16

Reference our 20900/2/A/MFAA of 5 Jan 45.

17

1. Attached is a copy of a letter sent to this HQ from AFHQ ref CP/6532/G-1(Br) dated 10 Jan 45, a request for copies of "lists of Protected Monuments".

2. It has been pointed out before that the underlined sentence in paragraph 4 of AFHQ Admin Memo No 54 is being interpreted as a licence to consider protected monuments as sites for Allied Clubs and the like. As feared, these enquiries are likely to increase in number the latest being sponsored by a section of your HQ concerned with recreational facilities for troops.

6

3. Unless specifically directed to do so by you it is not proposed to supply HQ 3 District with these lists asked for by G-1 (Br) AFHQ.

4. Therefore the Allied Commission urgently renews its request that the amendment to Admin Memo No 54 previously recommended and concurred in by G-5 be issued without delay.

5. No separate reply has been made to the letter mentioned in paragraph 1.

Subject: Property of Historical and Educational
Importance in Italy - Preservation of.

HEADQUARTERS

A.O.M.F.

17th Feb. 44.

To: Commanders of all Formations and Units.

Concern has been caused at home by reports of damage done to property of historical and educational importance in Italy.

When I received these reports I ordered a commission to be set up to ascertain the truth in this matter. The results of the commission's investigations show that these reports of damage have been exaggerated, but at the same time establishes that a certain amount of damage has been done by thoughtlessness or carelessness, and even by a few wilfully destructive individuals.

I wish to impress on all officers how vitally necessary it is that the troops under their command behave in a manner which safeguards the good name of our armies and brings credit to their race.

As we advance further north we shall enter a part of the country where art treasures and monuments are more numerous. I therefore direct that every officer brings continually to the notice of those serving under him our responsibility and obligation to preserve and protect these objects to the greatest extent that is possible under operational conditions.

IMPORTANCE IN ITALY.

1. Attention is directed to the personal letter to all Commanders issued by the GOC-in-C dated 17 Feb 44.

amount of damage has been done by thoughtlessness or carelessness, and even by a few wilfully destructive individuals.

I wish to impress on all officers how vitally necessary it is that the troops under their command behave in a manner which safeguards the good name of our armies and brings credit to their race.

As we advance further north we shall enter a part of the country where art treasures and monuments are more numerous. I therefore direct that every officer brings continually to the notice of those serving under him our responsibility and obligation to preserve and protect these objects to the greatest extent that is possible under operational conditions.

HQ A.I. (ADMINISTRATION)

ADMINISTRATION NO. 10

6112

PRESERVATION OF PROPERTY OF HISTORICAL OR EDUCATIONAL
IMPORTANCE IN ITALY.

1. Attention is directed to the personal letter to all Commanders issued by the GOC-in-C dated 17 Feb 44 on the above subject. The following instructions are issued as a guide to Commanders and in amplification of the letter above referred to.
2. Tactical considerations must obviously influence the occupation of historical buildings etc. during actual fighting, but a rigid control over such occupation will be imposed by Commanders as soon as fighting has ceased.
3. It is not proposed to forbid the occupation by troops of any specific buildings except that churches will NOT be used for normal troop accommodation. In cases of extreme necessity churches may be used temporarily to shelter wounded personnel awaiting evacuation. This authority is

RESTRICTED

not to be interpreted that they may be used as Casualty-Clearing Stations or Hospitals. The responsibilities for decision as to whether an historical building is to be occupied or not is delegated to Commanders, not below the rank of Divisional Commander or officer of equivalent status, except that during actual fighting, in cases of extreme operational urgency, lower Commanders may have to act.

To assist Commanders in their decisions AGC/AGC have prepared lists of the principal historical monuments, deposits of important documents (archives), and artistic treasures of Italy, with the degree of their importance indicated by stars. These lists will be known as "Lists of Protected Monuments" and will supersede the lists printed in the Zone Handbook of Italy, and AFHQ General Order No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy references these Lists are printed in sections on a regional basis, and will be issued by AGC/AGC of command as follows:-

(a) In Africa, independent formations, Districts and Base sections will send sufficient copies new to hold a complete set of them. AGC/AGC to issue to the undermentioned these sections which affect their areas of occupation or administrative control:-

II. Corps	AGC/AGC
III. Divisions	Town & Areas
IV. Areas	Real Estate Officers.

(b) It will be the responsibility of AGC/AGC, independent formations, District or Base section commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent units.

Attached as Appendix 1 to this Instruction, as a guide for demanding, is an index showing the subdivision of the Lists by areas.

5. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate commander as laid down in paragraph 3 above.
6. As by far the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.
7. Whenever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that AGC/AGC are informed at the earliest opportunity and that every reasonable precaution is taken to prevent carelessness or wilful damage and especially

be known as "Lists of Protected Monuments" and will supersede the lists printed in the Zone Handbook of Italy, and AMHQ General Order No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy references these lists are printed in sections on a regional basis, and will be issued by JSC/140 on demand as follows:-

(a) HQ Armies, independent formations, Districts and Base sections will demand sufficient copies now to hold a complete set at their disposal to issue to the aforementioned these sections which affect their areas of occupation or administrative control:-

HQ Corps	HQ Sub Areas
HQ Divisions	Town Majors
HQ Areas	Real Estate Officers.

(b) It will be the responsibility of Army, independent formations, District or Base-section commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent units.

Attached as Appendix 4 to this Instruction, as a guide for demanding, is an index showing the subdivision of the Lists by areas.

5. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate commander as laid down in paragraph 3 above.
6. As by far the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.
7. Whenever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that JSC/140 are informed at the earliest opportunity and that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, as will also all unnecessary entrances from outside whether to the occupied or unoccupied parts. Notice boards will be erected, and all troops billeted in the building will be issued with passes and will be the only troops permitted to enter.

Responsible Italian officials will, if available, be consulted when such measures are being considered.

RESTRICTED

Partial occupation of a large historical building, i.e. the occupation of only a small corner, or occupation by troops of more than one Allied Nation will be avoided wherever possible. In the past buildings so occupied have suffered a high proportion of loss and damage, not necessarily attributable to the occupying unit(s).

9. ACC/AME has a staff of officers with expert knowledge of such matters who should be consulted in all cases of doubt. Where such officers rule that specific items o.g. of furniture should be included in those stored separately, their ruling will be binding subject to the right of appeal of the occupying unit to this HQ through the normal channels.

10. In addition to the monuments etc. mentioned in the lists, there are known to exist repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are not at present known; when found they are to be regarded as starred monuments, and their location reported.

11. In the case of written paper and books it is to be noted that even those which do not appear to be ancient may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Casual destruction or dispersal of such collections, wherever found, will not be permitted.

12. All Occupation and Administrative Orders involving the occupation of territory containing historical buildings will contain clear and specific instructions to troops on the lines indicated in this instruction.

NOTE

In accordance with H. 441 (ADM MONUM) ADM INSTRUCTION No. 10 dated 30 March '44, the following lists include the principal historical monuments and art treasures of the Italian regions of SARDINIA and SICILY. Monuments are listed under the towns in which they lie, the towns being arranged alphabetically within the particular region. The name of the town is followed by the abbreviated name of the province, in parentheses, and by the grid reference to the 1:200,000 maps. One, two, or three asterisks indicate the degree of importance of the monument.

The Sub-Commission for Monuments, Fine Arts and Archives of AGC/AFG will, upon application, provide additional material that is more detailed than the present lists, which contain only the more important monuments. Although churches will NOT be used for normal troop accommodation, certain of these are included here because of their monumental importance and / or their artistic and historical contents.

RESTRICTED

Subject: Property of Historical and Educational
Importance in Italy - Preservation of.

HEADQUARTERS

A.C.M.F.

17th Feb. 44

To: Commanders of all Formations and Units.

Concern has been caused at home by reports of damage done to property of historical and educational importance in Italy.

When I received these reports I ordered a commission to be set up to ascertain the truth in this matter. The results of the commission's investigations show that these reports of damage have been exaggerated, but at the same time establishes that a certain amount of damage has been done by thoughtlessness or carelessness, and even by a few wilfully destructive individuals.

I wish to impress on all officers how vitally necessary it is that the troops under their command behave in a manner which safeguards the good name of our armies and brings credit to their regiments.

As we advance further north we shall enter a part of the country where art treasures and monuments are more numerous. I therefore direct that every officer brings continually to the notice of those serving under him our responsibility and obligation to preserve and protect these objects to the greatest extent that is possible under operational conditions.

HQ A.I. (A.I. DELEGAT)

A.I. INSTRUCTION NO. 10

PRESERVATION OF PROPERTY OF HISTORICAL OR EDUCATIONAL
IMPORTANCE IN ITALY.

1. Attention is directed to the personal letter to all Commanders issued by the GOC-in-C dated 17 Feb 44 on the above subject. The following instructions are issued as a guide to Commanders and in amplification of the letter above referred to.
2. Tactical considerations must obviously influence the occupation of historical buildings etc. during actual fighting, but a rigid control over such occupation will be imposed by Commanders as soon as fighting has ceased.
3. It is not proposed to forbid the occupation by troops of any specific buildings except that churches will NOT be used for normal troop accommodation. In cases of extreme necessity churches may be used temporarily to shelter wounded personnel awaiting evacuation. This authority is

RESTRICTED

not to be interpreted that they may be used as Casualty Clearing Stations or Hospitals. The responsibilities for decision as to whether an historical building is to be occupied or not is delegated to Commanders, not below the rank of Divisional Commander or officer of equivalent status, except that during actual fighting, in cases of extreme operational urgency, lower Commanders may have to act.

To assist Commanders in their decisions JOC/123 have prepared lists of the principal historical monuments, deposits of important documents (archives), and artistic treasures of ITALY, with the degree of their importance indicated by stars. These lists will be known as "Lists of Protected Monuments" and will supersede the lists printed in the Zone Handbook of Italy, and JFHQ General Order No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy references these lists are printed in sections on a regional basis, and will be issued by JOC/123 on demand as follows:-

(a) HQ Armies, independent formations, Districts and Base sections will send sufficient copies now to hold a complete set at their HQ and to issue to the unmentioned these sections which affect their areas of occupation or administrative control:-

HQ Corps	HQ sub areas
HQ Divisions	Down Majors
HQ Areas	Real Estate Officers.

(b) It will be the responsibility of Army, independent formations, District or Base section commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent units.

Attached as Appendix 1 to this Instruction, as a guide for demanding, is an index showing the subdivision of the lists by areas.

5. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate commander as laid down in paragraph 3 above.
6. As by far the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.

7. Whenever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that JOC/123 are informed at the earliest opportunity and that every reasonable precaution is taken to prevent

No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy references these lists are printed in sections on a regional basis, and will be issued by JCG/IG on demand as follows:-

- (2) HQ Armies, independent formations, Districts and Base sections will send sufficient copies now to hold a complete set at their HQ and to issue to the unmentioned those sections which affect their areas of occupation or administrative control:-

HQ Corps	HQ sub areas
HQ Divisions	Town Majors
HQ Areas	Real Estate Officers.

- (b). It will be the responsibility of Army, independent formations, District or Base section commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent units.

Attached as Appendix 1 to this Instruction, as a guide for demanding, is an index showing the subdivision of the Lists by Areas.

5. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate commander as laid down in paragraph 5 above.
6. As by far the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.

7. Whenever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that JCG/IG are informed at the earliest opportunity and that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, as will also all unnecessary entrances from outside whether to the occupied or unoccupied parts. Notice boards will be erected, and all troops billeted in the building will be issued with passes and will be the only troops permitted to enter.

Responsible Italian officials will, if available, be consulted when such measures are being considered.

RESTRICTED

8. Partial occupation of a large historical building, i.e., the occupation of only a small corner, or occupation by troops of more than one Allied Nation will be avoided wherever possible. In the past buildings so occupied have suffered a high proportion of loss and damage, not necessarily attributable to the occupying unit(s).
9. AGO/AG has a staff of officers with expert knowledge of such matters who should be consulted in all cases of doubt. Where such officers rule that specific items e.g., of furniture should be included in those stored separately, their ruling will be binding subject to the right of appeal of the occupying unit to this HQ through the normal channels.
10. In addition to the monuments etc., mentioned in the lists, there are known to exist repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are not at present known: when found they are to be regarded as starred monuments, and their location reported.
11. In the case of written paper and books it is to be noted that even those which do not appear to be ancient may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Casual destruction or disposal of such collections, wherever found, will not be permitted.
12. All Operation and Administration Orders involving the occupation of territory containing historical buildings will contain clear and specific instructions to troops on the lines indicated in this instruction.

/s/ B. H. Robertson

Major General,
Chief Administrative Officer.0

Lucania | 5. Liguria and Piedmont |
| 3. Abruzzi and Lazio | 6. Emilia and Lombardia |
| | 7. Le tre Venezie |

NOTE

In accordance with HQ AAI (ADM BELLON) ADM INSTRUCTION No. 10 dated 30 March '44, the following lists include the principal historical monuments and art treasures of the Italian regions of APULIA, CALABRIA, CAMPANIA and LUCANIA. Monuments are listed under the towns in which they lie, the towns being arranged alphabetically within the particular region. The name of the town is followed by the abbreviated name of the province, in parentheses and by the grid reference to the 1:200,000 maps. One, two, or three asterisks indicate the degree of importance of the monument.

The Sub-Commission for Monuments, Fine Arts and Archives of ACC/MAG will, upon application, provide additional material that is more detailed than the present lists, which contain only the more important monuments. Although churches will NOT be used for normal troop accommodation, certain of these are included here because of their monumental importance and/or their artistic and historical contents.
