Subject: Rocca della Caminate.

To : SAC 8th Army, (attn. MSAA Officers).

1. A report is requested at your earliest convenience on the state of the personal and family archives of "uscolini" at ROCCA DELLA CAMINATE near FROSINONE. These are, as already notified by Cpt. Brooke, likely to be of very first historical importance, and reports are already circulating in the Italian press purporting to show that they are in a condition of considerable neglect. A copy of one such report is attached.

2. While I am sure that such reports are exaggerated, I should be glad to receive assurance that all measures were in fact taken at the earliest possible opportunity to prevent damage by G-2 agents, by troops, and by civilians.

To : G-5 Section, AFHQ, attn. Lt. Col. T.B. Jackman

Ref. your G-5:313.3-1 of 27 Aug 44 the following information is supplied by the Subcommittee for Monuments Fine Arts and Archives:

1. The general condition of the Archives of the Central Ministries has been dealt with in the Monthly reports of the Archives Officer, Region IV, for June and July. Copies of those reports are attached herewith.

2. A copy is also attached of the list of places in northern Italy containing Ministerial Archives removed from Rome. In view of the tactical situation of the War and the urgency of arranging for the safety of these deposits the list was immediately passed to G-2 Advanced Intelligence AFHQ. A small amount of additional information (e.g. more precise addresses in certain cases) is being collected.

3. A full report on this class of Archives is not in course of preparation and will depend on other commitments. The following Ministries have supplied detailed lists of their documents remaining in Rome:

Ministero dell'Aeronautica.
Ministero della Guerra.
Ministero della Marina.
Ministero della Giustizia.
Ministero dei Lavori Pubblici.

Similar lists are in course of preparation but the policy has been to press only for information as to the whereabouts of Archives

Similar lists are in course of preparation but the policy has been to press only for information as to the whereabouts of Archives carried away to the north. To acquire even this has entailed constant reminders by circular, telegram and personal visit; individual Ministries have been slow to reply owing to an apparent belief that nothing like a complete list could be obtained. The assistance given by the Capo del Gabinetto, Presidente del Consiglio (Eccellenza Flores) and the Soprintendente of Archives (Comm. Dott. Re) has greatly helped to overcome this difficulty.

Monuments, Fine Arts and Archives.

49. Monuments and Fine Arts. Fine Arts situation in ROME City very good. Almost no war damage. Church of S. Lorenzo seriously damaged by bombing in July 1943; repairs are in progress under direction of Superintendent of Monuments, but hampered by lack of materials.

50. Archives. A general policy of removal to the North of the majority of the more important recent Archives was carried out by all Ministries before the arrival of the Allies in ROME. In the Ministry of Foreign Affairs very little remains for the period 1933/43. Regarding the Ministry of Justice, it is reported that the legal records were bombed and in large part destroyed en route North. In spite of these removals the amount remaining in the various Ministries was so large that the plans laid for the exploitation of the Archives for intelligence purposes could not be carried out. In the return intact of all evacuated documents an important preliminary is the preparation by individual Ministries of a comprehensive statement with exact lists of missing classes, files etc. This is being done.

Subject: Archival Problems.

To : G-5, AFMA.

1. With reference to your G-5: 313.3-4 of 28 July, the following report is submitted. The specific questions asked in General Harding's letter are answered serially in the following paragraphs.

2. Advance determination of the whereabouts of Archives of importance.

This is covered in three ways:-

a. By the use of "Brief Memorandum and List of Italian Archives" compiled by Mr. Hilary Jenkinson of the Public Record Office, London and by Capt. Brooke of the AFMA Subcommission. This lists more than 1500 repositories and is in the hands of AFMA Officers in the Field and of all Regional and Provincial Commissioners.

b. By close liaison with G-2 Advanced Intelligence **4070**

c. By close liaison with the Italian Ministries and with Superintendent of the Archivio del Regno, Com. Re, at Rome.

3. Guarding of Archives.

a. In the case of locations especially important for modern archives, such as Rome and Florence and certain of the North Italian cities, where detailed planning is practicable, it has been the function of "G" Force Advanced Intelligence, advised by the AFMA Archives Officer, to arrange for the necessary guards. In the case of Rome this worked very well.

2. Advance determination of the whereabouts of Archives of importance.

This is covered in three ways:-

a. By the use of "Brief Memorandum and List of Italian Archives" compiled by Mr. Hilary Jenkinson of the Public Record Office, London and by Capt. Brooke of the MPAA Subcommission. This lists more than 1500 repositories and is in the hands of MPAA Officers in the Field and of all Regional and Provincial Commissioners.

b. By close liaison with G-2 Advanced Intelligence **4070**

c. By close liaison with the Italian Ministries and with Superintendent of the Archivio del Regno, Gen. Re, at Rome.

3. Guarding of Archives.

a. In the case of locations specially important for modern archives, such as Rome and Florence and certain of the North Italian cities, where detailed planning is practicable, it has been the function of "G" Force Advanced Intelligence, advised by the MPAA Archives Officer, to arrange for the necessary guards. In the case of Rome this worked very well.

b. In the field, MPAA Officers advise ^{on} the guard matters of protection. OFF LITING signs are posted at the earliest possible moment and steps taken to secure archive-repositories against entry. Only exceptionally are guards available, but in no known instance has their absence resulted in any loss.

4. Passes to Archival Deposits.

"G" Force Passes are required in the case of important repositories under guard. In cases where there is no guard (in some branches of the 18 Central Ministries alone run into hundreds), no system of passes is of course practicable. Such repositories are covered by the terms of All Administrative Instruction No. 10, para 11.

5. Registry of Documents Received.

SECRET

A register is kept by the Documents Section of G-2 ARHQ, through whom all documents removed for intelligence purposes pass.

6. Division of Responsibilities

a. Mr. Shyman's recommendation has not been put into effect owing to the non-arrival of the American Archivist on-site, as a result of establishment difficulties, the nature of which was fully explained to Mr. Shyman when he was here. It is understood these difficulties have now been overcome, (see below).

b. Mr. Shyman's nominee will be employed as indicated. It is remarked however that such rigid delimitation of responsibilities as is proposed in Mr. Shyman's report has not in general proved very practicable and that the new officer may be glad of the help of his British Archival colleagues, one of whom has very ably handled the current Administrative Archives of Rome, and of the RMA Officers in the field.

7. The archivists at present on the Staff of the RMA Subdivision are:

a. Capt. J. H. Brooker (R).

1932-36 Magdalen College, Oxford; 10 Dec 37 - 16 July 42 (Asst. of entrance into Army) Asst. Keeper of the Public Records, H.M. Public Record Office. At present Archivist Officer for Home City and adviser to H. A.O.

b. Capt. R. H. Ellis (R).

- a. Capt. J.H. Hodgkin (B).
1932-36 Magdalen College, Oxford; 10 Dec 57 - 16 July 42 (date of entrance into Army) Asst. Keeper of the Public Records, H.M. Public Record Office. At present Archives Officer for Rome City and adviser to H. ACC.
- b. Capt. R.H. Hall (B).
Scholar, King's College, Cambridge, 1929-33; since 1 Jan 34 Asst. Keeper of the Public Records, H.M. Public Record Office. Active military service since 1939. At present attached to AMB, 3rd Army.

8. Capt. William D. McLean (A). On 29 July 44 G-5 AMB, ref G-5: 224 McLean, Sr. D (O), requested Hq. 2673 Civil Affairs Regt. to issue orders placing Capt. McLean on 7/D with ACC (2675 Regt.) as soon as orders assigning him, as an adviser, to 2673 Regt. would be issued.

SUBJECT: Archives at Gubbio.

TO : SCAO AMG 8th Army, (attn. MFAA Officers).

1. The Archivio Comunale at Gubbio should contain six (6) Imperial Diplomas of Frederick I and Frederick II, (two (2) with Gold Seals). These documents are of very special importance and it is known that German Scholars recently in Italy were interested in them. It would be advisable to confirm their safety at an early date. The Bishop of Gubbio is likely to have information.

Subject: Archives at Trapani

To : Provincial Commissioner, Trapani Province,
ACC. Region I.

The Prefect's report on three collections of Archives in the City of Trapani enclosed with your letter of 11 May (P.C. - 7070 - PC) herewith acknowledged.

This report does not cover the Biblioteca Fardelliana where a number of the earlier Archives of the Comune are preserved. This building when visited recently by two members of the Sub-Commission, Mr. Hilary Jenkinson and Capt. Brooke, was in need of minor structural repairs, particularly to the roof. In addition there appeared to be no responsible person officiating as Librarian. A number of Archives, which had been damaged by rain water were in urgent need of attention (removal from the shelves and opening out to dry). There are a number of valuable books, including some incunabula (books printed before 1500) in similar danger.

A copy of a report with details of these circumstances was forwarded to you on 9 May and this pointed out that the first-aid work required on these Archive was not of an extensive character. It is therefore hoped that you may be able to use your influence with the Prefect to secure the necessary repairs to the building and, it not too late, the salvation of the sodden documents from total destruction.
