1. Requests have been made for the EM/ORs shown in Appx. 'A' - Some of the personnel named may be already working for Sub-Commissions, but personnel as a whole, already working for Sub-Commissions, are not shown.
2. In some cases the same man has been asked for by more than one Sub-Commission.
3. Personnel requested will be earmarked for Sub Commissions accordingly, as far as possible, but
 - (a) In the case of conflicting claims G-1 will decide on the allotment.
 - (b) Personnel cannot be taken from their present work until adequate replacements have been found.
4. As to any further requests, it is pointed out that neither Staff Branches or the Central Registry are clerks training centres and that clerks are not chosen and trained by it as a supply for anyone who wants a clerk. In future, requests for Central Registry clerks will only be considered in extreme cases.
5. Will you please forward any comments as soon as possible.

2.(a) It will be realised that in many cases the military rank held by Officers bears little relation to either the length or quality of their experience in their civil careers and employment.

2.(b) On the other hand, the importance and degree of responsibility of assignments as detailed in Papers Nos. 5 & 7 is regulated entirely by the military rank authorised. It is therefore of the greatest importance, both from the point of view of efficiency and in the interests of individual Officers themselves, that the final posting of Officers should be in accordance with their experience and abilities and not with their present rank. It may well be, for example, that a Captain is fully capable of filling an appointment for which the authorised rank is Lt. Colonel or even Colonel.

3. Once a Region or A.C.A. is activated and assignments made, the normal system of Confidential Reviews (A.P. B192D, E, & F in the case of British, confidential letters in the case of American Officers) will operate, but it will then be much more difficult to make adjustments, as these will be dependent entirely upon vacancies.

4. Will you therefore please consider carefully the questions raised in paras 2 & 3 above, both now, and as and when Officers are posted to you, and be prepared to submit recommendations for promotions, transfers, or transfers with promotion, at short notice. Lists and Records should be prepared now, and kept up to date.

5. Transfers within a region (e.g., Adm. Staff to C.A.O., or from one Special Division to another) may be made at any time without reference to ACA, but will be reported to A.C.A.(G.I.) for record purposes. Transfers in all other cases require the sanction of A.C.A. in writing.

1. As soon as any Region or A.C.A. is activated, a list will have to be submitted to the authorities concerned recommending Officers for appointment/assignment to specific posts.

2.(a) It will be realised that in many cases the military rank held by Officers bears little relation to either the length or quality of their experience in their civil careers and employment.

2.(b) On the other hand, the importance and degree of responsibility of assignments as detailed in Papers Nos. 5 & 7 is regulated entirely by the military rank authorised. It is therefore of the greatest importance, both from the point of view of efficiency and in the interests of individual Officers themselves, that the final posting of Officers should be in accordance with their experience and abilities and not with their present rank. It may well be, for example, that a Captain is fully capable of filling an appointment for which the authorised rank is Lt. Colonel or even Colonel.

There is also the possibility that Officers have not in all cases been assigned to suitable appointments. A C.A. officer assigned as C.A.O. in a Region might be more suitably placed in a post at H.Q., A.C.A. or an officer assigned to the Staff of a Region may prove to be

It may well be, for example, that a Captain is fully capable of filling an appointment for which the authorised rank is Lt. Colonel or even Colonel.

There is also the possibility that Officers have not in all cases been assigned to suitable appointments e.g. an officer assigned as C.A.O. in a Region might be more suitably placed in a post at H.Q., A.C.A. or an officer assigned to the Staff of a Region may prove to be more suitable as a C.A.O.

3. Once a Region or A.C.A. is activated and assignments made, the normal system of Confidential Reports (A.P. B192D, E, & F in the case of British, confidential letters in the case of American Officers) will operate, but it will then be much more difficult to make adjustments, as these will be dependent entirely upon vacancies.

4. Will you therefore please consider carefully the questions raised in paras 2 & 3 above, both now, and as and when Officers are posted to you, and be prepared to submit recommendations for promotions, transfers, or transfers with promotion, at short notice. Lists and Records should be prepared now, and kept up to date.

5. Transfers within a region (e.g. Adm. Staff to C.A.O., or from one Special Division to another) may be made at any time without reference to ACA, but will be reported to A.C.A.(G.I.) for record purposes. Transfers in all other cases require the sanction of A.C.A. in writing.
