"An interesting and constructive report on which Capt. Wagstaff is to be congratulated.

You should send a copy to the Minister of Public Instruction as containing some valuable suggestions for the future which the Minister might care to discuss with you."

1. This Headquarters has experienced considerable difficulty and has spent much time in trying to sort out the muddle which seems to be going on about the despatch of Text Books to Sardinia. (See letters of 20 June, Ed/1755; 15 July, Ed/1753; and 17 July, Ed/1755.)

2. This Headquarters suggests that in future all boxes should be wired up and sealed. The number of books and types should be painted on each box and an invoice showing the exact number of books in the box should be used. Further, in view of the shortage of staff at this Headquarters, it is suggested that all future consignments of books should be routed direct to the office of the High Commissioner for Sardinia (Attention of the Civil Affairs Officer) who is dealing with the distribution throughout the island.

3. The matter has been discussed with the office of the High Commissioner here who agree to the procedure suggested.

(Att: Education Officer and Provincial Commissioners).

1. Reference is made to Colonel R.G.B. SPICER's letter, ACC/1/6/Int. Copy to Region VI for information.
2. This Subcommittee has, of course, given no directive as touching Youth Movements in Italian Occupied Territory.
3. In Allied Territory the Subcommittee has welcomed the cooperation of any groups interested in the youth and has not discouraged either religious or political groups from organizing youth movements of their own. It cannot as a matter of fact itself favor religious or political partisanship. The question arose in Region III when the Catholic Church, which has been participating in a scout movement organized by us, decided to recover the initiative and divert the movement as rapidly as might be to religious ends. Our policy was formed in conjunction with the then Minister of Education, Signor Adolfo Omodeo: not of course to discourage such religious organization of the youth (or political) but to proceed, non-competitively, with our own efforts along lines neither political nor sectarian. The Boy Scout Movement, particularly in question, is in America and England strictly non-political and non-religious, though with high moral motives.
4. Our general policy is to welcome every movement in the interest of the youth, to collaborate with the Ministry of Public Instruction as to the complexion and direction of any movements we ourselves may sponsor, and to accept non-competitively any competition which may be sincerely offered by special groups. There is room in a field so wide and a need so urgent for all efforts dominated by good will.

TO : Education Sub-Commission

1. At the recent Region VI conference, the following points were brought out and I informed them I would represent their views to you:
2. Insofar as they understood, such Youth Movements were
 - a. Not to be religious
 - b. Not to be political
3. The feeling is that since all the boys and girls are Catholics, that the religious background must be recognized, and that it is extremely difficult to get those Youth Movements going unless they are given such religious backgrounds.
4. I did not comment, since it is not within my sphere but I pass the message for action as you deem fit, and would you let Region VI know what is to be done in regard to this matter.

SUBJECT : Programs and Directives.

20 May 1944

1. In accordance with our conversations last week I am sending herewith the Directives and programs desired by your provveditori agli studi.

2. A copy of the directives in English is enclosed for your information.

3. Directive #3 is the one referred to as Allegato A in a letter sent several weeks ago to the provveditori. It has been officially confirmed by the Minister of Education for all Italian Government territory.

4. Directives No. 2, 4, and 5 have been informally approved by the previous Minister of Education and are harmonious with the policies of the present Minister. We have not, however, felt it necessary to ask him to issue them as decrees for Italian Government Territory. They should, therefore, be considered as advisory and helpful in nature rather than strictly mandatory. Directive No. 2, however, contains the lists of approved text books and text books to be confiscated. Since this is part of the national defascistization program it is more than advisory. If any provveditore is hesitant about following the lists of text books, we shall ask the Minister to make that part of the directive mandatory. (In all territory that was under A.S.G. at one time it is already mandatory).

5. The set of directives sent from here was mimeographed for Region 4 and therefore bears Brigadier Dunlop's name and my signature. If you think this will cause confusion, I suggest you ask Brigadier Carr, who approved these originally for Region 4, to have his name and Capt. Magstaff's signature substituted.

2. Before my coming to the Region, the reorganized textbook material for grades 3, 4 and 5 had been accepted and a tentative order given for their publication to a local publishing concern. It is the desire of the local Provveditori that the publisher be permitted to proceed with the issuing of these books. It will, therefore, be necessary to order only the books for the first and second grades from Naples. We will require for our three Provinces 34000 books for grade 1 and 27800 for grade 2. Arrangements have been made to have the texts distributed through the Office of the Provveditore.

TO : Director of Education, Region 6
FROM : Education Subcommission
SUBJECT : Opening of Schools
DATE : 5 February 1944

1. This Hq. has been trying to find out whether there was any Director of Education in Region 6, and if so we could be of any help to him. Recently we heard from a recent arrival from Tizi Ouzu that you were in Sardinia. Through the courtesy of Lt. Col. Dobos we are sending you this communication.
2. In the opening of schools in Regions 1, 2, 3 and 4 we have used the enclosed instructions and decrees. The set we are sending you is that used for Region 4. Those for other Regions differed only in heading and signature, each region issuing its own sets. It is suggested that you secure the authorization of your RCAC to reissue these over his authority for Region 6.
3. Another enclosure is a statement of the division of responsibility and authority between the national and the regional divisions of education, i.e., between the Education Subcommission ACC - AMG, and the Regional Directors of Education.
4. I enclose also a copy of a report I have written for Region 4 outlining the successive steps for the Director of Education to take in opening the schools of that region. You may find this helpful in your own planning.
5. There is also enclosed a set of "Programs" or courses of study, for the elementary and lower and higher secondary schools. This set is not yet complete; there is a Part 2 of the Elementary program still to come, and a program for the Scuola Magistrale Superiore; also further mimeographed instructions for various types of technical schools. These will be sent to you as soon as they are ready. These are reprinted by each Region for all the teachers concerned with each type of program.
6. A complete series of elementary school text books is now in press. You will probably want to arrange for the distribution and sale of these in Sardinia. They are the only elementary school text books permitted for sale or use (except those specified in Appendix C, Educational Directive 2, with certain pages cut out - those are a

a stop-gap only). Will you let me know immediately whether we should arrange with the publishers in Naples to print enough of the new books for Sardinia, and arrange to ship them to you for distribution through book stores, as in other Regions?

7. It is our understanding that for the moment Region 6 is not under the direct jurisdiction of AGC - AGC, but that it will be shortly. We assume, however, that you will want from the beginning to harmonize your Regional policies with headquarters policies and those of other regions. And we are desirous of giving you all possible help.
8. Would it be possible for you to come to Naples for two or three days of conference with Lt. Col. Gayre, and the Directors of Education of Region 3 and 4? We believe such a conference would be of great value all around.
9. Best wishes to you, and cordial greetings.

Arising from the statement made at the Executive council meeting it is clear that Sardinia should be considered from now on in our work and planning.

Is there an Educational Director in Sardinia? A.M.G. never had any contact with that Administration and I do not now know what is happening there. I suggest that an Educational Director should be appointed there as in the other Region of Sicily, if he does not exist already.

It will also be necessary to investigate the situations concerning schools, texts, and the University of Sassari.
