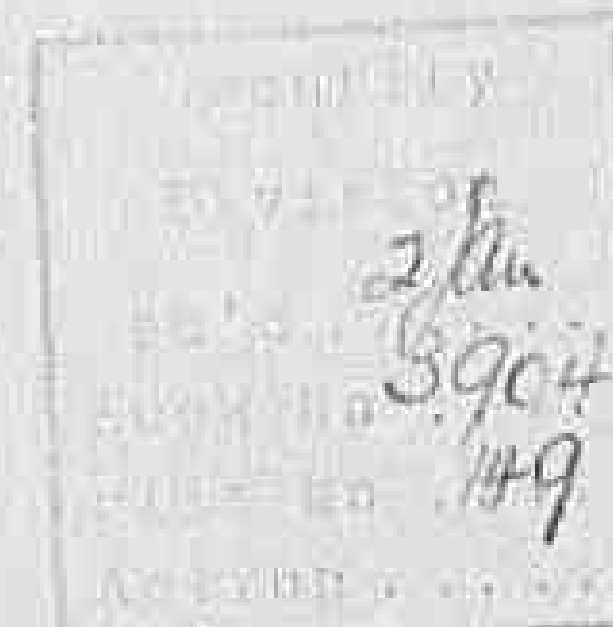

2. The agent was also told that while in A.O.T. he was to do his best to obtain an example of an authentic L. I. C. pass.
