SUBJECT:-

Expenditures for Educational
Institutions in Study.

2402/2561/23

AS 1 E.O. SECRET

FOR:-

Major Nash,
Finance Division.

15 September 47

Further to our discussion to-day, I would like to suggest that the following points of procedure will represent our joint opinions in these matters.

i. All Educational Institutions (Universities, schools, colleges and private institutions) should make their demands through one authority (even if they are not subject to it) so that we have to deal only with one office instead of many, as at present. This office should be the Provveditore agli Studi of the Province.

ii. The Provveditore must then assemble the claims and append a brief summary of the grounds upon which the claims are based and the sum required.

iii. Having done so the Provveditore will submit the claims to the Regia Tesoro who will certify their correctness before transmitting them to the Provincial Finance officer.

iv. The Provincial Finance officer will submit all extraordinary expenditure involved to the Educational Adviser.

v. The Educational Adviser will decide whether the expenditure is justified or not on purely educational grounds. If it is, he will submit it to the D.C.A.O. or G.P.O.

If you can input a directive to this effect, it will simplify our work and procedure very much.

G. J. J. J.
Educational Adviser.

Convitto Nazionale "Vittorio Emanuele II"

F-74
RUSSE/3861/ED

Lt. Boone,
S.C.A.O. PALERMO Province.

11th October 3

In answer to your letter of the 5th October 1943,
GP/JAB/ag. This institution normally depended from
Rome for its finance, but for its administration it was
under the control of the Provveditore agli Studi.

In accordance with the new procedure for making
payments they should be told to present their extra-
ordinary and ordinary financial claims to the Provveditore
agli Studi for his approval and presentation, along with
the other accounts, to the Regio Tesoro.

If the latter also agrees the claim is just, then
it can be sent on through you to this R.O. for approval
of payment, *in the case of extraordinary expenditure*

glt
Major, A.S.O.
Educational Adviser.

Subject: Consiglio Regionale "Vittorio Emanuele II"
subdy-

12

To: Military allied government - Palermo

For those determinations that this Civ. Government will think necessary, we transcribe this letter that comes from the Rector of the Consiglio Regionale "Vittorio Emanuele II" in Palermo.

"On the 8-6-1943 it affirms the Dell'Edizione Regionale, Direzione Generale Dell'Ordine Classico, with prod. n. 1546, said to the Rector and, for knowledge, to the R. Proveditor of the Di Palermo that, with precaution in course, it had been disposed, in favour of the Consiglio Regionale of Palermo, extraordinary concession of a subsidy of £30,000 just to go towards the more exigence and dependence of the war. For the state of emergency, it hasn't been possible to get that money, for the relative mandate did not reach to the R. Provincia di Palermo.

For them, having the Rector to do urgent payments as pay the dependent personnel of this Insediato, pray you to let

On the 8-6-1943 it appears that 'Educazione e Igiene',
Direzione Generale dell'Ordine Classico, with prod. n. 1546,
said to the Rector and, for Knowledge, to the R. Università
di Palermo that, with precaution in course, it had
been disposed, in favour of the Università di Palermo,
an extraordinary concession of a subsidy of £30,000 just
to go towards the more exigence and dependence of the
war. For the state of emergency, it hasn't been
possible to get that money, for the relative mandate did
not reach to the R. Università di Palermo.

For them, having the Rector to do urgent payments as part
the dependent personal of their Institute, pray you to let
the Allied Command give him that subsidy.

P A L E R M O

Oggetto: Sussidio per l'esercizio 1942-43.-

Con provvedimento in corso, è stato disposto in favore
del Convitto Nazionale di codesta città la concessione straor-
dinaria di un sussidio di L. 30.000 allo scopo di venire inbon-
tro alle maggiori esigenze in dipendenza dello stato di guerra.

In base appunto alla valutazione delle predette esigenze,
si vogliono predisporre un piano di erogazione del sussidio a sot-
toporlo all'approvazione di questo Ministero.-

Memorandum to Adviser on Fine Arts & Monument
 Adviser on Education.

The following procedure follows suggestions made by your offices to the Financial Division, for the purpose of regularizing the examination and approval of advances to Institutions which come under your jurisdictions.

Following procedure will henceforth be followed :

I. Bodies financed with State funds:

- (a) Detailed budget figures will be supplied to the appropriate Adviser by a State representative of the Body involved. If no such State Body exists, similar to the Proveditores de Studi, for a Province (Education), it will be the duty of the Advisers to constitute some responsible individual or group, for the purpose of preparing and reviewing these budgets.
- (b) These estimates will be accompanied by a one page memorandum, which will summarize the Institutions, amounts, and purposes of the advances.
- (c) These applications will then be submitted to the Ufficio Provinciale del Tesoro, which will approve or disapprove all items. In respect to ordinary expenses, it will compare previous experience with present request. As regards Extraordinary items the Ufficio Provinciale del Tesoro may employ engineers or other qualified personnel for the purpose of determining the accuracy of the estimates.
- (d) The Ufficio Provinciale del Tesoro will present these estimates to the Provincial F.O. for his inspection and consideration at a Provincial level. THE ADVISER, AT STAGE OF PARA (A) ABOVE, SHOULD ALSO SEE THAT FOR EACH INSTITUTION THERE IS ONE MASTER SHEET ATTACHED TO THE INSTITUTION'S FILE, FOR PERMANENT RECORD. THIS SUMMARY SHEET MUST CONTAIN DATES, AMOUNTS AND PURCHASES BRIEFLY, FOR ADVANCES MADE TO THE SUBJECT INSTITUTION.

Date	Purpose	Amount	Date Completed.

(e) The F.O. will forward applications for extraordinary expenses to the

(c) These applications will then be submitted to the Ufficio Provinciale del Tesoro, which will approve or disapprove all items. In respect to ordinary expenses, it will compare previous experience with present request. As regards Extraordinary items the Ufficio Provinciale del Tesoro may employ engineers or other qualified personnel for the purpose of determining the accuracy of the estimates.

(d) The Ufficio Provinciale del Tesoro will present these estimates to the Provincial F.O. for his inspection and consideration at a Provincial level. THE ADVISER, AT STAGE OF PARA (A) ABOVE, SHOULD ALSO SEE THAT FOR EACH INSTITUTION THERE IS ONE MASTER SHEET ATTACHED TO THE INSTITUTION'S FILE, FOR PARLIAMENT RECORD. THIS SUMMARY SHEET MUST CONTAIN DATES, AMOUNTS AND PURPOSES BRIEFLY, FOR ADVANCES MADE TO THE SUBJECT INSTITUTION.

Date	Purpose	Amount	Date Completed

(e) The F.O. will forward applications for extraordinary expenses to the appropriate ADVISERS at ANSOT H.Q. for comment and approval. Salaries and recurrent expenses will be approved by F.O.

(f) Ordinary expenditures will then pass back to the Provincial F.O. who will authorize advances in the customary fashion.

(g) Applications for extraordinary expenditure will pass from the Advisers to the C.F.O. If C.F.O. approves, the application will be returned to the Provincial F.O. for actual arrangement of payment.

II. Applications at Communal or Provincial level.

These will follow the procedure outlined above, except that ordinary expenditures need not be referred to higher authority, and the Provincial Treasurer will substitute for the Ufficio Provinciale del Tesoro.

A.P. CROSS.
Lt. Col.
Chief Revenue Officer.

special estimate is being submitted at the General's order (a preliminary one is included); the University, which put its estimate in to the President and I am trying to get it; and the Biblioteca Nacional. Some minor estimates are not in and several more may crop up. The attention will be given that an order on Allocation has arrived.

3. The buildings are listed under three heads, Churches, Buildings, and Educational Institutions. The estimate total, according to the current requesting figures:

	Large Item	Civil Eng.
Churches	3,330,000	3,330,000
Buildings	1,420,000	1,315,000
Archivos de Estado	120,000	
Orto Botanical	8,000	
Educational Institutions		2,420,000
Totals	4,878,000	7,565,000
General Total		12,443,000

4. Of this approximately 12,500,000, I would say that about half, say 7,000,000, would be most urgent work. However, it seems to me that we cannot decide the order of urgency and that the thing to do is to assign a sum for a certain period and let them go ahead. We have already assigned 500,000 for three months to the Experimentation of Materials. This is approximately 1/3 of what he wants. I propose that we assign 500,000 for the same period to the Civil Engineers. They shall be instructed to work in close cooperation. I propose also that where possible, to relieve them, Antislavery be urged to arrange for their own work; the University has already proposed this.

5. It is very likely, in view of the rising cost of labor and materials, that these estimates will prove low.
