1. The attention with regard to financing Monumental projects has now been further clarified. The Finance 4/0 is referring all logistical projects that have to be referred to MFAA for approval by the Italian Finance Ministry. This is liable to be a somewhat lengthy proceeding and can only be done on L.R. 5's.

2. It is essential therefore that L.R. 5's for all projects which it is hoped to finance under MFAA be submitted as rapidly as possible. This 4/0 will take every possible step to get final approval through. In any event, urgent work of a character genuinely covered by the terms of the Finance Directive must be got ahead with; and it must be eventually have to be paid for eventually from the Government's Fine Arts Budget.

3. Your attention is called to the following sentence from a letter to this 4/0 by Finance 4/0:

4. Attention is invited to paragraph 3, letter this Sub-Commission to Regional Finance Officer dated 24 May 1945 file 13194/7, subject as above. It is suggested that a certificate indicating the three conditions outlined therein appear on the pertinent models L.R. 5.

5. The delays occasioned by procedure outlined in points 1 and 2 are all regretted. It is however clear that nothing can be done about this under the general directives under which Finance 4/0 are at present working. You are strongly advised where possible to break down projects and to clear at least any preliminary tasks under 100,000 lire. There is no objection to following this up with L.R. 5's for the remaining work which can at least be lodged in the hope of early financing when the Italian Government takes over.

1. The attention with regard to financing Maritime projects has now been further clarified. The Finance 4/6 is referring all Regional projects that have to be referred to itself for approval by the Italian Finance Ministry. This is liable to be a somewhat lengthy proceeding and can only be done on B.B.5's.

2. It is essential therefore that B.B.5's for all projects which it is hoped to finance under AAG be submitted as rapidly as possible. This 4/6 will take every possible step to get final approval through. In any event, urgent work of a character gradually covered by the terms of the Finance Directive must be got ahead with; and at worst it will eventually have to be paid for eventually from the Government's Finance 4/6 Budget.

3. Your attention is called to the following sentence from a letter to this 4/6 by Finance 4/7:

4. Attention is invited to paragraph 3, letter this Sub-Commission to Regional Finance Officers dated 24 May 1945 file 13194/7, subject as above. It is suggested that a certificate covering the three conditions outlined therein 4/7 our on the pertinent model B.B.5.

5. The delays occasioned by procedure outlined in paras. 1 and 2 are all regretted. It is however clear that nothing can be done about it, under the present directives under which Finance 4/6 are at present working. You are strongly advised where possible to break down projects and to clear at least any preliminary tasks under 100,000 lire. There is no objection to following this up with B.B.5's for the arranging work which can at least be lodged in the hope of early financing when the Italian government takes over.

HEADQUARTERS ALLIED COMMISSION

Office of the Chief Administrator

AGO 394

18 July 1945

1522/2

My dear Mr. Prime Minister:

1. I write with reference to the Memorandum of 26 February, 1945, which was transmitted by the Acting President of the United States to the Chief Administrator of the Allied Commission to the President of the Council of Ministers, outlining certain steps taken by the Allied Governments to bring about an increasing measure of control to Italian administration.

2. In order to implement further the Declaration of 26 September, 1944, by the President of the United States to the Prime Minister of Great Britain regarding Italy, I am now directed by the Combined Chiefs of Staff to inform your Government that the intervention of the Allied Commission in Italian fiscal matters and other internal financial affairs will in future be confined to cases involving Allied military necessity. The Allied Commission will assist or advise your Government on financial matters in territory under your jurisdiction only when your Government specifically requests such advice or assistance, which will be given at a high level between the senior officers of this Commission and appropriate officials of your Government.

3. I am further directed by the Combined Chiefs of Staff to inform your Government that, subject to certain exceptions and conditions which are indicated below, it is no longer necessary to obtain the approval of the Allied Commission prior to the execution of Italian external financial transactions.

175

4. The exceptions to this general rule are as follows:

(a) The Italian Government is requested to consult with the Allied Commission before authorizing the use of Italian external assets for the purpose of paying claims arising prior to 2 September, 1943. When all questions relating to the settlement of Italian clearing accounts should be discussed with this Commission before any action is taken.

(b) The Italian Government is requested to direct its exchange control and other agencies and individuals to consult with the Allied Commission before authorizing any external financial transactions undertaken by Italian Treasury, or involving the foreign branches or agents of Italian Treasury, or involving the foreign branches or agents of Italian Treasury.

5. The Combined Chiefs of Staff have noted that as a condition of the relaxation of Allied control over Italian external financial transactions, the Italian Government is required to keep the Allied Commission fully informed as to the status of Italian external assets of Italian external financial transactions. It is requested that your Government:

Commission to the President of the Council of Ministers, outlining certain steps taken by the Allied Governments to deal with an increasing measure of control to Italian administration.

2. In order to implement further the Declaration of 26 September, 1944, by the President of the United States and the Prime Minister of Great Britain regarding Italy, I am now directed by the Combined Chiefs of Staff to inform your Government that the intervention of the Allied Commission in Italian fiscal matters and other internal financial affairs will in future be confined to cases involving Allied military necessity. The Allied Commission will assist or advise your Government in financial matters in territory under your jurisdiction only when your Government specifically requests such advice or assistance, which will be given at a high level between the senior officers of this Commission and appropriate officials of your Government.

3. I am further directed by the Combined Chiefs of Staff to inform your Government that, subject to certain exceptions and conditions which are indicated below, it is no longer necessary to obtain the approval of the Allied Commission prior to the execution of Italian external financial transactions.

4. The exceptions to this general rule are as follows:

(a) the Italian Government is requested to consult with the Allied Commission before authorizing the use of Italian external assets for the purpose of paying claims arising prior to 8 September, 1943. Thus all questions relating to the settlement of Italian clearing accounts should be discussed with this Commission before any action is taken.

(b) the Italian Government is requested to direct its exchange control and value regulations which are to be consulted with the Allied Commission before authorizing any external financial transactions undertaken by Italian companies, agencies or individuals involving the foreign branches or subsidiaries of such companies.

5. The Combined Chiefs of Staff have agreed that as a condition of the relaxation of Allied control over Italian external financial transactions, the Italian Government is required to keep the Allied Commission fully informed as to the status of Italian external assets and of Italian external financial transactions. It is therefore requested that your Government:

(a) keep the Allied Commission fully advised as to the policies that may be adopted by the Italian Government, or any agency or committee thereof (including the Bank of Italy), regarding the utilization and control of Italian external assets. You may find it desirable to consult with the Allied Commission before authorizing new policies or types of transactions, in order that no conditions may arise that might be prejudicial to the interests of the United Nations.

(b) submit fortnightly reports in triplicate to the Allied Commission listing all external financial transactions permitted or undertaken by the Italian Government during the period covered by the report, including the names of all parties to the transactions, a detailed statement of the nature and purpose of the transactions, the amount thereof, the currencies involved, the rates of exchange utilized, and any other relevant information.

6. In conjunction with the relaxation of control indicated in this letter, the Combined Chiefs of Staff have directed to inform your Government that it will be requested to take the following steps:

- (a) to establish and maintain an effective foreign exchange control agency
- (b) to adopt measures in support of the economic warfare objectives of the Allied Governments.

The details of the economic warfare programs are to be determined to your Government in the near future by the British and American Governments in Rome, and it is expected that representatives of your Government will work with the two Governments in the development and implementation of this program. I am further desirous to inform your Government that failure to take the steps specified in (a) and (b) of this paragraph within a reasonable period of time will result in the re-imposition of prior control of Italian external transactions by the Allied Government through the intransigence of the Allied Commission. I should be grateful if you would keep me as closely informed as possible of your progress in the development of the programs requested by the Allied Governments.

7. I would also request that you give assurances that you assume responsibility for ensuring that redemptive payments are not made to undesirable persons in Italy.

8. The Combined Chiefs of Staff have also instructed that restrictions to Italy from neutral countries are to continue to be controlled through bodies in the U.S. and U.K. until the measures in support of the economic warfare objectives of the Allied Governments are taken.

9. The Allied Commission has, as part of the general suspension outlined in the third paragraph of this letter, suspended the supervision and control of arrangements concluded by the Italian Government with Allied and neutral countries concerning the financing of foreign trade, work, that your Government is required to ensure that the freedom of export sales will be made available for the purpose of making essential payments arising from import needs of Italy, Italian diplomatic, consular, or military expenditures, maintenance of the Italian merchant marine, and similar expenditures.

10. Finally, I am directed to state that the relaxation of control of Italian external assets is not to be construed as affecting the rights of the Allied Government under the Italian laws with respect to Italian foreign assets, nor to prejudice or affect the status of Italian property in Allied countries which has been subjected to exceptional war measures, such as requisitioning, freezing, and freezing.

11. Our supplementary financial directive from the Combined Chiefs of Staff deals with certain other matters relating to Allied military and economic and other Allied financial operations in Italy. Clarification of certain points is desired and I shall continue to work with you further as soon as possible.

Yours very truly

W. Averell Harrington

information in the development and implementation of the program. It is directed to inform your Government that failure to take the steps specified in (a) and (b) of this paragraph within a reasonable period of time will result in the suspension of prior control of Italian external transactions by the Allied Government through the instrumentality of the Allied Commission. I should be grateful if you would keep me as closely informed as possible of your progress in the development of the program requested by the Allied Governments.

7. I would also request that you give assurances that you assume responsibility for ensuring that readmission payments are not made to undesirable persons in Italy.

8. The Combined Chiefs of Staff have also instructed that restrictions to Italy from neutral countries are to continue to be controlled through banks in the U.S. and U.K. until the measures in support of the economic warfare objectives of the Allied Governments are taken.

9. The Allied Commission has, as part of the general supervision outlined in the third paragraph of this letter, supervised the supervision and control of exchange controls concluded by the Italian Government with Allied and neutral countries concerning the financing of foreign trade, and that your Government is required to insure that the proceeds of export sales will be made available for the purpose of making essential payments arising from urgent needs of Italy, Italian displacement, expenditure, or military expenditure, maintenance of the Italian merchant marine, and similar expenditure.

10. Finally, I am directed to state that the relaxation of control of Italian external assets is not to be construed as affecting the rights of the Allied Government under the Articles of the 1941 Convention with respect to Italian foreign assets, nor to prejudice or affect the status of Italian property in Allied countries which has been subjected to exceptional war measures, such as requisitioning, vesting, and freezing.

11. Our supplementary financial directive from the Combined Chiefs of Staff deals with certain other matters relating to Allied military and currency and other Allied financial operations in Italy. Clarification of certain points is omitted and I shall consult with you further as soon as possible.

Re: Finance Subcommittee, attn. Major Timmons.

1. Might we have a statement from your Subcommittee confirming the procedure with regards to MFAA projects talked over between the Joint Directors of your Subcommittee and myself this last week, which procedure would be:

- a. Submission of projects over 100,000 lire by MFAA Regional officers with general estimates for approval in principle.
- b. Approval in principle to be given by MFAA Subcommittee (with the proviso that the building or work of art is a National Monument, that the work is connected with war damage and that the work is urgent and minimum). Brig. Geoffrey Smith said that he would accept the approval in principle of MFAA Subcommittee.
- c. Submission by Regional MFAA officers of the detailed estimates for the work (S.B.S. Form or equivalent) from Italian Superintendents.
- d. Approval of these by MFAA and Finance Subcommittees jointly.

2. To cover this in the Directive (13194/Y of 21 May 45), which does not mention approval in principle, a sentence might be added to the end of para. 3 of the directive: "Prior approval in principle of all such projects from MFAA Subcommittee is advisable".

3. Per ciascun progetto dovranno allora essere pre-
 parati, in cinque copie, i seguenti documenti:

a. Modello SB-5: da ottenersi presso l'Inten-
 denza di Finanza.

b. Giustificazione: una relazione sommaria
 che spieghi la natura e l'importanza
 del lavoro proposto, perchè è necessa-
 rio che venga seguito, e in quali ul-
 teriori perdite si potrebbe incorrere
 se il lavoro non fosse compiuto.

c. Preventivi dettagliati delle quantità e
 delle probabili spese, con speciale
 riferimento alle quantità necessarie
 di materiali da costruzione. 172

4. Una copia di ciascuno dei suddetti documenti dovrà
 essere ritenuta dal Soprintendente per l'archivio.

5. Su ciascuna delle quattro altre copie del Modello
 SB-5 il Soprintendente dovrà fare apporre:

a. Solo nel caso di progetti per riparazio-

DECRETO MINISTERIALE 31 marzo 1945.

Stato di previsione dell'entrata e della spesa del Ministero del Tesoro per l'esercizio finanziario 1944-45.

IL MINISTRO PER IL TESORO

Visto l'art. 13 del Decreto legislativo, Langotracinale 31 dicembre 1934, n. 402, che autorizza il Ministro per il Tesoro ad approvare, con propri decreti, il testo definitivo delle tabelle costituenti lo stato di previsione dell'entrata, quella della spesa dei vari Ministeri ed i bilanci delle Aziende autonome per il corrente esercizio finanziario;

Considerata la necessità di provvedere all'approvazione ed alla pubblicazione dello stato di previsione dell'entrata e di quello della spesa del Ministero del Tesoro;

Ritenuta, inoltre, che, ai sensi della disposizione suddetta, occorre provvedere all'approvazione degli elenchi concernenti:

a) i capitoli della parte passiva del bilancio che per gli effetti di cui all'art. 40 del R. Decreto 18 novembre 1933, n. 2449, sulla contabilità generale dello Stato sono considerati spese obbligatorie e d'ordine;

b) i capitoli di spesa a favore dei quali è data facoltà al Governo di inscrivere somme in applicazione dell'art. 41 del citato R. Decreto 18 novembre 1933, n. 2449;

c) le spese di riscossione delle entrate per le quali possono autorizzarsi aperture di credito a favore di funzionari delegati a termini dell'art. 54 del citato R. Decreto 18 novembre 1933, n. 2449;

Decreta:

Art. 1.

E' approvato lo stato di previsione dell'entrata per l'esercizio finanziario 1944-45, concernente entrate per complessive L. 14.099.505.597,55, di cui L. 22.035.432.807,55 effettive e L. 1.150.073.000 per movimento di capitali, secondo l'annessa tabella A.

Art. 2.

E' approvato lo stato di previsione della spesa del Ministero del Tesoro per l'esercizio finanziario 1944-45, concernente spese per complessive L. 24.188.502.609,55 di cui L. 21.819.887.452,76 effettive e L. 2.368.605.158,79 per movimento di capitali, secondo l'annessa tabella B.

Art. 3.

E' approvato l'elenco dei capitoli della parte passiva del bilancio che per gli effetti di cui all'art. 40 del R. Decreto 18 novembre 1933, n. 2449, sulla contabilità generale dello Stato, sono considerati spese obbligatorie e d'ordine, secondo l'annessa tabella C.

Art. 4.

E' approvato l'elenco dei capitoli della parte passiva del bilancio concernenti spese di riscossione delle entrate per le quali possono autorizzarsi aperture di credito a favore di funzionari delegati a termini dell'art. 54 del suddetto R. Decreto 18 novembre 1933, n. 2449, sulla contabilità generale dello Stato, secondo l'annessa tabella D.

Art. 5.

Sono approvati gli elenchi dei capitoli della parte passiva del bilancio a favore dei quali è data facoltà al Governo di inscrivere somme in applicazione del primo e del secondo comma dell'art. 41 del citato R. Decreto 18 novembre 1933, n. 2449, rispettivamente secondo le annesse tabelle E ed F.

Il presente decreto e le tabelle annesse saranno comunicati alla Corte dei conti per la registrazione e pubblicati nella Gazzetta Ufficiale del Regno.

1. La prima guerra mondiale - La prima guerra mondiale fu un conflitto che si svolse tra il 1914 e il 1918. Fu causata da una serie di fattori, tra cui la rivalità tra le grandi potenze, la corsa agli armamenti e l'instabilità politica in Europa. La guerra si concluse con la vittoria alleata e la nascita di nuovi stati.

SUBJECT: Financing MFAA Projects.

TO : Sub-Commission for M.F.A. and A.. A.C.

1. Reference is made to your letter directed to the various MFAA Officers dated 16 June 1945, file 20330/MFAA, subject as above.

2. In practise it has been found that projects are assembled and submitted periodically, i.e. weekly, semi-monthly or monthly, as conditions require.

3. This practise permits the listing of the proposed expenditures on one S.B.5 and the execution of a single certificate thereon.

a. Form S.B.5 can then be used to reflect the action of your Sub-Commission as well as the Finance sub-Commission and will eliminate the necessity of noting each separate project.

b. The details of the proposed expenditures will form supporting documents and be available for such further examination as may be deemed necessary.

4. It is believed that the initial use of the S.B.5 will be found to provide a time-saving device and form a more satisfactory basis for the permanent records.

1. Arising out of requests by MFAA Regional officers for a simplification of procedure for financing first-aid repair-projects to National Monuments in AMG territory, the following procedure has been agreed by Finance S/C.

2. Before going through the whole laborious business of preparing form S.S.3, it will be sufficient to transmit to this S/C information in sufficient detail to enable this S/C and Finance S/C jointly to approve or disapprove in principle, viz. nature and status of monument, character of damage, urgency of repairs, and estimated amount.

3. When approval in principle has been received S.S.3 can be prepared for approval by Regional Finance Officer.

Excerpt concerning WFAA Finance from P.O. of Major

M.T. Newton to Lt. Col. J.B. Ward Perkins.

12 June 45.

As for the Finance attitude on projects, I'm afraid I can't feel at all patient.

Let's just look at what Finance S/C (not the Provincial and Regional chaps) call a "time-saver". I figure that the formal submittal of a project calls for the preparation of at least fifteen documents, some of them copies, each bearing seven separate signatures, affixed after presumably careful study by the seven officials concerned. In the course of acquiring these signatures, the documents travel from UDINE (or TRENTO or VERONA, say) to PADOVA to VENICE (Public Works) and back to PADOVA - all of this before they go to HOME for "final approval". And then, if your Finance chaps disapprove, doesn't the time spent on preparation and study of the submittals represent a stupid and needless waste - especially when (if the field blokes are worth their salt) the only conceivable reason for the project's being turned down in HOME is on a question of principle, which could just as well have been determined in advance by the mere exchange of letters setting forth what the proposed work is and about how much it would cost?

It was only to avoid the cited waste of time and effort that Collins (Re Finance C) and I agreed to get approval in principle before embarking on full formal application procedure. If the Finance S/C think otherwise, I'll not fight it. That wouldn't keep the rain out of any church I know of (even lovely unlisted ones!).

Subject: Financing NFPA Projects - VENEZUELA Region.

To : Director, Finance S/O.

1. In accordance with Finance S/O directive 15194/2 (see attached letter submitted after consultation with Financial Office, VENEZUELA Region) approval is requested for the submission of application for funds in respect of the following monuments in the province of VALLE, VENEZUELA Region:

- a. VENEZUELA, Palazzo Municipale, for recovery of architectural details with a view to eventual reconstruction L. 120,000
- b. UDAPE, S. Francesco, for consolidation of damaged roof over frescoes and of frescoes themselves and for blocking of entrances L. 540,000
- c. CACABAL, S. Croce, for consolidation of damaged roof and walls to safeguard Porticoes Frescoes L. 149,000
- d. BARRUANO, parish church, for consolidation of important frescoes by Giovanni Francesco da Tolentino L. 60,000

Total L. 869,000

2. All the above are National Monuments, whose importance warrants immediate action, and this is in each case limited to that necessary to prevent further deterioration.

3. The church at BARRUANO is a special case in that, while it has not suffered actual violence, an urgent repair project, already approved before the war, has been delayed to the point where the stability of an important monument during the forthcoming winter is in grave doubt.

4. Your early approval is requested so that repairs may be put in hand forthwith.

For the Director:

1. In accordance with Finance 2/C directive 13494/P (see attached letter submitted after consultation with Financial Officer, VENEZUELA Region) approval is requested for the submission of application for funds in respect of the following monuments in the province of FÁBILA, VENEZUELA Region:

- a. VENEZIA, Palazzo Municipale, for recovery of architectural details with a view to eventual reconstruction 120,000
- b. URBIA, S. Francesco, for consolidation of damaged roof over frescoes and of frescoes themselves and for blocking of entrances 520,000
- c. CASARSA, S. Oreste, for consolidation of damaged roof and walls to safeguard Renaissance frescoes 149,000
- d. BAZZANO, parish church, for consolidation of important frescoes by Giovanni Francesco da Colonna 60,000

Total 849,000

1. The accompanying MPAA projects are forwarded in accordance with your directive 13494/Y of 24 May 45. All the above are essential work, if works of art of the first importance are not to suffer irreparable deterioration.

2. For your information:

Item 2 refers to two pict res stored for safety by the local custodian in a damp spot and recovered in terrible condition by the MPAA Officer.

Item 3 covers necessary consolidation of frescoes weakened by the explosion of the bridges of VERONA.

Item 4 covers the resetting of the frescoes of the famous Filippo Lippi tabernacle, shattered by Allied bombardment, and recovered in several thousand highly friable fragments.

Items 5-9 cover the recovery and resetting of the best of the works of art at DEVEREAUX, which had been similarly shattered.

3. All the above are national monuments and the work thereon has been and remains one of urgency. Your early approval is requested to avoid further deterioration.

Subject: Status of Projects of Urgent Protective Measures
for Damaged Monuments in Liguria.

To : Director, Sub/Com., MFAA, HQ., A.C., APO 394

1. To date, the Superintendent of Monuments for LIGURIA has spent approximately L. 17,500,000 on war damaged monuments, largely in GENOVA proper. Of this amount, about one fourth was preliminary protection at the outbreak of war.

2. The Superintendent of Monuments has compiled a list of thirty monuments which need urgent repairs to prevent further damage. The sum of these projects is approximately L. 16,000,000.

3. It was found that the Regional Finance Officer has no directives covering the financing of these protective projects. The local Intendente di Finanza was consulted and he stated that the Genio Civile had a section of its budget which could be used for this purpose. At a conference with the Head Engineer of the Genio Civile and the Regional Public Works Officer for LIGURIA, it was the opinion of these two officials that the projects of the Superintendent of Monuments could be received and acted on. The Superintendency does not have a technical section to handle this work, as was the case in NAPLES, and it must all be done by the Genio Civile. Every precaution will be taken to supervise the work on the part of the Superintendent of Museums. It has been learned that the Regional Public Works Officer can approve projects under one million lire; if more than that, they must be referred to Rome. Perhaps five of the projects proposed by the Superintendent of Monuments exceed a million lire.

4. Even after the projects have been approved by the MFAA officer and the public works officer, there is a question of the priority of the work and of the materials, all of which apparently must be brought in from out of the Region by rail. The question of the blocking of materials has not yet been decided. Every effort will be made to obtain a high priority for all monument projects and the allocation of needed materials.

Oggetto: Restauro e consolidamento dei monumenti danneggiati dalla guerra.

In merito a quanto viene comunicato con la nota sopra indicata circa i criteri da seguire per il restauro ed il ripristino dei monumenti danneggiati dalla guerra si fa presente che questo Ministero concorda nel parere espresso da codesta Commissione di regolare la esecuzione dei relativi lavori in modo da limitarli in questo primo momento alla preservazione degli edifici da ulteriori danni ed alle sole ricostruzioni riconosciute di assoluta urgenza.

Tale necessità viene anche segnalata al Ministero della Pubblica Istruzione al quale è già stato comunicato in precedenza che la spesa di L. 511.800.000 prevista per la sistemazione del patrimonio artistico nelle sole provincie finora restituite all'Amministrazione Italiana dovrà essere ripartita in diversi esercizi finanziari e che col fondo di lire 47 milioni già assegnati in bilancio nella presente gestione si dovrà provvedere alla esecuzione dei lavori che presentano un carattere di assoluta necessità ed urgenza.

Ciò in considerazione delle molteplici necessità, anche più gravi ed impellenti, cui devono provvedere le finanze dello Stato, già in difficilissime condizioni, per i vari settori della vita nazionale.

Si concorda infine anche nel parere espresso da codesta Commissione di stabilire preventivamente, la somma massima da spendere per ogni restauro, nei limiti, si intende, dei fondi stanziati in bilancio.

SUB: Repair of war-damaged buildings

Reference is made to your letter giving your views on the repairs of war-damaged buildings.

We inform that our Ministry agrees with the opinion of your Commission, that for the moment works should be limited to preventing further damage and only such reconstruction be permitted as is considered urgent.

The advisability of such policy has been pointed out to the Ministry of Public Education which has already been informed that the estimated expenditure of L.511.800.000 for taking care of the artistic property in the provinces already restored to Italian administration must be charged to several fiscal years and that on the 47 million lire appropriation of the current budget estimate only works of an urgent nature must be carried out.

This view is dictated by the many demands of greater urgency on the State Treasury which is now in difficult conditions.

We also agree with the opinion of your Commission that funds to be spent on each repair must be fixed and may not exceed the amount appropriated.

2. In para 6, above letter, the undersigned stated categorically to RFO, Toscana Region that his signature on any MFAA project is a certificate that project corresponds to policy laid down in letter B/6G, Hq. AC, dated 12 Mar 45.

3. Attached budget for Superintendency of Galleries, Florence, is for repairs necessary to protect important damaged works of art from deterioration, as these fragile terracotta works cannot continue to remain in pieces without serious consequences.

4. The work on the fresco of Filippino Lippi was done immediately after the bombing of Prato, and the great work of art would have been hopelessly lost without it.

5. It is hoped that the signature of the undersigned, who is technically competent in this field, will in future be accepted as to whether a certain operation on a work of art is or is not necessary to protect it.

29 April 1945

Subject: Financing of MPAA repairs in AMG Territory.

Letter B/27 of 28 Apr 45 was sent by Major Hall, Chief Budget Officer, Finance S/C, to the Italian Minister of Finance as a result of my conversation with Hall of 27 April. From this and from further conversation with Hall it is now clear that Finance S/C's primary difficulty is that it has as yet received no clear statement of principle from the Italian Government that the latter considers first-aid repair to monuments a legitimate call on the AMG budget. If this is received Hall states that ways and means present no problem.

I have, in agreement with Hall, taken (28 April) a copy of his letter to the Minister of Public Instruction, who has gladly agreed to take the matter up urgently with the Minister of Finance, and promises to secure an answer within a day or two. He appreciates the urgency; and once the principle is granted, we are agreed that representatives of Finance and MPAA S/Cs and of Finance Education Ministries should meet to settle ways and means. Hall states that a clear definition of class of repairs ("Prevention of deterioration") and a limit to sums available without further reference to HQ AC will meet the case. There can be little objection by ourselves on that score.

Public Works (Director and Executive Officer) were very amiable but unable to produce any clearly-defined list of categories of work. Finance is hindered, I don't anticipate difficulty from them. I would invite a representatives of P.W. to our meeting with Finance.

The proposal to make any part of the Italian MPAA budget of 265.0 million lire available in AMG territory is stated by Finance to be wholly impracticable.

Finance S/C must also be instructed to refer to MPAA S/C projects which come up to this Hq. for decision, before taking action.

OCCETTO: Restauri e Consolidamento di Monumenti Antichi.

A : S.E. Marcello Soleri, Ministro del Tesoro.

Abbiamo lungamente meditato il problema del restauro e del ripristino degli antichi monumenti danneggiati dalla guerra perchè vogliamo che la prassi che si adotterà sia immune dal pericolo della critica.

Sarebbe un errore imperdonabile di lasciare i poveri senza soccorso o di ritardare anche di poco la ripresa industriale del Paese per devolvere il denaro pubblico a scopi estetici.

D'altra parte i monumenti antichi Italiani sono la testimonianza della storia e della tradizione romana e medioevale e, come tali, sono patrimonio non solo dell'Italia ma di tutto il mondo civile.

Anche sotto un altro punto di vista non si può sottovalutare l'importanza degli edifici storici che, costituendo un'attrattiva per il turismo, rappresentano un credito di esportazione.

Sarei lieto di conoscere il Vostro pensiero su tale questione per poterci accordare sulla prassi da seguire finchè il territorio italiano sarà sotto il Governo Militare Alleato.

So che molte opere di restauro sono state iniziate, ma la mia opinione, a ragion veduta, è che ci si debba limitare a preservare gli edifici da ulteriori danni, permettendo solo le ricostruzioni in casi di assoluta necessità.

La procedura in vigore che prevede l'approvazione preventiva, offre già il necessario controllo su spese inconsulte, ma forse sarebbe bene contenere il numero degli edifici classificati come antichi, e stabilire il limite massimo della somma

1. It is understood that some obstacle is in the way of providing funds for the work of the Monuments and Fine Arts Subcommittee in ASD territory.

2. The Italian Government has allocated 25 million lire, and, failing other provisions, the Minister of Public Instruction would be agreeable to 50% of this sum being made immediately available for first-aid work in ASD territory. The Subcommittee is however informed by Finance (Major Hall) that neither can this be arranged, as the money has been specifically allocated for work in Italian Government territory, nor will authorization be given for any expenditure whatsoever on first-aid repair to monuments in ASD territory.

3. It is felt that the monuments and arts of Italy represent a large part of the resources of the country and first-aid work in ASD territory is most important. Would you kindly advise us as to how this difficulty can be overcome.

TO : Vice President,

1. Attached is letter 10330/MPAA of 3 March, 1945, from MPAA to Finance Sub-Commission.

2. As stated yesterday, we do NOT spend monies in AMG territory, which are not voted under Italian Government appropriations, and MPAA is apt to spend funds on rather more than first-aid repair jobs.

3. Any other Sub-Commission goes to the Ministry concerned and presses for a decree to be passed. However worthy their reasons, I cannot authorize payment unless finance is provided by the Italian Government.

4. Otherwise, I shall need a clear order from the Chief Commissioner to use AMG funds, but this would be most undesirable.

Memorandum

To: Finance Subcommission.

1. Reference is made to conversation between Finance Subcommission and AFM Subcommission re the financing of AFM war-damage projects.

2. So far no directive exists in which the financing of AFM war-damage projects is specifically authorized. Finance Subcommission Circular 13194/F of 29 Jan 45 deals only with war-damage projects concerning Public Works. Confusion has arisen as to the financing of AFM projects, as see attached abstract from letter to Director, AFM from AFM Officer, Toscana Region.

3. Provision has been made in the Stato di Previsione della Spesa del Ministero della Pubblica Istruzione for 1 July 44 to 30 June 45, page 24 and nos. 195 and 196, for the appropriation of funds for the restoration and repair of war-damaged monuments, works of art etc., immovable and movable, and for the transportation and replacement of movable objects which had been placed in deposits for safety. In the Gazzetta Ufficiale, anno 85, no. 77, of 21 Dec 44, under the Leggi e Decreti, page 661, the Decreto Legislativo Suppletorio of 23 Nov 44, n. 375 amends the above to include bibliographical material as well.

4. It is therefore respectfully requested that a directive be issued to all Regional Finance Officers on the appropriation of funds for the protection, repair and restoration of (a) war-damaged national monuments, (b) works of art, and, (c) bibliographical material, and for the transportation of such movable objects as the AFM Officer may deem necessary. 142

- a. Under National Monuments are included buildings, churches, palaces, villas and other monuments of artistic and historical interest listed in the LISTS OF PROTECTED MONUMENTS IN ITALY issued by the AFM Subcommission and distributed to all AFM Regional Hqs. Also any others which may be brought to the attention of AFM Officers but not included in the lists.
- b. Under works of art are included frescoes, movable paintings, sculpture, and minor arts.
- c. Under bibliographical materials are included manuscripts, books, archives and records.

5. In AMB territories the following procedure is therefore suggested:
 - a. All estimates for MFAA repair projects will be prepared by the Superintendencias of Monuments and/or Galleries.
 - b. These estimates will be passed to the Regional MFAA Officer, who will approve only those which in his estimation are necessary for the preservation of the Monument or work of art.
 - c. After approval by the MFAA Officer requests for funds for projects will be submitted in the trimester budget of the Superintendency for approval by the Intendente di Finanza and for approval of the Regional Finance Officer.
 - d. Whereas work of an extremely urgent nature formerly could be financed directly by Arm AMB during the first days of the occupation of a region or province, a new situation arises in the north where Regional AMB and Army AMB will enter simultaneously. Provision should be made for the advancing of funds for the most urgent and immediate repairs upon the request of the MFAA Officer, anticipating the preparation of estimates and the submission of these in the trimester budget.
6. The Superintendencias are provided with competent technicians and contractors perfectly experienced in their type of work.

Attach to 15K
 15K/HRD of 3 Mar 45

Exhibit from letter 15K/HRD/3.3 to Director, HRD by HRD Officer,
London Region, dated 14 Feb 45.

1. Finance Administration circular 13194/7 dated 21 Sep 44 has generally been taken to cover all HRD projects of engineering character, although HRD is not mentioned therein. Cases of confusion in this respect are listed below.

- a. In Florence Province Provincial Finance Officer has required approval of all HRD projects for repair of war-damage by Genio Civile if under 300,000 lire, by Regional Engineer if over 300,000 and under 1,000,000. Yet in Pisa, Finance Officer has passed projects without approval either of Genio Civile or of Regional Engineer, and payment has been made by Regional Finance Officer.
- b. In Siena Province although approval of Genio Civile was obtained, Intendenza delle Finanze could not make payment if the projects were listed as war-damage, because according to above directive, repairs to public property damaged by war should appear on the budget of the Genio Civile only. Therefore the Superintendent of Monuments had to list his repairs as ordinary maintenance.
- c. In Pistoia Province, when estimates were submitted to the Genio Civile for approval, the Genio Civile insisted that at least three separate sealed bids by contractors be submitted for the jobs, according to the provisions of Public Works and Utilities Administration Instruction No. 4, dated 7 June 44. This was obviously impossible as the contractors who work on monuments must be specialized in HRD work and experienced under the Superintendence.

2. The above are only a few instances of a difficulty which is chronic and must be resolved for the policy not only of this Region but of the others in North Italy when they are liberated. No statement here is to be construed as a criticism of any of the officers involved, but merely as an analysis of the deficiency of existing directives.

Suffice it to say for the moment that the expenditure in question refers to first aid repairs to damaged National Monuments and Churches in order to prevent more serious damage by theft, vandalism or intemperate weather. Such measures may not be a military necessity nor essential civilian priority but if disallowed - as seems to be implied if not fulfilling those two categories - would undermine - if not defeat - the whole Allied Policy of preserving National and Historical Monuments which has been agreed on ever since A.W.G. or A.E.S.C.T. started. It is pointed out that very few controlled materials are ever required and in seeking this expenditure priority has been placed secondary to military needs.

From: HQ. AUG/AC. Abruzzi-Marche Region, M.P.A. and A. Officer
Subject: War damage to National Monuments
Ref : RS/523/Geni
Date : 5 February 1945

With reference to our conversation of today and to paragraph 3a) and 5 of the circular 13194/P on War Damage dated 29th January 1945, which was issued by the Finance Sub Commission, the Italian Official responsible for repairing war damage to National Monuments and any building or churches of monumental importance is the Superintendent of Monuments of the Area concerned and not the Genio Civile. Estimates for repairs to such buildings are made by the Superintendent of Monuments and need not have the approval of the Genio Civile, but this latter official vets the prices on the bills submitted for work done. The Superintendent of Monuments is himself a qualified architect and a state official whose area comprises four or more Provinces.

436

The procedure hitherto followed for estimates on Monuments since the publication of circular 13194/P of 23 September 1944 is the same as that laid down in para 3 of the present circular except that the Genio Civile does not approve of the estimates and the Regional Monuments, Fine Arts and Archives Officer does.

In the case of Le Marche Area the Superintendent of Monuments is at Ancona and so the best course to follow is for the Superintendent to hand the estimates to the Regional M.P.A. and A. Officer at Ancona accompanied by the approved S.R. forms for request for funds and that Officer will make himself responsible for carrying out the procedure of paragraph 3 of the present circular.

May the Provincial Finance Offices of the four Northern provinces of the Region be informed of this.

With reference to our conversation of today and to paragraph 3e) and 5 of the circular 13194/P on War Damage dated 29th January 1945, which was issued by the Finance Sub Commission, the Italian Official responsible for repairing war damage to National Monuments and any building or charcos of monumental importance in the Superintendent of Monuments of the Area concerned and not the Genio Civile. Estimates for repairs to such buildings are made by the Superintendent of Monument and need not have the approval of the Genio Civile, but this latter official vets the prices on the bills submitted for work done. The Superintendent of Monuments is himself a qualified architect and a state official whose area comprises four or more provinces.

The procedure hitherto followed for estimates on Monuments since the publication of circular 13194/P of 23 September 1944 is the same as that laid down in para 3 of the present circular except that the Genio Civile does not approve of the estimates and the Regional Monuments, Fine Arts and Archives Officer does.

In the case of La Marche Area the Superintendent of Monuments is at Ancenis and so the best course to follow is for the Superintendent to hand the estimates to the Regional M.P.A. and A. Officer at Angoulême accompanied by the approved S.M. forms for request for funds and that Officer will make himself responsible for carrying out the procedure of paragraph 3 of the present circular.

May the Provincial Finance Offices of the four Northern Provinces of the Region be informed of this.

SUBJECT: Financing of MPAA Projects.

TO: Director, MPAA Subcommission, Hq Allied Commission.

1. In accordance with our conversation of yesterday, action by Allied Commission is requested to solve the present obscure situation with regard to the financing of MPAA projects, which has been a cause of great confusion and loss of time in the work of this regional office.

2. MPAA projects are not mentioned specifically in existing directives.

3. Finance Subcommission circular 13194/P dated 21 Sept 44 has generally been taken to cover all MPAA projects of engineering character, although MPAA is not mentioned therein. Cases of confusion in this respect are listed below.

a. In Florence Province Provincial Finance Officer has required approval of all MPAA projects for repair of war damage by Genio Civile if under 200,000 lire, by Regional Engineer if over 200,000 and under 1,000,000. Yet in Pisa, Finance Officer has passed projects without approval either of Genio Civile or of Regional Engineer, and payment has been made by Regional Finance Officer.

b. In Siena Province although approval of Genio Civile was obtained, Intendenza delle Finanze could not make payment if the projects were listed as war damage, because according to above directive, repairs to public property damaged by war should appear on the budget of the Genio Civile only. Therefore the Superintendent of Monuments had to list his repairs as ordinary maintenance.

c. In Pistoia Province, when estimates were submitted to the Genio Civile for approval, the Genio Civile insisted that at least three separate sealed bids by contractors be submitted for the jobs, according to the provisions of Public Works and Utilities Subcommission Instruction No. 4, dated 7 June 44. This was obviously impossible as the contractors who work on monuments must be specialized in MPAA work and experienced under the Superintendences.

21 FEB 1945

2. MPAA projects are not mentioned specifically in existing directives.

3. Finance Subcommission circular 13194/8 dated 21 Sept 44 has generally been taken to cover all MPAA projects of engineering character, although MPAA is not mentioned therein. Cases of confusion in this respect are listed below.

a. In Florence Province Provincial Finance Officer has required approval of all MPAA projects for repair of war damage by Genio Civile if under 200,000 lire, by Regional Engineer if over 200,000 and under 1,000,000. Yet in Pisa, Finance Officer has passed projects without approval either of Genio Civile or of Regional Engineer, and payment has been made by Regional Finance Officer.

b. In Siena Province although approval of Genio Civile was obtained, Intendenza delle Finanze would not make payment if the projects were listed as war damage, because according to above directive, repairs to public property damaged by war should appear on the budget of the Genio Civile only. Therefore the Superintendent of Monuments had to list his repairs as ordinary maintenance.

c. In Pistoia Province, when estimates were submitted to the Genio Civile for approval, the Genio Civile insisted that at least three separate sealed bids by contractors be submitted for the jobs, according to the provisions of Public Works and Utilities Subcommission Instruction No. 4, dated 7 June 44. This was obviously impossible as the contractors who work on monuments must be specialized in MPAA work and experienced under the Superintendences.

4. The above are only a few instances of a difficulty which is chronic and must be resolved for the policy not only of this Region but of others in North Italy when they are liberated. No statement here is to be construed as a criticism of any of the officers involved, but merely as an analysis of the deficiency of existing directives.

5. The procedure suggested by the undersigned for incorporation in directives by Finance and Public Works Subcommissions is as follows:

a. All projects (preventive or periodic) of MPAA repairs to be

21 FEB 45
RECEIVED
OFFICE OF THE
DIRECTOR

prepared by Superintendency of Monuments and/or Galleries.

b. Projects submitted to Regional WPA Officer, who will approve only those which in his estimation are necessary for the preservation of the Monument or Work of Art.

c. Since the Superintendences are provided with perfectly competent technicians who are more experienced in their type of work than is the Genio Civil, no intervention of the Genio Civil should be necessary.

d. All repair projects of an engineering character after approval by Regional WPA should be submitted by him to Regional Engineer for checking as to prices of materials, wages of workmen, use of critical materials, etc.

e. Non-engineering projects, such as restoration of paintings, detaching of frescoes, salvaging of fragments of sculpture, etc. should need no further approval after Regional WPA.

f. After approval, projects mentioned in d. and e. above should be submitted with the regular trimester budget of the Superintendency for payment by the respective Provincial Finance Officer. Superintendency should submit separate budget for each province.

g. It is believed that a directive of the nature outlined above, published by Finance, Public Works and WPA Subcommissions, to PC's, Regional Engineers, Finance and WPA Officers would solve the situation.

7. Work of an extremely urgent nature can always be financed directly by Army and during the first days of the occupation of a Province or Region.

8. Projects overcertain figure to be determined by the Allied Commission should be approved by WPA Subcommission and submitted to Public Works Subcommission for checking before payment is authorized by Provincial Finance Officers.

Engineer for checking as to prices of materials, wages of men, use of critical materials, etc.

e. Non-engineering projects, such as restoration of paintings, detaching of frescoes, salvaging of fragments of sculpture, etc. should need no further approval after Regional AFAC.

f. After approval, projects mentioned in d. and e. above should be submitted with the regular trimester budget of the Superintendency for payment by the respective Provincial Finance Officer. Superintendency should submit separate budget for each province.

g. It is believed that a directive of the nature outlined above published by Finance, Public Works and AFAC Subcommissions, to R.C.'s, P.C.'s, Regional Engineers, Finance and AFAC Officers would solve the situation.

7. Work of an extremely urgent nature can always be financed directly by Army and during the first days of the occupation of a Province or Region.

8. Projects overcertain figure to be determined by HQ Allied Commission should be approved by AFAC Subcommission and submitted to Public Works Subcommission for checking before payment is authorized by Provincial Finance Officers.

23 January 1945

SUBJECT: War Damage.

TO : All Regional Finance Offices
and Senior Finance Officers.

1. THE PROHIBITION OF WAR DAMAGE. This circular supersedes N. 1494/P of 23 September, 1944.

The financing of the work of repair, replacement or reconstruction of war damaged property and the policy adopted for all territory is stated in the following paragraph. Particular attention is directed to paragraph 4 of this circular which is new, and to the deletion of paragraph 5 of the old circular.

2. DEFINITION OF WAR DAMAGE.

War Damage is divided into that involving:

- (a) Public Property (including industrial property of primary importance);
- (b) Private property (including housing);
- (c) Personal chattels (e.g. clothing, furniture, domestic utensils).

3. PUBLIC PROPERTY.

An appropriation has been made in the Italian State budget to cover all expenditures on public works arising from war damage. An allotment of this appropriation has been given to each province where works are contemplated. Expenditures will only be authorized when estimates of work projects have been approved by the Public Works and Pensions Sub-Commission, III AC.

In A.E. territory, credits will only be authorized for public works arising from war damage in the following circumstances:

- (a) Projects, not involving the use of critical materials and not exceeding 200,000 lire in estimated cost, approved by the Local Office, and for which budget estimates on form S.E. have been approved by the Intendente di Finanza and the Provincial Finance Officer.
- (b) Projects, not involving the use of critical materials, exceeding 200,000 but not over 1,000,000 lire must, in addition, be approved by the Regional Engineer Officer.
- (c) Projects exceeding 1,000,000 lire in estimated cost must be approved by the Public Works and Pensions Sub-Commission, III AC.

1. THE PROBLEM OF WAR DAMAGES.

This circular supersedes N. 13192 of 23 September, 1944.

The financing of the work of repair, replacement or reconstruction of war damaged property and the policy adopted for AEF territory is stated in the following paragraphs. Particular attention is directed to paragraph 4 of this circular which is new, and to the deletion of paragraph 5 of the old circular.

2. DEFINITION OF WAR DAMAGES.

War Damage is divided into that involving:

- (a) Public Property (including industrial property of primary importance);
- (b) Private property (including housing);
- (c) Personal effects (e.g. clothing, furniture, domestic utensils).

3. PUBLIC PROPERTY.

In appropriation has been made in the Italian State budget to cover all expenditures on public works arising from war damage. An allotment of this appropriation has been given to each province where works are contemplated. Expenditures will only be authorized when estimates of work projects have been approved by the Public Works and Utilities Sub-Commission, R. 10.

133

In AEF territory, credits will only be authorized for public works arising from war damage in the following circumstances:

(a) Projects, not involving the use of critical materials and not exceeding 200,000 lire in estimated cost, approved by the Civilian, and for which budget estimates on Form R.D. have been approved by the Intendente di Finanza and the Provincial Finance Officer.

(b) Projects, not involving the use of critical materials, exceeding 200,000 but not over 1,000,000 lire cost, in addition, be approved by the Regional Engineer Officer.

(c) Projects exceeding 1,000,000 lire in estimated cost must be approved by the Public Works and Utilities Sub-Commission, R. 10.

Authorizations of credit will be individual to each project and limited to the amount of the approved estimate.

4. PRIVATE PROPERTY - HOUSING - REPAIRS - REPAIRS.

By D.M. 17th November, 1944, No. 566, and D.M. 18 January, 1945, No. 1, the Italian Government has made provision for the repair of war damage to buildings and private houses in order to provide shelter for the homeless. These decisions will be implemented in Allied Military Government territory. A translation of D.M. 18 January 1945, No. 1, is circulated with this instruction.

The scheme is limited to such of first and extreme urgency, indispensably necessary to provide for persons who are without shelter because of war damage to property.

The Section provides that in every instance where there is war damage to property, a Committee for Housing Repairs shall be set up for the purpose of planning the repair work to be undertaken in order to make recommendations to the Provincial Office of the Senate Civils.

Repair work may be undertaken:

- (a) directly by the Senate Civils on the recommendations of the Provincial Committee, or
- (b) by private owners.

Private owners who do not undertake their own repairs. If the cost of the work does not exceed 10,000 lire, the Committee will fix the amount of the State grant and instruct the Senate Civils to carry out the repairs. Where the estimated cost of the work exceeds 10,000 lire, the Committee will submit recommendations to the Senate Civils, who will decide the amount of the State grant and the manner of payment.

Private owners undertaking their own repairs. Where the total cost does not exceed 10,000 lire, private owners undertaking their own repairs may receive a State contribution toward the cost of the work, not exceeding one-half of the first 10,000 lire, and one-third of the balance. The grants will normally be paid after the completion of the work, but progressive grants may be authorized on application.

Grants exceeding 10,000 lire. 50,000 lire may be granted mortgage loans by approved credit institutions, with a State contribution toward the payment of the interest. Subsidies not exceeding one-third of the total cost.

All proposals for work is to be done by the State or by private owners must be sent by the Provincial Committee to the Office of the Senate Civils.

For full particulars of the scheme see the relative decrees.

Duties of Finance Officers. All funds necessary to finance these provisions will be approved on the basis of budget estimates presented by the Provincial Office of the Senate Civils. In no circumstances will grants be made directly to Provincial Committees or to private persons.

The first request for funds by the Senate Civils will refer only to work to be executed by them, and will cover the full estimated cost of the projects.

Requests for funds to defray the State contribution to private owners executing their own repairs will be accompanied by a list showing the names of the owners, the project numbers and estimated cost.

(b) by private owners.

Private owners will be responsible for their own repairs. If the cost of the work does not exceed \$1,000, the Committee will fix the amount of the State grant and instruct the Santa Fe to carry out the repairs. Where the estimated cost of the work exceeds \$1,000, the Committee will submit recommendations to the Santa Fe, who will decide the amount of the State grant and the manner of payment.

Private owners undertaking their own repairs, have the total cost does not exceed \$1,000, private owners are required to pay for their own repairs and receive a State contribution toward the cost of the work, not exceeding one-half the first \$1,000, and one-third of the balance. The grant will normally be made upon the completion of the work, but repairs grants may be authorized in installments.

Owners carrying repairs exceeding \$1,000 may be granted mortgage loans by approved State institutions, with a State contribution toward the payment of the mortgage installments not exceeding one-third of the total cost.

All proposals whether they be to be done by the State or by private owners must be sent by the General Committee to the Office of the Santa Fe.

For full particulars of the scheme see the relative documents.

Office of Finance Officers. All funds necessary to finance these provisions will be approved on the basis of budget estimates presented by the provincial office of the Santa Fe. In no circumstances will grants be made directly to General Committee or to private persons.

The first request for funds by the Santa Fe will refer only to work to be executed by them, and will cover the full estimated cost of the projects.

Requests for funds to defray the State contribution to private owners amounting their own repairs will be supported by a list showing the names of the owners, the present ownership and estimated cost.

No funds may be advanced for the payment of the State contribution toward the repayment of mortgage loans.

If in the opinion of the Regional Engineer Officer, any General Committee fails to take steps to arrangements to ensure for homeless persons in any locality, he may make his own proposal for the execution of urgent repairs or reconstruction. In this event such proposals will be treated as a public works project and, irrespective of cost, every project will be approved by the Public Works and Rehabilitation Committee, etc.

5. BUDGET MATRIAL

Expenditures for any work of repair or reconstruction of war damaged property is chargeable only to the budget of the Ministry of Public Works (Cassa Civile). No expenditures for such work may therefore appear in the budgets of communes or provinces.

6. CLAIMS FOR PERSONAL MATERIALS LOST OR DAMAGED BY WAR ACTION.

(a) Two classes of persons are involved;

(1) those who may prefer a claim against the Italian Government (under RUL 26 October, 1940, n. 1513).

(11) Those who are excluded from the provisions of RUL 26 October, 1940, n. 1513.

(b) Persons who have a legal claim against the Italian Government must present their claim in writing to the Intendente di Finanza as provided in Article 13 of RUL 26 October, 1940, n. 1513, using the approved Italian Government form of claim. The Intendants will be empowered to approve claims up to lire 10,000 provided he is satisfied and certifies as to the bona fides of each claim.

(c) Persons who have no legal claim may make a claim to the Sindaco, using the Italian Government form of claim. The Sindaco will be required to certify each claim in the same manner as is required of the Intendente, (see para 6 (b) above).

(d) A credit will be established by the Provincial Finance Office under capitolo 178 in the budget of the Ministry of the Treasury for "other replacements of war damaged property".

(e) The claims certified by the Sindaco will be sent to the Intendente to authorize payment against the credit established in para 6 (d).

(f) The Intendente di Finanza will furnish to the Provincial Finance Officer at the end of each month an account of claims authorized and of payments made.

As, however, little or no replacements can be purchased locally, no payment should be authorized unless clothing, etc. is known to be available. The Intendente (or Sindaco) should certify on the claims that the claimant has suffered the loss of the articles claimed.

For the Chief Commissioner:

AD E. Intendente, Cont.

Joint Director,
Finance Sub-Commission.

(b) persons who have a legal claim against the Italian Government must present their claim in writing to the Intendants of Piacenza as provided in Article 17 of Decree of October, 1946, n. 1525, using the approved Italian Government form of claim. The Intendants will be empowered to approve claim up to Lire 10,000 provided he is satisfied and satisfied as to the merit of each claim.

(c) persons who have no legal claim may make a claim to the Intendants, using the Italian Government form of claim. The Intendants will be required to certify each claim in the same manner as is required of the Intendants, (see para 6 (b) above).

(d) A credit will be established by the Provincial Finance Officer under capitolo 279 in the budget of the Ministry of the Treasury for "other replacements of war damaged property".

(e) The claims verified by the Intendants will be sent to the Intendants to authorize payment to limit the credit established in para 6 (d).

(f) The Intendants of Piacenza will furnish to the Provincial Finance Officer at the end of each month an account of claims authorized and of payments made.

As, however, little or no replacements can be purchased locally, no payment should be authorized unless clothing, etc., is known to be available. The Intendants (or Intendants) should certify on the claims that the claimant has suffered the loss of the articles claimed.

For the Chief of Administration,

Ad E. Affrey, Jr.
C.E.

Joint Director,
Piacenza Sub-Administration.

Public Works & Utilities Sub-Comm. - 20 copies.

131 10 January, 1945, n. 4.
Referred to 131 17 Nov. 1944, n. 366 for the housing of persons who have been made homeless (some notes) as a result of war actions.

MEMORANDUM FOR THE
Prime Minister
16 January 1945

By virtue of authority delegated to me,
Having considered 131 25 Jan. 1944, n. 145, as to the construction of the
Government to issue further regulations
Having considered 131 17 Nov. 1944, n. 366, which provides for the con-
struction of works for the housing of those who have become as a result of war
activities;

In cognizance of the necessity of urgent work and therefore requiring
action of the present urgency;
Upon the proposal of the Secretary of State Minister for Public Works,
In concert with the Secretary of State Minister for the Interior, Treasury,
Graces and Justice and for Planning;

We have approved and formulated as follows:

GENERAL Art. 1.

The provisions of 131 17 Nov. 1944, n. 366, and those of this decree apply
exclusively to works of first aid and of extreme urgency for the housing of
persons considered homeless inasmuch as, as to war actions, they have been left
without shelter and are obliged to live precariously in damaged quarters or in
inadequate quarters as regards the hygienic and social aspects, or, having to
move out of their country of origin, have not been able to return there for
lack of habitation.

The works which do not have the above-mentioned characteristics will be
governed by the general regulations to be issued for war damages and for building
reconstruction.

LOCAL COMPETITION AND ORGANIZING WORKS

Art. 2.

In every case in which a notable number of buildings have been damaged
by war actions, there will be organized a committee for building repairs, to be
composed of the Mayor or one of his assistants, and who will preside, and of two
members selected from qualified persons, one member from amongst the homeless and
another from amongst the war proprietors, if possible.

The Committee is to be assisted by the General Secretary and by the
General Engineer or by any other expert selected by the Municipal Board.
Besides the committee, there may be organized committees consisting of
experts of experts and belonging to one or more organizations or other interested
categories.

Art. 3.

The task of the Committee for building repairs is to act in the work in order to
reconstruct the damaged buildings.

In recognition of the necessity of urgent action and therefore requiring action of the greatest urgency;

Upon the proposal of the Secretary of State Minister for Public Works, in concert with the Ministers of the Interior, Treasury, Crown and Justice and for Planning;

We have approved and formulated as follows:

Article 1.

The provisions of the 17 Nov. 1944, No. 365, and those of this Decree apply exclusively to works of first aid and of extreme urgency for the housing of persons considered homeless inasmuch as, due to war actions, they have been left without shelter and are obliged to live previously in damaged quarters or in inadequate quarters as regards the hygienic and social aspects, or, having to move out of their quarters of origin, have not been able to return there for lack of habitation.

The works which do not have the above poignant characteristics will be governed by the general regulations to be issued for war damaged and for building reconstruction.

LOCAL CONDITIONS AND CONCRETE MEASURES

Art. 2.

In every place in which a notable number of buildings have been damaged by war action, there will be organized a Committee for building repairs, to be composed of the Mayor or one of his assistants, and who will provide, and of two members selected from Municipal Council, one member from amongst the homeless and another from amongst the war proprietors, if possible.

The Committee is to be assisted by the Technical Secretary and by the Technical Engineer or by any other expert selected by the Municipal Board.

Besides the Committee, there may also be organized consulting delegations composed of experts and technicians to assist the organizations or other interested organizations.

Art. 3.

The task of the Committee for Building Repairs is to set the work in motion, to assist the private persons, and to cooperate with the Government agencies.

For this purpose the Committee will:

- a) Point out the damaged buildings which need to be quickly repaired, according to the directions set forth in Art. 1, providing those which require a lower classification of materials or a minor use of transportation means.
- b) Submit a proposal for the direct intervention of Social Service, according to Art. 1 of the 17 Nov. 1944, No. 366.
- c) Initiate the initiation of works, so that they will carry out the work directly, making use of the benefits granted by this Decree.

- 4) Carry out a primary survey of the work needed in the buildings, which the owners have stated they intend to repair themselves.
- 5) Assist the persons concerned in finding opportunities and projects and in carrying out work;
- 6) Promote and facilitate the use of and transportation of materials and building tools.
- 7) Give attention, in the field, to housing repair activity, promoting every measure able to ensure its greatest execution.

Art. 4.

The Minister of Public Works must, to control over the transitions for Housing Services, and take care of the implementation of the provisions for the housing program, through the Civilian Councils, both provincial and municipal, located in every Province, or in groups of Provinces.

The Minister of Public Works is authorized to provide, with his own resources, to the employment of technical personnel, both temporary and permanent, and to set up detachments, or even detachments of Civilian Councils, in relation to the needs of the most damaged areas.

The coordination of services concerning the housing repair activity is entrusted - for the quickest implementation of the provisions contained in this Decree - to a central office of the Ministry, composed of one Inspector General of Civilian Councils, assisted by one General Administrative Inspector and by one Accounting Official, of a rank not lower than the 6th.

STATE CONTRIBUTION

Art. 5.

The repair of buildings, either urban or rural, who intend to carry out themselves the work foreseen by Art. 1 of this Decree, in order to obtain the State contribution, must fill in an application to the Civilian Council, through the Committee for Housing Repair.

The application must be accompanied by the project, or, where works of minor amount are involved, only by the technical estimation of the works that the owners intend to carry out, together with the statement of materials and working hours they can dispose of.

Besides that, there must be exhibited a kind of ownership, valid in accordance with Art. 1156 of Civil Code. However, for this purpose it is sufficient that the statement made before the Project by four local owners, who testify that the building is known to be such, and by a right, by the applying person, or a certificate is given in the same sense, by his own knowledge, and under his personal responsibility, to the Council, may be sufficient.

For works of repairs which cost less than over 150,000 liras, the project will be in lieu of a capital contribution, and for that the granting of a loan with a State contribution in the amount of one hundred percent, according to terms of Part 4 of Art. 2 of Decree 1544, of 1945.

Art. 6.

Art. 7.

When it appears from the investigation carried out by the Committee for Building Repairs, that small repair work is in question involving an expenditure not exceeding 50,000 liras, and the owner does not wish to have a loan, the Committee itself finances the amount of the contribution, authorizing the carrying out of work, and forwarding the instructions to the State, unless he finds irregularities or abuses, and suggests the dismissal, President of the Committee, with funds.

The payments to the persons concerned are made, in a lump sum, after completion of work, taking as a basis the rectified balance, financed by the technical expert member of the Committee.

The Simboli will give an account of the sums received, every three months.

Art. 8.

In case the amount of work surpassed the sum of 50,000 liras, the Committee can submit its recommendations, but the Simboli will decide as to the granting of the allowance as well as to the extent and procedure of payment. The work may begin while approval is pending.

The contribution may be paid in two lump sums at completion of work or, in case these amounts request it, in installments according to the progress of the work.

Art. 9.

The property of the applicant, as per provisions of 2nd para of art. 2 of Decree 17 Nov. 1944, n. 366, is to be arbitrarily valued by the Committee for building repairs and by Simboli.

Art. 10.

Upon request of proprietors, building materials or labor may be supplied in lieu of cash assistance up to the full amount of the expense.

LOANS WITH STATE CONTRIBUTIONS

Art. 11.

If, in the financing of the work, the proprietors intend to take advantage of the benefit of the loan with State contribution, they must forward their application for the sum to the appropriate Simboli, through the Committee for building repairs.

The request for the loan must be accompanied by forms indicated in art. 5.

The Simboli will, when it holds that the work to be carried out are in accord with provisions of this decree, send the request to the Institute of Credit and Finance of Simboli indicated by the applicant or to any other agency authorized.

Art. 12.

To fulfill the loan requirements of providing articles, institutions of Building Credit and Finance of Simboli Credit agencies are authorized.

In the case of building repair work, for which there are contracts in force

130

In case the amount of work surpasses the sum of 50,000 lire, the Committee can submit its recommendation, but the Genio Civile will decide as to the granting of the allowance or will as to its extent and procedure of payment. The work may begin while approval is pending.

The contribution may be paid in ten days sum at expiration of work at, in case there concerned request it, in installments according to the progress of the work.

The property of the applicant, as per provisions of End part of art. 4 of Dec. 27 Nov. 1944, n. 366, is to be arbitrarily valued by the Committee for building repairs and by Genio Civile.

Upon request of proprietors, building materials or labor may be supplied in lieu of cash allocations up to the full amount of the expense.

LOCAL PUBLIC WORKS COMMISSION

If, in the financing of the work, the proprietors intent to take advantage of the benefits of the loan with State contribution, they must forward their application for the loan to the appropriate Genio Civile, through the Committee for building repairs.

The request for the loan must be accompanied by form indicated in art. 5.

The Genio Civile, when it holds that the work is to be carried out and in accord with provisions of this Decree, sends the request to the Istituto di Credito Pubblico di Edilizia indicated by the applicant or to any other agency authorized.

To fulfill the loan requirements of preceding article, Institution of Building Credit and those of local Public Credit agencies are authorized.

In the case of building repair work, for which there are contracts in force with Institutions of Building and local Public Credit, the loan necessary for the new work will be granted, according to the provisions and benefits of this Decree, by the Institutions themselves. If, within a month from the application, the new loan is not granted, the proprietor may request the loan from another institution.

Estimates and other technical requirements will be carried out by the Genio Civile but the lending institution may introduce their own experts in individual cases.

The loans may not exceed the amount needed for the repairs or works approved by the Genio Civile except for any other extra work or improvement not necessary toward making structures habitable.

The State contribution in the payment of the redemption of mortgagable of the loan is furnished by part 4 of art. 5 of Bill 17 Nov. 1901, n. 166, and last part of art. 5 of present law, will be to the extent of one third of the amount of the redemption even if the loan is less than this amount and will be paid directly to the lending institutions.

Art. 14.

The owner of every part of the damaged building may contract the loan in his own name, and may have standing upon the other joint tenants for the necessary repairs to those parts of the structure which are in common with them.

If the property is indivisible owned by several persons and the loan is contracted in the interests of all of them, the mortgage is written up for all of them even if some of them do not participate in the loan.

Art. 15.

The mortgage drawn in favor of the credit institution is in favor against any other claim, if it is drawn for the benefit of those indicated in the mortgage, as mentioned in third part of art. 5.

If the property belongs individually to several persons and the loan has been contracted in behalf of all of them, the mortgage is made out against all the joint owners even if some of them are not included in the loan contract.

If parts of the floors of the building belong to various proprietors, the mortgage is written up for the amount of the loan against the joint owner who has contracted the loan itself, and may also be drawn up against the others, although not participating in the contract, limited to the amount that each of them must contribute in the expense of the parts in common of the structure.

The amount of the loan to be borne by each joint owner is determined, as regards the drawing up of the mortgage, and the floor or that part of dwelling pertaining to each joint owner, by the Census Office in basis of regulations of the Civil Code on the joint ownership of buildings without prejudice to the rights of the other participants.

The mortgage itself has priority over any other existing mortgage and also over privileged credits thereupon.

As regards rural structures, the mortgage may be written up for part of the land upon which the structure is situated, and which must be described in the loan.

The information which the State may communicate in relation to the beneficiaries of this measure in favor of owners of damaged structures, (as a result of war damage), and to be granted to the credit institutions, until the extinction of the debt controlled by the owners.

Art. 16.

The loans are granted following the system of partial allowances having the execution of works on the basis of the work progress or in a lump sum after completion of work.

The loans are reimbursable by means of half-yearly fixed payments in the period of time requested by the party contracting but not exceeding 40 years. The half-yearly payments include the interest, and part of capital, and the loan is repaid on behalf of the lending institution by an extent not

The mortgage loan in favor of the credit institution is in force against any other claim, if it is drawn for the benefit of those indicated in the mortgage, as mentioned in third part of art. 5.

If the property belongs indistinctly to several persons and the loan has been contracted in behalf of all of them, the mortgage is valid against all the joint owners even if some of them are not named in the loan contract.

If part of the floors of the building belong to various proprietors, the mortgage is written up for the amount of the loan against the joint owner who has contracted the loan itself, but may also be drawn up against the others, although not participants in the contract, limited to the amount that each of them must contribute in the expense of the parts in common of the structure.

The amount of the loan to be borne by each joint owner is determined, as regards the drawing up of the mortgage, and the floor or that part of building pertaining to each joint owner, by the Census Office in basis of regulations of the Civil Code on the joint ownership of buildings without prejudice to the rights of the other participants.

The mortgage itself has priority over any other existing mortgage and also over privileged credits thereon.

As regards rural structures, the mortgage may be written up for part of the land upon which the structure is situated, and which must be described in the loan.

The indemnities which the State may acknowledge in addition to the benefits of this decree in favor of owners of damaged structures, (as a result of war damage), are to be granted to the credit institutions, until the extinction of the debt contracted by the owners.

Art. 16.

The loans are granted following the system of partial allowances during the execution of works on the basis of the work progress or in a lump sum after completion of work.

The loans are repayable by means of half-yearly fixed payments in the period of time requested by the party concerned but not exceeding 10 years.

The half-yearly payments include the interest, and part of capital, the right of redemption in behalf of the lending institution to an extent not exceeding 0.5% and in case of loans granted by cash, if a special condition to be agreed upon between the institution and the borrower for the future allotment of the share.

For the collection of the half-yearly fees the institutions shall use the direct tax collection system, upon agreement with the tax collectors themselves.

Art. 17.

The loans shall be stipulated at the rate of 4% which may be revised to 5% by decree of the Ministry of the Treasury.
According to the loans granted, the institutions may issue special shares or bonds at the same rate, guaranteed by State subsidies to the issuing institutions.

Art. 18.

The provisions of the law and the regulations in force on the land credit are applicable to the loans mentioned in present decree for all questions not called for by the present decree.

Art. 19.

If, in the works of repairs, the proprietors do not abide by the terms laid down by the Commission for the building repairs or if the funds available for the contribution is not the 2nd part of art. 17 of D.L. 17 Nov. 1944, n. 366, may be revoked with the right to request the sum which has already been allowed. In the case of a loan with state contribution, the loan itself may be limited to the sum already allowed, remaining proportionately reduced also that part of the State contribution.

1. STATEMENT OF FACTS

The problem of the financing of the work of repair, replacement or reconstruction of the property has been largely met under consideration and the policy adopted for the financing is stated in the following paragraphs.

2. DEFINITION OF THE DAMAGE

The damage is defined into two categories:

- (a) Public property (including industrial property of primary importance);
- (b) Private property (including housing);
- (c) Structures for private houses and institutions;
- (d) Personal chattels (e.g. clothing, furniture, domestic appliances)...

3. FINANCIAL POLICY

An appropriation has been made in the Budget for the year to cover all expenditures on public work arising from the damage. An allotment of this appropriation has been given to each province, where there are no separate allotments, the only authorized claimants of such provinces have been covered by the Public Works and Utilization Sub-Committee, the AEC. In the territory, wherein still only is authorized for public works arising from the damage in the following circumstances:-

- (a) Products, not involving the use of critical materials and not exceeding 200,000 lire in estimated cost, approved by the Special Service, and for which budget estimates at the AEC have been approved by the International Finance Office and the Provincial Finance Office.
- (b) Products, not involving the use of critical materials, exceeding 200,000 lire but not 1,000,000 lire that, in addition, be approved by the Regional Finance Office.
- (c) Products exceeding 1,000,000 lire in estimated cost have to be approved by the Public Works and Utilization Sub-Committee, the AEC.

The purpose of the planning of the work of repair, replacement or reconstruction of war damaged territory has largely been when considered and the policy adopted for the reconstruction is stated in the following paragraphs.

2. RECONSTRUCTION OF THE TERRITORY

Reconstruction is divided into three categories:

- (a) public property (including immovable property of primary importance);
- (b) private property (including movable);
- (c) reconstruction of private houses and institutions;
- (d) personal objects (e.g. clothing, furniture, domestic animals)...

3. RECONSTRUCTION OF THE TERRITORY

198

An organization has been made in the Italian state budget to cover all expenditures on public works arising from war damage. For allocation of this appropriation has been given to the provinces that were war damaged. The organization will only be authorized when completion of work projects has been approved by the public works and Italian Reconstruction, No. 100. In the territory, projects will only be authorized for public works arising from war damage in the following circumstances:

- (a) Projects, not involving the use of original materials and not exceeding 200,000 lire in estimated cost, approved by the public works, and for which budget allocation in form R. 100, have been approved by the Italian Reconstruction and the Provincial Planning Office.
- (b) Projects, not involving the use of original materials, exceeding 200,000 lire but not 1,000,000 lire that, in addition, be approved by the Provincial Engineering Office.
- (c) Projects exceeding 1,000,000 lire in estimated cost must be approved by the public works and Italian Reconstruction, No. 100.

Authorization of projects will be individualized to each project and related to the amount of the approved estimate.

4. RECONSTRUCTION OF THE TERRITORY

In Italian Government territory a reconstruction scheme is to be introduced to provide for the repair or reconstruction of war damaged private buildings. The scheme will not apply to territory under Allied military Government at present but it will be extended to such territory as soon as it is transferred to the jurisdiction of the Italian Government. The authorization of such a scheme will be made by the Planning Office in the field, to provide for any general scheme of repair or reconstruction of private houses or public institutions. If any such scheme is to be necessary in order to provide a minimum standard level to the civilian population, it will be made the subject of a public project, and approved as stated in paragraph 3(a).

Product Information:

claim up to \$10,000 provided to be in a position to certify that the claim is to the claimant of such claim; that evidence for the work are available locally, and that no critical materials are involved.

- (a) Persons who have no legal claim may make a claim to the claimant, using the Italian Government form of claim. The claimant will be required to certify each claim in the sum money as is required of the Intendente (see item 3 (2) above).
- (d) A credit will be established by the Provisional Finance Officer under authority of the budget of the Santo Spirito, for "other expenses or replacement of war damaged property".
- (e) The claim certified by the Intendente will be sent to the Intendente to authorize payment against the credit established in item 3(d).
- (f) The Intendente di Venezia will forward to the Provisional Finance Officer at the end of each month an amount in claim authorized and of the same value.

6. CLAIMS FOR PROPERTY DAMAGED OR LOST OR DAMAGED BY WAR ACTION, BUT NOT WITHIN THE AREA OF THE CLAIMANT'S RESIDENCE.

As, however, little or no replacement can be purchased locally, no payment should be authorized unless clothing, etc., is known to be available. The Intendente (or Sindaco) should certify on the claim that the claimant has suffered the loss of the articles claimed.

7. WAR EXPENSES

Expenditures for any work of repair, replacement or reconstruction of war damaged property is chargeable only to the budget of the Ministry of Public Works (Santo Spirito). No expenditures for such work may therefore appear in the budgets of counties or provinces.
