7 February, 1946

SUBJECT : Information regarding
"New College".

TO : Dean Will Russell,
Teachers College,
Columbia University,
New York, N.Y.

Dear Will:

A reference to "New College" in my "A Living Philosophy of Education" has aroused interest in an educator here in Italy who is eager for full information in regard to that experiment. I have told him that, if I remember correctly, the experiment was later abandoned, or at least detached from Columbia University; but he quite rightly says that in no way invalidated the significance of the idea back of it.

Would you be so kind as to send me some literature - catalogue, articles, or what not - that will give the essentials of the plan, as I can pass it along? I'll like to know, myself, whether it, or a remnant of it still exists.

Since the Education Subcommittee of the Allied Commission will soon close down please address the literature and your reply as follows:

Cultural Relations Division,
United States Embassy,
Rome, Italy.
(Attention C.W. Washburne)

I look as if I would be staying on here for a while as Science and Education Officer at the Embassy. The Italian Government and the Embassy have requested this; but final reply has not yet come from the State Department. If I am not here, Prof. Morey, Cultural Relations Attache', will open mail addressed as above. In order that he may know what to do with the literature in that case, please mark the inner wrapper as follows:

For Dr. Vittorio Manselli,
Via F. dall'Ongharo, 9,
Rome (Telephone 582697)

1428

- 2 -

I'll appreciate this very much.

I'll beu having a most interesting experience here in Italy.
Best wishes to you and to my friends at Teachers College.

Director of Education, Ed/Subc., AC.
APO 394

1. Da parte di persone competenti che si occupano dell'istruzione e della preparazione professionale dei ciechi è stato espresso il vivo desiderio di essere informate sull'attività che in questo campo si svolge negli Stati Uniti d'America e sulle più recenti idee ed iniziative prese a favore dei non veggenti.
2. In particolare si vorrebbero avere delle informazioni precise in merito :
 - a. alla preparazione e all'avviamento professionale dei ciechi (educazione);
 - b. ai mestieri, cui in modo speciale i ciechi si dedicano in America;
 - c. alle professioni ritenute ivi più proficue, redditizie, sia che si tratti di mestieri, sia che si tratti di professioni libere.
3. Si vorrebbe essere anche informati sui metodi più recenti usati per lo sviluppo della memoria.
4. Quanto mai gradito sarebbe l'invio di pubblicazioni in proposito e, in generale, del materiale che, nelle condizioni attuali, si può ottenere.

25 January, 1946

SUBJECT : Rehabilitation of Libraries.

TO : Alden H. Emery,
American Chemical Society,
1455 Sixteenth St. N.W.,
Washington 6, D.C.

Dear Mr. Emery:

Thank you for your letter of 9 January.

So far, we have not received word as to what periodicals will be assigned to Italy by the AIA. We have sent them a list of the things most urgently desired in the southern two thirds of Italy and hope send soon a list compiled for the north. Their replies are slow and vague.

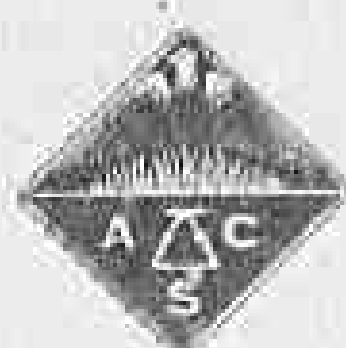

But I was hoping that the American Chemical Society might find a way of underwriting a credit to Italian institutions for such chemical publications as they wished to buy, letting the Italian pay for them when international exchange becomes possible. That would be far more expeditious, business-like, and satisfactory than indefinite waiting for a dribble from AIA for national distribution. Can't something of this sort be done?

Sincerely yours

GARLETON W. WASHBURN
Lt. Col., A. U. S.
Director of Education.

Better address your reply to me at Cultural Relations Division, United States Embassy, Rome. It looks as if I would be Science and Education Officer for the Embassy; and if not, Morey will be handling such matters, directly or indirectly.

Your Ref: ED/5B/2.3/AC

Dear Colonel Washburne:

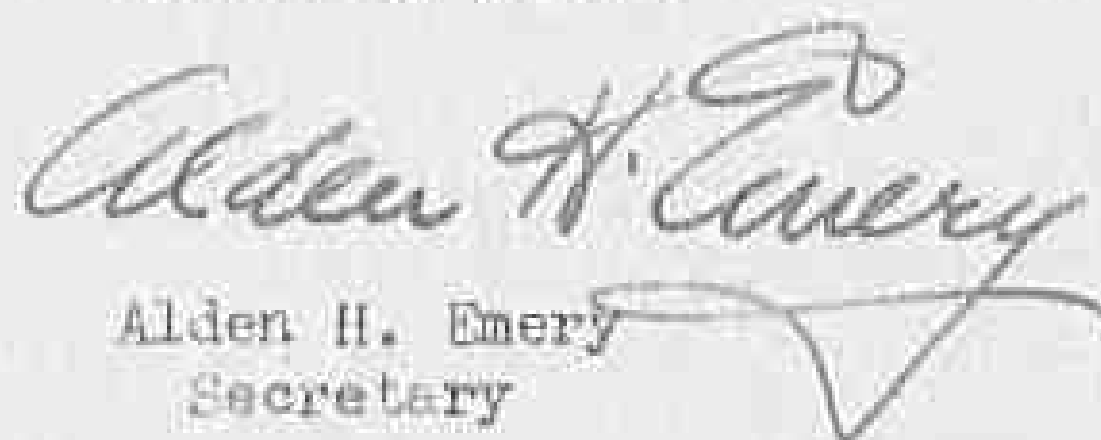

Receipt is acknowledged of your letter of December 22 to Doctor Parsons attaching a letter from Dr. M. A. Rollier. Because he has retired as Secretary of the American Chemical Society, Doctor Parsons has asked me to reply to your communication. However, he is writing to Doctor Rollier, who is a personal friend of long standing.

We understand that many of the Italian educational institutions are clearing requests through you and the OWI office in Rome to the American Library Association. You are fully familiar with its program.

I am informed that probably the American Library Association will allot a limited number of sets of publications to Italy, and that selection of recipients may be left up to you and Mr. Moray. The only way in which to accommodate the Politecnico in Milan under the present circumstances would seem to be through this arrangement.

It is obvious from your communication that you are aware of the grave nature of the problem. We know that in the past the Istituto di Chimica Generale has done excellent work and believe that it is resuming its normal excellent level as rapidly as possible. It is hoped, therefore, that the request from this organization may be given serious consideration in the allotting of journals made available through the American Library Association.

Cordially yours,

Alden H. Emery
Secretary

Hq. Allied Commission
APO 394, c/o P.M.
New York, New York

Dear Carleton:

It was fine to get your letter of November 23. I am enclosing the information for which you asked about John Dewey.

Your duties sound intriguing. From all reports which come back to us, you are performing in a thoroughly statesman-like manner.

We are just finishing our fall quarter and will shortly have a two weeks' break. Our winter quarter begins on January 8. The effect on registration from the return of veterans will be felt at that time. We have had large numbers of them interested in coming back to school and have been disappointed that we cannot absorb them. The housing situation here is very bad. It has become necessary to admit only men during this next quarter, and then only those men who can provide their own housing. The University does plan to build a 208-apartment building right across from the Orrington Hotel but that will not be finished until January, 1947. Some homes are also being built on the University golf course in Wilmette, but there, too, they are having trouble because of priorities. The V-12 will disband here on February 28. This should release some housing for men.

We are always glad to hear from you; we get many questions about your whereabouts and your work.

Best wishes for the new year.

Cordially yours,

J. M. Hughes

Al sig. Ten Col. CARLETON W. WASHBURN
direttore della sottocommissione EDUCATION
della A.A.C.

ROMA

La ringrazio vivamente di avermi inviato il rapporto del mese.
Vessello sulla scuola in Italia, che il cui uso mi atterro alle
limitazioni indicate nell'accompagnatoria.

Avevo saputo dal mare. Vessello delle pubblicazioni in-
traprese dalla casa editrice Le Monnier di Firenze su libri
relativi alla scuola negli S.U. A. e in Inghilterra. Finora però
essi non sono in commercio e la casa editrice sembra riservata
nel preannunciarli. Li richiederò direttamente.

Quanto è pubblicato dall'U.S.I.S. nel "Notiziario sull'E-
ducazione" lo conosco, giacché ricevo regolarmente il bollettino;
però, se si eccettua qualche articolo di carattere generale, co-
me il suo del N.2, esso offre informazioni troppo particolari
che non servono a dare un'idea delle tendenze e dei problemi
della scuola nordamericana. Ho avuto la scorsa settimana l'onore
di incontrare il sig. HODGE e di avere da lui gentilmente
alcuni dei libri più recenti sul problema della scuola negli
U.S.A.

Quanto all'Education Bulletin N.29 io l'ho trovato
indicato nella List of Publications, marzo 1941 distribuito
dal "Superintendent of Documents, U.S. Government Printing
Office" colla sigla I.16.71:3, prezzo 15 Cents. All'U.S.I.S.
m'è stato detto che basta l'indicazione di codesto ufficio
di Washington e della sigla per farlo arrivare.

La prego di gradire i miei ossequi e deferenti
1/13

M. Rendiccioli

Dear Colonel Washburne:

Your letter of December 3 to the State
Superintendent of Public Instruction and
a copy of the reply sent to you
reached me today.

I'm rather overwhelmed at
having the "buck" passed to me,
so to speak! I'm writing this
note to let you know that I
will do what I can to gather
material for you to give the
Union Naturalists.

The program of educational
reconstruction is a challenging
one and anything we can do

to help seems so very worth
while.

Undoubtedly some of the other
states to which you have written
will have statewide science
curricula. By the way, did
you also address a request to
the Department of Science Instruction
of the National Education Association?

Hoping to have material
for you in the near future.

Sincerely yours,

Winifred M. Smith

SUBJECT: Scientific Information.

TO : Dr. Charles Dollard
Special Services Division
Army Service Forces
Washington D.C.

Dear Dr. Charles Dollard:

A Polish psychologist, Adam Bardecki, now Public Relations Officer for Central Mediterranean Forces 262 in Italy, has requested information on recent research on the following topic:

Military psychology - psychological experiences of fighting (especially infantry).

If you will be so good as to send this information to me I shall be glad to forward it to Prof. Bardecki. Any reprints or other printed matter will also be forwarded and much appreciated.

Sincerely yours,

CARLETON W. WASHBURN

TO : OSS
Washington DC

Dear Sir:

A Polish psychologist, Adam Bardecki, now Public Relations Officer for Central Mediterranean Forces 262 in Italy, has requested information on recent research on the following topic:

Japanese education - how did the Japanese succeed in forming men eager to sacrifice their lives.

If you will be so good as to send this information to me I shall be glad to forward it to Prof. Bardecki. Any reprints or other printed matter will also be forwarded and much appreciated.

Sincerely yours,

CARLETON W. WASHBURN

To: Mrs. Melba L. Riggs
Director of Admissions
Bouve-Boston School of Physical Education
105 South Huntington Avenue
Boston 30, Massachusetts

My dear Mrs. Riggs:

Thank you for the bibliography which you have found useful in your physical education and physical therapy courses enclosed in your letter of November 28. I am looking forward to receiving the catalogue of the Bouve-Boston School of Physical Education which you are sending me.

Yours sincerely,

CARLETON W. WASHBURN
Lt.Col., A.U.S.
Director of Education

c/o Postmaster, New York, N.Y.

My dear Colonel Washburne:

I am sending you a catalogue of the Bouvé-Boston School of Physical Education and a bibliography of books which we have found useful in our physical education and physical therapy courses.

In case you have not already done so, I suggest that you write to the American Association for Health, Physical Education and Recreation, 1201 16th. Street, North West, Washington, D.C. for their suggestions in setting up your courses.

Sincerely yours,

Maida L. Riggs

Lt. Col. Carleton W. Washburne, AUS
Director of Education
Headquarters Allied Commission
APO 394, New York City.

Dear Colonel Washburne:

It would be almost impossible for us to provide an adequate and authoritative reply to Professor Bardecki's inquiry.

So far as my colleagues and I know there has been no continuation or repetition of McDougall's "Lamarckian experiment".

Regarding Japanese education I suggest that you work through channels to obtain the most authoritative reports are in the possession of OSS in Washington. One authority has done considerable work is Dr. Geoffrey Gorer at the British Legation, Washington.

The reports on military psychology would have to be obtained through Dr. Charles Dollard, Special Services Division of the Army Service Forces, Washington.

As for general psychological literature I suggest that Dr. Bardecki re-establish contacts through Dr. Deal Wolfe, Secretary of the American Psychological Association, 2101 Constitution Avenue, Washington. I believe the journals published by this Association are being made available as rapidly as possible to foreign psychologists. Dr. Bardecki would find particularly useful the Psychological Abstracts.

Separately I am sending in your care a book list published by our Department which will give Dr. Barnecki a fairly comprehensive view of the most important psychological books published in this country in recent years.

Very sincerely yours,

1599

Gordon W. Allport.

SUBJECT : Information on John Dewey.

TO : Prof. Jas. Hughes, School of Education,
Northwestern University,
Evanston, Illinois.

Dear Jim:

Will you add to your past good deeds by getting the following information for me to give to a professor of philosophy (Codignola) at the University of Florence, who is writing on Dewey's educational work and has just translated Democracy and Education?

What, if any, books has Dewey published since 1937? I'd like title, publisher, and, if convenient, date. The last Who's Who should have title and date.

Am I right in remembering that there was a collection of some of Dewey's educational articles published in a book shortly before I came away? If so, please give me title, editor, and publisher.

A number of Dewey's articles were, I believe, published in "Mind". Can you give me the name and address of the publisher of that journal?

Thanks loads.

My work continues to be fascinating - there's more time for the longer-range constructive activities, although the provinces of Bolzano (South Tyrol) and Venesia Giulia (Trieste, etc.) are hot spots with plenty of first phase work.

Cordial greetings to you and all my other friends.

CARLETON V. WASHBURN
Lt. Col., A. U. S.
Director of Education.

SUBJECT : Literature on Juvenile delinquents.

TO : Dr. Miriam Van Waters,
State Reformatory for Women,
Framingham, Mass.

Dear Dr. Van Waters:

Prof. Codignola, one of Italy's outstanding educators, has asked me for references on self-government experiments for juvenile delinquents. Having no access to bibliographies over here in Rome, I turn to you. Can you suggest one or two books which deal with this subject? Any articles of which I might be able to get reprints would also be valuable.

Italy needs information of this sort badly.

I'll never forget the lecture you gave for the Progressive Education Association at the Palmer House in Chicago some years ago about your work in Framingham. Of course I had long known of your fine work in Los Angeles. But when I heard you speak and felt your personality, I felt that I had been in the presence of a truly great woman.

Yours with admiration.

CARLETON W. WASHBURN
Lt. Col., A. U. S.
Director of Education.

19 November, 1945

SUBJECT : Scientific information.

TO : Prof. Arnold Gesell,
Yale University
New Haven, Connecticut.

Dear Prof. Gesell:

A polish psychologist, Adam Bardecki, now Public Relations Officer for Central Mediterranean Forces 262 in Italy, has requested information on recent research on the following topics:

Identical Twins: Their differences in intelligence and character.

The first traits of character in the little child.

He has requested us to secure for him a brief bibliography of the most important publications in this field since the opening of hostilities in 1939, as he has been completely cut off from all international contacts since then.

If you will be so good as to send this information to me I shall be glad to forward it to Prof. Bardecki. Any reprints or other printed matter will also be forwarded and much appreciated.

Sincerely yours

CARLETON W. WASHBURN

SUBJECT: *Psychology* information.
TO: *Psychology*,
University,
Mass.

Dear Prof.

Psychologist, Adam Bardecki, now Public Relations Officer
for Central Postal Directory, 262 in Italy, has requested information on
recent research on the following topics:

Education or repetition of Dr. Dugan's "Lamarckian experiment".
Education - how did the Japanese succeed in turning men
eager to die.

Psychology - psychological experiences of fighting
(especially).

Requested us to secure for him a brief bibliography of the
publications in this field since the opening of hostilities
in 1939, since then.

Will be so good as to send this information to me I shall
be glad to forward it to Prof. Bardecki. Any reprints or other printed
matter will be forwarded and much appreciated.

Sincerely yours

15 November 1945

SUBJECT : Information on John Dewey

TO : Prof. C.R. Morey,
Cultural Relations Attache'
U.S. Embassy.

Dear Prof. Morey:

1. I am returning herewith Prof. Mursia's letter of 3 November.

2. Dewey's "Democracy and Education" has already been translated into Italian by Prof. Codignola of the University of Florence. Application has been made for publication rights.

3. Prof. Codignola is also planning to publish in Italian Dewey's book on liberalism and an anthology of Dewey's writings.

4. As to the best person or institution with whom to make contact in regard to a bibliography of Dewey, any professor of philosophy or educational philosophy in a major university could give the necessary information - Columbia, Harvard, Chicago, or Northwestern, for example. Will Durant (address Great Neck, New York) wrote the article and bibliography on Dewey for the Encyclopedia Britannica and has discussed Dewey's work in several books. Probably he would be as good a contact as any.

5. To buy texts in the United States requires foreign exchange. Whether Prof. Mursia has any dollar credits or knows anyone in the United States who would pay for the books he wants and await reimbursement until there is a way of converting lire into dollars, Prof. Mursia alone knows. There is an organization of booksellers in Italy that is making arrangements for book purchases in the United States and before long it should be possible to order through it. It is the Italian Book Board - Via Salandra 6 - Roma -

6. It is possible to write to Dewey, but very difficult to get an answer. His address is 320 E. 72nd St., New York, N.Y. 10021

CARLETON W. WASHBURN
Lt. Col., A.U.S.
Director of Education

THE FOREIGN SERVICE
OF THE

AMERICAN EMBASSY

ROME, November 8, 1945

Lt. Col. C. W. Washburne,
Director of Education,
Education Sub-Commission,
Allied Commission HQ.

Dear Colonel:

Could you give me the information requested in
this letter? I shall be very much obliged if you can.

With thanks,

Sincerely yours,

C. H. Morey

C. H. Morey

Nice time at your party!

Inclosure:

Letter Nov. 3, 1945 from
Prof. Giancarlo Mursia

1191

11/13/45

C.W.:

On Les Page's advice I sent the letters in regard to the training of physical education teachers to the following schools:

George Williams College, 5315 S. Drexel Avenue, Chicago
Springfield College, Springfield, Mass.
Dep't. of Education, University of Wisconsin, Madison
Dep't. of Education, Stanford University, Calif.
Bouve-Boston School of Physical Education, 105 S.
Huntington Ave., Boston

He said many of the schools specialize on the graduate level and therefore do not have much to offer on the undergraduate level. He felt that these were among the best for general physical education training.

He recommended the following books, especially the first one on the subject of physical education in elementary schools:

Physical Education for Elementary Schools -- N. P.
Neillson, Former Executive Secy., American Association
for Health, Physical Education and Recreation, and
Winifred Van Hagen, Chief of Bureau of Physical
Education for Girls, California. Published by A.
S. Barnes & Company, 67 W. 44th Street, New York 18.

Teaching Physical Education in the Elementary School --
By Solt, Fox, Douthett and Stevens, University of
Florida - A. S. Barnes & Company

Jessie Knox
