OCCORRENTO : Carta libri testo.

ALLA : Associazione Editori Piemontesi,  
Via del Carmine 14,  
Torino.

E' pervenuta a questo comando la nota della S.V.  
del 24 corrente.

Si fa presente che il Colonnello Washburne e' partito per l'America e che l'Ufficio della Sottocommissione Al-  
locata per l'Educazione ha cessato le sue attivita'.

In risposta al suo quesito, perche' della carta non  
fosse stata assegnata alla regione del Piemonte, sara' utile  
che la S.V. prenda visione della copia della lettera inviata  
all'Ing. Antonio Vallardi di Milano, qui acclusa.

## ASSOCIAZIONE DEGLI EDITORI PIEMONTESI

*Sede provvisoria:*TORINO, VIA DEL CARMINE 14  
presso la SCUOLA ARTI GRAFICHE  
G. VIOLIARDI - PARAVIA

Corino 24 5 46

Alla Commissione Alleata di controllo  
Sottocommissione per l' educazioneR O M AAlla particolare attenzione del  
Signor Col. Washburne

La Associazione Italiana editori , con sede in Milano, si é recentemente interessata presso cotesta Commissione alleata , onde ottenere che anche a questa Regione Piemontese venisse assegnato un quantitativo di carta per edizioni, come lo scorso anno é stata accordata agli editori scolastici della Lombardia e del Veneto .

Se ricorriamo direttamente a sollecitare una risposta almeno, alla richiesta inoltrata dalla Associazione Milanese , si é perché riteniamo ingiustificato il trattamento fatto a noi editori del Piemonte , da cotesta Commissione , che avendo favoriti gli editori di quasi tutte le Regioni d' Italia ha completamente dimenticato il Piemonte .

Ci permettiamo rendere noto che nel campo scolastico, il Piemonte rappresenta una quota percentuale di produzione , che supera di gran lunga la produzione della Lombardia , e del Veneto , síché vorremo che fosse consentita quest' anno una assegnazione a questa Regione , si da poterla mettere a parità di trattamento con gli editori delle altre regioni già favorite .

Né crediamo che cotesta On. Commissione vorrà permettere questa ingiustizia , che pone i colleghi favoriti in condizione di potere vendere la produzione a prezzi assai inferiori ai nostri , con rilevante danno perciò nella diffusione della nostra produzione che esce dai torchi naturalmente assai piu costosa .

Restiamo in attesa di cortese riscontro, fiduciosi che giustizia sia fatta anche nei riguardi della editoria Piemontese , con una assegnazione non inferiore a quella data alla Lombardia .

Con ogni riguardo

Per i soci editori Piemontesi  
il Vice Presidente  
Tancredi Vigliardi Paravia

OGGETTO : Carta libri testo.

AL : Dott. Ing. Antonio Vallardi,  
Via delle Muratte 25,  
ROMA.

In riferimento alla nota del 3 maggio 46 si porta a conoscenza della S.V. che la Sottocommissione all'Educazione non si interessa piu' di questioni di assegnazione di carta, dato che quest'ultima e' stata esaurita, ne' si prevede nuovo arrivo di altra.

Si fa presente inoltre alla S.V. che l'Ufficiale Regionale, Capitano NOE, a cui era stato chiesto se il Piemonte avesse avuto bisogno di carta per la stampa dei libri, aveva risposto che le scorte locali erano sufficienti al fabbisogno delle scuole piemontesi.

Poiche' la S.V. sa che la carta a disposizione di questo Comando costituiva una frazione dell'intero fabbisogno dell'Italia si era provveduto ad assegnarne solo a quei centri che ne erano mancanti.

Questo Comando considera pertanto la questione ormai chiusa.

R O M A

e p.c. All'ASSOCIAZIONE EDITORI PIEMONTESI  
T O R I N O

Alla particolare attenzione del Col. Washburne

Gli editori di libri delle scuole elementari del Piemonte lamentano che malgrado gli affidamenti a suo tempo dati a questa Associazione e ad essi editori dalle Autorità Alleate centrali e locali, nessuna assegnazione di carta a prezzo limitato è stata disposta a loro favore per i testi con tanto sacrificio approntati nel decorso anno scolastico.

Analogha assegnazione venne invece data tanto agli editori del Centro-Sud quanto a quelli della Lombardia ed in parte a quelli del Veneto.

Si è verificata pertanto una incresciosa situazione di disparità tra gli editori del Piemonte e quelli delle altre regioni, disparità che dovrebbe essere sanata con un provvedimento che non comporterebbe nessun particolare aggravio. Tenute infatti conto delle proporzioni con cui sono state date le assegnazioni alla Lombardia e alle altre regioni, si tratterebbe di concedere agli editori del Piemonte un'assegnazione di appena 800 quintali di carta da stampa. Con tale quantitativo si permetterebbe agli editori di quella regione di rifarsi delle perdite incontrate nello scorso anno e di pubblicare ad un prezzo inferiore i libri medesimi nel corrente anno scolastico.

Certi di avere concorde circa questo punto l'Autorità Alleata, ringraziamo anticipatamente di un cortese cenno di riscontro.

IL PRESIDENTE  
(Dott. Ing. Antonio Vallardi)

To The "Sotto-Commissione per l'Educazione A.C."

In relation to the demand of this Sub - Committee I send here- with enclosed a list of the books and reviews in English language that are necessary to complete the book material of this Institute.

In the air raid of the 8-12-1942 the Central Library and the Libraries of the Istituto di Fisica, Istituto di Chimica Generale e Metallurgia, Istituto di Chimica Industriale, Istituto di Chimica Fisica of this Politecnico have been entirely destroyed; therefore, since it is now a question of their reconstitution, the quantity of books and reviews demanded in these present lists is great.

In the first list are included the most recent years (from 1930 on) of British and American reviews that are indispensable and very often required by students and Professors.

The second list (beyond other Reviews) contains the years from 1918 to 1929 of above mentioned Reviews, years that, although not absolutely indispensable as the following, are however necessary.

The third list contains the books most urgently necessary to constitute a short nucleus of basic technical works in the different branches of engineering.

In default of catalogues up to date of the books published after the year 1940, it has been impossible to find the complete indication of the name of the publishers of some
