SUBJECT : Agents and their Units.
TO : See Distribution.

1. Attached for your information is an index of agents reported to be at large or in training, classified according to their controlling headquarters. It will be realized that it has not been possible to classify all agents whose names have been circulated, since the necessary data have not always been available. Members of 10 HQ have also been excluded.

2. The index is only of value in conjunction with other G.I. Bulletins or lists, and no descriptions are given.

3. It is hoped that it may be of some value to forward agencies, in particular, who will already know what main enemy intelligence units are operating on their particular sector, and will be able to gain from the index an approximate idea of how many and which agents to expect from each - e.g., Eighth Army normally encounter more than 150 line-crossers than any other type.

4. The index may finally be of interest as showing the relative activity of the enemy units listed - i.e., the number of setbacks being treated since Dec 44 becomes immediately obvious.

SUBJECT: MARTELUCCI Aldo.

TO : Headquarters, Allied Commission, APO 394.

Attached are the personal effects collected from BARI gaol of subject, executed enemy agent. The G-2 Section has no objection to these articles being handed to subject's family and recommends that they be so disposed of by you. They point out, however, that subject's last letter is violently "patriotic" and it is felt that it might inspire his relatives to expressions of anti-Allied sentiments. It is suggested therefore that the letter at least should not be handed over so long as the Allies have any considerable military commitment in Italy.

1. An agent who surrendered some time ago was in possession of a very well forged AMG pass, given him by Capt. PELLIANI (Ndo 150) last December. When given the pass he asked PELLIANI how they had managed to come by an apparently genuine pass. It was explained that they had acquired a genuine pass, photographed it at the Headquarters at BOLZANO, and re-produced exact copies.

2. He saw no other passes similar to his own, but he believes they exist and are undoubtedly being supplied to other agents.

3. The pass is of a form of tri-lingual pass devised for the Corps Expeditionnaire Francois in March 1944. It is printed in French, English and Italian on white paper, size 9 1/4" by 6 1/2"; no numbers are printed on the pass itself, but a number was inserted daily in ink on the top right-hand corner by the issuing office, which kept a register of issues.

4. It is signed in ink by Capt. E.A. VALENTINE, counter-stamped with an AMG stamp, and with "E.A. VALENTINE, Capt A. U.S." typed in block letters below. The particular pass in question was dated 11 July 44, issued at SEMA; these particulars however could be altered at will.

5. This type of pass has since been discontinued in favour of a smaller pass of yellow paper, with consecutive numbers on each, printed in English and Italian only.

6. Anyone found carrying a pass of the above mentioned description should be regarded as suspect.
