DEREQUISITION OF SCHOOLS
MAR. 1944 - AUG. 1945

BEST COPY POSSIBLE
FILMED AS FOUND
IN COLLECTION

Subject: Requisitioning of Library Premises,
University Building; MOLFETTA.

M/19

To : Allied Commission Liaison Office,
Bari.

Reference your letter dated 17 Apr'45.

An investigation has been made as to the removal of library books from two rooms in the University Building, Molfetta.

The circumstances were such that 50 men were posted to 12 A.B.W., now 740 A.B.W., at very short notice. Consequently the Administration Officer had to use the two rooms for billeting troops. The need being urgent the rush was unavoidable in this instance.

Two days notice was given to the Authorities to clear the rooms, during which time they were not interfered with.

The matter has since been settled to the satisfaction of parties concerned and it is understood no loss or damage to the library contents was incurred.

Wherever possible adequate time is always allowed for removal.

19 February 1945

SUBJECT : Cadlolo School

REF. : R4/ED/3.4

Acting on your instructions this morning for further details of the above elementary school, I forward the information requested:

- a) Use of building. Billets and Mess for nursing personnel of 5th Canadian General Hospital.
- b) Number of nurses 73, all ladies of officer status, who need all of the 30 rooms in the building.
- c) Effect on schooling. In addition to the number attending the Church school "Braschi" mentioned in my first report, I have since learned that a small inconstant number of children attend School "Emanuele Gianturco", Via del Pantheon. In each case about 30 to 40 children are involved.

Efforts are being made by Inspector Vocca to increase this number and to find accomodation for the remainder. At present, the situation is bad, since alternative buildings are lacking close enough for the children to attend.

- d) My official business concerning these matters with Real Estate RAAC is always naturally done with either :

1. Major M.F. Lothian - Telephone : 66493
2. Captain P.A.D. Browne - " : 66574

1602

This morning I spoke with Capt. Browne who said that no proposal to turn out the nurses could be considered and that in any case the finding of alternative billets for military personnel was the responsibility of that HQ. and not of this. Further, no question of sharing the billets can be entertained. I was assured that the school will be released when the 5th Canadian General Hospital moves. I should greatly regret any attempt to coerce RAAC on this matter to the possible detriment of the present excellent relation between this office and RAAC.

see M.B.

./.

- 2 -

I have definite sympathy with the claims advanced by that HQ.

The view of this HQ elicited in the course of consultations with the R.C. is that the Allied Military in Rome have been moderate in their demands and that it rests with the Italians to find other accommodation and to keep on looking until they do.

TO : Education Sub-commission

SUBJECT : Cadlolo School.

REF. : R4/ED/2.2A

Since June 1944, the elementary school has been requisitioned by RAAC and is in use by 5th Canadian General Hospital. Some weeks ago I followed on a newspaper report that it was used by 4 or 5 nurses. This I found to be completely incorrect, since the whole edifice is in use. I spoke to Real Estate RAAC and while sympathetic to the urgent need for a school in such a bad quarter, RAAC could not entertain any idea of derequisition wholly or in part. Unfortunately, at least at times, schools are well suited to be hospitals.

This morning I ascertained that:

- a) Real Estate is still of the same opinion as before.
- b) the Comune of Rome has found the problem of alternative premises for the pupils insoluble. Most of them are not attending school, although while visiting a neighbouring Church school, I was informed that as many as possible of the Cadlolo children had been accepted there. The classes were full to capacity, the average number in a class being over 50.

This morning I impressed on Doctor Salvi, in charge of schools at the Campidoglio, the urgency of the matter and he despairingly promised to do his best, and to keep this office advised.

Scuola elementare "A. Cadole" Via Rondinella, 2
occupata dal Comando Alleato per un corpo di
Canadian Nurses.

La scuola si trova in un quartiere molto
popolare e la sua chiusura porta conseguenze
disastrose per la morale ed il costume. Sarebbe
opera veramente umanitaria trasferire le nurses
in altra sede, possibilmente più confortevole
per loro e rendere l'edificio la suo uso.

elementary school "A. Cadole" Via Rondinella, 2
occupied by the Allied Command for a group of Canadian
nurses.

The school is in a populous district, and its being
closed has disastrous consequences for morality. It would
be a truly humanitarian act to transfer the nurses to some
other seat, more comfortable for them if possible, so that
the building could again be used as a school.

22 July 1944

SUBJECT: De-requisitioning of University of CATANIA.

TO : Headquarters, Allied Armies in Italy.

1. Although a year has passed since the commencement of the Sicilian invasion, the University of CATANIA, the first Italian University to re-open under Allied auspices, is still seriously hampered in its activities by the occupancy of its premises by our troops.

2. (a) The Palazzo which normally housed the library, secretariat, Rector's offices, and the schools of law and of letters, is used by the British RMA, with the sole exceptions of the library and secretariat (the former is without chairs).

(b) The Botanical Gardens and their buildings are now in the hands of the Army Welfare Services, 56 Area. On latest inspection, the building of the Botanical Gardens much needed for scientific work, was used as a billet for twelve soldiers.

1598

3. Now that the Allied garrison in Sicily has been much reduced it is probably possible, although perhaps inconvenient, to find alternative accommodation for these two welfare organisations. While hesitating to disturb the amenities of Allied troops the resuscitation of education is a responsibility of this Commission and I therefore would ask that the University be de-requisitioned as soon as possible, in any case before 1st September so that it may be made ready for the new term.

ALLIED CONTROL COMMISSION
Education Subcommittee
APO 394

13 July 1944

TO : Acting Vice President, Administrative Section
SUBJECT : Derequisitioning of Catania University.

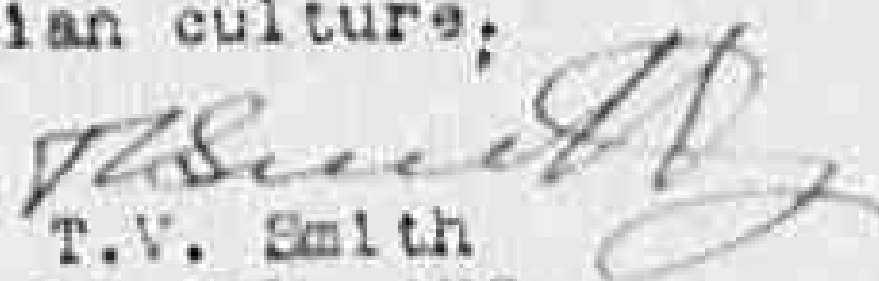

1. After a year from the Sicilian invasion, the University of Catania, the first Italian University to reopen under auspices of freedom, is still sadly hampered by the occupancy of its plant by the Allied forces.

A. The Palazzo, which normally housed the library, secretariat, Rector's offices, and the schools of law and of letters, is used by the British YMCA, with the sole exception of the secretariat and the library (which latter is without chairs).

B. The Botanical gardens and its building is now in the hands of the Army Welfare Services, 56th Area. On latest inspection the building of the Botanical gardens, much needed for scientific work, was used as a billet for twelve soldiers.

2. It is respectfully suggested that such inroads on the plant of a great cultural and scientific institution can hardly be justified at the present time.

3. Since Lt. Col. Giles and the Sicilian Education Officers, including the Director of the Subcommittee, have been united for months in seeking to effect the derequisitioning, and this without effecting it, I beg you to approach AAI with this request in the name of Italian culture;

T.V. Smith
Lt. Col. AUS
Director of Education

HEADQUARTERS
ALLIED CONTROL COMMISSION
EDUCATION SUB-COMMISSION

10 July, 1944

TO : Col. A.W. Hancock, R.C. Region I.
AOC, APO 994.

SUBJECT : Derequisitioning of Catania University.

1. While in Region I recently I visited Catania University as you know both the Minister of Public Instruction and our higher authorities are exercised about the matter.
2. I found that the Palazzo normally housed the library, Secretariat, Rector's Offices, and schools of law and letters. At present only the library and Secretariat are available and the library is without chairs. The remainder of the building is used by the Y.M.C.A. (British). The Botanical gardens and its building is in the hands of the Army Welfare Services 56 Area. When I was there 12 soldiers were using the building as a billet. However, a truck was being unloaded and I found that they proposed to set up a welfare library and lounges.
3. The situation is a disgrace to Allied Arms and should be corrected. The town has many over-lapping services and if that were not so other buildings should be used for welfare purposes. In short, my estimate is that there is no excuse for any use of the University at this stage of our occupation. Certainly all Commands should be interested in encouraging the best in the Italian Culture.
4. I reported the situation to Lt.Col. Giles of our local Command. He called Brigadier Grippe hoping to forestall the re-occupation of the Botanical gardens. The Brigadier would not act whereupon we concluded that we could only take it to District 3 or higher for solution.
5. Since it has already been referred to AOC HQ. by Region I, I am giving a copy of this to Lt.Col. T.V. Smith, Director of Education with the recommendation that he take action through liaison channels.
6. Am sorry to have missed seeing you while in Region I. You will find my written report to you in your files. I stand ready to take any action here that you indicate.

Translation

The Minister of the Royal Household

9463

Rome, 10 August 1945

Dear Admiral,

Mr. Luigi Dorenzo, owner of the 'Di Lillo' picture house and theater of Barletta, requisitioned by E.N.S.A. ever since October 1943, appealed to H.R.H. the Lieutenant General, pointing out his critical economic condition now that he can no longer exercise his activity, and asking to be allowed to resume, partly at least, his work.

Mr. Dorenzo says that his theater which holds over 2000 people is now frequented by very few soldiers because of the small numbers of those who are stationed there, so that it seems the E.N.S.A. of Bari is now having one daily show only, instead of three; so that the theater is used from 18 till 20 hours only.

Therefore, Mr. Dorenzo asks the E.N.S.A. of Bari to allow him to work on his own account from four to five days a week, Sundays included. On such days, he would pledge himself to give free entrance to all the members of the Allied forces, keeping the best seats for them.

If this couldn't be granted to him, he asks to be allowed to work for his own account, at least after 20 hours, considering that after that time, the theater remains closed, and is of no use either to the Allied troops or to the citizens.

According to the wish of His Royal Highness and considering that this man has to make a living for a family of 10 people, and that he had to give up his activity for 21 months because of the above mentioned requisition, and that he was thus deprived of all possibility of making money, I draw your kind attention on the matter for whatever action you may deem it advisable to take.

Thanking you in advance, for whatever answer you will send me, I remain, my dear Admiral,

yours sincerely,

1590

Illustre Ammiraglio,

Il Signor Luigi Doronzo, proprietario del cinema-teatro "Di Lillo" di Barletta, locale requisito dall'E.N.S.A. di Bari sin dall'ottobre 1943, si è rivolto a S.A.R. il Luogotenente Generale, facendo presente la sua critica situazione economica conseguente all'interrotta sua attività e chiedendo che gli venga concesso di riprendere, almeno in parte, il suo lavoro.

Il Signor Doronzo informa che il suo locale, capace di oltre 2000 posti, viene frequentato oggi da pochissimi militari anche a causa dello scarso numero di essi colà di stanza, tanto che in conseguenza l'E.N.S.A. di Bari avrebbe ridotto ad uno solo gli spettacoli che prima erano tre al giorno; cosicchè il locale funziona solo dalle 18 alle 20.

Pertanto il Signor Doronzo chiede che l'E.N.S.A. di Bari gli conceda di lavorare per suo conto quattro o cinque giorni per settimana, compresa la domenica. In tali giorni egli si impegnerebbe di dare libero accesso a tutti gli appartenenti alle Forze Alleate, riservando loro i posti migliori.

Qualora non fosse possibile concedergli ciò, egli desidererebbe di poter lavorare per suo conto almeno dopo le ore 20, dato che dopo quell'ora il locale rimane chiuso, senza utilità nè

27 August 1945

G-5: 386.2

SUBJECT: Derequisition of Educational Facilities.

TO : Headquarters, Allied Commission. APO 394.

Reference your SP/2B/AC dated 26 May 1945.

1. Returns have now been received from American and British base sections and area headquarters on the requisition of educational facilities. From these returns, the following facts emerge:

a. The total number of schools under requisition at 1 August was 603. In 130 cases alternative accommodation was available to the local Italian education authorities. In a further 41 cases education was continued in the schools, as the buildings were only partly requisitioned. In only 15 cases was requisition stated to be unnecessary because alternative accommodation was available, and in each case steps have been taken for early derequisition.

b. It is estimated that, by 1 October, 232, or rather more than one-third of the schools, will have been derequisitioned. This should greatly improve the position for the approaching school term. It is not possible, at this stage, to estimate beyond this date, but there is no reason to suppose that the rate of derequisition will slow down in the last three months of the year. In fact, the redeployment of Allied forces in the North, should help to accelerate the process. The position in the South is not so optimistic, since Allied main base installations, base personnel ports and main airfields are in Southern areas, and early movement of these is not anticipated.

2. An AFHQ Administrative Memorandum, covering the broader aspects of derequisition, and superseding AFHQ Administrative Memorandum No. 29, is in course of preparation. This memorandum will order commanders to derequisition all educational facilities at the earliest possible date.

5th August 1943

Dear *Braham-Lewis*

I have a list of fifteen schools requisitioned wholly or in part.

Of these some are not really educational establishments at all, and I am disregarding them. Others are only occupied in part under arrangements mutually agreeable, and I am not worrying about them.

I am left with seven genuine cases. They are:

1. Scuola Luigi Michelozzi Via Acqua Bullicante
2. Scuola Alberto Claudio Via Rondinella
3. Via Varese School (R. Istituto Magistrale Alfredo Oriani)
4. Scuola Fausto Cesoni Centocelle x 7-2-2 4-8-45
5. Viale della Bella Villa (?) Centocelle
6. Scuola Elementare Tor Sapienza x 7-2-2 4-8-45
7. Elementary School in Via Appia Nuova (51 Rest Camp) x

Of these I give you a positive assurance that No. 6 shall be released by latest 31 Aug. and I believe there is a very good chance that No. 2 may be vacated even earlier.

1585

There is a chance that we may be able to free No. 7 in the not distant future. I hold out no hope for Nos 1, 3, 4 or 5, for a long period to come.

That is the position, and I cannot improve my forecast at present, but I thought you would like to know the position so that the department may make their plans.

Are there any schools other than the above in which you are interested? If so, let me know and I will enquire.

COMANDO AREA DI ROMA
COMMISSIONE ALLEATA

Oggetto- Petizione delle madri
di famiglia del rione Ponte

LE madri di famiglia del rione Ponte Regola danno incarico al Centro Rionale di Liberazione Ponte di inoltrare alla Commissione Alleata la seguente petizione corredata da 127 firme di madri del rione ove chiedono per i loro bambini lo sgombrò della Scuola "ALBERTO CADLOLO" sita in Piazza S. SALVATORE in LAURO attualmente occupata da truppe Alleate.

Codesto CENTRO DI LIBERAZIONE RIONALE NAZIONALE preoccupato della situazione dei bambini del nostro rione in vista delle prossime aperture del Scuole in considerazione che l'unica Scuola Elementare del Rione è quella sita nella suddetta Piazza S. Salvatore, pregano codesta Commissione Alleata di voler soddisfare la giusta richiesta espressa nella petizione qui allegata.

Fiduciosi della Vostra favorevole accoglienza

Vi ringraziamo.

Cordiali saluti;
Il segretario del Centro
(COARI LUIGI)

Coari Luigi

1579

Commissione allea la seguente petizione con la certezza che quanto ivi viene espresso sia veritiero e tenuto in debita considerazione.

L'aula scuola Elementare del Nione Ponte è quella delle "vinate". LIBERTO A LULO" site in Piazza S. Salvatore in Lauro attualmente occupata dalle truppe alleate americane.

I nostri bambini, nella quasi totale maggioranza, sono figli di operai per cui date le nostre condizioni di disavanzo economico trascorrono il tempo nelle strade e tutto danno della loro educazione. Questo perché essi perdono in molto tempo il loro tempo nel mantenersi a l'istruzione di questi bambini che imparano lentamente quella cattiva educazione propria delle strade.

Per salvare i nostri bambini affinché non crescano ignoranti e disonesti noi mamme abbiamo deciso di inviare a codesta Commissione alleata il nostro appello, perché sia scombrata la scuola sopra nominata garantendo ai nostri figli quella educazione necessaria per diventare degli onesti cittadini ed a noi tranquillizzarci per il loro avvenire.

Petizione che quanto abbiamo esposto sia accolta favorevolmente, le mamme del Nione Ponte ringraziamo.

31 July 1945

SUBJECT : Release of "Punziatella" College, Naples.

TO : Ministero degli Affari Esteri.

Reference your 6/2335/1071 of 27 July.

1. The Allied Commission is sympathetic with your request.
2. This is only one of a large number of such requests. We have, therefore, asked the Allied Forces Headquarters to reconsider the whole situation in regard to the occupancy of schools by Allied Forces, and the matter is being studied.
3. It is not desirable, at the present, to take up with Allied Force Headquarters the various individual schools which are brought to our attention. It is hoped that a satisfactory, or partly satisfactory solution can be found for the problem on a widespread basis.

MEMORANDUM FOR THE ALLIED COMMISSION

27 LUG 1945

1041

Subject: "Munziatella" College at Naples.

1. The Headmaster of the "Munziatella" College at Naples has submitted a report to the Ministry of Foreign Affairs pointing out the very serious difficulties in which the college now finds itself owing to the fact that the greater part of the building has been requisitioned and occupied by Allied troops.

Not only are the sleeping-quarters excessively cramped and insufficient to accomodate all the pupils, but all the cultural and material facilities of the College, such as the Library, the laboratories, etc., are being used as recreation rooms by the Palestine troops that are billeted there.

2. In view of the Allied Commission's principle of releasing the premises of the Italian schools requisitioned by the Allies in order to consent the resumption of an adequate system of the Italian youth, and in consideration of the fact that the Palestine detachment now billeted in the "Munziatella" College is about to leave, the Ministry of Foreign Affairs warmly request the Allied Commission to kindly and urgently interest the proper Authorities in granting the release of the college or, at least, the use of a larger number of rooms.

Rome, July 21st 1945

2. FOR SAPIENZA SCHOOL:-

I inspected this school and regret to inform you that the Provveditorato di Roma has misinformed you as to the present situation there. It is as follows:

a. The ground floor is used to capacity by Br. Administration Offices, cook-house and dining rooms.

b. The first floor is also used for accommodation together with a canteen and a rest room for British troops. Approximately eight rooms are boarded off for the exclusive use of the school.

c. The second floor is used to capacity for accommodation of British troops. There are no Italian P.W. or Italian soldiers using this school now. Would you bring to the notice of the Provveditorato di Roma that his information is not up to date.

With reference to the 400 children, it might be worth while to examine the Scuola Dalmazio Birago also in the same neighborhood, which was seen to be vacant on 24 July 1945.

3. SCUOLA ELEMENTARE AT CAPANNELLE &
SCUOLA FAUSTO CRECONI AT CENTOCCELLE:-

The situation as regards the desirability to release schools in time to open for the Autumn term, are well appreciated by this Command. Both the above schools are used at

152

Numerosi madri e padri della Borgata di Centocelle ci hanno fatto presente il grave stato di disagio derivante a quella popolazione dal fatto che l'edificio scolastico della borgata sia ancora attualmente occupato dagli Alleati, rendendo così impossibile il funzionamento della scuola che raccoglieva circa 1300 bambini.

La popolazione si compenetra delle necessità vostre e generali e solo nella eventualità che tutte le condizioni lo permettano, vi prega di esaminare la possibilità di consentire che per l'inizio del prossimo anno scolastico la scuola possa essere restituita al suo primitivo scopo.

Vi ringraziamo per quanto potrete fare e vi porgiamo i nostri saluti migliori

SUBJECT : Release of Schools.

16 July, 1945

TO : Real Estate Section RAAG.

1. The release of the Mamiani school is acknowledged with thanks. Italian authorities have been duly notified to take over and protect the property as the Indian hospital leaves.

2. The Provveditore of Rome asks whether it will not be possible in the very near future to release the Tor Sapienza school, in the outskirts of Rome (comune of Tor Sapienza). It is reported that the second floor is unoccupied; that the first floor is occupied by a few Italian prisoners of war and Italian soldiers, and that the ground floor is used by a very small group of British troops. Yet this occupancy is keeping 400 children on the streets. Rome is operating special summer sessions and a summer school lunch program, of both of which the 400 children of Tor Sapienza are being deprived. Your immediate attention to this matter is earnestly requested.

3. The Provveditore in Rome also requests information as to when the school at Capannelle, also in the Rome district, occupied by Allied troops, can be released.

4. I wish to express my appreciation of the courtesy with which you have always considered such requests.

CARLETON V. WASHBURN

Rapporto del

Per la

1°

Oggetto. Scuole di Tor Sapienza e Capannelle.
Derequisizione locali.

Questo Provveditorato, data la assoluta necessità che gli edifici scolastici di Tor Sapienza (occupato da un piccolo gruppo di operai italiani comandato da ufficiali e sottufficiali alleati) e di Capannelle (occupato da truppe alleate) siano restituiti alle autorità scolastiche, prega codesta on. Sottocommissione di voler comunicare quando i suddetti edifici saranno derequisiti.

La derequisizione degli edifici in oggetto si presenta necessaria e urgente perchè in dette borgate non esistono locali adatti ad uso scolastico ed è indispensabile che nel prossimo anno, le scuole tornino a funzionare, particolarmente nella borgata Tor Sapienza, priva da tre anni della scuola elementare.

ROMA

Let. N° 1717

Allegato

Registrazione del
Gen. Gen. N°

Oggetto: Scuola di Tor Sapienza
Occupazione locali.

L'Ispettore centrale fa presente che, durante un sopralluogo in località Tor Sapienza, il Direttore del 71° Circolo ha constatato che tutto il 2° piano dell'edificio scolastico è ormai sgomberato, mentre pochi soldati italiani ex prigionieri di guerra e pochissimi inglesi occupano il 1° piano ed il pianterreno. A causa di tale occupazione la borgata è sprovvista di scuola elementare e circa 400 fanciulli sono abbandonati nella strada.

Quest'Ufficio prega quindi vivamente codesto Comando affinché voglia, con cortese sollecitudine, essendo necessarie alcune notevoli riparazioni, provvedere alla restituzione del piano rimasto libero, onde permettere che, nel prossimo anno scolastico, la scuola possa funzionare.

ED/BA/4.2/AC

29 June, 1945

SUBJECT : Release of Orphanage.

TO : G-5, AFHQ.

1. An urgent request has been received for the release of the orphanage at Fano, Pesaro Province.
2. It is alleged that no requisition papers have ever been given to the Director of the Orphanage, the business manager who has continuously maintained an office there, or to the head office in Rome; and that furthermore repeated requests made for an inventory have been refused.
3. It is stated that three days after the liberation of Fano, i.e., on 2 September, 1944, the orphanage was occupied by the 14th Field Hospital, British, which remained about one month, and was followed by the 59th General Hospital (British), which remained until the first days of April, 1945. A few days later an American hospital was installed there, but did not function, and moved out the middle of May. Since then the orphanage has been left vacant, but under guard of a sentry.
4. This orphanage is maintained by a tax on all elementary school teachers of Italy for the orphans of such teachers. It is a school as well as home for these orphans. The children are now scattered among relatives who are finding it a great hardship to maintain them, and there is strong feeling that when teachers are paying for maintenance and schooling of the orphans of their colleagues in this institution, every effort should be made to free it for its original purpose, especially since no actual use is being made of it.
5. An investigation of the irregularity of the requisition and refusal to give an inventory is suggested. An immediate release of the building is requested.

92A

OGGETTO: Richiesta di rilascio dei locali del Convitto "Regina Elena" di Fano.-

Il Convitto "Regina Elena" in Fano (Pesaro) è un collegio femminile di proprietà dell'Istituto Nazionale "Margherita di Savoia" per orfani di maestri elementari, ente morale sorto nel 1908 per l'assistenza ai predetti orfani per mezzo di posti gratuiti in Convitto, di borse di studio e di sussidi.

Il Convitto di Fano, della capienza di 200 posti, accoglie gratuitamente le orfane dei maestri elementari dai 6 ai 20 anni provvedendo al loro mantenimento, alla loro educazione e alla loro istruzione in corsi regolari di scuole, affinché uscendo dal collegio esse abbiano un titolo di studio che consenta loro di crearsi una decorosa sistemazione.

I fondi dell'Istituto, con i quali è mantenuto anche il Convitto, provengono da un contributo pagato da tutti i maestri d'Italia nella misura del 0.70% sui loro stipendi; la numerosa classe dei maestri è quindi direttamente interessata al buon funzionamento dell'Istituto e di tutte le sue provvidenze a beneficio delle famiglie e degli orfani appartenenti alla loro categoria.-

o o o

Sono già due interi anni scolastici (1943-44 e 1944-45) che, a causa della guerra, il Convitto è rimasto chiuso, e le famiglie hanno dovuto ritirare presso di loro le figlie, rimanendo gravate del peso del loro mantenimento oltre che delle spese scolastiche, proprio in tempi in cui tutto ciò assume maggiore gravità per le loro esigue entrate. Molte di queste famiglie, infatti, hanno dovuto far interrompere gli studi alle loro figlie; per altre, anche il solo costo di mantenimento è divenuto, col protrarsi della permanenza a loro carico, un onere insostenibile: tutte anelano alla riapertura del Convitto.

1560

E' quindi evidente che la situazione di queste bambine, se il Convitto non si potrà riaprire neanche nel prossimo anno, sarà durissima e preoccupante anche per la loro integrità fisica, minacciata dalle privazioni.

D'altra parte, il nuovo anno scolastico ha inizio il 1° Ottobre p.v.; perchè il Convitto sia pronto ad accoglierle per tale data, è necessario che almeno due o tre mesi prima, cioè appunto in questa epoca, il locale sia restituito alla libera disponibilità dell'Istituto per i necessari lavori di ripristino.-

o o o

112

112

La cittadina di Fano è stata liberata dalle truppe alleate il 29 Agosto 1944; da allora, l'edificio del Convitto è stato continuamente occupato, prima da truppe di passaggio, poi da ospedali.

Tre giorni dopo la liberazione, e cioè il 2 Settembre 1944 l'Ospedale da campo inglese n° 14 si installava nei locali del Convitto, restandoci circa un mese; alla sua partenza, questo fu sostituito dall'Ospedale Generale inglese n° 59. L'economo del Convitto (che è rimasto sempre sul luogo, avendo la propria dimora nei dintorni di Fano) quale consegnatario responsabile, chiese al capitano amministrativo dell'Ospedale che gli venisse rilasciato un inventario dell'arredamento ~~trovato~~ nei locali, ma non ottenne altra risposta che "la responsabilità veniva assunta dal Governo Alleato".

L'Ospedale n° 59 ha lasciato i locali ai primi del mese di Aprile, dopo circa sei mesi di permanenza. Dopo pochi giorni, è sopraggiunto un Ospedale americano che vi si è installato senza però mai funzionare, perché nessun ferito né malato vi è stato accolto. E' rimasto più di un mese, fino alla metà di Maggio.

Da allora, il locale è rimasto vuoto, sempre però vigilato da sentinelle americane che non vi fanno entrate né militari inglesi né civili. Di tanto in tanto nell'edificio vengono tenuti dei trattenimenti danzanti e degli spettacoli cinematografici.

o o o

Nessuna notificazione di requisizione è mai pervenuta né al R. Commissario dell'Istituto Nazionale "Margherita di Savoia" (proprietario del Convitto) che ha sede in Roma, piazza San Pantaleo n° 3; né a me quale Rettrice del Convitto stesso, sia al mio indirizzo di Fano che a quello di Roma; e nemmeno all'economo che si trova sul luogo e più di una volta è stato interpellato dalle Autorità Militari Alleate per notizie, richieste di materiale, ecc.

Io stessa, recatami nel Febbraio u.s. a Fano, parlai col Colonnello Comandante dell'Ospedale n° 59, ma non mi venne notificato nulla né si aderì alla mia richiesta di un inventario del materiale trovato nei locali che io avevo richiesto per cercare di rendermi conto dell'entità delle numerose perdite subite, da varie fonti ed in varie forme, dell'arredamento del Convitto.

o o o

Quale Rettrice del Convitto suddetto, in nome anche del Prof. Ettore Patini, R. Commissario dell'Istituto Nazionale "Margherita di Savoia" per gli orfani dei maestri elementari e del sig. Antonio Durante, rappresentante della categoria interessata, quale Segretario generale del Sindacato nazionale dei maestri elementari (che già venne di persona a perorare questa causa), chiedo che venga presa in sollecita e benevola considerazione la

1559

richiesta di poter di nuovo disporre liberamente dei locali del Convitto, data l'estrema urgenza e la grave necessità di restituirlo alla sua funzione assistenziale e umanitaria in questo momento in cui ancor più grave e doloroso è, per le famiglie dei maestri colpite dalla sventura, la preoccupazione morale e finanziaria del mantenimento e dell'educazione delle loro bambine rimaste orfane.

SUBJECT: Schools.

3690/0.

Srl. 1347.

Idelson Officer,
Allied Commission, Bari.

With reference to this HQ letter of even reference
dated 9 June 1945, addressed to OC Troop Foggia copy to you.

Schools in Foggia occupied by Allied Forces and the
estimated time of occupation are as follows:

Riservia Scolastica NICOLA PARISI
Occupied by US Station Hospital (Billets)
Estimated occupation 3 months.

Palazzo Studi
O. in NPT Club. Duration of occupation indefinite.
This building was completely destroyed except the outer
shell, and has been rebuilt from Allied resources. The
Sindaco of Foggia state, if the Allies had not rebuilt
the school, it would not have been rebuilt by Italian
authorities for at least two years, owing to the lack
of materials.

Istituto Tecnico Industriale.
Occupied by 325 Wing and 325 Group RAF. The latter,
who are increasing in strength propose occupying the
whole building. Duration of their stay is indefinite.

The question of de-requisitioning schools is being
constantly reviewed by this HQ, but at present time, it is
regretted that schools in Bari and Foggia cannot be released.

Soggetto: Richiesta di uno studio per Corsi di Arte nell'Accademia di Belle Arti.

Al : Commissario Incaricato, Professore M. De Villard.

Il sottoscritto gradirebbe poter usufruire di uno degli studi dell'Accademia di Belle Arti, Via Ripetta. Il corso di disegno è parte del nostro programma educativo militare, per il personale militare Americano.

Lo studio sarebbe necessario due volte alla settimana: il Mercoledì ed il Sabato dalle 19 alle 20,30. Si gradirebbe se lo studio fosse fornito di sedie e cavalletti. Il resto del materiale necessario sarà fornito da questo ufficio. La durata del corso non è ancora stabilita, ma probabilmente sarà continuato per almeno tre mesi.

Il Ten.Col. Washburne ha già preso contatto con il Ministero della Pubblica Istruzione riguardo questa questione.

Il Sig. Scarpitta, civile Americano, della Sezione Monumenti ed Archivi, sta conducendo questo corso sotto gli auspici della Sezione Informazioni ed Educazione del Comando Alleato della Zona di Roma.

SUBJECT: Derequisitioning of Schools.

TO : Allied Commission Liaison Officer, Bari.

1. Reference your letter 13 June 1945, LB/11/12, Subject "Derequisitioning of Schools," only one of the school buildings listed can be released at this time.
2. Two of the schools listed in the letter of the Provveditore agli Studi addressed to your office, the Scolastico Scuola Avviamento Professionale and the Scolastico Liceo Pareggiato e Ginnasio, are in fact portions of the same building which is occupied completely by Headquarters Squadron, 304th Bomb Wing (HV). Other school buildings occupied by units whose early removal is not anticipated and for whom no other suitable locations in Cerignola exist are those of Headquarters, 304th Bombardment Wing, 4th Field Hospital, and Headquarters, 2nd Battalion, 21st Engineer Aviation Regiment.
3. One building, the Edificio Scolastico Femminile, is being derequisitioned as of 28 June 1945. In this connection, the Sindaco of Cerignola offered in exchange for this building rooms in a Casa Popolare now being used for school purposes. Although other quarters were found for the troops involved without taking up this offer, it has raised the question as to whether the Comune's objective is actually an increase in school space or merely a matter of greater convenience to local school authorities.

SUBJECT : Restoration of Italian Educational Facilities

TO : All Concerned

1. To accelerate and encourage the rehabilitation of Italy, it is desirable at this time that schools and educational buildings now occupied by the United States Armed Forces be reduced to a minimum consistent with urgent military requirements.

2. With a view to derequisitioning all possible educational facilities now occupied by Allied troops each major command in this theater will initiate a survey and make a report to this headquarters on all Italian educational facilities occupied or now under requisition within their respective commands.

3. Schools or educational facilities included in present or projected L&S plans for this theater are not to be released without the concurrence of this headquarters.

4. The reports will contain the following information and will be accomplished so as to reach this headquarters by 10 July 1945.

a. Name or description of school or educational facility occupied or now under requisition.

b. Geographical location by city and province.

c. Substitute facilities for educational establishments under a above, available in same immediate area, not now occupied by Allied troops and/or military installations.

d. Present use, justification for continued occupation and date on which present occupation can be terminated.

e. Remarks, concerning present state of repair and extent of new construction and/or repairs made at expense of United States Army.

5. Additional requisitioning or occupancy of educational establishments in this theater is not authorized without prior approval of this headquarters.

BY COMMAND OF GENERAL MCMAHON:

SUBJECT: Requisitions of Schools, Universities, etc.

TO : Headquarters, Allied Commission
APO 394.

1. Reference is made to your ED/28/AC of 26 May and 18 June respectively.

2. The general question raised in your first letter under reference was put to the Chief Administrative Officer and as a result a memorandum was directed by him on 9 June to G-4(A) and G-4(B) of which a copy was dispatched to you. A further copy is attached for ease of reference. The replies of G-4(A) and (B) are not yet to hand.

3. Concerning the specific question raised in your signal 9455 of 9 June, Major Byles of this Section spoke with Lt. Colonel Bonhain-Carter on the telephone on 18 June and informed him that ADAG (P) this Headquarters regret that they are unable to make arrangements to release the rooms in question; Lt. Colonel Bonhain-Carter was also informed that the Agricultural College, situated close by, was handed back to the University when 9 Con. Depot closed down and is stated to be well fitted with laboratories and instructional rooms which could be used by the university to meet the demands mentioned in your signal of 9 June.

SUBJECT: Requisition of Schools & Universities.

TO : G-4(A)
G-4(B)

1. In order to encourage the rehabilitation of Italy within the framework of PAN 487 it is desirable that as many schools and educational buildings as possible now occupied by Allied troops be handed back to the Italian authorities, and that the requisition of further educational buildings be reduced to the minimum consistent with urgent Allied military needs.

2. Representations have been received from Headquarters, Allied Commission that in some areas, notably MATERE and BARI, the majority of Italian educational buildings are still occupied by troops, and fears have also been expressed that further requisitioning for post hostilities educational schemes will still further embarrass the Italians in their endeavors to reconstruct their educational system.

3. With a view to handing back to the Italians all possible educational facilities now occupied by Allied troops and with a view to prevent all but essential requisition in the future, I should be grateful if you would make a review of Italian educational facilities now occupied by Allied troops. For the sake of uniformity I suggest that you do this by calling for lists of Italian educational establishments occupied by Allied troops, giving the following information.

- (a) location by Province
- (b) time occupied by Allied troops
- (c) alternative facilities for educational establishments in some areas not occupied by Allied troops
- (d) justification for continued occupation and date at which it is considered present occupation can be terminated.

4. When you have made your review I should be glad to know the results in order that I can give appropriate assurances to the Chief Commissioner, Allied Commission.

5. I think that fresh requisitions of such establishments should now be barred subject to the approval of this Headquarters and shall be glad if you will agree to issue instructions accordingly.

ED/Sy/2-2/AC

Tel. 489081-236

SUBJECT : Veterinary School,
University of Perugia.

20 June, 1945

TO : VP, CA Section.

1. Following the report from AFHQ that the Veterinary School of the University of Perugia could function in the agricultural building, conferences have been held with the Chief, Veterinary Division, Public Health Subcommittee; the Minister of Public Instruction, and the Rector of the University of Perugia. From these conferences are derived the following facts:

2. In the Agricultural building 27 rooms are requisitioned; 10 are left for the agricultural school. But these rooms are without water, gas, or electricity. Some are class rooms, others contain the botanical museum and the museum of plant pathology. Some are small laboratories for the study of plants. All are completely useless for handling large animals, making sera, etc.

3. In the Veterinary building 90 rooms are requisitioned and 11 are left to the University. Six of these are used for the making of sera for the entire region and for the Allies, but are quite inadequate for the purpose. The remaining five are used for the surgical clinic of infectious diseases, and again are inadequate.

4. Because of the Allied requisition the University has had to close completely the following vital parts of the Veterinary school:

Normal animal anatomy
General pathology
Obstetrics
Medical clinic
Pathological anatomy.

5. Much of the Veterinary building is used for soldiers' billets. It would seem that soldiers could be put under canvas. 1548

6. The moving of Veterinary laboratories is not a simple matter, such as moving billets. They are equipped with all sorts of apparatus and with hoists for lifting cattle. They must have gas, electricity and water. They must be adjacent to stables.

- 2 -

7. It is repeated that the control of the current epidemic of infectious trichomoniasis in Pieti is an urgent economic necessity. The control of communicable disease in the surrounding provinces through the annual immunization now, (the season is crucial) against swine erysipelas, swine cholera, and poultry diseases is likewise a matter of economic urgency. The Allies cannot afford, in view of the world shortage of meat and the necessity of shipping for war purposes, to allow the livestock of central Italy to die of disease in large numbers. Perugia is the only Veterinary Institute in all central and southern Italy equipped to cope with the situation.

8. The Chief, Veterinary Division, Public Health Subcommittee, has made a personal detailed investigation and reports that at least four additional rooms adjacent to the veterinary laboratory and four other rooms, preferably those at the south end of the second floor, must be made available at once if the university is to meet this emergency situation.

1. Reference is made to your ED/8N/4.2/4C of 1 June.
2. Inquiries made show that quite apart from the intended use of the Main Hall as part of the Formation College CMF steps were separately put in train on behalf of local troops for the use of the hall as a Church of England Chapel. In accordance however with the agreement made with the Italian authorities for the use of the Hall as part of the Formation College, use of the hall for 'local troops' is not being pursued.
3. The use of the Hall as part of the Formation College will normally be an assembly hall and possibly for the showing of instructional cinema films. It may be that the Formation College authorities may desire to use it intermittently for church services for students attending the college but this would only be incidental to its main use.

DRAFT
(for CC's signature)

7 June, 1945

ED/2A/1.0/AC

SUBJECT : Veterinary School, University of
Perugia.

TO : G-5, AFHQ.

1. The bulk of the very large school of Veterinary Medicine of the University of Perugia (five out of seven "institutes") is occupied by the British Army School of Education. The Rector of the University agrees to a continued occupation of most of the building.
2. As will be noted from the enclosed letter from the Chief, Veterinary Division, Public Health Subcommittee to the Director of the Education Subcommittee, eight of the many rooms occupied by the British are urgently and immediately needed by the university to impede an epidemic in Rieti province, immunize cattle in Perugia and surrounding provinces, and prevent serious economic loss.
3. The matter is urgent. Action to get immediate release of the eight rooms specified in the enclosed letter will be appreciated.

1 June 45

EU/CA/4.2/10

SUBJECT : Requisitions - Perugia University.

TO : AFHQ G-5 Section.

1 A very strong protest has been made by the Rector of Perugia University against the requisition, dated 25 May, of the Main Hall.

2 The protest, as it has reached this Commission, naturally puts the case entirely from the Italian angle and efforts to make enquiries from the local Military Authorities on the telephone have not been successful.

3 The impression given to the Commission is that the Main Hall is to be used as a chapel and is not in connection with the proposal to establish Army Educational facilities in the University.

4 While the latter seems hardly likely to be true it is felt that the protest has some justification as it is an additional demand to the understanding reached between Lt Col W.A.R. SMITH of AFHQ and Lt Col WASHBURN of the Education Sub-Commission. If it is true that this requisition is not connected with that relating to the remainder of the University, it is difficult to justify to the Rector and the Ministry of Education how an additional demand is necessary after so many troops have been in and around Perugia during the winter.

5 Would you kindly put this matter before the appropriate Commander and, if a revision is not possible, provide this Commission with information with which the protest can be answered.

HEADQUARTERS ALLIED COMMISSION

APC 392

Public Health Sub-Commission

AC/3041/73

SUBJECT: - Additional Space for Perugia Veterinary School and Laboratory.

TO : - Director, Education Sub-Commission, HQ AC.

PH/2072/34
30 May 1945

1. Reference our recent conferences with regard to the Veterinary School and Laboratory in Perugia.

2. The Dean of the above-mentioned School and Laboratory has voiced the opinion that additional space necessary for the reasonably efficient operation of the school and laboratory is as follows:

a. Four additional rooms for giving instruction in anatomy. The four rooms furthest to the south of the south wing on the top floor would be most suitable, but any four rooms would be gratefully accepted.

b. Four additional rooms adjacent to the Veterinary Laboratory for efficient operation of it.

c. Two additional rooms on the main floor for giving instruction in medicine and surgery. Again the two south rooms of the south wing are preferable.

3. On 29th May the undersigned conferred with the Deputy Director, Military Educational Organization HQs in Perugia and with him made a personal survey of present conditions at the School. In the opinion of the undersigned the additional space required immediately is that listed in para 2a and b. That listed in 2 c must also be made available not later than 15 September 1945 if the Veterinary School is to function.

4. There is an urgent need for additional space as stated at 15.32 because of two factors. One is the occurrence of infectious trichomoniasis on a very large scale in Rieti Province. To control this infection, artificial insemination is essential and at present there are no Italian veterinarians thoroughly trained along those lines. As the Veterinary School in Perugia is the only one in all of central and southern Italy, Sicily and Sardegna offering a course of instruction along these lines and as economic losses from uncontrolled trichomoniasis are very great, this school must be allowed space to operate. By allowing space for anatomical instruction clinic space for bovine artificial insemination would be made available. Second, the laboratory at this school must, if communicable disease control in Perugia and surrounding provinces is to be effected, be afforded additional space to produce vaccines and anti-sera. This is particularly important now as the time for annual wide scale immunizations against swine erysipelas, swine cholera and poultry diseases is near. At

3. On 29th May the undersigned conferred with the Deputy Director, Military Educational Organization HQs in Perugia and with him made a personal survey of present conditions at the School. In the opinion of the undersigned the additional space required immediately is that listed in para 2a and b. That listed in 2 c must also be made available not later than 15 September 1945 if the Veterinary School is to function.

4. There is an urgent need for additional space as stated above because of two factors. One is the occurrence of infectious triatomine disease on a very large scale in Rieti Province. To control this infection, artificial insemination is essential and at present there are no Italian veterinarians thoroughly trained along these lines. As the Veterinary School in Perugia is the only one in all of central and southern Italy, Sicily and Sardegna offering a course of instruction along these lines and as economic losses from uncontrolled triatomine disease are very great, this school must be allowed space to operate. By allowing space for anatomical instruction clinic space for bovine artificial insemination would be made available. Second, the laboratory at this school must, if communicable disease control in Perugia and surrounding provinces is to be effected, be afforded additional space to produce vaccines and anti-sera. This is particularly important now as the time for annual wide scale immunizations against swine erysipelas, swine cholera and poultry diseases is near. At present this laboratory is so crowded for space that equipment cannot be properly cleaned and stored.

5. It would be greatly appreciated if your office would take this problem up with the appropriate authorities at the earliest possible convenience.

MINISTERO DELLA PUBBLICA ISTRUZIONE
Direzione Generale Istruzione Tecnica

31A

Divisione IV
Prot. N.2592

Roma 18 Maggio, 1945

58A

SUBJECT : Naples - "Opera Casanova"
Premises.

TO : Allied Commission
Education Subcommittee.

The Ente Morale "Opera Casanova" of Naples, according to its own statute, approved by Royal Decree 8 January 1942, No.21, is required to provide premises for the technical industrial school "Casanova" of that town.

This Ministry is informed that the Dominican Fathers officiating in the adjoining Basilica of S. Domenico Maggiore, have asked the Allied Commission for the derequisition of the said premises, occupied at present by Allied troops, in order to establish in them an Institute of religious education.

This Administration, therefore, recalling the legal position of such premises and in order to avoid a situation contrasting with the lawful interests of the Ente Morale and of the above mentioned technical and industrial school, requests the Allied Commission to get in touch, at the moment of the derequisition, only with the legal representatives of the Opera Casanova and of the School "Casanova".

THE MINISTER.
/s/ Arancio Ruiz.

HI/28/40

26 May 1945

SUBJECT : Requisitions of schools, Universities, etc.
TO : Allied Force Headquarters, G-5 Section.

1. I feel very strongly that education is a fundamental factor in Italy's reconstruction, and that it is the duty of this Commission to emphasize this fact and so implement more fully the policy of the Combined Chiefs of Staff.

This duty can be carried out in two distinct directions. Firstly, the Commission can make the experience of other countries available to Italy and help them to rehabilitate the libraries, laboratories and technical institutions. Secondly, the Commission can assist in freeing for the Italians their own educational facilities.

2. It is on this latter point that I feel anxious. Co-operation from the military authorities in the question of requisitioned school buildings has, in many areas, been excellent. Nevertheless, many school buildings are occupied and the Commission is powerless to act when it receives appeals from the Minister of Public Instruction asking that the complete stifling of education in some centres be mitigated and that at least a portion of the educational facilities be returned to the Italians for the work of reconstruction.

In MATERA all public elementary and secondary schools are occupied by Allied Units. In BARI the majority are also occupied; and there are other centres which are only slightly more fortunate.

3. In addition to those which are already occupied, a new problem is now presented by the requirements of U.S. and British Armies for educational accommodation for troops now that hostilities have ceased.

The Director of my Education sub-Commission recently met Lt. Colonel F.A.M. Smith of AFHQ at PERUGIA in order to see whether the University there could be allowed sufficient space, in view of the British requirements, to operate next year. Colonel Smith was most co-operative, but the fact remained that the University would be at the mercy of the Allied officer in charge.

A similar situation, I believe, threatens to arise in Rome, where the U.S. Army is proposing to operate educational establishments for the troops.

4. I feel that with the cessation of hostilities, more attention must be paid to the Italian needs. The Minister of Public Instruction is fully aware of the fact that for some time large numbers of Allied troops will be in Italy and that educational buildings will be needed to house them. There is every disposition on his part to be helpful and cooperative. But the entire lack of consideration for Italian needs in some places, and the universal subordination of Italian needs to the needs and even the convenience of the Allies is seriously damaging to Italian reconstruction.
5. I would suggest that a senior Officer from AFHQ, with power to make decisions, be instructed to review the present position and future intentions regarding Educational buildings and equipment and that he be advised by an officer from the Education Sub-Commission who would work closely with the Ministry of Public Instruction. The AFHQ officer should be close enough to the commanding generals to know fully their needs so that his recommendations may be carried through by the highest authority. He should be instructed that his mission is to work not solely for the convenience of the Allied forces but for the fairest possible recognition of both Allied and Italian needs.

SUBJECT : Accommodation for School
of Agriculture.

TO : G-5, AFHQ,
(Att: Col. D.S. Jackling).

Reference G-5: 680.3 of 6 April.

1. The matter of the use of the Fondazioni per l'Istruzione Agraria di Perugia by a proposed British Army School of Agriculture in Italy, has been discussed with the Minister of Public Instruction, the Rector of the University of Perugia, and Lt. Col. W.A.R. SMITH of AFHQ, by the Education Subcommittee. The result of these conversations is as follows:

2. The agricultural work of the University of Perugia is functioning, is vitally important, and must not be interrupted.

3. The farm is, however, extensive, and can be used for demonstration and experimental purposes by a British Army School of Agriculture without seriously hampering the work of the University.

4. The student house on the farm is large enough to house both University of Perugia students and British students.

5. The taking over of the Fondazioni by the British Army School is definitely not approved. But the University will be glad to extend every possible facility to the British Army School for the joint use of the property. It is felt that the size of the property and the small number of students who will actually be on the farm at any one time will make such joint use entirely feasible and that no friction or interference need result.

217 Area
218 Sub-Area
219 Sub-Area

Attached at Appendix 'A' is a list of universities and schools which the Ministry of Public Instruction wishes to keep free from requisition in so far as is possible. The institutions are marked in order of importance, three stars denoting those which are most urgently required, two stars those slightly less urgently required, and one star those which it is highly desirable should not be requisitioned.

While the importance of this request is fully appreciated, it is the policy of this HQ to obtain the best possible accommodation for troops in the District, especially during the post-hostilities period. Where possible, accommodation will be found without using the buildings referred to in Appendix 'A'. If however it should be necessary to use any of the institutions mentioned, they will be used, the Regional Situational Officer being informed before any troops occupy the premises.

TRANSLATION NO. 719

PRESIDENCY OF THE COUNCIL OF MINISTERS

Ref. No. 25892/12781/8.1

SUBJECT: Derequisition of Naples National Boarding School (Convitto Nazionale)

TO : THE ALLIED COMMISSION
R O M E

ROME, 21 April 1945

The Ministry of Public Instruction points out the serious difficulties in connection with the Naples National Boarding School (Convitto Nazionale) which has had to close temporarily owing to the building being requisitioned by the Allied troops, causing serious damage to the interests of scholars throughout the province as well as its own.

It is to be noted that, as a result of the closing of the school in question, the many scholars formerly accommodated there will be forced to ask hospitality in the so-called private 'pensionis' if they cannot find a place in the few private boarding schools.

In these 'pensionis' the pupils are subject to speculation and, worse still, their education is liable to fall short of the required standard since no supervision whatsoever is possible. In order to prevent such a situation the Board of Direction of the above-named school is endeavouring in every way to reopen the school, so desired by the people, and has already made arrangements for repairing the building which was hit several times during the military operations. The Rector of the school, however, has informed us that the repairs cannot be begun while the still habitable part of the building is requisitioned, because the American troops, it appears, although they are about to evacuate some of the rooms, do not wish the Board of Direction to make use of the rooms or allow it to undertake repairs on the building.

In view of the importance of this College in connection with the resumption of school education and in order to comply with requests, we wish to ask your Commission to examine the possibility of having the building in question derequisitioned.

The Head of Cabinet

The Ministry of Public Instruction points out the serious difficulties in connection with the Naples National Boarding School (Convitto Nazionale) which has had to close temporarily owing to the building being requisitioned by the Allied troops, causing serious damage to the interests of scholars throughout the province as well as its own.

It is to be noted that, as a result of the closing of the school in question, the many scholars formerly accommodated there will be forced to ask hospitality in the so-called private 'pensionati' if they cannot find a place in the few private boarding schools.

In these 'pensionati' the pupils are subject to speculation and, worse still, their education is liable to fall short of the required standard since no supervision whatsoever is possible. In order to prevent such a situation the Board of Direction of the above-named school is endeavouring in every way to reopen the school, so desired by the people, and has already made arrangements for repairing the building which was hit several times during the military operations. The Rector of the school, however, has informed us that the repairs cannot be begun while the still habitable part of the building is requisitioned, because the American troops, it appears, although they are about to evacuate some of the rooms, do not wish the Board of Direction to make use of the rooms of allow it to undertake repairs on the building.

In view of the importance of this College in connection with the resumption of school education and in order to comply with requests, we wish to ask your Commission to examine the possibility of having the building in question derequisitioned.

APO 394
CIVIL AFFAIRS SECTION

ED/BA/4.2/AC

30 April, 1945

SUBJECT : Derequisition of Schools.

TO : G-5, AFHQ. HQ. No 3 District

1. The Minister of Public Instruction has asked help from the Allied Commission in regard to the derequisitioning of some of the school property in Matera.

2. He submits a report from the Provveditore agli Studi in Matera showing that the only two elementary schools in the city, comprising 52 class rooms, are requisitioned, and that all six public secondary schools, as listed below are requisitioned:

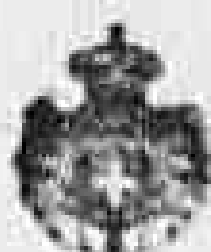

R.Liceo-Ginnasio	(Classical high school)
R.Istituto Magistrale	(Teacher training school)
R.Scuola Media	(Lower secondary school)
R.Scuola Magistrale-Scuola Materna	(Kindergarten training college)
R.Scuola Tecnica-Avviamento	(Trade school)
Cosvitto Nazionale	(Public boarding school).

3. This is a paralyzing situation from the standpoint of Italian education. Such a concentration of requisitions in the capital city of a province which has been liberated for a year and a half is hard to justify to the Italian Government and to the people of the city whose children are losing all educational opportunities.

4. Any help you can give toward having at least a part of these schools immediately released from requisition will be appreciated.

SUBJECT : Avoidance of Requisition of
Essential Buildings.TO : C.O.C., Hq. No. 2 District.
4 OF NO. 2 DISTRICT

1. The Minister of Public Instruction has prepared the attached list of Universities and other higher institutions of learning which it is especially desired to keep free from requisition insofar as possible.
2. The institutions marked with three stars are those most urgently necessary to keep free. Those with two stars are only slightly less urgent. One star indicates that it is highly desirable to keep the institutions free insofar as this can be done, but is not quite so urgent as in the case of two or three stars.
3. It will be appreciated if, wherever possible, the buildings here listed can be posted with signs indicating that they are not to be requisitioned.
4. Where requisitioning of any schools or educational buildings is necessary, it will be very helpful if the Regional Education Officer can be consulted so that a reasonable distribution of buildings can be kept free for educational purposes.
5. Whenever an educational building is requisitioned it is important that archives, museum specimens and scientific apparatus be segregated in a locked room before occupation takes place.

2 February 1945

TO : AC Education Subcommittee.
SUBJECT : Perugia University.
FILE : R4/ED/ 3.4

The following facts illustrate the case.

After the liberation of Perugia the occupying forces took over these portions of the University buildings as had been in use by the enemy. These parts were considerable and no further demands were made on the University until the scheme for Army Educational Courses arose at the Foreign University, for which student accommodation was required in the Royal University.

On October 24, 1944 I asked for some measure of protection for the small amount remaining, which was answered by 9/21. I/CA. The threat which prompted my letter came to nothing, but on December 23rd I sent you a letter stating that a new demand had been made.

That demand also failed to materialise.

Finally on Wed. January 31st., the Provincial Commissioner of Perugia told me here personally of the new demand for the rest of the University buildings. I have seen nothing in writing.

This accommodation consists of:

Palazzo Centrale (Offices, Library, etc.)

One lecture hall of the Faculty of Veterinary Science

Part of Faculty of Agraria.

Medical Clinic and Museum.

1504

./.

It will be seen that generally these are the very core of the University and justify the strongest protest possible.

The numbers of students is 7130.

There remains no alternative space elsewhere, unless some of the larger private houses in the neighbouring are available for military requisition.

I have heard from Capt. Morse Brown RAAC. that the Chief of Army Education at AFHQ will be in Rome on the 3rd. I have asked the privilege of a short informal interview with him to discuss the position at the Foreign University.

I hope this is in order, if not perhaps you would care to take the appointment, if it is granted. He would know more about the Army side of this problem.

3 February 1945

This office spoke with Capt. Falk, Administrative Officer, Perugia this morning and he stated that the demands of the Army School of Education had been diminished to 8 rooms. The Prefect of Perugia had investigated and reported that these 8 rooms were damaged and unused. After consulting the University, he informed the Military Authorities that there was no objection to the requisition of these rooms.

As all parties in Perugia appear to be satisfied there seems no point in my letter going forward. The disturbance is much regretted, but it appears not to be without effect, since the last demand was so much smaller than the original.

Subject : Troia School

TO : A.O. Poggia Zone,
Lucera.

PA/2/3

From : 47 Town Major, Poggia.

20 Jan. 48

Further to conversation this morning 47 Town -
Major Sturgiss.

1. It is confirmed that in view of the fact that the school at Troia will be required for military occupation in the very near future, it is requested that all grain on the ground floor may be evacuated as soon as possible. It is confirmed that it was stated that this would be completed by Friday 26 Jan. 48. A visit was made to Troia and the local representative of the CONSORZIO AGRARIO has asked that authority be given for repair of the roof of the school gymnasium to make this a storehouse place. It is not likely to be required for military use at present. The Consorzio man stated that the authority of A.O. the Prefect is necessary for this and perhaps your Supplies Officer would take up this matter on his next visit to Troia.
2. It is also confirmed that it will probably be necessary to close the school for civilian teaching purposes. The Secretary of the Town was told to warn the local education authority that alternative accommodation must be found before the 26th. inst. but that it was not stated that a move should be made until further advice is given. It will then probably be necessary to move at 24 hrs. notice. Certain R.E. repair work will be commenced before the evacuation and it is essential that this should not be interfered with by the children or teachers. It is requested that this matter may also be confirmed to the local people by the Education Authority at your H.Q.

ED/CA/4.2/AC

SUBJECT : Requisition of University
of Macerata.

TO : DODAO, 15th Army Group.

1. The Minister of Public Instruction has written to this Headquarters, stating that the Rector of the University of Macerata has had to close the University, because of Allied occupation of the entire university building. He states further that the closing of the University has provoked agitation among the students. He requests that every effort be made to restore the university building to its educational use.

2. This Headquarters is fully aware of the necessity of providing shelter for troops, particularly in this weather, and is sympathetic with the Army's need for using all available buildings. Would it, however, be possible to release the administrative office and one or two class rooms so that the University of Macerata would not have to close completely? By using a class room or two continuously for a rotation of classes, a large number of students could avoid losing a year of their academic life.

3. Any personal interest you can take in this matter and any help you can render will be greatly appreciated.

By Command of the Chief Commissioner:

G.R. UPJOHN, Brig.
Vice President,
Civil Affairs Section,
Allied Commission.

Gen. 4°

OGGETTO: Occupazione locali
della R. Università di
Macerata.

Roma

Alla Commissione Allata

Sottocommissione per l'Educazione

Via Veneto 302A

S. P. C.

Al Rettore della R. Università di
MACERATA

Il Rettore della R. Università di Macerata ha infor-
mato questo Ministero di aver dovuto disporre la chiusura
dell'Ateneo a causa dell'occupazione, da parte di un Coman-
do Militare Allato, dell'intero edificio universitario.

Ha inoltre fatto presente che la chiusura dell'Uni-
versità ha provocato agitazione tra gli studenti, i quali
già si sono rivolti al Governo Militare Allato per otte-
nere un pronto ripristino della vita Universitaria.

Si prega pertanto codesta Commissione di voler inter-
porre i suoi buoni uffici affinché all'Università di Macerata
vengano al più presto restituiti i locali attualmente oc-
cupati.

ED/2A/1.0/AG

29 December 1944

SUBJECT : University of Pisa Medical Buildings.

TO : C.A. Section.

1. Following your request I telephoned Captain NOE, Regional Education Officer for Toscana, and received the following replies:
2. The Air Force officer who stated finally that the Medical Buildings of the University of Pisa could not be released from requisition was Colonel COLS.
3. The last AME officer to discuss the matter with Colonel COLS was Major MAKENSIE of Public Health.
4. The only reason given was "Military necessity".
5. Colonel WALTERS, ^{present} ~~Property~~ ^{Commissioner} for Pisa is the one who states that the available buildings south of the river would be suitable for the purposes for which the Medical Buildings were requisitioned.
6. Captain NOE feels that in view of the present tenseness of the military situation north of Pisa it is inadvisable to take any further steps or undertake any conversations for the moment. He recommends waiting at least a week.
7. When he considers the time ripe he will either talk with Colonel COLS himself or ask the Regional Commissioner to do so and will report results to this Headquarters.

SUBJECT : Requisitions at Perugia University
REF. : R4/ED/

1. Further to the letter from Chief Staff and R.A.A.C. concerning the above subject the Provveditore of Perugia informed me that the military now using the foreign university as Army School of Education have expressed the desire to requisition still more rooms and scientific instruments in the R.Università. The position is becoming impossible, especially as regards the instruments, which in Italian Universities are taken on charge by the professors in charge of subjects. This point, which is different from English procedure, is not appreciated by the military in Perugia. I would ask you to bring any pressure at your disposal to bear to help the University in the matter.

21 December 44

SUBJECT: requisitioning University of
Pisa Medical Buildings.

TO: AMT 4-5.

1. Pisa University Medical School has been requisitioned by 34 AMT 4-5. If this medical school is not immediately derequisitioned the Faculty of Medicine of the University of Pisa will have to close.
2. The need for this Medical School cannot be too strongly urged. There are about 250 senior students, 50% of whom are expected to qualify in the present academic year, and a further 500 students in the first four years of their medical course. Only essential war exigencies should be allowed to interfere with these studies. It is required young doctors who will be free from the political bias and corruption of the Fascist regime.
3. An interview of 2 October between Captain Keller AMT officer, 1st Air Force, and Colonel Dore and Major Russell of the unit concerned was followed by a statement from Captain Dore, AMT, 1st Air Force, that, as directed by the Chief of Staff, he had telephoned General Tate about the requisitioning, and that the General said he would have the Air Corps moved out. Then, on 18 November the Regional Education Officer was notified that the requisition was in effect again.
4. A signal and letter just received from AMT Toscana region indicate that while there are a number of empty buildings on the south side of the river that would be suitable for depot space (the purpose for which the Air Corps require the school), there are no alternative locations for the medical school to use in lieu of its library, laboratories, dissecting rooms.
5. The buildings are not as yet occupied by the military unit, but the requisition stands and the University is not allowed to use them.
6. You are therefore requested to take such steps as are necessary toward having the Medical School buildings of the University of Pisa derequisitioned, including the School of Veterinary Medicine.

SUBJECT : MPAA Report - PIETRASANTA, CAGAIORE, SERRAVEZZA, PISA,
holdings PRINCE FELIX OF LUXEMBURGO.

TO : SCAO, 5th Army.

.....

17.a. The Air Corps recently moved into Pisa, has intention of requisitioning buildings of the University of Pisa, notably those of Chemistry and the Medical School. In as much as said requisitioning would kill any chance of the University functioning as a whole in the not too distant future, MPAA Officer within 15 minutes of hearing of it from Pro-Rector Russe called AME 5th Army and asked G-2-3 Officer to inform SCAO 5th Army, which he said it would be done 6 Oct 1944. It is believed that once mines are removed from Pisa both sides of the Arno there would be plenty of buildings reasonably suitable for billets and offices. Both Chemistry and Medical Schools contain important libraries and collections of instruments.

b. It has been said in undersigned's reports before and is reiterated here that Pisa is a University town. Without the University the town has no economic future at all, 1st alone its importance as an intellectual center. All its factories and industries are destroyed. Students will go to Florence University if the University cannot function. As a long term policy, granted the immediate difficulties of lack of light, food, lodging and the rest on the part of Pisa itself and the need for billets and offices on the part of the Air Corps, the University Buildings were placed under the protection of AME 5th Army by undersigned using manifestos to that effect pasted and thumbtacked on walls or doors in prominent places. The school of Engineering was not so protected, as an element of the 45th T.F. was already in possession on September 4th 1944 when the building was visited. The Air Corps is now in possession, as noted in previous report of undersigned.

c. It is well understood by undersigned that if it is essential for the conduct of the war that Army outfits occupy University buildings they shall so be occupied.

SUBJECT: Requisitioning - Pisa University Medical School.

TO : Civil Affairs Section.
(Attention: Col. CRIPPS).

1. I return attached papers on Pisa University. I spoke to Chief of Staff, who said that the general policy was to treat each case on its merits. In this particular case he did not think that the Regional Commissioner had put a good enough case, and that without further information as to the troops occupying the University, it was impossible to represent the matter to AAI.

For Shipp Ltr

Chief Staff Officer,
To the Chief of Staff.

- 1 Attached herewith is a letter from RC TOSCANA Region reference the requisition of the FISA University Medical School.
- 2 The letter is accurate except for the designation of the requisitioning unit, which is an American Air Force Depot, addressed as follows:

Air Force General Depot No 6.
- 3 This unit is subordinate to the following Headquarters:

Air Force Service Command,
Mediterranean Theatre of Operations,
Naples.
- 4 In as much as neither the unit nor its parent organization are under the supervision of HQ AAI or the Armies, it is recommended that HQ AC take up the matter of derequisitioning of the buildings with the unit HQ through AFHQ.

Date : 29 Nov 44.

SUBJECT : Requisitioning - PISA University Medical School.

TO : DCCAO, HQ AAL.

1 The following is a report from my RHQ, Maj Wm. MACENZIE, RASC, regarding the requisitioning of PISA University Medical School. A copy has been sent to Public Health Sub-Commission direct.

"a PISA University Medical School has been requisitioned by 24 ADC No 6.

b This school contains all the Lecture Rooms, Laboratories, Libraries and Dissecting Rooms necessary for the tuition of the medical students, with the exception of the Hygiene and Physiology Departments, which had already been requisitioned by the American Red Cross, and a Military Unit. These two last Departments are housed in a separate building, and, if necessary, their work can be done in the Medical School referred to. But if this Medical School is not immediately de-requisitioned, the Faculty of Medicine of PISA University will have to close.

c The need to open PISA Medical School cannot be too strongly urged. There are about 230 senior students, 60% of whom are expected to qualify in the present academic year, and a further 800 students in the first four years of their medical course; only essential war exigency should be allowed to interfere with these studies. ITALY requires young doctors who will be free from the political bias and corruption of the Fascist Regime.

d All these buildings had been posted with the usual AMG notices protecting them from requisition, but they were ignored. It is impossible to find alternative accommodation.

e In view of the extreme urgency and importance of this matter, could the facts please be submitted to Higher Authority in an endeavour to correct what is considered to be a regrettable mistake?

f PISA University was officially opened by Brig Gen HUME on 25 Nov 44 and is one of the most important in ITALY.

2 It is requested that this matter be brought to the attention of the appropriate military authorities with a view to making these buildings available to the University Medical School. Representations have been made to the CO of the ADC unit by the local AMG officers without success.

EXTRACT FROM REPORT OF PERUGIA UNIVERSITY _____page 2-3.

University buildings.

Besides the "Palazzo Centrale" in which are situated the Rettorato, the administration offices, the library and the Faculty of Jurisprudence, Economy and Commerce, the other Faculties are situated in different buildings all over the town and exactly:

- a) the clinics of the Faculty of Medicine and Surgery, in the Civil Hospital of Monteluce totally used as a clinic.
- b) the Faculty of Agraria, in the building of St. Peter belonging to the foundation for the Agraria training.
- c) the Faculty of Veterinary Science in the building which belongs to the Ministry at S. Costanzo.
- d) the Faculty of Chemistry in the building which was constructed by the University near the main University building.
- e) The Institute of Human Anatomy in a building belonging to the University and situated in P. S. Francesco.

Then another building which belongs to the University where "The house of the Student" is situated in V. Francesco Innamorati.

Before the liberation of Perugia, portions of these University buildings were occupied by German troops and are now requisitioned by Allied Army Forces.

When the German troops evacuated the town, the premises of the Faculty of Agraria and Veterinary Science were partially destroyed, as I already reported,, while the "Palazzo Centrale" was badly damaged owing to land bombardment.

The local "Genio Civile" took over all the repairs, such as roofs, ruined walls etc....which are going to be soon completed. All the damages of the equipment are very serious and only when all the premises are given back to the University,

-2-

it will be possible to proceed for the repairs.

At present the Faculty of Veterinary Science is used as a recovery hospital, while the premises on the first floor of the Faculty of Agraria are used ~~to~~ hospital purposes.

The "House of Students" has been wholly requisitioned for the Allied Troops' accommodation.

Furniture and equipment have been also requisitioned by the troops occupying the building, parts of which have been moved ~~to~~ not University premises, but so far no regular receipts of the material delivered has been handed in by the sections, which creates difficulties to the University.

At present the University is carrying out its activities in very small premises, and as I said before, further requisitions should be limited at the utmost in order that at least all the essential number of available premises be left to the University for its regular functioning.

1481

42-5

UNIVERSITÀ DEGLI STUDI DI PERUGIA

È pertanto chiesto che venga studiata la possibilità di assegnare alla Università, per il corrente anno accademico 1944-45, una assegnazione straordinaria da servire ad integrare le dotazioni dei vari istituti scientifici, e ciò anche in considerazione della necessità in cui detti istituti si trovano di procedere alla propria risistemazione in seguito alla occupazione dei locali da parte delle truppe Germaniche.

Attualmente gli istituti scientifici gravano, per dotazioni sul bilancio, Università per complessive L. 302.700, cifra del tutto inadeguata se si tiene conto che gli istituti sono in numero di 37 e che in conseguenza alcuni di essi non possono provvedere neppure alle più elementari esigenze di funzionamento.

Altro problema grave per la Università è quello della retribuzione annua ai professori incaricati, i cui assegni sono fissati in L. 5.000 annue per gli incarichi esterni, e in L. 3.000 per gli incarichi interni. Tale irrisoria corresponsione, dati gli attuali momenti, mette questa Amministrazione in imbarazzo, in quanto difficilmente, ove la retribuzione dovesse mantenersi nei limiti suindicati, l'Università potrebbe giovare della collaborazione di docenti che risiedono fuori Perugia e che non può trovare in città.

Raddoppiare la retribuzione annua dei professori incaricati, triplicare le dotazioni dei vari istituti scientifici, ritengo sia urgente problema da risolvere, e pertanto mi permetto pregare di studiare la possibilità di assegnare alla Università un fondo integrativo di L. 1.300.000 da servire per l'attuazione di questo programma minimo che permetterà il funzionamento degli Istituti ed assicurerà la collaborazione del personale insegnante, e ciò tenendo conto che, come già si è detto, in bilancio sono stanziati L. 302.000 per dotazioni agli istituti scientifici e L. 642.000 per retribuzione al personale incaricato.

da parte delle truppe Germaniche.

Attualmente gli Istituti scientifici gravano, per dotazioni sul bilancio. Universitario per complessive L. 302.700, cifra del tutto inadeguata se si tiene conto che gli Istituti sono in numero di 57 e che in conseguenza alcuni di essi non possono provvedere neppure alle più elementari esigenze di funzionamento.

1480

2. EDIFICI UNIVERSITARI: Oltre il palazzo centrale nel quale sono sistemati il Rettorato, gli Uffici di amministrazione, la biblioteca e la Facoltà di Giurisprudenza e di economia e commercio, le altre Facoltà ed Istituti sono allocati in edifici sparsi per la Città, e propriamente:

- a) Le cliniche della Facoltà di medicina e chirurgia, nell'Ospedale Civile di Monteluce totalmente climatizzato;
- b) la Facoltà di Agraria, nell'edificio di S. Pietro, di proprietà della Fondazione per l'Istruzione Agraria, ceduto in uso perpetuo alla Facoltà stessa.

UNIVERSITÀ DEGLI STUDI DI PERUGIA

c) La Facoltà di medicina veterinaria nell'edificio di proprietà demaniale in località S. Costanzo;

d) La Facoltà di Farmacia nel padiglione a suo tempo costruito dalla Università nelle adiacenze del Palazzo Universitario;

e) L'Istituto di Anatomia umana, in un padiglione di proprietà della Università), sito in Piazza S. Francesco.

E' poi di proprietà della Università, l'edificio ove ha sede la "Casa dello studente", in via Francesco Innamorati.

Parte di questi edifici, prima della liberazione di Perugia, furono occupati dalle truppe Germaniche, ed attualmente sono requisiti dalle Forze Armate Alleate.

Al momento della evacuazione si procedette da parte delle truppe Germaniche, come già riferii, ad atti di distruzione specialmente dei locali della Facoltà di Agraria e medicina veterinaria, mentre il Palazzo Centrale subì danni non indifferenti, in seguito a bombardamento terrestre. I lavori di riassetto, quale sistemazione dei tetti, crolli etc., furono assunti dal locale Genio Civile che li sta ora ultimando; ma i danni arrecati all'arredamento non sono lievi e alle complete riparazioni e ricostruzioni occorrenti, non potrà procedersi se non quando tutti i locali potranno essere restituiti alla Università.

Attualmente la Facoltà di medicina veterinaria è stata nella quasi totalità adibita a convalescenziario, mentre i locali terranei della Facoltà di Agraria sono anche essi adibiti ad Ospedale.

La Casa dello studente è totalmente requisita per alloggi degli Ufficiali delle truppe Alleate.

Dalle truppe occupanti sono stati requisiti anche alcuni mobili ed arredi, parte dei quali sono stati trasportati in altri locali non Uni-

versità), sito in Piazza S. Francesco.

La Casa dello studente è totalmente requisita per alloggi degli Ufficiali delle truppe Alleate.

1479

Dalle truppe occupanti sono stati requisiti anche alcuni mobili ed arredi, parte dei quali sono stati trasportati in altri locali non Universitari, ma finora non è stato possibile ottenere dai reparti, regolari ricevute del materiale consegnato, ciò che amministrativamente crea delle difficoltà alla Università.

Allo stato, l'Università svolge la sua attività in ambienti molto ristretti e, come ho già fatto presente, è necessario che nei limiti del possibile non si proceda ad ulteriori requisizioni e ciò per mantenere a disposizione della Università, quel numero di locali indispensabili al suo funzionamento.

UNIVERSITÀ DEGLI STUDI DI PERUGIA

Tra i problemi più urgenti da risolvere vi è quello dei vetri degli atri e quello del riscaldamento per i mesi invernali; «per tutto ciò si sono fatte le relative richieste alle Autorità competenti, ma temo che date le difficoltà del momento, le richieste stesse non potranno essere accolte se non in parte.

La definitiva sistemazione di tutti gli edifici Universitari, importerà, a suo tempo, una spesa non lieve ed io mi riprometto fin da questo momento di pregare che sia portato sul problema la massima attenzione da parte delle Autorità superiori, non potendo assolutamente la Università far fronte con le sue risorse a tali necessità.

3ª ATTIVITÀ DIDATTICA DELLA UNIVERSITÀ. - L'Università è costituita dalle Facoltà di Giurisprudenza, Medicina e Chirurgia, Agraria, Medicina veterinaria, Farmacia, dalla Facoltà di Scienze politiche di cui si è chiesta la soppressione e dal corso di laurea in Economia e commercio.

Gli insegnamenti ufficiali sono impartiti da professori di ruolo ed incaricati. Non essendosi ancora provveduto da parte delle Autorità Accademiche a formulare le proposte degli incarichi di insegnamento per l'anno accademico 1944-45, si acclude l'elenco del solo personale insegnante di ruolo diviso per Facoltà (Allegato a).

La popolazione scolastica durante l'anno accademico 1943-44 è ripartita fra le varie Facoltà, come risulta dal prospetto allegato b.2' da tener presente che il numero degli iscritti indicati nel prospetto non rappresenta l'effettiva popolazione studentesca in quanto molti degli studenti, per ragioni di varia natura, quale per es. l'occultamento per non rispondere alle chiamate alle armi del così detto governo repubblicano, non hanno regolarmente frequentato ancora la loro posizione.

I corsi per ogni Facoltà, di cui agli acclusi elenchi (allegato c) si svol-

la sua definitiva sistemazione di tutti gli edifici Universitari, importerà, a suo tempo, una spesa non lieve ed io mi riprometto fin da questo momento di pregare che sia portato sul problema la massima attenzione da parte delle Autorità superiori, non potendo assolutamente la Università far fronte con le sue risorse a tali necessità.

30-ATTIVITA' DIDATTICA DELLA UNIVERSITA'. - L'Università è costituita dalle Facoltà di Giurisprudenza, Medicina e Chirurgia, Agraria, Medicina veterinaria, Farmacia, dalla Facoltà di Scienze politiche di cui si è chiesta la soppressione e dal corso di laurea in Economia e commercio.

Gli insegnamenti ufficiali sono impartiti da professori al ruolo ed incaricati. Non essendosi ancora provveduto da parte delle Autorità Accademiche a formulare le proposte degli incarichi di insegnamento per l'anno accademico 1944-45, si acclude l'elenco del solo personale insegnante di ruolo diviso per Facoltà (Allegato a).

La popolazione scolastica durante l'anno accademico 1943-44 è ripartita fra le varie Facoltà, come risulta dal prospetto allegato b.3' da tener presente che il numero degli iscritti indicati nel prospetto non rappresenta l'effettiva popolazione studentesca in quanto molti degli studenti, per ragioni di varia natura, quale per es. l'occultamento per non rispondere alle chiamate alle armi del così detto governo repubblicano, non hanno regolarmente frequentato ancora la loro posizione.

I corsi per ogni Facoltà, di cui agli acclusi elenchi (allegato c) si svolgeranno secondo il calendario che non ritengo opportuno variare da quello in vigore nello scorso anno, salvo beninteso la soppressione delle vacanze di carattere politico-fascista e la istituzione delle vacanze relative alla dichiarazione di guerra ed all'armistizio della guerra 1915-18. (allegato d)

Gli esami della sessione autunnale hanno avuto inizio regolarmente il 3 corrente mese, e la sessione si protrarrà fino a tutto il 30 Novembre.

UNIVERSITÀ DEGLI STUDI DI PERUGIA

Ritengo opportuno che l'inaugurazione dell'anno accademico 1944-45
avenga luogo il ⁵ Dicembre p.v. in forma solenne, e chiedo a tal uopo
il nulla osta di cotesto Comenio.

Perugia 9 Novembre 1944

IL PRO-RETORE

1478

UNIVERSITÀ DEGLI STUDI DI PERUGIA

AL COMANDO MILITARE ALLEATO REGIONE IV- DIVISIONE EDUCAZIONE
PERUGIA

In ottemperanza alle "Direttive sull'educazione n.6 del settembre 1944, ed a completamento della relazione già da me presentata il 17 ottobre 1944, riferisco brevemente sui seguenti punti, intorno alla R.Università di Perugia:

1° SITUAZIONE FINANZIARIA DELLA UNIVERSITÀ - L'esercizio finanziario della R.Università coincide con l'anno accademico e pertanto si sta procedendo dagli Uffici alle operazioni di chiusura dell'esercizio 1943-44, alla data del 31 ottobre 1944. Si provvederà al più presto alla compilazione del Conto Consuntivo che, a norma delle disposizioni di legge verrà approvato dal Consiglio di Amministrazione, entro il mese di dicembre. Sarà mia cura trasmettere a suo tempo copia del Conto, con allegate le prescritte relazioni e la deliberazione del Consiglio di Amministrazione.

Ma come ho già fatto cenno nella precedente relazione, la situazione finanziaria della Università, non è tra le più rosee, in quanto di fronte ai numerosi impegni di carattere fisso e continuativo relativi al pagamento dei vari stipendi al personale dipendente, alle spese generali, alle dotazioni dei vari Istituti scientifici, fanno riscontro entrate ben limitate, rappresentate dal contributo statutario di sole L.976.420 (Università e Facoltà aggregate) dal non eccessivo reddito dei beni rustici ed urbani della Università, e dalle entrate per tasse scolastiche.

Tale precaria situazione è stata nel passato, nei limiti del possibile, sanata dal Ministero, che, annualmente ha concesso come sui fondi di cui alla Legge 16 gennaio 1939 n.226, idonei a colmare il deficit iniziale di bilancio. Ma tale integrazione che annualmente si aggirava su somme superiori ad un milione, almeno fino ad ora non è stata concessa per l'esercizio chiuso al 31 ottobre u.s. per cui l'Università, se pur ha potuto far fronte

10 SITUAZIONE FINANZIARIA DELLA UNIVERSITA' = L'esercizio finanziario della R. Università coincide con l'anno accademico e pertanto si sta procedendo degli Uffici alle operazioni di chiusura dell'esercizio 1943-44, alla data del 31 ottobre 1944. Si provvederà al più presto alla compilazione del Conto Consuntivo che, a norma delle disposizioni di legge verrà approvato dal Consiglio di Amministrazione, entro il mese di dicembre. Sarà mia cura trasmettere a suo tempo copia del Conto, con allegata le prescritte relazioni e la deliberazione del Consiglio di Amministrazione.

Ma come ho già fatto cenno nella precedente relazione, la situazione finanziaria della Università, non è ora la più rosea, in quanto di fronte ai numerosi impegni di carattere fisso e continuativo relativi al pagamento degli stipendi al personale dipendente, alle spese generali, alle dotazioni dei vari Istituti scientifici, fanno riscontro entrate ben limitate, rappresentate dal contributo statuario di sole L. 975.420 (Università e Facoltà aggregate) dal non eccessivo reddito dei beni rustici ed urbani della Università, e dalle entrate per tasse scolastiche.

Tale precaria situazione è stata nel passato, nei limiti del possibile, sanata dal Ministero, che, annualmente ha concesso come sui fondi di cui alla Legge 16 gennaio 1939 n. 226, idonei a colmare il deficit iniziale di bilancio. Ma tale integrazione che annualmente si aggirava su somme superiori ad un milione, almeno fino ad ora non è stata concessa per l'esercizio chiuso al 31 ottobre u.s. per cui l'Università, se pur ha potuto far fronte con le sue riserve alle esigenze più impellenti, non vede come potrà risolvere il problema nel prossimo avvenire.

Questo disagio si ripercuote su ogni forma di attività, specialmente didattica e scientifica, in quanto le dotazioni degli Istituti scientifici sono determinate in misura del tutto insufficiente non solo per la ricerca ma anche per garantire il funzionamento di essi.

1. I beg to bring to your notice the following facts and University buildings in Perugia City.

2. At present only the following have NOT been requisitioned

Palazzo Centrale (Offices, Library, etc.)
One lecture hall of the Faculty of Veterinaria
A fraction of the Faculty of Agraria
Medical clinic and Museum.

3. This represents an irreducible minimum for the continuance of teaching.

4. I have spoken to the staff Captain Q and Town Major who expressed their willing to help us but were helpless to do so because ever more troops were into the city. They feared the position might rapidly become even worse.

5. I have no option, therefore but to ask you to approach the appropriate military authority here in Rome for some protection from requisition of the little that remains of University buildings.

6. An obvious and essential point in that such protection shall not be at the expense of the schools in Perugia, which in this respect has been very seriously hit.

Caro Colonnello,

vengo informato che l'"Al-
lied Navy Command" di Civitavecchia starebbe procedendo al-
la requisizione del motoreliero-scuola "Teodoro", che at-
tualmente si trova a Porto S.Stefano (Grosseto).

Detto natante che fu miracolosamente sottratto alle di-
struzioni tedesche, costituisce il solo mezzo di addestra-
mento dell'Ente Nazionale per l'Educazione Marinara, il qua-
le attraverso le sue 30 Scuole professionali marittime ha
il compito di formare le maestranze per la navigazione di
cabotaggio e la pesca.

L'istituzione che vive prevalentemente dei suoi contri-
buti statali riprenderà la sua attività non appena supera-
te le difficoltà economiche del momento.

Le sarei grato, caro Colonnello, se per l'interessamento
che Ella pone ai vasti e complessi problemi della Scuola i-
taliana, volesse efficacemente adoperarsi presso l'organo
Alleato competente perchè fosse scongiurato il pericolo di
veder privata la Scuola marinara italiana del suo

MINISTERO DELLA PUBBLICA ISTRUZIONE

DIREZIONE GENERALE DELL'ORDINE SUPERIORE TECNICO

Prot. N. 132

DIV. VI INSEGN. NAUTICO

Risposta al foglio N.

del

ALLA ON. COMMISSIONE ALLEATA
DI CONTROLLO

ROMA

OGGETTO Scuola marittima di Porto S. Stefano
Requisizione del m/v.
scuola "Teodoro"

URGENTE

5A

Viene segnalato a questo Ministero che il motoveliero scuola "Teodoro" in dotazione della Scuola Marittima di Porto S. Stefano sta per essere requisito da parte del Comando Marina Alleato di Civitavecchia.

Detta scuola è dipendente dall'Ente Nazionale per l'Educazione Marinara (E.N.E.M.) residente in Roma il quale, sotto la vigilanza di questo Ministero, gestisce un particolare tipo di scuole professionali, unico in Italia, per l'addestramento delle maestranze marittime e dei giovani che intendono dedicarsi alla vita del mare nelle professioni minori.

Il motoveliero di cui trattasi è indispensabile e di vitale importanza alla scuola stessa per lo svolgimento dei suoi compiti, poichè

11 (10)

viene usufruito dall'Enem anche per il tirocinio dei giovani delle altre sue scuole.

Il Direttore Centrale dell'Ente anzidetto con lettera del 20 Agosto u.s. diretta al Comando Navi Alleate di Civitavecchia ha fatta presente la necessità che il "Teodoro" venga lasciato in disponibilità della scuola di Porto S. Stefano; e pertanto si ha il pregio di rivolgere preghiera a cotesta On. Commissione affinché, rendendosi conto di quanto sopra, voglia provvedere per l'esonero dalla requisizione del moto veliero in parola.

IL MINISTRO

REF : Ed/ 2.21/ACC 6 maggio 1944
TO : Capt. Nee, Education Officer, Region III
SUBJECT : Derequisition

A number of buildings and rooms of the University are occupied by allied troops. It would of course solve many of the problems if all the places requisitioned could be released. And this would not seem impossible since the military personnel affected would be small and relatively very small compared to the number of University members that would profit by it.

However the University is well aware of the priority of military necessity at this time and wholeheartedly anxious to create no difficulties, however minor, in the prosecution of the war. One point only they would like to press. The MP. battalion (794) which has its H.Q. at the University Entrance on Via Mazzocannone blocks all approach to the tipografia of the University. This is a university controlled and operated institution which is of great value to the students. It prints a number of books for sale to students at prices which are far below the normal competitive market prices. What small profits there are go back to the students in Scholarships. In a small way the smooth functioning of the tipografia is an aid in the battle against inflation for there is a black market in books as in food.

Associated with the tipografia is a dispensa, a small outlet for the books printed in the tipografia. This is situated in the old University, the "cortile del Salvatore". This courtyard too has been partially requisitioned and here again the ideal solution would be to free it entirely. But all that the University now asks is that some form of permit be issued to bona fide University people. The only entrance to the cortile is guarded and while entrance is usually granted to those who in the opinion of the guard seem to have business there, the situation is not regularized and permission to enter is sometimes arbitrarily withheld.

The smooth operation of the tipografia and its dependent dispensa would be of great practical value to the University and would have a healthy affect on the morale. It would not call for any serious dislocation or inconvenience to our personnel. 1470

SUBJECT : Derogation of apartment.

TO : 12th Air Force Service Command

1. Miss Luigia Barbati informs me that you desire verification of her statement in connection with the derogation of an apartment.
2. I wish to certify that Miss Luigia Barbati has been employed for highly responsible work in this Subcommittee since January; that her sister has been employed in the Economic and Supply Division of Region 3 since November; that I personally know the whole family; and that I unreservedly vouch for their high quality and integrity. I would unhesitatingly, in the light of my knowledge of their character accept as a fact any statement made by them.
3. I therefore recommend that you assume the facts to be as stated by Miss Barbati and proceed accordingly.
