Provincia di Napoli (Province of Naples)

PLAN & 2 maps

Napoli (Naples) Capital of the Province.

Chiese (Churches)

- 2 X X Cattedrale (Cathedral) Dedicated to San Gennaro (St. Januarius), patron saint of Naples. In the Cappella (Chapel) di San Gennaro, also the Tesoro (Treasury) of the Cathedral are the relics of the saint, two small vessels containing his blood. Three times a year there takes place a ceremony at which the saint's blood liquifies; the first Saturday in May at the Church of Santa Chiara, and September 19th and December 16th at the Cathedral. These ceremonies draw enormous crowds. In popular belief rapid liquification of the blood is a good omen for Naples, while a slow liquification, or none at all, is a bad one.

X Chiesa di Sant'Angelo a Mulo. (Church of St. Angelus on the Mule): Tomb by Michelozzo and Donatello.

" dell'Annunziata (Church of the Annunciation).

" dell'Ascensione (Church of the Ascension)

2 X X " di Santa Chiara (Church of Santa Clara): noteworthy XIV century tombs. First Saturday in May, liquification of the blood of St. Januarius. See above under Cattedrale.

2 X " di San Domenico Maggiore. (Church of St. Dominic Major): noteworthy tombs.

" di San Filippo Neri. (Church of St. Filippo Neri): Baroque paintings.

" di San Gennaro (Church of St. Januarius).

" del Gesù Nuovo (Trinità Maggiore) Church of Jesus or Trinity Major: Good Frescoes.

" di San Giacomo degli Spagnuoli. Church of St. James of the Spaniards: Baroque paintings.

" di San Giorgio Maggiore (Church of St. George Major): original structure of the IV century.

di Sant'Antonio: important

Subject: PROPERTY OF HISTORICAL AND EDUCATIONAL
IMPORTANCE IN ITALY — PRESERVATION OF.

17th Feb. 44

HEADQUARTERS, A.C.M.F.

To:

Commanders of all Formations and Units.

Concern has been caused at home by reports of damage done to property of historical and educational importance in Italy.

When I received these reports I ordered a commission to be set up to ascertain the truth in this matter. The results of the commission's investigations show that these reports of damage have been exaggerated, but at the same time establishes that a certain amount of damage has been done by thoughtlessness or carelessness, and even by a few wilfully destructive individuals.

I wish to impress on all officers how vitally necessary it is that the troops under their command behave in a manner which safeguards the good name of our armies and brings credit to their race.

As we advance further north we shall enter a part of the country where art treasures and monuments are more numerous. I therefore direct that every officer brings continually to the notice of those serving under him our responsibility and obligation to preserve and protect these objects to the greatest extent that is possible under operational conditions.

H. R. ALEXANDER
GENERAL, COMMANDER-IN-CHIEF.

HQ AAI (ADM ECHELON)
ADM INSTRUCTION No. 10

**PRESERVATION OF PROPERTY OF HISTORICAL
OR EDUCATIONAL IMPORTANCE IN ITALY.**

1. — Attention is directed to the personal letter to all Commanders issued by the GOC-in-C dated 17 Feb 1944 on the above subject. The following instructions are issued as a guide to Commanders and in amplification of the letter above referred to.

2. — Tactical considerations must obviously influence the occupation of historical buildings etc. during actual fighting, but a rigid control over such occupation will be imposed by Commanders as soon as fighting has ceased.

3. — It is not proposed to forbid the occupation by troops of any specific buildings except that churches will NOT be used for normal troop accommodation. In cases of extreme necessity churches may be used temporarily to shelter wounded personnel awaiting evacuation. This authority is not to be interpreted that they may be used as Casualty Clearing Stations or Hospitals. The respon-

sibilities for decision as to whether an historical building is to be occupied or not is delegated to Commanders, not below the rank of Divisional Commander or officer of equivalent status, except that during actual fighting, in cases of extreme operational urgency, lower Commanders may have to act.

4. — To assist Commanders in their decisions ACC/AMG have prepared lists of the principal historical monuments, deposits of important documents (archives), and artistic treasures of ITALY, with the degree of their importance indicated by stars. These lists will be known as «Lists of Protected Monuments» and will supersede the lists printed in the Zone Handbook of Italy, and AFHQ General Order No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy reference these Lists are printed in sections on a regional basis, and will be issued by ACC/AMG on demand as follows:

(a) — HQ Armies, independent formations, Districts and Base sections will demand sufficient copies now to hold a complete set at their HQ and to issue to the undermentioned those sections which affect their areas of occupation or administrative control:

HQ Areas	HQ Sub Areas
HQ Divisions	Town Majors
HQ Corps	Real Estate Officers.

(b) — It will be the responsibility of Army, independent formations, District or Base section Commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent Units.

Attached as Appendix A to this Instruction, as a guide for demanding, is an index showing the subdivision of the Lists by areas.

5. — All buildings listed in the «Lists of Protected Monuments» will be deemed «historical buildings» and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate Commander as laid down in paragraph 3 above.

6. — As by far the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of Commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.

7. — Whenever it is found essential for operational reasons to occupy any such buildings, the Commander of the occupying troops will be responsible for seeing that ACC/AMG are informed at the earliest opportunity and

that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, as will also all unnecessary entrances from outside whether to the occupied or unoccupied parts. Notice boards will be erected, and all troops billeted in the building will be issued with passes and will be the only troops permitted to enter.

Responsible Italian officials will, if available, be consulted when such measures are being considered.

8. — Partial occupation of a large historical building, i.e. the occupation of only a small corner, or occupation by troops of more than one Allied Nation will be avoided wherever possible. In the past buildings so occupied have suffered a high proportion of loss and damage, not necessarily attributable to the occupying unit(s).

9. — ACC/AMG has a staff of officers with expert knowledge of such matters who should be consulted in all cases of doubt. Where such officers rule that specific items e.g. of furniture should be included in those stored separately, their ruling will be binding subject to the right of appeal of the occupying unit to this HQ through the normal channels.

10. — In addition to the monuments etc. mentioned in the lists, there are known to exist repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are not at present known: when found they are to be regarded as starred monuments, and their location reported.

11. — In the case of written papers and books it is to be noted that even those which do not appear to be ancient may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Casual destruction or dispersal of such collections, wherever found, will not be permitted.

12. — All Operation and Administrative Orders involving the occupation of territory containing historical buildings will contain clear and specific instructions to troops on the lines indicated in this instruction.

(signed) B. H. ROBERTSON
Major General,
Chief Administrative Officer.

APPENDIX A

LIST OF REGIONAL SECTIONS.

1. Sardinia and Sicily
2. Apulia, Calabria, Campania, Lucania
3. Abruzzi and Lazio
4. Le Marche, Toscana, Umbria
5. Liguria and Piedmont
6. Emilia and Lombardia
7. Le tre Venezie

NOTE

In accordance with HQ AAI (ADM ECHELON) ADM INSTRUCTION No. 10 dated 30 March '44, the following lists include the principal historical monuments and art treasures of the Italian regions of EMILIA and LOMBARDIA. Monuments are listed under the towns in which they lie, the towns being arranged alphabetically within the particular region. The name of the town is followed by the abbreviated name of the province, in parentheses, and by the grid reference to the 1:200,000 maps. One, two, or three asterisks indicate the degree of importance of the monument.

The Sub-Commission for Monuments, Fine Arts and Archives of ACC/AMG will, upon application, provide additional material that is more detailed than the present lists, which contain only the more important monuments. Although churches will NOT be used for normal troop accomodation, certain of these are included here because of their monumental importance and/or their artistic and historical contents.

CULTURAL MAPS FOR ITALY

The submitted list of 168 "Cultural Maps" of Italian cities, towns, and sites prepared at the Frick Art Reference Library, New York City, by the Committee of the American Council of Learned Societies for the Protection of Cultural Treasures in War Areas is based largely upon the Table of Contents of Civil Affairs Handbook, Section 17: Supplement on Cultural Institutions etc. (Army Service Forces Manual # 553-17), HQ Army Service Forces, January 1944, and includes all such maps known to the Subcommission.

The 16 maps issued for Sicily are not included or referred to, in the a/m Manual; the symbol * is placed against their titles in the present list. The * indicates that the actual map is reproduced in the Manual (Part I)--96 cases. In the other instances, 66 in number, the Manual (Part II) reproduces only the lists of monuments, institutions, and institutional personnel which in the original photostats are supplied marginally. Included in the count of 168 are the 6 maps of Italian cities enumerated at the end of the list, but no account is taken here of a large map marking sites in NW Yugoslavia nor of the maps for Corsica (Ajaccio, Bastia) and Greece (20 in number).

Where the name of a city or town differs from that of its province, the name of the province is added in parenthesis. The indication of province on the maps themselves is in some cases wanting, in others in error or out of date.

The subjoined list of 168 "Cultural Treasures" of Italian cities, by the and sites prepared at the Frick Art Reference Library, New York City, by the Committee of the American Council of Learned Societies for the Protection of Cultural Treasures in War Areas is based largely upon the Table of Contents of Civil Affairs Handbook, Section 17: Supplement on Cultural Institutions, January 1944, and includes all such maps known to the Subcommittee.

The 16 maps issued for Sicily are not included or referred to, in the 4/m Manual; the symbol + is placed against their titles in the present list. The + indicates that the actual map is reproduced in the Manual (Part I)-86 cases. In the other instances, 66 in number, the Manual (Part II) reproduces only the lists of monuments, institutions, and institutional personnel which in the original photographs are supplied marginally. Included in the count of 168 are the 6 maps of Italian cities enumerated at the end of the list, but no account is taken here of a large map marking sites in NW Yugoslavia nor of the maps for Corsica (Ajaccio, Bastia) and Treviso (20 in number).

Where the name of a city or town differs from that of its province, the name of the province is added in parentheses. The indication of province on the maps themselves is in some cases wanting, in others in error or out of date.

12th January 1944

1. Since the issue of MS/601/68 of 10 Jan 44, a further directive has been received from A.F.H.Q. stating that in future Military Government Section will notify names of places for which special protection is desired. They will be given serial numbers.
2. Places notified to date have been given Nos. 1 - 6 and are listed on attached sheet.
3. Please state how many of these sheets you require. Region III will not reply to this para, as it is unlikely that it will have any interest in names to be sent in the future.
