reale and the Cappella Palatina, is Latin basilican, a central nave divided from side aisles by monolithic columns and a semicircular apse flanked by two smaller ones. The magnificent mosaics (1148) survive only in the apse. They are sometimes ranked above those of Palermo. The cloister, accessible through a door to the left of the main entrance or through the sacristy off the left transept, cannot compare with the marvel of Monreale but has the charm of antique simplicity. Unfortunately it has been disfigured by later adaptations and is in the course of partial restoration.

ENNA appeals chiefly for its picturesque perch on a mountain top, attended by its smaller sister, Calascibetta, on a neighboring peak. The Cathedral retains 13th cent. Gothic apses and massive pillars of the 16th cent. but the eye is distracted by the overlay of lavish rococo plaster. The effect is, however, somewhat redeemed by a fine wooden coffered ceiling of 1659. The mediaeval Castello di Lombardia, a noble ruin, dominates the city.

ERICE, the mountain which rises above Trapani, was an ancient Phoenician settlement. The north-easternmost crag, where are now the ruins of a mediaeval castle, boasted in antiquity a famous temple of Venus (Astarte Aphrodite) Ericina, whom Julius Caesar selected as his patroness. Almost no remains survive. The fine city walls and towers, visible from the road encroaching the town, are built on Phoenician foundations which may be distinguished from later work by the larger stones. But a visit to Erice is chiefly to be recommended for the superb view and the charm of its narrow streets.

MANIACE can be more easily approached from Randazzo than from Bronte and enquiry should be made

EXECUTIVE MEMORANDUM)
)
NUMBER 6)

HANDLING OF CIVILIAN SUPPLIES DRAWN FROM DEPOTS OF U.S. ARMY AND BRITISH ARMY

1. By directive of Allied Force Headquarters dated 9 September 1945 (file reference AG 400.38/021, GEG-O) theatre stocks will be used to the maximum extent possible in filling requirements of the Allied Commission for civilian supplies to be distributed in Italy. Theatre stocks of civilian supplies within the purview of this memorandum include foodstuffs, equipment, raw materials, salvage, scrap, and miscellaneous supplies.

2. All Sub-Commissions and their Officers or representatives in field offices arranging for release of surplus theatre stocks from depots of the U.S. Army or the British Army for AC account are responsible for obtaining signed receiving reports and for transmitting the same to the Chief Accountant. Copies of requisitions, telegrams, letters or informal memoranda authorizing deliveries of supplies ex army depots for AC account routed to the Chief Accountant will not relieve the Sub-Commission arranging for transfer of the supplies, of the primary responsibility of obtaining signed receiving reports. Civilian supplies drawn from theatre stocks may be issued for: (a) Italian Government use (e.g. Ministry of War, Ministry of Post and Telecommunications, etc.); or for (b) Italian civilian use or consumption. Both types of issues nevertheless are chargeable to the Italian Government, so that formal receivin reports must be obtained in the manner hereinafter outlined, to support the charge.

3. In the case of supplies drawn for use of Italian Governmental organizations, the Sub-Commission ordering delivery of the items ex army depots will obtain from the head of the recipient Ministry (or his designee) a receiving report acknowledging receipt of the goods, and transmit the same to the Chief Accountant.

4. In the case of supplies drawn for Italian civilian use or consumption, Istituto Nazionale per il Commercio Estero (ICE) has been designated receiving agent by the Italian Government. Arrangements will be made by the Sub-Commiss ordering the delivery of items ex army depots to insure that ICE is notified in advance of the delivery, which may be made either to itself or to a consign named by it. The practice of Sub-Commissions ordering delivery of goods to civilian consignees without advance notice to ICE, and without obtaining their concurrence as to the consignee will immediately be discontinued. Sub-Commissions handling the transfer of supplies ex army depots to ICE (or its designat consignee) will obtain a receiving report from ICE and forward the same to the Chief Accountant.

5. Receiving reports are required to be prepared on standard Form F/F52, which may be procured from ICE or the Chief Accountant. When obtaining signed receiving reports on issues of army supplies representatives of the Sub-Commis should insure that the descriptions of commodities fully identify the items; that the quantities are shown in the ordinary commercial trade units of the particular commodity (weight, pair, feet, each, etc.); and that the form is signed by the recipient. Any U.S. shipping tickets or British issue vouchers that may be received by a Sub-Commission should be forwarded to the Chief Accountant together with the related receiving report rendered by ICE.

6. It is important that the requirements of this memorandum be brought to the attention of all officers or other personnel of Sub-Commissions arranging for the distribution of such supplies in Italy. Heads of Sub-Commissions will see that the foregoing requirements are notified to all officers and other personnel under their jurisdiction, and that appropriate arrangements are made for carrying out the prescribed procedure.

7. This memorandum has no relation to surplus stocks of the U.S. Army to be disposed of direct by the Office of the Army and Navy Liquidation Commission for which separate accounting is rendered by that organization outside of the accounts of the Allied Commission.

SUBJECT : Publication on damages to Italian Artistic patrimony.

TO : Regional MFA&A Officer
AMG Venezia Region Hq.

1. I have just been shown an interesting book on damages to Italian artistic patrimony published under Fascist auspices. It is entitled :

Barbarie Anglo - Americane -
Distruzione del Patrimonio Storico - Artistico Italiano ; Casa Editrice delle Edizioni Popolari, Venezia, Casella Postale 486, 1944.

The book contains fairly detailed notes on damaged monuments and some illustrations.

2. It is stated that no copies are to be found in Milano but that the publication in question may be available in Venice. I think the Subcommission would be interested in having several copies of this if it can be found.

Subject: Request for Labor.

To : U.S. Commandant.

1. This office now holds about half a ton of excess war Department publications which, in compliance with instruction of U.S. 2675 Regt (Engtl. Supply Office), it must pack, bind, and forward to 2602 Publications depot.

2. The labor involved is such as cannot well be undertaken by the two well-occupied members of our enlisted clerical staff and it is asked that you supply civilian laborers to do the work. Two or three men working three or four hours could get the job done.

3. Fiber or other boxes would be need for packing; how many, could be judged by inspection of the material in question, which is piled outside the door of Rm. 49, 3rd floor annex. If fiber boxes are used it is requested that the requisite cord be provided.

Subject: Overstock of War Department Publications.

To : G-4 (Am).

1. During the month of October this Subcommission received bulk shipments of the following War Department publications (copies herewith), in the approximate quantities indicated:

	Approximate No. Copies Received
Army Services Forces Manual M353-17A	1000
Army Services Forces Manual M353-17B	950

2. No covering letter was received, but, to judge from the labels on the mail-bags, shipment originated with the Civil Affairs Division, War Department. No specific requisition had been submitted by this Subcommission.

3. The publications are of obvious value for the work of this Subcommission and have been and are being constantly used and given ample distribution. However, even after sufficient reserve stocks are put aside, there remains a large unusuable surplus as follows:

	Approximate No. Copies	Computed Weight
Army Services Forces Manual M353-17A	880	630 pounds
Army Services Forces Manual M353-17B	750	770 pounds

These books simply encumber our office space and can be of no predictable use in this theater.

20215/MFAA 13 March 1945

Subject: Overstock of War Department Publications.

To : G-4 (AM).

1. During the month of October this Subcommission received bulk shipments of the following War Department publications (copies herewith), in the approximate quantities indicated:

	Approximate No. Copies received
Army Services Forces Manual M353-17A	1000
Army Services Forces Manual M353-17B	350

2. No covering letter was received, but, to judge from the labels on the mail-bags, shipment originated with the Civil Affairs Division, War Department. No requisition had been submitted by this Subcommission.

3. The publications are of obvious value for the work of this Subcommission and have been and are being constantly used and given ample distribution. However, even after sufficient reserve stocks are put aside, there remains a large unusable surplus as follows:

	Approximate No. Copies	Computed Weight
Army Services Forces Manual M353-17A	880	630 pounds
Army Services Forces Manual M353-17B	750	6367 pounds

These books simply encumber our office space and can be of no predictable use in this theater.

4. Accordingly advice/instruction is asked as to procedure to follow in disposing the above-mentioned surplus.

Dear Sir,

I am most grateful for the publication which you sent to me for the library of the British School. I am very glad to see that the Commission is publishing full accounts of what damage has been done, as this will do much to allay exaggerated rumours.

I do not know what distribution you are giving this publication outside the Mediterranean theatre, but as regards England I would like to suggest that copies of this and of any future publications of this nature be sent to the following Societies: The Society of Antiquaries of London, Burlington House, Piccadilly, W.1.; The Royal Institute of British Architects, 66 Portland Place, London, W.1.; The Society for the promotion of Roman Studies, 50, Bedford Square, London, W.C.1.: The Ministry of Works, attention Mr. F.G. Raby, Ministry of Works, Storey's Gate, Westminster, S.W.1.; The Director, British Museum, London, W.C.1.

I should also be grateful if copies could be sent to P.W.E., London, and to O.W.I. London and Washington offices. If you could let me have the three last copies I will see to their despatch through our official pouch. If desired I could also arrange for the despatch of the other copies to the British Societies suggested.

Yours sincerely,

FROM: Major J.B.WARD PERKINS, R.A.

Dear

I am anxious to keep you supplied with all the lists, guides etc. you need, but am quite unable to do so unless you keep me informed as to what you possess.

If you will let me have a list of what you hold (including, where indicated, owner or source from which received) and in general terms what you require, I'll do my best.

Please also try and extract from your Armies same statement of requirements of lists of Protected Monuments. We are not thought-readers! No. 6 (Emilia - Lombardia) is now ready; No. 4 I am reprinting urgently, 1000 copies.

Yours

It is suggested that steps be taken by London and/or Washington to secure for the future or at least to safeguard from destruction the enormous and archaeologically invaluable collections of air-photographic material now accumulating. This matter was raised officially last year in Cairo, but I have just learned that since then all the records for the Levant have been destroyed as training material and of no further use. SUBJECT: Monuments and Fine Arts in Sardinia.

TO : Regional Control Commissioner, Sardinia.

1. While no Monuments and Fine Arts officer has been assigned to Sardinia, the records of the Subcommission show that MFA&A material was furnished Region 6 AMG personnel when still at Tizi Ouzou, namely

a. Cultural maps of (i) Cagliari, (ii) Sassari, with sites of monuments etc. marked.
b. Harvard List of Monuments in Sardinia and a sketch map showing sites listed therein.

2. The Subcommission wishes to obtain records of damage caused to monuments in Sardinia either by enemy action or by subsequent military occupation by Allied or Italian forces or by civilian looting or by any other means, particularly in Cagliari. The compilation of such records is one of the principal duties entrusted to this Subcommission by the Commander in Chief.

3. It is hoped that some officer in Sardinia has been assigned the duty of inspecting the condition of monuments etc. If so, a report from him to the Subcommission would be welcome.

4. If no such inspection has in fact been made, it is requested either that an officer with some knowledge of the subject should be detailed to do so, or that an officer of this Subcommission should be invited to Sardinia for the purpose.

CULTURAL MAPS FOR ITALY

The subjoined list of 160 "Cultural Maps" of Italian cities, towns, and other points at the Print Art Reference Library, New York City, by the Committee of the American Council of Learned Societies for the Protection of Cultural Treasures in War Areas is based largely upon the Table of Contents of Civil Affairs Handbook, section 17: Supplement on Cultural Institutions etc. (Army Service Forces Manual M 356-7), U.S. Army Service Forces, January 1944, and includes all such maps known to the Subcommission.

The 26 maps lacked for Sicily are not included or referred to, in the s/s thereof; the symbol - is placed against their titles in the present list. The + indicates that the actual map is reproduced in the Manual (Part I)--86 cases. In the other 60 cases, 60 in number, the Manual (Part I) reproduces only the lists of monuments, institutions, and institutional personnel cited in the original protocols and supplied separately. Included in the count of 160 are the 6 maps of Dalmatian cities considered at the end of the list, but no account is taken here of a large map covering cities in N. Jugoslavia (or of the maps for Corsica (Ajaccio, Bastia) and Greece (20 in number).

Where the name of a city or town differs from that of its province, the name of the province is added in parenthesis. The indication of provinces on the maps themselves is in some cases wanting, in others in error or out of date.

Where the name of a city or town differs from that of its province, the name of the province is added in parenthesis. The indication of province on the maps themselves is in some cases wanting, in others in error or out of date.

SUBJECT: AFHQ Command n of Enquiry Reports.

TO : Executive Commissioner, ACC Section.

1. Ref. AC/S/2090/MFAA dated 21 February 1944, subject: AFHQ Commission of Inquiry on Requisitioned Monuments, to Executive Commissioner.

2. Since the signature of the above-cited letter, the Subcommission has received a copy of the Report of the Commission appointed by AFHQ to enquire into damage done by Allied Troops of Occupation to Monuments etc. This report comprises:

a) Covering letter dated 19 February 1944, this copy no. 4232
b) Report, "confidential", comprising 14 sections and Appendix A totalling 28 legal size pages mimeographed.
c) Record of Evidence (also labeled Appendix A) totalling approximately 83 (unnumbered) legal size pages, mimeographed, and one plan.

3. It is requested that appropriate acknowledgement be made to AFHQ Adv. Adm. Echelon, CMF.

4. At the same time it is requested that further copies be requested for the following purposes:

a) Four copies of both the Report and the Evidence for the "gatherings" which the Subcommission on Fine Arts and Archives prepares monthly. These contain matter of all sorts relative to the work of the Subcommission and are distributed as follows:

1) For file. It is desired to have a complete "gathering" on file as well as the copies of the documents included which are filed separately in their appropriate places.
2) For AFHQ for file, as requested.
3) For translation through channels to the US Commission on the Salvage and Protection of Historic Monuments etc., Washington, DC
4) For transmission through channels to the Advisor on Monuments and Fine Arts, Civil Affairs Branch, War Office, London.

b) Four copies for the Civil Affairs Training Center, Shrivenham, Eng. If received in time these can be dispatched by an officer leaving this HQ for that theatre.

c) One copy for dispatch to the Fourth Civil Affairs Branch of the Middle East Forces.

Declassified E.O. 12356 Section 3.3/NND No. 785016

5. It is felt that the detailed examination given on the reports and the evidence are sufficient to justify the above distribution of the complete copies despite the bulk of paper involved.

6. Should an ample supply of copies, additionally of the Report, be available, the Subcommission feels that in view of the importance of the contents and recommendations and the fact that it is classified only as "confidential" further distribution might well be made to the various Schools of Military Government and Civil Affairs Training Centers in the US and Britain. Copies should also be circulated, at least for temporary examination, among the various Officers of the Subcommission in the Region. The Subcommission could profitably dispose of at least 12 copies of the Report alone.

7. In view, however, it is requested that if the supply justifies, there be secured for the Subcommission

9 Copies of the Report and the record of evidence
12 Copies of the Report alone.

SUBJECT: Lists of Monuments to be Protected from Military Use.

1. Under AFHQ General Order 68, dated 29 December 1943, no monument listed in the Zone Handbooks of Italy will be used for military purposes without the explicit permission of the Allied Commander-in-Chief or of the General Officer Commanding-in-Chief, 15 Army Group in each individual case. Furthermore, auxiliary lists of other monuments to be compiled only when no alternative accomodations are available are to be furnished to commanders by Allied Military Government Officers.

2. Copies of the Zone Handbooks are not available for general distribution. The lists of Monuments so far as available have therefore been extracted.

3. Auxiliary Lists have been or are being prepared for distribution.

4. In view of the limited facilities for reproduction available to the Subcommission for Monuments, Fine Arts, and Archives, single copies only of the various lists be provided in response to requests.

5. Submitted herewith are the following lists, each in single copy: 6230

a. Eleven Zone Handbook lists, with covering index.
b. Seven Auxiliary Lists or parts thereof, with covering index.
c. Further lists will be forwarded as they become available.

6. Attention is called to the fact that lists, such as these, prepared in advance of examination of the buildings by competent authority are unsatisfactory as standards of reference for the use or non-use of such buildings for military purposes. A building not listed in the Zone Handbook list may have suffered damage such that military use will lead to further deterioration. A building listed in the Zone Handbook may be available in part or in whole under proper safeguards for the fabric. Other special factors may affect the question of use or non-use.

7. It is therefore recommended that so far as possible the Officers attached to the Allied Control Commission/Allied Military Government for Monuments, Fine Arts, and Archives be consulted before such buildings are used so that their representations as to the use of such buildings be given due consideration.

8. Such Officers are available at the Subcommission Offices in Naples and Palermo and at the various Regional ACC/AMG Hqs. as follows: Region 1 (Sicily) at Palermo, and Catania, Region 2 (Southern Italy) at Bari, Region 3 (Campania) at Naples, Region 4 (Rome, Latium, Umbria) [illegible] at Rome and

1. Under AFHQ General Order 68, dated 29 December 1943, no monument listed in the Zone Handbooks of Italy will be used for military purposes without the explicit permission of the AI and C Commander-in-Chief or of the General Officer Commanding-in-Chief, 15 Army Group in each individual case. Furthermore, auxiliary lists of other monuments to be occupied only when no alternative accommodations are available are to be furnished to commanders by Allied Military Government Officers.

2. Copies of the Zone Handbooks are not available for general distribution. The lists of Monuments so far as available have therefore been extracted.

3. Auxiliary Lists have been or are being prepared for distribution.

4. In view of the limited facilities for reproduction available to the Subcommission for Monuments, Fine Arts, and Archives, single copies only of the various lists can be provided in response to requests.

5. Submitted herewith are the following lists, each in single copy: 8230

a. Eleven Zone Handbook lists, with covering index.
b. Seven Auxiliary Lists or parts thereof, with covering index.
c. Further lists will be forwarded as they become available.

6. Attention is called to the fact that lists, such as these, prepared in advance of examination of the buildings by competent authority are unsatisfactory as standards of reference for the use or non-use of such buildings for military purposes. A building not listed in the Zone Handbook list may have suffered damage such that military use will lead to further deterioration. A building listed in the Zone Handbook may be available in part or in whole under proper safeguards for the fabric. Other special factors may affect the question of use or non-use.

7. It is therefore recommended that so far as possible the Officers attached to the Allied Control Commission/Allied Military Government for Monuments, Fine Arts, and Archives be consulted before such buildings are used or that their representations as to the use of such buildings be given due consideration.

8. Such Officers are available at the Subcommission Offices in Naples and Salerno and at the various Regional ACC/AMG Hqs. as follows: Region 1 (Sicily) at Palermo, and Catania, Region 2 (Southern Italy) at Matera, Region 3 (Campania) at Naples, Region 4 (Rome, Latium, Umbria) at AMG Hq. 5 Army Rear Hqs, Region 5 (Abruzzi and Molise) at Foggia, and at AMG Hq. 8 Army.

1. Ref. letter AFHQ, MSS, subject: Publications, Request for, ref. MSS-461, dated 18 Jan 44; letter AFHQ, MSS, subject: Transmittal of Document(s), ref. File No. 313.3, dated 19 Jan 44; and conversation yesterday with S/Sgt Peebles of this office.

2. MSS letter 313.3, addressed to Hq. AFC (Rear), records the forwarding of "Publications and Maps as letter 461 dated 19 Jan 44". What actually was received at this Naples Hq., 27 Jan 44, and held against the arrival of the Rear Detachment, were only "Harvard Lists" of monuments, as follows:

a. Central Italy (Lazio only), 1 copy.
b. NW Italy (complete), 2 copies.
c. NW Italy (complete), 2 copies.

(Receipt of the above was acknowledged by Capt. Hammond, letter to AFHQ, att. MSS, att. Major Rowell, dated 27 Jan 44 and enclosing, signed, the customary receipt form.) Thus the "maps" referred to as sent were not received, nor was the AFHQ, MSS letter 461, dated 19 Jan 44.

3. Since letter 461 of 19 Jan 44 would appear to be useful for tracing the missing maps and for documenting the entire transaction, a copy of its text is desired by the Subcommission. Since you were the author of the letter and are familiar with the circumstances of the case, it is kindly requested that you write in to MSS for a copy of the letter for the files of the Subcommission. It is considered that time would be saved in handling the matter in this way.

1. Ref. your letter, subject: Transmittal of Documents, ref. Lib.C/1, dated 29 January 1944, ref. certain verbal conversations.

2. It is recommended that rather than to attempt to maintain a file of documents peculiar to the work of the Subcommission for Monuments, Fine Arts, and Archives in the Central Reference Library, such file be maintained in the Subcommission Office and be listed with the Central Library so that it may be consulted by interested persons. Though the Office of the Subcommission is temporarily to remain in Naples, it is not felt that there will be enough demand outside the Subcommission for this material to warr ant hardship on those wishing to consult it if they have to wait to get it from Naples.

3. Such material is at present:

a. The Harvard Lists of Monuments. 6219
b. The Frick Gallery Cultural Maps of Italian Sites.
c. Other lists prepared by the Subcommission or Regional officers.
d. Special material, as the National Geographic Map of Classical Sites.

4. If the recommendation of para. 2 be accepted, it is requested that any material which the Library now has in its possession, as the Harvard List for Northeast Italy (HD. 79), be turned over permanently to the Subcommission, since alone it has little value in the Library.

5. When the files of the Subcommission arrive from Palermo, a complete list of material available for consultation will be prepared for the Central Library.

6. Information would be appreciated as to whether there are sufficient extra copies of the Zone Handbooks for them to be distributed to Regional MFAA officers, or whether such officers must depend on copies in their respective Headquarters. Are extra copies of the Zone Handbooks to be obtained from the Central Reference Library or from the Information Division?

4. In view of the specific reference in Gen. Eisenhower's letter and order of 29 Dec. 1943 on the preservation of Monuments, this Office has received numerous requests for the lists as published in the Zone Handbooks of Italy. So far as has yet been discovered here, there is no complete collection of Zone Handbooks in Naples, though further check will be made. It is therefore requested either that there be forwarded by the most expeditious method possible a complete set of the Zone Handbooks (which might as well include also the Basic Handbook) for the use of this Office or that an extract be made of the lists of Monuments (each list being on a separate sheet with appropriate brief indication as to source). These lists are very inadequate but have acquired a sanctity from their specific mention and should be available as such for use as they appear in the PBS Publication AG Order of 9 January, where the Zone List appears first and then a supplementary list. This was prepared by Major Gardner of Region 3 for that Region. There is needed a list to end all lists as all sorts of people are engaged in preparing lists for various purposes.

5. For information, ~~tkx~~ I have been taken off the movement order for today and a cable has been sent asking if I should not stay here. Life being what it is, the future is quite immaterial to me.

6. So far as consistent with military correspondence, this letter conveys warmest greetings to you.

7. Since the Administrative Directorate is in Salerno and this Office is here, this acknowledgment is being sent direct and not through channels.

2. On further investigation it seems this parcel, which was originally addressed to Joint Chiefs of Staff A.M.G. Military Government School and Holding Centre - TIZI OUZOU, was passed to Colonel Kirkwood's office.

3. As Colonel Kirkwood's office is no longer located at TIZI OUZOU it is thought that reference to his present office may throw light on the whereabouts of the parcel - Sjt GARBETT has, it is believed, since rejoined Colonel Kirkwood and may be able to assist in this matter.

Lists of Monuments and Covering Letter
AL/2416 from CCAO
AMGOT, 15 Army Group

1. This Headquarters acknowledges receipt of Covering Letter from CCAO AMGOT 15 Army Group, AL/2416, 15 Oct. 1943 in which is summarized damage to Monuments in Southern Italy and also of enclosures of lists of Monuments in Apulia, Calabria, Campania, Lucania, Rome, Abruzzi and Molize, and Sardinia, and Sicily (2 copies of Sicily).

2. This Headquarters was already in receipt from AFHQ of a copy of a letter to the Adjutant General to the Forces signed by a Committee of Persons interested in the Preservation of Monuments and Works of Art and forwarding such prieter lists of Monuments in Sicily, Lucania, Calabria, Apulia, and Sardinia. The new lists will prove a valuable supplement.

3. At the end of September this Office prepared and forwarded to AFHQ. for transmission respectively to the Civil Affairs Sections of the War Department, Washington, and the War Office, London, gatherings of material of various sorts relevant to the Preservation of Monuments and Works of Art in Sicily. The gathering for London was not received by AFHQ and this Office is preparing two copies of a duplicate gathering, one copy to be forwarded to London and one to be filed by AFHQ.

4. It is the intention of this Headquarters to send such gatherings in triplicate at approximately monthly intervals to AFHQ. The copies for Washington and London are accompanied by requests that they be brought to the attention of the interested civilian Committees.

5. If any communication is addressed from AMGOT 15 Army Group to Brigadier French in reply to his covering letter for the lists mentioned in par. 1 above, it is requested that it be suggested that such material be forwarded in several copies as the facilities for reproduction here are very limited, both as to material and personnel. This Headquarters received from Washington a set of maps of monuments in various cities which it wished reproduced for distribution to CAOs but it proved impossible to have them photographed in this area. This matter will be raised in the covering letter of the next gathering forwarded to Washington and London.

Subject: Monuments and Works of Art in Southern Italy.

Headquarters,
A.M.G.O.T.,
PALERMO.

A1/24/6

15. October. 43

You will no doubt have received copies of a list of ancient monuments in Region II. from the War Office. I retained one copy of this list here so as to visit myself some of the principal monuments in the course of my tours. The following notes may be of some interest to you and may be transmitted to A.F.H.Q. for the information of the War Office with reference to the attached letter.

APULIA.

Broadly speaking the Provinces of Lecce, Taranto, Brindisi and Bari have suffered no war damage except for certain areas at Taranto itself. You may assume, therefore, that with the exception of Taranto none of the monuments referred to in the Apulia list have been damaged. Separate notes will be sent on Taranto in due course since I personally have not yet had the time to visit the town itself.

I have myself visited the following places listed and can confirm that the monuments in these places are all undamaged:- ACQUAVIVA DELLE FONTI, ALTAMURA, BARI, BITETTO, BRINDISI, GIOJA DEL COLLE, GRAVINA, LECCE, MOLA, MONOPOLI, METAPONTO.

LUCANIA.

I have not yet visited Lucania sufficiently to have a complete picture but the following notes may be of interest.

Matera is wholly undamaged except for a few shell splinters on the side of the Cathedral. The facade and side doors of the Cathedral are untouched. Matera has a number of other monuments of considerable value beyond those given in the list or indeed referred to, and all these monuments are happily intact.

Potenza on the other hand has been considerably damaged as a town. The Cathedral which appears to have no artistic value has suffered a direct hit in the choir but is otherwise structurally sound. The neighbouring Archbishop's Palace has been burned. The Provincial Museum received a direct hit and is entirely destroyed together with virtually all the contents. The curator is in process of picking up a few fragments. The temple at Siberi is untouched, as is, I understand, the Carthusian Monestery at Padula.

Generally speaking the Italian authorities had packed up the contents of nearly all the museums, Potenza was an exception, and these may generally speaking be said to be intact.

CALABRIA.

The temple sites and the castle at Crotone are alright and Catanzaro is entirely intact but Cosenza has been severely damaged. Catanzaro Marina has been badly knocked about.

The museum at Reggio, Calabria is a new building which had not yet been occupied as a museum. It has been considerably damaged but I understand that the contents of the old museum were safely stored in the interior.

Sir Leonard Woolley would appreciate hearing from you in due course of the use which has been made of this information, so that learned bodies in London responsible for the compilation may be informed. MEMORANDUM ON ANCIENT MONUMENTS

REFERENCE: ACA/1005/1 (Minutes of Meeting of 6 Sept 43 3(d)

1. The preparation of schedules of ancient monuments in Italy has been undertaken in the USA by the Harvard Group, Committee on the Protection of Monuments. The work has been very thoroughly done, and has been completed for Regions I, II, III, IV (excluding Rome), V, VI and VIII. (In addition there are schedules of Tunisia and Jugo-Slavia.)
2. Typewritten schedules for Sicily, Calabria and Lucania were already at "Hollywood", the remainder were brought by by Major T. Fitzer from the USA, and are now at "Hollywood."
3. In addition to the typewritten schedules, a number of town-plans with descriptive matter attached have been prepared by the same Harvard Group, and photostat copies made of each. These are fairly complete for Regions II, III, part of IV (Abruzzi), V and VI. For VII (Tuscany) there are only 3 and for IX 5. There are similar plans of Genoa and of 18 cities beyond the Po, and of Elba Corsica. These plans were prepared in triplicate or quadruplicate.

4. The present position is:

a) One copy of each of the photostat plans of towns of Region III remains at "Hollywood". The remaining copies of the plans were taken with them by the Staff of Region III.

b) All other photostat plans remain at "Hollywood".

c) The typewritten schedules of monuments of regions I--VIII, less Rome, remain at "Hollywood," one copy only of each, except for Sicily, Calabria and Lucania, which are in duplicate.

5. -- It is understood that typewritten schedules are in preparation for the remainder of Italy, and will be forwarded from the USA on completion. 618

6. It is not certain whether a schedule has been prepared for Rome. The schedule for Lazio begins at p. 21, which may indicate that a Rome section is in preparation.

7. It would seem desirable that the typewritten schedules should be copied, so that each Region should have one for its own territory, and so that a complete copy should be maintained at ACA, and that the same distribution should be made in the case of the photostat plans, of which there are already sufficient copies.
