The Ancient Monuments of ITALY.

This volume forms part I of a work produced to assist the implementing of M.A.A.F. Signal SY.171 of 10th February 1944.

Included in this part are Towns from A. to R. The second part will contain S. to Z. The most important Monuments in these Towns are listed in the pages of text and their locations annotated on the photographs. The numbers against the annotations refer to the numbers in the pages of text.

It is pointed out that only a selection, comprising what are considered to be the most important Monuments in enemy held ITALY, is given here. In all cases there are more Monuments in the Towns listed than are shown. Nearly every Italian Town contains a number of important Monuments and it would be a task of great magnitude to produce a complete list. More detailed and complete information can be obtained from the town plans issued by the Prick Art Reference Library which should be available to A-2 Sections.
