SECRET.

1. Reference is threatened strike.

2. FIORIO Commissioner UNIONE INDUSTRIALI reports that industrialists meet this afternoon to decide on attitude towards strike which they consider breach of faith because of workers undertaking to abstain from such action pending negotiation and also because workers are so far not out of pocket as anticipatory payments already made cover to date advance of wages being negotiated.

3. Most serious objection is to demand for further 2000 lire a sum much in excess of amount required to accomodate workers pending settlement next week.

4. Lock out of 1 hour by TURIN industrialists has been suggested buf FIORIO will endeavour to dissuade them from taking such action and instead will try to clarify position in as far as 2000 lire demand is concerned in hope of reaching basis acceptable both to industrialists and workers. present suggestions are that industrialists should make advance of 2000 lire in respect of each worker to establish co-operative societies to purchase food in bulk for workers or that 2000 lire should be an advance on 13th month payment.

969

5. Every effort is being made to exert moderating influence but it is imperative that settlement be no longer delayed as workers demands are likely to get further out of hand.

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. It is suggested that Minister declare his intentions regarding CASSA INTEGRAZZIONE immediately and arrange that industrialists meet workers either in ROME or in the north in order that wage negotiations may be concluded this week.

7. Although position occasions concern it is anticipated that strike will be conducted in orderly manner and will not exceed 1 hours

Since despatching same instructions have been received by me from MMAA to the effect that 5 trains each way are now authorised on MILAN PIACENZA line. This worsens the situation as now half of the workers can be carried and the other half will be more furious than ever. I have further instructed engineer MACRI that he will be reinstitute the full service. The situation is sufficiently serious for me to take this action. If they remain adamant that only 5 trains each way are to run then they must take full responsibility for riots which certainly will continue. There is no need whatsoever to cancel this essential service.

Ref basic wage scales divergence mainly centres on women's wages in textile industry. Between labour claims and industrial offers there exists discrepancy of about 5 litre hourly. Discrepency respecting men's wages vary from 1 to 2 litre hourly for spectalised workers and even less for common labour.

4. Have advised FIORIO firstly to ascertain that doors be kept open for further negotiations on inter regional basis and eventually on provincial. Secondly to endeavour obtain inter regional approval all points of common accord leaving for provincial action only points of divergence.

5. Unfortunate stumbling block to even inter regional agreement on basic wages scales has arisen through persuasive action of MILAN industrial representatives at meeting of confi(?) industria held MILAN yesterday in absence of PIEMONTE representatives. 1. Subject is wage negotiations in progress here for north ITALY.

2. Negotiations todays suffered temporary setback upon receipt of news that under proposed draft decree to replace decree number 523 CASSA INTERGRAZIONE would only meet employers reimbursement claims for unworked time from 24 hours upwards. Instructions to this effect were received by TORINO PREVIDENZA INSTITUTE from their ROME Headquarters.

3. Industrial representatives attending present wage conference assert that this is contrary to agreement reached by employers and employees in ROME with approval of Italian Government. They are reluctant to proceed with wage discussions both because of extra financial bruden involved and because any misinterpretation of clause 5 of ROME agreement would amount to breach offaith.

4. Meeting has signaled PARRI BARBARESCHI RUINI to obtain redress and negotations continue only on assumption that aforementioned limitation of reimbursements will be rescinded.

5. As negotations might be jeopardised by lack of clarification signal earliest possible reliable information on present position reference this point in the light of pending draft decree. 937

1. Reference your signal 6948 of 12 October.

2. FIOM and AIDA are trade union organisations on provincial and national basis representing respectively workers and employees in engineering and metal industry.

3. All workers in metal mechanical industry in TORINO Province are in fact getting base pay quoted in my earlier signal.

4. The situation is one in fact and not in law for TORINO Province since RIJAC considered inadvisable recommending formal approval of an agreement signed by AIDA which ceased to exist soon after.

5. Basic wage trend approaching 15 lire hourly in most provincial agreements for industry particularly metal mechanic. Metal workers provincial agreements in ALESSANDRIA and ASTI about to receive approval by Regional Commissioner are on lines of aforementioned TORINO agreement similarly for COGNE and IISSA VICLA workshops of ACSTA. In VERCELLI and ASTI Province most industrial agreements like paper making building metal mechanical reach out for 15 lire hourly in respect of grade on specialised.

VENEZIA GIULIA and UDINE.

1. Cable TAC 690 has been received from C.C.S. advising that civilian supplies for VENEZIA GIULIA and UDINE Provinces will remain a military responsibility and that AFHQ would continue to be responsible for supplies in theatre.

2. Requirements given in ALCOM letter 20.02/SE of 24 August were forwarded by AFHQ to C.C.S. in MAT 689 with a statement that these requirements had already been anticipated in ALCOM requisitions (CCS-ACC series) for period September-December loadings. CCS advise however that they propose to supply these requirements through military channels and that advice of loadings will be sent later.

3. Meanwhile ALCOM will arrange to set aside from Italian Government stocks required supplies for these areas and such supplies as are ultimately shipped by military authorities as result of action in para 2 will be used for replacement to extent that AMG has drawn on Italian Government stocks. Any balance will be applied against future VENEZIA GIULIA and UDINE requirements. Future ALCOM requisitions will be adjusted ~~resources~~ accordingly.

4. AMG VENEZIA GIULIA and UDINE will coordinate fully with ALCOM in distribution of supplies and planning of future requirements to secure maximum utilisation of Italian resources.

5. It is requested that AMG VENEZIA GIULIA and UDINE submit by 12 October in coordination with and through ALCOM to this HQ monthly requirements for the 6 month period beginning January 1946. These requirements will not vary from scales laid down for NORTHERN ITALY and it is presumed that they will closely approximate to those already submitted for September-December.
