SARDINIA - WORKS OF ART

With the exception of a few ancient remains, the monuments of art in Sardinia consist largely of medieval cathedrals and military architecture (castles and towers) of the same period. Relatively few of the paintings reach the standard of Italian master-pieces and consist largely of 12th Century frescoes and numerous 14th and 16th Century paintings.

The following monuments of art have been classified by cities:

Cagliari

1. Kastrum Karalis (the castle) stands well above the town, covered with vines.
2. The Cathedral of St. Cecilia (contains a high altar and Tabernacle of the 17th Century).
3. Modern art galleries and historic museums.
4. Tower of St. Pancrazio and the Archaeological Museum.
5. Ancient Roman Amphitheater.

Sassari

1. Cathedral of St. Nicola (contains important paintings).
2. Town Hall (including a picture gallery of about 250 paintings).
3. Archaeological Museum (situated on the University campus, including ancient manuscripts and a library).
4. Public Monument and Fountain of Rosello (17th Century).

Alghero

1. 14th Century Cathedral (Gothic).
2. Torre delle Sirene.
3. Torre di Porta Terra.
