TO : Economics Section
(Attention - Executive Director)

1. Attached Forecast of February Material Movements as requested.

2. Small movements involving distribution of other printing matetrials, such as five and a half tons of ground glue to be divided between Florence, Rome, Naples and Palermo, have not been considered in making this forecast. The loads involved would be very much less than the possible margin of error in the forecast as attached for movements of paper.

3. As far as is possible these minor movements will be requested at such a time when larger loads are being moved.

SUBJECT : Forecast of February Material Movements — 8 January 1945

TO : Agriculture S.C. / Labor S.C. / Displaced Persons S.C.
Commerce S.C. / Public Health S.C. / Transportation S.C.
Education S.C. / Public Relations S.C. / WPB
Finance S.C. / Public Safety S.C. / Food S.C.
Industry S.C. / Public Works & Utilities. / War Material Disposal.

1. Foreknowledge of coming demands upon transportation facilities is essential in planning for their most efficient use. The same data are also essential to other planning, advisory, and operative functions of the Economic Section as a whole. Pending establishment of a regular forecasting procedure and schedule, which will meet with the largest number of requirements for all our purposes, it is requested that you now forecast only your February movements of material.

2. Forecast is to cover all material to be moved into each province south of and including Agnadin, Kuren, Pistoia, Firenze and Terenzo.

3. A specimen sheet is attached. Additional sheets may be supplied for your final tabulations but not enough are available for work sheets. One sheet should be used for each item except that items which are completely interchangeable in use may be grouped and figures given on basis of group total. (For example, all nuts might be considered as one item for this forecast.)

a) Column 1

Give total metric tons forecasted to move into each province listed.

b) Columns 2 to 5, inclusive.

Under "From" insert the province of origin for material moved into each listed province (for imports give port.)

Under "metric-tons" insert number of tons expected from the province named in "from" column.

NOTE: Final tabulations will be expedited if province of origin are always given in the order in which they appear on the form. For example : if Ancona, Siena and Naples ship into Rome, on the line for Rome give the tonnage from Siena in col.2; Ancona in col.3 ; Naples in col. 4.

c) No total or compartmental figures are required.

Declassified E.O. 12356 Section 3.3/NNM No. 785016

4. K.E.Stauffer, Room 56, Phone 300, will collect these data and coordinate the work for Economic Section Staff and Transportation Sub-Commission. It is suggested that each sub-Commission designate some one to gather and organize the work of all its sub-divisions and that this person should contact Stauffer with respect to any questions which arise.

5. To summarize, it is important that all data be submitted in the standard form and order so that all figures can be speedily combined and processed; all data should be given in metric-tons; all should be routed direct to Stauffer not later than January 12,1945.

ED/GEN/rh

ED/ 9A/3.0/AC

26 Dec. 1944

TO : Shipment, Port & Warehousing Division

1. With reference to Chief Requisition Division's RD-4694/154's to Education S/C copy to you dated 13 December (four letters)

2. Our ED/9A/3.0 of 13 Dec. and instructions for disposition issued by S.P & W Division on 15th and 16th Dec. also refer.

3. 47 MT pa er, printing, offset (71 rolls) should be delivered to Depot 676, Naples, in accordance with the original disposition.

4. 18 MT paper, printing (70 wooden cases) should be delivered to Florence (for distribution by Education Division, HQ. Tuscan Region, through Prof.Ugolini) in accordance with the original disposition. It is understood that this has been confirmed in my absence by Major Washburne.

5. The Chief Requisition Division refers to 2924 lbs of cotton binding thread (1,800 spools) whereas the other correspondence (indicated above) only mentions 420 lbs. All binding thread should be delivered to Florence (as above).

6. It appears that 47 MT of paper referred to in our ED/9A/3.0 of 13 Dec. as printing paper is in fact cover paper for binding of the books concerned.

7. As this is the whole amount required here for use in all printing centres it would be greatly appreciated if arrangement could be made to deliver it as follows:

	rolls	
Naples 676 depot	100	approx 32 tons
Florence(Tuscany Reg.Commissioner for Educ. Div.)	46	rolls ap rox 14 tons
Rome(Reg.Com)	16	rolls approx 11 tons
Palermo (Reg.Com)	20	rolls approx 9 tons

APO 394

ED/9A/3.0/AC

ED/ZNB/ra

25 Dec.1944

TO : Price Control Division,
Economic Section.

1. No landed costs have yet been communicated to this Subcommission for the following materials which were requisitioned for printing Elementary School Text-books:

2. Printing paper (flat bed, in boxes) of which 289 Drt have been delivered in Italy, and of which 25 tons has already been received by the representatives of this S/C and handed over for use by the publishers of the books concerned.

3. Printing paper (offset, in rolls) of which 47 Drt have already been delivered in Italy but not yet received by the representatives of this S/C.

4. Cover paper (in rolls) of which 47 Drt have already been delivered in Italy but not yet received by the representatives of this S/C.

5. Cotton binding thread of which 2934 lbs (1200 spool) have been delivered in Italy but not yet received by the representatives of this S/C.

6. Ground glue of which 2557 lbs has been delivered in Italy but not yet received by the representatives of this S/C.

7. Huber offset coloured ink of which about 3000 lbs have been delivered in Italy but not yet received by the representatives of this S/C.

8. Rotary press black ink of which ~~one~~ ton has been delivered in Italy, but not yet received by the representatives of this S/C.

4653

9. As the cost of these materials is one of the contributing factors in the pricing of the books concerned, and as it is most urgent that the books be on the market as soon as possible because the school year is already well advanced, and as it is hoped that we can reasonably expect to have early

9 9 4 4

Declassified E.O. 12356 Section 3.3/NND No. 785016

delivery of such materials already in the country; it would be appreciated if a price could be set for these materials.

10. It is pointed out that the requisition of these materials dates from April 3rd, 1944, and that numerous requests have already been made ; e.g; vide our memorandum of 17 Oct. our SD/S.2B of 7 Nov. both addressed to Price Control Officer, and our SD/S.2B of 25 Nov. to Supply Accountant, who was asked independently for prices; various conversations between numerous members of the Subcommissions concerned at frequent intervals also refer. Your SD/20.0j's of 11 Nov. and 2 Dec. state that AFHQ have not yet notified what these landed costs may be.

SUBJECT : Warehouse Stock Reports.

TO : Agriculture Sub-Commission
Commerce Sub-Commission
Education Sub-Commission
Finance Sub-Commission
Food Sub-Commission
Industry Sub-Commission
Public Health Sub-Commission
Public Works and Utilities Sub-Commission
Allied Publications Board

1. Attached hereto are two mimeographed copies of Warehouse Stock Reports covering period of 1 to 10 December 1944, relative to accumulated quantities of materials and supplies in storage in warehouses in the Naples and Leghorn areas.

2. Due to limited availability of space for storing goods, efforts are being made to keep the warehouses free from accumulation of stocks so as to permit future deliveries from being exposed to the weather and to prevent pilferage.

3. It is requested that Sub-Commissions concerned check the accompanying reports and take immediate steps with the Warehousing Division, Transportation Sub-Commission to transfer the goods from the warehouses to points of destination. In other words, goods are not to remain in warehouses beyond a reasonable period of time.

4. Notification of arrival of shipments are being sent regularly to Sub-Commissions concerned by this office. It is hoped that prompt action will be taken so as to prevent congestion at the ports for the movement of supplies other than civilian.

SUBJECT : Text-book Material

TO : The Commerce Subcommission
Attention - Mr. L. White.

1. For your information (and with reference to our conversation of yesterday - Sunday afternoon), six hundred and ten thousand books have been prepared or are nearing completion for use in Italian Elementary Schools in Lazio-Umbria-Abruzzo-Marche regions.

2. Nine hundred thousand similar books are due to be completed in Naples for Southern Italy and Sardinia (less Sicily and Calabria). Of these there is good reason to expect that about two hundred thousand will be ready for distribution very shortly.

3. We have received a request from one of the Rome editors concerned, through the Ministerial representative (Ministry of P.I) asking for wrapping paper(Kg. 1000 carta da impacco resistente 100 x 150 da gr. 100 mg).

4. I am asking Prof. Giordani (the Ministerial representative) to make full estimates of all requirements for this purpose for Elementary school text book distribution from Rome and Naples for the current scholastic year.

5. Any assistance you can give Prof. Giordani in this matter will be greatly appreciated.

FOR THE A/DIRECTOR OF EDUCATION

H.R.BEARD
Captain.

---

1. Your ED/2.12/ACC of 19 Sep was referred to this Headquarters for attention. This Headquarters now controls the map printing being done by the firm of VALLECHI.

2. This firm is engaged on the printing of maps of Europe to satisfy the urgent needs of SIXTH ARMY GROUP. This programme requires full use of the two colour machine and occasional use of the one colour machine. In addition a large programme of printing of Balkan town plans will be put in hand during this week. This programme will keep the single colour machine fully occupied.

3. When the present urgent operational map needs have been satisfied, arrangements can be made for VALLECHI to print the Elementary School Reader. We shall inform you when the present urgent programme has been completed.

4. It is likely that the one colour machine will be free before the two colour. Do you wish to use this machine?

"The Regional Education Officer, Capt. Noe, informs me that ACC is planning to have a local publisher, Vallecchi, one of the outstanding Florentine Fascists, print 700,000 copies of the Libro di Stato or Testo Unico, for the Italian Government. It would appear that Rome does not have enough paper and Florence has plenty! Besides the fact that I was not informed and that Vallecchi is a Fascist, it seems to us Florentines that what little paper we have here should serve Tuscan needs."

Declassified E.O. 12356 Section 3.3/NND No. 785016

Have you been informed of the Education Sub-Commission's plans, as outlined above? And do you concur? I should appreciate an early answer for communication to Mr. Ellison in Florence.

I. S. MUNRO,
Lt. Col.,
Executive Secretary.

Copy to : Major MacKenzie,
Capt. Piscop.

TO : Commerce Subcommission ACC
(Att; Sq/Ldr Mackenzie).

1. Reference Lt. Colonel CRUMP's R VIII/77/9/10 of 9 September 1944 to you, and herewith returned with many thanks.

2. The paper listed thereinwould be of the greatest value for educational purposes, and it would be greatly appreciated if it could be reserved for such use as the Ministry of Public Instruction may indicate.

3. The Minister is particularly anxious for copy books to be distributed through the Patronati Scolastici.

4. Could you obtain the prices for the paper listed? In this connection it might be borne in mind that the Patronati Scolastici have a public assistance function.

Ministero dell'Educazione Nazionale

GABINETTO DI S.E. IL MINISTRO

AL CAP. H.F. BEARD

Commissione Alleata di Controllo
Sottocommissione per l'Educazione

R O M A

Roma li, 15 settembre 1944

Gentilissimo Capitano,

Le comunico che mentre i flani di un libro completo saranno pronti per Lunedì prossimo come già le dissi, i flani di altri quattro libri o cinque saranno pronti entro le prossime due settimane.

Così spero che anche per Firenze il lavoro si avvii.

Riguardo alla carta per Napoli proporrei quanto segue.

Parlando con Vallecchi, questi mi disse che in Firenze avevano in deposito, di proprietà del Poligrafico di Roma, una grande quantità di carta e tale da poter pubblicare più di un milione e mezzo di volumi.

Ora io sono stato al Poligrafico e al Poligrafico mi hanno detto che non hanno difficoltà a cedere per il libro di Stato questa carta dietro una regolare richiesta degli Alleati.

Concesso questo, per Napoli si potrebbe far venire un discreto quantitativo di questa carta del Poligrafico mediante i mezzi militari che portano a Firenze i viveri e che da Firenze ritornano già vuoti.

In questo modo potremo agevolmente risolvere almeno in parte lo spinoso problema napoletano.

Cordialmente

Roberto Giordani

ALLIED CONTROL COMMISSION
EDUCATION SUB-COMMISSION

20 July, 1944

TO : Regional Education Officer
Region III

1. Attached copy of letter to Col. Holmes to whom I spoke this morning about paper.

2. One point Col. Holmes made quite clear was that paper (newsprint) costs 17,50 lire a kilo not 6 lire. This is a point that I had made myself when writing to the Subcommission from Sicily; it is also repeated in Col. Evans's letter of 6 June 1944. This will be a matter for me to clear up in Rome. Col. Holmes will not release any paper except at 17,50. I have told Colonnese the facts.

3. Ref. the last paragraph of my memorandum to you: Colonnese has paid the Mattino for these flani. I must find out if they are wanted in Rome and if not will write to the Mattino (Risorgimento press) and ask them to reimburse the sum paid to Colonnese on receipt of the flani.

4. For your information I quote the final paragraph of a letter just received from the Deputy Director of Education: -

> "The division of labour between Giordani representing the Ministry, and the Education Subcommission is this: -
>
> a) Giordani is responsible for the whole publishing programme.
> b) The Education Subcommission is responsible for giving basic materials when not locally obtainable and for helping wherever military help or permission is needed.

HEADQUARTERS
ALLIED CONTROL COMMISSION
EDUCATION SUB-COMMISSION

REF : ED/2.5.A 7 July, 1944

TO : Industry and Commerce Subcommission
(Local Resources).

SUBJECT : Request for binding thread.

1. This Subcommission requires urgently a small quantity of binding thread for Elementary School books.

2. Formerly the editors of these books have been able to purchase direct from the hemp industries in Sarno; but when an officer of this Subcommission went there recently to obtain binding thread for immediate needs for School books in the course of preparation he was told that it was now necessary to obtain a release order from the Hemp Control Officer.

3. A request was duly made for the release of a modest 19 Kilograms, but this has been refused by the Hemp Control Officer.

4. It would be appreciated if a priority could be assigned to the Education Subcommission for the release of binding thread (or fine cobblers' thread), 19 Kilograms of which is required immediately, and larger quantities of which will be required for the preparation of elementary and secondary school text-books for the coming scholastic year.

REQUISITION FOR PRIME MATERIALS FOR PRINTING TEXT-BOOKS
IN ROME

1. Justification. The elementary school text-books heretofore used consisted of a series of ten books, used in all elementary schools of Italy. These were permeated with FASCIST doctrine. They have been rewritten under AMG supervision, and reprinted for Regions 1, 2, 3, and 6, and the southern parts of Region 4 and 5. They will have to be immediately reprinted in Rome from mats already prepared for this purpose. Without them, schools cannot function and there is great unrest among the civilians who feel that their children are losing their right to schooling. The Italian Minister of Education is in full accord with our program.

2. Shortage of prime materials. The paper, ink, binding thread, and glue necessary for printing and binding the books has in the past been largely imported or has come from northern Italy. For the much smaller printings in Palermo and Naples it was impossible to find adequate local supplies, so army, PWB, and other imported supplies had to be picked up wherever they could be found. For Rome and the rest of Regions 4 and 5, provision must be made for the importation of prime materials.

3. Basis for requisition. The attached requisition is based on latest available data on school enrollment, province by province, with discount for children unable to go to school or to buy books (based on Naples and Palermo experience). Exact quantities of each type of material for each book in the series have been calculated on the basis of amounts used in the Naples printing. Detailed figures are available for inspection.

In general, the number of books to be printed in Rome this summer totals 1,039,000 copies.

4. Method of payment. It is proposed to continue in Rome the financial arrangements made in Palermo and Naples. An Italian publishing house takes responsibility for printing and distribution. AMG makes prime materials available at cost, collects from the publisher and deposits AMTA. AMG also assists with transportation of prime materials and finished books. Prices of text-books are fixed by AMG and the publisher on the basis of a cost analysis. The publisher distributes through books stores which sell to students.

PROGRAM OF ESSENTIAL ITALIAN IMPORTS

PAPER

MCC AIRGRAM 36 : 26 March 1945

From : ALCOM CITE ACCO

To : CCAC FOR CLAC

Subject : Requisition Number CLAC I-225, Paper.
Program of Essential Italian Imports 1945
Section IV-c.

SPECIAL PROGRAM : The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible unless otherwise indicated below.

The Italian Government authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U. S. Secretary of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

Ship to : Italian ports to be detailed later.

Consignee : Istituto Nazionale per il Commercio Estero (ICE)

Shipping Markings : In accordance with "D Shipping Marking Directive; to include letters ICE and above Requisition Number.

4518

Declassified E.O. 12356 Section 3.3/NSC Memo, 7/25/96

To : CCAC FOR CLAC

Subject : Requisition Number CLAC I-229, Paper.
Program of Essential Italian Imports 1945
Section IV-a.

SPECIAL PROGRAM : The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible unless otherwise indicated below.

The Italian Government authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U. S. Secretary of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

Ship to : Italian ports to be detailed later.

Consignee : Istituto Nazionale per il Commercio Estero (ICE)

4518

Shipping Markings : In accordance with CD Shipping Marking Directive; to include letters ICE and above Requisition Number.

Shipping Documents : It is requested that four copies of the Ocean Bill of Lading be sent by Air Mail to Economic Section, AC, immediately after ship sails.

31	Magnesium carbonate (precipiteted)	tons	10	10	20
32	Sodium acetate	"	10	10	20

JUSTIFICATION

1. PURPOSE

The purposes of this requisition are the following:

4515

a. Under Category "A" - to increase local production of paper to the point where it will be unnecessary to import either (1) miscellaneous paper for Liberated Italy (except minor specialties), or (2) newsprint for any part of Italy.

b. Under Category "B" - to produce paper up to the estimated capacity in Liberated Italy (39,000 tons over a six-month period), and thus meet approximately 45 percent of the normal paper requirements of the liberated area.

2. Liberated Italy has been unable because of lack of materials to produce enough paper to meet its barest requirements. It has therefore been necessary to import news print from the United States and Canada. This has not only been a drain on these countries, where it is already in short supply, but also has been an extra burden on Allied shipping. The shipping shortage has also made the paper supply most undependable. The Category "A" portion of this program is designed to wipe out both the shipping burden and the

Declassified E.O. 12356 Section 3.3/NND No. 785016

uncertainty of supply of essential paper requirements.

For information, the scheduled imports of paper for January-June 1945 are set forth in Column "C" of Table 1.

3. PAPER REQUIREMENTS

a. Normal Paper Requirements - The only figures available on the paper requirements of Liberated Italy are those based on consumption in the year 1941 which is considered to be fairly representative. The consumption estimate has been checked against sales of all paper mills in Italy for the base year and found to be correct. Paper consumption is proportionately greater in Northern Italy than in the South; the normal requirement figures (Column "A" of Table 1) are therefore based on thirty-five (35) percent of normal consumption for the whole of Italy in 1941.

A special calculation was made for government supplies of paper included in these figures. Actual statistics of the "Poligrafico dello Stato" (State paper-manufacturing company) were removed by the Germans, but government requirements were calculated from the purchase price of their stocks. Final figure of need was taken as seventy percent (70%) of previous consumption, since a great part of the Government's consumption of paper is of course concentrated in Rome.

Abnormalities arising from present war-time considerations, such as the special requirements of the Allied Forces like map-paper, have not not been allowed for in these calculations. Allowance for them would of course raise the estimated requirements; therefore the figures in Column A of Table 1 can be regarded as conservative estimates.

Paper for ration cards is calculated on the basis of:

(1) A ration card weighing about 20 grams.

(2) Each person needing six (6) cards per annum.

No data is available for 1941 consumption of safety paper. Present requirements are based on government estimates for 1943.

b. Essential Paper Requirements - The monthly requirements considered to be essential as part of the military responsibility are as follows:

Newsprint (for basis see Table 2.) 1,680 *

Declassified E.O. 12356 Sec. 3.3/NND No. 784514

4514

(State paper-manufacturing company) were removed by the Germans, but government requirements were calculated from the purchase price of their stocks. Final figure of need was taken as seventy percent (70%) of previous consumption, since a great part of the Government's consumption of paper is of course concentrated in Rome.

Abnormalities arising from present war-time considerations, such as the special requirements of the Allied Forces like map-paper, have not not been allowed for in these calculations. Allowance for them would of course raise the estimated requirements; therefore the figures in Column A of Table 1 can be regarded as conservative estimates.

Paper for ration cards is calculated on the basis of:

(1) A ration card weighing about 20 grams.

(2) Each person needing six (6) cards per annum.

No data is available for 1941 consumption of safety paper. Present requirements are based on government estimates for 1943.

b. Essential Paper Requirements - The monthly requirements considered to be essential as part of the military responsibility are as follows:

Newsprint (for basis see Table 2.)	1,680*
Office Supplies (approximately 1/3 of the normal requirements shown in Column "A", Table 1.)	480
Printing paper (1/2 of the normal figure in Table 1. - for school textbooks, copybooks and necessary business and commercial use.)	1,350
Safety Paper (for currency - figure based on current production program)	70
Ration Cards (3 cards per person for 25,000,000 people, each card weighing 20 grams).	250
Monthly Category "A" Requirements --	3,780
Six-Monthly Category "A" Requirements --	22,680

*This figure includes requirements for Liberated Italy and for Northern Italy as well. The other figures are only for Liberated Italy.

4. PRODUCTION

a. The capacity to produce 39,000 tons of paper in a six-month period, against the normal requirement (Column A of Table 1) of 86,180 tons, is available in Liberated Italy. The implementation of this or any lower level of production requires cellulose, colophony, various types of nets, coal and electric power.

b. The production of sufficient paper to meet Liberated Italy's essential requirements, plus the needs of the Allies in the North, would not use this entire capacity. The requirements for producing the essential requirements (3,780 tons per month or 22,680 for six months) are as follows:

	One Month	Six Months
Cellulose (See Table 3)	1,100 tons	6,600 tons
Colophony (See Table 3)	120 "	720 "
Coal (See Table 3)	3,024 "	18,144 "
Electric power (See Table 3)	10,570 KW	

In addition the nets and chemicals indicated under Category "A" in the requisition will be required.

c. The requirements to produce 6,500 tons of paper per month, or 39,000 tons for a six-month period (Category "A" plus "B") are similarly calculated to be as follows:

	One Month	Six Months
Cellulose	1,625 tons	9,750 tons
Colophony	195 tons	1,170 tons
Coal	5,200 tons	31,200 tons
Electric Power	18,200 KW	

Less cellulose and colophony are required, in proportion to implementing this considerably larger production program, because some of the lower grade types of paper can be produced with little or no cellulose, using scrap rags and scrap paper.

Declassified E.O. 12356 Section 3.3/NND No. 785016

		18,144 "

Electric power (See Table 3) 10,570 KW

In addition the nets and chemicals indicated under Category "A" in the requisition will be required.

c. The requirements to produce 6,500 tons of paper per month, or 39,000 tons for a six-month period (Category "A" plus "B") are similarly calculated to be as follows:

	One Month	Six Months
Cellulose	1,625 tons	9,750 tons
Colophony	195 tons	1,170 tons
Coal	5,200 tons	31,200 tons
Electric Power	16,200 KW	

Less cellulose and colophony are required, in proportion to imple this considerably larger production program, because some of the lower grade types of paper can be produced with little or no cellulose, using scrap rags and scrap paper.

The additional nets and chemicals required (over and above those in Category "A") are shown under the Category "B" column in the requisition. 4513

d. One thousand (1000) tons of cellulose is scheduled to become available during 1945 from a production program starting next month. Deduction of this amount leaves cellulose requirements as follows, for the six-month period:

Under Category "A" -- 5,600 tons
Under Category "A" and "B" -- 8,750

e. Note on Nets. - During the normal operation of a plant, an average of two nets per month are worn out. The requirements for each machine for a six-month period would therefore be twelve nets. Capacity production (Category "A" plus "B") requires the use of the thirty-one (31) paper producing machines available. The total requirements for a six-month period, therefore, would be 372 nets. Netting in various sizes in the amount of 360 nets appears as the requirement for Category "A" plus "B". For Category "A" alone, the nets required have been proportionately reduced, generally to about

Declassified E.O. 12356 Section 3.3/NND No. 785014

half the requirement for capacity production.

5. IMPORTS OF NEWSPRINT

The Allied Publications Board and the Psychological Warfare Branch, AFHQ, have stated that at least 1,000 tons of newsprint per month is required for Northern Italy. In addition, as shown in Table 2, the requirements of newsprint for Liberated Italy amount to 680 tons per month.

Against the 680 ton Liberated Italy requirement, there can be set off a production of 320 tons in the Rome Area, which takes care of the needs of the Rome papers at the level approved during Sept-Dec 1944 by the Allied Publications Board. The Italian Government has been informed that imported newsprint cannot be made available for increasing the numbers or circulation of newspapers, either in Rome or elsewhere, over the levels established by Allied Publications Board and in effect before the control of paper supply for the press in Liberated Italy was handed back to the Italian Press Commission at the end of December 1944 (set out in Table 2.)

The essential requirements at present, therefore, minus present indigenous production, are as follows:

North	-- 1000	tons per month
Plus South	-- 680	" " "
Minus production in Rome	- 320	" " "
Equals	-- 1360	" " "

Against this total requirement, the present import program calls for 1,000 tons per month, although this program has never in fact been met. Because of the inability to meet the approved import program, there is a newsprint shortage that actually stopped publications in Naples for a short period, and has made it necessary for AFHQ to scour the Mediterranean for stocks of newsprint to relieve the situation in Italy.

It is planned to continue imports of newsprint until the program described in the above paragraphs as "Category 'A'" can be implemented. The imports can stop as soon as the requested Category "A" supplies arrive.

Declassified E.O. 12356 Section 3.3/NND No. 18501 6

Allied Publications [illegible] for the press in liberated Italy was handed back to the Italian Press Commission at the end of December 1944 (set out in Table 2.)

The essential requirements at present, therefore, minus present indigenous production, are as follows:

North -- 1000 tons per month

Plus South -- 680 " " "

Minus production in Rome - 320 " " "

Equals -- 1360 " " "

Against this total requirement, the present import program calls for 1,000 tons per month, although this program has never in fact been met. Because of the inability to meet the approved import program, there is a newsprint shortage that actually stopped publications in Naples for a short period, and has made it necessary for AFHQ to scour the Mediterranean for stocks of newsprint to relieve the situation in Italy.

It is planned to continue imports of newsprint until the program described in the above paragraphs as "Category 'A'" can be implemented. The imports can stop as soon as the requested Category "A" supplies arrive.

nical papers.

TABLE 3

REQUIREMENTS FOR PRODUCTION OF PAPER (Category "A")

CATEGORY "A"	Per Month	Six Months
Paper to be produced	3,780	22,680

Cellulose

	Amount of Paper		Proportion of Cellulose Used		Cellulose Requirement.	
Newsprint	1,680	X	30%	-	505	tons
Office Supplies	430	X	30%	-	129	"
Printing Paper	1,350	X	25%	-	340	"
Safety Paper	70	X	40%	-	28	"
Ration cards	250	X	40%	-	100	"
	3,780				1,102	

Rounded to 1,100 tons.

Colophony

			Proportion of Colophony Used	Colophony Requirement	
Newsprint	1,680)	X	3%	104	tons
Office Supplies	430)				
Printing Paper	1,350)				
Safety Paper	70)	X	5%	16	"
Ration Cards	250)				
	3,780			120	

Coal

Usual proportion is 0.8 tons of sardinian coal to 1 ton of paper produced. Use of sardinian coal is assumed.

Hence monthly production of 3,780 tons of paper implies...3,024 tons of coal.

Electric Power

70 KW connected load is required per ton of paper per day. Thus, 3,780 tons of paper, produced in 25 working days, implies a connected load of approximately 10,570 KW.

Declassified E.O. 12356 Section 3.3/NNN No. 785016

LIST OF CONTROLLED MATERIALS

A. 1st CATEGORY - LIST OF MATERIALS CONTROLLED BY AFLR(I)B

a. Controlled by Engineering Materials Committee.

I. Metals - Ferrous.

1. Cable & Wire
2. Machine & Tool steel
3. Structural Steel, sectional dimension exceeding mm.150
4. Foundry Pig.

II. Metals - Non ferrous.

5. Brass, unfabricated
6. Copper, unfabricated and scrap
7. Chromium
8. Lead in all forms
9. Nickel
10. Solder
11. Tin
12. White metal for bearings

III. Timber.

13. Standing timber in the two areas reserved for British and American services in Calabria.
14. Plywood

4505

IV. Other Building Materials.

15. Paint
16. Pigments for paint

Declassified E.O. 12356 Sec. 3.3/NND No. 785016

3. Structural Steel, sectional dimension exceeding mm.150
4. Foundry Pig.

II. Metals - Non ferrous.

5. Brass, unfabricated
6. Copper, unfabricated and scrap
7. Chromium
8. Lead in all forms
9. Nickel
10. Solder
11. Tin
12. White metal for bearings

III. Timber.

13. Standing timber in the two areas reserved for British and American services in Calabria.
14. Plywood

4505

IV. Other Building Materials.

15. Paint
16. Pigments for paint
17. Varnish
18. Linseed & Linseed Oil
18.A. Cement all qualities.

V. Electrical Materials.

19. Accumulators & Batteries
20. Copper and Aluminium conductors
21. Electric Light bulbs
22. Electric Light fittings
23. Motors
24. Portable generators
25. Switch gear
26. Transformers
27. Welding rods.
28. Wires & Cables

Declassified E.O. 12356 Section 3.3/NND No. 785016

VI. Industrial Gases & Chemicals.

29. Gas bottles and containers
30. Ammonia
31. Caustic Soda
32. Calcium Carbide
32A. Soda Ash

b. Controlled by Miscellaneous Purposes Committee

VII. 33. Hemp: raw, tow and manufactured (excluding binder twine & 3rd, 4th and 5th quality rope).
34. Leather and all leather articles.

B. 2nd CATEGORY - RESTRICTED MATERIALS (MATERIALS CONTROLLED WITH PRIORITY FOR CIVILIAN NEEDS).

1. Matches
2. Phosphate Rock
3. Tanning Materials
4. Cellulose for paper-making
5. Carbon Bisulphide
6. Soap

C. 3rd CATEGORY - MATERIALS CONTROLLED BY THE MINISTRY OF INDUSTRY COMMERCE AND LABOUR

I. Metals.

1. Iron bars, iron plates, tin plates
2. Steel - in blooms, ingots, billets and slabs - other than special machine and tool steel.
3. Structural steel, sectional dimension of 150 mm. or less.
4. Aluminium in pig, ingots, plates or semifinished materials (rolled, drawing, powders, grains, etc.).
5. Scrap metals other than copper and lead already mentioned in category 1, para II.
6. Aluminium scraps.

II. Building Materials.

7. Trunks only of: fir, larch, pine and chestnut tree, average sectional dimension not less than 15 cms.
8. Sawn timber of the above mentioned trees (small boards,

Declassified E.O. 12356 Section 3.3/NND No. 182016

5. Scrap

C. 3rd CATEGORY - MATERIALS CONTROLLED BY THE MINISTRY OF INDUSTRY COMMERCE AND LABOUR

I. Metals.

2. Steel - in blooms, ingots, billets and slabs - other than special machine and tool steel.
3. Structural steel, sectional dimension of 150 mm. or less.
4. Aluminium in pig, ingots, plates or semifinished materials (rolled, drawing, powders, grains, etc.).
5. Scrap metals other than copper and lead already mentioned in category 1, para II.
6. Aluminium scraps.

II. Building Materials.

7. Trunks only of: fir, larch, pine and chestnut tree, average sectional dimension not less than 15 cms.
8. Sawn timber of the above mentioned trees (small boards, planks, big planks, cants etc.) with a thickness of 20 mm. or more.
9. Beams of the above mentioned trees regardless of manufacture (axed or sawn), sectional dimension not less than 15 x 15 cms.
10. Small beams of the above mentioned trees regardless of manufacture (axed or sawn), sectional dimension not less than 7 x 7 cms.
11. Slats of the above mentioned trees regardless to their sectional dimension and length.
12. Glass (sheet).

Declassified N.D. 12356 Section 3.3/NNN No. 785016

III . Greases and solven s

I3. Greases for industrial purposes, excluding petroleum products (I).
I4. Solvents; (carbon tetrachloride, trioline,excluding petroleum products). (I)

IV . Textile fibres.

I5. Artificial textile fibres
I6. Cotton, cloth and other textile products.
I7. Binder twine and 3rd, 4th and 5th quality rope.

V Miscellaneous

I8. Sulphuric acid (pr.e, to be employed for electrical accumulators).
I9. Sulphur rock and processed sulphur.

D. 4th CATEGORY - MATERIALS UNDER SPECIAL CONTROL.

I. Solid fuel.
2. P.O.L. (Petroleum products, oils and lubricants), methane gas.
3. Newsprint and printing paper (for the Provinces given back to the Administration of the Italian Government and for Naples).

(I) Petroleum greases for industrial purposes, petroleum lubricants and solvents must be considered as P.O.L. products.

4504

Declassified A.D. 12356 Section 3.3/NND No. 785016

LISTA DELLE MATERIE CONTROLLATE

A. I. CLASSE - MATERIE CONTROLLATE DALL'AFLR(I)B

a. Materie controllate dall'Engineering Materials Committee.

I. Metalli ferrosi

1. Funi e fili
2. Acciai speciali per macchine e utensili
3. Acciai profilati, la cui dimensione massima della sezione ecceda mm. 150
4. Ghisa di seconda fusione.

II. Metalli non ferrosi.

5. Ottone non lavorato.
6. Rame, non lavorato e in rottami.
7. Cromo.
8. Piombo di ogni genere.
9. Nichel.
10. Leghe per saldatura dolce.
11. Stagno.
12. Metallo bianco per cuscinetti.

III. Legname.

13. Legname in piedi nelle due zone della Calabria riservato alle Forze Armate Britanniche e Americane.
14. Legno compensato.

IV. Altri materiali da costruzione.

15. Colori.
16. Pigmenti per colori.
17. Vernici
18. Semi di lino e Olio di Semi di Lino.

4503

Declassified E.O. 12356 Section 3.3/NNB No. 785016

3. Acciai profilati, la cui dimensione ecceda mm. 150
4. Ghisa di seconda fusione.

II. Metalli non ferrosi.

5. Ottone non lavorato.
6. Rame, non lavorato e in rottami.
7. Cromo.
8. Piombo di ogni genere.
9. Nichel.

14. Legno compensato.

IV. Altri materiali da costruzione.

15. Colori.
16. Pigmenti per colori.
17. Vernici
18. Seme di lino e Olio di Seme di Lino.
18A. Cemento di ogni qualità.

V. Materiali Elettrici.

19. Accumulatori e pile.
20. Conduttori di rame e di alluminio.
21. Lampadine elettriche.
22. Minuterie elettriche
23. Motori.
24. Generatori portatili.
25. Interruttori.
26. Trasformatori.
27. Elettrodi per saldatura.
28. Fili e cavi.

4503

Declassified E.O. 12356 Section 3.3/NNB No. 785016

VI. Gas Industriali Prodotti Chimici.

29. Bombole e recipienti per Gas.
30. Ammoniaca.
31. Soda caustica.
32. Carburo di calcio.
32A. Carbonato di Sodio (Soda Solvay).

b. Materie controllate dal Miscellaneous Purposes Committee.

VII. 33. Canapa : Greggia, stoppa e manufatti (escluso lo spago per mietitrici-legatrici e la 3^ 4^ e 5^ qualità di corda).

34. Cuoio e tutti i manufatti di cuoio.

B. 2^ CLASSE - PRODOTTI SOTTOPOSTI AL CONTROLLO CONDIZIONATO (PRECEDENZA PER IL FABBISOGNO CIVILE ITALIANO)

1. Fiammiferi.
2. Fosfato di calcio (fosforiti)
3. Prodotti concianti.
4. Cellulosa per carta.
5. Solfuro di carbonio.
6. Sapone.

C. 3^ CLASSE - PRODOTTI CONTROLLATI DAL MINISTERO DELL'INDUSTRIA COMMERCIO E LAVORO.

I. Metalli

1. Vergella, lamiera e latta.
2. Acciai in blumi, lingotti, billette e bidoni diversi da quelli speciali per macchine e utensili.
3. Acciai profilati, la cui dimensione massima della sezione sia di 150 mm. o inferiore.
4. Alluminio in pani, lingotti, placche od in semilavorati (laminati, trafilati, polveri granelli, ecc.).
5. Rottami metallici eccettuati quelli di rame e di piombo compresi nella classe 1^, categoria II.
6. Rottami di alluminio.

II. Materiale da costruzione.

7. Tronchi delle sole essenze di abete, larice, pino e

4. Alluminio in pani, lingotti, placche od in semilavorati (laminati, trafilati, polveri granelli, ecc.).
5. Rottami metallici eccettuati quelli di rame e di piombo compresi nella classe 1^, categoria II.
6. Rottami di alluminio.

II. Materiale da costruzione.

7. Tronchi delle sole essenze di abete, larice, pino e castagno di diametro medio non inferiore a cm. 15.
8. Legname segato delle anzidette essenze (assicelle, tavole, tavoloni, panconi ecc.) dello spessore da mm. 20 in sopra.
9. Travi delle anzidette essenze comunque lavorate (asciate e segate) di sezione non minore di cm. 15 x 15.
10. Travicelli delle sopradette essenze comunque lavorate (asciate o segate) di sezione non minore di cm. 7 x 7.
11. Listelli delle sopradette essenze di qualsiasi sezione e lunghezza.
12. Vetri (lastre).

Declassified E.O. 12356 Section 3.3/NNO No. 785016

III. Grassi e solventi.

13. Grassi per usi industriali, esclusi i prodotti petroliferi (1).
14. Solventi; (tetracloruro di carbonio, trielina, esclusi i prodotti petreliferi (1).

IV. Fibre tessili.

15. Fibre tessili artificiali.
16. Filati, tessuti ed altri prodotti tessili.
17. Spago di canapa per mietitrici - legatrici e la 3°, 4° e 5° qualità di corda.

V. Prodotti vari.

18. Acido solforico puro adatto per accumulatori elettrici.
19. Minerali di zolfo e zolfi lavorati.

D. 4° CLASSE - PRODOTTI SOTTOPOSTI A SPECIALE CONTROLLO.

1. Combustibili fossili.
2. P.O.L. (Prodotti Petroliferi, Olii e lubrificanti) gas metano.
3. Carta da giornali e da stampa (per le provincie restituite all'Amministrazione del Governo Italiano e per Napoli.)

---

(1) I grassi per usi industriali ed i lubrificanti di origine petrolifera, nonchè la benzina solvente vanno compresi fra i prodotti P.O.L. (della 4° Classe).

Declassified E.O. 12356 Section 3.3/NNN No. 785016
