From Prof. Roberto Giordani

22nd March 1945

SITUATION OF MATERIAL FROM U.S. FOR PRINTING OF ELEMENTARY SCHOOL BOOKS
YEAR 1944/45

The payment of material for elementary school text-books in Italy, through agreements with the Istituto Nazionale per il Commercio Estero, is covered by a payment on Account N.206 of the I.C.E., made by the person who takes delivery of the goods and in the proportion fixed by the ICE for each single type of commodity.

The Regional Delegates of the Ministry for Public Instruction, namely in Palermo; Prof. Gioacchino La Barbera; in Naples; Prof. Adriano Albin; in Rome Prof. Roberto Giordani, who is at the same time Central Representative of the Ministry; in Florence Prof. Giuseppe Ugolini; take care that payments are duly made.

MATERIAL SIGNALLED:

In connection with materials signaled, I have received three reports from Capt. Bear not all in agreement.

I received one very synthetical on the 15th January 1945.

A second, more detailed, dated 3rd Feb. 1945.

A third, synthetical, but fairly exact, dated 22nd Feb. 1945. 3496

According to the second and third of these reports, which I am using, together with regional reports in my possession, to compile the present report, the material signaled is as follows:

- a) PRINTING PAPER Tons 705 (gross) (The report 3 Feb. shows tons 705 against an original request for 950 tons.)
- b) COVER PAPER Tons 47 (gross) (The 3 reports agree).
- c) CARDBOARD FOR FLANS Lbs 1124 " "
- d) TRANSFER PAPER Lbs 55

- 2 -

- e) PRINTING INK Ton. 14 (gross)
- f) OFFSET INK
(black, yellow, blue, red) Ton. 1
Lbs 787
- g) GLUE Lbs 2552
- h) THREE AD Lbs 3344

MATERIAL ARRIVED

According to reports of the 3rd and 22nd Feb. of the Allied Subcommittee and according to the various reports I have received from the regional Representatives of the Ministry for Public Instruction, the following material has arrived:

A. PRINTING PAPER

1. PALERMO Ton. 78 (gross) (Arrived in Palermo and taken delivery by the Education Off, as per Prof. La Barbera's information of 5 March). In This quantity does not include the cover paper (ton.33) which in Palermo seems to have become confused with the printing paper. The 22 Feb. report shows 87 tons assigned to Palermo).
2. NAPLES Ton. 216 (gross) (In rolls and cases. The Rep. 22 Feb. shows ton. 216 to arrive in Naples. But this total figure is not confirmed).
3. R O M E Ton. 148 (gross) (In rolls: smooth and rough paper. This lot arrived in Rome with two dispatches: It includes the quantity fixed as reserve)
4. FLORENCE Ton. 75 (gross) (quantity shown on Rep. 3 Feb. The Rep. 22 Feb. shows instead 71 tons paper assigned to Florence, while a letter from Porf Ugolini to Capt. Bear dated 26.1.45, states paper arrived in Florence as 355 bobines, of which measures not stated, plus tons 4,8).

- 3 -

B. COVER PAPER

- | | | |
|-------------|----------------------------|--|
| 1. PALERMO | Ton. 33 (gross) | (Wrongly signaled as printing paper. Prof. La Barbera, in fact, has marked it in his report as being printing paper) |
| 2. NAPLES | Ton. 50.667 (gross) | (According to 3 Feb. Report this gross weight is equal to 212 rolls, whilst in the 22 Feb. report 212 rolls are marked as being equal to 47 tons; this will have to be clarified). |
| 3. R O M E | Nothing has been received. | (According to assignment Rome should have 10 tons.) |
| 4. FLORENCE | Ton. 36 (gross) | (Contained in 148 cases. This figure was given by Prof. Ugolini on 26 Jan. 1945.) |

C. BLACK PRINTING INK

- | | | |
|-------------|----------------------------|--|
| 1. PALERMO | Nothing has been received. | |
| 2. NAPLES | Ton. 47.447 (gross) | (Contained in 65 barrels. Signaled as arrived in Rep.s 22 Feb. & 3 Feb. of A.S/C). |
| 3. R O M E | Nothing has been received. | |
| 4. FLORENCE | Nothing has been received. | |

3488

D. OFFSET INK
(black & coloured)

- | | | |
|-------------|--------------------|--|
| 1. PALERMO | Lbs 787 (gross) | (La Barbera writes that this lot was contained in 8 cases and is black, red and blue). |
| 2. NAPLES | Tons 1.087 (gross) | (Prof. Albin states it was contained in 21 cases & 180 cans). |
| 3. R O M E | Nothing | |
| 4. FLORENCE | Nothing | |

E. Powdered glue.

- 4 -

E. POWDERED GLUE

- | | | |
|-------------|---------------------|---|
| 1. PALERMO | Kg. 450 (gross) | (Contained in 9 barrels, of which 2, according to Prof. La Barbera, damaged and halved). |
| 2. NAPLES | Tons 6,52 3 (gross) | (Rep. 22 Feb. shows 34 barrels, whilst Prof. Albin in a letter to D. Alighieri 3 Feb. 45, states ~~34~~ 40 barrels). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

F. BINDING THREAD.

- | | | |
|-------------|--------------------|--|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Tons 1,436 (gross) | (Rep. 3 Feb. 45 states tons 1,07. Prof. Albin writes that he saw the lot). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Tons 1 (gross) | (Deposited at the ink factory "Etelia"). |

G. CARDBOARD FOR "FLANI"

- | | | |
|-------------|-----------------|------|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Kg. 453 (gross) | 3487 |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

H. TRANSFER PAPER

- | | |
|-------------|----------------|
| 1. PALERMO | Nothing. |
| 2. NAPLES | Kg. 14 (gross) |
| 3. R O M E | Nothing. |
| 4. FLORENCE | Nothing. |

NOTE: Not all material arriving in a certain place is for use in that place, neither is it, therefore, always taken delivery of or used in that place.

- 5 -

DELIVERY OF COMMODITIES

Material arriving from U.S. in one of the printing centres - Palermo, Naples, Rome, Florence - is taken delivery of, either all or in part, either by the ~~Regional~~ Regional Education Office, as occurred in Palermo and Florence, thence handed over to the ~~Ministry~~ Representatives of the Ministry for Public Instruction, who thence delegate the Regional publishing firms entrusted with the printing of school text-books to take delivery, - or is taken delivery of directly - though always through the representatives of the Ministry - by several Publishers entrusted with the printing of school text-books; as occurred in Naples and Rome, where the material was delivered to the Dante Alighieri publishing firm, which directs the publishing of ^{State} school text-books.

The Representatives of the Ministry, in agreement with the I.C.E., as has been previously stated in this report, arrange that the Publishers receiving delivery of material pay a deposit in proportion to the value of the commodities on the Account of the Istituto Nazionale per il Commercio Estero.

The material delivered is not considered sold: it is ³⁴⁸⁶ distributed to the publishers, printers, according to regional publishing programmes fixed and according to the number of books, under obligation of keeping all material left over from the printing of such books at disposition of the Allied Education Sub Commission and Ministry for Public Instruction.

The withdrawal of material from the Concerns holding it, therefore, is carried out according to necessity and under the direct surveillance of the Representatives of the Ministry, who must submit an exact statement of all materials.

- 6 -

The material is, therefore, used only in the amounts needed in the various printing Centres.

Following is the situation of distribution of material in the various printing Centres:

A. PALERMO.

Material ~~xxxxxxxxxxxx~~ is held by the Allied Education Sub Commission.

Prof. La Barbera has distributed to the Firms I.R.E.S. and BELLOTTI, who are entrusted with the printing of books for elementary schools, the following material received from the Education Sub Commission for three different editions:

a) Printing paper	Tons	48,200	(gross)
b) Cover Paper	Tons	1,300	"
c) Offset ink	Kg.	200	"
d) glue	Kg.	110	"

3485

The thread has been supplied partly from local resources, but as it was not good it had to be obtained through loans and exchanges: the same was done in respect to the black ink.

B. NAPLES

In Naples the material was delivered through Prof. Albin to the Dante Alighieri publishing firm, who is entrusted with the printing of text-books.

Following Prof. Albin's assignment arrangements, on the 3rd March 1945, the following quantities of materials were delivered and distributed to MORACE, MONTANTINO & SCARPATI printing firms, who have been entrusted with the printing of text-books.

- 7 -

a) Printing paper	Tons	138,035	(gross)
b) Cover paper	Tons	12,291	(Gross) (Contained in 52 cases received from the Commerce S/Commis.)
c) Black ink	Kg.	1189	(Gross)
d) Offset ink	Lbs	1210	"
e) Glue	Cases	16	(Weight not stated)

The thread for Naples, as Palermo, has been obtained from local resources and exchanged with thread or borrowed.

It must be pointed out that in Naples elementary school text-books are still in process of printing, therefore, more material will be needed besides what has been used up to the 3rd March as above stated.

A certain quantity of paper will have to be returned to the printers entrusted with the printing of text-books and who have lent same.

The ink used, has nothing to do with the lot arrived in Naples at disposition of the Allied Educ. S/C., which has not yet been withdrawn, but was procured by Major Murphy. 3486

Also the above mentioned cover paper has not been taken from the quantity assigned to Naples. Prof. Albin received a stock of 52 cases from the Commerce S/C through Major Murphy.

The quantity of cover paper assigned to Naples will, therefore, be left over for next year besides a certain quantity of paper which is expected to be left over after the printing of text-books is stopped.

C. ROME

In Rome all material had to be procured for the printing of more than 600,000 books, either from the Vatican or Poligrafico

- 8 -

dello Stato, or borrowed from the firm Aldo Chicca of Tivoli, the firm Signorelli, or other printing firms which have worked on the printing or binding of the elementary school text-books, such as the Operaia Romana, Arti Grafiche, Casciani or Vallecchi.

Of the material from U.S. assigned to Rome, only the printing paper has arrived and of which delivery has been taken by the firm Dante Alighieri, who directs the "Consorzio degli Editori dei Libri di Stato" in Rome.

Of this paper, tons 53 have been either returned or used for the process of printing of the sillabario and making note books which had already been started with the paper lent by the Vatican.

90 tons will be available for next year's text-books.

The other material is expected in Rome, among which the "filani" lent by the Poligrafico dello Stato and inks, both black and coloured, found with great difficulties for the printing of the 600.000 books.

As in Palermo and Naples, also in Rome thread was found from local resources, which was found useless and exchanges and loans had to be made.

D. FLORENCE

3483

In respect to Florence, I have not yet received the complete situation owing to the difficulties in communicating with this town.

In agreement with the Ministro del Tesoro and Ministry for Public Instruction, a quantity of paper was released for Florence by the Poligrafico dello Stato: this delivery amounted to about 120 tons.

Paper and material from U.S. has arrived and been delivered,

- 9 -

but I do not know in what quantities, to Le Monnier, Marzocco, Vallecchi and Sandron, who belong to the Consorzio formed in Florence for the printing of elementary school text-books.

A certain quantity of paper for the printing of ~~francescane~~ non-State school books authorized in that zone also for this year, has been assigned to the publishing firms.

About 300.000 metres of thread have been returned to Vallecchi, who had lent them for the binding of elementary school text-books.

As the Florence zone is still in the power of the A.M.G., and owing to the difficulty of communicating with Prof. Ugolini, I cannot make a detailed statement of the situation.

I think that a lot of the materials ~~francescane~~ which Florence has received from the U.S. can be used next year. But I cannot state the exact quantity today.

(Prof. Roberto Giordani).

Rome, 22nd March 1945

3482

MEMORANDUM FOR EDUCATION SUB-COMMISSION =

From an inquire-made with paper manufacturers and editors (chiefly Angelo Signorelli of Rome, Corso Umberto 260, Tel. 63.391) the following informations resulted:

1. Printing paper - is half-sized, glazed book-paper, approximate weight 65/70 grms. per sq.m., sizes: 70x100 cm. or cm. 64x88 (i.e. size of every sheet sq.m. 0.7 or 0.56)
2. Cover paper - approximate weight 150 grms. per sq.m., any quality of printing paper can be used.
3. Black ink - common dense printing ink (it is more dense than the ink used for newspapers); it generally is and should possibly be accompanied with a supply of dissolvent varnish (made from nitromauratic acid).
4. Thread - one-fold yarn in cylindrical or conic bobines of 5,000 yards each.
5. Glue - Almost every kind of glue is used: most suitable types are isinglass and vegetable glue.

12. Black pencils with erasers, leads No. 2	12 millions
13. Black pencils for drawing, leads No. 4	50,000
14. Red and blue pencils	300,000
15. Pencil erasers (India-rubbers)	1,000,000
16. Ink erasers	200,000
	(more)

- 2 -

JUSTIFICATION:

1. The supplies listed above have been pared again and again. They are now reduced to the minimum quantity of materials which are needed in order to enable the elementary and secondary schools of the whole of Italy to function during the forthcoming school year 1945/46.
2. The basis on which these figures have been worked out is a total of 5,200,000 children in elementary schools and 988,000 children in secondary schools. It is admitted that, having regard to these figures and to the imperative need for ensuring that youth of Italy is assured of a fair educational chance in the first year of liberation, the total of supplies requested is very moderate.

For the Director of Education:

Sir P.M. Magnum, M.L.,
Major.

TO:

SUBJECT: Requisition Number CLAG 1-234, Supplies for producing school and university text-books.

SPECIAL PROGRAMME: The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible.

The Italian Government authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U.S. Secretary of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

SHIP TO:

CONSIGNEE: Istituto Nazionale per il Commercio Estero (ICE)

SHIPPING DOCUMENTS: It is requested that four of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, A.C. immediately after ship sails.

ITEMS: 1. PRINTING PAPER: 5000 DTONS of white half-sized book paper. Approx. weight 2.2/2.4 cwt. per sq. metre. Size 28 x 40 inches or 25 x 34 inches, or larger multiple thereof. SAMPLES ATTACHED.

2. COVER PAPER: 255 DTONS. Any quality of printing paper can be used, but the weight should be approx. 5.25 cwt. per sq. metre. Blue, green, red, in equal proportions. SAMPLES ATTACHED.

3. BLACK INK: 49 DTONS of common dense printing ink. This ink should be more dense than that used for newspapers.

4. BLACK OFFSET INK: 21,15 DTONS.

5. COLOURED OFFSET INK: 71,2 DTONS. Red, blue, yellow, green, in equal proportions.

3478

SHIP TO:

CONSIGNEE: Istituto Nazionale per il Commercio Estero (ICE)

SHIPPING DOCUMENTS: It is requested that four of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, A.C. immediately after ship sails.

- ITEMS:
1. PRINTING PAPER: 50% DTONS of white half-sized book paper. 6136 approx. weight 2.2/2.4 oss. per sq. metre. 6136 28 x 40 inches or 25 x 34 inches, or larger multiple thereof. SAMPLES ATTACHED.
 2. COVER PAPER: 255 DTONS. Any quality of printing paper can be used, but the weight should be approx. 5.25 oss. per sq. metre. Blue, green, red, in equal proportions. SAMPLES ATTACHED.
 3. BLACK INK: 49 DTONS of common dense printing ink. This ink should be more dense than that used for newspapers.
 4. BLACK OFFSET INK: 21,15 DTONS.
 5. COLOURED OFFSET INK: 77,2 DTONS. Red, blue, yellow, green, in equal proportions.
 6. THREAD: 15,125,000 yards of yarn packed in cylindrical bobbins, as per attached sample.
 7. GLUE: 81,17 DTONS of glue for fastening covers in books.

In respect of all the above items, reference is made to Requisition Number M.O.S. 124 (M) dated 3 April 44. The supplies received in response to this Requisition request were satisfactory.

JUSTIFICATION:

1. These materials are required to enable text-books to be produced to meet the needs of elementary schools, secondary schools, and universities in the whole of Italy during the academic year 1945/46. Existing supplies of material are nearly exhausted.

(more)

9/1/310

- 2 -

2. It is appreciated that some time must elapse before all the materials asked for can be expected to arrive in Italy. However, it will be necessary to start printing early in July and the provision of these materials must, therefore, be regarded as urgent.

3. The amount of material required has been calculated on the following basis:

(1) Elementary Schools:

2,608 millions of paper required to print 10,000,000 books for 5,200,000 children. Other materials asked for in proportion.

(2) Secondary Schools:

1968 millions of paper required to print 4,000,000 books for 988,000 children. Other materials asked for in proportion.

(3) Universities:

492 millions of paper required to print 1,000,000 books for 165,000 students and for the teaching profession. Other materials asked for in proportion.

3477

4. It is imperative that new and wholesome text-books for use in the elementary and secondary schools of Italy, and in the universities, should be put on the market as soon as possible. The youth of Italy cannot live by bread alone. They must be given a fair chance to lift themselves and their Country out of the era of fascism, defeat, disillusionment, and despondency. The need for non-fascist school books is very urgent on political as well as on educational grounds. New texts have been prepared and approved, and the materials for producing them on a large scale are asked for now as an urgent political and educational priority.

5. A letter signed by the Minister of Public Instruction undertaking to meet the cost of these materials on delivery is attached.

For the Director of Education:

(2) Secondary Schools:

1968 DWTons of paper required to print 4,000,000 books for 968,000 children. Other materials asked for in proportion.

(3) Universities:

492 DWTons of paper required to print 1,000,000 books for 165,000 students and for the teaching profession. Other materials asked for in proportion.

4. It is imperative that new and wholesome text-books for use in the elementary and secondary schools of Italy, and in the universities, should be put on the market as soon as possible. The youth of Italy cannot live by bread alone. They must be given a fair chance to lift themselves and their Country out of the era of fascism, defeat, disillusionment, and despondency. The need for non-fascist school books is very urgent on political as well as on educational grounds. New texts have been prepared and approved, and the materials for producing them on a large scale are asked for now as an urgent political and educational priority.

5. A letter signed by the Minister of Public Instruction undertaking to meet the cost of these materials on delivery is attached.

For the Director of Education:

Sir P.M. Magnus, RT.,
Major.

TEXT - BOOKS

The publication of elementary school text-books for the use of school children during the current year 1944-45 ended on the 31 March. ^(At that time a few) special orders ^{were} are still being executed and there were 378,180 books in process of printing. ^{These} which will be finished and distributed shortly. In a final spurt the number of books printed was raised from 1,149,360 at the end of February to 1,567,733 at the end of March. Of this ~~total~~ ^{rest} figure of ~~1,567,733~~, 1,466,367 had been distributed at the end of March and were actually being thumbed by the children.

Including books in process of printing and distribution, the total of books printed and distributed represents 54.3% ^{figure} of the target aimed at. 3476
The result, though far from satisfactory, is much better than could have been anticipated two months ago.

Arrangements for assuring adequate supplies of elementary school text-books for the whole of Italy during the year 1945-46 are in hand. Much depends on the date of arrival of the very large quantities of supplies for which a formal requisition is in process of being made. It is anticipated that to meet the needs of text-books production, not only for elementary schools, but for secondary schools and universities as well, the following materials will be needed:

Printing paper	5,150 tons (metric)
Cover paper	260 tons "
Black ink	50 tons "
Black offset ink	21.5 tons "
Coloured offset ink	78.5 tons "
Thread	14,100,000 metres
Glue	83 tons "

OGGETTO: MATERIALE RICHIESTO PER LE SCUOLE
ITALIANE PER IL 1945/46

16 Aprile 1945

A: Sotto Commissione per l'Educazione
attenzione della Sig.na ROMBO.

Unisco alla presente un elenco del materiale richiesto per le scuole Italiane per l'anno 1945/46 e seguenti rilievi: 74

1. I quaderni indicati ai numeri 1 a 11 sono inclusi nella richiesta che sto' cercando di ottenere attraverso la Sotto Commissione del Commercio riguardo il fabbisogno di materiali per le scuole elementari, secondarie e universita' ? o si riferiscono ad una ulteriore richiesta ?
2. Se formono parte di una ulteriore richiesta, sara' necessario indicare la qualita', ed il colore della carta necessaria unitamente ai pesi ed alle misure lineari.
3. Quando possibile, sara' opportuno unire 4 campini dei materiali richiesti.
4. Tutte le misure dovranno essere indicate in misure inglesi e non metriche.
5. Sara' necessario stabilire categoricamente che nessuno dei materiali richiesti nell'elenco cui alla presente, sono gia' stati richiesti. Particolarmente, gradirei sapere con esattezza che nessun materiale per il fabbisogno educativo Italiano sia stato incluso nel programma aggiunto di importazioni essenziali per l'Italia durante il 1945.
6. Il numero di fogli di carta richiesta non potra' interessare la Divisione di Requisizione della S/C del Commercio, io credo. Occorrera' sapere i pesi, il colore, le qualita' ed i tipi di carta ed il peso totale di ogni tipo richiesto.
7. A rticoli 12 a 20: Sara' opportuno indicare i pesi (individuali e totali), le misure, i colori e le qualita' di questi articoli. Carta millimetrata non ~~six~~ mi dice nulla, sara' necessario essere piu' chiari.
8. A rticolo 21: sara' necessario specificare un tipo o tipi di pennini. Un campione del pennino e dei pennini sara' necessario, onde trasmettere la richiesta per un tipo uguale o equivalente.

- 2 -

9. Articoli 22 a 24: Sono necessarie misure inglesi. Vi sono molte varietà di inchiostri di ogni colore, alcuni pessimi. Sarà opportuno specificare un determinato tipo o tipi o i loro equivalenti.
10. Art. 25: E' indispensabile conoscere la marca della macchina da scrivere o macchine da scrivere. Suggestiscono inoltre l'opportunità di conoscere le misure ed i colori dei nastri richiesti.
11. Art. 26: Specificare il tipo di portapenna onde accertarsi che sia adatto al pennino richiesto.
12. Art. 27 3 31: Matite n.1, n.2 ecc. non definisce nulla. Credo opportuno fornire campioni.
13. Art. 32: Fornire campioni.
14. Art. 35 & 36: E' certo che non si possa trovare gesso in Italia? Se non e' possibile trovarlo, sarà necessario indicare i pesi, colori e le misure dei gessi richiesti.
15. Art. 37: Indicare i colori ed i pesi.
16. Art. 38: Fornire campioni.
17. Art. 39 & 40: elencare i colori. Precisare se le scatole sono richieste per scuole elementari o secondarie.
18. Art. 41: Non e' chiaro. Sarà opportuno specificare più ampiamente.
19. Art. 42: In ogni caso indicare i pesi sia totali che individuali, si ogni tubo.
20. Art. 45: Questo non mi risulta chiaro di che si tratta.
21. Art. 46: Non vi sono molti tipi di vernice finale? 3473
22. Art. 47: Non vi sono molti tipi di acquaragia? E' essenziale indicare chiaramente che cosa si intende per "solventi", oltre che le misure e formati di ogni latta, tubo o vasetto per ogni articolo. Sarà necessario indicare come devono essere imballati.
23. Non comprendo che s'intenda per "Tempere in polvere". Sarà indispensabile specificare più chiaramente.
24. Art. 48 e 64: necessitano i pesi e le misure di ogni tubo, vasetto o latta, unitamente ai pesi totali. Sarò forse ignorante, ma non ho mai sentito parlare di "bianco di titanio" (art. 49) o "giallo di cadmio arancione", "giallo o rosso di cadmio" o "lacca carminata" o "colla totin o di coniglio" o g "gomma arabica". Ho sempre pensato che la glicerina fosse un medicinale. Dobbiamo indicare con precisione che tipo di glicerina si richiede. Misure inglesi sono necessarie in ogni caso.

- 3 -

25. Art.65: E' troppo vago. Non so' che s'intenda per pastello o quale sia la differenza tra vernice a spirito od altre vernici. E' inutile trasmettere una richiesta per "vernici a spirito e fissativi per tempera" o simili. Prego indicare esattamente quello che si desidera e il quantitativo.
26. Art.66: Suggestisco che siano forniti campioni e che in ogni caso, siano indicate le misure esatte.
27. Art.67: Indicare le misure ed i quantitativi esatti. 3472
28. Art.68: Indicare le misure, i pesi e formati.
29. Art. 69: Non sono forse necessarie le misure individuali ? In ogni caso bisognerà' indicare il tipo di cartoni e della preparazione bianca richiesti.
30. Art.70: Specificare il tipo di preparazione semi-assolvente. Non vi sono forse molti tipi di tela ? Sarà' opportuno indicare le misure individuali.
31. Art.71: Indicare il tipo di cera bianca, unitamente alle misure ed ai pesi di ogni tubo o latta.

In generale, nel compilare la nostra richiesta sarà' bene tenere presente che essa verrà' indirizzata ad un impiegato eccessivamente inesperto il quale certamente cadrà' in errori se la nostra richiesta non sarà' compilata con la massima chiarezza e precisione.

Per il Direttore dell'Educazione:

MATERIAL NEEDS FOR SCHOOLS

16 April 1945

TO: Education Sub Commission
Attention of Miss Rombo.

3411

I attach a list showing material needs for Italian schools for the year 1945/46 with the following comments:

1. Do the note books listed in items 1 to 11 form any part of the requisition now which I am trying to force through the Commerce Sub Commission in respect of material needs for elementary and secondary schools and Universities? or are they an additional item?
2. If they constitute an additional item, it will be necessary to state the qualities, colours of papers required, together with the weights and linear measurements.
3. Whenever possible, samples of materials required should be attached.
4. All measurements should be given in English measures and NOT in metric ones.
5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no material for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.
6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.
7. Items 12 to 20: the weights (individual and total), measure-

1. Do the note books listed in items 1 to 11 form any part of the requisition, which I am trying to force through the Commerce Sub Commission in respect of material needs for elementary and secondary schools and Universities? or are they an additional item?
2. If they constitute an additional item, it will be necessary to state the qualities, colours of papers required, together with the weights and linear measurements.
3. Whenever possible, samples of materials required should be attached.
4. All measurements should be given in English measures and NOT in metric ones.
5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no material for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.
6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.
7. Items 12 to 20: the weights (individual and total), measurements, colours and qualities of these items should be given. Millimetrata paper conveys nothing to me, I am afraid.
8. Item 21: it will be necessary to specify a type or types of ribs. Pen-point is probably the better word, if the supply is to come from America. A sample nib or nibs had better be supplied, and we can ask for them or their equivalents.
9. Items 22 to 24: English measures required. There are many varieties of inks of all colours, some of them quite abominable. I think it will be wiser to specify a certain type or types or their equivalents.
10. Item 25: The make of the typewriter or typewriters is relevant here. I suggest further that it is necessary to know the measurements and colours of the ribbons required.

- 2 -

11. Item 26: the type of pen-holder should surely be specified with a view to assure that it is on writing terms with the pen-points asked for above.
12. Items 27 to 31: pencil No.1, pencil No.2 etc. conveys nothing to me. I believe it will be necessary to supply samples.
13. Item 32: samples desirable.
14. Items 35 & 36: Is it certain that no chalk can be found in Italy? If it cannot be found, it will be necessary to specify the weights, colours, measurements of the chalks which are needed.
15. Item 37: Colours should be listed and weights given.
16. Item 38: A sample should be provided.
17. Items 39 & 40: colours should be listed. It is relevant whether the boxes are needed for elementary or secondary schools.
18. Item 41: I find this incomprehensible. It needs to be much more specific.
19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.
20. Item 45: This is not ~~very~~ clear to me.
21. Item 46: Are there not many kinds of final varnish?
22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.
23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.
24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanio white (item 49) or orange cadmio, yellow or ca-dmio red or carminata lacker or totin or rabbit glue or arabic glue. I thought glycerine was a medicine. We need to state exactly what kind of glycerine is needed. English measures are needed in all cases.

17. Items 39 & 40: colours should be listed. It is relevant whether the boxes are needed for elementary or secondary schools.
18. Item 41: I find this incomprehensible. It needs to be much more specific.
19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.
20. Item 45: This is not ~~very~~ clear to me.
21. Item 46: Are there not many kinds of final varnish?
22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.
23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.
24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanio white (item 49) or orange cadmio, yellow or cadmio red or carminata lacker or totin or rabbit glue or arabic glue. I thought glycerine was a medicine. We need to state exactly what kind of glycerine is needed. English measures are needed in all cases.
25. Item 65: It is too vague. I do not know what pastello means or what is the difference between alcohol varnish or other varnish. It is no use asking for fixing mediums ~~as~~ such. Please state exactly what is required and how much.
26. Item 66: I suggest that samples should be provided and that in any case, exact measurements should be given.
27. Item 67: Exact measurements and amounts should be given.
28. Item 68: Exact measurements, weights and sizes should be given.
29. Item 69: Are not individual sizes needed? In any case you should specify the type of board and white preparation which is required.

30. Item 70: The type of semi-absolvent preparation should be specified. Are there not many types of canvass? Should not individual measurements be specified.

31. Item 71: the type of white wax must be stated, together with the size and weights of the individual pots, tubes or tins is desired.

In general, in compiling our requisition order it will be well to assume that it is addressed to an exceedingly stupid clerk who is certain to make mistakes unless the order is made completely watertight and full-proof.

For the Director of Education:

Sir P.M. Magnus, Bt.,
Major.

TO LIASON OFFICE WITH ALLIED COMMISSION
MINISTRY FOR PUBLIC INSTRUCTION

Received 1-6-45

SUBJECT: MATERIAL NEEDS FOR SCHOOLS.

The attached list shows the material needs for Italian schools for the year 1944/45/46.

The figures on the list have been fixed:

- a) by establishing the annual needs of boys and girls of the various schools on the basis of statistics supplied by heads and inspectors of schools;
- b) by multiplying the individual consume by the number of pupils as per statistics of 1942, for the various schools.
- c) by summing totally under one heading such articles as are used in all schools, such as note books, pencils etc.

Demands have been limited as much as possible for those materials which it is expected will be produced in Italy, if not at once, in a near future, whilst the demands for materials which will have to be imported or their manufacturing will require imported materials, have been kept higher.

Technical instruments such as rules, compasses etc. do not form part of this list. In connection with such instruments further investigations would have to be made as to the possibility of national production and existing stocks particularly in northern Italy.

L'ISPETTORE CENTRALE
(C.A.Cavalli)

00

MATERIALS NEEDED FOR THE ITALIAN SCHOOLS
YEAR 1945/46

		<u>of 10 sheets</u>	<u>of 20 sheets</u>
1) Note books for I. elementary		10 millions	560.000
2) " " " II "		6.600.000	1.600.000
3) " " " III "		3.300.000	1.600.000
4) " " " IV "		1.600.000	1.600.000
5) " " with one line		3.125.000	5.250.000
6) " " with large squares for lower element. sch.		6.600.000	1.000.000
7) " " small squares for Higher elem. and secondary sch.		10.5000.000	3.400.000
8) " " commercial squares of 20 sheets.		n. 300.000	
9) Commercial one lined sheets.. reams		100.000	
10) " square lined sheets.. reams		50.000	
11) " square lined sheets .. reams		4.500	
12) Typing paper... reams		43.000	
13) Elem. Sch. drawing paper	Sq. metres	6 millions	
14) Scrap-paper	" "	100.000	
15) Smooth drawing paper	" "	770.000	
16) Rough drawing paper (for water colours)	Sq. metres	130.000	
17) Transparant tracing paper	" "	130.000	
18) "Millimetrata" paper	" "	10.000	
19) Blotting paper.. sheets		100 millions	3467
20) Music paper		400.000 sheets	
21) nibs		70 millions	
22) Black ink		700.000 litres	
23) Red ink		10.000 litres	
24) China ink (bottles of 15 cm. or sticks)		510.000	

- 2 -

25) Ribbons for typewriters	200.000
26) Pen-holders	7 millions
27) Black pencils No2 with indiarubber for elem.	12 millions
28) Pencil No.1	40.000
29) Pencil No.2	800.000
30) Pencils No.3	260.000
31) Pencils No.4	30.000
32) Two coloured pencils (red and blue)	300.000
33) Indiarubbers	2.250.000
34) Ink india-rubbers	400.000
35) Chalk, boxes of 144 pieces of white	~~150.000~~ 150.000
36) " " " " " coloured	35.000
37) Water coloured: Serie of 15 couleurs	20.000 tubes
38) Double water-colours brushes	20.000
39) Boxes of 6 coloured pencils for elem. sch.	6 millions
40) " " 12 " " " secondary sch.	6.000
41) " " 12 water colours	6.000 3466

OIL COLOURS:

42) 5000 series of colours as follows. All other colours(excepting white)in 1/4 lbs tubes.

White zinc in 1/4 lbs tubes.

Titanic white in 1/4 lbs tubes

Cobalto blue

Oltremare blue

Cobalto violet

Emerald green

Green "Terra"

00

- 3 -

Lemon yellow
 Orange yellow
 Chrome orange yellow
 Cadmio red
 Lemon chrome yellow
 Carmine
 Vermillion
 Natural Terra di Siena
 Burned Terra di Siena
 Natural Terra di Ombra
 Ivory black
 Light Ocre yellow
 Red terra or Venice red

3465

VARNISH AND MEDIUMS

43) Essential turpentine oil	2000 litres
44) Poppy oil	500 litres
45) Drying medium	160 litres
46 Final varnish	200 litres
47) Turpentine	10.000 litres

48)x SPREADING MATERIALS:

in powder

48) White zinc	1 ton
49) Titanio white	1 ton
50) Cobalto blue	50 kg.
51) Oltremare blue	100 kg.
Emerald green	100 kg.
53) Lemon yellow	50 kg.
54) Lemon chrome yellow	100 kg.

- 4 -

- | | |
|--|-----------------|
| 55) Orange Cadmio Yellow | 50 kg. |
| 56) Cadmio red | 50 kg. |
| 57) Vermillion red | 100 Kg. |
| 58) Carmine | 50 kg. |
| 59) Cerminated lacker | 100 kg. |
| 60) Totin glue or Rabbit glue | 100 Kg. |
| 61) "Caseina" Glue | 100 Kg. |
| 62) Arabic glue | 30 Kg. |
| 63) Glicerine | 50 Kg. |
| 64) Lacker glue | 50 Kg. |

TO: Lt.Col. C.W.Washburne
Director of Education

26th March 1945

1. My report on the material situation is being typed on a separate sheet.
2. Samples of paper on hand are in my cupboard.
3. I visited Vallecchi and other Rome printers. They are now making satisfactory progress.
4. My report on books in process of printing together with a report on books printed and distributed, subsequently to the figures shown on the latest Sub Commission report, is being prepared separately.
5. The report on the material situation in Naples and Palermo is being prepared separately.
6. The pamphlet on elementary school text-books black-listed and expurgated has gone forward for printing.
7. I have found certain sources for supply of glass and have indented formally for 24,000 sq. metres for Rome Region and 36,000 sq. metres for Toscana Region.

Sir P.M.Magnus, BT.,
Major.

Minutes for Mrs. Washburne's Palermo printing file

9-3-45

1. Director.

If your approve?

2. Vice - President.

The list at 5A gives the latest figures of elementary school text-books printed and distributed in Liberated Italy. It is self-explanatory, but I will add:

I. That the totals of books shown as printed and distributed in PALERMO, NAPLES, and ROME are to-day actually being thumbed by the children. The R.E.G. is convinced that this will also be true, by 15 March, in the case of the totals shown for FLORENCE.

II. Distribution to date in the four printing centers: PALERMO, NAPLES, ROME, FLORENCE, represents percentage totals of the targets originally aimed at as follows:

	T A R G E T	PRINTED TO DATE	% of TARGET
PALERMO	575.000	131.500	35.1 %
NAPLES	1.112.000	233.600	21.5 %
ROME	1.039.000	465.700	45 %
FLORENCE	1.039.000	358.000	34.4 %

These targets were originally set in the hope of putting one copy of every book in the hands of every child who would need to use it. The main reason why the above totals of books distributed to date fall so far short of the targets is that the materials from the U.S. arrived so late as to render their attainment an impossibility.

III. At this late date in the school year it is likely that most schools will be increasingly unwilling to make new purchases of the expurgated State

monopoly text books which will be outsold in succeeding years. They have already had to be content with makeshift arrangements using one book for two or more children or resuscitating last year's books. I am satisfied that the decision to cease printing the State monopoly text books throughout liberated Italy as from 31 March 1945 is sound if the needs of liberated Italy alone are taken as the criterion. The expurgated State monopoly text books will of course be required in very large numbers to meet the needs of the North as soon as the Germans withdraw. Arrangements for meeting the need have been made.

IV. PALERMO. A considerable amount of material has been printed outside the number of books shown as distributed. But it is not yet bound. The R.E.O. is convinced that close on 500,000 books will be printed, bound and distributed before 31 March. To my judgement he should come near to achieving this result.

V. NAPLES. The %age distribution to date of the target aimed at is lamentable. Factors which have contributed to this poor result are, in my judgement, in order of importance:

- a) The late arrival of material.
- b) Lack of initiative and drive.
- c) Lack of transport.
- d) Inadequate facilities for cutting and binding.
- e) Inadequate opportunities for printing. - P.B.S. has sometimes interfered - and for warehousing supplies.

What can be said is:

1. That by 31 March 1945 at least a quarter of a million books will be in the hands of Elementary School children in the areas supplied from Naples.

2. Dr. Albin, the representative in Naples of the Ministry of Public Instruction, is an excellent man in whom I feel real confidence. Every hope, therefore, exists that better results will be achieved during the school year 1945-46.

VI. ROME. No comments.

VIII FLORENCE. See I. above.

Sir Philip M. Magnus, BT.,
Major

9.3.45

3450

HEADQUARTERS ALLIED COMMISSION
Education Subcommittee
APO 394

ED/208/vv

TO : Major Carleton F. Washburne
Director of Education.

25 February 1945

I visited Palermo and Naples between 20 and 27 February 1945 to ascertain the position in regard to the production and distribution of elementary school text-books in those centres.

1. PALERMO.

299,000 elementary school text-books are required for the current year. The material available will be sufficient to produce them all, but will not leave anything appreciable to be placed towards next year's needs. Some 86,000 books remain to be printed and Lieutenant De Bellis and Prof. La Barbera undertook that these should be ready by 25 November. I think distribution should be finished by 30 November.

This position is not particularly satisfactory, except by comparison with Naples. Production is in the hands of three firms, all of which need constant prodding and watching. I visited them all and impressed on them the need for haste. Bellotti, competent and quite agreeable rogue, is the most substantial publisher. I.R.E.S. is not very competent, and Santi Ando is rather more than normally unreliable. He needs to be driven.

Bellotti's work should be finished by 20 November, I.R.E.S. by 25 November, and Santi Ando by 10 November. Lieutenant De Bellis possesses drive and enthusiasm, and Prof. La Barbera is not without initiative. He will require a technical assistant after Lieutenant De Bellis leaves. I asked him to take this matter up with Prof. Giordani, and I said I would do the same from this end.

Lieutenant De Bellis borrowed newsprint from F.R.R. with which 158,800 elementary school books were printed. This F.R.R. paper was destined for secondary schools and I arranged that it should be repaid. I will have 30 tons of paper sent from Naples, and a small balance will then be left over towards next year's needs. Lieut. De Bellis will let Prof. Giordani and the Subcommittee have an exact statement of what is left over as soon as the printing is finished. Prof. La Barbera estimated next year's needs to be roughly the same as for the current year. He promised to let Prof. Giordani and the Subcommittee have a precise estimate within a fortnight.

94/1.0
34/9
32

- 2 -

Seven tons of paper have been used to print 140,000 note-books. A satisfactory job has been made of this.

I formed the impression that Lieut. De Bellis and Prof. La Barbera were in control of the situation.

2. NAPLES.

900,000 books are needed and 238,655 have been printed. Some 661,345 books remain to be printed and at this late period of the school year the situation can only be regarded as deplorable. Factors which have contributed to this situation are, in my opinion, in order of importance:

1. Lack of initiative and drive. I established friendly personal relations with Major Murphy, who works under the great disadvantage of possessing no transport of his own. He lacks interest in the detailed work of producing and distributing elementary school text-books.
2. Lack of transport on the part of the Italian company responsible for moving the Allied material from Warehouse 676 to the printers and cutters. I was told that such transport as is available frequently breaks down, but I was unable to verify this.
3. All the paper has to be cut by one firm, Scarpata, and this produces a bottle neck. F.R.S. also employ Scarpata for cutting paper of theirs.
4. F.R.S. use all our three printers for work of their own and this delays our printing. Dr. Albin has recently found a fourth printer at Portici.
5. The publisher - Dante Alighieri - has hitherto preferred, very naturally, to warehouse all his materials, free of charge, in Warehouse 676. There would, perhaps, be no great harm in this if the transport arrangements worked smoothly and efficiently, but as they do not, a further delay is imposed. The publisher has now been persuaded to warehouse some of our material on his own premises.
6. Inadequate binding facilities impose, at times, a further bottle neck.

None of these difficulties is insuperable, and I was favorably impressed by the character and personality of Dr. Albin. I explored Warehouse 676 at Portici and found some discrepancies between our records and material which should be there consigned to this Subcommission and the material which I actually saw. These discrepancies Albin promised to resolve by personal investigation on the spot. He has a pass to enter the warehouse whenever he chooses.

Prof. Albin is preparing "with scrupulous accuracy" - to use his own words -

- 3 -

an account of all materials received and used. He is informed by a real spirit of disinterested enthusiasm for education, and we are fortunate, in my opinion, to be able to call upon the services of someone of his technical qualifications and capacity.

I do not think he has any need of an assistant when Major Murphy leaves.

I found that demands for elementary school books are increasing, so that we may have to revise our original estimate of 900,000. On the other hand Major Murphy leans to the view that, as schools have had to employ makeshift arrangements and secure what books they can during the current year, and as, further, the question of books for the new school year raises outside issues, we may find, before we complete the printing of all our 900,000 books, that there is a cessation of demand for them.

Major Murphy could hold out no hope that the full number of 900,000 would be printed and distributed before the middle of April.

I append Bagalbin's estimate of next year's material requirements.

SIR P.M. MARRIS, BART.
Major.

HEADQUARTERS ALLIED COMMISSION
Education Subcommittee
APO 394

ED/RM/vv

TO the A/Director of Education

14 February 1945

Report of a Visit to Florence

2-15 Feb. 1945

I visited Florence accompanied by Capt. Beard, and am confident of having established a good personal and official relation with the Regional Education Officer, and his assistant. Herein, I am sure, lies the principal virtue of my journey, as most of the points referred to below had been previously raised by Capt. Beard.

I propose to let Capt. Sam. Nee have note of the following points which were all dealt with in the course of our discussions :-

1. I arranged that Prof. Ugolini, the representative of the Italian Ministry of Public Instruction in Florence, should be provided with a technical assistant, to be paid out of A.M.C. funds. This assistant is NOT in my opinion primarily necessary on the score that Prof. Ugolini is overworked. It is necessary in order to provide an additional check against the chance that the publishers can exploit Ugolini's ignorance of the elementary details of book production so as to use Allied materials for purposes other than those which we intend. I pointed out that it was essential that Ugolini should be responsible for checking the consignment notes issued by the warehouses on the one hand against the receipts given by the publishers for material supplied them and on the other against the books produced by the publishers with that material.

2. I interviewed all the publishers of Elementary school text books in Florence, together with the President and secretary of the Consorzio. Accompanied by Capt. Nee I inspected the larger warehouses in which Allied material is stored. I arranged that Ugolini should be responsible for procuring receipts from all publishers in respect of all paper and materials supplied to them from Allied sources. These receipts will be rendered in triplicate - one to the Regional Supply Accountant and two to Capt. Nee who will pass one on to the Subcommittee.

I visited Montecatini on Sunday and interviewed Capt. Allen, the Supply Accountant. I tied this arrangement up with him and arranged that he should communicate direct with me if any difficulty arose and at the end of February if no receipt had at that date been received by him.

5

- 2 -

3. The Florentine publishers asked whether the cost of cutting and handling the paper supplied from Allied sources could be borne on A.M.G. or A.C. funds. I said that they could put up a case if they wished thro' the R.E.O. but that the answer was "No".
4. I arranged that Prof. Ugolini should submit every fortnight to the R.E.O. a report in regard to the situation of paper and other materials supplied from Allied sources in Florence. These reports will be passed to the Subcommittee thro' the R.E.O. who will also incorporate them in his regular monthly report.
5. I undertook to arrange that a price should be fixed for binding thread and any other supplies (ink, glue etc.) which have not yet been priced. I will inform the R.E.O. if any thread is released before price is fixed. The publishers concerned will give a receipt and the price will be inserted later.
6. I instructed Prof. Ugolini to furnish the Subcommittee, thro' the R.E.O. with an estimate of further needs of all elementary school books and supplies. These reports will be rendered before 7 March 1945.
7. One publisher, Vallecchi, had used his own binding thread at the request of the R.E.O. to print state elementary text books. He now wished it replaced. I said that the thread could be replaced at the discretion of the R.E.O. forthwith. Vallecchi would give a receipt on the lines mentioned in para 5 above. Capt. Nee would not necessarily release the full quantity at once. The supply position would first be checked on the spot.
8. One publisher wanted to exchange Allied flat paper for P.W.B. roll paper. P.W.B. are anxious to effect the exchange. I asked for the request in writing, and brought it back with me.
9. Certain blue cover paper had been supplied to Florence which was never required. It was suggested that it was supplied in error and that it was intended for matches. I said that I would take this matter up with the Commerce Subcommittee.
10. Prof. Ugolini expressed himself as satisfied with the present position regarding the distribution of school books.

SIR P.M. MAGNUS, ET.

TEXT BOOKS and PRINTING PAPER
for the school year 1945-46.

12-7-45

1. The estimated number of text books to be printed for the school year 1945-6 for the whole of Italy, is as follows:

Elementary Text Books	10,000,000
Secondary Text Books	4,000,000
University Books	1,000,000

2. Committees have been appointed in each region dealing with the approval of text books for next year and a circular which lays down the procedure to be followed for printing text books has been sent to all Editors.

3. The amount of paper required for the printing of text books for the school year 1945-6 is 5064 tons ~~minimum~~. A large proportion of it will be made available locally. To this effect a series of discussions took place in Rome and Milan between representatives of PNB, Commerce Subcommittee and this office. The main difficulty in this drive of printing text books is represented by the cost of paper obtained locally. Efforts have been made by Commerce Subcommittee to keep it as low as possible, but it is anticipated that it will not be possible to buy it at less than 55 lire a kilo. It is hoped however to obtain a reasonable average low price by realising for sale at a higher price the paper which has come and due to come from the United States and which costs 20 lire a kilo and thus subsidizing the cost of the paper obtained from local sources.

4. 455 tons of paper have arrived from the United States and have been made available to Education Subcommittee. More paper is due to arrive soon.

31 March 1945

1. The attached list shows the estimated quantities of materials which will be required to meet elementary school needs for the whole of Italy during 1945/46. Paragraph 1, of the memorandum shows the information on which this demand is based. The matter has been discussed and agreed with the Italian Ministry of Public Instruction.
2. Printing should begin not later than the month of June. Existing supplies of materials are approaching exhaustion.
3. To meet the minimum needs of secondary schools for the whole of Italy during 1945/46, an additional 2,000 tons of flat offset paper will be required. The work of printing these books should be begun in the month of June.
4. An additional 500 tons of flat offset paper is required for printing University text-books and other books of an educational character. The work of printing these books should be begun in the month of June.
5. Inks: black offset and coloured, together with cover paper, thread and glue will be required on the same proportionate scale for secondary and University text-books as that laid down in the memorandum attached for elementary school books.
6. Will you kindly state whether or not supplies on the scale outlined above are scheduled to be available in adequate quantities beginning during the month of June, under the provision of your Programme of Essential Italian Imports dated 26 March. A copy of this programme was given to this Sub Commission on request on the 30 March, but it had not previously been seen by this Sub Commission nor was it known that such a programme was in course of preparation.

For the Director of Education.

Sir P.M. Magnus, ST.,
Major.

PROBABLE REQUIREMENTS OF MATERIALS FOR ELEMENTARY SCHOOL
TEXT BOOKS FOR THE WHOLE OF ITALY, YEAR 1945/46

- I. The following figures show the number of children, as per Ministry's statistics, attending all elementary schools in Italy: liberated and yet to be liberated:

Class	Number of children
I	1.400.000
II	1.150.000
III	1.100.000
IV	900.000
V	650.000
Total	5.200.000

2. The following figures show the total number of books required for the above children:

Class	Number of books for each child	Total
I	1	1.060.000
II	1	865.000
III	2	1.650.000
IV	4	2.700.000
V	4	1.950.000
IV & V	2	2.325.000
Total		10.600.000

3. The approximate totals of materials needed for the printing of the aforesaid 10.600.000 books are as follows:

- a) PRINTING PAPER: (105.000 reams of the 70 x 100 size sheet).
Approximate weight of paper 25 Kg. per ream
equal to a total of: 2.650 tons approx.
- b) COVER PAPER: (26.500 reams of the 70 x 100 size sheet).
Approximate weight of each ream KG.50 equal
to a total of: 135 tons approx.

(over)

RA/1.0.

2

- 2 -

- c) BLACK INK: For books which must be printed in black ink:
26.000 kg. approx.
- d) OFFSET BLACK INK: For two or more coloured books and covers:
11.000 Kg. approx.
- e) COLOURED INKS: For two or more coloured books and covers
- | | |
|--------|--------------------|
| blue | 13.500 Kg. approx. |
| yellow | 13.500 " " |
| red | 13.500 " " |
- f) BINDING THREAD: The quantity needed will be:
7.200.000 meters approx.
- g) GLUE: reckoning an average of 4 grams per volume:
42.500 Kg. approx.

PROPORTIONAL QUANTITIES OF THE ABOVE MATERIALS NEEDED
IN EACH REGION

I. PALERMO (I Region)	<u>8% of general total</u>
Printing paper	212 tons
Cover paper	10,8 tons
Black ink	2.080 Kg.
Offset black ink	880 "
Coloured inks (each colour)	1.080 "
Thread	576.000 meters
Glue	3.400 Kg.
2. NAPLES (II, III, VI and VII Regions)	<u>20% of general total</u>
Printing paper	530 tons
Cover paper	27 "
Black ink	5.200 Kg.
Offset black ink	2.200 "
Coloured inks (each colour)	2.700 "
Thread	1.440.000 meters
Glue	8.500 Kg.
3. ROME (IV and V Regions)	<u>16% of general total</u>
Printing paper	424 tons
Cover paper	21,6 tons
Black ink	4.160 Kg.
Offset black ink	1.760 "
Coloured ink (each colour)	3.160 "
Thread	1.152.000 meters
Glue	6.800 Kg.

- 3 -

4. FLORENCE (VIII and IX Regions) 16% of general total

Quantities are exactly the same as fixed for Rome.

5. TURIN (X Region) 10% of general total

Printing paper	265	tons
Cover paper	13,5	"
Black Ink	2.600	Kg.
Offset black ink	1.100	"
Coloured ink (per each colour)	1.350	"
Thread	720.000	meters
Glue	4.250	Kg.

6. MILANO (XI Region) 14% of general total

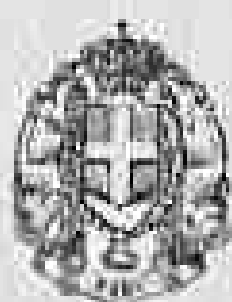

Printing paper	371	tons
Cover paper	18,9	"
Black ink	3.640	Kg.
Offset black ink	1.540	"
Coloured ink (each colour)	1.390	"
Thre-a-d	1.008.000	meters
Glue	5.950	Kg.

7. VENICE (XII Region) 16% of general total

Quantities are exactly the same as fixed for Rome and Florence.

**PREVENTIVO GENERALE SINTETICO DEL MATERIALE OCCORRENTE ALLA STAMPA DEI
TESTI DELLE SCUOLE ELEMENTARI NELL'ITALIA LIBERATA E DA LIBERARE PER
L'ANNO 1945-46**

1° = Dalle statistiche ministeriali risultano frequentare le scuole elementari pubbliche e private, urbane e rurali dell'Italia liberata e da liberare all'incirca 5.200.000 alunni suddivisi come segue:

Classe	n. di alunni
I	1.400.000
II	1.150.000
III	1.100.000
IV	900.000
V	650.000

Totale 5.200.000 (Alunni)

2° = Il numero totale delle copie dei libri occorrenti per i suddetti alunni computando una frequenza ridotta del 25% è complessivamente ed approssimativamente di 10.600.000 volumi così suddivisi:

Classe	n. di libri per alunno	Totale dei libri
I	1	1.060.000
II	1	865.000
III	2	1.550.000
IV	4	2.700.000
V	4	1.950.000
IV e V	2	2.325.000

Totale 10.600.000 (Volumi)

3° = I materiali totali approssimativi occorrenti alla pubblicazione dei suddetti 10.600.000 volumi sono in base ad un calcolo tecnico presso a poco i seguenti:

- a) CARTA DA STAMPA: (formato 70x100 occorrono 105.000 risme). Calcolando il peso di una risma a kg. 25 circa si avrà un peso totale di Tonn. 2.650 appross.
- b) CARTA DA COPERTINA: (formato 70x100 occorrono risme 26.500). Computando il peso di una risma a kg. 50 circa si avrà un peso totale di Tonn. 135 appross.
- c) INCHIOSTRO NERO DA STAMPA: per i libri che debbono stamparsi soltanto in nero occorreranno Kg. 26.000 appross.

= 2 =

- d) INCHIOSTRO NERO OFFSET: per i libri a due o più colori e per le copertine ne occorreranno
Kg. 11.000 appross.
- e) INCHIOSTRI COLORATI: per i libri a due e più colori comprese le copertine ne occorreranno per il
azzurro Kg. 13.500 appross.
giallo " 13.500 appross.
rosso " 13.500 appross.
- f) REFE PER LEGATORIA: ne occorrono complessivamente
Matri 7.200.000 appross.
- g) COLLA: computandone in media 4 grammi a volume ne occorrono
Kg. 42.500 appross.

SUDDIVISIONE PROPORZIONALE DEL SUDDETTO MATERIALE OCCORRENTE ALLA STAMPA
SECONDO I GRANDI CENTRI REGIONALI DI EDIZIONE

1° Centro= PALERMO (comprende la 1^a Regione) 8% del totale generale

Carta da stampa:	Tonn.	212
Carta copertina:	"	10,8
Inchiostro nero:	Kg.	2.080
Inchiostro nero offset:	"	880
Inchiostro colorato(per colore)	"	1.080
Filo:	m.	576.000
Colla:	Kg.	3.400

2° Centro= NAPOLI (comprende la II, III, VI e VII Regione) 20% del totale generale

Carta da stampa:	Tonn.	530
Carta copertina:	"	27
Inchiostro nero:	Kg.	5.200
Inchiostro nero offset:	"	2.200
Inchiostro colorato(per colore)	"	2.700
Filo:	m.	1.440.000
Colla:	kg.	8.500

3° Centro= ROMA (comprende la IV e la V Regione) 16% del totale generale 3420

Carta da stampa:	Tonn.	424
Carta copertina:	"	21,6
Inchiostro nero:	Kg.	4.160
Inchiostro nero offset:	"	1.760
Inchiostro colorato (per colore)"	"	2.160
Filo:	m.	1.152.000
Colla:	Kg.	6.800

- 3 -

4° Centro = FIRENZE (comprende l'VIII e la IX Regione) 16% del totale generale

I quantitativi sono identici a quelli stabiliti per ROMA.

5° Centro = TORINO (comprende la X Regione) 10% del totale generale

Carta da stampa:	Tonn.	265
Carta copertina:	"	13,5
Inchiostro nero:	Kg.	2.600
Inchiostro nero offset:	"	1.100
Inchiostro colorato (per colore)	"	1.350
Filo	m.	720.000
Colla	Kg.	4.250

6° Centro = MILANO (comprende la XI Regione) 14% del totale generale

Carta da stampa:	Tonn.	371
Carta copertina:	"	18,9
Inchiostro nero:	Kg.	3.640
Inchiostro nero offset:	"	1.540
Inchiostro colorato (per colore)	"	1.890
Filo:	m.	1.008.000
Colla:	Kg.	5.950

7° Centro = VENEZIA (comprende la XII Regione) 16% del totale generale

I quantitativi sono identici a quelli stabiliti per ROMA e per FIRENZE.

Roberto Giordani

3419

from Prof. Roberto Giordani

22nd March 1945

SITUATION OF MATERIAL FROM U.S. FOR PRINTING OF ELEMENTARY SCHOOL BOOKS
YEAR 1944/45

The payment of material for elementary school text-books in Italy, through agreements with the Istituto Nazionale per il Commercio Estero, is covered by a payment on Account N. 208 of the I.C.E., made by the person who takes delivery of the goods and in the proportion fixed by the ICE for each single type of commodity.

The Regional Delegates of the Ministry for Public Instruction, namely in Palermo: Prof. Gioacchino La Barbera; in Naples: Prof. Adriano Albin; in Rome Prof. Roberto Giordani, who is at the same time Central Representative of the Ministry; in Florence Prof. Giuseppe Ugolini; take care that payments are duly made.

MATERIAL SIGNALLED:

In connection with materials signaled, I have received three reports from Capt. Bear not all in agreement.

I received one very synthetical on the 15th January 1945.

A second, more detailed, dated 3rd Feb. 1945.

A third, synthetical, but fairly exact, dated 22nd Feb. 1945.

According to the second and third of these reports, which I am using, together with regional reports in my possession, to compile the present report, the material signaled is as follows:

- | | | |
|-----------------------|------------------|--|
| a) PRINTING PAPER | Tons 705 (gross) | (The report 3 Feb. shows tons 708 against an original request for 950 tons.) |
| b) COVER PAPER | Tons 47 (gross) | (The 3 reports agree). |
| c) CARDBOARD FOR FLAT | Lbs 1124 | " " |
| d) TRANSFER PAPER | Lbs 55 | |

- 2 -

- e) PRINTING INK Ton. 14 (gross)
- f) OFFSET INK
(black, yellow, blue, red) Ton. 1
Lbs 787
- g) GLUE Lbs 2552
- h) THREE AD Lbs 3344

MATERIAL ARRIVED

According to reports of the 3rd and 22nd Feb. of the Allied Subcommission and according to the various reports I have received from the regional Representatives of the Ministry for Public Instruction, the following material has arrived:

A. PRINTING PAPER

1. PALERMO Ton. 78 (gross)

$$\begin{array}{r} 138,200 \\ 29,800 \\ \hline \end{array}$$
 (Arrived in Palermo and taken delivery by the Education Off, as per Prof. La Barbera's information of 5 March). In This quantity does not include the cover paper (ton.33) which in Palermo seems to have become confused with the printing paper. The 22 Feb. report shows 87 tons assigned to Palermo).
2. NAPLES Ton. 216 (gross)

$$\begin{array}{r} 138,035 \\ 77,965 \\ \hline \end{array}$$
 (In rolls and cases. The Rep. 22 Feb. shows ton.272, one to arrive in Naples. But 3047 total figure is not confirmed).
3. R O M E Ton. 148 (gross)
 (In rolls: smooth and wrough paper. This lot arrived in Rome with two dispatches: It includes the quantity fixed as reserve)
4. FLORENCE Ton. 75 (gross)

$$\begin{array}{r} 517 \end{array}$$
 (Quantity shown on Rep. 3 Feb. The Rep. 22 Feb. shows instead 71 tons paper assigned to Florence, while a letter from Porf Ugolini to Capt. Bear dated 26.1.45, states paper arrived in Florence as 355 bobines, of which measures not stated, plus tons 4,8).

B. COVER PAPER

- | | | |
|-------------|--|---|
| 1. PALERMO | Ton. 33 (gross)
<u>1,300</u>
31,700 | (Wrongly signaled as printing paper. Prof. La Barbera, in fact, has marked it in his report as being printing paper) |
| 2. NAPLES | Ton. 50.667 (gross)
<u>12,191</u>
38,376 | (According to 3 Feb. Report this gross weight is equal to 212 rolls, whilst in the 22 Feb. report 212 rolls are marked as being equal to <u>47</u> tons: this will have to be clarified). |
| 3. R O M E | Nothing has been received. | (According to assignment Rome should have 10 tons.) |
| 4. FLORENCE | Ton. 36 (gross)
<u>119,667</u> | (Contained in 148 cases. This figure was given by Prof. Ugolini on 26 Jan. 1945.) |

C. BLACK PRINTING INK

- | | | |
|-------------|--|--|
| 1. PALERMO | Nothing has been received. | |
| 2. NAPLES | Ton. ¹⁶ 47.447 (gross)
<u>1,183</u>
358 | (Contained in 65 barrels. Signaled as arrived in Rep.s 22 Feb. & 3 Feb. of A.S/C). |
| 3. R O M E | Nothing has been received. | |
| 4. FLORENCE | Nothing has been received. | |

D. OFFSET INK
(black & coloured)

- | | | |
|-------------|--|---|
| 1. PALERMO | Lbs 787 (gross)
<u>100 Kc.</u>
3 | (La Barbera writes that this lot was contained in 8 cases and is black, red and blue). 3416 |
| 2. NAPLES | Tons 1,087 (gross)
<u>12,000</u> | (Prof. Albin states it was contained in 21 cases & 180 cans). |
| 3. R O M E | Nothing | |
| 4. FLORENCE | Nothing | |

E. Powdered glue.

- 4 -

E. POWDERED GLUE

- | | | |
|-------------|---|---|
| 1. PALERMO | Kg. 450 (gross)
<u>110</u>
340 | (Contained in 9 barrels, of which 2, according to Prof. La Barbera, damaged and halved). |
| 2. NAPLES | Tons 6,52 3 (gross)
<i>about 1/2</i> | (Rep. 22 Feb. shows 34 barrels, whilst Prof. Albin in a letter to D. Alighieri 3 Feb. 45, states 40 barrels). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

F. BINDING THREAD.

- | | | |
|-------------|--------------------|--|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Tons 1,436 (gross) | (Rep. 3 Feb. 45 states tons 1,07. Prof. Albin writes that he saw the lot). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Tons 1 (gross) | (Deposited at the ink factory "Etelia"). |

G. CARDBOARD FOR "FLANI" *matting paper*

- | | |
|-------------|-----------------|
| 1. PALERMO | Nothing. |
| 2. NAPLES | Kg. 453 (gross) |
| 3. R O M E | Nothing. |
| 4. FLORENCE | Nothing. |

H. TRANSFER PAPER

- | | |
|-------------|----------------|
| 1. PALERMO | Nothing. |
| 2. NAPLES | Kg. 14 (gross) |
| 3. R O M E | Nothing. |
| 4. FLORENCE | Nothing. |

3415

NOTE: Not all material arriving in a certain place is for use in that place, neither is it, therefore, always taken delivery of or used in that place.

- 5 -

DELIVERY OF COMMODITIES

Material arriving from U.S. in one of the printing centres - Palermo, Naples, Rome, Florence - is taken delivery of, either all or in part, either by the ~~Ministry~~ Regional Education Office, as occurred in Palermo and Florence, thence handed over to the ~~Ministry~~ Representatives of the Ministry for Public Instruction, who thence delegate the Regional publishing firms entrusted with the printing of school text-books to take delivery, - or is taken delivery of directly - though always through the representatives of the Ministry - by several Publishers entrusted with the printing of school text-books; as occurred in Naples and Rome, where the material was delivered to the Dante Alighieri publishing State firm, which directs the publishing of school text-books.

The Representatives of the Ministry, in agreement with the I.C.E., as has been previously stated in this report, arrange that the Publishers receiving delivery of material pay a deposit in proportion to the value of the commodities on the Account of the Istituto Nazionale per il Commercio Estero.

The material delivered is not considered sold: it is distributed to the publishers, printers, according to regional publishing programmes fixed and according to the number of books, under obligation of keeping all material left over from the printing of such books at disposition of the Allied Education Sub Commission and Ministry for Public Instruction.

The withdrawal of material from the Concerns holding it, therefore, is carried out according to necessity and under the direct surveillance of the Representatives of the Ministry, who must submit an exact statement of all materials.

3414

- 6 -

The material is, therefore, used only in the amounts needed in the various printing Centres.

Following is the situation of distribution of material in the various printing Centres:

A. PALERMO.

Material ~~xxxxxxxxxx~~ is held by the Allied Education Sub Commission.

Prof. La Barbera has distributed to the Firms I.R.E.S. and BELLOTTI, who are entrusted with the printing of books for elementary schools, the following material received from the Education Sub Commission for three different editions:

a) Printing paper	Tons	48,200 (gross)	
b) Cover Paper	Tons	1,300	"
c) Offset ink	Kg.	200	"
d) glue	Kg.	110	"

The thread has been supplied partly from local resources, but as it was not good it had to be obtained through loans and exchanges: the same was done in respect to the black ink.

B. NAPLES

In Naples the material was delivered through Prof. Albin to the Dante Alighieri publishing firm, who is entrusted with the printing of text-books.

Following Prof. Albin's assignment arrangements, on the 31st March 1945, the following quantities of materials were delivered and distributed to MORACE, MONTANTINO & SCARPATI printing firms, who have been entrusted with the printing of text-books.

- 7 -

a) Printing paper	Tons	138,035	(gross)	
b) Cover paper	Tons	12,291	(Gross)	(Contained in 52 cases received from the Commerce S/Comms.)
c) Black ink	Kg.	1189	(Gross)	
d) Offset ink	Lbs	1210	"	
e) Glue	Cases	16	(Weight not stated)	

The thread for Naples, as Palermo, has been obtained from local resources and exchanged with thread or borrowed.

It must be pointed out that in Naples elementary school text-books are still in process of printing, therefore, more material will be needed besides what has been used up to the 3rd March as above stated.

A certain quantity of paper will have to be returned to the printers entrusted with the printing of text-books and who have lent same.

The ink used, has nothing to do with the lot arrived in Naples at disposition of the Allied Educ. S/C., which has not yet been withdrawn, but was procured by Major Murphy.

Also the above mentioned cover paper has not been taken from the quantity assigned to Naples. Prof. Albin received a stock of 52 cases from the Commerce S/C through Major Murphy.

The quantity of cover paper assigned to Naples will, therefore, be left over for next year besides a certain quantity of paper which is expected to be left over after the printing of text-books is stopped.

C. ROME

3412

In Rome all material had to be procured for the printing of more than 600.000 books, either from the Vatican or Poligrafico

- 8 -

dello Stato, or borrowed from the firm Aldo Chicca of Tivoli, the firm Signorelli, or other printing firms which have worked on the printing or binding of the elementary school text-books, such as the Operaia Romana, Arti Grafiche, Casciani or Vallecchi.

Of the material from U.S. assigned to Rome, only the printing paper has arrived and of which delivery has been taken by the firm Dante Alighieri, who directs the "Consorzio degli Editori dei Libri di Stato" in Rome.

Of this paper, tons 53 have been either returned or used for the process of printing of the sillabario and making note books which had already been started with the paper lent by the Vatican.

90 tons will be available for next year's text-books.

The other material is expected in Rome, among which the "filani" lent by the Poligrafico dello Stato and inks, both black and coloured, found with great difficulties for the printing of the 600.000 books.

As in Palermo and Naples, also in Rome thread was found from local resources, which was find useless and exchanges and loans had to be made.

D. FLORENCE

In respect to Florence, I have not yet received the complete situation owing to the difficulties in communicating with this town.

In agreement with the Ministro del Tesoro and Ministry for Public Instruction, a quantity of paper was released for Florence by the Poligrafico dello Stato: this delivery amounted to about 120 tons.

Paper and material from U.S. has arrived and been delivered,

- 9 -

but I do not know in what quantities, to Le Monnier, Marzocco, Vallecchi and Sandron, who belong to the Consorzi formed in Florence for the printing of elementary school text-books.

A certain quantity of paper for the printing of ~~XXXXXXXXXX~~ non-State school books authorized in that zone also for this year, has been assigned to the publishing firms.

About 300.000 metres of thread have been returned to Vallecchi, who had lent them for the binding of elementary school text-books.

As the Florence zone is still in the power of the A.M.G., and owing to the difficulty of communicating with Prof. Ugolini, I cannot make a detailed statement of the situation.

I think that a lot of the materials ~~XXXXXX~~ which Florence has received from the U.S. can be used next year. But I cannot state the exact quantity today.

(Prof. Roberto Giordani).

HEADQUARTERS ALLIED COMMISSION
Education Subcommission
AFC 394

MOG Airgram 16: 17 April 1945

From: Education Sub Commission

TO:

SUBJECT: Regulation Number CLAC I-234, Supplies for producing School and University text-books.

SPECIAL PROGRAM: The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible.

The Italian Government authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U.S. Secretary of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

SHIP TO:

CONSIGNEE: Istituto Nazionale per il Commercio Estero (INE)

SHIPPING DOCUMENTS: It is requested that four copies of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, AGO. Immediately after ship sails.

ITEMS: 1. PRINTING PAPER: 2068 Bboxes of white half-sized, glazed book paper. Approx. weight 2.2/2.4 oss. per sq. metre. Size 28 x 40 inches or 25 x 34 inches. SAMPLES ATTACHED.

2. COVER PAPER: 255 Bboxes. Any quality of printing paper can be used, but the approx. weight should be 5.25 oss. per square metre. Blue, green, red. SAMPLES ATTACHED

49 Bboxes of common dense ink printing ink. This ink should be more dense than that used for news-papers, and it should be accompanied by a supply of dissolvent varnish made from nitro-sulphuric acid.

3. BLACK INK:

which item has been cancelled

SHIP TO:

COMMISSIONER: Instituto Nacional per il Commercio Estero (ICE)

SHIPPING DOCUMENTS: It is requested that four copies of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, AG. immediately after ship sails.

ITEMS: 1. PRINTING PAPER: 5068 DWTONS of white half-sized, glazed book paper. Approx. weight 2.2/2.4 oss. per sq. metre. Size 28 x 40 inches or 25 x 34 inches. SAMPLES ATTACHED.

2. COVER PAPER: 255 DWTONS. Any quality of printing paper can be used, but the approx. weight should be 5.25 oss. per square metre. Blue, green, red. SAMPLES ATTACHED

3. INK: 49 DWTONS of common dense ink printing ink. This ink should be more dense than that used for newspapers, and it should be accompanied by a supply of dissolvent varnish made from nitro-muriatic acid.

4. BLACK OFFSET INK: 21.15 DWTONS. SAMPLES ATTACHED

5. COLOURED OFFSET INK: 77.2 DWTONS. SAMPLES ATTACHED

6. THREAD: 15,425,000 yards of one-fold yarn packed in cylindrical bobbins, as per ATTACHED SAMPLE.

7. GLUE: 61.17 DWTONS of isinglass or vegetable glue.

JUSTIFICATION:

1. These materials are required to enable text-books to be produced to meet the needs of elementary schools, secondary schools, and universities in the whole of Italy during the academic year 1945/46. Existing supplies of material are nearly exhausted.

2. It is appreciated that some time must elapse before all the materials asked for can be expected to arrive in Italy. However, it will be necessary to start printing early in July and the provision of these materials must, therefore, be regarded as urgent.

(continues)

6101 item has been cancelled

- 2 -

3. It is imperative that new and wholesome text-books for use in the elementary and secondary schools of Italy, and in the universities, should be put on the market as soon as possible. The youth of Italy cannot live by bread alone. They must be given a fair chance to lift themselves and their Country out of the Era of Fascism, defeat, disillusionment, and despondency. During the school year 1944/45, expurgated Fascist text-books were used in the Italian schools, because at short notice it was not found possible to produce new books. These books are NOT satisfactory and the need for replacing them by new ones is very urgent on political as well as on educational grounds. New texts have been prepared and approved, and the materials for production on a large scale are asked for now as an urgent political and educational priority.

For the Director of Education:

Sir P. H. Magnus, M.A.,
Major.

785016

educational grounds. New terms have been proposed for production on a large scale are asked for now as an urgent political and educational priority.

Ministero dell'Istruzione Pubblica
(Ispettore Cavalli)

(Ispettore Pantaleo)

Rome, 26 April 1945

TO LIASON OFFICE WITH ALLIED COMMISSION
MINISTRY FOR PUBLIC INSTRUCTION

28-3-45

SUBJECT: MATERIAL NEEDS FOR SCHOOLS.

The attached list shows the material needs for Italian schools for the year 1944/45/46.

The figures on the list have been fixed:

- a) by establishing the annual needs of boys and girls of the various schools on the basis of statistics supplied by heads and inspectors of schools;
- b) by multiplying the individual consume by the number of ~~pupils~~ pupils as per statistics of 1942, for the various schools.
- c) by summing totally under one heading such articles as are used in all schools, such as note books, pencils etc.

Demands have been limited as much as possible for those materials which it is expected will be produced in Italy, if not at once, in a near future, whilst the demands for materials which will have to be imported or their manufacturing will require imported materials, have been kept higher.

Technical instruments such as rules, compasses etc. do not form part of this list. In connection with such instruments further investigations would have to be made as to the possibility of national production and existing stocks particularly in northern Italy.

35,000,000

785016

COMMENTS: Instituto Nacional per il Commercio Estero (INCE)

SHIPPING DOCUMENTS: It is requested that four of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, A.C. immediately after shipments.

ITEMS: (Note: Samples are attached in all cases, except in that of Item 9, where no sample can be found).

1. Paper for making school copy-books of a large size DWT. 1,000
2. Coloured cover paper for school copy-books DWT. 100
3. Paper for typesetting; size 8 x 15 1/2 inches, 20,000 reams DWT. 20
4. Smooth drawing paper, in rolls DWT. 50
5. Transparent tracing paper for drawing, in rolls DWT. 6
6. Plotting paper, in rolls or in sheets DWT. 100
7. Pen-points (nibs) 35,000,000
8. Black ink, in powder DWT. 40
9. China ink for engineering drawing in sticks to be dissolved in water. 3381 lbs. 4000
10. Black typewriting ribbons, as per attached samples 100,000
11. Penholders 7 millions
12. Black pencils with eraser, leads No. 2 12 millions
13. Black pencils for drawing, leads No. 4 30,000
14. Red and blue pencils 300,000
15. Pencil erasers (knead-erasers) 1,000,000
16. Ink erasers 200,000

(over)

- 2 -

JUSTIFICATION:

1. The supplies listed above have been pared again and again. They are now reduced to the minimum quantity of materials which are needed in order to enable the elementary and secondary schools of the whole of Italy to function during the forthcoming school year 1945/46.
2. The basis on which these figures have been worked out is a total of 5,200,000 children in elementary schools and 988,000 children in secondary schools. It is submitted that, having regard to these figures and to the imperative need for ensuring that youth of Italy is assured of a fair educational chance in the first year of liberation, the total of supplies requested is very moderate.

	(Hist. & Geogr.	160	
	(Science & Hygiene	112	
Class IV & V	Grammar, Arithm., Geom. (2 Vols.)	208	208
			<u>2144</u>

134 folios for one set of whole series.

3378

- 2 -

C. Estimate of total number of books required for all classes of elementary Schools (75% of total school population).

Class	No. of books per child	Total No. of copies per class	Total of books
I	1	1,050,000	1,050,000
II	1	862,500	862,000
III	2	825,000 of each	1,650,000
IV	4	675,000 " "	2,700,000
V	4	487,500 " "	1,950,000
IV and V	2	1,162,500 " "	2,325,000
		Total	10,587,000

D. Printing paper :-

1) Sillabario	folios	6,300,000	<i>calculated as $70 \times 100 = 16$ folios instead of 32 101,475,000 folios or 202,950 reams (500 sheets)</i>
II Reader	"	8,625,000	
III Reader	"	8,250,000	
Subsidiary.....	"	16,500,000	
IV Reader	"	8,100,000	
Subs. Religion	"	2,025,000	
Subs. Hist. and Geogr.....	"	9,450,000	
Subs. Science and Hygiene....	"	4,725,000	
V Reader	"	6,337,500	
Subs. Religion.....	"	1,950,000	
Subs. Hist. and Geogr.....	"	4,875,000	
Sub. Science and Hygiene....	"	3,412,500	
IV and V Grammar, Arithmetic and Geometry.....	"	12,925,000	

- 2) Size of sheet 25 in. x 38 in. or 62.5 cm. x 95 cm. (to approximate to the Italian 70 cm. x 100 cm. sheet).

Approximate weight of paper 25 Kg. per ream.

202,950 reams = 3,072,750 Kg., or about 3,073 tons.

- 3) Add 3% for waste (if in rolls, 10% for waste should be calculated, however).

- 4) Amount required :-

209,039 reams (500 sheets each) white vellum printing paper, weight approx. 25 Kg. per ream, size 25 in. x 38 in. (or as near as possible to 70 cm. x 100 cm.) Total tonnage of about 3,165 tons.

E. Cover Paper.

- 1) Calculating for 10,587,000 books at 8 covers per folio.

- 2) Amount required :-

26,468 reams (500 sheets each) white cover paper, weight approx. 50 Kg. per ream, size as near as possible to 70 cm. x 100 cm. Total tonnage 132 tons.

3377

- 3 -

F. Inks. (black, blue, yellow and red).

- 1) Calculating for whole estimated number of Sillabari required in color :

6,300,000 folios	
300 grams black for 1000 folios	Black 1,260 Kg.
150 grams of each color per 1000 folios	Blue 945 Kg.
	Yellow 945 Kg.
	Red 945 Kg.

- 2) Calculating that half readers required will be printed in black only and that half will be printed in color :

15,663,400 folios in black only; 15,649,100 folios in color	
300 grams black per 1000 folios, for books in black only	Black 4,699 Kg.
250 black per 1000 folios, for books in color	Black 3,912 Kg.
150 grams of each color per 1000 folios	Blue 2,348 Kg.
	Yellow 2,348 Kg.
	Red 2,348 Kg.

- 3) Calculating for all subsidiary books in black only :

63,862,000 folios	
400 grams per 1000 folios	Black 25,545 Kg.

- 4) Ink for covers, 10,587,000 books. 10% printed in black, blue, yellow and red; 90% in blue, yellow and red only. i.e. 1,058,700 (4 color) and 9,528,300 (3 color)

10 grams each color per cover	Black 1,058 Kg.
	Blue 10,000 Kg.
	Yellow 10,000 Kg.
	Red 10,000 Kg.

5. Amount required. -

Ink (offset)	Black 36,475 Kg.
	Blue 13,293 Kg.
	Yellow 13,293 Kg.
	Red 13,293 Kg.

G. Binding thread : -

- 1) Calculating 7 cm. for each 16mo., for 101,475,000 folios - 710,325,000 cm. or
- 7,103,250 metres.

- 4 -

E. Glue.

- 1) Calculating an average of four grams per volume for 10,587,000 volumes :
42,348 Kg.

I. Cloth backs

- 1) Strips of cloth 6 cm. x 25 cm. for 10,587,000 volumes.

H. R. BEARD
Captain.

HEADQUARTERS ALLIED COMMISSION
Education Subcommittee
APO 394

9A/ 3.0.

Tel. 478-326

OGGETTO: MATERIALE RICHIESTO PER LE SCUOLE
ITALIANE PER IL 1945/46

16 Aprile 1945

A: Sotto Commissione per l'Educazione
attenzione della Sig.na ROMBO.

Unisco alla presente un elenco del materiale richiesto per le scuole Italiane per l'anno 1945/46 e seguenti rilievi:

1. I quaderni indicati ai numeri 1 a 11 sono inclusi nella richiesta che sto' cercando di ottenere attraverso la Sotto Commissione del Commercio riguardo il fabbisogno di materiali per le scuole elementari, secondarie e universita' ? o si riferiscono ad una ulteriore richiesta ?
2. Se formano parte di una ulteriore richiesta, sara' necessario indicare la qualita', ed il colore della carta necessaria unitamente ai pesi ed alle misure lineari.
3. Quando possibile, sara' opportuno unire i campioni dei materiali richiesti.
4. Tutte le misure dovranno essere indicate in misure inglesi e non metriche.
5. Sara' necessario stabilire categoricamente che nessuno dei materiali richiesti nell'elenco cui alla presente, sono gia' stati richiesti. Particolarmente, gradirei sapere con esattezza che nessun materiale per il fabbisogno educativo Italiano sia stato incluso nel programma aggiunto di importazioni essenziali per l'Italia durante il 1945.
6. Il numero di fogli di carta richiesta non potra' interessare la Divisione di Requisizione della S/C del Commercio, io credo. Occorrera' sapere i pesi, il colore, le qualita' ed i tipi di carta ed il peso totale di ogni tipo richiesto.
7. A rticoli 12 a 20: Sara' opportuno indicare i pesi (individuali e totali), le misure, i colori e le qualita' di questi articoli. Carta millimetrata non dir mi dice nulla, sara' necessario essere chiari.
8. A rticolo 21: sara' necessario specificare un tipo o tipi di pennini. Un campione del pennino e dei pennini sara' necessario, onde trasmettere la richiesta per un tipo uguale o equivalente.

- 2 -

9. Articoli 22 a 24: Sono necessarie misure inglesi. Vi sono molte varietà di inchiostri di ogni colore, alcuni pessimi. Sarà opportuno specificare un determinato tipo o tipi o i loro equivalenti.
10. Art. 25: E' indispensabile conoscere la marca della macchina da scrivere o macchine da scrivere. Suggestiscono inoltre l'opportunità di conoscere le misure ed i colori dei nastri richiesti.
11. Art. 26: Specificare il tipo di portapenna onde accertarsi che sia adatto al pennino richiesto.
12. Art. 27 3 31: Matite n.1, n.2 ecc. non definisce nulla. Credo opportuno fornire campioni.
13. Art. 32: Fornire campioni.
14. Art. 35 & 36: E' certo che non si possa trovare gesso in Italia? Se non e' possibile trovarlo, sarà necessario indicare i pesi, colori e le misure dei gessi richiesti.
15. Art. 37: Indicare i colori ed i pesi.
16. Art. 38: Fornire campioni.
17. Art. 39 & 40: elencare i colori. Precisare se le scatole sono richieste per scuole elementari o secondarie.
18. Art. 41: Non e' chiaro. Sarà opportuno specificare più ampiamente.
19. Art. 42: In ogni caso indicare i pesi sia totali che individuali. si ogni tubo.
20. Art. 45: Questo non mi risulta chiaro di che si tratta.
21. Art. 46: Non vi sono molti tipi di vernice finale?
22. Art. 47: Non vi sono molti tipi di acquaragia? E' essenziale indicare chiaramente che cosa si intende per "solventi", oltre che le misure e formati di ogni latta, tubo o vasetto per ogni articolo. Sarà necessario indicare come devono essere imballati.
23. Non comprendo che s'intende per "Tempere in polvere". Sarà indispensabile specificare più chiaramente.
24. Art. 48 e 64: necessitano i pesi e le misure di ogni tubo, vasetto o latta, unitamente ai pesi totali. Sarò forse ignorante, ma non ho mai sentito parlare di "bianco di titanio" (art. 49) o "giallo di cadmio arancione", "giallo o rosso di cadmio" o "lacca carminata" o "colla totin o di coniglio" o g "gomma arabica". Ho sempre pensato che la glicerina fosse un medicinale. Dobbiamo indicare con precisione che tipo di glicerina si richiede. Misure inglesi sono necessarie in ogni caso.

- 3 -

25. Art.65: E' troppo vago. Non so' che s'intenda per pastello o quale sia la differenza tra vernice a spirito od altre vernici. E' inutile trasmettere una richiesta per "vernici a spirito e fissativi per tempera" o simili. Prego indicare esattamente quello che si desidera e il quantitativo.
26. Art.66: Suggerisco che siano forniti campioni e che in ogni caso, siano indicate le misure esatte.
27. Art.67: Indicare le misure ed i quantitativi esatti.
28. Art.68: Indicare le misure, i pesi e formati.
29. Art. 69: Non sono forse necessarie le misure individuali? In ogni caso bisognerà indicare il tipo di cartoni e della preparazione bianca richiesti.
30. Art.70: Specificare il tipo di preparazione semi-assolvente. Non vi sono forse molti tipi di tela? Sarà opportuno indicare le misure individuali.
31. Art.71: Indicare il tipo di cera bianca, unitamente alle misure ed ai pesi di ogni tubo o latta.

In generale, nel compilare la nostra richiesta sarà bene tenere presente che essa verrà indirizzata ad un impiegato eccessivamente inesperto il quale certamente cadrà in errori se la nostra richiesta non sarà compilata con la massima chiarezza e precisione.

MATERIAL NEEDS FOR SCHOOLS

TO: Education Sub Commission
Attention of Miss Rombo.

Tel. 478-326

16 April 1945

I attach a list showing material needs for Italian schools for the year 1945/46 with the following comments:

1. Do the note books listed in items 1 to 11 form any part of the requisition note which I am trying to force through the Commerce Sub Commission in respect of material needs for elementary and secondary schools and Universities? or are they an additional item?
2. If they constitute an additional item, it will be necessary to state the qualities, colours of papers required, together with the weights and linear measurements.
3. Whenever possible, samples of materials required should be attached.
4. All measurements should be given in English measures and NOT in metric ones.
5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no materials for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.
6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.
7. Items 12 to 20: the weights (individual and total), measurements, colours and qualities of these items should be given.

03061
Declassified S.O. 12356 Section 3.3/NM No. 785016

tary and secondary schools and Universities? or are they an additional item?

2. If they constitute an additional item, it will be necessary to state the qualities and colours of papers required, together with the weights and linear measurements.

3. Whenever possible, samples of materials required should be attached.

4. All measurements should be given in English measures and NOT in metric ones.

5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no materials for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.

6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.

7. Items 12 to 20: the weights (individual and total), measurements, colours and qualities of these items should be given. Millimetrata paper conveys nothing to me, I am afraid.

8. Item 21: it will be necessary to specify a type or types of nibs. Pen-point is probably the better word, if the supply is to come from America. A sample nib or nibs had better be supplied, and we can ask for them or their equivalents.

9. Items 22 to 24: English measures required. There are many varieties of inks of all colours, some of them quite abominable. I think it will be wiser to specify a certain type or types or their equivalents.

10. Item 25: The make of the typewriter or typewriters is relevant here. I suggest further that it is necessary to know the measurements and colours of the ribbons required.

11. Item 26: the type of pen-holder should surely be specified with a view to assure that it is on writing terms with the pen-points asked for above.
12. Items 27 to 31: pencil No.1, pencil No.2 etc. conveys nothing to me. I believe it will be necessary to supply samples.
13. Item 32: samples desirable.
14. Items 35 & 36: Is it certain that no chalk can be found in Italy? If it cannot be found, it will be necessary to specify the weights, colours, measurements of the chalks which are needed.
15. Item 37: Colours should be listed and weights given.
16. Item 38: A sample should be provided.
17. Items 39 & 40: colours should be listed. It is ^{ir}relevant whether the boxes are needed for elementary or secondary schools.
18. Item 41: I find this incomprehensible. It needs to be much more specific.
19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.
20. Item 45: This is not ~~very~~ clear to me.
21. Item 46: Are there not many kinds of final varnish?
22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.
23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.
24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanio white (item 49) or orange cadmio, yellow or cadmio red or carminata lacker or totin or rabbit glue or arabic glue. I thought glycerine was a medicine. We need to state exactly what kind of glycerine is needed. English measures are needed in all cases.

17. Items 39 & 40: colours should be listed. It is ^{ir}relevant whether the boxes are needed for elementary or secondary schools.
18. Item 41: I find this incomprehensible. It needs to be much more specific.
19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.
20. Item 45: This is not ~~very~~ clear to me.
21. Item 46: Are there not many kinds of final varnish?[?]
22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.
23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.
24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanio white (item 49) or orange cadmio, yellow or ca-dmio red or carminata lacker or totin or rabbit glue or arabic glue. I thought glycerine was a medicine. We need to state exactly what kind of glycerine is needed. English measures are needed in all cases. ³³⁰⁸
25. Item 65: It is too vague. I do not know what pastello means or what is the difference between alcohol varnish or other varnish. It is no use asking for fixing mediums ~~of~~ such. Please state exactly what is required and how much.
26. Item 66: I suggest that samples should be provided and that in any case, exact measurements should be given.
27. Item 67: Exact measurements and amounts should be given.
28. Item 68: Exact measurements, weights and sizes should be given.
29. Item 69: Are not individual sizes needed? In any case you should specify the type of board and white preparation which is required.

- 3 -

30. Item 70: The type of semi-absolvent preparation should be specified. Are there not many types of canvass? Should not individual measurements be specified.

31. Item 71: the type of white wax must be stated, together with the sizes and weights of the individual pots, tubes or tins is desired.

In general, in compiling our requisition order it will be well to assume that it is addressed to an exceedingly stupid clerk who is certain to make mistakes unless the order is made completely watertight and full-proof.

Roma, 28.III.1945.

from Prof. Roberto Giordani

22nd March 1945

SITUATION OF MATERIAL FROM U.S. FOR PRINTING OF ELEMENTARY SCHOOL BOOKS
YEAR 1944/45

The payment of material for elementary school text-books in Italy, through agreements with the Istituto Nazionale per il Commercio Estero, is covered by a payment on Account N. 208 of the I.C.E., made by the person who takes delivery of the goods and in the proportion fixed by the ICE for each single type of commodity.

The Regional Delegates of the Ministry for Public Instruction, namely in Palermo: Prof. Gioacchino La Barbera; in Naples: Prof. Adriano Albin; in Rome Prof. Roberto Giordani, who is at the same time Central Representative of the Ministry; in Florence Prof. Giuseppe Ugolini; take care that payments are duly made.

MATERIAL SIGNALLED:

In connection with materials signaled, I have received three reports from Capt. Bear not all in agreement.

I received one very synthetical on the 15th January 1945.

A second, more detailed, dated 3rd Feb. 1945.

A third, synthetical, but fairly exact, dated 22nd Feb. 1945.

According to the second and third of these reports, which I am using, together with regional reports in my possession, to compile the present report, the material signaled is as follows:

- | | | |
|------------------------|------------------|--|
| a) PRINTING PAPER | Tons 705 (gross) | (The report 3 Feb. shows tons 708 against an original request for 950 tons.) |
| b) COVER PAPER | Tons 47 (gross) | (The 3 reports agree). |
| c) CARDBOARD FOR FLATS | lbs 1124 | " " |
| d) TRANSFER PAPER | Lbs 55 | |

- 2 -

- e) PRINTING INK Ton. 14 (gross)
- f) OFFSET INK
(black, yellow, blue, red) Ton. 1
Lbs 787
- g) GLUE Lbs 2552
- h) THRE AD Lbs 3344

MATERIAL ARRIVED

According to reports of the 3rd and 22nd Feb. of the Allied Subcommittee and according to the various reports I have received from the regional Representatives of the Ministry for Public Instruction, the following material has arrived:

A. PRINTING PAPER

- 1. PALERMO Ton. 78 (gross) (Arrived in Palermo and taken delivery by the Education Off, as per Prof. La Barbera's information of 5 March. In This quantity does not include the cover paper (ton.33) which in Palermo seems to have become confused with the printing paper. The 22 Feb. report shows 87 tons assigned to Palermo).
- 2. NAPLES Ton. 216 (gross) (In rolls and cases. The Rep. 22 Feb. shows ton.272 due to arrive in Naples. But this total figure is not confirmed).
- 3. R O M E Ton. 148 (gross) (In rolls: smooth and wrought paper. This lot arrived in Rome with two dispatches: It includes the quantity fixed as reserve)
- 4. FLORENCE Ton. 75 (gross) (Quantity shown on Rep. 3 Feb. The Rep. 22 Feb. shows instead 71 tons paper assigned to Florence, while a letter from Porf Ugolini to Capt. Bear dated 26.1.45, states paper arrived in Florence as 355 bobines, 87 which measures not stated, plus tons 4,8).

- 3 -

B. COVER PAPER

1. PALERMO Ton. 33 (gross) (Wrongly signaled as printing paper. Prof. La Barbera, in fact, has marked it in his report as being printing paper)
2. NAPLES Ton. 50.667 (gross) (According to 3 Feb. Report this gross weight is equal to 212 rolls, whilst in the 22 Feb. report 212 rolls are marked as being equal to 47 tons: this will have to be clarified).
3. R O M E Nothing has been received. (According to assignment Rome should have 10 tons.)
4. FLORENCE Ton. 36 (gross) (Contained in 148 cases. This figure was given by Prof. Ugolini on 26 Jan. 1945.)

C. BLACK PRINTING INK

1. PALERMO Nothing has been received.
2. NAPLES Ton. ¹⁰~~47~~.447 (gross) (Contained in 65 barrels. Signaled as arrived in Rep.s 22 Feb. & 3 Feb. of A.S/C).
3. R O M E Nothing has been received.
4. FLORENCE Nothing has been received.

D. OFFSET INK
(black & coloured)

1. PALERMO Lbs 787 (gross) (La Barbera writes that this lot was contained in 8 cases and is black, red and blue).
2. NAPLES Tons 1,087 (gross) (Prof. Albin states it was contained in 21 cases & 150 cans).
3. R O M E Nothing
4. FLORENCE Nothing

330

E. Powdered glue.

- 4 -

E. POWDERED GLUE

1. PALERMO Kg. 450 (gross) (Contained in 9 barrels, of which 2, according to Prof. La Barbera, damaged and halved).
2. NAPLES Tons 6,52 3 (gross) (Rep. 22 Feb. shows 34 barrels, whilst Prof. Albin in a letter to D. Alighieri 3 Feb. 45, states ~~34~~ 40 barrels).
3. R O M E Nothing.
4. FLORENCE Nothing.

F. BINDING THREAD.

1. PALERMO Nothing.
2. NAPLES Tons 1,436 (gross) (Rep. 3 Feb. 45 states tons 1,07. Prof. Albin writes that he saw the lot).
3. R O M E Nothing.
4. FLORENCE Tons 1 (gross) (Deposited at the ink factory "Etelia").

G. CARDBOARD FOR "FLANI" *matting paper*

1. PALERMO Nothing.
2. NAPLES Kg. 453 (gross)
3. R O M E Nothing.
4. FLORENCE Nothing.

H. TRANSFER PAPER

1. PALERMO Nothing.
2. NAPLES Kg. 14 (gross)
3. R O M E Nothing.
4. FLORENCE Nothing.

339

NOTE: Not all material arriving in a certain place is for use in that place, neither is it, therefore, always taken delivery of or used in that place.

- 5 -

DELIVERY OF COMMODITIES

Material arriving from U.S. in one of the printing centres - Palermo, Naples, Rome, Florence - is taken delivery of, either all or in part, either by the ~~Regional~~ Regional Education Office, as occurred in Palermo and Florence, thence handed over to the ~~Ministry~~ Representatives of the Ministry for Public Instruction, who thence delegates the Regional publishing firms entrusted with the printing of school text-books to take delivery, - or is taken delivery of directly - though always through the representatives of the Ministry - by several Publishers entrusted with the printing of school text-books; as occurred in Naples and Rome, where the material was delivered to the Dante Alighieri publishing State firm, which directs the publishing of school text-books.

The Representatives of the Ministry, in agreement with the I.C.E., as has been previously stated in this report, arrange that the Publishers receiving delivery of material pay a deposit in proportion to the value of the commodities on the Account of the Istituto Nazionale per il Commercio Estero.

The material delivered is not considered sold: it is distributed to the publishers, printers, according to regional publishing programmes fixed and according to the number of books, under obligation of keeping all material left over from the printing of such books at disposition of the Allied Education Sub Commission and Ministry for Public Instruction.

The withdrawal of material from the Concerns holding it, ³³⁴⁸ therefore, is carried out according to necessity and under the direct surveillance of the Representatives of the Ministry, who must submit an exact statement of all materials.

- 6 -

The material is, therefore, used only in the amounts needed in the various printing Centres.

Following is the situation of distribution of material in the various printing Centres:

A. PALERMO.

Material ~~xxxxxxxxxxxx~~ is held by the Allied Education Sub Commission.

Prof. La Barbera has distributed to the Firms I.R.E.S. and BELLOTTI, who are entrusted with the printing of books for elementary schools, the following material received from the Education Sub Commission for three different editions:

a) Printing paper	Tons	48,200 (gross)	
b) Cover Paper	Tons	1,300	"
c) Offset ink	Kg.	200	"
d) glue	Kg.	110	"

The thread has been supplied partly from local resources, but as it was not good it had to be obtained through loans and exchanges: the same was done in respect to the black ink.

B. NAPLES

In Naples the material was delivered through Prof. Albin to the Dante Alighieri publishing firm, who is entrusted with the printing of text-books.

Following Prof. Albin's assignment arrangements, on the 3rd March 1945, the following quantities of materials were delivered and distributed to MORACE, MONTANTINO & SCARPATI printing firms, who have been entrusted with the printing of text-books.

- 7 -

a) Printing paper	Tons	138,035	(gross)	
b) Cover paper	Tons	12,291	(Gross)	(Contained in 52 cases received from the Commerce S/Commis.)
c) Black ink	Kg.	1189	(Gross)	
d) Offset ink	Lbs	1210	"	
e) Glue	Cases	16	(Weight not stated)	

The thread for Naples, as Palermo, has been obtained from local resources and exchanged with thread or Borrowed.

It must be pointed out that in Naples elementary school text-books are still in process of printing, therefore, more material will be needed besides what has been used up to the 3rd March as above stated.

A certain quantity of paper will have to be returned to the printers entrusted with the printing of text-books and who have lent same.

The ink used, has nothing to do with the lot arrived in Naples at disposition of the Allied Educ. S/C., which has not yet been withdrawn, but was procured by Major Murphy.

Also the above mentioned cover paper has not been taken from the quantity assigned to Naples. Prof, Albin received a stock of 52 cases from the Commerce S/C through Major Murphy.

The quantity of cover paper assigned to Naples will, therefore, be left over for next year besides a certain quantity of paper which is expected to be left over after the printing of text-books is stopped.

3346

C. ROME

In Rome all material had to be procured for the printing of more than 600.000 books, either from the Vatican or Poligrafico

- 8 -

dello Stato, or borrowed from the firm Aldo Chicca of Tivoli, the firm Signorelli, or other printing firms which have worked on the printing or binding of the elementary school text-books, such as the Operaia Romana, Arti Grafiche, Casciani or Vallecchi.

Of the material from U.S. assigned to Rome, only the printing paper has arrived and of which delivery has been taken by the firm Dante Alighieri, who directs the "Consorzio degli Editori dei Libri di Stato" in Rome.

Of this paper, tons 53 have been either returned or used for the process of printing of the sillabario and making ^{note} books which had already been started with the paper lent by the Vatican.

90 tons will be available for next year's text-books.

The other material is expected in Rome, among which the "flani" lent by the Poligrafico dello Stato and inks, both black and coloured, found with great difficulties for the printing of the 600.000 books.

As in Palermo and Naples, also in Rome thread was ^{obtained} ~~from~~ local resources, ^{and} ~~which~~ was found useless and exchanges and loans had to be made.

D. FLORENCE

In respect to Florence, I have not yet received the complete situation owing to the difficulties in communicating with this town.

In agreement with the Ministro del Tesoro and Ministry for Public Instruction, a quantity of paper was released for Florence by the Poligrafico dello Stato: this delivery amounted to about 120 tons.

Paper and material from U.S. has arrived and been delivered,

- 9 -

but I do not know in what quantities, to Le Monnier, Marzocco, Vallecchi and Sandron, who belong to the Consorzio formed in Florence for the printing of elementary school text-books.

A certain quantity of paper for the printing of ~~from the~~ non-State school books authorized in that zone also for this year, has been assigned to the publishing firms.

About 300.000 metres of thread have been returned to Vallecchi, who had lent them for the binding of elementary school text-books.

As the Florence zone is still in the power of the A.M.G., and owing to the difficulty of communicating with Prof. Ugolini, I cannot make a detailed statement of the situation.

I think that a lot of the materials ~~from the~~ which Florence has received from the U.S. can be used next year. But I cannot state the exact quantity today.

(Prof. Roberto Giordani).

Rome, 22nd March 1945

TOTALS	131.589	238.635	405746⁵	238.000	75.400	1085.370

NOTES

1. From 29 Nov. 44 to 28 Feb. 45
2. Until 15 Feb. 45
3. Until 28 Feb. 45

4. Included in this total are 98,000 books of the 2nd edition which will not, it is estimated, be fully distributed until 15 Nov. 45. The 2nd edition is made up as follows:

2nd Reader	20.000	4th Religion	12.000
3rd "	10.000	5th Reader	5.000
3rd Grammar	15.000	5th Arithmetic	7.000
4th Reader	18.000	5th Religion	7.000
4th Arithmetic	12.000		
			<u>98.000</u>

5. Copies printed numbered 550,000 up to 28 Feb. 45

Elementary school text-books needed for Sicilyschool year 1945/46

BOOKS (The following figures have been calculated on the basis of books distributed in 1942).

Syllabary	120,000
Reader II	80,000
Reader III	60,000
Subsidiary III	60,000
Reader IV	40,000
Religion IV	35,000
Arithmetic IV	35,000
Reader V	25,000
Religion V	25,000
Arithmetic V	25,000

MATERIALS

Paper	150 tons (if the weight is the same as the last lot)
Twine	200 Kg.
Glue	300 Kg.
Inks, black	500 Kg.
red	200 Kg.
yellow	100 Kg.
blue	200

TO : Major Carleton W. Washburne
Director of Education.

28 February 1945

I visited Palermo and Naples between 20 and 27 February 1945 to ascertain the position in regard to the production and distribution of elementary school text-books in those centres.

1. PALERMO.

299,000 elementary school text-books are required for the current year. The material available will be sufficient to produce them all, but will not leave anything appreciable to be placed towards next year's needs. Some 86,000 books remain to be printed and Lieutenant De Bellis and Prof. La Barbera undertook that these should be ready by 25 November. I think distribution should be finished by 30 November.

This position is not particularly satisfactory, except by comparison with Naples. Production is in the hands of three firms, all of which need constant prodding and watching. I visited them all and impressed on them the need for haste. Bellotti, competent and quite agreeable rogue, is the most substantial publisher. I.R.E.S. is not very competent, and Santi Ando is rather more than normally unreliable. He needs to be driven.

Bellotti's work should be finished by 20 November, I.R.E.S. by 25 November, and Santi Ando by 10 November. Lieutenant De Bellis possesses drive and enthusiasm, and Prof. La Barbera is not without initiative. He will require a technical assistant after Lieutenant De Bellis leaves. I asked him to take this matter up with Prof. Giordani, and I said I would do the same from this end.

Lieutenant De Bellis borrowed newsprint from P.W.B. with which 138,000 elementary school books were printed. This P.W.B. paper was destined for secondary schools and I arranged that it should be repaid. I will have 30 tons of paper sent from Naples, and a small balance will then be left over towards next year's needs. Lieut. De Bellis will let Prof. Giordani and the Subcommission have an exact statement of what is left over as soon as the printing is finished. Prof. La Barbera estimated next year's needs to be roughly the same as for the current year. He promised to let Prof. Giordani and the Subcommission have a precise estimate within a fortnight.

- 2 -

Seven tons of paper have been used to print 140,000 note-books. A satisfactory job has been made of this.

I formed the impression that Lieut. De Bellis and Prof. La Barbera were in control of the situation.

2. NAPLES.

900,000 books are needed and 238,655 have been printed. Some 661,345 books remain to be printed and at this late period of the school year the situation can only be regarded as deplorable. Factors which have contributed to this situation are, in my opinion, in order of importance :

1. Lack of initiative and drive. I established friendly personal relations with Major Murphy, who works under the great disadvantage of possessing no transport of his own. He lacks interest in the detailed work of producing and distributing elementary school text-books.
2. Lack of transport on the part of the Italian company responsible for moving the Allied material from Warehouse 676 to the printers and cutters. I was told that such transport as is available frequently breaks down, but I was unable to verify this.
3. All the paper has to be cut by one firm, Scarpati, and this produces a bottle neck. P.R.S. also employ Scarpati for cutting paper of theirs.
4. P.R.S. use all our three printers for work of their own and this delays our printing. Dr. Albin has recently found a fourth printer at Portici.
5. The publisher - Dante Alighieri - has hitherto preferred, very naturally, to warehouse all his materials, free of charge, in Warehouse 676. There would, perhaps, be no great harm in this if the transport arrangements worked smoothly and efficiently, but as they do NOT, a further delay is imposed. The publisher has now been persuaded to warehouse some of our material on his own premises.
6. Inadequate binding facilities impose, at times, a further bottle neck.

None of these difficulties is insuperable, and I was favorably impressed by the character and personality of Dr. Albin. I explored Warehouse 674 at Portici and found some discrepancies between our records and material which should be there consigned to this Sub-commission and the material which I actually saw. These discrepancies Albin promised to resolve by personal investigation on the spot. He has a pass to enter the warehouse whenever he chooses.

Prof. Albin is preparing "with scrupulous accuracy" - to use his own words -

- 3 -

an account of all materials received and used. He is informed by a real spirit of disinterested enthusiasm for education, and we are fortunate, in my opinion, to be able to call upon the services of someone of his technical qualifications and capacity.

I do not think he has any need of an assistant when Major Murphy leaves.

I found that demands for elementary school books are increasing, so that we may have to revise our original estimate of 900,000. On the other hand Major Murphy leans to the view that, as schools have had to employ makeshift arrangements and secure what books they can during the current year, and as, further, the question of books for the new school year raises outside issues, we may find, before we complete the printing of all our 900,000 books, that there is a cessation of demand for them.

Major Murphy could hold out no hope that the full number of 900,000 would be printed and distributed before the middle of April.

I append Dr. Albin's estimate of next year's material requirements.

SIR P.M. MURPHY, BART.
Major.

*Minute for Mr. S. Warhorne's
Palermo printing file*

1. Director.

If your approve?

2. Vice - President.

The list at 5A gives the latest figures of elementary school text-books printed and distributed in Liberated Italy. It is self-explanatory, but I will add:

I. That the totals of books shown as printed and distributed in PALERMO, NAPLES, and ROME are to-day actually being thumbed by the children. The R.E.O. is convinced that this will also be true, by 15 March, in the case of the totals shown for FLORENCE.

II. Distribution to date in the four printing centers: PALERMO, NAPLES, ROME, FLORENCE, represents percentage totals of the targets originally aimed at as follows:

	T A R G E T	PRINTED TO DATE	% of TARGET
PALERMO	375.000	131.600	35.1 %
NAPLES	1.112.000	233.600	21.5 %
ROME	1.039.000	465.700	45 %
FLORENCE	1.039.000	358.000	34.4 %

These targets were originally set in the hope of putting one copy of every book in the hands of every child who would need to use it. The main reason why the %age totals of books distributed to date fall so far short of the targets is that the materials from the U.S. arrived so late as to render their attainment an impossibility.

III. At this late date in the school year it is likely that most schools will be increasingly unwilling to make new purchases of the expurgated State

monopoly text books which will be outsold in succeeding years. They have already had to be content with makeshift arrangements using one book for two or more children or resuscitating last year's books. I am satisfied that the decision to cease printing the State monopoly text books throughout liberated Italy as from 31 March 1945 is sound if the needs of liberated Italy alone are taken as the criterium. The expurgated State monopoly text books will of course be required in very large numbers to meet the needs of the North as soon as the Germans withdraw. Arrangements for meeting the need have been made.

IV. PALERMO. A considerable amount of material has been printed outside the number of books shown as distributed. But it is not yet bound. The R.E.O. is convinced that close on 300,000 books will be printed, bound and distributed before 31 March. To my judgement he should come near to achieving this result.

V. NAPLES. The %age distribution to date of the target aimed at is lamentable. Factors which have contributed to this poor result are, in my judgement, in order of importance:

- a) The late arrival of material.
- b) Lack of initiative and drive.
- c) Lack of transport.
- d) Inadequate facilities for cutting and binding.
- e) Inadequate opportunities for printing. - P.E.S. has sometimes interfered - and for warehousing supplies.

What can be said is:

1. That by 31 March 1945 at least a quarter of a million books will be in the hands of Elementary School children in the areas supplied from Naples.

2. Dr. Albin, the representative in Naples of the Ministry of Public Instruction, is an excellent man in whom I feel real confidence. Every hope, therefore, exists that better results will be achieved during the school year 1945-46.

VI. ROME. No comments.

VIII FLORENCE. See I. above.

Sir Philip H. Magnus, BT.,
Major

CONFERENCE WITH PROF. UGOLINI

10 February 1945

1. Prof. Ugolini will procure receipts ^{publishers} from printers for all paper and supplies delivered to printers for use (not for warehousing) in 3 copies to be marked copy No 1, No 2, No 3:

Copy No 1 for Regional Supply Accountant
Copy No 2 for Regional Education Officer
Copy No 3 for Education Subcommission through REO

(Form of Receipt ?)

2. The cost of Lire 20 and Lire 30 is the cost of paper as received by Subcommission. Cost of cutting and handling in FLORENCE is to be born by printers ^{publishers}.

3. Reports relative to the situation in regard to paper and printing supplies will be submitted by Prof. Ugolini every 2 weeks (1st Feb and 15 Feb) according to form submitted to Ugolini by Captain Bezzad. *These reports will be passed to Education s/c thru R.E.O., who will also include details in his regular monthly report.*

4. The price of binding thread has not been fixed. Major Magnus will attend to that and notify this office and Prof. Ugolini. *Receipt will be rendered forthwith, notwithstanding, an account of any future which may be fixed.*

5. In regard to replacing binding thread used by Vallecchi, our thread will be unblocked in quantities equal to those used by Vallecchi and bills will be rendered when prices are fixed.

6. Prof. Ugolini was instructed to furnish sub-commission with an estimate of future needs for all school needs for printing supplies. *This report will be rendered through R.E.O.*

Copy No 1 for Regional Supply Accountant
Copy No 2 for Regional Education Officer
Copy No 3 for Education Subcommission through REO

(Form of Receipt ?)

2. The cost of Lire 20 and Lire 30 is the cost of paper as received by Subcommission. Cost of cutting and handling in FLORENCE is to be born by printers *pubblici*.

3. Reports relative to the situation in regard to paper and printing supplies will be submitted by Prof. Ugolini every 2 weeks (1st Feb and 15 Feb) according to form submitted to Ugolini by Captain Bessé. *These reports will be presented s/c the R.E.O., who will also include details in his regular monthly report.*

4. The price of binding thread has not been fixed. Major Magnus will attend to that and notify this office and Prof. Ugolini. *Receipts will be rendered forthwith, notwithstanding, in account of any thread which may be fixed.*

5. In regard to replacing binding thread used by Vallecchi, our thread will be unblocked in quantities equal to those used by Vallecchi and bills will be rendered when prices are fixed.

6. Prof. Ugolini was instructed to furnish sub-commission with an estimate of future needs for all school needs for printing supplies. *This report will be rendered through R.E.O.*

SUBJECT : Book paper

TO : Regional Commissioner, Lazio Region
attn. Newsprint Officer, Ing. Richiedel

1. This office has been informed that in the regional warehouse in the Via Marsala there is a quantity of book paper; i.e. 205 cases of 560 lbs. each, approximately 57 tons.

2. It is requested that your office dispose of this paper in the following manner:

- 25 tons will be consigned to the Ministry of Public Instruction, Palermo, Sicily, attn. Prof. La Barbera
- 20 tons will be consigned to Major Gregory, Lazio-Umbria Region for further allocation.
- 12 tons or the entire balance will be consigned to the Ministry of Public Instruction, Naples, attn. Prof. Albini.

3. A landed cost on this paper has not been received from America to date so issue vouchers must be made out without a fixed price. Further the issue vouchers should be made out to the account of the Istituto Nazionale per il Commercio Estero which will be responsible for collecting the funds resulting from sales on these items. A receiving report will be made out by I.C.E. in return.

4. May this paper please be shipped to Palermo and Naples as early as date is possible.

per in the following manner:

— 25 tons will be consigned to the Ministry of Public Instruction, Palermo, Sicily, attn.Prof.La Barbera.
