FILE NO. : 5351/CM/1
SUBJECT : Dependence & Relations with the German Commands
in ITALY.= Organization of Companies & Platoons
for "Reinforcements" of the GNR.
TO : All Regional & Provincial Commands.

=====

As communicated by B.d.O., Bohemian & Moravian troops will be shortly employed in Italy for the purpose of watching railway lines and other establishments (bridges, factories, etc.); the GNR personnel at present performing this task will therefore be free for other jobs.

The Police Commanders attached to the SS or German Police Commands for North-Western, North-Central & Central Italy (who have taken up the post formerly belonging to the Gendarmerie Commanders for Central & Northern Italy), or the Commanders of Section & of Group of the Order Police, in accord with the local Commanders of the GNR, will see that the men freed from the a/m task are organized into Companies or Platoons of "Reinforcement", that will collaborate with Companies of the German Gendarmerie in the anti-Rebel activity.

This collaboration should permit to place one platoon or company of "Reinforcement" beside every Feldgendarmerie platoon.

The newly constituted Companies & platoons will first be drilled adequately, in order that they may be able to be "up to the mark" when the time comes to go to fight against the Partisan Bands together with the valorous German Comrades.

Drilling will be done by Officers & NCOs of the German **17**
Gendarmerie.

The GNR Companies & Platoons will have to collaborate closely with the Germans: it will be therefore necessary to locate them - whenever possible - near the platoons of Gendarmerie to which they are

2

attached as "reinforcement"; in operations carried through in common, the command will be taken by the German Officer commanding the Gendarmerie platoon, or else by the Superior German Commands.

Given the short length of time in which this HQ must give information of the a/m agreements, it has not been possible to wait for the result of the arrangements now being made that tend to give the command of the operating units to the Officer (German or Italian) superior in rank.

Telephonic reports will be made daily on the operations, and they will be addressed to the Political Service & Institute Service of this HQ.

On important operations a written report with all particulars will follow.

Enclosed is a resume of the orders of the same E.d.O., referring to the changing of denominations, as well as a copy of the dividing of the territory under the jurisdiction of the SS & Police Commander - North-Western Italy.

It is confirmed that all the units available will be employed by the various Commanders of the units & Groups of employment of the Order Police, and that all the anti-Partisan operations are to be made by said Commanders; only in cases of extreme urgency the Provincial Commanders of the GNR are authorized to act on their own initiative; they must, however, immediately advise the a/m German Officers & this HQ.

The Commander in Chief

signed Major General N. Nicchiarelli.
