3 Jan. 1945

SUBJECT : Price of Paper

TO : Economic Section, AC, Price Office
(Attention - Mr. Basken)

Conversation of 30 December, 1944.

1. A large part of the offset paper for printing elementary school text-books, requisitioned last spring, arrived during November and December. Early in November we requested landed cost.

2. Your office attempted repeatedly to get the landed cost for us and sent one or more telegrams to Washington in regard thereto. Up to the present you have received no reply.

3. The text-books printed on this paper are urgently needed by the schools which are now functioning. They cannot be sold without a price being fixed. The price of the text-books depends in part on the price of the paper. Paper price must, therefore, be immediately established without waiting further for a reply from Washington.

4845

4. Similar paper, for the same use, has been sold to the publishers in Rome by the Vatican at 20 lire per kilo, and by the Poligrafico dello Stato in Florence at the same price.

5. We, therefore, agreed that the price of the American paper to the publishers of the text-books will be 20 lire per kilogram.

6. I have so notified the publishers and the books have been priced accordingly.

7. Will you please indicate your confirmation of this agreement between us by signing the attached copy.

HEADQUARTERS ALLIED COMMISSION
Education Subcommission
APO 394

94/3.0.

SUBJECT: Materials available. Tel.416-326

TO: Commerce Subcommission 12 May 1945
(attention of L.W.R.White Esq.)

1. Refence to our letter to you of the 26 April (94/3.0.), we confirm that the materials mentioned on your Form 400.2 of the 18 April, i.e.:

White printing paper - 67 cases - 18 DWT
Cover paper - 289 cases - 44 DWT
Black printing ink - 595 drums - 74 DWT ,

are needed by this Sub Commission.

2. We are informed that the above materials have been delivered to the Poligrafico dello Stato. It would be appreciated if you will kindly instruct the Pahigrafico dello Stato to hold these materials at the disposal of Education Sub Commission.

3. Attached please find list of paper and ink requisitioned by this Sub Commission for the next school year 1945/46.

For the Director of Education:

J.V.VELLA
Captain
Executive Officer.

9A/1.0. Tel. 478-326

SUBJECT: Material Supplies 31 March 1945

TO: Economic Section
Requisition Division.

1. The attached list shows the estimated quantities of materials which will be required to meet elementary school needs for the whole of Italy during 1945/46. Paragraph 1, of the memorandum shows the information on which this demand is based. The matter has been discussed and agreed with the Italian Ministry of Public Instruction.

2. Printing should begin not later than the month of June. Existing supplies of materials are approaching exhaustion.

3. To meet the minimum needs of secondary schools for the whole of Italy during 1945/46, an additional 2,000 tons of flat offset paper will be required. The work of printing these books should be begun in the month of June.

4. An additional 500 tons of flat offset paper is required for printing University text-books and other books of an educational character. The work of printing these books should be begun in the month of June.

5. Ink: black offset and coloured, together with cover paper, thread and glue will be required on the same proportionate scale for secondary and University text-books as that laid down in the memorandum attached for elementary school books.

6. Will you kindly state whether or not supplies on the scale outlined above are scheduled to be available in adequate quantities beginning during the month of June, under the provision of your Programme of Essential Italian Imports dated 26 March. A copy of this programme was given to this Sub Commission on request on the 30 March, but it had not previously been seen by this Sub Commission nor was it known that such a programme was in course of preparation.

For the Director of Education.

PROBABLE REQUIREMENTS OF MATERIALS FOR ELEMENTARY SCHOOL

TEXT BOOKS FOR THE WHOLE OF ITALY, YEAR 1945-6

1. The following figures show the number of children, as per Ministry's statistics, attending all elementary schools in Italy: liberated and yet to be liberated:

| Class | Number of children |
|---|---|
| I | 1,400.000 |
| II | 1.150.000 |
| III | 1.100.000 |
| IV | 900.000 |
| V | 650.000 |
| Total | 5.200.000 |

2. The following figures show the total number of books required for the above children:

| Class | Number of books for each child | Total |
|---|---|---|
| I | 1 | 1.060.000 |
| II | 1 | 365.000 |
| III | 2 | 1.650.000 |
| IV | 4 | 2.700.000 |
| V | 4 | 1.950.000 |
| IV & V | 2 | 2.325.000 |
| Total | | 10.600.000 |

3. The approximate totals of materials needed for the printing of the aforesaid 10.600.000 books are as follows:

a) PRINTING PAPER: (105.000 reams of the 70 x 100 size sheet). 4826
Approximate weight of paper 25 Kg. per ream equal to a total of: 2.650. tons approx.

b) COVER PAPER: (26.500 reams of the 70 x 100 size sheet).
Approximate weight of each ream Kg. 50 equal to a total of:
135 tons approx.

c) BLACK INK: For books which must be printed in black ink:

26.000 kg. approx.

d) OFFSET BLACK INK: For two or more coloured books and covers:

11.000 Kg. approx.

e) COLOURED INKS: For two or more coloured books and covers

| | | |
|---|---|---|
| blue | 13.500 Kg. | approx. |
| yellow | 13.500 " | " |
| red | 13.500 " | " |

f) BINDING THREAD: The quantity needed will be:

7.200.000 meters approx.

g) GLUE: reckoning an average of 4 grams per volume:

42.500 Kg. approx.

---

PROPORTIONAL QUANTITIES OF THE ABOVE MATERIALS NEEDED IN EACH REGION

1. PALERMO (I Region) 8% of general total

| | |
|---|---|
| Printing paper | 212 tons |
| Cover paper | 10,8 tons |
| Black ink | 2.080 Kg. |
| Offset black ink | 880 " |
| Coloured inks (each colour) | 1.080 " |
| Thread | 576.000 meters |
| Glue | 3.400 Kg. |

2. NAPLES (II, III, VI and VII Regions) 20% of general total

| | |
|---|---|
| Printing paper | 530 tons |
| Cover paper | 27 " |
| Black ink | 5.200 Kg. |
| Offset black ink | 2.200 " |
| Coloured inks (each colour) | 2.700 " |
| Thread | 1.440.000 meters |
| Glue | 8.500 Kg. |

3. ROME (IV and V Regions) 16% of general total

| | |
|---|---|
| Printing paper | 424 tons |
| Cover paper | 21,6 " |
| Black ink | 4.160 Kg. |
| Offset black ink | 1.760 " |
| Coloured ink (each colour) | 2.160 " |
| Thread | 1.152.000 meters |
| Glue | 6.800 Kg. |

4823

9A/3.0

(more)

Declassified E.O. 12356 Section 3.3/NND No. 785016

JUSTIFICATION:

1. The supplies listed above have been pared again and again. They are now reduced to the minimum quantity of materials which are needed in order to enable the elementary and secondary schools of the whole of Italy to function during the forthcoming school year 1945/46.

2. The basis on which these figures have been worked out is a total of 5,200,000 children in elementary schools and 988,000 children in secondary schools. It is submitted that, having regard to these figures and to the imperative need for ensuring that youth of Italy is assured of a fair educational chance in the first year of liberation, the total of supplies requested is very moderate.

ROMA

E' stata preparata, per trasmissione agli S.U.A., una nota di requisizione. Urge sia trasmessa al piu' presto possibile. In questa nota sono stati richiesti i seguenti materiali in relazione all'anno scolastico 1945/46:

1. Carta per confezionare quaderni DWT. 1800
2. Carta da copertina colorata per quaderni DWT. 180
3. Carta da macchina DWT. 20
4. Carta da disegno DWT. 50
5. Carta trasparente per lucidi DWT. 6
6. Carta asciugante DWT.100
7. Pennini, 35.000.000
8. Inchiostro nero, in polvere, DWT.40
9. Inchiostro china, Lbs. 4.000
10. Nastri da macchina, 100.000
11. Portapenne, 7 milioni
12. Matite nere con gomma No.2, 12 milioni
13. Matite nere da disegno, No.4, 30.000
14. Matite rosse e blu', 300.000
15. Gomme da matita, 1.000.000
16. Gomme da inchiostro, 200.000

V.E. e' pregata di rilasciare una dichiarazione da unirsi alla suddetta nota. Con tale dichiarazione, V.E. s'impegna di provvedere alla liquidazione dei materiali su elencati, per conto del Governo, al prezzo allo sbarco, all'atto della loro consegna al destinatario.

HEADQUARTERS ALLIED COMMISSION
Education Subcommission
APO 394

WAR Airgram A#: 25 April 1945

FROM: Education Sub Commission

TO:

SUBJECT: Requisition Number CIAC 1-234, Supplies for producing school and universities text-books.

SPECIAL PROCEDURE: The items listed below are requested by the Italian Government for procurement and shipment to Italy as early as possible.

The Italian Government authorizes payment out of the fund established pursuant to the letter addressed by the Italian Minister for the Treasury to the U.S. Secretary of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

SHIP TO:

CONSIGNEE: Istituto Nazionale per il Commercio Estero (ICE)

SHIPPING DOCUMENTS: It is requested that four of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, A.C. immediately after ship sails.

ITEMS: 1. PRINTING PAPER: 3056 Metres of white half-sized book paper. Approx. weight 2.2/2.4 ozs. per sq. metre. Size 28 x 40 inches or 35 x 34 inches, or larger multiple thereof. SAMPLES ATTACHED.

2. COVER PAPER: 255 Metres. Any quality of printing paper can be used, but the weight should be approx. 5.25 ozs. per sq. metre. Blue, green, red, in equal proportions. SAMPLES ATTACHED.

3. BLACK INK: 49 Metres of common dense printing ink. This ink should be more dense than that used for newspapers.

4. BLACK OFFSET INK: 21,15 Metres.

5. COLORED OFFSET INK: 79.2 Metres. Red, blue, yellow, green, in

4303

Declassified E.O. 12356 Section 3.3/NNN No. 782502

of the Treasury on 20 January 1945 for such of the items listed below as shall be assigned for procurement to the United States.

SHIP TO:

CONSIGNEE: Istituto Nazionale per il Commercio Estero (ICE)

SHIPPING DOCUMENTS: It is requested that four of the Ocean Bill of Lading be sent by Air Mail to Education Sub Commission, A.C. immediately after ship sails.

I T E M S: 1. PRINTING PAPER: 5068 DWTons of white half-sized book paper. Approx. weight 2.2/2.4 ozs. per sq. metre. Size 23 x 40 inches or 25 x 34 inches, or larger multiple thereof. SAMPLES ATTACHED.

2. COVER PAPER: 255 DWTons. Any quality of printing paper can be used, but the weight should be approx. 5.25 ozs. per sq. metre. Blue, green, red, in equal proportions. SAMPLES ATTACHED.

3. BLACK INK: 49 DWTons of common dense printing ink. This ink should be more dense than that used for newspapers.

4. BLACK OFFSET INK: 21,15 DWTons.

5. COLORED OFFSET INK: 77,2 DWTons. Red, blue, yellow, green, in equal proportions.

6. THREAD: 15,425,000 yards of yarn packed in cylindrical bobbins, as per attached sample.

7. GLUE: 82,47 DWTons of glue for fastening covers in books.

In respect of all the above items, reference is made to Requisition Number U.S.E. 124 QM dated 3 April 44. The supplies received in response to this Requisition request were satisfactory.

JUSTIFICATION:

1. These materials are required to enable text-books to be produced to meet the needs of elementary schools, secondary schools, and universities in the whole of Italy during the academic year 1945/46. Existing supplies of material are nearly exhausted.

(more)

4305

4A/30
61

Declassified E.O. 12356 Section 3.3/NND Rec 785014

2. It is appreciated that some time must elapse before all the materials asked for can be expected to arrive in Italy. However, it will be necessary to start printing early in July and the provision of these materials must, therefore, be regarded as urgent.

3. The amount of material required has been calculated on the following basis:

(1) Elementary Schools:

2,606 MTons of paper required to print 10,000,000 books for 5,200,000 children. Other materials asked for in proportion.

(2) Secondary Schools:

1963 MTons of paper required to print 4,000,000 books for 980,000 children. Other materials asked for in proportion.

(3) Universities:

492 MTons of paper required to print 1,000,000 books for 165,000 students and for the teaching profession. Other materials asked for in proportion.

4. It is imperative that new and wholesome text-books for use in the elementary and secondary schools of Italy, and in the universities, should be put on the market as soon as possible. The youth of Italy cannot live by bread alone. They must be given a fair chance to lift themselves and their Country out of the era of fascism, defeat, disillusionment, and despondency. The need for non-fascist school books is very urgent on political as well as on educational grounds New texts have been prepared and approved, and the materials for producing them on a large scale are asked for now as an urgent political and educational priority

5. A letter signed by the Minister of Public Instruction undertaking to meet the cost of these materials on delivery is attached.

For the Director of Education:

returned on 25/6/45

I enclose a sample of the binding thread which I found in the Warehouse in Florence on my recent visit there. You will remember there was some difficulty in fixing a price for this thread, because there was a doubt in regard to its quality. I shall be glad if you will kindly return the sample in due course.

Ref. AC/5231/Commerce

SUBJECT: Requisitions in relationship to local availability.

TO : See distribution.

1. Information regarding local resources of materials is constantly being made available to Commerce Subcommission, by the Allied Force Local Resources Section and branches of the various Army Services, apart from such information as reaches them through AC/AMG channels. The availability of material so reported may take the form of stocks uncovered or production by local industries. Such industries may be under Italian administration or controlled/supervised by AC or the military services.

2. In order that there be an effective utilization of such local availabilities to reduce imports and thereby save shipping space, all Sub-Commission before preparing a requisition, should complete the attached pro-forma 400.2 in duplicate, and forward same to Materials Division of Commerce Subcommission HQ AC.

3. From its records, Commerce Subcommission will supply the information asked for and return one copy of the proforma to the enquiring Subcommission.

4. If local availability is reported by Commerce Subcommission, it will be the responsibility of the requisitioning Subcommission to ensure that such availability is utilized to save Allied shipping space.

5. It is realized that in certain instances difficulties will arise in the procurement of local availabilities. However, efforts are now being made to clarify this situation with the Italian Government. As soon as this has been done you will be notified. In the meantime the procedure outlined above will be followed.

6. When submitting requisitions to the Requisition Division Subcommissions should certify them as "Screened for local availability."

By Command of REAR ADMIRAL STONE:

G. ARMSTRONG

4799

JUSTIFICATION:

1. To carry out the export programme of essential oils (Lemon, orange, Bergamot, etc.) covering an estimated quantity of 450,000 Kilos, containers will have to be manufactured requiring the use of 40 tons ti-plates.

2. Local stocks have been screened in an effort to procure the above mentioned tin plate locally. It was found that none is available except some rusty material which is much too thin for the purpose.

MINISTERO DELL'ISTRUZIONE PUBBLICA

Prot. n.561 T.S.

Rome, 16 April 1945

Major Sir Philip M.Magnus, BT.,
Education S/C
R O M E

SUBJECT: Printing materials left over:

With reference to your letter of the 16 April, I confirm that the quantities of materials which will be left over in Palermo, Naples and Rome, are today the ones stated in the list which you gave me, and which I am attaching hereto in copy.

Anyhow, by taking from these quantities, 18 tons of printing paper and 3½ tons of cover paper for Naples note books, and 30 tons of printing paper and 5 tons of cover paper for the note books for Central Italy, the quantities of materials which will be left over will be those indicated in the second list attached hereto.

Naturally these quantities are stated gross as the materials are still packed.

I further point out that as concerns Rome, nothing but printing paper has been received: i.e. no cover paper, no ink, no glue has been received: these materials will have to be brought up from Naples.

In connection with the cover paper, which appears to be scarce in Rome Region, Palermo, Naples and Florence are excessively supplied with same.

signed Prof. Roberto Giordani.

Records Office A.C. 12396 Section 2.3/HQ No. 19501/6

Oggetto: Rimanenze materiali per la Stampa

Gentilissimo SiG. Maggiore,

in riferimento alla sua del 16 aprile c.m., le confermo che i quantitativi del materiale rimanente in Palermo, Napoli e Roma, è a tutt'oggi quello indicato nel prospetto da lei rimessomi e di cui le riallego copia.

Tuttavia prelevate da questi materiali Tonn. 18 di carta stampa e Tonn. 3 e mezzo di carta copertina per i quaderni di Napoli, e Tonn. 30 di carta stampa e Tonn. 5 di carta copertina per i quaderni delle zone dell'Italia centrale, i quantitativi che rimarranno a disposizione saranno quelli indicati nel secondo allegato.

Naturalmente questi quantitativi sono segnati in cifre lorde in quanto i materiali sono imballati.

Debbo inoltre farle rilevare che in Roma, fuori della carta da stampa, non è giunto altro e cioè non sono giunti nè carta copertina, nè inchiostro nero, nè colla: essi dovranno ancora essere fatti venire da Napoli.

Per la carta copertina, che sembra nella zona di Roma essere deficiente, ve ne è, come potrà rilevare, in eccedente quantità tanto a Palermo quanto a Napoli e a Firenze.

Gradisca i miei cordiali saluti

(Prof. Roberto Giordani)

MATERIAL NEEDS FOR SCHOOLS

TO: Education Sub Commission
Attention of Miss Rombo.

I attach a list showing material needs for Italian schools for the year 1945/46 with the following comments:

1. Do the note books listed in items 1 to 11 form any part of the requisition note which I am trying to force through the Commerce Sub Commission in respect to material needs for elementary and secondary schools and Universities ? or are they an additional item ?

2. If they constitute an additional item, it will be necessary to state the qualities, colours of papers required, together with the weights and linear measurements.

3. Whenever possible, samples of materials required should be attached.

4. All measurements should be given in English measures and NOT in metric ones.

5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no materials for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.

6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.

7. Items 12 to 20: the weights (individual and total), measurements, colours and qualities of these items should be given

Declassified E.O. 12356 Section 3.3/NND No. 789016

2. If they constitute an additional item, it will be necessary to state the qualities & colours of papers required, together with the weights and linear measurements.

3. Whenever possible, samples of materials required should be attached.

4. All measurements should be given in English measures and NOT in metric ones.

5. It will be necessary to state categorically that none of the materials, which are now demanded, have been asked for already. In particular I should like to know for certain that no materials for Italian educational needs have been included in the joint programme of essential imports for Italy during 1945.

6. The number of sheets of paper required will NOT interest the Requisition Division of the Commerce S/C, I think. They will want to know the weights, colours, qualities and types of paper and the total weight of each kind which is needed.

7. Items 12 to 20: the weights (individual and total), measurements, colours and qualities of these items should be given. Millimetrata paper conveys nothing to me, I am afraid. 792

8. Item 21: it will be necessary to specify a type or types of nibs. Pen-point is probably the better word, if the supply is to come from America. A sample nib or nibs had better be supplied, and we can ask for them or their equivalents.

9. Items 22 to 24: English measures required. There are many varieties of inks of all colours, some of them quite abominable. I think it will be wiser to specify a certain type or types or their equivalent.

10. Item 25: The make of the typewriter or typewriters is relevant here. I suggest further that it is necessary to know the measurements and colours of the ribbons required.

9A/3.0

50

Declassified E.O. 12356 Section 3.3/NND No. 785016

11. Item 26: the type of pen-holder should surely be specified with a view to assure that it is on writing terms with the pen-points asked for above.

12. Items 27 to 31: pencil No.1, pencil No.2 etc. conveys nothing to me. I believe it will be necessary to supply samples.

13. Item 32: samples desirable.

14. Items 35 & 36: Is it certain that no chalk can be found in Italy ? If it cannot be found, it will be necessary to specify the weights, colours, measurements of the chalks which are needed.

15. Item 37: Colours should be listed and weights given.

16. Item 38: A sample should be provided.

17. Items 39 & 40: colours should be listed. It is relevant whether the boxes are needed for elementary or secondary schools.

18. Item 41: I find this incomprehensible. It needs to be much more specific.

19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.

20. Item 45: This is not very clear to me.

21: Item 46: Are there not many kinds of final varnish.?

22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.

23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.

24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanio white (item 49) or orange cadmio, yellow or cadmio red or carminata lacker or totin or rabit glue or arabic glue. I thought glicerine was a medicine. We need to state exactly what kind of glicerine is needed. English measures are needed in all cases.

Declassified E.O. 12356 Section 3.3/sec No. 185016

17. Items 39 & 40: colours should be listed. It is relevant whether the boxes are needed for elementary or secondary schools.

18. Item 41: I find this incomprehensible. It needs to be much more specific.

19. Item 42: Weights must be given in all cases in totals as well as in individual tubes.

20. Item 45: This is not very clear to me.

21: Item 46: Are there not many kinds of final varnish.?

22. Item 47: Are there not many kinds of turpentine. To my mind a medium means a kind of witch. It is essential to state exactly what is required and the weights and sizes of the individual tins or tubes or pots in each case. We need to say how it should be packed.

23. Spreading materials in powder conveys nothing to my mind. It will be essential to specify more clearly.

24. Items 48 to 64: the weights and sizes of the individual tubes, pots or tins must be given, together with the total weights. I am probably stupid, but I have never heard of titanic white (item 49) or orange cadmio, yellow or ca-dmio red or carminata lacker or totin or rabit glue or arabic glue. I thought glicerine was a medicine. We need to state exactly what kind of glicerine is needed. English measures are needed in all cases.

25. Item 65: It is too vague. I do not know what pastello means or what is the difference between alcohol varnish or other varnish. It is no use asking for fixing mediums as such. Please state exactly what is required and how much.

Annex 26. Item 66: I suggest that samples should be provided and that in any case, exact measurements should be given.

27. Item 67: Exact measurements and amounts should be given.

28. Item 68: Exact measurements, weights and sizes should be given.

29. Item 69: Are not individual sizes needed ? In any case you should specify the type of board and white preparation which is required.

Declassified E.O. 12356 Section 3.3/NNB No. 182016

4791

30. Item 70: The type of semi-absolvent preparation should be specified. Are there not many types of canvass ? Should not individual measurements be specified.

31. Item 71: the type of white wax must be stated, together with the siz-e and weights of the individual pots, tubes or tins is desired.

In general, in compiling our requisition order it will be well to assume that it is addressed to an exeedingly stupid clerk who is certain to make mistakes unless the order is made completely water-tight and full-proof.

HEADQUARTERS ALLIED COMMISSION
Education Subcommission
APO 394

9A/ 3.0. Tel.478-326

OGGETTO: MATERIALE RICHIESTO PER LE SCUOLE ITALIANE PER IL 1945/46 — 16 Aprile 1945

A: Sotto Commissione per l'Educazione
attenzione della Sig.na ROMBO.

Unisco alla presente un elenco del materiale richiesto per le scuole Italiane per l'anno 1945/46 e seguenti rilievi:

1. I quaderni indicati ai numeri 1 a 11 sono inclusi nella richiesta che sto' cercando di ottenere attraverso la Sotto Commissione del Commercio riguardo il fabbisogno di materiali per le scuole elementari, secondarie e universita' ? o si riferiscono ad una ulteriore richiesta ?

2. Se formono parte di una ulteriore richiesta, sara' necessario indicarne la qualita',ed il colore della carta necessaria unitamente ai pesi ed alla misure lineari.

3. Quando possibile, sara' opportuno unire i campioni dei materiali richesti.

4. Tutte le misure dovranno essere indicate in misure inglesi e non metriche.

5. Sara' necessario stabilire categoricamente che nessuno dei materiali richiesti nell'elenco cui alla presente, sono gia' stati richiesto. Particolarmente, gradirei sapere con esattezza che nessun materiale per il fabbisogno educativo Italiano sia stato incluso nel programma aggiunto di importazioni essenziali per l'Italia durante il 1945.

6. Il numero di fogli di carta richiesta non potra' interessare la Divisione di Requisizione della S/C del Commercio, io credo. Occorrera' sapere i pesi, il colore, le qualita' ed i tipi di carta ed il peso totale di ogni tipo richiesto.

7. Articoli 12 a 20: Sara' opportuno indicare i pesi (individuali e totali), le misure, i colori e le qualita' di questi articoli. Carta millimetrata non mi dice nulla, sara' necessario essere piu' precisi.

8. Articolo 21: sara' necessario specificare un tipo o tipi di pennini. Un campione del pennino e dei pennini sara' necessario, onde trasmettere la richiesta per un tipo uguale o equivalente.

9A/3.0
502

Declassified E.O. 12356 Section 3.3/NND No. 785016

9. Articoli 22 a 24: Sono necessarie misure inglesi. Vi sono molte varieta' di inchiostri di ogni colore, alcuni pessimi. Sara' opportuno specificare un determinato tipo o tipi o i loro equivalenti.

10. Art. 25: E' indispensabile conoscere la marca della macchina da scrivere o macchine da scrivere. Suggeriscono inoltre l'opportunita' di conoscere le misure ed i colori dei nastri richiesti.

11. Art. 26: Specificare il tipo di portapenna onde accertarsi che sia adatto al pennino richiesto.

12. Art. 27 3 31: Matite n.1, n.2 ecc. non definisce nulla. Credo opportuno fornire campioni.

13. Art. 32: Fornire campioni.

14: Art. 35 & 36: E' certo che non si possa trovare gesso in Italia ? Se non e' possibile trovarlo, sara' necessario indicare i pesi, colori e le misure dei gessi nàchiesti.

15. Art.37: Indicare i colori ed i pesi.

16. Art.38: Fornire campioni.

17. Art. 39 & 40: elencare i colori. Precisare se le scatole sono richieste per scuole elementari o secondarie.

18. Art.41: Non e' chiaro. Sara' opportuno specificare piu' ampiamente.

19. Art.42: In ogni caso indicare i pesi sia totali che individuali. si ogni tubo.

20. Art.45: Questo non mi risulta chiaro di che si tratta.

21. Art.46: Non vi sono molti tipi di vernice finale ?

22. Art. 47: Non vi sono molti tipi di acquaragia ? E' essenziale indicare chiaramente che cosa si intende per "solventi", oltre che le misure e formati di ogni latta, tubo o vasetto per ogni articolo. Sara' necessario indicare come devono essere imballati.

23. Non comprendo che s'intende per "Tempere in polvere". Sara' indispensabile specificare piu' chiaramente.

24. Art. 48 e 64: necessitano i pesi e la misure di ogni tubo, vasetto o latta, unitamente ai pesi totali. Saro' forse ignorante, ma non ho mai sentito parlare di "bianco di titanio" (art.49) o "giallo di cadmio arancione", "giallo o rosso di cadmio" o "lacca carminata" o "colla totin o di coniglio" o g "gomma arabica". Ho sempre pensato che la glicerina fosse un medicinale. Dobbiamo indicare con precisione che tipo di glicerina si richiede. Misure inglesi sono necessarie in ogni caso.

785018

Declassified E.O. 12356 Section 3.3/NND No. 785016

25. Art.65: E' troppo vago. Non so' che s'intenda per pastello o quale sia la differenza tra vernice a spirito od altre vernici. E' inutile trasmettere una richiesta per "vernici a spirito e fissativi per tempera" o simili. Prego indicare esattamente quello che si desidera e il quantitativo.

26. Art.66: Suggerisco che siano forniti campioni e che in ogni caso, siano indicate le misure esatte.

27. Art.67: Indicare le misure ed i quantitativi esatti.

28. Art.68: Indicare le misure, i pesi e formati.

29. Art. 69: Non sono forse necessarie le misure individuali ? In ogni caso bisognera' indicare il tipo di cartoni e della preparazione bianca richiesti.

30. Art.70: Specificare il tipo di praparazione semi-assolvente. Non vi sono forse molti tipi di tela ? Sara' opportuno indicare le misure individuali.

31. Art.71: Indicare il tipo di cera bianca, unitamente alle misure ed ai pesi di ogni tubo o latta.

In generale, nel compilare la nostra richiesta sara' bene tenere presente che essa verra' indirizzata ad un impiegato eccessivamente inesperto il quale certamente cadra' in errori se la nostra richiesta non sara' compilata con la massima chiarezza e precisione.

Per il Direttore dell'Educazione:

Sir P.M.Magnus, BT.,
Major.

N. 6023 Uff. Re/Imp. ROMA, 23 marzo 1945

DA CITARE NELLA RISPOSTA VIA CURTATONE 146 - CASELLA POSTALE 1081

OGGETTO: Carta per libri.

Con lettera del 16 corrente, di cui si allega copia, la Commissione Alleata ci ha comunicato che nel suo magazzino regionale di via Marsala sono giacenti 57 tons di carta per libri, che questo Istituto deve prendere in consegna e redistribuire.

Con la stessa lettera la Commissione Alleata dispone che, a valere su tale quantitativo, 25 tons e 10,2 tons debbono essere consegnate al Ministero della Pubblica Istruzione rispettivamente a Palermo, in persona del Prof. La Barbera ed a Napoli, in persona del Prof. Albin.

Nel Vostro colloquio di ieri con il nostro funzionario Dott. Serafini, si è raggiunto un accordo nel senso che, essendo tale carta destinata alla stampatura dei libri di testo per le scuole elementari ed essendo sia Roma che Palermo e Napoli beneficiarie di assegnazioni di altri quantitativi di carta destinati alle stesse uso dalla Commissione Alleata ed attualmente in corso di arrivo per lo più al porto di Napoli,

in luogo di effettuare materialmente il trasporto a Palermo ed a Napoli dei quantitativi a tali città assegnati sulla partita in oggetto, tali quantitativi siano trattenuti a Roma per il consumo locale e si proceda d'altra parte ad inoltrare a Palermo ed a Napoli corrispondenti quantitativi in arrivo al porto di Napoli e destinati a Roma dalla precisata assegnazione della Commissione Alleata.

Vi preghiamo pertanto di voler istruire in conformità l'incaricato del Ministero in Napoli e Vi saremmo grati se voleste inoltrarci copia della lettera con la quale impartite tali istruzioni.

Nella conversazione di ieri avete altresì dichiarato che il Ministero della Pubblica Istruzione è in grado di provvedere al ritiro della carta in oggetto dal magazzino di via Marsala ed al trasporto in propri magazzini o al luogo di consumo.

Vi saremmo molto grati se voleste fissare la data in cui tale ritiro potrà aver luogo, tenendo presente che esso dovrebbe essere effettuato al più presto, poichè, avendo la Commissione Alleata derequisite ed abbandonato il magazzino di via Marsala in data 15 corrente, il materiale ivi depositato è praticamente quasi incustodito.

Restiamo pertanto in attesa di un cortese cenno di riscontro al riguardo.

IL COMMISSARIO

Pacciardi

Declassified E.O. 12356 Section 3.3/NND No. 785016

ISTITUTO NAZIONALE
PER IL COMMERCIO ESTERO

N.6025 Uff. Re/Img.

Rome, 23 March 1945

SUBJECT: Paper for text-books.

In a letter dated 16 inst., of which copy is attached, the Allied Commission advised us that 57 tons of paper were stored in their Regional Warehouse of Via Marsala, which this Institute should take delivery of and redistributed.

In the same letter the Allied Commission instructs that of this quantity, 25 tons and 10,8 tons must be delivered to the Ministero della Pubblica Istruzione respectively in Palermo to Prof.La Barbera and in Naples to Prof.Albin.

In your conversation of yesterday with Dott.Serafini of this Institute, an agreement was reached in the sense that, the paper being destinated for the printing of elementary school text-books and either Rome, Palermo or Naples receiving other quantities of paper for the same use from the Allied Commission now on arrival or in the port of Naples, instead of effecting a material transport to Palermo or Naples of the quantities of paper assigned to these two Centres out of the above mentioned lot, this might be held in Rome for local use, whilst Palermo and Naples can be supplied with quantities arriving in Naples and destinated to Rome, as assigned by the Allied Commission.

We would ask you to kindly instruct the representative in of the Ministry in Naples, and shall appreciate a copy of your letter containing such instructions.

In your conversation of yesterday you moreover stated that the Ministry of P.I. is in a position to take care of the delivery of the paper in question from the Via Marsala Warehouse and its transportation to the Ministry's own warehouses or place of use.

We should appreciate if you could fix the date for such delivery, bearing in mind that it will have to take place as soon as possible, as owing to the fact that the Allied Commission has derequisitioned and abandoned the warehouse of Via Marsala as from the 15th March, the material therein stored therein is practically unguarded.

Awaiting your reply,

IL COMMISSARIO
Bordoni

SUBJECT: Paper for books:

With ref. to your letter 16 March 1945 N.6025 and yours of 30 March please note the following:

1. I have arranged for the withdrawal from the Via Marsala warehouse of the quantity of paper assigned by the Allied Sub Commission for the printing of elementary school text-books: the total gross quantity is of 296.71 quintals contained in 121 cases, of which some were found damaged. Several of these were found under weight.

2. It is to be observed that the parcel was not of more than 35 tons as stated in your letter of the 23 March, but about 30 tons gross as stated in your letter of the 30 March.

3. Moreover confirming what I said verbally to Dr.Serafini, and mentioned in yours 23 March, I will have a quantity of paper allotted to Naples and Palermo equal to that held in Rome and which was originally allotted to those Regions.

4. I am enclosing copies of the letters sent in this connection to Prof. Albin and Prof. La Barbera.

5. I am awaiting to hear re. arrangements for the financial ~~pm~~ settlement of the lot of paper in question as well as the other lots arrived in the other Regions of Italy and allotted by the Education Sub Commission for the printing of elementary school text-books.

6. Together with the arrangements for the payments, I should like to received from you the list of prices to be applied not only on paper but also on the other materials necessary for the printing of school text-books.

No.538/T.S. Rome, 2 April 1945

Major Sir Philip Magnus, BT.,
Education Sub Commission
ROME

SUBJECT: Printing paper released by the Foreign Commerce Sub Commission to the Ministry for Public Instr.

I am enclosing copy of my letter to the Istituto Nazionale per il Commercio Estero relating to the lot of paper which the Commerce Sub Commission released to the Ministry for P.I. for elementary schools.

Owing to the great need and request for note books, which are quite insufficient to the Region's requirements, and without touching the stock of 90 tons left over for the printing of next year's books, I have allotted this paper for the binding of note books by exchanging this paper, which is too heavy, with other lighter and more adapted.

As you may note by my letter to the ICE, I have not yet received the list of prices of materials in connection with the payments I will have made ~~xxxx~~ in Rome ~~xxx~~ in Palermo, Naples and Florence as soon as I receive the list.

(Prof. Roberto Giordani)

Translation

TO LIASON OFFICE WITH ALLIED COMMISSION

MINISTRY FOR PUBLIC INSTRUCTION

Received 2-4-45

SUBJECT: MATERIAL NEEDS FOR SCHOOLS.

The attached list shows the material needs for Italian schools for the year 1944/45.

The figures on the list have been fixed:

a) by establishing the annual needs of boys and girls of the various schools on the basis of statistics supplied by heads and inspectors of schools;

b) by multiplying the individual consume by the number of ~~pupiles~~ pupils as per statistics of 1942, for the various schools.

c) by summing totally under one heading such articles as are used in all schools, such as note books, pencils etc.

Demands have been limited as much as possible for those materials which it is expected will be produced in Italy, if not at once, in a near future, whilst the demands for materials which will have to be imported or their manufacturing will require imported materials, have been kept higher.

Technical instruments such as rules, compasses etc. do not form part of this list. In connection with such instruments further investigations would have to be made as to the possibility of national production and e xisting stocks particularly in northern Italy.

ALL'UFFICIO DI COLLEGAMENTO CON GLI ALLEATI

MINISTERO PUBBLICA ISTRUZIONE

OGGETTO: Fabbisogno di materiali didattici per le scuole.

Si presenta l'allegato elenco relativo al fabbisogno di materiali didattici di consumo per le scuole italiane, relative all'anno scolastico 1944-45.

I dati dell'elenco sono stati calcolati:

a) statilendo, in base a dati forniti da dirigenti di scuole e da ispettori, il fabbisogno annuale degli allievi dei vari tipi di Scuole

b) moltiplicando il consumo individuale per il numero degli allievi risultante dalle statistiche del 1942 per i vari tipi di Scuole

c) portando a fattor comune, e quindi raggruppando sotto un'unica voce, quegli articoli che vengono identicamente usati nelle diverse scuole, come ad esempio quaderni, matite ecc.

Si sono mantenute le richieste nei più stretti limiti per quei materiali che secondo logiche previsioni potranno essere prodotti in Italia, se non subito, in un prossimo immediato avvenire, mentre si sono accentuate le richieste dei materiali di importazione o che richiedono, per la loro fabbricazione, materie prime di importazione.

Non fanno parte di questo elenco gli strumenti tecnici come righe, compassi, regoli calcolatori ecc. Per tali strumenti occorrerebbero infatti ulteriori indagini circa le possibilità di produzione nazionale e le scorte esistenti particolarmente nell'Italia del nord.

and sent to Armistice S/C Room 56 Fr. 5th

9A/1.0. P.W.-H.O.-U.S.

1. The attached list shows the estimated quantities of materials which will be required to meet elementary school needs for the whole of Italy during 1945/46. Paragraph 1, of the memorandum shows the information on which this demand is based. The matter has been discussed and agreed with the Italian Ministry of Public Instruction.

2. Printing should begin not later than the month of June. Existing supplies of materials are approaching exhaustion.

3. To meet the minimum needs of secondary schools for the whole of Italy during 1945/46, an additional 2,000 tons of flat offset paper will be required. The work of printing these books should be begun in the month of June.

4. An additional 300 tons of flat offset paper is required for printing University text-books and other books of an educational character. The work of printing these books should be begun in the month of June.

5. Ink: black offset and coloured, together with cover paper, thread and glue will be required on the same proportionate scale for secondary and University text-books as that laid down in the memorandum attached for elementary school books.

6. Will you kindly state whether or not supplies on the scale outlined above are scheduled to be available in adequate quantities beginning during the month of June, under the provision of your Programme of Essential Italian Imports dated 26 March. A copy of this programme was given to this Sub Commission on request on the 30 March, but it had not previously been seen by this Sub Commission nor was it known that such a programme was in course of preparation.

TO: Civil Affairs Section

PAPER SUPPLIES.

In reply to 3/1B/CA dated 15 March, arrangements made for handling supplies of paper coming from the U.S. and other sources are as follows:

1. The Sub Commission has agreed its distribution programme with the Ministry of Public Instruction (see pp. 2 & 3 of Appendix "A" attached). This agreement was made in accordance with the terms para.3 of Ex. Mem. No.2, dated 26 Feb.45.

2. In accordance with the terms of this Memorandum I.C.E. will receive, handle, and account for all imported supplies of educational material. The Sub-Commission has arranged to deal through the Minister's representative in Rome (Prof.Giordani) with the representatives in the printing and distribution centres at Palermo, Naples, Rome & Florence. Major Sir P.M.Magnus is in daily contact with Prof.Giordani, and is ready at any time to visit any or all the printing and distribution centres in order to settle on the spot any problems and difficulties which arise.

3. Estimated future imports are shown at Appendix "A" attached. A formal requisition application in respect of all materials required will be made by the Director on his return.

4. A good understanding has been established by personal contact between the responsible Allied officer of this Sub Commission and the Minister's representatives in the four existing printing centres. At this stage the existance of such understanding is a valuable asset. In order that the books when they are printed should be distributed so as to reach the hands of the children in the largest possible numbers and the shortest possible time, it will probably be necessary that the Minister's representatives in Palermo, Naples, Florence and Rome shall be exhorted, and encouraged by occasional visits from an officer of the Commission, to push ahead with their work with 4771 drive and enthusiasm. The Ministry has been asked to provide technical assistants, fortified with detailed knowledge of the printing and publishing trades, to reinforce the work of its representatives in Palermo and Florence.

TO: Lt.Col. C.W.Washburne
Director of Education

1. My report on the material situation is being typed on a separate sheet.

2. Samples of paper on hand are in my cupboard.

3. I visited Vallecchi and other Rome printers. They are now making satisfactory progress.

4. My report on books in process of printing together with a report on books printed and distributed, subsequently to the figures shown on the latest Sub Commission report, is being prepared separately.

5. The report on the material situation in Naples and Palermo is being prepared separately.

6. The pamphlet on Elementary school text-books blacklisted and expurgated has gone forward for printing.

7. I have found certain sources for supply of glass and have indented formally for 24.000 sq. metres for Rome Region and 36.000 sq. metres for Toscana Region.

from Prof. Roberto Giordani

22nd March 1945

SITUATION OF MATERIAL FROM U.S. FOR PRINTING OF ELEMENTARY SCHOOL BOOKS
YEAR 1944/45

The payment of material for elementary school text-books in Italy, through agreements with the Istituto Nazionale per il Commercio Estero, is covered by a payment on Account N.208 of the I.C.E., made by the person who takes delivery of the goods and in the proportion fixed by the ICE for each single type of commodity.

The Regional Delegates of the Ministry for Public Instruction, namely in Palermo: Prof. Giacchino La Barbera; in Naples: Prof. Adriano Albini; in Rome Prof. Roberto Giordani, who is at the same time Central Representative of the Ministry; in Florence Prof. Giuseppe Ugolini; take care that payments are duly made.

MATERIAL SIGNALED:

In connection with materials signaled, I have received three reports from Capt. Bear not all in agreement.

I received one very synthetical on the 15th January 1945.

A second, more detailed, dated 3rd Feb.1945.

A third, synthetical, but fairly exact, dated 22nd Feb.1945.

According to the second and third of these reports, which I am using, together with regional reports in my possession, to compile the present report, the material signaled is as follows:

a) PRINTING PAPER Tons 705 (gross) (The report 3 Feb. shows tons 708 against an original request for 950 tons.)

b) COVER PAPER Tons 47 (gross) (The 3 reports agree).

c) CARDBOARD FOR FLANI Lbs 1124 " "

d) TRANSFER PAPER Lbs 55

MATERIAL ARRIVED

According to reports of the 3rd and 22nd Feb. of the Allied Subcommission and according to the various reports I have received from the regional Representatives of the Ministry for Public Instrucyion, the following material has arrived:

A. PRINTING PAPER

1. PALERMO Ton. 73 (gross) (Arrived in Palermo and taken delivery by the Education Off, as per Prof. La Barbera's information of 5 March). In This quantity does not include the cover paper (ton.33) which in Palermo seems to have become confused with the printing paper. The 22 Feb. report shows 87 tons assigned to Palermo).

2. NAPLES Ton. 216 (gross) (In rolls and cases. The Rep.22 Feb. shows ton.272 due to arrive in Naples. But this total figure is not confirmed).

3. R O M E Ton. 148 (gross) (In rolls: smooth and wrough paper. This lot arrived in Rome with two dispatches: It includes the quantity fixed as reserve)

4. FLORENCE Ton. 75 (gross) (Quantity shown on Rep. 3 Feb. The Rep. 22 Feb. shows instead 71 tons paper assigned to Florence, while a letter from Porf Ugolini to Capt.Bear dated 7 Apl. 45, states paper arrived in Florence as 355 bobines, of which measures not stated, plus tons 4,8).

Declassified E.O. 12356 Section 3.3/NND No. 785016

B. COVER PAPER

| | | |
|---|---|---|
| 1. PALERMO | Ton. 33 (gross) | (Wrongly signaled as printing paper. Prof. La Barbera, in fact, has marked it in his report as being printing paper) |
| 2. NAPLES | Ton. 50.667 (gross) | (According to 3 Feb. Report this gross weight is equal to 212 rolls, whilst in the 22 Feb. report 212 rolls are marked as being equal to 47 tons: this will have to be clarified). |
| 3. R O M E | Nothing has been received. | (According to assignment Rome should have 10 tons.) |
| 4. FLORENCE | Ton. 36 (gross) | (Contained in 148 cases. This figure was given by Prof.Ugolini on 26 Jan.1945.) |

C. BLACK PRINTING INK

| | | |
|---|---|---|
| 1. PALERMO | Nothing has been received. | |
| 2. NAPLES | Ton. 47.447 (gross) | (Contained in 65 barrels. Signaled as arrived in Rep.s 22 Feb. & 3 Feb. of A.S/C). |
| 3. R O M E | Nothing has been received. | |
| 4. FLORENCE | Nothing has been received. | |

D. OFFSET INK
(black & coloured)

| | | |
|---|---|---|
| 1. PALERMO | Lbs 787 (gross) | (La Barbera writes that this lot was contained in 8 cases and is black, red and blue). |
| 2. NAPLES | Tons 1,087 (gross) | (Prof.Albin states it was contained in 21 cases & 180 cans). 4759 |
| 3. R O M E | Nothing | |
| 4. FLORENCE | Nothing | |

E. Powdered glue.

Declassified E.O. 12356 Section 3.3/NND No. 785016

E. POWDERED GLUE

| | | |
|---|---|---|
| 1. PALERMO | Kg. 450 (gross) | (Contained in 9 barrels, of which 2, according to Prof.La Barbera, damaged and halved). |
| 2. NAPLES | Tons 6,52 3 (gross) | (Rep. 22 Feb. shows 34 barrels, whilst Prof.Albin in a letter to D.Alighieri 3 Feb.45, states 40 barrels). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

F. BINDING THREAD.

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Tons 1,436 (gross) | (Rep. 3 Feb.45 states tons 1,07. Prof.Albin writes that he saw the lot). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Tons 1 (gross) | (Deposited at the ink factory "Etelia"). |

G. CARDBOARD FOR "FLANI"

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2 .NAPLES | Kg. 453 (gross) | |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

H. TRANSFER PAPER

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Kg.14 (gross) | |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

47.8

NOTE: Not all material arriving in a certain place is for use in that place, neither is it, therefore, always taken delivery of or used in that place.

Declassified E.O. 12356 Section 3.3/NND No. 785016

DELIVERY OF COMMODITIES

Material arriving from U.S. in one of the printing centres - Palermo, Naples, Rome, Florence - is taken delivery of, either all or in part, either by the ~~Ministry~~ Regional Education Office, as occured in Palermo and Florence, thence handed other to the ~~Ministry~~ Representatives of the Ministry for Public Instruction, who thence delegate the Regional publishing firms entrusted with the printing of school text-books to take delivery,- or is taken delivery of directly - though always through the representatives of the Ministry - by several Publishers entrusted with the printing of school text-books; as occured in Naples and Rome, where the material was delivered to the Dante Alighieri publishing firm, which directs the publishing State of/school text-books.

The Representatives of the Ministry, in agreement with the I.C.E., as has been previously stated in this report, arrange that the Publishers receiving delivery of material pay a a deposit in proportion to the value of the commodities on the Account of the Istituto Nazionale per il Commerce Estero.

The material delivered is not considered sold: it is distributed to the publishers, printers, according to regional publishing programmes fixed and according to the number of books, under obligation of keeping all material left over from the printing of such books at disposition of the Allied Education Sub Commission and Ministry for Public Instruction.

4757

The withdrawal of material from the Concerns holding it, therefore, is carried out according to necessity and under the direct surveillance of the Representatives of the Ministry, who must submit an exact statement of all materials.

Declassified E.O. 12356 Section 3.3/NND No. 185016

The material is, therefore, used only in the amounts needed in the various printing Centres.

Following is the situation of distribution of material in the various printing Centres:

A. PALERMO.

Material ~~xxxxxxxxxxxx~~ is held by the Allied Education Sub Commission.

Prof. La Barbera has distibuted to the Firms I.R.E.S. and BELLOTTI, who are entrusted with the printing of books for elementary schools, the following material received from the Education Sub Commission for three different editions:

| | | | |
|---|---|---|---|
| a) Printing paper | Tons | 45,200 | (gross) |
| b) Cover Paper | Tons | 1,300 | " |
| c) Offset ink | Kg. | 200 | " |
| d) glue | Kg. | 110 | " |

The thread has been supplied partly from local resources, but as it was not good it had to be obtained through loans and exchanges: the same was done in respect to the black ink.

B. NAPLES

In Naples the material was delivered through Prof.Albin to the Dante Alighieri publishing firm, who is entrusted with the printing of text-books.

Following Prof.Albin's assignment arrangements, on the 3rd March 1945, the following quantities of materials were delivered and distributed to MORACE, MONTANTINO & SCARPATI printing firms, who have been entrusted with the printing of text-books.

Declassified E.O. 12356 Section 3.3/NNB No. 785016

| | | | |
|---|---|---|---|
| a) Printing paper | Tons | 138,035 | (gross) |
| b) Cover paper | Tons | 12,291 | (Gross) (Contained in 52 cases received from the Commerce S/Commis.) |
| c) Black ink | Kg. | 1169 | (Gross) |
| d) Offset ink | Lbs | 1210 | " |
| e) Glue | Cases | 16 | (Weight not stated) |

The thread for Naples, as Palermo, has been obtained from local resources and exchanged with thread or borrowed.

It must be pointed out that in Naples elementary school text-books are still in process of printing, therefore, more material will be needed besides what has been used up to the 3rd March as above stated.

A certain quantity of paper will have to be returned to the printers entrusted with the printing of text-books and who have lent same.

The ink used, has nothing to do with the lot arrived in Naples at disposition of the Allied Educ. S/C., which has not yet been withdrawn, but was procured by Major Murphy.

Also the above mentioned cover paper has not been taken from the quantity assigned to Naples. Prof. Albin received a stock of 52 cases from the Commerce S/C through Major Murphy.

The quantity of cover paper assigned to Naples will, therefore, be left over for next year besides a certain quantity of paper which is expected to be left over after the printing of text-books is stopped.

1755

C. ROME

In Rome all material had to be procured for the printing of more than 600.000 books, either from the Vatican or Poligrafico

Declassified E.O. 12356 Section 3.3/NND No. 785016

dello Stato, or borrowed from the firm Aldo Chicca of Tivoli, the firm Signorelli, or other printing firms which have worked on the printing or binding of the elementary school text-books, such as the Operaia Romana, Arti Grafiche, Cascioni or Vallecchi.

Of the material from U.S. assigned to Rome, only the printing paper has arrived and of which delivery has been taken by the firm Dante Alighieri, who directs the "Consorzio degli Editori dei Libri di Stato" in Rome.

Of this paper, tons 53 have been either returned or used for the process of printing of the sillabario and making note books which had already been started with the paper lent by the Vatican.

90 tons will be available for next year's text-books.

The other material is expected in Rome, among which the "flani" lent by the Poligrafico dello Stato and inks, both black and coloured, found with great difficulties for the printing of the 600.000 books.

As in Palermo and Naples, also in Rome thread was found from local resources, which was find useless and exchanges and loans had to be made.

D. FLORENCE

In respect to Florence, I have not yet received the complete situation owing to the difficulties in comunicating with this town.

In agreement with the Ministro del Tesoro and Ministry for Public Instruction, a quantity of paper was released for Florence by the Poligrafico dello Stato: this delivery amounted to about 120 tons.

Paper and material from U.S. has arrived and been delivered,

Declassified E.O. 12356 Section 3.3/NND No. 785016

but I do not know in what quantities, to Le Monnier, Marzocco, Vallecchi and Sandron, who belong to the Consorz io formed in Florence for the printing of elementary school text-books.

A certain quantity of paper for the printing of ~~[illegible]~~ non-State school books authorized in that zone also for this year, has been assigned to the publishing firms.

About 300.000 metres of thread have been returned to Vallecchi, who had lent them for the binding of elementary school text-books.

As the Florence zone is still in the power of the A.M.G., and owing to the difficulty of comunicating with Prof. Ugolini, I cannot make a detailed statement of the situation.

I think that a lot of the materials ~~[illegible]~~ which Florence has received from the U.S. can be used next year. But I cannot state the exact quantity today.

(Prof. Roberto Giordani).

Rome, 22nd March 1945

M. Prot. 533/T.S.

Magg.Sir Philips M.MAGNUS BT.
Sottocommissione Alleata
per l'Educazione

R O M A

Egregio Sig.Maggiore,

le rimetto la situazione del materiale occorrente per i testi delle Scuole Elementari dell'Italia liberata e proveniente da oltre mare, secondo il formulario da lei richiestomi.

La situazione é da considerarsi al 20 marzo 1945.

Con molta cordialità

(Prof.Roberto Giordani)

*Roberto Giordani*

I Allegato

SITUAZIONE DEL MATERIALE PROVENIENTE DA OLTREMARE E OCCORRENTE IN ITALIA ALLA STAMPA DEI TESTI DELLE SCUOLE ELEMENTARI

---

Il pagamento del materiale riguardante la stampa dei testi delle Scuole Elementari d'Italia, attraverso accordi presi con l'Istituto Nazionale per il Commercio Estero, viene cautelato mediante un versamento al Conto corrente n.208 dell'Istituto Nazionale stesso, retto da chi riceve in consegna la merce e nelle proporzioni dall'Istituto stesso stabilite per ogni singola qualità di merce.

Hanno cura di far assicurare il pagamento delle merci i diversi delegati regionali stabiliti dal Ministero della Pubblica Istruzione e cioé per Palermo il prof.GIOACCHINO LA BARBERA, per Napoli il prof.ADRIANO ALBIN, per Roma il prof.ROBERTO GIORDANI che é ad un tempo rappresentante centrale del Ministero, per Firenze il prof.GIUSEPPE UGOLINI.

MATERIALE SEGNALATO
COME DA VENIRE

Le segnalazioni del materiale in oggetto mi sono state fatte da tre diverse relazioni rimessemi dal Cap.no Beard e non tutte concordi.

Ve ne é stata una prima molto sintetica in data 15 gennaio 1945.

Una seconda molto più dettagliata porta la data del 3 febbraio 1945.

Una terza infine sintetica ma abbastanza precisa mi é stata rimessa in data 22 febbraio 1945.

Dalla seconda e dalla terza di queste relazioni che adopero per redigere la presente nota insieme ai dati dei rapporti regionali in mio possesso, il materiale per la stampa dei libri di testo segnalato come da venire, risulta come segue:

4751

| | | |
|---|---|---|
| a) CARTA DA STAMPA | Tonn. 705(lorde) | (La nota del 3 febbraio segnala tonn.608 sopra un ordinativo originario di 950 tonnellate). |
| b) CARTA DA COPERTINA | Tonn. 47 " | (Le tre note sono concordi). |
| c) CARTONI PER PLANI | Libbre 1124 " | (Note concordi). |
| d) CARTA DA RIPORTO | Libbre 55 " | (Note concordi) |
| e) INCHIOSTRO DA STAMP... | | |

MATERIALE ARRIVATO

Dalle note del 3 e del 22 febbraio 1945 rimessemi dalla Sottocommissione Alleata per l'Educazione e dai diversi rapporti dei rappresentanti regionali del Ministero della Pubblica Istruzione, risulta arrivato il seguente materiale per l'Ufficio Educazione:

A = CARTA DA STAMPA

| | | | |
|---|---|---|---|
| 1 = PALERMO | Tonn. | 78(lorde) | (Giunte a Palermo e prese in consegna dall'Ufficio Educazione come da referto del Prof.La Barbera in data 5 marzo 1945. In questa quantità non vi é compresa la carta copertina(tonn.33) che in Palermo sembra sia andata confusa con la carta da stampa. La nota del 22 febbraio sopra citata segnala destinate a Palermo 87 tonnellate.) |
| 2 = NAPOLI | Tonn. | 216(lorde) | (In rolli e in casse. La nota del 22 febbraio ne dà in arrivo a Napoli tonn.272. Tuttavia questo quantitativo totale non é confermato.) |
| 3 = ROMA | Tonn. | 148(lorde) | (In rolli: carta liscia e ruvida. Questa quantità é giunta a Roma in due riprese: in essa é inclusa la partita che originariamente si era stabilito dover essere di riserva). |
| 4 = FIRENZE | Tonn. | 75(lorde) | (Così dalla nota del 3 febbraio. La nota del 22 febbraio porta invece a 71 tonnellate la carta in destinazione a Firenze, mentre da una lettera del prof. Ugolini al Cap.no Beard in data 26 gennaio 1945, si fa consistere la carta giunta allora a Firenze a 355 bobine di cui non si dice la dimensione, più tonnellate 4,8). |

4756

B = CARTA DA COPERTINA

| | | | |
|---|---|---|---|
| 1 = PALERMO | Tonn. | 33(lorde) | (Segnalata erroneamente come carta da stam |

Declassified E.O. 12356 Section 3.3/NND No. 785016

Prof.La Barbera in data 5 marzo 1945.
In questa quantità non vi é compresa la carta copertina(tonn.33) che in Palermo sembra sia andata confusa con la carta da stampa.
La nota del 22 febbraio sopra citata segnala destinate a Palermo 87 tonnellate.)

2 = NAPOLI Tonn. 216(lorde) (In rolli e in casse. La nota del 22 febbraio ne dà in arrivo a Napoli tonn.272. Tuttavia questo quantitativo totale non é confermato.)

3 = ROMA Tonn. 148(lorde) (In rolli: carta liscia e ruvida. Questa quantità é giunta a Roma in due riprese: in essa é inclusa la partita che originariamente si era stabilito dover essere di riserva).

4 = FIRENZE Tonn. 75(lorde) (Così dalla nota del 3 febbraio. La nota del 22 febbraio porta invece a 71 tonnellate la carta in destinazione a Firenze, mentre da una lettera del prof. Ugolini al Cap.no Beard in data 26 gennaio 1945, si fa consistere la carta giunta allora a Firenze a 355 bobine di cui non si dice la dimensione, più tonnellate 4,8).

4756

B = CARTA DA COPERTINA

1 = PALERMO Tonn. 33(lorde) (Segnalate erroneamente come carta da stampa: il prof.La Barbera, infatti, nel suo rapporto la include con la carta da stampa

2 = NAPOLI Tonn.50,667(lorde) (Dalla nota del 3 febbraio risulta che questo peso lordo corrisponde a 212 rolli, mentre poi nella nota del 22 febbraio sono valutate a 212 rolli 47 tonnellate: occorrerà chiarire.)

3 = ROMA Non é giunto nulla. (Roma deve avere tonn.10 di copertine secondo le assegnazioni stabilite.)

./.

PRESA IN CONSEGNA DEL MATERIALE ARRIVATO

Il materiale che arriva da oltre mare in uno dei centri di stampa = Palermo, Napoli, Roma, Firenze = é preso in consegna, in tutto od in parte, o dall'Ufficio Regionale dell'Educazione come é avvenuto per Palermo e per Firenze per essere poi passato ai rappresentanti del Ministero della Pubblica Istruzione che a loro volta delegano per la consegna le Case Editrici Regionali incaricate della stampa dei libri di testo, o viene preso direttamente in consegna, sempre tramite i rappresentanti del Ministero della Pubblica Istruzione, da alcune Case Editrici incaricate della stampa dei libri di testo come é avvenuto a Napoli ed a Roma dove il materiale é stato consegnato alla Casa Editrice D.Alighieri che é alle direzione delle Edizioni dei libri di Stato.

I rappresentanti del Ministero provvedono d'accordo con l'I.C.E. come si é detto al principio di questa relazione, acciocché le Case Editrici che ricevono in consegna la merce versino una somma cautelativa proporzionale al valore delle merce al conto corrente dell'Istituto Nazionale per il Commercio Estero.

Etco la situazione di queste distribuzioni e di questi usi particolari del materiale nei vari centri di edizione:

A = PALERMO

Il materiale é stato mantenuto dall'Ufficio della Sottocommissione Alleata per l'Educazione.

Il prof. La Barbera ha distribuito alle Ditte I.R.E.S. e BELLOTTI incaricate della stampa dei testi delle scuole elementari, il seguente materiale ricevuto dalla Sottocommissione per l'Educazione per tre diverse edizioni:

| | | | |
|---|---|---|---|
| a) Carta da stampa | Tonn. | 48,200 | (lorde) |
| b) Carta copertina | Tonn. | 1,300 | " |
| c) Inchiostro offset | Kg. | 200 | " |
| d) Colla | Kg. | 110 | " |

Lo spago é stato fornito in parte da risorse locali, ma non essendo adatto si é dovuti ricorrere a prestiti od a cambi: ugualmente si é fatto per l'inchiostro nero.

B = NAPOLI

A Napoli il materiale é stato consegnato, tramite il prof. Albin, alla Società Editrice D.Alighieri, incaricata della edizione dei testi.

Dietro poi designazione del prof.Albin alla data del 3 marzo 1945, sono state ritirate e distribuite alle tipografie MORACE, MONTANTINO e SCARPATI, incaricate della stampa, dei libri di testo, le seguenti quantità di merce:

| | | | | |
|---|---|---|---|---|
| a) Carta da stampa | Tonn. | 138,035 | (lorde) | |
| b) Carta copertina | Tonn. | 12,291 | " | ( In 52 casse avute dalla Sottocomm. del Commercio). |
| c) Inchiostro nero | Kg. | 1189 | " | |
| d) Inchiostro offset | Libbre | 1210 | " | |
| e) Colla | Fusti | 16 | | ( Peso da precisare) |

Lo spago a Napoli, come per Palermo, é stato preso da risorse locali e cambiato con rafe o preso in prestito.

E' da notare che in Napoli i testi scolastici sono ancora in corso di stampa e quindi sarà necessario altro materiale oltre quello adoperato fino al 3 marzo che é quello qui sopra riportato.

Dovrà poi procedersi alla restituzione di un certo quantitativo di carta presa in prestito dalle tipografie che stampano.

L'inchiostro adoperato, non riguarda il quantitativo giunto a Napoli a disposizione della Sottocommissione Alleata per l'Educazione = quantitativo che non é stato ancora ritirato = ma é stato procurato per interessamento del Magg. Murphy.

Declassified E.O. 12356 Section 3.3/NNB No. 182016

c) Inchiostro offset Kg.
d) Colla Kg. 110 "

| d) Inchiostro offset | Libbre | 1216 " | |
| e) Colla | Fusti | 16 | ( Peso da precisare) |

Lo spago a Napoli, come per Palermo, é stato preso da risorse locali e cambiato con rete o preso in prestito.

E' da notare che in Napoli i testi scolastici sono ancora in corso di stampa e quindi sarà necessario altro materiale oltre quello adoperato fino al 3 marzo che é quello qui sopra riportato.

Dovtà poi procedersi alla restituzione di un certo quantitativo di carta presa in prestito dalle tipografie che stampano.

L'inchiostro adoperato, non riguarda il quantitativo giunto a Napoli a disposizione della Sottocommissione Alleata per l'Educazione = quantitativo che non é stato ancora ritirato = ma é stato procurato per interessamento del Magg. Murphy.

La carta copertina segnata sopra non appartiene essa pure al quantitativo destinato a Napoli. Il prof.Albin ne aveva avuto uno stock di 52 casse dalla Sottocommissione Alleata per il Commercio sempre per interessamento del Maggiore Murphy.

Il quantitativo di Carta copertina destinato a Napoli potrà quindi essere 42/67 a disposizione per l'anno prossimo insieme ad un certo quantitativo di carta che si presume resterà dalla stampa ultimata dei testi.

C = ROMA

A Roma si é dovuto trovare tutto e si é proceduto alla stampa di oltre 600.000 volumi o con il materiale ceduto dal Vaticano e dal Poligrafico dello Stato, o con altro materiale avuto in prestito dalle Ditte Aldo Chicca di Tivoli, dall'editore Signorelli, o da altre tipografie che hanno lavorato alla stampa od alla confezione dei testi delle Scuole Elementari come l'Operaia Romana, le Arti Grafiche, Casciani e Vallecchi.

Del materiale proveniente da oltre mare a Roma é giunta per ora soltanto la carta da stampa che é stata presa in consegna dalla Società Editrice Dante Alighieri che in Roma presiede al Consorzio degli Editori dei Libri di Stato.

Di essa tonnellate 53 sono state in parte restituite ed in parte adoperate per il proseguimento della stampa del sillabario o della confezione dei quaderni già in lavorazione con la carta avuta dal Vaticano.

Ne rimangono altre 90 tonnellate a disposizione per i libri di testo dell'anno venturo.

In Roma si aspettano gli altri materiali tra cui sopratutto i flani imprestati dal Poligrafico dello Stato e gli inchiostri sia neri che colorati trovati con grande difficoltà per la stampa dei 600.000 volumi.

Come a Palermo ed a Napoli anche a Roma é stato dato dello spago da risorse locali inservibile alla cucitura per cui si é dovuto ricorrere a cambi od a prestiti.

D = FIRENZE

In Firenze la situazione completa non mi é ancora pervenuta date le difficoltà di comunicare con questa città che ancora é vicina alla zona di operazioni.

D'accordo con il Ministro del Tesoro e con il Ministro della Pubblica Istruzione, fu fatta cedere a Firenze in un primo tempo parecchia carta dal Poligrafico dello Stato: questa cessione ammontava a circa 120 tonnellate.

Sono' giuntá poi la carta ed il materiale da oltre mare che sono stati in parte ceduti ma non so bene ancora in quali quantità, agli Editori Le Monnier, Marzocco, Vallecchi e Sandron, che fanno parte del Consorzio costituitosi in Firenze per la pubblicazione dei testi delle Scuole Elementari.

E' stato anche assegnato a queste Case Editrici un certo quantitativo di carta per edizioni scolastiche libere autorizzate fin da quest'anno in quella zona per i libri delle scuole primarie.

A Vallecchi sono stati restituiti circa 300.000 metri di refe che aveva imprestati per la confezione dei libri di testo.

Essendo tuttavia la zona di Firenze ancora in mano del Comando Militare Alleato, non mi é possibile, data la difficoltà di poter comunicare con il prof.Ugolini per avere informazioni particolareggiate, tracciare un quadro preciso della situazione.

Penso che molto del materiale da oltre mare giunto a Firenze potrà servire per l'anno prossimo. Non posso tuttavia precisarne oggi la quantità.

from Prof. Roberto Giordani 22nd March 1945

SITUATION OF MATERIAL FROM U.S. FOR PRINTING OF ELEMENTARY SCHOOL BOOKS
YEAR 1944/45

The payment of material for elementary school text-books in Italy, through agreements with the Istituto Nazionale per il Commercio Estero, is covered by a payment on Account N.298 of the I.C.E., made by the person who takes delivery of the goods and in the proportion fixed by the ICE for each single type of commodity.

The Regional Delegates of the Ministry for Public Instruction, namely in Palermo: Prof. Gioacchino La Barbera; in Naples: Prof. Adriano Alkin; in Rome Prof. Roberto Giordani, who is at the same time Central Representative of the Ministry; in Florence Prof. Giuseppe Ugolini; take care that payments are duly made.

MATERIAL SIGNALED:

In connection with materials signaled, I have received three reports from Capt. Bear not all in agreement.

I received one very synthetical on the 15th January 1945.

A second, more detailed, dated 3rd Feb. 1945.

A third, synthetical, but fairly exact, dated 22nd Feb. 1945.

According to the second and third of these reports, which I am using, together with regional reports in my possession, to compile the present report, the material signaled is as follows:

a) PRINTING PAPER Tons 705 (gross) (The report 3 Feb. shows tons 708 against an original request for 950 tons.)

b) COVER PAPER Tons 47 (gross) (The 3 reports agree).

c) CARDBOARD FOR PLANT Lbs 1124 " "

d) TRANSFER PAPER Lbs 55

MATERIAL ARRIVED

According to reports of the 3rd and 22nd Feb. of the Allied Subcommission and according to the various reports I have received from the regional Representatives of the Ministry for Public Instrucyion, the following material has arrived:

A. PRINTING PAPER

1. PALERMO Ton. 70 (gross) (Arrived in Palermo and taken delivery by the Education Off, as per Prof. La Barbera's information of 5 March). In This quantity does not include the cover paper (ton.33) which in Palermo seems to have become confused with the printing paper. The 22 Feb. report shows 87 tons assigned to Palermo).

2. NAPLES Ton. 216 (gross) (In rolls and cases. The Rep.22 Feb. shows ton.272 due to arrive in Naples. But this total figure is not confirmed).

3. R O M E Ton. 148 (gross) (In rolls: smooth and wrough paper. This lot arrived in Rome with two dispatches: It includes the quantity fised as reserve)

4. FLORENCE Ton. 75 (gross) (quantity shown on Rep. 3 Feb. The Rep. 22 Feb. shows instead 71 tons paper assigned to Florence, while a letter from Forf Ugolini to Capt.Bear dated 26.1. 45, states paper arrived in Florence as 355 bobines, of 744 which measures not stated, plus tons 4,8).

C.A.2.61

Declassified E.O. 12356 Section 3.3/NND No. 785016

B. COVER PAPER

| | | |
|---|---|---|
| 1. PALERMO | Ton. 33 (gross) | (Wrongly signaled as printing paper. Prof. La Barbera, in fact, has marked it in his report as being printing paper) |
| 2. NAPLES | Ton. 50.667 (gross) | (According to 3 Feb. Report this gross weight is equal to 212 rolls, whilst in the 22 Feb. report 212 rolls are marked as being equal to 47 tons: this will have to be clarified). |
| 3. R O M E | Nothing has been received. | (According to assignment Rome should have 10 tons.) |
| 4. FLORENCE | Ton. 36 (gross) | (Contained in 148 cases. This figure was given by Prof.Ugolini on 26 Jan.1945.) |

C. BLACK PRINTING INK

| | | |
|---|---|---|
| 1. PALERMO | Nothing has been received. | |
| 2. NAPLES | Ton. 47.447 (gross) | (Contained in 65 barrels. Signaled as arrived in Rep.s 22 Feb. & 3 Feb. of A.S/C). |
| 3. R O M E | Nothing has been received. | |
| 4. FLORENCE | Nothing has been received. | |

D. OFFSET INK
(black & coloured)

| | | |
|---|---|---|
| 1. PALERMO | Lbs 787 (gross) | (La Barbera writes that this lot was contained in 5 cases and is black, red and blue). |
| 2. NAPLES | Tons 1,087 (gross) | (Prof.Albin states it was contained in 21 cases & 160 cans). |
| 3. R O M E | Nothing | |
| 4. FLORENCE | Nothing | |

4743

E. Powdered glue.

Declassified E.O. 12356 Section 3.3/NND No. 785016

E. POWDERED GLUE

| | | |
|---|---|---|
| 1. PALERMO | Kg. 450 (gross) | (Contained in 9 barrels, of which 2, according to Prof. La Barbera, damaged and halved). |
| 2. NAPLES | Tons 6,52 3 (gross) | (Rep. 22 Feb. shows 34 barrels, whilst Prof. Albin in a letter to D. Alighieri 3 Feb. 45, states 40 barrels). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

F. BINDING THREAD.

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Tons 1,436 (gross) | (Rep. 3 Feb. 45 states tons 1,07. Prof. Albin writes that he saw the lot). |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Tons 1 (gross) | (Deposited at the ink factory "Italia"). |

G. CARDBOARD FOR "FLANI"

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Kg. 453 (gross) | |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

H. TRANSFER PAPER

| | | |
|---|---|---|
| 1. PALERMO | Nothing. | |
| 2. NAPLES | Kg. 14 (gross) | |
| 3. R O M E | Nothing. | |
| 4. FLORENCE | Nothing. | |

6742

NOTE: Not all material arriving in a certain place is for use in that place, neither is it, therefore, always taken delivery of or used in that place.

Declassified E.O. 12356 Section 3.3/NND No. 785016

DELIVERY OF COMMODITIES

Material arriving from U.S. in one of the printing centres - Palermo, Naples, Rome, Florence - is taken delivery of, either all or in part, either by the ~~Educational~~ Regional Education Office, as occured in Palermo and Florence, thence handed other to the ~~Ministry~~ Representatives of the Ministry for Public Instruction, who thence delegate the Regional publishing firms entrusted with the printing of school text-books to take delivery,- or is taken delivery of directly - though always through the representatives of the Ministry - by several Publishers entrusted with the printing of school text-books; as occured in Naples and Rome, where the material was delivered to the Dante Alighieri publishing firm, which directs the publishing of State school text-books.

The Representatives of the Ministry, in agreement with the I.C.E., as has been previously stated in this report, arrange that the publishers receiving delivery of material pay a a deposit in proportion to the value of the commodities on the account of the Istituto Nazionale per il Commerce Estero.

The material delivered is not considered sold: it is distributed to the publishers, printers, according to regional publishing programmes fixed and according to the number of books, under obligation of keeping all material left over from the printing of such books at disposition of the Allied Education Sub Commission and Ministry for Public Instruction.

The withdrawal of material from the Concerns holding it, therefore, is carried out according to necessity and under the direct surveillance of the Representatives of the Ministry, who must submit an exact statement of all materials.

Declassified E.O. 12356 Section 3.3/NND No. 785016

The material is, therefore, used only in the amounts needed in the various printing Centres.

Following is the situation of distribution of material in the various printing Centres:

A. PALERMO.

Material ~~xxxxxxxxxxxx~~ is held by the Allied Education Sub Commission.

Prof. La Barbera has distibuted to the Firms I.R.E.S. and BELLOTTI, who are entrusted with the printing of books for elementary schools, the following material received from the Education Sub Commission for three different editions:

| | | | |
|---|---|---|---|
| a) Printing paper | Tons | 48,200 | (gross) |
| b) Cover Paper | Tons | 1,300 | " |
| c) offset ink | Kg. | 200 | " |
| d) glue | Kg. | 110 | " |

The thread has been supplied partly from local resources, but as it was not good it had to be obtained through loans and exchanges: the same was done in respect to the black ink.

B. NAPLES

In Naples the material was delivered through Prof. Albin to the Dante Alighieri publishing firm, who is entrusted with the printing of text-books.

Following Prof. Albin's assignment arrangements, on the 3rd March 1945, the following quantities of materials were delivered and distributed to MORACE, MONTANTINO & SCARPATI printing firms, who have been entrusted with the printing of text-books.

Declassified E.O. 12356 Section 3.3/NND No. 785016

| | | | |
|---|---|---|---|
| a) Printing paper | Tons | 138,035 | (gross) |
| b) Cover paper | Tons | 12,291 | (Gross) (Contained in 52 cases received from the Commerce S/Commis.) |
| c) Black ink | Kg. | 1169 | (Gross) |
| d) Offset ink | Lbs | 1210 | " |
| e) Glue | Cases | 16 | (Weight not stated) |

The thread for Naples, as Palermo, has been obtained from local resources and exchanged with thread or borrowed.

It must be pointed out that in Naples elementary school text-books are still in process of printing, therefore, more material will be needed besides what has been used up to the 3rd March as above stated.

A certain quantity of paper will have to be returned to the printers entrusted with the printing of text-books and who have lent same.

The ink used, has nothing to do with the lot arrived in Naples at disposition of the Allied Educ. S/C., which has not yet been withdrawn, but was procured by Major Murphy.

Also the above mentioned cover paper has not been taken from the quantity assigned to Naples. Prof,Albin received a stock of 52 cases from the Commerce S/C through Major Murphy 4739

The quantity of cover paper assigned to Naples will, therefore, be left over for next year besides a certain quantity of paper which is expected to be left over after the printing of text-books is stopped.

C. ROME

In Rome all material had to be procured for the printing of more than 600.000 books, either from the Vatican or Poligrafico

Declassified E.O. 12356 Section 3.3/NNN No. 785016

dello Stato, or borrowed from the firm Aldo Chicca of Tivoli, the firm Signorelli, or other printing firms which have worked on the printing or binding of the elementary school text-books, such as the Operaia Romana, Arti Grafiche, Casciani or Vallecchi.

Of the material from U.S. assigned to Rome, only the printing paper has arrived and of which delivery has been taken by the firm Dante Alighieri, who directs the "Consorzio degli Editori dei Libri di Stato" in Rome.

Of this paper, tons 53 have been either returned or used for the process of printing of the sillabario and making note books which had already been started with the paper lent by the Vatican.

90 tons will be available for next year's text-books.

The other material is expected in Rome, among which the "flani" lent by the Poligrafico dello Stato and inks, both black and coloured, found with great difficulties for the printing of the 600.000 books.

As in Palermo and Naples, also in Rome thread was found from local resources, which was find useless and exchanges and loans had to be made.

D. FLORENCE

4738

In respect to Florence, I have not yet received the complete situation owing to the difficulties in comunicating with this town.

In agreement with the Ministro del Tesoro and Ministry for Public Instruction, a quantity of paper was released for Florence by the Poligrafico dello Stato: this delivery amounted to about 120 tons.

Paper and material from U.S. has arrived and been delivered,

Declassified E.O. 12356 Section 3.3/NND No. 785016

but I do not know in what quantities, to Le Monnier, Marzocco, Vallecchi and Sandron, who belong to the Consorzio formed in Florence for the printing of elementary school text-books.

A certain quantity of paper for the printing of ~~[illegible]~~ non-State school books authorized in that zone also for this year, has been assigned to the publishing firms.

About 300.000 metres of thread have been returned to Vallecchi, who had lent them for the binding of elementary school text-books.

As the Florence zone is still in the power of the A.M.G., and owing to the difficulty of communicating with Prof. Ugolini, I cannot make a detailed statement of the situation.

I think that a lot of the materials ~~[illegible]~~ which Florence has received from the U.S. can be used next year. But I cannot state the exact quantity today.

(Prof. Roberto Giordani).

Reg. Comm. Sicily (att. R.E.O.)
Prof. La Barbera
Reg. Comm., Toscana (att. R.E.O.)
Prof. Ugolini

The following prices have now been laid down in respect of Allied material supplies to meet the needs of elementary schools:

| Material | Unit | Price |
|---|---|---|
| Printing paper | 1 lbs | 15 liras |
| Cover paper | 1 Kg. | 26 " |
| Glue | 1 Kg. | 13 " |
| Printing ink: black | 1 Kg. | 20 " |
| Offset: Black or coloured | 1 Kg. | 19 " |
| Cotton sewing | 1 meter | 1 " |

It is hoped that inconvenience will not be caused by the irregular units (lbs and meters) quoted for printing paper and sewing cotton: i.e. thread for binding.

HEADQUARTERS
MEDITERRANEAN THEATER OF OPERATIONS
OFFICE OF THE COMMANDING GENERAL
APO 512

24 February 1945

AG 400.73/346-O

SUBJECT: Supply Security Control.

TO : President, Allied Commission, Rome.

1. Loss of supplies through pilferage, organized thefts, barter and the illegal diversion of government property, will continue to be an acute command problem so long as the present economic situation in Italy continues. It is an important command responsibility to reduce these losses to a minimum and this will require the continuing attention of all commanders to prevent any relaxation of strict supply-security control measures.

2. The principal contributing factors in the loss of supplies through illegal acts (the phrase 'pilferage' is generally used) are as follows:

a. Carelessness and looseness of control measures.

b. Pilferage by civilian population who are destitute.

c. Dishonest personnel, including laborers, checkers, drivers, guards, etc., whom it is difficult to screen effectively.

d. A most inviting Black-Market where huge profits prevail.

e. Pilferage and organized thefts by military personnel and civilians.

f. Improper loading of trucks and railway cars.

3. There is attached hereto for transmission to each command unit and installation, for the personal attention of commanding officers, a guide for the preparation of Standard Operating Procedures for the safeguarding of U.S. Government Property. This guide will be studied, a review of present control measures conducted, and then such changes will be effected as may be dictated by the resulting comparisons wherein present safeguard measures are not as adequate as those contained in the guide, or where changes are considered impossible or impracticable due to operational demands.

4. It is desired that you call to the attention of your principal subordinate commands the importance of continuing the command attention to the end that high standards may be maintained on supply-security control. A report will be made on 31 March 1945 to the Theater Commander on supply-security control measures to include the following:

SUPPLY SECURITY
A Guide For the Preparation of Standard
Operating Procedures for Safeguarding
US Government Supplies
(Prepared under the direction of the Provost Marshal General)

Prevention of Loss by Pilferage.- Prevention of loss by pilferage of United States government property is the purpose of these supply security measures. Commanders in all echelons must accept this responsibility. Recommendations gleaned from experiences in active theaters are submitted herewith as guides and assistance to supply security.

Sensitive Supply - Post exchange items, rations, gasoline, liquor, drugs, mail, clothing, personal baggage are the most common items which invite pilferage. Greater guard strength must be assigned to protect these items whether they are stored at docks, depots, dumps, railheads or in transit. Other supplies require constant guard but less personnel and modified general security measures can afford adequate protection.

GENERAL SECURITY MEASURES

1. Fencing - Barbed wire fencing will be erected at installations where its use will prohibit access to sensitive supplies or other pilferable material and equipment. The erection of such barricades for other storage areas and installations will be governed by judgement and the extent of losses experienced. The fence should be of sufficient height, durability, and center spacing, and be independent of buildings, damaged walls or rubble heaps. Open space on each side of fence, no obscured approaches permit guarding from one side. Serpentine rolls should only be used as a temporary expedient -- it has been proven that these can be crushed and an entrance made.

2. Guard Towers - Guard towers should be constructed of sufficient height and platform area to permit a free field of fire and observation.

3. Guards - Spacing of guards on perimeter fencing should be so planned that guards are either within sight or calling distance of each other at all times.

4. Entrances and Exits - Entrances, exits and fence perimeter should be under twenty-four (24) hour guard observation. Entrances and exits to any installation must be kept to a minimum consistent with the operation, size and design of the area, and the road net serving installation. Establishment of "in" and "out" gates is advisable for both vehicular and pedestrian traffic. The limiting of foot traffic, both in and out, to a single "pedestrian only" opening, provides a maximum in security and pass control. Reduction in the number of exits and entrances, for economy in guard personnel and localization of movement, can be accomplished by the use of double entrances or exits.

5. Flood Lights - All fencing and approach areas should be flood lighted at night where appropriate, except those areas in which black-out is in effect.

6. Traffic Control - Traffic control should consider the following:

a. An uninterrupted in and out flow.

b. Special exits for out loaded vehicles during heavy traffic periods, and the routing of outgoing supplies to these gates for checking. The use by any other traffic should be prohibited.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Supply Security (cont'd)

c. Designation of emergency gates for incoming and outgoing convoys of troop movements.

d. Army, Navy, Merchant Marine and civilian employees will use designated gates to insure effectiveness of pass system.

7. Pass System - A pass system to deny entrance to all unauthorized individuals should be adopted for all supply installations which prohibits entry, in general, to unauthorized persons. Passes should be issued and accounted for by the Security Officer.

a. A pass bureau should be located at the main "in gates" with trained personnel on twenty-four (24) hour service or on duty during all operational hours.

b. Lesser installations should control entrance to area by installation operational action through issuance of local passes or creation of a recognized identification system.

c. The issuance of photographic passes, due to temporary duration, reduction, and abandonment of installations, is not advocated, yet where practical the added security advantage warrants adoption.

d. Pass authority must be constantly on the person of the holder and be subjected to examination by proper authority at any time. Spot checks and roving inspections should be a continuous process. This procedure offers assurance that no unauthorized persons are in the area.

e. Revision of pass systems is necessary at periodic intervals, constant turnover of civilian employees, unreturned and lost passes, creates its own dangers. No system is wholly fool proof and its effectiveness is dependent on continued instruction, supervision, and checking.

(1) Permanent Passes - Issued for thirty (30), sixty (60) or ninety (90) day periods. Definite expiration dates and dates of renewal are most important. Records of issue, cancellation and expiration must be accurately kept.

(2) General Type Pass - Issued to authorized persons, reduces error and confusion and is good general identification. Distinguishing marks may be employed dependent on whether the installation is a temporary or lengthy operation. These markings may permit persons to enter further restricted areas and also show time of validity of pass.

(3) Photographs - Photographs will be attached to all drivers' licenses of all drivers other than American military personnel.

(4) Visitor's Passes - Must be immediately distinguishable from regular passes and must be surrendered by visitor on departure.

8. Guards and Laborers - A distraction of guards or military police, whose training has been in military police security work, by utilizing same as cargo checkers, tally clerks or inspectors is poor operation. Definite and complete orders must be given to guards. Instruction, constant briefing, and regular inspection by a commissioned officer is an absolute necessity. Italian military or

Declassified E.O. 12356 Section 3.3/NND No. 785016

civilian guards do not afford the security offered by American personnel. Employment of this type personnel as guards, drivers, etc. may frequently open channels for loss of supplies. Increased American supervision must be provided in such instances. Loading and unloading operations performed by civilian labor or prisoners of war demand constant American supervision and guard. Intentional breakage of packaged goods for later pilferage is a common practice. Damaged and broken packages should be immediately collected and turned in to installation cooperage. All installations handling sensitive supplies must have civilians searched before leaving area.

9. Checks and Tallies.

a. Shortages and overages are often the result of error in count. Estimating tonnage or number of packages is forbidden. Responsibility for loss of supplies will be charged to the agency failing to provide sufficient and competent personnel to guard and account for supplies under their control.

b. Checking Errors - Comparison of totals of supplies received with totals shipped is a part of the mechanics of both the transfer of supplies themselves and the responsibility for them. Prompt exchange of data as to type and quantity of all supplies shipped and received must be arranged between shipper and consignee, and immediate action taken to account for all differences. Delay in compiling or exchanging this information may prevent tracing, recovering, or accounting for supplies involved.

10. Port Areas and Associated Railway Marshalling Yards.

a. Security of supply begins on arrival of a ship in port. Discharging and getting supplies out of ports is only a part of the port responsibility. Further responsibilities are accurate checks, tallies, records and guarding of supplies while in the port. Estimation of tonnage denies possibility of correct initial inventory which in turn prohibits accurate future receipts or consumption records. This must be done before opportunity for "shrinkage" occurs. Warehoused or back piles of supplies are a guard and security function of the agency concerned.

b. Joint utilization of a port by agencies not under the control of the Port Commander demands an amicable arrangement for easy identification of said agency employees, also instructive briefing of guard personnel with reference to privilege of said employees.

c. (1) All items arriving at ports in this theater in charge of Ship's Cargo Security Officers will be considered protected critical cargo.

(2) Base section and similar commanders will designate a Cargo Security Officer at each port. This officer, or his authorized representative, will contact the Ship's Cargo Security Officer immediately upon arrival in port and arrange to receive security cargo and deliver it to the consignees. If the consignee of any part of the security cargo is located elsewhere, arrangements with the Transportation Officer shall be made to ship it to destination as soon as practicable, consistent with military requirements.

720.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Supply Security (cont'd)

(3) When a shipment of supplies or equipment from the United States is to be classified and shipped as Protected Critical Cargo, this will be indicated on all requisitions and cables to PEMBARK. When shipments originate in this theater, the shipper will notify the Transporation Officer at the port of loading as to all cargo which is to be shipped in charge of the Cargo Security Officer.

(4) Protected Critical Cargo will be held to a minimum and will be requested only for valuable supplies such as dental gold, medical spirits, narcotics, currency, stamps, watches, medals, decorations and awards, pistols, binoculars and items normally exposed to pilferage because of their usefulness and value to the individual, or where prompt delivery to Supply Services of small packages is necessary.

11. Railways and Marshalling Yards.

a. Operation of railways hauling United States government supplies is often the problem of several agencies. The guarding and security of same has, as war progress expediency, been assigned to allied components. Operation of trains is turned back to civilians at the earliest opportunity and this creates further perplexities. Complete liaison, cooperation, and understanding must be had between American Army agencies, Allied or co-belligerent guards, and civilian railway operating agencies.

b. Inspection of Cars - Preloading inspection of all cars and a report of same is a must. Car load checker may do this in addition to his checking duty and an appropriate entry of car inspection made on tally sheet. Cars should not be accepted or loaded which have holes in the floor, roof or walls unless same are repaired. Emergency use of a damaged car demands assignment of a guard.

c. Improper Loading - Loose and careless loading causes waste space, breakage, loss of supply and is an invitation to pilferage. Load inspection of cars is as fixed a responsibility as the initial tally of contents.

d. Open Cars - No pilferable items will be shipped in open or gondola cars except in extreme emergencies, and in such cases a special guard will be placed on such cars.

e. Grouping of Cars - Grouping of cars containing pilferable merchandise is highly desirable. Wherever possible trains will be made up in such a way as to group together those cars carrying the most highly pilferable items in order to facilitate guarding. Economy of guard personnel is effected and this economy is further aided by planned posting of said guard. Guards riding the caboose or guard escort cars are completely inefficient and this practive is prohibited.

f. Tally Sheets - Tally sheets of car content must be affixed in prominent place on inside wall of car upon completion of loading. The accuracy of this tally is highly important in determining completeness of car content on arrival at its destination.

g. Sealing of Cars - All railroad boxcars will without exception have the doors closed, sealed and fastened securely with no less than 5mm wire or with a bolt the threads of which have been burred after the nut is fastened. When wire is used for sealing, a piece about fifteen (15) inches long should be passed thrtugh the eye of the car lock. The ends will be drawn together and tightly

0 5 4 3

Declassified E.O. 12356 Section 3.3/NND No. 785016

Supply Security (cont'd)

twisted three (3) or four (4) times with a tommy bar. To avoid possibility of the seals being unwound, the ends of the wire will be cut short with a cropper so as to finish together.

h. Cars will be inspected enroute, whenever practicable, to determine if cars have been opened or pilferage has occurred. Appropriate reports will be made when cars are found unsealed or where theft is suspected. Cars will be re-sealed and relabeled when necessary.

i. Civilians - The carrying of unauthorized civilians on supply trains is prohibited. Where authorized civilians are permitted to ride on supply trains they will not be permitted to ride on cars carrying supplies.

j. Responsibility - Responsibility of supply preceding movement is the absolute responsibility of the source or shipping agency concerned. Checking supplies and furnishing an accurate tally sheet of goods loaded is a part of this responsibility. Railway military police or other railway guards accept the responsibility after the cars are loaded, wired or bolted and sealed. Theirs is a continuing responsibility until the receiving agency physically accepts the car.

12. Vehicle Movement of Supplies.

a. Substantial amounts of truck cargo are lost within the zone of communications through pilferage, theft enroute, hi-jacking, illegal diversion, breakage, careless vehicle handling. Trucks from port installations, dumps, and depots will be moved in small convoys of from three (3) to six (6) vehicles at close interval, one individual being responsible for the movement. Guards will be supplied for these vehicles by the dispatching installation whenever possible and only in exceptional cases will individual vehicles be dispatched. Specific routes will be designated for truck drivers to follow, trucks found off the designated route will be impounded and drivers of same given immediate trial by courts-martial. All truck loads leaving an installation will be checked by count and not by estimation. Drivers will be responsible for loads on trucks and will inspect and sign for their load before departure. This responsibility remains even though guards are employed.

b. Trucks loaded with sensitive supply, stopped due to mechanical failure or for any reason will have a guard stand by. Frequent change of guards on trucks will be a procedure which discourages guard and driver collusions.

c. Unloading at destination will be accompanied by a check of truck content against load dispatch slip and any discrepancies will be reported immediately.

d. All precautions will be taken against alteration and forging of trip tickets, tallies and other records as well as collusion with hi-jacking gangs. Special and alert attention must be exercised on routes having steep grades, obstructions, one way defiles or heavy traffic to prevent loss of supply.

13. Showdown Inspections of Troops - Special emphasis will be placed upon frequent unannounced showdown inspections of all troops. When such inspections disclose illegal disposition of government property, strict disciplinary action will be taken. Statements of Charges cannot be relied upon as an effective

Declassified E.O. 12356 Section 3.3/NND No. 785016

deterrent, and will not be used as a substitute for disciplinary action. Publicity programs will be instituted which will effect a wide dissemination to the troops of the results of such disciplinary action.

14. Mobile Road Blocks - To prevent the movement of illegally acquired supplies into black market channels by civilians or soldiers, all major commands will establish mobile road blocks to prevent the passage of pilfered material, AWOLS, stolen vehicles, and vehicles without proper trip tickets. Control points will also inspect all military personnel for passes, and military vehicles for illegal articles. Wherever possible, commanders will secure the cooperation of Italian authorities to have Carabinieri or other Italian police personnel utilized to make similar inspections of civilian vehicles and personnel at these same control points. Military Police patrols will frequently inspect small communities for AWOLS and supply trucks which may be found off the prescribed route to destination

15. Illegal Disposition of Government Property.

a. Articles of War 84 and 94 prohibit the sale, wrongful disposition, misappropriation or diversion of United States government property to unauthorized persons. In this connection, particular attention is directed to the fact that abandonment, misappropriation or bartering in any way of Army rations, gasoline and oils, captured material, clothing and equipment and Army Exchange supplies of all types fall under the provisions of these articles and Army Regulations.

b. All military personnel who observe any act of abandonment, pilferage or illegal diversion of United States government property will, without delay, apprehend the offender, obtain the name, grade, organization and serial number of the offender. They will also obtain similar information concerning witnesses, if any, and submit a detailed report of the incident to the appropriate commander having courts-martial jurisdiction. If apprehension is not possible, all information available will be obtained, and a similar detailed report of the incident will be made. The information obtained from military offenders will be checked against their War Department Identification Cards and Tags. When there is no doubt as to the veracity of information given, the individual will be turned over to the Military Police.

c. Negligence on the part of any United States military personnel in reporting crimes of this nature will be considered dereliction of duty and will be punished accordingly.

d. All commanders having courts-martial jurisdiction will issue such additional instructions as may be necessary to enforce compliance with the foregoing and will take strict disciplinary action in all cases.

16. Reports.

a. Incidents of major pilferage will be immediately reported to the Provost Marshal General, this headquarters, by cable. Reports will contain the following: date, time, name or number of installation and location, type of supplies indicating the amount and value; brief resume surrounding loss; action instigated and date thereof and the results obtained as of the time report was rendered. Weekly letter reports on progress will also be rendered. These reports are required when supply loss is $100.00 or more in value.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Supply Security (cont'd)

b. Further required is a letter report as of the 20th of each month, to arrive not later than the 28th, showing all other pilferage not reported by cable and containing the same type information as required in cable reports.

SUBJECT : Book Paper

TO : Regional Commissioner, Lazio Region
attn.Newsprint Officer, Ing.Richiedei

1. This office has been informed that in the regional warehouse in the Via Marsala there is a quantity of book paper; i.e. 295 cases of 560 lbs.each, approximately 37 tons.

2. It is requested that your office dispose of this paper in the following manner:

- 25 tons will be consigned to the Ministry of Public Instruction, Palermo, Sicily, attn.Prof.La Barbera.
- 20 tons will be consigned to Major Gregory, Lazio-Umbria Region for further allocation.
- 12 tons or the entire balance will be consigned to the Ministry of Public Instruction, Naples, attn.Prof.Albini.

3. A landed cost on this paper has not been received from America to date so issue vouchers must be made out without a fixed price. Further the issue vouchers should be made out to the account of the Istituto Nazionale per il Commercio Estero which will be responsible for collecting the funds resulting from sales on these items. A receiving report will be made out by I.C.S. in return.

4. May this paper please be shipped to Palermo and Naples at as early a date as possible.

For the Chief Commissioner

3. Also transferred to ICE was a large quantity of book paper; specifically 205 cases of 560 lbs. each, approximately 57 tons. Disposition instructions had been given by this office but were not carried out by Lazio Region. Therefore it is requested that the following disposition of this book paper be made at as early a date as possible.

A. 25 tons to be consigned to the Ministery of Public Instruction, Palermo, Sicily, attn.Prof. La barbera.

B. 20 tons to be reserved for use of the Regional Educational Officer, Lazio Region.

C. 12 quintali to be consigned to Casa Ed. Cosmopolita for the publication of a history of the war in Italy by cap. Del Mare, Capo Ufficiale colle armi e censura militare stampa. This publication is authorized by the Italian Press Commission and supported by P.W.B.

D. The balance of this book paper, approximately 11 tons will be consigned to the Ministry of Public Instruction, Naples, attn. Prof. Albini.

4. In addition to the 12 quintali of book paper consigned to cap. Del Mare, it is also requested that you release 3 quintali of <u>unused book paper</u> which was also received by ICE, from Lazio Region.

5. Prices on these items can be arranged in conjunction with

Declassified E.O. 12356 Section 3.3/NNN No. 789016

.....

3. Also transferred to ICE was a large quantity of book paper; specifically 205 cases of 560 lbs. each, approximately 57 tons. Disposition instructions had been given by this office but were not carried out by Lazio Region. Therefore it is requested that the following disposition of this book paper be made at as early a date as possible.

A. 25 tons to be consigned to the Ministery of Public Instruction, Palermo, Sicily, attn.Prof. La Barbera.

B. 20 tons to be reserved for use of the Regional Educational Officer, Lazio Region.

C. 12 quintali to be consigned to Casa Ed. Cozpopolita for the publication of a history of the war in Italy by cap. Del Mare, Capo Officiale colla aggiunta censura militare stampa. This publication is authorized by the Italian Press Commission and supported by P.W.B.

D. The balance of this book paper, approximately 11 tons will be consigned to the Ministry of Public Instruction,Naples, attn. Prof. Alcini.

4. In addition to the 12 quintali of book paper consigned to cap. Del Mare, it is also requested that you release 3 quintali of <u>enamel book paper</u> which was also received by ICE, from Lazio Region.

5. Prices on these items can be arranged in conjunction with this office.

Roma, 14 febbraio 1945

Magg. Sir Philip M. MAGNUS
Sottocommissione Alleata per l'Educazione
R O M A

Gentilissimo Sig. Maggiore,

le rimetto una circolare inviata ai rappresentanti regionali del Ministero della Pubblica Istruzione e, per conoscenza, agli ufficiali regionali dell'Ufficio Educazione, insieme con un prospetto di distribuzione, per regione, dei materiali occorrenti per la stampa dei libri delle scuole elementari, provenienti da oltremare.

Allego anche un prospetto generale della distribuzione stessa. -

Cordialmente

Prof. ADRIANO ALBIN - NAPOLI -
Prof. GIUSEPPE UGOLINI - FIRENZE -

e, per conoscenza

Maggiore P.M.MAGNUS - Sottocommissione Alleata per l'Educazione - ROMA -
R.E.O. Sicily Region
P.E.O. Tuscany Region
Z.E.O. Naples Zone (Southern Region)

OGGETTO: Materiali per la stampa dei testi delle Scuole Elementari provenienti da oltremare.

Da varie comunicazioni pervenutemi dalla Sottocommissione Alleata per l'Educazione, mi viene segnalato arrivato o in arrivo a Palermo, a Napoli ed a Firenze vario materiale concernente la stampa dei libri delle scuole elementari.

Questo materiale consta più o meno di carta da stampa, carta copertina, colla, inchiostro nero, inchiostro colorato, spago, flani, carte umide da riporto.

Siccome la responsabilità sia del ritiro come pure dell'uso o della conservazione di detto materiale grava sui rappresentanti regionali del Ministero, raccomando vivamente che sia tenuto un accurato controllo a mezzo registro di carico e scarico e precise annotazioni circa tutto il movimento del materiale stesso e del suo uso, documentato da regolari fogli giustificativi. Detto registro dovrà infine essere consegnato al rappresentante centrale del Ministero per depositarlo in archivio con tutte le altre documentazioni.

Il materiale potrà essere adoperato solo dopo che ne sarà stata data l'autorizzazione dal rappresentante centrale e soltanto nella quantità che, proporzionalmente ai bisogni regionali stabiliti in base alle statistiche fatte preparare dalla Sottocommissione Alleata per l'Educazione, si giudicherà necessaria.

Nel caso che la stampa dei libri non esaurisse il materiale assegnato alla regione, il rimanente materiale dovrà restare a disposizione del rappresentante regionale del Ministero che riceverà istruzioni sul da farne.

Siccome i prezzi dei materiali venuti d'oltremare non sono stati ancora comunicati ufficialmente, i rappresentanti regionali del Ministero si cauteleranno circa la solvibilità delle Ditte o delle Case Editrici a cui il suddetto materiale viene affidato; e questa cautela potrebbe essere presa facendo fare dai riceventi un deposito vincolato in Banca a nome delle Ditte stesse e con la firma abbinata del rappresentante regionale del Ministero. Questo deposito potrebbe coprire all'incirca il valore dei materiali consegnati calcolato ad un dipresso della metà dei prezzi correnti in mercato.

E' pacifico che ad ogni nuova consegna di materiale dovrebbe corrispondere un proporzionale versamento nel conto bancario di cui sopra.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Con questo non si deve intendere tuttavia che il materiale così consegnato alle diverse Ditte debba considerarsi ad esse venduto, in quanto il materiale residuo dopo il completamento della stampa dei libri, deve essere tenuto in riserva per le disposizioni ministeriali. Per conseguenza le Ditte pagheranno effettivamente le parti del materiale che saranno realmente state usate.

E' necessario che alla consegna di qualsiasi materiale i rappresentanti regionali del Ministero si facciano rilasciare dalla Ditta o dalla Casa Editrice regionale, ricevuta con la clausola che il materiale in oggetto deve essere usato esclusivamente per l'allestimento dei libri di testo delle scuole elementari, essendo le Ditte stesse responsabili di ogni abuso al riguardo.

Il materiale in arrivo dovrà essere denunziato al rappresentante centrale del Ministero in quanto non sempre ciò che arriva a Firenze, Palermo, Napoli o Roma, è destinato totalmente alla zona stessa di arrivo. Occorre quindi avvertire sempre ed immediatamente circa questi arrivi. Nella regione non deve mai usarsi un quantitativo di materiale che superi l'assegnazione che alla regione stessa è stata fatta.

Perché si abbia qui al centro un preciso quadro della situazione di questo diverso materiale arrivato, ritirato, adoperato o da adoperarsi a tutt'oggi, prego di inviarmi con urgenza un particolareggiato specchietto secondo il modello 1 qui allegato. Questo specchietto dovrà essermi rimesso ogni mese.

Secondo le statistiche dei libri occorrenti nelle varie regioni e la segnalazione fattami al 3 febbraio 1945 dei quantitativi di materiale che debbono pervenire d'oltremare, le assegnazioni alle diverse regioni saranno fatte nella misura di cui all'allegato 2.

Occorre inoltre che unitamente allo specchietto sopra richiesto da inviare mensilmente, si abbia anche la situazione precisa dei libri già effettivamente stampati o da stampare in modo che tutto sia con precisione ed ordine controllato e registrato.

Cordialmente

(Prof. Roberto Giordani)

Ministry of Public Instruction — Rome, Feb. 14th 1945

TO : Prof. Gioacchino La Barbera
Prof. Adriano Albin
Prof. Giuseppe Ugolini

And attention of : Major P.M. Magnus, Education Subcommission, A.C.
R.E.O. Sicily Region
R.E.O. Tuscany Region
R.E.O. Naples Zone (Southern Region)

OBJECT : Materials imported from overseas for printing elementary school Text books.

Through various communications received from Education Subcommission, A.C., I am advised of the arrival or of the expected arrival, in Palermo, Naples or Florence, of various materials connected with the printing of elementary school text books.

This material consists, more or less, of printing paper, paper for book covers, glue, black ink, colored ink, thread, mats, transfer paper.

Whereas responsibility for drawing as well as for using and preserving said material, rests on the Ministry's regional representatives, I warmly recommend that an accurate control should be exercised, by means of registers for incoming and outgoing materials, with exact notes of all movements of materials and of their use, vouched for by regular papers. This register must finally be handed over to the Ministry's central representative, who will deposit it in his archives together with all the rest of the documents.

The material may be used only when the central representative has given his authorisation, and only in those quantities that shall be considered necessary, in proportion to regional needs, ascertained on the basis of statistics prepared by the Education Subcommission, A.C.

In case the printing of books did not exhaust the material assigned to a region, the rest of the material must remain at the disposal of the Ministry's regional representative, who will then receive instructions on the action to be taken.

As prices of materials imported from overseas have not, so far, been officially communicated, the Ministry's regional representatives will ascertain that the firms or publishing houses to which said material is consigned are solvable; this may be done by getting the firms who receive material to make, in their own names, a blocked deposit with a Bank, with the Ministry's regional representative to sign it together with the firm. Such a deposit might cover, approximatively, the value of materials consigned, which should be fixed at about half the current market prices.

It is evident that to each new consignement of materials should correspond a proportionate payment into the aforesaid bank account.

By this it should not be understood that the material so consigned to the different firms is considered as sold to them - because the matriel left over

711
9A130
24

0 4 3 84

Declassified E.O. 12356 Section 3.3/NND No. 785016

after the printing of the books is completed, must be kept in reserve under the Ministry's orders. Consequently the firms will ~~pay~~ only pay for the part of materials which have actually been used.

It is necessary that, on consignement of any material, the Ministry's regional representatives should obtain, from the ~~publisher~~ regional firm or publisher, a receipt with the clause t hat said material is to be used exclusively for the preparation of elementary school text books, while the firms are responsible for any abuse in the matter.

Arriving materials should be declared to the Ministry's central representative, inasmuch as not always what arrives in Florence, Palermo, Naples or Rome is entirely destined to the zone of arrival . Such arrivals should therefore be always and immediately notified. In each region the quantity of material used must never be grater than the quantity assigned to the same region.

With the ~~view~~ object of having here, at the centre, an exact picture of the situation of arrived materials, of materials drawn, used and to be used up to date, I beg you to send me, as soon as possible, a detailed table, according to enclosed model 1. Such a table should be sent in each month.

According to statistics of books needed in the different regions and the information received on Feb. 3, 1945, concerning the quantities of materials expected to arrive from overseas, the assignements to the different regions will be made in the measure shown in ~~the~~ enclosure 2.

Together with the table we have asked you to send us each month, we also need the exact situation of the books already actually printed or to be printed, so that everything may be controlled and registered, accurately and in proper order.

Sincerely

(signed) Prof. Roberto Giordani.

This register must finally be handed over to the Ministry's central representative, who will deposit it in his archives together with all the rest of the documents.

The material may be used only when the central representative has given his authorization, and only in those quantities that shall be considered necessary, in proportion to regional needs, ascertained on the basis of statistics prepared by the Education Subcommission, A.C.

In case the printing of books did not exhaust the material assigned to a region, the rest of the material must remain at the disposal of the Ministry's regional representative, who will then receive instructions on the action to be taken.

As prices of materials imported from overseas have not, so far, been officially communicated, the Ministry's regional representatives will ascertain that the firms or publishing houses to which said material is consigned are solvable; this may be done by getting the firms who receive material to make, in their own names, a blocked deposit with a Bank, under the Ministry's regional representative to sign it together with the firm. Such a deposit might cover, approximatively, the value of materials consigned, which should be fixed at about half the current market prices.

It is evident that to each new consignement of materials should correspond a proportionate payment into the aforesaid bank account.

By this it should not be understood that the material so consigned to the different firms is considered as sold to them - because the matriel left over

TRANSLATION

Ministry of Public Instruction — Rome, Feb. 14th 1945

TO : Prof. Gioacchino La Barbera
Prof. Adriano Albin
Prof. Giuseppe Ugolini

And attention of : Major P.M. Magnus, Education Subcommission, A.C.
R.E.O. Sicily Region
R.E.O. Tuscany Region
R.E.O. Naples Zone (Southern Region)

OBJECT : Materials imported from overseas for printing elementary school Text books.

Through various communications received from Education Subcommission, A.C., I am advised of the arrival or of the expected arrival, in Palermo, Naples or Florence, of various materials connected with the printing of elementary school text books.

This material consists, more or less, of printing paper, paper for book coversglue, black ink, colored ink, thread, mats, transfer paper.

Whereas responsibility for drawing as well as for using and preserving said material, rests on the Ministry's regional representatives, I warmly recommend that an accurate control should be exercised, by means of registers for incoming and outgoing materials, with exact notes of all movements of materials and of their use, vouched for by regular papers. This register must finally be handed over to the Ministry's central representative, who will deposit it in his archives together with all the rest of the documents.

The material may be used only when the central representative has given his authorization, and only in those quantities that shall be considered necessary, in proportion to regional needs, ascertained on the basis of statistics prepared by the Education Subcommission, A.C.

In case the printing of books did not exhaust the material assigned to a region, the rest of the material must remain at the disposal of the Ministry's regional representative, who will then receive instructions on the action to be taken.

As prices of materials imported from overseas have not, so far, been officially communicated, the Ministry's regional representatives will ascertain that the firms or publishing houses to which said material is consigned are solvable; this may be done by getting the firms who receive material to make, in their own names, a blocked deposit with a Bank, the Ministry's regional representative to sign it together with the firm. Such a deposit might cover, approximatively, the value of materials consigned, which should be fixed at about half the current market prices.

It is evident that to each new consignement of materials should correspond a proportionate payment into the aforesaid bank account.

By this it should not be understood that the material so consigned to the different firms is considered as sold to them - because the matrial left over

G 4 T 2 4

Declassified E.O. 12356 Section 3.3/NND No. 785016

after the printing of the books is completed, must be kept in reserve under the Ministry's orders. Consequently the firms will ~~xxx~~ only pay for the part of materials which have actually been used.

It is necessary that, on consignement of any material, the Ministry's regional representatives should obtain, from ~~xx~~ the ~~xxxxxxxxxxxxxx~~ regional firm or publisher, a receipt with the clause t hat said material is to be used exclusively for the preparation of elementary school text books, while the firms are responsible for any abuse in the matter.

Arriving materials should be declared to the Ministry's central representative, inasmuch as not always what arrives in Florence, Palermo, Naples or Rome is entirely destined to the zone of arrival . Such arrivals should therefore be always and immediately notified. In each region the quantity of material used must never be grater than the quantity assigned to the same region.

With the ~~xxxx~~ object of having here, at the centre, an exact picture of the situation of arrived materials, of materials drawnn, used and to be used up to date, I beg you to send me, as soon as possible, a detailed table, according to enclosed model 1. Such a table should be sent in each month.

According to statistics of books needed in the different regions and the information received on Feb. 3, 1945, concerning the quantities of materials expected to arrive from overseas, the assignements to the different regions will be made in the measure shown in enclosure 2.

Together with the table we have asked you to send us each month, we also need the exact situation of the books already actually printed or to be printed, so that everything may be controlled and registered, accurately and in proper order.

Sincerely

(signed) Prof. Roberto Giordani.

Magg.Sir Philips M. MAGNUS
Sottocommissione Alleata per
l'Educazione

ROMA
Via V.Veneto

Gentilissimo Sig.Maggiore,

la informo di aver aggiunto la seguente nota alla lettera circolare del 14 febbraio 1945, concernente la distribuzione dei materiali alle varie zone:

" In chiarimento ed in aggiunta alla lettera sopra-scritta devo dire quanto segue:

a) i registri di carico e scarico e tutti gli altri documenti sopracitati debbono essere in duplice copia, una per il Ministero, una per la Sottocommissione Alleata per l'Educazione;

b) é necessario che sopratutto nell'arrivo e nello svincolo del materiale, il controllo sia fatto con assoluta precisione e giustificato con ricevute e firme;

c) circa la questione della cautela da prendere verso le Ditte od i Consorzi per ciò che concerne il pagamento dei materiali, non deve intendersi come un semplice consiglio, ma deve essere effettivamente fatto. -"

Con molta cordialità

(Prof.Roberto Giordani)

Rome, Feb. 18th 1945

Major Sir P.M.Magnus
Education Subcommission, AC
Rome

This is to inform you that I have added the following note to the circular letter of February 14th 1945, concerning distribution of material to different zones :

"In addition to above mentioned letter and to make its meaning clearer I must state the following :

a) Books of lading and delivery and all other documents quoted above must be in duplicate : one copy for the Ministry, one for Education Subcommission.

b) It is necessary that, particularly on arrival of material and on getting it through the customs , all operations should be supervised with absolute precision and vouched for with receipts and signatures.

c) As to the question of obtaining security from firms or syndacates for payment of material, this is not to be understood merely as a piece of advice : it should actually be done."

Yours sincerely

(signed) Prof. Roberto Giordani

| | | | | Total | 174.103" | " |

also

| | | | | | | |
|---|---|---|---|---|---|---|
| Offset paper: Inter-Office Memos | In 110 | dated | 12 & 13/I/45 - 97 cases- | c | 14.665 | Eng. tons |
| Paper, printing: " " " | In 79 | " | 25/I/45 - 70 cases- | c | 1.821 | " " |
| | | | Total | | 16.486 | " " |

also

25 tons DW printing paper received prior to the arrival of the above listed materials and withdrawn by Soc. Ed. Dante Alighieri (see Transfer notes 1164 and 1192 of 19 and 20 November, 1944)

All this paper and more will be required for the Naples printing of 900,000 books (14,000 Readers for the Second Class were printed on paper left over from the first edition, it should be remembered, however).

All paper of TOC 97 up to the full amount required to complete the whole printing should be withdrawn from the 676 Depot and transferred to the editors under the supervision of Ing. Albin.

When there is more TOC 97 paper in Naples than is required, for Elementary school text book printing by Dante Alighieri, please report, and the matter will have immediate consideration.

4693

0 4 8 71

Declassified E.O. 12356 Section 3.3/NND No. 785016

3. Binding Paper.

Text book paper: Inter-Office Memo In 79 dated 25/1/45 212 rolls- 50.677 tons

Our ED/9A/3.0/AC of 26 Dec./44 to Shipment port & Warehouse division (copy to Ing. Albin) allotted this paper as follows:

| | | |
|---|---|---|
| Naples | 100 rolls - 22 tons | (approx.) |
| Florence | 45 rolls - 10 tons | " |
| Rome | 46 rolls - 10 tons | " |
| Palermo | 20 rolls - 5 tons | " |

Only 46 tons of binding paper (cover paper) were requisitioned,47 DW tons were signalled as on their way and 50.677 metric tons arrived. Quite apart from these amounts 33 tons of the printing paper sent to Palermo and 96 cases (2350 sheets) of the printing paper sent to Florence has turned out to be cover paper. In view of the unreliability of shippers' descriptions it is desirable that materials be checked on arrival, and reports made to this Headquarters.

4. Ground Glue.

Ground Glue: Inter-Office Memo In 74 dated 29/XII/44 6 cases - 0.992 m. tons
Ground Glue: Inter-Office Memo In 82 dated 30/XII/44 34 drums - 5.531 m. tons

Although we have the above quoted warehouse receipt for 6.523 tons of ground glue only 2552 lbs. was announced as on its way (6½ tons was, however, the total amount of our original requisition).

Professor Giordani's letter of 3rd January, 1945 established a distribution for the 2552 lbs of ground glue as follows:

| | |
|---|---|
| Palermo : | 255.20 lbs. |
| Naples : | 1020.80 lbs. |
| Rome : | 765.60 lbs. |
| Florence: | 510.40 lbs. |

The distribution was made according to weight before the manner of packaging was known. It will be seen that the proportion is 10% Palermo, 40% Naples, 30% Rome and 20% Florence.

Each package (40 in all) appear to be about the same size. The cases are a few pounds heavier than the drums and if this means they are more robustly packed it is obvious that these rather than the drums should be given preference for forwarding:-

| | |
|---|---|
| 4 | cases or drums to Palermo |
| 16 | cases or drums for Naples |
| 12 | cases or drums to Rome |
| 8 | cases or drums to Florence |

5. Inks. (offset)

4692

I have no warehouse receipts for any coloured ink. But one ton was signalled

Declassified E.O. 12356 Section 3.3/NND No. 785016

as due to arrive in Naples and one quarter ton was signalled as due in Palermo. Ing. Albin's Letter of 9 January states that coloured ink has arrived, but does not report how much or what colours.

On November 4th I wrote to Ing. Albin (my 6.23) telling him to expect one ton of coloured ink, - black blue and yellow and adding "Instruction will be sent in due course from Prof. Giordani as to the apportioning of this ink.

On November 24th I wrote to the Naples Zone Education Officer (my 6.28) in which I confirmed the amounts of materials expected (note paragraphs four and five and particularly the passage "This need not prevent Prof. Albin from authorising the Naples publishers to draw upon these supplies" - a passage which refers equally to black printers ink (see below) and glue (see above).

On January 3rd before any report had been received as to the arrival of coloured inks in Naples Professor Giordani wrote to Ing. Albin establishing the following distribution for the whole of our requisition of coloured inks:

Black offset :

| | |
|---|---|
| Palermo | 43.56 lbs. |
| Naples | 304.92 lbs. |
| Rome | 217.80 lbs. |
| Florence | 130.68 lbs. |
| | 696.96 lbs. (total requisition was, in fact, 697 lbs.) |

For each of the other colours Red, Blue, Yellow :

| | |
|---|---|
| Palermo | 43.25 lbs. |
| Naples | 302.75 lbs. |
| Rome | 216.25 lbs. |
| Florence | 129.75 lbs. |
| | 692.00 lbs. (total requisition for each of these coloured inks was 692 lbs.) |

As we have been given no details of quantities, colours or type of packing of such coloured inks that have actually been received such instructions as have been already sent are completely exhaustive.

(Black Ink Rotary press type)

Printing Ink: Inter-Office Memo No 87 dated 30/XII/44 - 65 drums - 14.467 m. tons

I am still awaiting a reply to my 6.25 of 25 November to Sicily region in which I stated:

"3. Some ordinary black printers ink is due shortly in Naples. Please inform me how much of this you will require for Elementary School text books. One ton would be a maximum". 4691

Declassified E.O. 12356 Section 3.3/NND No. 785016

Pending requests from local representatives for text book printing concerning this ink the following distribution is authorised:-

| | |
|---|---|
| Sicily | 5 drums |
| Naples | 20 drums |
| Rome | 15 drums |
| Florence | 10 drums |
| Reserve | 15 drums |

6. Binding thread.

Thread, cotton serving: Inter-Office Memo In 79 dated 25/1/45 14 cases = 1.329 m.tons
Thread, cotton serving: " " " In 79 " 25/1/45 2 cases = .107 m.tons

As Naples Rome and Palermo have been supplied with binding thread from local resources through hemp control, a request was put in for all this binding thread to be delivered to Florence (My 58/3.0 of 26 Dec./44 (copy to Ing. Albin) refers).

7. Matrix paper and transfer paper.

All matrix paper and transfer paper is to be forwarded to Rome.

8. The above should cover all materials that have arrived or that are likely to arrive at 676 Warehouse Naples for Elementary School book printing as part of TOI 97.

9. Reports on materials from Education Division Naples would be appreciated.

For the A/Director of Education:

H.R. HEARD
Captain.

ISTRUZIONE PUBBLICA

Roma, 15 gennaio 1945

Cap.no H.D. BEARD
Sottocommissione Alleata per l'Educazione

ROMA
Via V.Veneto

Gentilissimo Capitano,

in una relazione pervenutami da Napoli in data 9 gennaio tra l'altro mi viene detto dal Preside ALBIN che per l'inchiostro nero e colorato giacente al Depot 676 non è pervenuto l'ordine di consegna da Roma al Comando del Deposito.

Dato che questo inchiostro colorato è urgentissimo in Roma per la questione dei sillabari, la pregherei vivamente perché quest'ordine di consegna fosse quanto prima mandato in modo che il Preside Albin possa ritirare l'inchiostro, e far pervenire a Roma il quantitativo che a Roma è stato assegnato.

Le allego copia della lettera inviata ad Albin con la divisione sia della colla che degli inchiostri colorati secondo le diverse regioni d'Italia.

Dal Prof.UGOLINI in Firenze non ho avuto alcuna risposta alla mia lettera che gli feci recapitare a suo mezzo: lei ha avuto forse posta per me? Nel caso la pregherei di farmela subito recapitare.

La saluto cordialmente

(Prof.Roberto Giordani)

SUBJECT : Price of Paper

TO : Economic Section, AC, Price Office
(Attention - Mr. Barken)

Conversation of 30 December, 1944.

1. A large part of the offset paper for printing elementary school text-books, requisitioned last spring, arrived during November and December. Early in November we requested landed cost.

2. Your office attempted repeatedly to get the landed cost for us and sent one or more telegrams to Washington in regard thereto. Up to the present you have received no reply.

3. The text-books printed on this paper are urgently needed by the schools which are now functioning. They cannot be sold without a price being fixed. The price of the text-books depends in part on the price of the paper. Paper price must, therefore, be immediately established without waiting further for a reply from Washington.

4. Similar paper, for the same use, has been sold to the publishers in Rome by the Vatican at 20 lire per kilo, and by the "Nigretios Gallo Tanto in Florence at the same price.

5. We, therefore, agreed that the price of the American paper to the publishers of the text-books will be 20 lire per kilogram.

6. I have so notified the publishers and the books have been priced accordingly.

7. Will you please indicate your confirmation of this

30 dicembre 1944

Memorandum sul prezzo
del testo per le scuole elementari stampato a Firenze.

1. I prezzi sottoposti dal Consorzio di Firenze per i libri di testo vanno dalle 43 alle 45 lire per libro, mentre gli stessi a Roma costano dalle 30 alle 35 lire.

2. La giustificazione del Consorzio di Firenze era basata su due fattori:
(a) Essi pagano la carta al Poligrafico 35 lire al Kg., mentre Roma la ha pagata al Vaticano 20 lire.
(b) Essi accordavano ai librai uno sconto del 30% (sconto legale) invece del 20% come a Roma, Napoli, Palermo - giustificando questo col fatto che essi non avevano un monopolio.

3. E' stato conseguito un accordo con Mr. Bakken della Divisione per le Requisizioni presso la Sezione Economica, per cui, dato che nessuna risposta e' giunta dagli Stati Uniti al nostro cablogramma, spedito un mese o piu' fa, richiedente il prezzo della carta consegnata di provenienza Americana ad uso dei libri di testo elementari, la Sottocommissione per l'Educazione potrebbe stabilire un prezzo di lire 20 che corrisponde al prezzo del Vaticano.

4. I Ministri delle Finanze, della Pubblica Istruzione, il Prof. Giordani e il Direttore per l'Educazione si sono riuniti per discutere i prezzi della carta del Poligrafico. Basandosi sul prezzo stabilito per la carta del Vaticano e quella Americana, e per mantenere prezzi uniformemente bassi per i testi in tutte le Regioni, e' stato convenuto di ridurre il prezzo della carta del Poligrafico di Firenze (destinata esclusivamente per queste edizioni a lire 20 il Kg.

5. La quantita' di carta richiesta era di 1.500 quintali, quantitativo basato sui seguenti preventivi:
a. Massimo numero di volumi del Libro di Stato riveduto che si intende stampare:

| | | |
|---|---|---|
| Sillabario | | 60,000 |
| Lettura Classe | II | 45,000 |
| Lettura Classe | III | 45,000 |
| Sussidiario | III | 45,000 |
| Lettura Classe | IV | 33,000 |
| Sussidiario 1 | IV | 33,000 |
| Sussidiario 2 | IV | 33,000 |
| Lettura Classe | V | 26,000 |
| Sussidiario 1 | V | 26,000 |
| Sussidiario 2 | V | 26,000 |
| | | 372,000 |

CM 4 9A/3.0

OSS 9A 1.4

9A/3.0
4678

Declassified E.O. 12356 Section 3.3/NND No. 785016

b. Il preventivo del Capitano Pratt per la stampa di 1.039.000 libri era di 15.898 (i.e., 16.000) risme di carta 70 x 100 cm. Stampando il 36% di questo preventivo sirrichiederebbero 5.760 risme. Il peso della carta e' di 25 Kg. per risma (Prof. Giordani. 25 x 5.760 = 144,000 Kg. = 1440 quintali. Ammettendo che 60 quintali vadano sciupati sono necessari 1500 quintali.

6. Il Ministro della Pubblica Istruzione assieme al Prof. Giordani e il Direttore per l'Educazione sono d'accordo che lo sconto ai librai per i libri stampati per Firenze debba essere del 20% come nel resto dell'Italia.

7. Con il prezzo della carta e con lo sconto uguali in tutti i quattro centri dove si stampa, con la composizione dei libri di Firenze fatta a Roma e stampati a Firenze sulle matrici di Roma, non v'e' nessuna ragione che i libri per Firenze debbano differire dal prezzo corrente degli stessi libri stampati a Roma.

8. Il consorzio di Firenze non sara' quindi autorizzato a pubblicare questi libri ad un prezzo corrente maggiore di quello stabilito per Roma.

CARLETON W. WASHBURNE
Major, AUS
A/Director of Education.
