SUBJECT : Educational Shift of Region III to ACC.

TO : Commissioner, Region III (Att. Education Officer.)

1. On or before the date of transferring Rome to the Italian Government, this subcommittee thinks of offering to the Italian Government Ministry of Education that part of Education in Naples which is reserved to the Subcommittee. There is no reason on the surface, educationally speaking, for retaining an Oasis of Authority in a 'desert' of control.

2. If this were done, would it not be advisable at the same time to make a clean sweep and render the whole of Neapolitan Education ACC? If you think well of this proposal, perhaps you would clear the matter with your Commissioner.

3. As I understand the development, the reservation of the Comune of Naples has to do almost if not quite exclusively with the Port Authority and not with ordinary civil processes.

It would be greatly appreciated if you could let us know if the preparation of a course in Basic English for Italians which was being prepared by G.S.I. (k) in the summer of 1941 was completed and published. We would like details of the publication, if it exists.

The British Council was co-operating with Mrs. Freeth of G.S.I. (k) for the preparation of this Basic English Course for Italians (which was modelled on the Basic English Course for Poles) and their representative in Cairo will probably be able to give all necessary information.

SUBJECT :- Rotolo subsidiary school
 AHC/S/22/4

TO :- Educational Officer Region III H.Q.

From :- Officer i/c Education Salerno Province

Confirming telephone conversation of yesterday enclosed is a report from the Provveditorato regarding the village school at Rotolo.

There is no State school at Rotolo but merely a subsidiary school which is allowed only up to a maximum of fourteen pupils in each of the three classes which are permitted in such schools.

This point is emphasised as my telephone conversation would have lead you to understand that the total number was fourteen.

I am informed that since the school is not open the teachers are not being paid.

It would probably be useful to state my understanding as to the manner in which such schools come into being. Apparently it is permissible for teachers such as the two mentioned in the letter to Lieut - Col. Smith to canvass the parents and obtain permission to teach their children. Having obtained such permission the teachers then apply to the π Provveditore for a Grant - in - aid and permission to open such a school.

Since Rotolo children are only three kilometers from the schools at Cava di Tirreni the Provveditorato considered the project unjustifiable on the grounds of the expense involved.

A copy of this letter together with a copy of that of the Acting Provveditore is being sent to Colonel Smith.

I am informed that since the school is not open the teachers are not being paid.

It would probably be useful to state my understanding as to the manner in which such schools come into being. Apparently it is permissible for teachers such as the two mentioned in the letter to Lieut - Col. Smith to canvass the parents and obtain permission to teach their children. Having obtained such permission the teachers then apply to the Provveditore for a grant - in - aid and permission to open such a school.

Since Rotolo children are only three kilometers from the schools at Cava di Tirreni the Provveditorato considered the project unjustifiable on the grounds of the expense involved.

A copy of this letter together with a copy of that of the Acting Provveditore is being sent to Colonel Smith.

OGGETTO : Scuola sussidiata della frazione Ruotolo di Cava dei Tirreni -

Si trasmettono, a richiesta, le seguenti notizie in merito alla Scuola sussidiata in oggetto. Con nota del 21/3/1944 il Padre Lorenzo D'Anghia, Economo Curato della frazione Ruotolo di Cava dei Tirreni, chiedeva al Ministero dell'Educazione Nazionale la riapertura della Scuola sussidiata in detta frazione. In data 6 aprile, il Ministero dell'Educazione Nazionale nel trasmettere tale nota richiese a questo R. Provveditorato il preventivo esatto per l'apertura di detta Scuola. In data 20 aprile questo Ufficio, con nota n. 383, comunicò il preventivo in L. 5000 ed aggiunse : " Si ritiene opportuno comunicare di nuovo che, per le ragioni già esposte con nota 6 Aprile n. 3804, questo R. Provveditorato non ha ritenuto opportuno autorizzare la riapertura di detta Scuola." - Con la nota del 6 aprile, alla quale si fece cenno, indipendentemente dalla pratica in esame, questo Ufficio, in considerazione della tardiva riapertura delle Scuole di Stato e delle difficoltà del funzionamento delle Scuole sussidiate, aveva scritto in precedenza al Ministero di comunicare se riteneva o meno opportuno la riapertura delle Scuole sussidiate ad anno scolastico inoltrato ed il Ministero rispose che : " in considerazione del fatto che le Scuole Governative si trovavano ad anno scolastico inoltrato, non riteneva opportuno prendere in esame la richiesta di apertura delle Scuole sussidiate, richiesta che si potrà esaminare, come di consueto, all'inizio dell'anno scolastico venturo. " Tanto premesso, si spiega il motivo per cui la Scuola sussidiata della frazione Ruotolo non è stata riaperta né ha funzionato. Si assicura poi cotesto Ufficio che tutti gl'insegnanti delle Scuole sussidiate che hanno funzionato nell'anno scolastico 1942-43 sono stati soddisfatti.-

1. I have just received a report from the Provincial Education Officer of Salerno in regard to question of why the elementary school of Rotolo had not been reopened.

2. The facts are as follows:

a) the school was not reopened by the Provveditore agli Studi because it is only a scuola Sussidiaria, which means a small subdistrict school of only three classes and the expense of operating it was found to be too great for the small number of pupils to be served.

b) The total number of pupils to be served was fourteen.

c) The school at Cava is only three kilometers away and all the pupils can attend the school there.

d) The two teachers are not di ruolo teachers and are not being paid their salaries.

e) A complete written report is being sent to this office and will be forwarded to you.

1. I am informed by local inhabitants of Rotolo, the suburb of Cava dei Tirreni, in which I live, that the local state school has not been reopened this year, notwithstanding the fact that the school is not requisitioned, and is therefore available for use, and that the two former teachers are still on the pay roll of the Ministry of Education.

2. The names of the teachers are:

PATANIA Lina
FORTE Maria

3. Until the transfer back to the Italian Government of Salerno Province on February 11th, the reopening of the Cava schools was of course a problem of AMG but in view of the circumstances, it is difficult for me to understand why this school in Rotolo was not reopened either before or after February 11th.

4. The parents of Rotolo are most anxious to have their children returned to school for reasons which should be obvious.

5. The failure of this village school to reopen of course raises the question as to what extent other schools in liberated Italy, which are available for use and for which teachers are available, have also not been reopened.

6. I should be grateful for an immediate report and correction of the Rotolo situation and you will no doubt wish to satisfy yourself that similar conditions do not exist elsewhere.

TO : Education Advisor, Education Subcommittee
Allied Control Commission

1. This office has been considerably embarrassed this past week by the requisition of the R.Istituto d'Arte by a Canadian unit at the time that the attached article appeared in the "Risorgimento".
2. This office was not informed by any military authorities that the requisitioning of this school was contemplated but was informed by the principal of the school that he had been notified that his building had already been requisitioned and that he had come to ask assistance in trying to find some space in which he could store and protect some very valuable equipment.
3. The Regional Education Officer went with the principal in order to inspect the building but was denied entrance by an armed guard.
4. The matter was then called to the attention of the Liaison officer, Allied Control Commission, who after checking into the matter, informed this office that the school was in the area allocated to the Royal Navy. We then referred the case to the Liaison officer, 4460 57 Area who reported back to us in two or three days

.../...

that there apparently was nothing which could be done to stop the requisitioning of this building since it was needed for military purposes.

5. On 30th April an Officer from 57 Area came to this office and reported that the Royal Navy had given them the same report which we had received from the Liaison Officer. He stated that it was being requisitioned for a post office and for billets for Italian seamen. We then asked for an opportunity to go to the school with an officer from the Royal Navy to see what disposition could be made of the equipment. This was promised but to date we have received no confirmation of this and we do not know what has happened to the building.

Dichiarazioni dei generali Fimmel e Wilson

Gli edifici culturali di Napoli restituiti alle loro funzioni

Il Comandante militare alleato dell'Ares metropolitana di Napoli ha annunciato ieri che si sta provvedendo per poter restituire al loro primo ufficio tutti i parchi, le scuole, i musei, i dormitori e le sedi di altri istituti necessari al benessere economico e sociale del popolo napoletano.

In una dichiarazione fatta direttamente ad un redattore del «Risorgimento», il generale comandante della zona ha espresso questo proposito delle forze alleate, ed ha aggiunto:

«E' mia ferma convinzione che la democrazia non può svolgere la sua opera con le biblioteche chiuse e le aule vuote — ha detto il generale Fimmel — ed io ne ho parlato a lungo con il Rettore Onofrio. L'esercito è particolarmente ansioso di porre in efficienza la Scuola di ingegneria, che ha già, a quanto credo, un numero di iscritti quasi eguale a quello di anteguerra. Noi speriamo che l'attrezzatura necessaria compresi i vari strumenti, si renda disponibile per il funzionamento della Scuola d'ingegneria».

I lavori diretti a restaurare la grande piazza alberata del municipio di Napoli sono già cominciati, secondo quel che ha reso noto, in connessione con la

precedente dichiarazione, il maggiore generale Arturo R. Wilson, Comandante generale della Peninsular Base Section. Entrambi questi alti ufficiali danno la loro approvazione alla campagna igienica preparata dal governo militare alleato. Il generale Wilson ha dichiarato che si opera di avere la piazza del Municipio ripulita di tutti i detriti e di tutti gli intralci, e che essa venga così riportata in breve tempo alla sua funzione di parco, di luogo di ritrovo.

SUBJECT : Derequisition

A number of buildings and rooms of the University are occupied by allied troops. It would of course solve many of the problems if all the places requisitioned could be released. And this would not seem impossible since the military personnel affected would be small and relatively very small compared to the number of University members that would profit by it.

However the University is well aware of the priority of military necessity at this time and wholeheartedly anxious to create no difficulties, however minor, in the prosecution of the war. One point only they would like to press. The MP. battalion (394) which has its HQ. at the University Entrance on Via Mazzacane blocks all approach to the tipografia of the University. This is a university controlled and operated institution which is of great value to the students. It prints a number of books for sale to students at prices which are far below the normal competitive market prices. What small profits there are go back to the students in Scholarships. In a small way the smooth functioning of the tipografia is an aid in the battle against inflation for there is a black market in books as in food.

Associated with the tipografia is a dispensa, a small outlet for the books printed in the tipografia. This is situated in the old University, the "cortile del Salvatore". This courtyard too has been partially requisitioned and here again the ideal solution would be to free it entirely. But all that the University now asks is that some form of permit be issued to bona fide University people. The only entrance to the cortile is guarded and while entrance is usually granted to those who in the opinion of the guard seem to have business there, the situation is not regularized and permission to enter is sometimes arbitrarily withheld.

The smooth operation of the tipografia and its dependent dispensa would be of great practical value to the University and would have a healthy affect on the morale. It would not call for any serious dislocation or inconvenience to our personnel.

1. Your report of 22 April received and read with much interest.
2. Will seek advice of Minister regarding one-third pay of suspended teachers.
3. Glad your status is cleared.

4. Please use meticulous care in selection of Prevveditori. Don't take or confirm a mediocre man just because he is available and non-fascist. Find the very best available man in your region, even from different province. Getting a top-notch prevveditore is the most important single thing you can do; everything else can follow from it. Take time to do that one job well. Investigate possibility of promoting chief inspector or get his advice on best person other than the incumbent. Get any other advice from prefect, leading citizens, and others, and weigh merits carefully.

Don't make a final appointment until you're sure you have the best. The selection of really good prevveditori is the place where we have consistently fallen down throughout Sicily and Italy, and we've had no end of trouble as a result. I hope that beginning with Campobasso (or possibly we did begin with Foggia) we can do a real job in finding top-notch men for the prevveditorato.

On some of the important

The job would involve a

1. An application has been received from the Rector of Naples University for permission to take over the library of the German Institute in Via Francesco Crispi.

2. The libraries of the University and the Royal Academy of Naples have been largely destroyed by the Germans and it is desired to begin rebuilding them from all available sources.

3. This application is very strongly recommended and it is hoped that permission may be forthcoming for the University to collect these books.

ALLIED CONTROL COMMISSION
Education Subcommittee

TO : The Right Hon., the Viscount Stanagate
Vice-President Economic and Administrative Section
Allied Control Commission - Salerno

FROM : Education Subcommittee

SUBJECT : Payment of special School Expenses.

DATE : 11 March 1944

REF. : ED/3.10

1. Recently we submitted to the Finance Subcommittee request of the Froebeliano Institute for rehabilitation. The Institute is in Naples province, under Region 3 AMG jurisdiction. The Finance Subcommittee stated that the Minister of Education would have to include this item in his global budget. The Minister, to whom the matter was then referred, questioned whether he had a right to make a budget for territory not under his jurisdiction. He might well have raised a further point: how could he get the necessary data and over-all picture from a region in which he had no representative and without that how could he give an intelligent judgment as to the validity of the expenditure?
2. The Regional Education Officers in each region have printed a course of study, prepared by an Italian educational commission under the supervision of this Subcommittee. The expense of printing (relatively minor) being a regional matter and not, therefore, readily payable from provincial budgets, has been assumed by the respective Regional Finance Officers. This having been done in Regions 1, 2, and 3, Region 4 reprinted the courses of study and the Region 4 Finance office approved payment. The Finance Subcommittee, however, refused payment and stated that the bills must be included in the budget of the Italian Government. The pamphlets had been ordered by Region 4 before the Finance Subcommittee's new policy was adopted, and the printing was billed to Region 4. Either the Minister of Education is forced into the payment of a bill for which he was in no way responsible, or Region 4 is in the position of having to refuse payment on a justly contracted obligation.
3. We would respectfully call your attention to the fact that the apparent policy of the Finance Subcommittee requiring the Italian Government to include in its budget and expenditures all payments made in regions under AMG, forces one of two undesirable alternatives:

- 2 -

- a) The Regional Commissioner, in territory over which he is supposedly in full command, can spend no money for Italian education, or, presumably, health, welfare, agriculture, etc., without securing the consent of the Italian Government which has no authority in the region and no means of evaluating relative merits of proposed expenditures. Or :
- b) The Italian Government is forced to include in its budget anything ordered by the Regional Commissioner, and becomes a mere mechanical defour for bills and their payment, receiving orders from a region which has no authority over it and ordering provincial treasurers, over whom it has no authority, to make payments.
4. Neither this Subcommittee nor other interested parties have had any clear cut general directive concerning the policy of the Finance Subcommittee in this matter. The policy was discovered through the above named concrete incidents. This policy seems unwise prospectively, and certainly most inconvenient when applied retro-actively.
5. Clarification is requested.

Reference your communication on the above subject dated 26 February 1944.

In accordance with arrangements worked out in cooperation with the Italian Government, this Sub-Commission exercises control over Italian governmental expenditures through an examination of the Italian Government's consolidated budget covering all governmental activities. It does not consider requests for funds to cover individual governmental activities.

The provision of funds for the repair of the Freedel Institute should be discussed with the Italian Minister of Education, who, if he approves, will arrange with the Under Secretary of State for Finance for consideration of this item with a view to its being included in the Italian Government's consolidated budget.

2. In the case of schools supported by the State, Province, or Commune, or schools which in normal times received financial assistance from any of those bodies; they may be aided. The heads of schools formerly receiving funds from the State should apply to their Prefect and Intendants de Finances, who may if they approve include the funds requested in their budget. A.M.G. does not make direct advances, but is prepared, if necessary, to see that net budget deficits are met. Heads of schools formerly receiving aid from a commune should apply to the Podesta and request that their financial needs be included in the communal budget.

Queste Scuole medie, inferiori e superiori, hanno avuto il loro fiorito sviluppo principalmente perché Sapri era allacciata a una linea di centri rurali della ferrovia Napoli-Reggio Calabria, con molti treni che dovevano la possibilità ai giovani di poter frequentare le scuole in persona.

ROYAL SCHOOL SUPERINTENDENCY OF NAPLES.

Prot. n. 1990

Naples 10 February 1944

SUBJECT : Extraordinary session of examinations
TO : Headmasters and Principals of the Royal
Secondary School of Naples and Province

An extraordinary session of examinations for admission, promotion, qualification, graduation for junior schools and graduation for senior high schools, is stated herewith.

Only the candidates who are in one of the following conditions are admitted in this session:

- a. soldiers who could not take examinations in any session of the two ones of 1943, because of being in military service.
- b. soldiers who could take examinations, without obtaining approval, in one session only of the two of 1943, because in military service.
- c. soldiers who could not terminate all the examinations after having passed some of those, because in military service.
- d. civilians who returned in Italy from abroad or from overseas on a date after 15 May 1943 and who, despite their right, could not take examinations in one or in both the two sessions of 1943, because of the present events of war.
- e. civilians who, despite the fact they were in national territory, could not take examinations in one or in both the two sessions, because of the afore-said reasons of war.

For the candidates who took examinations in one regular session only and were plucked or sent back to the other session, the extraordinary session takes the place of the Fall session. In such case, the ones, who partook only in the first session, are admitted to pass, in the extraordinary session, both the examinations for which they were sent back to the Fall session and the examinations in which they were eventually absent with justification.

4430

For the candidates who, having partaken in both the two sessions, could not pass, in the second session, always because of military reasons, all examinations will be those which were not passed.

The soldiers, who, after having partaken in the first session of 1943 in the place of a second session took ex-novo examinations in the Fall session and were plucked, can partake in the extraordinary session in the place of a second session.

The candidates, who are in one of the afore-said conditions and who intend to take examinations in the extraordinary session, must forward within 29 February current, a demand in stamped paper of Lit. 6 to the Royal Institute in which they intend to pass the examinations.

A paper, which proves the reasons for which the admission is requested, must be added to the demand.

The Headmasters must communicate the list of the examinations to be passed to all persons who are requesting for it.

The candidates, who are regularly listed in the ordinary sessions of 1943, must not pay any fees for these examinations. Furthermore, they are not requested to forward, in addition to the demand, the other requested papers in the case of they being still handed by the Institute.

The examinations will take place, from 15 March '44, according to the orders of the Ordinanze Ministeriali 15 April and 19 August 1943 and of the Circular of this office dated 5 November 1943.

4429

The Headmasters, who receive, within the prescribed date, some demands for examinations of graduation, must communicate to the Royal School Superintendent the names of the candidates, within three days from the falling of the same date.

As to the formation of the Boards of examinations (excepting those for graduation which will be nominated by this office), and the operations of examinations, the afore-said orders in force.

The Principals of the Institutes in which the examinations for graduation will take place, must communicate together with the informations of the number of the

candidates, a list of the regular and extraordinary professors (with the information of the year of extraordinary teaching) of the upper classes, in succession of seniority in service and classified for matters of teaching.

It is understood that the Italian papers have contained announcements, -regarding special examinations which are to be held starting the 15 Mar. for students who have been unable to attend the normal examinations these examinations to be open to Italian Military personnel.

Since this will affect the numbers of military personnel at present employed by the Allies, it is requested that you give full details of the scheme, in order that its full implications may be investigated.

In principle there is no objection to personnel attending the examinations, provided they can be spared from their military duties. Release however can only be for the actual examinations and not for any period of preparatory study.

SUBJECT: Obstacle in getting Schools open

REF : ED/3.10

DATE : 21 February 1944.

1. The Education Division is very glad to have this opportunity to place before you the one serious obstacle that still exists in getting schools open.
2. It took about two months from mid-September when this Division came into existence until the middle of November to get a start on school personnel, procedures, courses of study, and text-books. From that time on every facility and encouragement possible has been given toward getting schools open in all parts of Italy under our control and no action or lack of action on the part of this Division has stood in the way of opening schools. On the contrary decrees have been issued ordering schools opened and specifying exact procedures, as soon as any provincial superintendent has been appointed.
3. The one obstacle that has impeded and still impedes the opening of schools has been the unavailability of school buildings. In a number of cases this has been due to war damage whenever that damage has been repairable steps have been immediately taken to recondition the building. In many cases, however, the chief difficulty has been the occupation of the buildings by troops, or, less often, by refugees, hospitals, etc. Each Regional Director of Education has persistently worked to get troops out of buildings, using every type of appeal possible. But since A.M.G. has not had authority to order troops evacuated, we have been entirely dependent on the voluntary cooperation of army commanders. Sometimes these commanders have been cooperative; almost always they have been courteous; but in many instances they have said that any move was impossible.
4. An accurate statistical analysis of the exact number of students in school, province by province, and the number excluded because of unavailability of buildings, is very much to be desired and is being sought. The slowness of communications and the extreme difficulty of transport, have, however, made any such complete survey impossible. Requests for such statistical information have gone out to every SGAO and Provveditore, and further attempts are being made to get accurate data. In the meantime, estimates have been secured by Directors of Education in each region, and these estimates are summarized in the attached Annex 1.
5. In general it may be stated unequivocally that schools throughout occupied and liberated Italy have been opened at the earliest possible moment wherever school buildings have been available.
6. Anything which can be done by higher authority toward getting troops, and others, out of school buildings will be greatly appreciated. Each Regional Director will gladly furnish again to local commanders a list of schools so occupied; but without higher

-2-

orders local commanders cannot be expected to remove troops, hospitals, etc., from schools except as their own convenience and exigencies dictate.

7. A more complete picture of the entire educational situation, the Sub-commission's work and difficulties is contained in the complete Educational Report submitted by Lt. Col. Gayre upon his transfer last week to another theatre. Another copy of this report is attached hereto for your convenience.

I strongly recommend that the widow of the above Jewish Professor should receive the grant or pension to which she would have been entitled if her husband had not been dismissed because he was a Jew.

I should be glad if you would take this up with the finance dept.

TO : Lt. Col. NIELSON
Chief Finance Officer

Region III

1. Enclosed is a letter from Lt. Col. GAYRE, Educational Advisor for the Allied Control Commission which indicates a problem needing your advice and decision.

2. The Educational Division feels that the rebuilding of public and private schools destroyed by bombing or other acts of war is a proper charge against the Italian Government. It is believed that authorization for funds for building purposes should now be considered upon the receipt of properly prepared architectural plans and contractors' estimates.

3. I would like to discuss the problem involved in this matter at your convenience.

ALLIED CONTROL COMMISSION
Education Subcommittee

TO : RCAF, Region 3, Attention Chief Education Division
FROM : Education Subcommittee
SUBJECT : Illegal Text Books
Date : 5 February 1944.

1. It has been brought to our attention that, in violating of your decree, and possibly in ignorance thereof, local printers have printed and local bookstores placed on sale elementary school text books which have not been approved by the Allied Military Government. One such book is sent to you herewith.
2. Since other authors and publishers who, obeying your decree, have applied for approval of new manuscripts, have been refused the right to publish, the permitting of these illegal text books to be sold is exceedingly unfair to the law-abiding would be competitors.
3. The Education Division of AMG-ACC long ago decided to allow only one series of elementary text books to be published this year. This decision was based on five factors:
 - a. It was in accordance with Italian law and custom of recent years.
 - b. There were no facilities for examining and choosing among a great variety of manuscripts and proposals.
 - c. There was a serious shortage of paper and other prime materials.
 - d. Unsupervised, uncontrolled miscellaneous printing and selling of text books in various cities would lead to a chaotic educational situation.
 - e. In order to get a publisher to take the financial responsibility for issuing a large number of text books at a price approved by AMG, it has been necessary to promise exclusive rights.
4. In accordance with this decision a complete series of elementary text books has been prepared under the supervision of AMG, contracts have been agreed to with printers and publishers in Naples for the publication of these books, with agreement that no elementary school text books would be permitted to be sold or used in occupied and liberated Italy, and the new series is now in press.
5. You are therefore requested to take immediate steps:
 - a. Toward seeing that all book stores and printing establishments are made aware of your decrees regarding text books.
 - b. Toward seeing that through the Provveditore agli Studi, Inspectors and Directors all teachers are made aware that the use of unauthorized text books is in violation of our decrees and subject to punishment under military law.
 - c. That all elementary school text books (except libro dello statotexts with specified pages removed) are immediately confiscated and seized from all book stores in Naples.

1. Reference to your letter of 19 January regarding exemption from Fees.
2. I took this up with the finance officer in Region 1 and found that it was general AMG policy to leave all exemptions and partial exemptions as they were before the occupation, as any change involved complications in revenues, budgets, and taxes.
3. Accordingly, decree has been issued in all regions stating that "Fees.....shall be the same as those charged in 1942-43". TO : RGAO - Region 3 Attention Director of Education

SPECIAL ORDERS AND AUTHORIZATIONS FOR
OPENING AND FUNCTIONING OF SCHOOLS

Introduction. The following orders and authorizations have resulted from a conference of the Provveditori agli Studi of Sicily, and are considered by them necessary and desirable in order to open and conduct the schools successfully during the period of Military Government. Except where these orders and authorizations negate, replace, or supplement existing Italian laws and regulations, all existing laws and regulations of the former Italian Government continue in full force. In general it is the policy of the Allied Military Government to avoid and changes in the legal situation, the administrative organization, or the school program, except where such changes are necessary to eliminate fascism or to make schools function in the absence of a regular ministry of education of the Italian Government with jurisdiction over occupied territory in Italy.

In accordance with the above statement the following policies, authorizations, and orders are hereby issued and are immediately effective in all parts of region 3.

1. TEACHERS

a. Teachers who were "vincitori" in the "concorsi" for the title of "maestro B" in schools of the second grade, held in the spring of 1943, will, upon presentation of credentials from the Minister of Education, be given "ruolo" by the Provveditori agli Studi even though the official publication of the list of "vincitori" has not been received by the Provveditori.

b. Teachers "incaricati" employed for the school year 1943-44 will be paid for ten months, beginning December 1, 1943. Teachers employed for this school year and unable to do a full year's work because of unavailability of school buildings, will nevertheless receive ten months pay provided they have been employed by Provveditori agli Studi and teach more than half the school year.

c. The distinction between "grande sede" and "piccola sede" is suspended for the year 1943-44. Teachers may therefore be transferred from any city to any other city.

4409

- d. When a teacher claims to have been excluded from a concorso because of anti-fascist sentiment, the Provveditore agli Studi to whom such teacher applies will proceed as follows:
- (1) He will appoint a small commission to hear the claim. This commission will report its findings to the Provveditore agli Studi as soon as possible.
 - (2) The above mentioned commission reports that the teacher was in fact deprived of the opportunity to take the concorso because of not being fascist, the Provveditore agli Studi will immediately appoint a commission to hold a concorso for this teacher and if the teacher is successful in the concorso he will be considered a "vincitore" of the last National Concorso. All Provveditori agli Studi will recognize this status and these rights in making appointments and fixing salaries. A record of all such "ruoli" issued by Provveditori agli Studi must be sent promptly to the Chief of the Education Division of the Region, through the Senior Civil Affairs Officer.
- e. Widows of members of the armed forces of Italy, if they have had three or more years of successful teaching experience will continue to have the right to a "ruolo" in the subject and grade for which they are qualified. Any Provveditore agli Studi to whom such a widow applies is authorized and directed as follows:
- (1) To investigate her claim, and if the claim is found to be valid, to issue a certificate of "ruolo" to the widow;
 - (2) To recognize such certificates issued by any Provveditore agli Studi and accord teachers holding them all rights and privileges of any teacher with "ruolo".
 - (3) To notify the Chief of the Education Division of the Region, through the Senior Civil Affairs Officer, of the name, address and qualifications of each person to whom such a "ruolo" is issued.
- f. Provveditori agli Studi are authorized to assign to classes in the first year of the Scuola Magistrale Superiore, the Istituto Tecnico Superiore or the Istituto Scientifico Superiore any teacher having qualifications which would have authorized him to teach similar subjects in the fourth year of the corresponding inferior secondary schools. Such appointment will not, per se, in any way change the salary, status, or any of the rights or duties of the teachers concerned.
2. INSPECTORS AND DIRECTORS. The Provveditore agli Studi is authorized subject to the approval of the Senior Civil Affairs Officer and the Regional Chief of the Education Division, to appoint any person whom he considers to have the requisite ability and experience to fill

any vacancy as a School Director, Preside, or Inspector of secondary or elementary schools, even if that person has not passed the concorso for such a position, provided, however, such appointments shall be temporary and shall terminate when the successful candidates of the next succeeding concorso for Directors, Presidi, or Inspectors, respectively, has been announced. Such officials shall be exempt from teaching duties and shall receive compensation equivalent to that of persons initially assuming the same office. Such compensation shall continue throughout the period of employment of these temporarily appointed officials.

3. ADMINISTRATIVE ORGANIZATION. Inferior secondary schools shall be as follows:

- a. (1) Scuola Magistrale Inferiore
- (2) Istituto Tecnico Inferiore
- (3) Istituto Scientifico Inferiore
- (4) Ginnasio Inferiore
- b. Each of these four types of inferior secondary schools shall have courses of three years in accordance with laws in effect last year for the Scuola Media Unica.
- c. Certificates of graduation from any of the four types of inferior secondary school will admit any student to any type of superior secondary school.
- d. Provveditori agli Studi are authorized to permit transfer at any time from one inferior secondary school to another, regardless of type of school, with the exception of the Scuola di Avviamento Professionale.
- e. Fees for all four types of inferior secondary school (Magistrale Tecnica, Scientifica, and Ginnasio) shall be equal and shall be the same as those charged in 1942-3 for the Scuola Media Unica.
- f. Superior secondary schools shall be as follows:
 - (1) Scuola Magistrale Superiore - four years
 - (2) Istituto Tecnico Superiore - five years
 - (3) Istituto Scientifico Superiore - five years
 - (4) Ginnasio Superiore - two years, and Liceo Classico - three years

4407

g. Fees for the superior secondary schools will be the same as in 1942-43. The exemptions provided in the regulations of 1942-3 will continue to be granted.

4. PROGRAMS. Programs for 1943-4 for all elementary and secondary schools shall be those prepared by commissions of Italian Teachers and school officials authorized by the Education Division of the Allied Military Government and Published by authority of said Education Division. Provveditore agli Studi will be responsible for the execution of this order.

5. When a Provveditore agli Studi finds that in a commune there are a number of children desiring secondary education; that no secondary school exists in that commune; and that there is no adequate transportation available to enable children to attend an existing secondary school in a neighboring commune, the Provveditore is authorized to arrange with a secondary school in another commune to establish classes "distaccate" in the commune which needs them.

6. TEXT BOOKS

a. Elementary schools. Only those text books authorized by the Education Division of the Allied Military Government will be used in any public or private elementary school.

b. In all secondary schools, public and private, the text books used will be those authorized by the Allied Military Government. Lists of text books approved and condemned have already been issued by the Division of Education of the Allied Military Government. Books not included in these lists or the supplements thereto are to be treated under two categories as follows:

(1) Text books in Greek, Latin, Mathematics, Physical Sciences, and purely technical books in the applied sciences and arts may be approved by the Provveditore agli Studi, subject to the approval of the Senior Civil Affairs Officer, provided that a list of such approved books must be sent by the Provveditore agli Studi, through the Senior Civil Affairs Officer, to the Regional Chief of the Education Division with title, author, publisher and price of each.

4406

(2) The Provveditore agli Studi shall send to the regional Chief of the Education Division, through the Senior Civil Affairs Officer, a sample of each other book which he wishes to have approved for use in schools under his jurisdiction, and will use such books only after receiving, in writing, the approval of the Regional Chief of the Education Division.

c. PRICE OF TEXT BOOKS

- (1) No text books published prior to 1944 shall be sold or bought for a price in excess of seventy percent (70%) above the price indicated on the cover.
- (2) Text books published after December 31, 1943, shall not be sold or bought at a price above the retail price listed at the time of publication and printed thereon.

- d. NEW TEXT BOOKS. No text books shall be published except as authorized in writing by the Education Division of the Allied Military Government.

- (1) Nominare apposita commissione col compito di esaminare i reclami e riferire sollecitamente sulla relativa risultanza.
- (2) Nel caso in cui, della relazione della Commissione anzidetta, i risultati fondano il reclamo del ricorrente nel senso che questi sia stato effettivamente privato del suo diritto a partecipare al concorso, allora il Provveditore agli Studi competente nominerà senz'altro una Commissione affinché indetti un concorso per l'insegnante interessato, questi sia sottoposto alle prescritte prove di esame. Risultando l'aspirante favorevole al candidato, questi sarà considerato, come vincitore dell'ultimo concorso Nazionale e, come tale sarà nominato al ruolo dello stesso Provveditore agli Studi, attribuendogli lo stipendio e gli assegni di legge. Una copia della relativa deliberazione e dei ruoli composti col procedimento di cui sarà sollecitamente rimessa, da parte del R. Provveditore agli Studi interessati, attraverso la SCAO, all'ufficio competente di questo Comando Militare Allentato.

e. Le vedove di militari della Forza Armata Italiana, sempre che abbiano superato con esito favorevole almeno un triennio di prove nell'insegnamento, hanno diritto alla nomina come insegnanti di ruolo per la materia del loro insegnamento e saranno collocate nel grado loro spettante.
