Education Subcommittee

ED/AVV/cr

20 October, 1944.

SUBJECT : Foggia School Population

TO : Zone Commissioner, Naples Zone.
(Attention: Zone Education Officer).

1. Ref. your (unnumbered) of 16 October 1944, on above subject.
2. It is understood that Foggia Zone consists of Foggia and Campobasso Provinces.
3. On the basis of statistics available in this Office it is possible to give the numbers of pupils enrolled in elementary and secondary schools of all types (including private schools) for Foggia Province for 1943-4; and the corresponding number for elementary schools only, in Campobasso Province, since no secondary schools were opened during the period in that Province.
4. For the period 1942-3 the only official statistics available here are for State Secondary Schools (not private, nor elementary). The last available statistics for elementary schools are for the year 1940-1.
5. The following statistics are therefore given (see attached sheet)
 - (a) 1940-1 State elementary schools, both Provinces
 - (b) 1942-3 State secondary schools, both Provinces
 - (c) 1943-4 Elementary Schools, State and Private, both Provinces
 - (d) 1943-4 Secondary Schools, State and Private, both Provinces
 - (e) For help in comparison, numbers of State and Private Schools in each type are given.
6. In view of your urgent demand for an immediate answer, it is thought best to forward the above data, which come immediately to hand, rather than to use up time trying to find out more.
7. If the above statistics are insufficient, it is suggested that an application made direct to the Provveditori of the relevant Provinces will have the best results.
