SUBJECT : Report on Elementary School Textbooks
Naples.

TO : Provveditori agli Studi - Southern Region

1. By direction of the Education Subcommittee the following report on the status of the elementary school textbooks is forwarded for your information and guidance:

a)	(Figures as of 15 February)	To be printed	Printed to date	Distributed to date
	Sillabario	180,000	59,098	59,098
	Letture II.	120,000	8,433	8,433
	Letture III.	100,000	57,323	57,323
	Sussidiario III.	100,000	11,875	11,875
	Letture IV	80,000	22,075	22,075
	Religione IV	80,000	9,517	9,517
	Aritmetica IV	80,000	9,858	9,858
	Letture V.	60,000	36,565	36,565
	Religione V.	60,000	14,560	14,560
	Aritmetica V.	60,000	9,330	9,330
	TOTALS.....	900,000	238,635	238,635

- b) Difficulties in securing supplies of paper, ink, glue, binding thread, etc. have been met and the materials are now being withdrawn from warehouses as fast as the publishing houses can absorb them. 4853
- c) Distribution has been hampered by difficulties with transportation facilities but as rapidly as the books are printed and means are found for shipping them, they are sent out of Naples.
- d) A plan for an equitable distribution of the books based on school populations, has been carefully worked out. Each area will receive its proportionate share immediately upon publication and subject to available means of transportation.

2. Cost of the books. The sale prices for these texts are as follows:-

Sillabario	35 lire	Religione	35- lire
Lettura II.	35 "	Aritmetica IV	40- "
Lettura 3a	30 "	Lettura V.	40- "
Summ. 3a	35 "	Religione V.	35- "
Lettura IV	30 "	Aritmetica V.	40- "

Any increase whatsoever (other than legitimate taxes) is unauthorized and should be reported to this office immediately.

3. Provveditori are reminded again that according to Ministerial ruling only the books approved jointly by the Minister of Public Instruction and Allied Commission may be used in the elementary schools. Several cases have come to the attention of this office when other texts have been used. In every instance the violation has been called to the attention of the appropriate enforcement and legal authorities for corrective measures and for confiscation of the illegally published books. Diligence should be observed by all school personnel in complying with the rules established by higher authority.

4. The sympathetic understanding of the difficulties encountered in the elementary book publishing project by all Provveditori, the dissemination of the information contained in this letter among school personnel, and their continued cooperation, is as earnestly desired as it is greatly appreciated.

b. Si sono incontrate difficoltà nel procurarsi i rifornimenti
di carta, inchiostro, colla, spago per rilegare, ed i mate-
riali sono via via ritirati dai depositi a misura che le
case editrici possono utilizzarli.

c. La distribuzione è stata ostacolata da difficoltà dipenden-
ti dai mezzi di trasporto ma appena i libri sono stampati
e i mezzi per spedirli sono a disposizione, essi vengono
mandati fuori Napoli.

2. Costo dei libri - Il prezzo di vendita per i sottocorrenti testi è il seguente:

Sillabario	35,- lire	Religione IV	35,- lire
Letture II.	35,- "	Aritmetica IV	40,- "
Letture 3a	30,- "	Letture V.	40,- "
Sussidiario 3a	35,- "	Religione V	35,- "
Letture V.	30,- "	Aritmetica V	40,- "

Qualsiasi aumento (eccetto le tasse legali) è stato vietato e deve essere immediatamente segnalato a questo Ufficio.

3. Si ricorda di nuovo ai Provveditori che, secondo le direttive ministeriali possono essere usati nelle scuole elementari solo i libri approvati unitamente dal Ministero della Pubblica Istruzione e dalla Commissione Aliata.

Sono stati segnalati all'attenzione di questo Ufficio parecchi casi di uso di altri libri di testo. In ogni caso la violazione è stata richiamata all'appropriata osservanza e segnalata alle autorità legali per le dovute misure e per la confisca dei libri pubblicati illegalmente. Il personale scolastico dovrebbe essere particolarmente diligente nell'osservare le direttive stabilite dalle autorità superiori.

4. La intelligente comprensione da parte dei Provveditori delle difficoltà incontrate nel progetto di pubblicazione dei libri di testo, la diffusione delle notizie contenute in questa lettera tra il personale scolastico e la loro continua cooperazione è tanto seriamente desiderata quanto grandemente apprezzata.

SUBJECT : School Questionnaire
TO : Education Subcommittee
Hq.A.C. APO 394 U.S.A.

1. Reference recent telephone conversations on a/m subject, the undersigned officer visited the Provveditorato on 17 February and spent considerable time this date inspecting records and advising on the filling in of forms forwarded by your office.

2. All records were found to be clear and many were in graph and pictograph form. Copies of the latter are now being made to be forwarded to Hq.

3. Attention is called to the usual Italian custom of keeping records by school circles, rather than by buildings, and by classes within the circles. Reference to report of Provveditore agli Studi, Naples, filed through this office, and basis of current inquiry, under heading of Elementary, total number of classes normally - 5035 - is given with current number as 4009 and, on basis of existing records and explanations is an accurate picture of the local situation. This officer believes that Hq. questionnaire was interpreted from the Italian viewpoint and evasion of desired facts unintentional. As buildings were requested in following section, this lends support to this belief.

4. Under section pertaining to "No. of ruolo" teachers and "No. teaching", question was asked if "No. of ruolo teaching" was desired or no of persons of all categories teaching?

5. Question was raised by Hq. on number of Medie Inferiore Schools being more than 4. As this item came under Buildings, the answer is correct. Other medie inferiori are using other buildings jointly with institutions carried in other columns. Four buildings are used exclusively by these schools. The reply of the Provveditorato is understandable from this angle.

6. According to Italian law, a class may represent an academic group, not necessarily in a single building. Hence, a seeming discrepancy under secondary schools in the Avviamento group between a 59 in one section and 71 in the building section. For example, the Scuola Avviamento "Caracciolo" functions now in three different buildings.

7. A revised report through 31 January has been requested which, with notes and explanations, is expected to fulfill all requirements.

MEMORANDUM

13 October 1944

Report on Schools in Avellino
(Comune and Province)Lt. Col. H. R. SIMSON
Naples Zone Commissioner
Prefettura, Naples.

1. The undersigned officer, accompanied by an interpreter, Dr. Anna G. De Lorenzo of the Education Office, called at the Provveditorato of Avellino on 6 October 1944, to explain the desires of the Zone and Regional Commissioners for facts pertaining to the schools in their charge and to request that a form for a report be filled in and returned to this office. The report was ready as of 13 October and was picked up by an officer passing through Avellino on 11 October.
2. The Provveditore, Dr. Albano, had been transferred a few days before to Salerno. Dr. Giulio des Loges, Chief Secretary of the Provveditorato, was serving as acting Provveditore. The Minister of Public Instruction has appointed Dr. Raffaele Pontana as the new Provveditore. He had not arrived at his post nor was it known when he would reach Avellino.
3. Dr. des Loges appeared to be a man of ability and the report he has since rendered indicates he has a complete and thorough knowledge of his work and of the territory under his jurisdiction. This report was ready some days before it could be picked up by a representative of this office. As the information it contains requires close attention to facts it exhibits an administrative organization of the Provveditorato that is a tribute to the person in charge.
4. Schools will open 6 November according to established custom.

13 October 1944

- 2 -

5. Teachers are ready to function in all schools.

6. None of the new textbooks have yet arrived but it is planned to carry on the school work without them.

7. Enrollment Statistics:

b. Secondary Schools			
" " Normal no. pupils	3,000	1,000	4,000
" " 1943-44	almost all	almost all	3,500 (est.)

c. Total number of children of elementary and secondary school age in the Commune and Province of Avellino - 56,000

8. School Statistics:

(2) Occupied by troops	7	0	7
(3) Damaged - totally	1	0	1
partially	1	1	2
(4) Need ordinary repairs	0	0	0
(5) Free for school purposes	2	18	20

(1) Two schools operate in one buildings; one school operates in a five building plant; making total number of building = 14

(2) Six schools operate in three buildings; making total number of buildings = 18.

9. In only one Commune in the entire Province of Avellino at, S. Paolina, are all the school buildings taken over by troops. In this Commune are three elementary school buildings containing 4, 2 and 1 rooms, respectively, all being occupied by Italian troops. The acting Provveditore stated that it was his understanding this occupancy would continue until the end of November. It is suggested that the Commander of these troops be notified that he is expected to vacate some of the premises at once and the remainder before the end of November. The Provveditorato should be notified of this decision and asked to plan his work accordingly.

10. In one Commune, Pietradefusi, there is one elementary 5 room building totally damaged by bombs. However, there are 11 "annexes" with a total of 17 rooms, where it is believed arrangements can be made for all the children.

4845

13 October 1944

11. The Commune of Avellino presents a different picture and a problem for serious consideration. Only 10 of the elementary buildings are free for school purposes. Homeless and refugees occupy 7 other buildings entirely and 6 partially. These persons, or a large number of them should be evicted and notice to that effect will be served on the Prefect. One building has been occupied by English troops since 1943. It has been vacated but the key has not been turned over to the school authorities. A decision should be reached on this building.

12 The Secondary school situation in the Commune of Avellino is the worst school situation in the entire Province. Seven schools, with ten buildings and a total of 224 rooms, are occupied by Canadian troops. One 12 room building was completely destroyed, another partially damaged but still functionin in its 12 rooms, a third, with 2 of its 6 rooms damaged and a remaining 9 room building. This leaves a maximum of 25 rooms in 3 buildings, out of the normal 261 rooms in 14 buildings, to care for an expected 3000 students in the secondary schools of the Commune.

13. Steps will have to be taken to relieve this situation and an appeal to the Town Major is contemplated.

14. The school situation in this Province is comparatively good and, except for the conditions in the Commune of Avellino, matters are well within the control of the proper school authorities.

SUBJECT : Naples schools.

TO : Col. C.T. TEMPERLEY, Regional Commissioner.

1. The undersigned officer conferred as of this date with Prof. Francesco Scaglione, Provveditore of Naples on the current school situation.

2. The following facts were ascertained:

a. Elementary schools in the Commune of Naples = 134
Requisitioned = 127
Free = 6

b. Secondary schools in the Commune of Naples = 43
Requisitioned = 27
Free = 21

c. During the 1943-44 school year, there were approximately 100,000 children of elementary school age in the Commune of Naples. Only 25,000 could be accommodated, 75,000 being without school facilities.

d. During the 1943-44 school year, there were approximately 27,500 children of secondary school age in the Commune of Naples. Only 21,000 could be accommodated, 6,500 being without school facilities.

3. The official date for the opening of the schools, both elementary and secondary, is 6 November. This was established verbally between Provveditore Scaglione and Prof. De Russere, the Minister of Education at a recent

d. During the 1943-44 school year, there were approximately 27,500 children of secondary school age in the Commune of Naples. Only 21,000 could be accommodated, 6,500 being without school facilities.

3. The official date for the opening of the schools, both elementary and secondary, is 6 November. This was established verbally between Provveditore Scaglione and Prof. De Ruggiero, the Minister of Education at a recent meeting in Rome. This was published in the local press.

4834

This is the approximate date of the opening during normal times.

4. A complete report of damages sustained by school buildings, together with an itemized list of repairs, is being prepared in the Provveditorato. This is based on a survey made by the civil engineers of the Comune of Naples who were convened by the Provveditore for this purpose. Because of continued use of the schools by non school personnel, it is probable this report may represent minimum requirements. It will be available in approximately ten days.

5. The Provveditore is responsible for educational work only. The physical properties are under the jurisdiction of either the Comune of Naples or the Province of Naples. The Elementary schools, Magistrale Schools, Liceo Classico and Avviamento are cared for by the Comune, III, Direzione Cultura ed Assistenza, Municipio. The man in charge is Avv. Raffaele Numeroso.

Technical schools, and Liceo Scientifico are under the Province. The man in charge is Avv. Altavilla. Disinfecting and fumigation are handled for the Comune by Dr. Cresi, Officer of Hygiene.

6. A survey of the schools has been completed by the Provveditore indicating their present state of occupancy. In addition to troops, buildings are being used by refugees, as offices, by political parties and by families who moved in and took possession. Authority for ejection does not seem to be in the Provveditore's hands. These annotated lists will be in the hands of the undersigned on Monday, 2 October, and will be translated and made available for use shortly after.

7. Reports will be rendered as progress is made on the school situation.

ED/8.3/ACC

8 September 1944

SUBJECT: Education in Southern Region.

TO : Director of Education, Education Subcommittee.

1. On 28 August I reported to the Regional Commissioner of the new Southern Region, Colonel TEMPERLEY.
2. He confirmed the tentative arrangements I had made with the Regional Commissioner of Region III for the continuance of the education office. Miss De Lorenzo and a typist will continue in the office which will also be used by Italian Officials of the Ministry when needed. The Regional Commissioner will call on the Subcommittee for help when needed. He feels that a representative should call every week or ten days.
3. I obtained his approval for calling on team captains at Bari and Taranto as I had previously done at Catanzaro. The Regional Commissioner's emphasis was on "letting the Italians sweat it out". I explained defascistization plans to him.
4. While Captain BEARD took care of the textbook situation I accomplished the following:
 - a) Disposed of all correspondence.
 - b) Instructed Miss De Lorenzo in her duties.
 - c) Explained to the chairman of the Minister's Commission on textbooks the new relationships and that the Minister had given the commission authority for all of the Southern Region.
 - d) Inquired into the efficiency of Scaglione, Provveditore agli Studi for Naples province. Found a general opinion that Scaglione is incompetent. Moschetti Luigi, a vice provveditore, seems to be an able man now doing most of the work.
 - e) Checked on derequisitioning of Istituto Maria Ausiliatrice (see correspondence).
5. At Reggio Calabria I found no provveditore. Rossi had not reported, fortunately (see earlier report). The schools are still occupied by "sinistrati". The sindaco still refuses to act although a good alternative solution is available. Fourteen families occupy a building that will house 1300 students. The Consorzio Agrario is occupying a part of the provveditorato. Will write Lt. Colonel IRISH about this.
6. At Taranto I found Lt. Colonel TURNER-COLES in charge of a team for that province. I reviewed the Taranto situation with him. At his request I asked the Provveditore agli Studi to make a survey of school accommodations including optional accommodations in private buildings and report the matter to A.C.C. The Provveditore agli Studi

4832

will solicit Allied Control Commission's aid in the matter of transportation for the Provveditore.

7. At Bari I found Lt. Colonel ORPWOOD in charge of Potenza, Matera, Bari, Brindisi and Lecce provinces. I explained our policies to him and reviewed educational problems that he would encounter. He gave me permission to bring Region II files to Headquarters. All correspondence was cared for. The matter of publications was investigated. La Terza wished to publish an English grammar. I believe I secured paper for him. There are no publishers in secondary textbooks in the area. Lt. Colonel ORPWOOD will try to secure paper for properly approved university manuscripts.

SUBJECT : Education in Calabria.TO : Lt. Col. Irish.1. Provveditori.

(a) Costanzo, a priest, is now Provveditore agli Studi at Catanzaro. He also goes to Cosenza and supervises the Provveditorato there. He feels that one province provides more work than one man can do. He seems energetic and alert. I am no judge of his policies because of lack of contact. He promises to spend a week at Cosenza to help the new man get started.

(b) The Minister of Public Instruction has appointed provisionally Prof. Luigi Rivara as Provveditore agli Studi of Cosenza. The new man has not arrived. I know nothing about him except that the Minister says he has good references.

(c) Reggio Calabria has been without a Provveditore agli Studi. The Minister transferred Prof. Lelio Rossi from Brindisi. Unfortunately, this author of a corrupt text-books is not acceptable to us. Representations have been made to the Minister. I shall renew them.

2. Since the Provveditore agli Studi is a high ranking royal officer may I suggest that when you visit provincial governments that you visit this official. He is quite independent of the Prefect.

3. Your help will be needed at Cosenza in securing alternative locations for school buildings. I have investigated the situation and after taking it up with the Minister will report further.

4. At Catanzaro, I am informed that the chief problem of the schools is buildings. I have talked with the Sindaco and find that the Italian military will vacate the Convitto Galluppi. The Sindaco will ask the commander to leave it in good condition. In other school buildings are found "sinistrati", "profughi" and "squatters", for which latter there is no Italian ward. Some "sinistrati" have been moved. Others will be moved. The refugees will probably leave soon. My recommendation is that you keep pressure on the Prefect and Sindaco to patch up other buildings for the sinistrati.

5. At Reggio, sinistrati still occupy school buildings but I do not know the current status. Will you please talk to the Prefect and Provveditore about this situation.

At Crotone buildings are still used for non educational purposes.

(6) Regio Calabria
The Minister transferred Prof. Lelio Rossi from Brindisi. Unfortunately, this author of a corrupt text-books is not acceptable to us. Representations have been made to the Minister. I shall renew them.

6. At Crotone buildings are still used for non educational purposes. I shall ask the Provveditore of Catanzaro to report to you on this situation.

7. Educational Publications are to be handled differently in this area. I have gone over the applications of the local publisher and cared for them. Further applications should be referred to the Italian side or to me at regional headquarters.

8. Should new persons be discovered who should be thrown out of the schools I suggest that you forward the names to me.

9. With your permission I am taking the files of the R.E.O. of Region VII to H.Q. Education Sub-Commission.

10. It is reported that schools will open about 1 November.
