Regions;

1. On page 158 of the 5th class ' sussidario', for Arithmetic, Geography, and Science, there is a short section on "Slovakia", as organized in 1939.

2. The Consul General of Czechoslovakia takes strong exception to the use of this description instead of a description of pre-war Czechoslovakia.

3. The Ministry of Public Instruction has accordingly prepared a substitute passage and the enclosed order to Provveditori to have teachers of the Fifth Class substitute the new passage for the old.

4. Will you please implement this order for your provveditori? Enough copies are enclosed for each.

AFO 32

ED/60/2.0/AG

23 April 1945

SUBJECT : Planning for Education.

TO : G-5, IV Corps ASG.
(Att: Lt.Col. WALKER).

1. This is to confirm our conversation of 17 April.
2. The Education Directives prepared for Liguria, Piemonte, and Lombardia Regions, which are identical, may be issued in IV Corps area with the following covering note signed by you:

"Education: Administrative Instructions Numbers 1 to 6, prepared for Liguria, Piemonte, and Lombardia Regions, are hereby ordered effective in all territory under the command of IV Corps".

Copies of these Directives, in English, are enclosed herewith. The Italian versions of Numbers 2 to 6 will follow.

3. You have offered to include in your town plans the educational buildings which will be posted as not to be requisitioned. With the cooperation of the Minister of Public Instruction, the enclosed list of such buildings has been prepared. Those marked with three crosses are the most crucially important to keep free; those with two crosses only a little less important. Those with one cross are to be kept free insofar as possible. We have tried to keep all three lists to as low a number as possible. In general, the more we can avoid requisitioning of schools the better. Where requisition is necessary it will be very helpful if (a) the Education Officer can be consulted so as to keep a reasonable distribution of schools free for school use, and (b) books, archives and scientific apparatus can be ordered stored in a locked room before troop occupancy.

4. A similar, but more extensive, list of libraries to be protected will follow shortly. Since troops do not tend to take libraries so often, this will not constitute a serious problem.

5. You agreed to ask permission from AFHQ to provide rations for three meals a day for the Italian civilian education specialist employed by the Regional Education Officer in each Region. The fact that we are opening the northern regions with fewer officers than have been found necessary in every preceding region makes the employment of these specialists imperative; all three men are experienced provveditori agli studi who have worked with us in central Italy. We shall be using just one in each Region. I hope that you will be able to clear this matter at once.

6. It was agreed that individual transport is essential for the education officers and the civilian education specialists. This means two cars in Liguria and three each in Piemonte and Lombardia. The work of getting schools open and functioning and finding suitable non-fascist personnel requires almost continuous travel. You pointed out that your TE did not provide for cars for specialist officers and that you hoped the Regions would be able to furnish the necessary cars. I have since talked to all three Regional Commissioners, who tell me that their TE's and especially their actual transport available, had been so cut that they saw no possibility of providing the transport which they agreed was essential. They said, further, that they had no right to requisition, but that IV Corps had his right. Your suggestion that IV Corps requisition the cars for the Education Officer seems, therefore, to be the only solution.

7. It was agreed that cultural institutions, including symphony orchestras and operas, will be handled by the Regional Education Officer in the same general manner as universities, etc., as to defascism of personnel. The REO will make the services of such organizations available to army units under conditions which will also safeguard the rights of the civilian population.

8. You stated that it was your plan to use all Regional Education Officers in the first Region occupied, the two from the other Regions assisting the officers in charge of that Region until needed in the next. If, however, Liguria should be liberated separately, the Liguria REO would, of course, go directly there. You agreed further, that these officers would not be called forward until actually needed for work in one of the Northwest Regions, since each is now actively at work on his present assignment.

9. We did not speak of the time when you would want Captain HEILMAN, who assists Captain NOE, Regional Education Officer for Piemonte, or Captain CHENSKAW, who assists Major VESCILO, REO for Lombardia Region. Will you want them from the beginning, or will you leave them in their present assignments until the REO's are on the job with IV Corps and tell you they need them?

10. May I express my warm appreciation for the interest and cooperation you showed during my visit with you in Lucca?

TO : R.E.O.'s

9A/60

1. The Minister of Public Instruction favors Regional commissions in the North to approve elementary text books for use not only now but for the school year 1945-6.

2. R.E.O.'s are authorized to appoint such commissions. They should be appointed with considerable care since their choice of books will be decisive in the kind of education received by the children.

3. Books approved for 1945-6 must be in harmony with the new program (1945-6) for elementary schools. Copies of these are being sent to you on the basis of two for each province and three extra.

4. Commissions will be guided by the following criteria:

- a. Conformity of manuscript with the 1945-6 program.
- b. Pedagogical excellence.
- c. Quality of form-type, illustrations, etc.
- d. Lowness of price.

5. When a Regional Commission has approved a book, this Headquarters will be immediately notified, the following data being sent:

- a. Class and subject (e.g., 3rd class, arithmetic, grammar, geography)
- b. Title.
- c. Author.
- d. Publisher - name and address
- e. Number of pages.
- f. Approximate number of illustrations.
- g. Color of illustrations (e.g., black and white; 2 colors, etc.)
- h. No. copies proposed for first printing.
- i. Source of paper.
- j. Price of paper.
- k. Cover price (i.e., retail sales price)
- l. Approval of R.E.O.

6. Within ten days of the receipt by the Education Subcommittee of the above information the R.E.O. will be notified if the Minister or Education Subcommittee has any objections. Should there be such objections the Minister and Education Subcommittee reserve the right to veto the approval of the Regional Commission or to file objections and suspend approval until the objections are satisfactorily met. Typesetting, etc., during this interim will be at the publisher's risk.

7. A copy of the first proofs will be immediately dispatched to this headquarters.

8. Within ten days of the receipt of proof sheets by the Education Subcommittee, the R.E.O. will be notified if there are objections on the part of either the Minister or Education Subcommittee. Should there be such objections the Minister and Education Subcommittee reserve the right to ~~suspend~~ suspend approval until objections are satisfactorily met. Work done in the interim is at the publisher's risk.

9. Five of the first copies printed and bound will be immediately dispatched to Education Subcommittee.

10. Forms for reporting according to para 5 are being sent herewith.

11. Instructions to Commissions and publishers, covering paras. 4, 6, 7, 8, and 9 are sent herewith for your convenience.

12. A limited amount of paper at 30 lire per kilo is available for shipment to you for printing 1945-C text books approved in accordance with this letter. There is also cover paper, some colored ink, and plenty of black ink. Binding thread and glue can probably be made available if not found locally. It is hoped that more paper and supplies will be coming from the United States during the summer, but prospects of arrival in the summer are not good. A survey of local paper in the North is under way, and further information regarding it will be sent as soon as available. Available local paper and supplies should be used as far as possible.

SUBJECT : Approval of Elementary
School Text Books -
1945-46.

22 May, 1945

TO : Publishers and Regional
Text Book Commissions.

1. In agreement with the Minister of Public Instruction, the Education Subcommittee has authorized Regional Education Officers to appoint commissions for the approval of text books for use in the elementary schools during the school year 1945-46 and prior thereto.

2. Regional Commissions will only approve text books which conform to the following criteria.

- a. They must be in accord with the official program for elementary schools for 1945-46.
- b. They must be based on sound pedagogical principles.
- c. The typography, illustrations, and general form must be good and suitable to the age of the children for whom they are intended.
- d. The price must be low enough to enable children to buy them readily.

3. Publishers will fill out section I of the attached form completely and submit it in triplicate to the Regional Commission with the manuscript. When the Regional Commission has approved the manuscript it will fill out section 2 of the form and submit it to the Regional Education Officer for his approval. He will return one copy to the Commission, keep one for his files, and send one to the Education Subcommittee for the Minister of Public Instruction.

4. For ten days after the receipt of this form (paragraph 3) the Minister of Public Instruction and Education Subcommittee reserve the right to veto the approval or to file objections and suspend approval until the objections are met to the satisfaction of the Minister and Education Subcommittee. Any work done on the book prior to the expiration of this period, or after objections have been filed and until they have been satisfactorily met will be at the publisher's risk.

5. Copies of the first proofs of the book will be sent to the Regional Education Officer for immediate transmittal to the Education Subcommittee.

6. For ten days after receipt of proof by the Education Subcommittee, the Minister of Public Instruction and the Education Subcommittee reserve the right to file objections and suspend approval until the objections are met to their satisfaction. Any work done on the book prior to the expiration of this period, or after objections have been filed and until they have been satisfactorily met, will be at the publisher's risk.

7. Five of the first copies of the book printed and bound will be sent immediately to the Regional Education Officer for dispatch to the Education Subcommittee.

ACCI : Editori e alle Commissioni
Regionali per i libri di testo.

1. Di comune accordo con il Ministro della Pubblica Istruzione, la Education Subcommission ha autorizzato i Regional Education Officers a nominare commissioni per l'approvazione dei libri di testo da usarsi nelle scuole elementari durante l'anno scolastico 1945-46 e prima di questa data.

2. Le Commissioni Regionali approveranno soltanto quei libri di testo che ubbidiranno ai criteri seguenti:

- a) debbono conformarsi al programma ufficiale per le scuole elementari 1945-46.
- b) debbono basarsi su solidi principi pedagogici.
- c) la stampa, le illustrazioni e il formato generale devono essere buoni ed esatti all'età dei bimbi per i quali sono intesi.
- d) il prezzo deve essere abbastanza basso da permettere ai bimbi di comprarli prontamente.

3. Gli editori ricupiranno completamente la sezione I del modulo allegato che sottoporremo in triplice copia alla Commissione Regionale con il manoscritto. Allorché la Commissione Regionale avrà approvato il manoscritto essa ricompierà la II sezione del modulo e lo sottoporrà al Regional Education Officer perché dia la sua approvazione. Egli restituirà una copia alla Commissione, ne conserverà una per il suo archivio e ne invierà una alla Education Subcommission per il Ministro della Pubblica Istruzione.

4. Per dieci giorni dopo la data in cui avremo ricevuto questo modulo (paragrafo 3) il Ministro della Pubblica Istruzione e la Education Subcommission si riserveranno il diritto di porre il veto all'approvazione e di fare obiezioni e sospendere l'approvazione sino a che le obiezioni non vengano rimosse in modo soddisfacente. ORDINANZA MINISTERIALE

SESSIONE STRAORDINARIA DI ESAMI NEGLI ISTITUTI DI ISTRUZIONE MEDIA

IL MINISTRO DELLA PUBBLICA ISTRUZIONE

Veduto il R. D. L. 16 maggio 1940, n. 417;

ORDINA:

1. — È indetta una sessione straordinaria di esami di ammissione, promozione, idoneità, licenza, maturità ed abilitazione presso gli istituti medi di ogni ordine e grado, regi, pareggiati, parificati e legalmente riconosciuti.

Gli esami consistranno nelle sole prove orali; quelli di maturità e abilitazione anche in una prova scritta d'italiano, su tema che verrà scelto dalla commissione esaminatrice in analogia alle disposizioni dell'art. 85 del Regolamento approvato con R. D. 4-5-1925, n. 653.

2. — Agli esami di cui al precedente paragrafo potranno essere ammessi soltanto:

a) coloro che, regolarmente iscritti alle sessioni ordinarie del 1941 od a successive sessioni, non abbiano potuto fruire, per una o più materie, del beneficio della duplice sessione a causa di assenza dovuta a servizio militare, o a motivi razziali, o ad altre gravi ragioni dipendenti dallo stato di guerra. Questi giovani sono dispensati dal pagamento di nuove tasse. Non saranno ammessi agli esami in parola, per riparare, i giovani che, pur avendo partecipato ad una sola sessione, abbiano rivelato nel complesso delle discipline molto gravi insufficienze;

b) coloro che per i suddetti motivi non abbiano potuto frequentare nell'anno scolastico 1943-44 la classe cui erano iscritti o per la quale avevano il necessario titolo, né prendere parte alle sessioni tenutesi nel corso del 1944.

3. — Coloro che intendono partecipare alla sessione di cui alla presente Ordinanza devono, entro il 27 gennaio 1945, farne domanda in carta legale, al Capo dell'istituto presso il quale erano iscritti per gli esami o la frequenza, giusta le lettere a) e b) del paragrafo 2.

O R D I N A :

1. — È indetta una sessione straordinaria di esami di ammissione, promozione, idoneità, licenza, maturità ed abilitazione presso gli istituti medi di ogni ordine e grado, regi, pareggiati, parificati e legalmente riconosciuti.

Gli esami consisteranno nelle sole prove orali; quelli di maturità e abilitazione anche in una prova scritta d'italiano, su tema che verrà scelto dalla commissione esaminatrice in analogia alle disposizioni dell'art. 85 del Regolamento approvato con R. D. 4-5-1925, n. 653.

2. — Agli esami di cui al precedente paragrafo potranno essere ammessi soltanto:

a) coloro che, regolarmente iscritti alle sessioni ordinarie del 1941 od a successive sessioni, non abbiano potuto fruire, per una o più materie, del beneficio della duplice sessione a causa di assenza dovuta a servizio militare, o a motivi razziali, o ad altre gravi ragioni dipendenti dallo stato di guerra. Questi giovani sono dispensati dal pagamento di nuove tasse. Non saranno ammessi agli esami in parola, per riparare, i giovani che, pur avendo partecipato ad una sola sessione, abbiano rivelato nel complesso delle discipline molto gravi insufficienze;

b) coloro che per i suddetti motivi non abbiano potuto frequentare nell'anno scolastico 1943-44 la classe cui erano iscritti o per la quale avevano il necessario titolo, né prendere parte alle sessioni tenutesi nel corso del 1944.

3. — Coloro che intendono partecipare alla sessione di cui alla presente Ordinanza devono, entro il 27 gennaio 1945, farne domanda in carta legale, al Capo dell'istituto presso il quale erano iscritti per gli esami o la frequenza, giusta le lettere a) e b) del paragrafo 2, od al Capo dell'istituto o di uno degli istituti della loro attuale residenza o della sede viciniora; e devono inoltre corredare la domanda dei documenti atti a dimostrare che sussistono nei loro riguardi le condizioni richieste per poter fruire della sessione. Il Capo d'istituto valuterà la fornita documentazione con prudente criterio, e deciderà sull'accoglimento o meno della domanda, avendo presente, nell'interesse della scuola, la necessità di precludere il beneficio della sessione ai profittatori di qualsiasi genere.

4. — È data facoltà al R. Provveditore agli studi di concentrare gli aspiranti agli esami della sessione straordinaria presso determinati istituti, se l'esiguo numero degli aspiranti stessi od altra opportuna ragione lo consiglia.

5. — Negli istituti pareggiati, perificati o legalmente riconosciuti presiederà alle operazioni d'esame — eccettuati quelli di maturità e di abilitazione nelle sedi in cui la presidenza della Commissione sia stata affidata nelle decorse sessioni ordinarie ad un docente universitario o ad un preside di prima categoria diverso dal Capo dell'istituto — un Commissario governativo, nominato dal R. Provveditore agli studi. Quest'ultimo potrà chiamare gli stessi Commissari governativi nominati per la scorsa sessione autunnale, salvo a sostituire quelli di cui si rendesse comunque necessaria od opportuna la sostituzione.

6. — Gli esami si svolgeranno entro la prima metà del prossimo mese di febbraio. La prova scritta d'italiano per la maturità e l'abilitazione avrà luogo il giorno 8 febbraio, e sarà seguita nei giorni successivi dalle prove orali.

Il diario degli esami sarà fissato dal R. Provveditore agli studi, d'intesa con i singoli capi d'istituto.

7. — In quanto non sia diversamente disposto dalla presente Ordinanza, si seguiranno in ciascuna sede, nella sessione straordinaria in oggetto, le norme e i criteri applicati nella decorsa sessione autunnale, nonchè quelli stabiliti dalla relativa Ordinanza 5 settembre 1944, anche per ciò che concerne la composizione delle commissioni esaminatrici, lo svolgimento dei loro lavori, ed i programmi sui quali verteranno le prove.

SUBJECT : Defascism

TO : HQ Abruzzi-Marche Region

- 1 In recent letters I have referred to provisions for expurgating teachers in the Provinces of Chieti and Pescara. I now enclose a copy of a letter which his local representative has sent to the High Commissioner for Defascism with regard to Aquila.
- 2 The complaint therefore seems to be pretty general. Will you please report what is going on. There is of course no authority whatever for an AEC Education Expurgation Commission to decide cases nor since RL 159 has been extended to the province is there any authority to prevent the proper authorities under that decree from functioning.
- 3 Acts purported to be done by an unauthorized Commission are of course ineffective and will not displace the jurisdiction of the proper body and the proper authorities have every right to obtain such information as may enable them to exercise their functions.
- 4 Will you please take whatever steps are necessary to put matters back on the correct rails and inform the representative of the High Commissioner and this HQ of what you do in that respect.

TRANSLATION No 451

HIGH COMMISSIONER FOR SANCTIONS AGAINST FASCISM

SUBJECT : Report of the Provincial Delegate for Aquila.

TO : AG - Rome

We forward the following report of the Provincial Delegate for the province of Aquila for such measures as are deemed necessary: -

The Provincial Delegate has been requested to go the school prov-
veditorato to confer with the Allied Regional Officer for Education.

The conference was held in the presence of the school provveditore and the members of the Commission appointed by the Allies for the Epuration of the educational branch. This High Commissioner has already been informed of the existence and functions of this Commission first by the Prefect of Aquila and then by the Provincial Delegate.

In short the said Commission, which continued to operate with the same authority and exclusive powers granted it by the Allied Command during the military control and at the time the province of Aquila passed over to the Italian Government, absolutely prohibited the Provincial Delegate to take part in the epurative epuration. It refused to allow the model form of the High Commissioner to be filled and the provveditore even refused to supply particulars requested according to the law of 27 July.

Faced with a situation which he could not overcome, the Provincial Delegate deemed it best to make no further requests, concluding that the problem should be submitted to the High Commissioner for solution. The Allied Officer's declaration was, in short, as follows: -

In spite of the province of Aquila passing over to the Italian Govt these Commissions which the Allies had previously formed and had not yet completed their work, could and should continue to operate until it is entirely carried out.

The Delegate insisted that the Italian Government's orders regarding administrative epuration were to tolerate no Allied interference and to consider, therefore, the Commission in subject as not existing. Indeed it is practically impossible to obtain rational results from the epurative process.

In short the said Commission, which continued to operate with the same authority and exclusive powers granted it by the Allied Command during the military control and at the time the province of Aquila passed over to the Italian Government, absolutely prohibited the Provincial Delegate to take part in the scholastic epuration. It refused to allow the model form of the High Commissioner to be filled and the Provveditore even refused to supply particulars requested according to the law of 27 July.

Faced with a situation which he could not overcome, the Provincial Delegate deemed it best to make no further requests, concluding that the problem should be submitted to the High Commissioner for solution. The Allied Officer's declaration was, in short, as follows:-

In spite of the province of Aquila passing over to the Italian Govt those Commission which the Allies had previously formed and had not yet completed their work, could and should continue to operate until it is entirely carried out.

The Delegate insisted that the Italian Government's orders regarding administrative epuration were to tolerate no Allied interference and to consider, therefore, the Commission in subject as not existing. Indeed it is precisely impossible to obtain rational results from the enquiries, for contrasts would almost certainly be forced. The Provincial Delegate assured that he submitted the problem to the Deputy High Commissioner and would act according to instructions. The Allied Officer declared in turn that he would submit the problem in question to his Command, but decided that the Commission would, in the meantime, continue its work as before under his direct control.

The Delegate maintained nevertheless, that all the members of the Provveditorato should fill the model form issued by the High Commissariat, and the Allied Officer who had previously refused to give the Provincial Delegate the information requested according to the law on epuration, ended in consenting to give, if needed, whatever information the Provveditorato might be requested for.

The question clearly surpasses a simple matter of interference with the Allies and becomes considerably serious when one realizes that it would upset and violate the orders issued in connection with the laws of epuration.

I therefore emphasize the necessity of giving me immediate instructions.

The Secretary General

SUBJECT : Transfers of Teachers

TO : Regional Education Officer,

*Toscana, Emilia, Lazio - Umbria,
Marche - Abruzzi, Naples.*

1. Through an error in the Ministry of Public Instruction an announcement was recently published, transferring a large number of teachers from IG Territory to IG Territory and vice versa, and within both IG and IG Territory. A later publication rescinded the announcement pending further notice. The Minister greatly regretted this mistake on the part of one of his functionaries.
2. The situation arose largely from the fact that many teachers, 'sfollati' in Rome, had applied directly to the Ministry for transfers.
3. We have had the Ministry list for each of you all cases affecting your Region. The lists are enclosed. Will you please consider these as requests from the Minister for the transfers indicated, take them up with the provveditore concerned, and give approval wherever there is no strong reason against it.
4. Please notify me as to which transfers have been approved, so that the Minister and teachers may be informed.

SUBJECT : Defascism: Hearing Committees.

TO : Regional Education Officers.

1. I have just had long conferences with the appropriate officers regarding our Hearing Commissions.

2. In Italian Government Territory, contrary to the advice I gave you at our last meeting, we shall have to dissolve forthwith the Hearing Commissions we had set up, even if they are in the midst of hearing cases. You can tell them that since it is AF policy to let the Italian Government handle everything in its own territory by its own machinery, we no longer need their services.

3. If in the future we have a Hearing Committee functioning in a province at the time we turn the province over to the Italian Government, the Committee should cease to function the hour of the transfer.

4. In the attempt to bring about uniformity of defascism procedures there is danger that our Hearing Committees in Military Government Territory may be specifically forbidden before General Order No. 35 becomes effective. I shall oppose vigorously any such action as it would be disastrous to our mission of getting schools open on a non-fascist basis. But our safety lies in getting General Order 35 implemented in each Region as soon as possible. Regional Commissioners have been given discretion as to whether or not and when to ask that this General Order be made effective in their respective Regions. I therefore advise you to urge your Regional Commissioner to request that General Order No. 35 be put into immediate effect in your Region.

SUBJECT : Abolition or Conversion of
Fascist Organizations.TO : Regional Commissioner,
all Regions
(Att: Education Officer).

1. The Associazione Fascista della Scuola is being abolished by a decree which will be effective in both Military Government and Italian Government Territory.

2. The CCNI is being continued under a commissario, but will be epurated of Fascist elements.

3. DOPOLAVORO will be continued and Fascist elements epurated. The National Commissario, Vincenzo BALDASSI has been appointed. This organization comes within the jurisdiction of the Education Subcommittee and therefore, in Military Government Territory, that of Regional Education Officers. Since the Commissario has jurisdiction in Military Government Territory, any important matters of policy will be submitted to him by REO's through the Education S/C, and vice versa. Action within general policies may be taken by REO's, but should be reported to the Commissario through the Education S/C.

4. GIL has been replaced by GI. Article XII of the revised Educational Directive No. 4 describes the general policy in regard to it. Copy is enclosed. The ruling in paragraph 3, above, regarding DOPOLAVORO applies likewise to GI.

5. The Federazione Universitaria Cattolica, being non-fascist, will continue. It is under the care of the Vatican.

6. This Subcommittee has been asked to see "that all proper and suitable steps are taken" in regard to all the above, and that "an active and effective non-fascist organization is established. Our attention is called to the fact that "as the abolition of fascist organizations is an obligation of the Italian Government, AC is, in suitable cases, in a position to insist."

7. We are reminded that the "Public Health Subcommittee has experienced Welfare Officers, and when the rebuilding of organizations concerned with the welfare of workers is under consideration their experience will be of special value."

8. Except as specially provided for in the case of ex-GIL properties, the property of abolished organizations will be dealt with in accordance with Part IV of DDL 159/44.

SUBJECT : School Supplies

1. We may be able to import this summer the most necessary school supplies - paper, pencils, pens, ink, provveditori's office supplies, etc., for the period July - December, 1944.
2. Our request should go in at the earliest possible moment.
3. Will you, therefore, please have your provveditori prepare immediately an estimate of most pressing needs, with clear specifications. Try to keep number of separate items to an absolute minimum, using larger quantities of fewer items - for example, instead of a dozen sizes and kinds of paper, try to get it down to two or three that can be adapted to various purposes, or cut locally for half-sheets, etc.
4. Warn provveditori:
 - (a) If list is not submitted by 7 June it may not be included in order.
 - (b) If list is not kept to minimum number of items it is liable to be cut and altered by persons who do not know the local situation and needs as well as the Provveditore himself.

- (c) Quantities, too, should be held to a minimum, although there is no harm in giving (1) quantity urgently desired and (2) absolutely essential minimum.
- (d) Items to be handled by bookstores and sold to children, insofar as they are essential and unavailable in the province, should be included in a separate list, fastened to the list of things for the provveditorate or to be distributed directly through provveditorate.
- (e) Estimates must be for six-month period, July to December inclusive.

5. In Italian Government territory this request is going to the provveditori direct from the Minister. It should, however, be reinforced by you, with the detail given in this letter. Provveditori in Italian Government territory may submit data through you and this Subcommittee to the Minister, or may submit data direct to the Minister, notifying us through you that they have done so. They should choose whichever means is likely to be faster.

6. In Military Government territory notification should go from you to the Provveditori and data be returned through you to this Subcommittee.
