27 January 1944.

MOVEMENT ORDER
(Rear Detachment)

1. a. The Hq Allied Military Government, Rear Detachment, Palermo, Sicily, will close as of 1730 hours, 29 January 1944. All personnel, supplies and equipment will move to Naples, Italy. The Officers in Charge of the movement echelons, as hereinafter set out, will upon arrival in Naples, report to the Commanding Officer, AMG. This is a permanent change of station.

b. Upon the closing of the Hq, Sub-Commissions, Sections, and officers will turn over to Lt Philby, the Freight Officer, all office equipment, supplies, and stores properly packed in preparation for movement. The Freight Officer will be responsible for the proper marking, collection, and loading of all freight of the Hq and for its unloading and distribution upon arrival at destination.

c. All officers will, subsequent to the closing of the Hq, maintain close and frequent daily contact with the Adjutant General, Rear Detachment, so as to be informed of the date and hour of departure.

2. The move to Naples will be completed in two (2) echelons; an overland motor convoy and a sea echelon.

a. The below listed personnel will move by the overland motor convoy, departing Palermo 31 January 1944. Officer Commanding - Major W. KNIGHT, 141159 (B). The Officer in Charge Motor Convoy will complete all necessary arrangements for the satisfactory completion of the move. Rations for nine (9) days will be carried. Sufficient gasoline, oil and lubricants for the entire journey will be provided before departure. The Officer in Charge Motor Convoy will coordinate movement with Hq Island Base Section.

TO : Rector of Catania University.

SUBJECT : Chair in Naples University.

I have had a talk with the Rector of the University here to day.

He states that all the files of the University have been destroyed. There is no record and no knowledge of your appointment here.

Therefore please send me what evidence you have of your appointment and if it is clearly stated that your transfer was approved I will forthwith authorize it. If it is not definite I will submit your name along with any documents you care send me to the faculty concerned for their views.

Meanwhile I am hoping to be in Palermo on the 30th January or thereabout and it would be advisable for you to see me then.

1. I, Private John C. Hester (ASN 32734799) Education Sub-Commission, Headquarters Allied Military Government, APO 394, request to be transferred to the Joint Intelligence Collection Agency, Allied Force Headquarters.

2. Because of my linguistic abilities (Italian and French) and knowledge of Italian and French customs I feel that I would be of more value to the Government in the Joint Intelligence Collection Agency rather than in my present organization.

3. A letter requesting my transfer is necessary in order to be released from my present organization. Should my application be accepted, a letter requesting my transfer to the Commanding Officer, Headquarters Allied Military Government would be appreciated.

YOUR EXCELLENCY, RECTOR MAGNIFICUS, GENTLEMEN,

Gayre

all times. Finally the war
itself led to reform

When I landed in Sicily faced with the great task of rebuilding and restoring to normal life the schools and universities, I never dreamed that, however successful might be my work, I should be honoured as I have been this day.

The work which faced me might be divided into three phases. First there was the purely physical task of re-opening academies, schools and colleges, clearing away of bomb damage and carrying to safe keeping books, manuscripts and equipment. Secondly, there was the necessity for laying securely plans for the re-organisation of school texts so that the mad nightmare of fascist doctrine could be banished for university chairs which taught fascist doctrines, and to clear out fascist ringleaders who had used their positions to perpetrate doctrines repugnant to the well-being of mankind.

All these tasks have been started, many have been nearly finished, and some even completed. In doing this, the goal has been not merely the eradication of fascism itself, but the vision and belief that as Italy formerly made a great world wide contribution in the fields of learning, she may do so again. Italy has a proud page in the renaissance of European culture, and to her are indebted the halls of learning in Oxford and Edinburgh (where I studied as a student), as are those of other universities throughout the world. If as a result of the miseries of the past years, and the tide of war rolling across your land, and the freedom which followed that war, Italy can arise again in a new renaissance of culture and letters, Italy will have been reborn.

"Olim marte nunc arte" is the motto of the road which leads to a rebirth of the intellectual life of the Italian people.

Because the policy of the Allies has been one of liberation and not conquest towards all that is great in the soul of the Italian University, we have been able to leave Palermo University stronger than it was when we came. Gone are extreme fascists who prostituted learning to political dogma and instead new chairs have been created in most of the Faculties leading to an enlarged cultural life of this city and the neighbouring countryside. In this task of rebuilding the University of Palermo, the new Rector, Dr. Raviera, has shown zeal and a great patriotism. Here was a man who, although he co-operated freely and willingly, always reminded us he was an Italian too—who lived and thought for Italy. To mention all the others of this University who have also co-operated in the task of the re-building, would tire you of this time; it is sufficient to say that the Rector has been representative of the spirit of the Deans of Faculty and the Members of the Senatus Academicus.

Dear Sir Alfred,

I am hoping to write to you in a day or so enclosing a report which I think will be of some interest to your department. Meanwhile I am writing to ask you if you have any documents put out by the Foreign Office and Chatham House on Fascism in the last 20 years. Lord Stanagate (who sends you his greetings) and I are anxious to have anything you can send us.

Professor Salvatore Gattinello sends you and Lady Emmern his greetings, and so does Professor Camillo Martini who is on my staff here and who was with you at Geneva in 1930. I do not know whether you remember him or not.

I am afraid this civilian staff is now being broken up as I am moving farther north soon.

By the way, I am anxious to be given the job of Education Director for Germany when the time comes and if you can put in a word in the right direction I should be much obliged. Lord RENNELL is anxious to have me and so is General MOSHERY so it is only a question of all pulling together.

With kindest regards to Lady Emmern and yourself.

REMARKS AT OPENING OF ACADEMIC YEAR 1943/44
(University of Palermo)

Brigadier General Frank J. McSherry, United States Army,
Deputy Chief Civil Affairs Officer, Allied Military Government.

It is indeed a great occasion when the Rector and the Senate of a world-famous institution of higher learning, which has a glorious past, and, I hope, an even more glorious future, bestows honorary degrees on military personnel engaged in governing the war-torn people of the country in which it exists. Such occasions are indeed rare, and will always be recalled with interest and satisfaction. Personally, it is with a feeling of pride that I have participated in a small way in the re-establishment of this splendid institution dedicated to higher education. I am sure that the work of the University of Palermo, which has been so outstanding in the past, will continue on that high level. It is my firm conviction that the President and Faculty selected to carry on this important work are men in whom this great trust can safely be placed. I wish to congratulate the people of Sicily and Italy upon the caliber of the staff selected to carry on the work of the University. It would be wise for me not to mention that Lt. Col. Dwyer has played an important part in the selection of this staff. He is to be commended for his wise recommendations in this matter.

It might be appropriate on this occasion for me to state that the Allied officers engaged in Military Government have, since the occupation, put forth every effort to restore Sicily to its normal life. It has been our aim and our ambition to give back to the Italian people those institutions and activities which tend to promote and develop a free and democratic Italy. In this restoration, the importance of educational institutions at all levels has not been minimized. Your Excellence, Magnificent Rector, Gentlemen,

You have done me a great honor in making me a Rector of this distinguished seat of learning, and I hope that the bonds which have been forged between us may never be severed.

EMINENZA, RETTORE MAGNIFICO, SIGNORI,

Quando sbarcai in Sicilia con il tremendo compito di ricostruire e di ricondurre a normale esistenza le scuole e le Università, non avrei potuto sognare che, per quanto fortunato fosse stato il mio lavoro, sarei stato onorato come lo sono stato oggi.

Il lavoro che dovevo affrontare può essere diviso in tre fasi. In primo luogo, esisteva il compito puramente fisico di riaprire le accademie, le scuole ed i collegi, e di sottrarre i manoscritti ed il materiale didattico alle ingiurie dei bombardamenti, trasportandoli in luoghi sicuri.

In secondo luogo, esisteva la necessità di rivedere i libri di testo, in modo che ne fosse bandito per sempre il folle incubo del fascismo.

In terzo luogo, era necessario procedere alla riforma delle cattedre universitarie che insegnavano dottrine fasciste, e spazzare via quei dirigenti fascisti che avevano approfittato delle loro posizioni per diffondere dottrine che ripugnano al benessere dell'umanità.

Tutti questi compiti sono stati iniziati, alcuni sono stati quasi eseguiti, altri anche compiuti.

Nel fare ciò, la meta non è stata soltanto lo sradicamento del fascismo stesso, ma la visione e la fede che, come una volta l'Italia diede un grande contributo mondiale nel campo delle scienze, essa può darlo ancora.

L'Italia ha scritto una pagina gloriosa per la rinascita della cultura Europea, di cui le sono debitrice le aule di Oxford e di Edimburgo, (dove io ho studiato come studente) e quelle di altre Università in tutto il mondo.

Se l'Italia, come risultato delle miserie degli anni trascorsi, dell'ondata di guerra che spazzò le sue terre, e della libertà che le è derivata dalla guerra, potrà sorgere di nuovo in un nuovo Rinascimento di cultura e di lettere, l'Italia sarà rinata.

"Olim marte nuncerte" è il motto della strada che conduce alla rinascita della vita intellettuale del popolo italiano. Posto che gli Alleati hanno adottato una politica di liberazione e non di conquista nei riguardi di tutto ciò che è grande nell'anima dell'Università Italiana, noi siamo in grado di lasciare l'Università di Palermo più forte di quanto essa era quando siamo arrivati.

-2-

Via sono andati i fascisti estremisti che prostituivano la scienza al dogma politico, e sono state create nuove cattedre nella maggior parte delle Facoltà, che tendono ad una più vasta vita culturale di questa città e del territorio vicino. In questo compito di ricostruzione dell'Università di Palermo, il nuovo Rettore, Dr. Baviera, ha dimostrato zelo e grande patriottismo. Sebbene abbia liberamente e ben volentieri prestata la sua collaborazione, sempre ci ha dimostrato che egli è un uomo che vive e pensa per l'Italia.

Il ricordo degli altri uomini di questa Università, che hanno pure dato la loro cooperazione nell'opera ricostruttiva, potrebbe stancarvi in questo momento; basta però dire che il Rettore è stato il rappresentante dello spirito dei Presidi delle Facoltà e dei membri del Senato Accademico;

EMINENZA, RETTORE MAGNIFICO, SIGNORI,
a me è stato concesso su grande amore con il conferimento del titolo di Dottore di questa nobile sede della scienza. Ed io spero che i legami che sono stati stabiliti tra di noi non siano mai distrutti.

Meeting 23 December 1943
ADMINISTRATIVE DIRECTORATE
(at 0930 hours)

Present

Major R. A. Persell	- Administrative Directorate (Chairman)
Colonel Pollock	- Legal Sub-Commission
Lt Colonel Harris	- Property Control Sub-Commission
Lt Colonel Tobey	- Public Health Sub-Commission
Major Sherwood	- Education Sub-Commission
Major Taylor	- Public Safety Sub-Commission

Major McGreadie	- Interior Sub-Commission
Captain Parker	- Interior Sub-Commission
Lt Clark	- Displaced Persons Sub-Commission
Captain Pearson	- Secretary (Administrative Directorate)

1. Major Persell gave notice that, since a General Duty Officer would be present on Christmas Day, Chiefs of Sub-Commissions, Rear Parties, might close their offices at their discretion. Contact however should be maintained with each office at all times, e.g. Sunday, so that responsible officer may be located.

He reminded officers:-

- (a) That ALL papers should go through AD, except those exclusively concerned with the writers's Sub-Commission and a rough journal should be kept of incoming papers and their destination;
- (b) That all arrivals and departures must be notified to AG in the book provided;
- (c) That Colonel Rogers has ruled that transport will be provided only for work, not for sight seeing; and
- (d) That no officer should expect to go forward without direct orders from Naples. (It was suggested that a composite telegram be sent forward every alternate day, reporting new arrivals of officers of these Sub-Commissions in Palermo.)

2. In a general discussion of the next move forward, Colonel Pollock wished to record that his last two officers would have to travel independently by way of Catania. The general consensus of opinion was in favor of movement by sea, if possible. In reply to Major Taylor, Major Persell hoped the AGO would avoid personal mail for the Rear Detachment being sent forward and then back, and reminded officers that signals to PARCA would be sent to the Main Party, so messages for the Rear Detachment should come "IBS" for the Officer concerned.

I have been asked by General McSherry to suggest the name of the following officer as a possible member of your Department, namely Captain Crivern, at present C.A.O. Messina. I understand that he has put in for a transfer to your Department with the permission of S.C.A.O. Messina. He is, however, due for promotion, and I doubt if he would sacrifice his chances.

Captain Crivern is a classical scholar (1st class Classics, Trinity College, Dublin), and was employed before the war for some time in the office of the British Consul in Genoa.

SUBJECT: Assignment of Educational Director, Regions 1 & 5.

TO: A.F.H.Q.
(Military Government Section)

1. The despatch of Major G. R. KOOPMAN to this Headquarters was recently requested. It is understood that Major KOOPMAN is at present intended for Region V, and it is now suggested that, instead, he be assigned to Region I, where he could begin to take over from Major WASHBURN, temporarily acting in Region I but assigned to Region IV.

2. To replace Major KOOPMAN in Region V, the transfer of Captain DEXTER G. TILROE (O-290162, INF) at present acting as Executive and Personnel Officer, P/W Enclosure, Palermo, to the Education Sub-Commission of A.M.G. is requested. He would, on transfer, be attached to Education Sub-Commission Headquarters for training until the opening up of Region V.

3. A copy of Captain TILROE's application for transfer, with the approval of his Commanding Officer, is attached.

Il 20 Ottobre u.s. è stata presentata al Rettore dell'Università di Catania (Facoltà di lettere) la domanda per l'incarico d'insegnamento della Storia delle Dottrine Politiche da parte del Prof. Salvatore Piccollo.

Non v'è dubbio che la domanda sia stata bene accolta dal Consiglio di facoltà e dal Senato; ma poiché l'incarico per sua natura provvisorio e scade con l'anno scolastico, lo stesso Professore ha fatto istanza al Col. Gayre perché detto incarico gli possa essere trasformato in posto definitivo di ruolo.

Le difficili comunicazioni costringerebbero il professore a lasciare ogni sua ordinaria occupazione in Caltanissetta: ma è prudente farlo per il semplice incarico?

Si desidera un intervento di autorità da parte del Col. Gayre che, in mancanza delle pubblicazioni, tenga conto dei titoli di studio e dell'esperienza di tanti anni d'insegnamento.

Il professore in parola è riserva, non appena le contingenze lo permetteranno, di curare la pubblicazione di alcuni suoi lavori.

Si è sicuri che un provvedimento del genere sarà bene accolto dal Rettore dell'Università, con cui il Professore conta di collaborare in perfetta intesa nella soluzione dei molti problemi che la scuola è chiamata a risolvere.

Fare presenti la particolare delicatezza della materia nell'ora attuale e la serietà d' ~~gli~~ ^{del Professore} intenti e fare rilevare con quale ~~entità~~ di propositi ha lavorato nei tre mesi dell'occupazione e quanto potrà fare di più una volta raggiunta la sua sistemazione.

Il provvedimento risponde anche ad un desiderio del Col. Irish come da una sua lettera allo stesso Gayre.

LA BATTAGLIA IN ITALIA

Le forze alleate continuano nella loro metodica avanzata

LONDRA, 9.

La situazione militare sul fronte italiano registra nelle ultime 24 ore un notevole peggioramento per i tedeschi, specie nel settore centrale ed in quello adriatico.

Preoccupati dai progressi realizzati dalle forze della Ottava Armata, che minacciano di fianco tutto il sistema difensivo germanico, i tedeschi sono stati costretti a fare affluire d'urgenza in questo settore nuovi rinforzi. Malgrado ciò, le truppe di Montgomery hanno continuato ad avanzare su un fronte di 30 chilometri particolarmente difficile per il terreno e per l'accentuata resistenza del nemico.

Altri sette centri sono stati liberati e fra essi sono Lercari, Tubito, Cefalà, Valfortore e Bagnoli del Trigno.

Un notevole successo è stato conseguito dalle truppe alleate che dopo aspri combattimenti sono riusciti ad assaltare ed espugnare il monte Odorico. Da questa importante altura le truppe vittoriose si sono lanciate per i declivi a valle ed incalzano il nemico, che ha ripiegato verso nuove più favorevoli posizioni difensive.

Ulteriori progressi le truppe di Montgomery hanno effettuato anche a nord di Vasto, occupando i centri di Casalbordino, Carnuchio e di Seceni.

cin e cacciabombardieri.

Un deposito di carburante è stato colpito, mentre nel porto della città dalmata una nave tedesca è stata lasciata in fase di affondamento.

Altri aerei alleati, in un attacco sulla Dalmazia hanno bersagliato con particolare successo un concentramento di automezzi tedeschi e ne hanno distrutto più di un centinaio.

Naviglio nemico in navigazione e alla fonda in alcuni porti della Grecia e dell'Egeo è stato colpito e gravemente danneggiato da formazioni aeree alleate.

Il fronte della resistenza antitedesca nei Balcani si estende ogni giorno sempre più.

Ieri sera la Radio ungherese ha comunicato che in Bulgaria il Governo tedescofilo trova sempre maggiore opposizione.

Nella regione di Plovdiv si sono avuti diversi scontri fra bulgari patrioti e bulgari filonazisti. Si è accertato che i reparti di patrioti bulgari erano costituiti da quattro a cinque mila uomini.

Si apprende poi che gli attentati e gli atti di sabotaggio contro le linee ferrate di cui si servono i tedeschi si fanno ormai così frequenti in Yugoslavia, che il Governo croato ha informato a mezzo della Radio che energiche misure saranno adottate contro quei villaggi che daranno asilo ai sabotatori.

In a sudden smash at the German lines in the Adriatic sector, General Montgomery's forces recently made a general advance of five miles along a twenty mile front.

The attack placed the Eighth Army within five miles of the Sangro River at one point and they occupied Casalbordino, eight miles north of Vasto. Carnuchio and Seceni were also captured. It is expected that the Germans will make their next stand in this area along the Sangro.

In the central sector, Fifth Army forces were still advancing slowly against the reinforced German units there and were reported to be within five miles of Montorio last yesterday.

Further west, in the Garigliano sector, British forces were consolidating their position. Correspondents said that there was evidence that the Germans were planning to evacuate their positions north of the river.

Allied bombers continued to pound German gun positions, supply dumps and troop columns during the day. Bomber formations attacked Ancona, on the northwest coast, and also went for the harbor of Split in Yugoslavia.

RUSSIA

Soviet armored forces, moving southwest from Kiev, have occupied Piatoy and are now more than fifty miles west of the Ukrainian capital.

The fast-moving mobile units have already cut the rail line between Kiev and the lower Dnieper and are moving down on top of Krivirog, still under siege by other Soviet forces.

Two other Soviet forces are moving directly west and northwest of Kiev, pursuing the Germans and cutting them to pieces with lightning flank attacks.

The two Russian contingents that were landed on the Kerch Peninsula in the Crimea are now closing in on the Germans there and reinforcements are being poured in from Tassan. The German radio speaks of superior Russian forces in the area.

Fresh advances have also been made northwest of Nevel, in the Vellik Lanie sector.

Le Armate sovietiche si avvicinano ai confini della Polonia e della Romania

MOSCA, 9.

Le Armate sovietiche avanzano con celere ritmo lungo le linee ferroviarie che portano ai confini della Polonia e della Romania.

ture d'urgenza in questo settore nuovi rinforzi. Malgrado ciò, le truppe di Montgomery hanno continuato ad avanzare su un fronte di 30 chilometri particolarmente difficile per il terreno e per l'accentuata resistenza del nemico.

Altri sette centri sono stati liberati e fra essi sono Furci, Tuhillo, Celanza Valfortore e Bagnoli del Trigno.

Un notevole successo è stato conseguito dalle truppe alleate che dopo aspri combattimenti sono riusciti ad assaltare ed espugnare il monte Odorisio. Da questa importante altura le truppe vittoriose si sono lanciate per i declivi a valle ed incalzano il nemico, che ha ripiegato verso nuove più favorevoli posizioni difensive.

Ulteriori progressi le truppe di Montgomery hanno effettuato anche a nord di Vasto, occupando i centri di Casalbordino, Carunchio e di Scerni.

Il fiume Sinello è stato oltrepassato ed aspri combattimenti sono in corso oltre il Garigliano, dove i tedeschi si difendono accanitamente e tentano di arginare con tutte le loro possibilità l'avanzata delle truppe alleate.

Sul versante tirrenico si registra una nuova avanzata delle truppe americane, che hanno respinto violenti contrattacchi tedeschi. Negli ultimi giorni le forze germaniche avevano fatto affluire in questo settore notevoli rinforzi, con l'appoggio dei quali hanno tentato di sbarrare il passo alle truppe della Quinta Armata. Ma il loro piano è fallito. Le forze alleate, respinti gli attacchi nemici, hanno guadagnato ulteriore terreno ed hanno occupato numerose località, fra cui Galliciano. L'avanzata prosegue ora a nord verso Mignano, che costituisce un notevole centro logistico.

L'avanzata alleata è stata particolarmente attiva in tutti i settori della battaglia e nelle retrovie nemiche. Linee ferroviarie, strade, concentramenti di truppe germaniche e autocolonne in movimento sono stati martellati senza tregua. Il porto di Ancona ha subito un violento bombardamento, come pure quello di Spalato che è stato attaccato reiteratamente da cac-

ENTUSIASMO IN RUSSIA per il 26° anniversario della fondazione dell'U. R. R. S.

MOSCA, 9

Ieri il popolo russo ha celebrato con grande entusiasmo il 26° anniversario della fondazione dell'Unione sovietica, celebrazione che ha felicemente coinciso quest'anno con i grandiosi successi militari russi.

Le strade di Mosca erano parate a festa con bandiere e manifesti inneggianti alla collaborazione delle Nazioni alleate.

Stalin e Kalinin hanno ricevuto messaggi augurali da parte di personalità sovietiche e da tutte le parti del mondo, fra cui quelli di Roosevelt, Chiang Kai Shek e dei Patriarchi russi.

In un grande teatro di Londra è svolta una grande manifestazione anglo-russa, alla quale ha partecipato l'Ambasciatore sovietico a Londra, che ha trasmesso un radiodiscorso.

Commentando il discorso di «Times» ha fatto rilevare che il Maresciallo Stalin ha tenuto a ribadire che i tre Governi alleati sono concordi nel volere stabilire una nuova pace in stretta collaborazione.

Questa è stata una inequivocabile risposta per coloro che speravano nel fallimento della struttura politica alleata.

VIOLENTISSIMA BATTAGLIA nelle acque di Rabaul

WASHINGTON, 9

Una violentissima battaglia infuriava nelle acque di Rabaul tra forze aereo-navali alleate e giapponesi.

Cinque convogli giapponesi recanti urgenti rinforzi nell'isola di Bougainville sono stati avvistati ed attaccati prontamente da unità navali e da poderose formazioni aeree americane.

La reazione giapponese è stata violenta. Risulta dalle notizie

Le Armate sovietiche avanzano con calore ritmo lungo le linee ferroviarie che portano al confine della Polonia e della Romania.

Con un balzo di oltre sessanta chilometri in due giorni, le vittoriose truppe di Stalin hanno raggiunto ed occupato l'importantissimo nodo ferroviario di Eastov, a sud ovest di Kiev.

Con questo nuovo rilevante successo sono completamente tagliate le linee di comunicazioni ferroviarie fra le truppe germaniche della zona di Kiev e le forze tedesche, che difendono Krivoloig. Contro le loro rapide avanzate ad ovest e a nord ovest dalla capitale ucraina. Settanta altre località sono state liberate. Una delle colonne avanzanti ha già oltrepassato il centro di Nemesciolevno, posta a 35 Km. da Kiev.

Sulla occupazione della capitale ucraina sono giunti dai corrispondenti di guerra i primi interessanti particolari. Una densa e immane cortina di fumo si leva dalla città liberata. Nel loro insano furore distruttivo, i tedeschi prima di evacuare la città, hanno applicato il fuoco non solo su alcuni obiettivi militari ma anche sulle case e i monumenti della capitale dell'Ucraina.

La sconfitta subita a Kiev si ripercuote duramente per i tedeschi su tutti i settori del fronte. Mentre le vittoriose Armate russe si appressano sempre più alla Polonia e alla Romania, dal cui confine distano ormai pochi chilometri nel basso Danubio minacciano alle spalle le forze tedesche che difendono Krivoloig, la cui posizione, pertanto, si va notevolmente aggravando.

In Crimea le forze sovietiche, che erano sbarcate a nord e a nord est di Kerch hanno consolidato le loro posizioni ed hanno guadagnato ulteriore terreno. La strenua difesa dei tedeschi in questo settore è stata sopraffatta.

Anche sul fronte settentrionale i russi hanno conseguito nuovi successi ed hanno progredito ad ovest verso Novol.

L'aviazione sovietica ha concorso anche ieri validamente alle operazioni delle unità terrestri, bombardando, specialmente, con tutte le armi di bordo, colonne tedesche in fuga.

Nella sola giornata di sabato i russi hanno distrutto o danneggiato 219 carri armati tedeschi; mentre in duelli aerei o al suolo sono stati distrutti 71 aeroplani germanici.

«Fortezze volanti» americane hanno attaccato ieri mattina in massa Dueren, il noto importante centro di industrie metallurgiche della Romania.

L'incursione, che ha incontrato scarsa resistenza da parte della

The question as to whether an aged Jesuit priest should be permitted to travel to Beirut at this time is one that I suppose neither you nor I are qualified to answer: but the further question as to whether the knowledge of the world would be the poorer if he were not allowed to continue his studies appears to be one for your Sub-commission to answer rather than mine.

Villa San Cataldo
Pagheria(Palermo-Sicily)

To the Honorable President of
The United States of A M E R I C A

Sir,

I am a roman catholic priest, named Joseph Barbera,
living at Villa San Cataldo, Pagheria(Palermo-Sicily).

I would like to dedicate to You an important and
wonderful discovery on the geometrical arabic graphic origine
of the numbers 1,2,3,4,5,6,7,8,9,0, based upon an old and now
lost arabic manuscript, I found in Syria in 1935.

But to complete my discovery, typewrited now in 600
pages, I need to consult my books that I left two years ago in
Beirut(Syria), in St. Joseph's University directed by the Jesuit
French Fathers, where I have lived for many years studying and
teaching.

Can You, Honorable President, grant me Your kind be-
nevolence and grace, and help me to go to Beirut, to take my pri-
vate library and come back here, where I could easily finish this
work?

I am a man learned in eastern languages and a lin-
guist. Since 1906, I am composing an etymological dictionary of
the sicilian and italian words derived from the Arabic, Turkish,
Persian, Syrian languages, etc. For this purpose I travelled all

Europe, except Russia, studying modern languages. I travelled also all North-Africa and Syria, Transjordan, Arabia, Turkey, to study arabic language with its eastern and western dialects, old Syrian, Hebrew, old and modern Persian, Turkish, etc. I was in Tunis in 1906-1908; I have seen Algiers, Morocco and Mauritania; I studied also the Barbarian; in Bethlehem (Palestine) in 1908-1910; in Alexandria of Egypt in 1910-1919; in Reims (France) in 1919-1924; in London in 1924-1931; in Beyrut (Syria) in 1931-1942. I have been expelled from Beyrut by the french-De-Gaulliste authority.

Now I am here in Sicily in the greatest poverty, because I have been forced to leave all I possessed at Beyrut.

While in Beyrut I published The Arabic and Barbarian in the Italian and Sicilian languages in one volume (1935); The Maltese-Arabic-Italian etymological Dictionary in 4 volumes (1939-1940) and The Italian-Sicilian-Venetian-Genoese elements in the Arabic and Turkish in one volume (1940). All these books were printed by the world known printing-press of St. Joseph's University, in Beyrut, and were left there now.

This is my story, but I feel I should mention that I have lived for several months in the Arabian desert of Negid with the bedouin and tried to learn all their customs. In Beyrut I left an enormous number of notes, written from 1906 to 1942.

Now I am waiting Your benevolence and grace. But if You would appoint me to a professorship in Your father-land

I should be delighted.

Kindly accept my most deeply felt thanks.

Yours very sincerely

RELEASE OF PRISONERS OF WAR

1. The following extracts from a letter dated 11/11/43 from Major General G. Clark concerning No. 1 District are circulated for information:

- a. Every endeavour is being made to employ usefully Italian P/W at present held in No. 1 District. Good progress has been made with the formation of Italian P/W Labour Companies. In addition a limited number of individual Italian Officers are rendering good services as interpreters and with the Battlefield Clearance Section.
- b. The arrival of an Italian Division has enabled the advice and cooperation of the General Officer Commanding that Division to be enlisted. It is, however, apparent that some suspicion still lingers in the minds of those held as to the attitude being adopted by the Allied Governments and a certain reluctance is noticeable on the part of individuals to volunteer for free participation in the war effort.
- c. In order to amplify the proclamation of Marshal Badoglio the following statement will be published in the press on 13th November 1943.

Press Statement of General Clark:

The disposal of Italian officers and soldiers held as Prisoners of War in Allied custody is governed by the following considerations;

1. They were taken in arms against the Allied Forces. They include a number of persons whose release would hamper the Allied Nations war effort on account of their pro-Fascist or pro-German leanings. These individuals will be held in custody in North Africa. They have the right to appeal through normal military channels to the Italian authorities.
2. Since the conclusion of the Armistice with Italy, it has been the desire of the Allied Governments to enable all Italian prisoners to be engaged in the active furtherance of the war against Germany and the deliverance of Italy from the German armed forces.
3. This desire is shared by Marshal Badoglio who exhorts all Italian subjects to cooperate in this task.
4. Natives of Sicily who are free from the taint of Fascism and willing to declare their loyalty to the cause of the Allied Nations have been released on parole and permitted to return to their homes.
5. Those held as prisoners in North Africa can not be returned to Sicily at present and to the extent of their services in Africa and difficulties of transport.

- c. In order to amplify the proclamation of Marshal Badoglio the following statement will be published in the press on 13th November 1943.

Press Statement of General Clark

The disposal of Italian officers and soldiers held as Prisoners of War in Allied custody is governed by the following considerations;

1. They were taken in arms against the Allied Forces. They include a number of persons whose release would hamper the Allied Nations war effort on account of their pro-Fascist or pro-German leanings. These individuals will be held in custody in North Africa. They have the right to appeal through normal military channels to the Italian authorities.
2. Since the conclusion of the armistice with Italy, it has been the desire of the Allied Governments to enable all Italian prisoners to be engaged in the active furtherance of the war against Germany and the deliverance of Italy from the German armed forces.

This desire is shared by Marshal Badoglio who exhorts all Italian subjects to cooperate in this task.
3. Natives of Sicily who are free from the taint of Fascism and willing to declare their loyalty to the cause of the Allied Nations have been released on parole and permitted to return to their homes.

Those held as prisoners in North Africa can not be returned to Sicily at present owing to the need for their services in Africa and difficulties of transport. Moreover the return of large numbers of ex-soldiers of Sicilian origin could only aggravate the problem of feeding the civilian population.

Ex-prisoners of Sicilian origin who have been released on parole may voluntarily give up their civilian status and provide their services in the furtherance of the war effort. They will then be employed on the same terms and under the same conditions as those mentioned below.

Alternatively they may seek employment as civilians.

4. All other prisoners, including officers, have been invited to sign a declaration of loyalty to the cause of the Allied Nations and to volunteer their services to this end. Pending final arrangements between the Italian Government and the Allied Commander-in-Chief, the employment of such ex-prisoners in the armed forces of Italy is not authorized, except that individuals will be released whose services are specifically asked for by the Italian Military Authorities.
5. Prisoners who have signed the declaration referred to in paragraph 4 above will be released if their services are specifically asked for by ANAC.
6. Prisoners who have signed the declaration referred to in paragraph 4 above will, in the immediate future, be employed by the Allied Military Authorities in the manner considered most suitable to further the war effort having in mind the capabilities of the individuals. Such individuals will be housed, fed and clothed by the British Military Authorities and for all practical purposes be treated as combatant soldiers of the Allied Nations. The issue of payment in cash to such personnel is under consideration. At the present moment, it is restricted to those who, by the nature of their duties, may be required to find their own means of subsistence. The individuals may be released on parole within a limited radius of the locality in which they are required to serve.
7. The unconditional release of prisoners with permission to return to their homes will only be granted on medical or compassionate grounds. Applications for such release will not be considered unless accompanied by supporting evidence; e.g. full medical history or independent corroboration of the compassionate grounds.

This morning I had a long conference with Lt. Colonel POLETTI. He stated that he had sent me names for appointments in the University of Palermo. As I have not received these as yet I could not discuss them.

In order to avoid any confusion, however, I think it is essential to re-emphasise certain essential facts:

All University appointments are made in Italy between the Rector, the Senatus Academicus, and deans of faculties, on the one hand and the Minister of Education in Rome on the other without any intermediaries at all. For this reason it is essential that we adhere to our directive dated 23rd September, a copy of which is attached and in which it is stated that these appointments would be made by this HQ in consultation with the "universities concerned".

The "universities" are governed by ancient statutes and customs which cannot be known to SCAO's or Regional Commanders and nothing but confusion will result if we implant a federal regional control on institutions whose machinery has been evolved in relation to a central authority.

Furthermore Regional Commanders and SCAO's are not, as such, qualified to judge upon the merits or otherwise of the professors. This is a technical question which requires careful investigation by educationists, apart from the question, altogether, of the political suitability of candidates.

Where an Educational Director exists in a Region he will be able to make a preliminary investigation of proposed nominations, but, even so, the selection ought for the above reasons to rest with us.

In addition, I should point out from conferences I have had recently there would be considerable reluctance on the part of professors to accept appointments which were not approved by the Government after the complicated process of Italian law and procedure had been complied with. They feel that any other type of appointment would be held invalid after the Allies had left the country.

Therefore I have drafted the attached letter which I hope that you will sign.

Art. 1) All Public Safety Functionaries and Agents of Public Safety who have reached the age of 65 and have finished 10 years of service are placed in retirement as of Jan. 1, 1944 without loss of their grade.

Art. 2) The Officers and Public Safety Agents who have reached the age of 60 and finished 35 years of service may be retired, whatever to their grade, because of proven physical incapacity.

Art. 3) Within 3 months of the date of this Order all I.S. Agents recalled into service or for whatever reason retained (beyond retirement age) must be retired or dismissed.

These discharges will be effected gradually according to the needs of the service and regardless of grade.

Art. 4) All Officers, employees, and Agents of I.S. who have proven lack of fitness for their grade shall, on proposal initiated by the present interested and approval by a Commission set up for the purpose, be dismissed from service or retired as soon as practicable.

In favor of the latter an additional 5 years will be added to their service record for pension purposes - both for the purpose of attaining the minimum period required for retirement, and for the purpose of liquidating monies due.

Art. 5) The Regional Directorate of Public Safety is empowered to proceed with the employment of Public Safety Agents independently of existing rules re-enrollment in the Corps.

Art. 6) The Agents mentioned in Art. V are appointed Probationary Public Safety Guards by my Order and are entitled to economic treatment as I.S. Guards. They may be called upon, by turns, to attend an intensive course of no less than a month in the Students School to be instituted.

After 6 months from the appointment as Probationary Guards, they shall be called before a Commission for oral examination for the purpose of ascertaining whether they have obtained sufficient professional preparation to permit them to perform the duties of their grade.

If the results of such exams are favorable and there are no other objections, they shall be appointed permanent Public Safety Guards.

Art. 7) Announcement is made of examination for 150 Vice-Brigadier of Public Safety Grades. The following may take part:

(1) Guards and Picked Guards, regardless of years of service, provided applicant be in possession of diploma of "Instituto Nacional de Estudios de la Guardia Civil" or the equivalent.

661

(3) Guards and Picket Guards, not within either of the above, who have

at least 3 years of permanent service and have been graded excellent two years.

maximum age - 35 years.

The successful candidates will be appointed Vice-Brigadiers of Public Safety on probation. After 6 months, if found suitable, they shall be appointed permanent V. Brigadiers of Public Safety.

Before appointed in permanent grade, they may be required to attend a course of at least one month's duration at the new students school.

In all cases, after 6 months from appointment they shall be orally examined by a commission to determine whether they have attained that degree of suitability required to perform the duties of the grade.

ART. 8) The classification of Public Safety Officials in group A remains unchanged. An examination is authorized for 20 posts in the lowest grade (of officers), restricted to Police and Order employees who must have at least a diploma from Instituto Radio of 2nd grade or corresponding to term of B.A. 3 year 1923 N. 1034, and at least 10 years permanent service.

ART. 9) To fill available grade and meet present needs, an examination for 30 posts of Vice-Comisario Agente of Public Safety on Probation is authorized.

Those in possession of law degree or equivalent and not over 35 may take the examination.

An examination is also authorized for 20 subalterns and 10 corporals to be charged with the organization, discipline and administration of the Corps, from those who had the corresponding grade in the Army and have at least a diploma of Instituto Radio 2nd grade or equivalent.

The Regional Director is charged with issuing, upon approval by Public Safety Division, Region I, Allied Military Government, the rules, regulations and coordinating these regulations.

1. There have been brought to my attention several instances of an improper attitude on the part of individuals of the Allied forces toward the Italian civilian population, Civil Police and military units. The following cases are examples:

a. On November 24 American soldiers removed by force the hat of an Italian officer and drove away in a truck.

b. On November 25 a similar incident occurred.

c. On November 23 Allied soldiers fired pistol shots at an Italian officer in the vicinity of the Naples Railway Station.

d. On November 29 four American soldiers took by force money and official papers from an Italian corporal.

e. On November 26 an American officer illegally "Requisitioned" a vehicle belonging to the 10th Automotive Regiment.

f. On numerous occasions individuals have illegally taken arms and equipment from the Civil Police and from Italian military personnel.

g. On numerous occasions individuals have illegally taken away and converted to their own use items displayed for sale in stores.

h. On numerous occasions drivers of Allied trucks have failed to obey the legal orders of the Civil Police in directing traffic.

2. These incidents are indicative of a lawless attitude on the part of military personnel which must cease. They bring discredit on the Allied cause and retard the Allied effort.

MEMORANDUM (continued)

3. The Commander-in-Chief has stated that the Italians will be treated as co-belligerents. They are fighting for the same cause as the Allies, and their troops and the Civil Police are affording considerable help to the Allied forces in the maintenance of law and order. The command of Italian troops rests with their local commanders. General Antonio Basso has been designated to command all Italian troops in Campania. Operational control is vested in the Allied Headquarters to which the Italian troops are attached.

4. Looting and the unauthorized conversion of private property to the personal use of any individual are violations of the Articles of War and are punishable by the most severe sentences. Such acts are likewise contemptible and beneath the dignity of an Allied soldier.

5. I look to Unit Commanders to take the necessary steps to prevent recurrences of incidents such as those cited above and to insure that members of their commands conduct themselves in a manner to bring credit rather than discredit to the Allied cause.

MEMORANDUM: Relation of the Allied Control Commission
to the Italian Government

TO : All Offices, Allied Control Commission

1. The attention of all officers is invited to the fact that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. The Commission advises and supervises; it does not govern. This fundamental difference must be thoroughly understood by all officers who will adjust accordingly their attitude toward Italian officials and agencies, allowing them to develop their functions freely without undue interference.

2. If basic differences arise between officers of this Commission and the corresponding members of the Italian Government, the matter at issue will be submitted to the Deputy President for adjustment with the Head of the Italian Government.

Memorandum: Policy Concerning Wage Increases in Region I

TO : All A.M.G. Officers in A.M.G. Headquarters and in Region I

1. Control of inflation in areas under A.M.G. (or A.C.G.) is one of the major responsibilities of A.M.G. Under this policy substantial additional wage increases cannot be granted, for such increases would be powerful inflationary forces. Officers are requested and instructed, therefore, to be extremely careful when wage questions are being considered to do or say anything contrary or prejudicial to the A.M.G.'s efforts to control inflation.

2. Officers should understand that substantial additional wage increases leading to inflation are more harmful in the long run to the people than are the results of the present wage scale. The quantities of goods available in the area under A.M.G. control is limited to the amount produced, plus the amount which can be produced in the area, plus the amount which can be imported. Because of war conditions payment of higher wages, with the consequent higher prices, will not alleviate the supply situation by increasing significantly the amounts of goods produced or imported. However, by stimulating added demands to the inflationary tendencies the higher wages and higher prices will do positive harm. Inflation disrupts the civilian economy and creates civil unrest, thus reducing the amount of goods produced and available for consumption. The lot of the civilian is made worse and progress of the Allied armies is hindered because more men and more resources must be diverted to areas behind the combat lines.

3. A.M.G. is making vigorous efforts to forestall inflation and the fullest co-operation of all A.M.G. officers in not encouraging demands for wage increases is requested and expected.

RECOMMENDATIONS FOR THE PORT OFFICER IN THE PORT OF NEW YORK

4 December 1945

MEMORANDUM FOR THE PORT OFFICER

TO : R.C.M. - Regions I & II

1. As the result of a conference with representatives of the Port Authority, it is directed that an Assistant Port Officer be appointed in each Port City listed below. In most cases these assignments will be made from the Civilian Supply Officers in the Region. It is not contemplated that the duties of a Port Officer in the smaller ports will in all cases require his full time; therefore, the assignment in such cases can be treated as an additional duty for the officers selected.

2. The duties of the Assistant Port Officer will be as follows:

a. To maintain close liaison with all port agencies, military, naval and civilian.

b. To follow the movement of all ships with civilian cargoes to and from the port. He will be supplied with information concerning the expected time of arrival of ships carrying civilian cargoes to each Port City. If such a ship enters his port which is destined for some other port, he must make arrangements for the onward movement of the AMC supplies which are in it.

c. To report all movements of civilian supplies in and out of the port which are not in accordance with the port instructions received by him.

d. To supervise the loading and unloading of civilian goods at his port, maintaining accurate accounts of the goods shipped and received.

e. To arrange for the warehousing and proper disposition of civilian goods awaiting shipment and of goods unloaded.

f. Upon request, to prepare and send through channels the necessary information to enable higher and authority to ascertain where cargoes are at any given moment.

g. To assist in the separation of unloaded cargoes intended for military or naval use from those intended for civilian use.

3. The Port Officer will be a representative of the Industry and Commerce Subcommittee and will be responsible through the Subcommittee in the performance of duties in and around the port.

Dear General,

I am enclosing a private note from my friend, Sir Alfred Zimmern, head of the Research Department, of the Foreign Office. You will see he recommends an American by name of Leopold Macari for our work here. He does not state his rank. Do you think we should ask for him? Sir Alfred Zimmern is a very keen intellect and not likely to recommend him unless he is a good man.

Dear Gayre,

I was delighted to receive your letter of October 11th, and to hear of your doings. We well remember Catinella and his intelligent interest in the British Empire. Please send him our best remembrances and good wishes. Tell him Fernter is still alive and, to the best of my knowledge, working at the London School of Economics.

Curiously enough your letter arrived almost simultaneously with one from another old Geneva pupil of ours, an Italian-American who would be a peculiarly valuable member of your staff, if you take U.S. nationals (otherwise, perhaps you could send this recommendation on to a U.S. colleague). His name is Leopold Machri. He is the son of S. Italian immigrants and I have visited him in his home in the Italian (or should I say, La Guardia) quarter of New York. He got to Columbia University where he had a brilliant career, specializing in psychology and sociology. He became especially interested in the problem of the adjustment of his Italian-American neighbours to their American environment and, in this way, was led to make a close study of his own parents' sociological background. He has had a profound effect on the morale of his own neighbourhood and is, I am sure, destined to do outstanding work. From the foregoing you will realize that he has considerable force of character as well as an excellent brain. He is particularly good at 'sizing people up', being a most acute psychologist.

He tells me that he would greatly like to use his gifts in AMGOT, as he is largely wasted at present, being employed in army psychological work in a

1. General. We have had under consideration various points arising out of the proposed new Sections and sub-commissions. Throughout this paper it is assumed that at least Sections 2, 3 and 4 of the Commission will be located together, though not necessarily, of course in one building. (See para 3(c)(i))

2. Outline Organisation

(a) In the absence of more information about the organisation at the top, it is difficult to put forward firm recommendations, but our conception of what the outline organisation should be is given in App. A hereto. An alternative plan is given in App. B (See para 3(c)(i) below). It will be observed that one of the main features is the three separate channels of communication shown, viz:-

- (i) General Policy and Administration.
 - (ii) Technical and Departmental.
 - (iii) Internal Military Administration.
- (see (b) and (c) below.

(b) The distinction between (i) and (ii) is the well-known and reasonably clear-cut distinction between Staff and Service channels.

(c) (iii) is the channel for the administration, in its widest sense, of the Officers, B.M. and O.R.s who will form the personnel of Sections 2, 3 and 4 of the Armistice Commission - and of Regions under its control - i.e. the personnel authorized in Paper No. 7. 3. Internal Military Administration.

(a) It is obvious from para. 2 above that the Military Administrative Staff should be outside the Sectional organisation, as shown in App. A. Heads of Branches should report direct to a military officer of high rank on the staff of the Hq of the Commission itself. There would, in fact, be need of two such officers, one British and one American. A possible alternative would be for the Deputy President to depute two such officers at the Hqs of Sections, but this is not considered a

2473
satisfactory solution, if only because certain questions affecting assignments and discipline, particularly in the case of senior officers, would have to be considered. It may seem to the high military authorities, British and American, at the Hq of the Commission. This is a point. - i.e. the final disposal of questions affecting officers (or to put it in a simpler way, the function of Command) is one on which very clear directions will be required. The relationship between Hq. Armistice C.C. and AFHQ appears to be involved.

(b) If the recommendation in (a) above cannot be approved, an alternative scheme whereby the Military Administrative Staff is placed at the Hq of No. 3 Section, is shown in App. B. This organisation is more cumbersome than the other, but we consider that it could be made to function.

(c) In both plans, Apps A and B - it will be noted that No. 1 (the Military) Section is shown as included in the network for the purposes of internal military administration only. This is recommended on the grounds of economy, simplicity, and clarity, but only subject to the following provisos:-

(i) It is assumed that the Military Section will be located in the same place as Sections 2, 3 and 4 (see para. 1 above).

(ii) The Military Administrative Staff cannot undertake any administration duties in connection with the Naval and Air Portions of the Military Section. If it is decided that the Military Section should be independent for internal administration purposes, the resultant position would be shown in the case of App. A by deleting the horizontal line X - Y immediately below "Political and Military Staff" and in the case of App. B by deleting the line marked with small circles leading from the Military Section.

4. Personnel of previous Information and Education Special Divisions.

(a) An early ruling is required as to the position of these Officers. It is understood (see para 2 (b) and footnote of your Directive referred to above) that Information and Fine Arts certainly, and Education probably, are to be the responsibility of the Political Section.

(b) In this connection it is strongly recommended that if Fine Arts and Monuments are to be transferred, so also should Education. (b) In this connection it is strongly recommended that if Fine Arts and Monuments are to be transferred, so also should Education. Apart from the general principle that, under Armistice Control conditions, control of Education must necessarily be somewhat loose, and exercised chiefly with the Central Italian Government, serious, if minor, administrative difficulties and complications regarding personnel will otherwise ensue.

(c) The following points accordingly require clarification:-

- (i) Is it accepted that Education will be a Political responsibility. No
- (ii) Will the number of officers authorized in Paper 7 for the Education and Information Divisions still

(iii) Whatever be the ruling on (ii) above, which concerns numbers and not individuals, what will be the position of Officers with Special Education, Fine Arts, and Information qualifications, some of whom have already arrived and been posted to Armistice C.C. and Regions? Will those in Armistice C.C. be transferred to the Political Section, and if so, by what machinery? A list of such Officers, with their qualifications and present assignments is given in app. C hereto.

(iv) Presuming they are to be transferred, will they remain soldiers, or will they become civilians? It is represented that serious difficulties are likely to arise in the field of Internal Military Administration (see para 3 above) if they remain soldiers, while the rest of the personnel in the Political Section are civilian. Apart from such difficulties, the position would be anomalous in the extreme, and logically indefensible.

(a) Guidance is required as to the functions of this Sub-Commission. Opinions at this HQ vary. Some consider that it will be quite a small sub-commission with liaison duties only, whose main function will be to act as a link between the department of Mercantile Marine of the Italian Ministry of Communications and the shipping organisations of the United Nations.

(c) If the conception in (b) above be correct, the officers should, in our opinion, be provided by the Ministry of War Transport and the U.S. War Shipping Administration. They should, however, hold military commissions, otherwise the same type of difficulty will arise as explained in para. 4(c) (iv) above.

5. Shipping Sub-Commission of Section 4.

(a) Guidance is required as to the functions of this Sub-Commission. Opinions at this HQ vary. Some consider that it will be quite a small sub-commission with liaison duties only, whose main function will be to act as a link between the department of Mercantile Marine of the Italian Ministry of Communications and the shipping organisations of the United Nations.

(b) A perusal of the Armistice draft terms, however, would suggest that the listing, organisation, collection, allocation and disposal of Italian craft of all kinds (excluding warships) will be a very large and complex question, and if such are to be the responsibility of Armistice C.C. we are of opinion that a strong sub-commission will be required, composed of officers trained in shipping (as opposed to Transportation and Port) questions. It will have to work in close co-operation both with the Transportation Sub-Commission and the Naval Sub-Commission of the Military Section.

(c) If the conception in (b) above be correct, the officers should, in our opinion, be provided by the Ministry of War Transport and the U.S. War Shipping Administration. They should, however, hold military commissions, otherwise the same type of difficulty will arise as explained in para. 4(c) (iv) above.

(d) Whether or not the functions of the sub-commission will be as indicated, it is not considered that the required number of personnel can be found from the overall total in Paper No. 7, unless the number now allotted for Information and Education can be retained (see para 4 (c) (ii) above), and in the latter case personnel with suitable qualifications will not be forthcoming unless the necessary arrangements are made forthwith with London and Washington.

May the position please be clarified?

e. Other Sub-Commissions.

Guidance is also required as to the inclusion of the Food Distribution, Foreign Trade, Fuel, and (if retained in No. 3 Section) Education Sub-Commissions in that order of priority.

7. Liaison between Armistice C.C. and Hq. A.M.G.

This is not dealt with in this paper as it is assumed that the necessity for the closest liaison is fully appreciated. Not only is there the question of Reichs being successively removed from A.M.G. to Armistice C.C. control, but there will be many questions of common concern, for example, transportation, communications, and prisoners of war.

8. Conclusion.

It is realised that in all probability the information asked for cannot be provided for some time. You will appreciate, however, that it is difficult to make progress in organization in its own right. It is therefore requested that every effort be made to obtain it as quickly as possible. Even a tentative directive, or guidance on one or two of the points only, would be of value.

WAR DIARY

1. (i) It has been decided that a monthly War Diary will be kept in British War Diary Form by Hq Armistice C.O. and Regions.

(ii) The responsible branch will, for the time being, be G-2.

(iii) One consolidated Diary for Hq Armistice C.O. and Regions will be maintained.

(iv) When Regions have their own G-2 and become really separate entities, War Diaries on British Form will be kept and disposed of in the normal manner.

2. (i) Regions, Branches and Special Divisions of ACG will furnish G-2 branch, every Saturday commencing 25 September 1943, with notes and information which are considered suitable for the War Diary.

(ii) British Army Form C. 2113 will be used. Supplies of this form have been distributed.

3. The information requested in para 2 (i) will be submitted so as to arrive in G-2 branch by 1600 hrs every Saturday.

4. For guidance the following points should be included:-

(i) State of personnel, number of officers assigned since last War Diary submission.

(ii) Location, office accommodation, etc.

(iii) Organization of Regions and Special Divisions.

(iv) Summary of any important information received, whether military or political.

(v) Copies of important orders or instructions received (received) should be attached to the notes in duplicate.

1. Considered essential that combined Chiefs of Staff Section II be split - as shown above in Section II and III (column C).
2. Considered that items now shown under Section IV (column C) be a separate section with sub-commission as shown.
3. Considered that Political and Information be put together in one section - see Section V (column C).
4. Considered that title of sub-commission (i) of Section II be extended to include Foreign Exchange and Control.
5. Considered that Interior Administration (see Section III above) better term than "Interior".
6. Doubtful as to exact meaning of "Food" but on assumption it means distribution of food a separate sub-commission required as above in Section III.
7. Considered that Public Safety should be a separate sub-commission and that Legal be better than Justice & Law.
8. Considered that Education & Fine Arts should be sub-commission under Interior & Justice as in above table - Section III (vii) (column C).

MILITARY GOVERNMENT SECTION

August 21, 1943

OUTLINE PLAN FOR OCCUPATION OF ITALY.

A. ASSUMED SITUATION.

1. Further provision must be made for a quick occupation of a major part or all of Italy as a consequence of an armistice. It is assumed herein that the Italian Government and armed forces make a complete submission to the Allied Nations and that Italian territory is to be occupied by Allied Forces. The administrative system and the economy of Italy are to be brought under an Armistice Control Authority as rapidly as may be. In areas where active operations against German forces are still in progress, Allied Military Government will be established. The following plan establishes the scheme for both Military Government and post-armistice control which this situation would require, and prescribes the formations of personnel which the execution of the scheme would involve.

2. An Armistice Control Authority operates in a different situation from a Military Government. The latter takes the place of a government which has been expelled, while the former operates upon a government which, after submission, has been kept in operation. The function of the Armistice Control Authority will be to maintain conditions favorable to the use of Italy as a base of operations, to enforce the conditions of the armistice, and to carry out such other policies as may be prescribed by higher authority. Whereas the powers belonging to a Military Government flow from general principles of international law, the activities of an Armistice Control Authority are restricted by the terms of the armistice. If, however, the Allied Nations reserve for themselves all the powers of an occupying power, they will have even under an armistice the same plenary authority they would have had if they had simply driven out the Italian Government. Still, in contrast to the powers of an occupying power, they will have even under an armistice conditions even more than during Military Government. It will be desirable to control the administration and economy of Italy by indirect methods, through the Italian Government, so long as adequate results are produced. Until further directives are given as to the organization and methods of the post-armistice control, the Armistice Control Authority will do all that may be necessary to safeguard the interests of the United Nations, but will refrain from any avoidable anticipation of operations or policy.

3. It is assumed that the disarmament of military, naval and

3. It is assumed that the disarmament of military, naval and air formations, the collection of surrendered material, the demobilization of the Italian armed forces, and like service matters involved in administering an armistice will be assigned to appropriate Military, Naval and Air Control Sections to be established by the Commander in Chief. Military Government Section AFHQ looks to the Assistant Chief of Staff, G-3, to prepare detailed plans for these aspects of armistice control. Accordingly the chart showing the post-armistice structure set out in Appendix 1 merely reflects the necessity of such units in the organization, but implies nothing as to their internal structure. Similarly it is to be expected that Civilian Agencies will be brought into Italy to perform various functions - relief, rehabilitation, supply, and the like. It may be that some functions which at the outset are performed by military personnel will later be transferred to the Civilian Agencies. The Chart, therefore, tentatively assigns a place to these Agencies, but does not prejudge their organization or the range of their activities.

PLAN OF ACTION ON MILITARY

4. In the assumed situation, Italian Forces offer no resistance and so far as the Italian Government is concerned Allied control may be established over the government and territory as rapidly as the formations of personnel arrive on the ground. This will be the work of the Armistice Control Authority to be established in the name of the Allied Nations or the Allied Commander in Chief.

5. German Forces, however, will be present in Italy and it is to be expected that at some point they will lay down themselves into positions which they are endeavoring to hold. To drive them from that line and to exclude them from Italy will be the function of certain combat formations. It is assumed that the 15th Army Group would be charged with this mission. Allied Military Government would then be established in the immediate rear of the 15th Army Group, performing the same function as AGF in Sicily performed during the operation Husky. The Chief Civil Affairs Officer would be responsible directly to the General Officer Commanding 15th Army Group, just as in Sicily.

6. The present plan, therefore, must cover two distinct operations: An Allied Military Government forming part of the 15th Army Group and following its progress in clearing the ground, and the Armistice Control Authority which extends its control over Italian territory as rapidly as the tactical developments permit. As the 15th Army Group advances the Allied Military Government will turn over the areas it has been governing, to be thereafter administered by the Italian Government under the supervision and administration of the Armistice Control Authority. It is to be expected that events will develop rapidly, so that in execution the plan will have to be modified to meet changing conditions.

7. ALLIED MILITARY GOVERNMENT: The organization of the Allied Military Government will follow the pattern already established for the operation Husky.

8. ARMISTICE CONTROL AUTHORITY: The organization of the Armistice Control Authority will consist at the outset of a National Headquarters, Regional Organizations, and Control Officers located in the provincial capitals and elsewhere as may be found convenient. The National Headquarters to move into Rome as promptly as may be and establish itself there as an agency for the control of the Italian National Administration. It will, under the Allied Commander in Chief, direct that administration as may be necessary in the interest of the Allied Nations and this see to it that the conditions laid down in the armistice are fulfilled. It will be divided into special staff sections (Legal, Financial, Public Health, etc.), whose duties would include the control of the respective ministries and agencies of the Italian Government.

9. Regional organizations of the Armistice Control Authority will be progressively established.

of certain combat formations. It is assumed that the 15th Army Group would be charged with this mission. Allied Military Government would then be established in the immediate rear of the 15th Army Group, performing the same function as AGF in Sicily performed during the operation Husky. The Chief Civil Affairs Officer would be responsible directly to the General Officer Commanding 15th Army Group, just as in Sicily.

6. The present plan, therefore, must cover two distinct operations: an Allied Military Government forming part of the 15th Army Group and, following its progress in clearing the ground, and an Armistice Control Authority which will take over control over Italian territory as rapidly as the tactical developments permit. As the 15th Army Group advances the Allied Military Government will turn over the areas it has been governing, to be thereafter administered by the Italian Government under the supervision and direction of the Armistice Control Authority. It is to be expected that events will develop rapidly, so that in execution the plan will have to be modified to meet changing conditions.

7. ALLIED MILITARY GOVERNMENT: The organization of the Allied Military Government will follow the pattern already established for the operation Husky.

8. ARMISTICE CONTROL AUTHORITY: The organization of the Armistice Control Authority will consist of the outset of a National Headquarters, Regional Organizations, and Control Officers located in the provincial capitals and elsewhere as may be found convenient. The National Headquarters to move into Rome as promptly as can be and establish itself there as an agency for the control of the Italian National administration. It will, under the Allied Commander in Chief, direct that administration as may be necessary in the interest of the United Nations and will see to it that the conditions laid down in the armistice are fulfilled. It will be divided into special staff sections (Legal, Financial, Public Health, etc.), whose duties would include the control of the respective administrations and agencies of the Italian Government.

9. Regional organizations of the Armistice Control Authority will be progressively established as rapidly as the occupation of the Italian territory is effected. These organizations will serve only a temporary purpose. (See paragraph 11 below.) At the outset the Regional Headquarters will be in direct control of the areas assigned to it, subject to such orders as it receives from Headquarters of the Armistice Control Authority. Presumably some Regions will be organized before the National Headquarters can be in effective operation.

10. Control Officers will be assigned within each Region, in provincial capitals and elsewhere as may be needed for the supervision of public administration and for other purposes. They will be the local representatives of the Armistice Control Authority and the means by which the National Headquarters keeps itself in constant touch with local conditions. Control Officers will execute the instructions and policies transmissive from the Headquarters

11. It is to be anticipated that at the outset in at least some of the Regions local dislocations and disorders will be encountered which must be handled on the spot. Therefore the Regional Headquarters, with its local Control Officers, must have authority. In the early days of the occupation, to cope with situations on its own responsibility, subject to such directions as it may receive from the National Headquarters at Rome. As soon, however, as it becomes practicable to do so, the Regional Headquarters will be eliminated from the chain of command. The Armistice Control Authority will thereafter deal directly with the local Control Officers. Thus as rapidly as may be the Armistice Control Authority will be operating on the sound principle that the structure should correspond to the governmental system it is controlling. It would have its units of authority in juxtaposition to those units of the Italian Government: a Headquarters supervising the National administration at Rome, and a Provincial Control Officer supervising each provincial prefect. Additional Control Officers will be assigned to assist the Provincial Control Officer and to supervise other local matters, such as the operation of railways and docks, transportation and communication centers, and banks. The Fascist Party has been so deeply involved in Italian public administration that the creation of the former will leave the latter in a somewhat paralyzed condition. Hence the Headquarters of Armistice Control Authority at Rome will require the support of a number of Control Officers throughout the country.

12. When the Regional Headquarters have been eliminated from the chain of command it will still be desirable to make such a disposition of personnel that there will be some supporting element between the National Headquarters at the top and the local Control Officers at the bottom. In each Region there will be a group of "lified officers, who will act as a "troubleshooting" staff for the various divisions of the National Headquarters. The Regional Control Officer will be responsible for the administration of his group and will keep the National Headquarters advised on their activities. It is important that each Regional group be kept at the minimum number consistent with efficiency. The functions of the Regional staff officers will be:

- a. To inspect the working of Armistice Control activities within the Area;
- b. to make recommendations on administration and policy to the Armistice Control Authority;
- c. to submit situation reports to Armistice Control Authority.

The Regional special staff would not have representatives of every one of the divisions at Armistice Control Authority Headquarters, but only such as seemed necessary and appropriate to the Area. The Area comprising the industrial North would be staffed with specialists on utilities, production and labor, but would perhaps

Additional Control Officers will be assigned to assist the Provincial Control Officer and to supervise other local matters, such as the operation of harbors and docks, transportation and communication centers, and banks. The Fascist Party has been so deeply involved in Italian public administration that the creation of the former will leave the latter in a somewhat paralyzed condition. Hence the Headquarters of Armistice Control Authority at Rome will require the support of a number of Control Officers throughout the country.

12. When the Regional Headquarters have been eliminated from the chain of command it will still be desirable to make such a disposition of personnel that there will be some supporting element between the National Headquarters at the top and the local Control Officers at the bottom. In each Region there will be two or three officers, who will act as a "mobile shooting" staff for the various divisions of the National Headquarters. The Regional Control Officer will be responsible for the administration of his group and will keep the National Headquarters advised on their activities. It is important that each Regional group be kept at the minimum number consistent with efficiency. The functions of the Regional staff officers will be:

- a. to inspect the working of Armistice Control activities within the Area;
- b. to make recommendations on administration and policy to the Armistice Control Authority;
2. to submit situation reports to Armistice Control Authority.

The Regional special staff would not have representatives of every one of the divisions at Armistice Control Authority Headquarters, but only such as seemed necessary and appropriate to the Area. The Area comprising the industrial North would be staffed with specialists on utilities, production and labor, but would perhaps not need a specialist on agriculture, whereas in the South of Italy a different allotment of staff representatives would be made. Special staff officers will be reallocated as needs arise; the system must be kept adaptable and mobile.

13. It may later be found desirable to do away with the Regional organization and to substitute an Area of the Regions as the unit within which the "mobile shooting" group is to operate.

14. For Sardinia there will be one Senior Control Officer, who will communicate directly with Headquarters of the Armistice Control Authority. He will have under him a Provincial Control Officer, with staff, for each of the three provinces in the island.

15. At an appropriate time Sicily will be brought into the system of the Armistice Control Authority.

Provision, must, therefore, be made for holding personnel at a suitable point where Regional teams may be formed, to be despatched to their respective Regions as soon as the ground is cleared. The Military Government School and Holding Center now at Tizi Ouzou will accordingly be moved to the mainland, and as near to Rome as is practicable, to receive personnel from the United Kingdom, the United States, and elsewhere, and to carry on the indoctrinating and organizing essential to the scheme.

C. EXECUTION OF THE PLAN.

17. An Allied Military Government for Region 2, comprising Calabria, Lucania and Apulia, is already provided for in the operation Baytown. It is now being formed in Sicily with personnel there present. In the event of a post-armistice occupation this group will establish itself as the Regional Armistice Control Authority for Region 2.

18. An Allied Military Government for Region 3, comprising Campania, is already provided for in operation Avalanche. It is now being formed at Tizi Ouzou. In the event of an armistice this group will establish itself at Naples as the Regional Armistice Control Authority for Region 3.

19. The Allied Military Government Headquarters now formed at Palermo for the purpose of becoming the governing authority over Regions 1 (Sicily), 2, and 3 in connection with operations Baytown and Avalanche will continue as a part of 15th Army Group and will follow it in its movement of clearing German forces from Italian territory. This AAG Headquarters will organize Military Government behind the line held by 15th Army Group, and for that purpose will be furnished the necessary personnel from the Military Government School and Holding Center. As rapidly as conditions permit the Allied Military Government will turn over territory occupied to the Armistice Control Authority and go on with the 15th Army Group.

20. The Headquarters group contemplated in the Memorandum on Preparation for Post-Hasty operations, now being formed at Tizi Ouzou, will be prepared to become the Armistice Control Authority for the post-armistice period. While continuing, however, to organize for the mission already assigned to it, it will also plan for the alternative that is now to take over the control of the Italian National Government and Italian security pursuant to an armistice. This would involve some adaptation of its structure to the requirements of the new situation. Planning for the Armistice Control Authority will have first priority.

21. It is to be expected that the British and American Governments will decide upon directives as to the structure and methods of post-armistice control in Italy. That the superstructure of this control will be based on the former one. But it seems reasonable to expect that the special staff divisions, Legal, Financial, Public Health, etc., will be reorganized.

18. An Allied Military Government for Region 3, comprising Campania, is already provided for in operational arrangements. It is now being formed at Tiri Gouzou. In the event of an armistice this group will establish itself at Naples as the Regional Administrative Control Authority for Region 3.

19. The Allied Military Government Headquarters now formed at Palermo for the purpose of becoming the governing authority over Regions 1 (Sicily), 2, and 3 in connection with operations Baytown and Avalanche will continue as a part of 15th Army Group and will follow it in its movement of clearing German forces from Italian territory. This AGHQ Headquarters will organize Military Government behind the line held by 15th Army Group, and for that purpose will be furnished the necessary personnel from the Military Government School and holding center. As rapidly as conditions permit the Allied Military Government will turn over authority to the Armistice Control Authority and go on with the 15th Army Group.

20. The Headquarters group contemplated in the Memorandum on preparation for Post-Buck operations, now being formed at Tiri Gouzou, will be prepared to become the Armistice Control Authority for the post-armistice period. While considering, therefore, to organize for the mission already assigned to it, it will also plan for the alternative that it has to take over the control of the Italian National Government and Italian currency pursuant to an armistice. This would involve some adaptation of its structure to the requirements of the new situation. Planning for the Armistice Control Authority will have first priority.

21. It is to be expected that the British and American Governments will decide upon directives as to the structure and methods of post-armistice control in Italy. What the superstructure of this control will be cannot be foreseen. But it seems reasonable to expect that the several staff divisions, legal, financial, Public Health, etc., will have to be perpetuated in any system of post-armistice control. In any event, the Allied Commander in Chief must be prepared, if an armistice should be made, promptly to establish some suitable form of control over the Italian Government and thereby pending further directives from the Allied Government. It will be the duty, therefore, of the National Headquarters to take such immediate steps as may be necessary for military reasons and to secure the enforcement of the conditions of armistice; it will admit further instructions before it completes itself to long-range objectives.

22. Allied Military Governments for Region 4, comprising Abruzzi and Lazio, and for Region 5, Umbria and the Marches, will be formed at Tiri Gouzou as rapidly as personnel become available. They will plan for both alternatives:--

At Headquarters of the Armistice Control Authority (in the event of the occupation of its assigned area as a unit of the Military Government in the wake of the 15th Army Group) the

will be formed at TIZIOUZOU as soon as possible. It will be for the two additional qualifications that they will have to receive with the French. The French will have to solve special problems of liaison.

24. Tuscany is designated as Region 8, and Emilia as Region 9, in the present plan. The number 7 has already been referred to as the National Headquarters. For each Region a skeleton organization will be formed at TIZIOUZOU, to be somewhat strengthened as additional personnel becomes available. It is expected, however, that most of the strength for these Regional organizations will be found by withdrawing officers from the Regions earlier to be occupied. In every Region, once it has its territory under control, personnel will be taken out and made available, through the Holding Centre, for later Regional teams.

25. The School and Holding Centre will be removed to the vicinity of Rome at the earliest practicable moment, in order that it may be accessible to the National Headquarters and in the most advantageous position for assembling teams to take over additional Regions as they may be cleared. The extension of the Armistice Control Authority as now areas are cleared will involve constant shifting of personnel; it will be the function of the Centre to receive this personnel as well as any additional strength which may be made available, and to organize new units.

26. The initial estimates of personnel for the several Regions and for the Headquarters of the Armistice Control Authority are set out in Appendixes. This strength will subsequently be reduced as the situation permits and as the needs for extending control to the north require. The maximum utilization of personnel requires that no rigid schedule be prescribed at this time. Similarly, the system of alternating British and American personnel in the several headquarters and special staff divisions may have to be somewhat departed from in the interest of the rapid formation of mobile, effective, and well-rounded teams. The proportion of total American to total British personnel has been agreed upon by the two Governments. It will suffice, therefore, if in any team a fair distribution prevails between the two nationalities.

D. ORGANIZATION OF THE ARMISTICE CONTROL AUTHORITY.

27. The Armistice Control Authority will have the structure indicated in Appendix 1. There will be a Chief, assisted by a Deputy Chief. The Executive, under their direction, has general administrative supervision over all activities of the Authority, both in the staff divisions and in the field. Directly attached to the office of the Executive is a Supervisory Section whose duty it will be to study the organization and procedures of the various elements in the system, to obtain information as to the progress of work and the efficiency of operations, and to recommend such corrective measures as may be found desirable.

28. The special staff divisions are grouped for convenience of supervision into an Administrative Section and an Economic Section, each under a Chief. The Administrative divisions will have a Chief.

25. The School and Holding Centre will be removed to the vicinity of Rome at the earliest practicable moment, in order that it may be accessible to the National Headquarters and in the most advantageous position for assembling teams to take over additional Regions as they may be cleared. The extension of the Armistice Control Authority as new areas are cleared will involve constant shifting of personnel; it will be the function of the Centre to receive this personnel as well as any additional strength which may be made available, and to organize new units.

26. The initial estimates of personnel for the several Regions and for the Headquarters of the Armistice Control Authority are set out in Appendixes. This strength will subsequently be reduced as the situation permits and as the needs for extending control to the north require. The maximum utilization of personnel requires that no rigid schedule be prescribed at this time. D. ORGANIZATION OF THE ARMISTICE CONTROL AUTHORITY.

27. The Armistice Control Authority will have the structure indicated in Appendix 1. There will be a Chief, assisted by a Deputy Chief. Directly attached to the office of the Executive is a Supervisory Section whose duty it will be to study the organization and procedures of the various elements in the system, to obtain information as to the progress of work and the efficiency of operations, and to recommend such corrective measures as may be found desirable.

28. The special staff divisions are grouped for convenience of supervision into an Administrative Section and an Economic Section, each under a Chief. The Administrative divisions will perform functions which, for present purposes, are adequately indicated by their respective names. The details of their organization and duties will depend upon the conditions imposed in the armistice.

29. It is to be anticipated that the situation which finally presents itself will have features which can not be accurately foreseen. Hence this scheme will have to be fitted to the special circumstances when the time arrives. All personnel drawn into military government work must, therefore, be prepared for hasty readjustment in plans. For example, it might become necessary to establish restricted areas subject to special military control approaching the intensity of a Military Government.
