Office of the Executive Commissioner

14 January 1946

TEL. : 439031 - 204.
REF. : LSC/111
SUBJECT : Reports on Labour Matters
TO : See Distribution List Below

1. With the closure of Labour Divisions in the North, and the winding up of Labour Sub-Commission shortly the Labour Attaches at the American and British Embassies will advise AFHQ on Labour questions, and it will be necessary to keep them informed of developments.

2. The Chairman of the new Allied Force Wages Control Committee constituted to continue the functions of the Labour and Wages Control Committee, who will also need to be informed of developments, is Mr. W.H. Braine, Labour Attache' at the British Embassy.

3. Liaison Officers are therefore requested to include the American and British Embassies on their distribution lists to receive copies of reports, etc., on labour matters sent to AFHQ.

For the Chief Commissioner:

Thom. Henry St. John
Brigadier
Executive Commissioner

Personal

Mr. Cleveland ~

AFHQ also feels that
labor S/C should not be
dissolved - & its functions
taken over by the Embassies -
until we receive the expected
directive from the CCS. If
one is not forthcoming soon -
say, in the next two weeks
the question will be reviewed
again.

TEL : Ext. 594

12 January 1946

REF : LSC/107

SUBJECT: Staff for Labor Sub-Commission
Miss Roberts VollenhauptTO : Mr. Harlan Cleveland
Acting Vice President
Economic Section

1. The decision of AFHQ, which you communicated to me yesterday, that Labor Sub-Commission should not close on 21 January as originally proposed, raises a question of staff requirements. The staff has been reduced drastically for the purpose of cutting it correspond with reduced volume of work and also to enable the Italian civilian staff to take opportunities of securing alternative employment.

2. If the Sub-Commission is to continue it is essential that we retain the services of the Allied secretarial personnel, and this memorandum deals particularly with the position of Miss Roberts Vollenhaupt. It is understood that her attachment to the FEA payroll ceases as of 15 January, and it is therefore requested that she be assigned to State Department payroll and temporarily allocated to Allied Commission for Labor Sub-Commission. This step is appropriate because the functions of Labor Sub-Commission are eventually destined for Embassies.

3. Immediate action is necessary.

*W. H. Braine*W. H. BRAINE
Director
Labor Sub-Commission

LABOR SUB-COMMISSION

WHB/rmw

TEL : Ext. 804

19 November 1945

REF : LSC/107

SUBJECT: Labor Sub-Commission -- Closure and Reallocation
of Functions.TO : Acting Vice President
Economic Section

1. PROPOSED RE-ORGANIZATION

(a) It is proposed that Labor Sub-Commission cease to operate in its present form approximately three weeks after the date of turn-over of North Italy to the administration of the Italian Government, (hereinafter referred to as "target date").

(b) It is suggested that after that date advisory services on labor questions be rendered jointly by the Labor Attaches of the British and American Embassies.

(c) It is recommended that a small Labor Office, comprising a staff of Italian civilians, be maintained for a limited period after the target date to dispose of outstanding questions, and matters that may arise after the turn-over of territory.

2. The closure of Labor Sub-Commission at target date is proposed because:

(a) The labor program has been carried out;

(b) The functions now being performed by Labor Sub-Commission may at that time be discontinued or can be assumed by other agencies of the Allied Governments.

3. FULFILLMENT OF PROGRAM

The labor program has been fulfilled:

(a) The Fascist Syndicates have been abolished and employees enjoy full freedom of self-organization and collective bargaining.

3294

- 1 -

(b) Assistance has been given to the Italian Government in connection with the preparation of labor and social security legislation, and schemes for the relief of unemployment and plans concerning surplus labor.

(c) Provincial and Regional Labor Offices, staffed by Italian civilians, have been established throughout Italy. They are engaged in the work of conciliation and mediation, strike settlement, wage control, collection of wage and cost-of-living statistics, unemployment registration, and labor placement. In territory already turned over to the Italian Government these offices are operating under the supervision of the Ministry of Labor and Social Security, and in present AMG territory they are ready for turn-over to that Ministry.

(d) The Labor Inspectorate has been reactivated.

(e) The social insurance agencies have been reconstructed and are in operation.

(f) In present AMG territory, wage regulation machinery, including the participation of the Regional Italian Joint Advisory Committees (RIJACs), has been established and is functioning. This machinery may be taken over by the Italian Government should it so desire.

(g) With the guidance and assistance of the Labor Sub-Commission the Allied Forces have worked out a labor policy for the employees of the Allied Forces in Italy.

4. DISCHARGE OF REMAINING FUNCTIONS

The functions now being performed by Labor Sub-Commission can at target date be conveniently dropped or assumed by other agencies.

(1) One of the principal functions now being performed is that of serving as Headquarters for labor matters arising in the administration of Allied Military Government and supervision of Labor Officers in the field. In this connection Labor Sub-Commission is engaged in furnishing advice and assistance to Economic Section in the development of labor policy, in making allocations of personnel, in making recommendations concerning the implementation of Italian Government legislation, and effecting liaison with the Italian Government in connection with the formulation of labor policy and the solution of labor problems arising in AMG territory. With the turn-over of this territory to the administration of Italian Government these functions need be no longer performed at this Headquarters.

- 2 -

(ii) There will remain, of course, the administration of Venezia-Giulia, and possibly of Udine Province. Information and guidance for these areas can be supplied on request by the Labor Attaches.

(iii) Another function at present being performed by the Labor Sub-Commission is that of rendering advice and assistance to the Allied Forces with respect to the establishment of policy, wage rates and working conditions for the employees of the Allied Forces. Allied Commission via Labor Sub-Commission has been represented on the Labor and Wages Control Committee of which Mr. Braine, Director of Labor Sub-Commission, is Chairman. Present plans call for the termination of the Allied Force Labor and Wages Committee on 30 November 1945. AFHQ is engaged in a study of plans for performing the work at present being done by this Committee. Should the Allied Forces need any assistance or information in connection with dealings with the Italian Government or the General Confederation of Labor, or with regard to prevailing wage and labor conditions, the Labor Attaches of the respective Embassies would be available to render such assistance and information.

(iv) Another function is the collection of information, statistics, and data concerning labor, wages, working conditions, unemployment, cost-of-living, etc., in the labor field. This information can be collected by the Labor Attaches acting in their capacity as such and submitted to the Allied Governments through Embassy channels.

(v) Another function being performed is that of providing advice and assistance upon request to the Italian Government with respect to the development of labor policy and the preparation of Decrees in the labor and social insurance fields. It is suggested that the Labor Attaches would be available to deal with requests of this nature that may arise in the future.

5. DETERMINATION OF TARGET DATE

It is anticipated that the target date selected would enable Labor Sub-Commission to complete any administrative or executive functions remaining. Target date may be deferred a week or so if necessary, should further business be at hand to dispose of at that time. Should any administrative or executive matters arise after target date, Mr. Braine who has served as Director, Labor Sub-Commission, would be readily available to render service.

- 4 -

6. LABOR ADVISORS

With the winding up of Labor Sub-Commission as a going concern, the Labor Attaches would be in a position to furnish Allied Commission with such advice as may be necessary from time to time. They could serve in a manner similar to that of the Political Advisors. It is not felt that during this period any important or any large number of questions in the labor field will arise to be disposed of by Allied Commission. The availability of the Labor Attaches will, however, give assurance that the Chief Commissioner will not be cut off from expert advice and assistance in this field.

7. Approval is requested for the proposals contained in Para 3 (a), (b) and (c) of this memorandum, which supersede the proposals contained in memoranda LEC/107 of 17 September 1945 and LEC/107 of 24 September 1945.

HEADQUARTERS ALLIED COMMISSION
APO 394
LABOUR SUB-COMMISSION

KJH/rtw

TEL : Ext. 204
REF : ISC/107/805
SUBJECT: Liaison Officers in Milan
TO : Brig. General E. B. McKinley
Acting Vice President
Economic Section

13 September 1945

1. It is understood that objection has been raised to this Labor Sub-Commission's proposal to allocate two Labor Officers for liaison work in Lombardia as from 30 September 1945. You have requested that if it is desired to retain these two posts on the proposed establishment of the Milan liaison team, we should submit more detailed information in justification.

2. It is anticipated that following the handing over of the Northern Provinces to the Italian Government there will be a considerable amount of advisory and consultative work in which the services of experienced Officers will be of great help to the Italian Government. It is our intention that the two Officers, whilst shown on the Milan liaison strength, will be responsible for giving assistance throughout the whole of the North. Their work will fall under two broad headings:

- (a) Giving advice and assistance direct to the Italian authorities in the North;
- (b) Supplying information to this Headquarters on the strength of which questions of policy can be discussed at a high level with the Italian Government.

3. The more specific duties of the Liaison Officers will be:

- (a) Reports on labor disputes, strikes and labor unrest;
- (b) Reports on wage negotiation, collective agreements and wage levels;
- (c) Review of developments in the field of labor organization;
- (d) Cooperation with the Italian Government in the operation and efficiency of their labor agencies;
- (e) Reporting and advising on the extent of unemployment and the success or failure of relief schemes;

(f) Special reports and investigations to furnish this Headquarters and other interested authorities with information about work stoppages, strikes, availability of labor which will affect the program of supplies to Italy. This covers the effective utilization of imported materials;

(g) To make recommendations to this Headquarters and other interested authorities on the allocation of coal and other raw materials with a view to their maximum utility.

4. It is the firm opinion of this Sub-Commission that if the organization of Allied Commission, subsequent to 30 September, includes a Labor Sub-Commission, it is essential that there should be at least one, and probably two, experienced Labor Officers outstationed at Milan for liaison work.

W. H. BRAINE
Director
Labor Sub-Commission

Mr. W. H. Braine (B)	Director
Mr. David C. Sachs (A)	Deputy Director
Mr. J. Di Fede (A)	AMG Outstationed Officer, Milan
Mr. K. J. Hird (B)	Industrial organization; special surveys and general administration.
Mr. R. Scott (B)	Wages, hours, and conditions of employment; Allied Forces employees; Labor and Wages Control Committee.
Mr. R. Airey (B)	AMG Outstationed Officer, Milan
Mr. F. Proctor (B)	Social Insurance; strikes and conciliation; port laborers; unemployment and surplus labor.
Miss M. A. Stevenson (B)	Wages schedules; cost of living indices; reports; statistics.
Captain A. L. Dorf (A)	Liaison Officer - outdoor duties.
Miss R. Wollenhaupt (A)	FEA secretary
Miss S. Brothers (A)	FEA secretary.

APPENDIX III

RECOMMENDATION REGARDING FUTURE STATUS AND STAFFING
OF LABOR SUB-COMMISSION

- A. From date of termination of AMG to a date at least four weeks and probably six weeks later.

Labor Sub-Commission should continue in order to clean up outstanding issues resulting from Regional Labor Organization, e.g., transfer of Uffici del Lavoro to Italian Government, disposal of controversial issues and claims under current consideration.

Staff requirements during closing down period:

- 1 Director
- 1 Administrative Officer
- 3 Allied civilians (i.e., reduction of 4 Allied civilians)
- 1 FEA secretary (i.e., reduction of 1 FEA secretary)
- 1 Military officer for outdoor duties
- 1 Liaison officer in North Italy
- Italian staff as necessary.

- B. From end of period A to closure of Allied Commission.

A Labor Section with four specific functions:

- (1) to advise Italian Government, on request, in accordance with the terms of FAW.487;
- (2) to advise, and collect material, to enable advice to be given on the employment of Italian civilian labor by Allied Forces and Allied authorities;
- (3) to advise regarding administration of Venezia Giulia and other territory retained under AMG control;
- (4) generally to report on labor issues.

Staff requirements for period B:

3285

- Chief of Labor Section and } Labor Attaches, American
Labor Advisers } and British Embassies
- 1 Administrative Officer
- 1 Allied civilian
- 1 Military officer for outdoor duties
- Italian staff as necessary.

LABOR SUB-COMMISSION -- FUNCTIONS & PROBLEMS

I. MISSION

The brief terms of reference are; coordination of policy, organization and administration regarding civilian labor issues, including the need for meeting labor demands of the Allied Forces, and the definition of suitable wages and conditions of such employment; General advice upon and encouraging the development of labor relations, conciliation and arbitration between associations of employers and workers.

II. FUNCTIONS

A. IN AMG TERRITORY

1. To arrange for the abolition of Fascist labor organizations and their substitution by machinery and organizations acceptable to the new democratic spirit; the determination, through joint negotiating machinery, and the enforcement of a civilian wage policy; the supervision of labor relations, particularly as concerns labor union organization; the establishment of Labor Offices for handling employment questions; and the supervision of social security agencies.
2. To establish machinery for handling the civilian labor requirements of the Allied Forces; to coordinate the civilian labor program to assure operation of the Army program; to advise and assist in defining terms and conditions of employment with the Allied Forces.

B. IN ITALIAN GOVERNMENT TERRITORY

1. Upon request of the Italian Government to advise and assist with regard to policy and legislation concerning:

I. MISSION

The brief terms of reference are; coordination of policy, organization and administration regarding civilian labor issues, including the need for meeting labor demands of the Allied Forces, and the definition of suitable wages and conditions of such employment; General advice upon and encouraging the development of labor relations; conciliation and arbitration between associations of employers and workers.

II. FUNCTIONS

A. IN AMG TERRITORY

1. To arrange for the abolition of Fascist labor organizations and their substitution by machinery and organizations acceptable to the new democratic spirit; the determination, through joint negotiating machinery, and the enforcement of a civilian wage policy; the supervision of labor relations; particularly as concerns labor union organization; the establishment of Labor Offices for handling employment questions; and the supervision of social security agencies.
2. To establish machinery for handling the civilian labor requirements of the Allied Forces; to coordinate the civilian labor program to assure operation of the Army program; to advise and assist in defining terms and conditions of employment with the Allied Forces.

B. IN ITALIAN GOVERNMENT TERRITORY

1. Upon request of the Italian Government to advise and assist with regard to policy and legislation concerning:

3277

- (a) Basic labor laws and regulations governing hours, working conditions and wages;
 - (b) Industrial regulations and the formation of free, comprehensive associations of employers and employees;
 - (c) Manpower and the recruitment, registration, placing and movement of all labor and the work of employment exchanges;
 - (d) Labor inspection and the enforcement of labor standards, safety and working conditions;
 - (e) Social security measures and social security agencies.
2. To advise the Italian Government with regard to labor problems, disputes and policies which directly affect the prosecution of the war.
 3. To cooperate with the Italian Government as regards labor and wages policies in Allied Military Government territory; to implement Italian Government decrees and to organize and arrange the staffing of Labor Offices and exchanges.

III. ACTION TAKEN

1. Comprehensive and apparently adequate system of Labor Offices for handling employment questions has been set up.
2. A large measure of success has been achieved in encouraging formation of joint negotiating machinery to deal with wages, conditions of employment, etc.
3. Associations of employers as well as of workers have been developed.
4. Advisory machinery representing local Italian interests has been established in all areas (Regional Italian Joint Advisory Committees), to review and advise upon labor questions.

tion, placing and movement of all labor and the work of employment exchanges;

- (d) Labor inspection and the enforcement of labor standards, safety and working conditions;
 - (e) Social security measures and social security agencies.
2. To advise the Italian Government with regard to labor problems, disputes and policies which directly affect the prosecution of the war.
 3. To cooperate with the Italian Government as regards labor and wages policies in Allied Military Government territory; to implement Italian Government Decrees and to organize and arrange the staffing of Labor Offices and exchanges.

III. ACTION TAKEN

1. Comprehensive and apparently adequate system of Labor Offices for handling employment questions has been set up.
2. A large measure of success has been achieved in encouraging formation of joint negotiating machinery to deal with wages, conditions of employment, etc.
3. Associations of employers as well as of workers have been developed.
4. Advisory machinery representing local Italian interests has been established in all areas (Regional Italian Joint Advisory Committees), to review and advise upon labor questions.

3276

5. With varying success, attempts have been made to control the wages/prices spiral by reserving to AMG the right of approval of wage agreements.
6. In cooperation with the Italian Government and Finance Sub-Commission, A.C., an attempt has been made to deal with the problem of social insurance in Italy.
7. Adequate and efficient machinery for handling terms and conditions of employment of civilians by the Allied Forces has been established.
8. There has been extensive cooperation with the Italian Government in preparing and implementing new labor legislation.

IV. PERSISTENT PROBLEMS

- A. Unemployment -- including those on payrolls who continue to draw wages whilst doing no work, and those who are working less than a full week. Under this heading can also be included returned deportees, slave labor, and prisoners of war.
- B. Reactivation of Industry -- This is dependent on supplies of coal and raw materials. Included also are schemes of work relief and reconstruction.
- C. Industrial Unrest Due to Unemployment and Lack of Prospect of Work -- This situation is encouraged by rising prices and shortage of food. The result is demand for higher wages.
- D. Wages Policy -- requires further clarification by the Italian Government, especially with regard to:
1. The extent to which industrial economy can bear any further wage costs and yet hope to revive on a competitive basis;
 2. Equality of wages and bonuses for men and women.

E. The Inauguration of Comprehensive and Adequate Social Insurance and Assistance Schemes -- Much remains to be done as the returns of unemployment benefits bear no relation to the present needs of the unemployed.

SUBJECT: The Duties of Labor Liaison Officers

TO : Acting Vice President, Economic Section
Attention: Col. Densmore

1. In compliance with your request, submitted herewith is a statement of duties and responsibilities of Labor Officers who will be assigned for liaison work in North Italy, following the turnover of the territory to the administration of the Italian Government.

2. For information to Headquarters, Allied Commission, (for forward transmission, if advisable, to higher echelons and Allied Embassies), to report on:--

- (a) Labor disputes, strikes, demonstrations, stoppages, prospects thereof, and labor unrest in general;
- (b) Wage levels, negotiations and collective agreements providing for same;
- (c) Developments in the field of labor organizations and material information concerning personalities and groups who are prominent in such organizations and movements;
- (d) Operation and efficiency of agencies of the Italian Government entrusted with responsibilities of handling labor questions;
- (e) Unemployment, the extent thereof, the success or failure of measures providing for unemployment benefits, any dissatisfaction arising out of such provisions, the progress of work relief and other schemes tending to divert unemployed to productive occupations;
- (f) Social insurance and any unrest arising from inadequacy of provisions and benefits.

3273

- 2 -

3. With particular reference to the program of supplies to Italy, to report specifically upon work stoppages, strikes and prospects thereof which may tend to interfere with the effective utilization of imported materials.

4. To make recommendations upon problems of allocation of coal and other raw materials with a view to utilizing such materials in such ways as to obtain maximum employment.

5. To render, upon request, expert advice and assistance to units of the Allied Forces employing civilian labor.

LABOR SUB-COMMISSION

File
RAA/PAW *LS/111*

25 May 1945

The AMG labor program in the Mediterranean Theater began on the date of the first Allied landings in Sicily with a Labor Officer serving on the Staff of the SCA. The Labor Sub-Commission was formed two months later, in October 1943, as part of the AMG administration for Italy.

Since that time, the Labor Sub-Commission has moved with the Headquarters of the Allied Commission, to Palermo, to Naples, and to Rome while its Labor Officers have served with the Fifth and Eighth Armies and Army Divisions in forward areas, and with Regional and Provincial AMG teams in each newly liberated Province throughout the length of the Italian Mainland.

The work of the Labor Sub-Commission has been not only labor policy but labor operations or administration, and it has been concerned in military as well as civilian labor programs.

With the Armies, AMG has been primarily concerned with the recruitment of civilian labor for military needs and with the policy concerning wages and conditions of employment of such labor. Insofar as possible, Italian civilian agencies and regulations have been used in order to coordinate the military and the civilian labor programs.

The civilian labor program of the Sub-Commission and its field officers has involved the general supervision and direction of labor policy and administration, including social insurance, until such time as it could be turned over to the Italian Government.

Specifically this has included the following principal lines of action:-

- (a) Abolition of the Fascist Corporative System and all Fascist labor organizations.
- (b) Creation of Regional and Provincial Labor Offices for labor recruitment, labor statistics, the supervision of industrial relations, and the enforcement of labor laws.
- (c) The restoration of the rights of collective bargaining and the aid and encouragement of free and representative trade unions.
- (d) The establishment of wage controls and machinery for orderly wage adjustment through collective bargaining within limits of national and regional wage policy.

3271

- 2 -

In carrying out both military and civilian labor programs, close cooperation has been maintained with the Italian Government and the Ministry of Industry, Commerce and Labor has been encouraged to promulgate legislation defining labor relations and organization.

The operation of these policies changed character with the various changes in the relationship between the Allied Control Commission - later the Allied Commission - and the Italian Government. The assumption of direct control by the Italian Government of territory which was transferred from Allied Military Government, and the greater freedom of decision and action permitted to the Italian Government, affected the scope of the Labor Sub-Commission, and from October 1944 the Italian Government, industry and labor assumed greater freedom of action in the regulation of wages in industry in Italian administered territory. From the beginning of 1945 the policy and practices of the Labor Sub-Commission was to cultivate and encourage cordial relations with various Italian interests concerned with labor questions with a view to encouraging development of labor relations on democratic lines. The Italian General Confederation of Labor was recognized as the accredited representative of Italian labor and given every encouragement and material assistance to obtain a status justifying such recognition. Contact with employers' organizations were similarly developed. The closest collaboration has been obtained and no serious differences have arisen on points of principle or procedure. Particular attention was paid, in the period prior to the liberation of the North of Italy, to the preparation of plans with a view to the more successful control of prices and wages than had been effective in the central and south of Italy.

At the present time, although Italian legislation has not kept full pace with actual changes made, in nearly every Province of Italy there may be found Provincial Labor Offices, employee and employer associations, and a working program for the solution, by democratic means, of the labor problems which will inevitably follow the ending of the war.

SUBJECT: Terms of Reference

2 May 1945.

TO: Economic Section

1. I attach herewith information requested in your minute of 19th April, 1945, regarding terms of reference applicable to this Sub-Commission, i.e., a listing of the mission, and staff and operating functions.

Mission.

Co-ordination of policy, organisation and administration on civilian labour issues, with a view to meeting labour needs of Allied Forces and defining suitable wages and conditions of such employment; and generally to advise upon and encourage development of industrial relations, conciliation and arbitration between associations of employers and workers.

Staff.

(a) At A.C.H.Q. a civilian staff: 3 Americans, 5 British, 1 American N.M. 16 Italians.

(b) In A.M.G. territory military personnel consisting of one American officer as forward H.Q. Labour Officer co-ordinating activities of Regional Labour Officers who comprise 2 British, 10 American Officers assigned to A.M.G. territory in Italy. In addition there are (May 1945) in forward Army area 5 officers (2 American, 3 British) assigned to Austria but serving temporarily in Italy.

Functions.

In A.M.G. territory.

To establish machinery for handling civilian labour ^{requirements} ~~units~~ of military forces; and to co-ordinate the civilian labour programme to assure operation of the Army labour programme.

To arrange for the abolition of Fascist labour organisations; the determination and enforcement of civilian wage policy; the supervision of labour relations, particularly as concerns labour union organisation; the establishment of Labour Offices; and the supervision of Social Security agencies.

In Italian Government Territory.

(1) Upon request of the Italian Government to advise and assist with regard to policy and legislation concerning (a) basic labour laws and regulations governing wages, hours and working conditions; (b) industrial relations and the formation of free associations of employers and employees; (c) man-power and the recruitment, registration, placement and movement of / all

3269

2.

all labour, and employment exchanges; (d) labour inspection and the enforcement of labour standards, safety and working conditions; (e) social security measures and social security agencies.

(2) To advise the Italian Government with regard to labour problems, disputes and policies which directly affect the prosecution of the war.

(3) To co-operate with the Italian Government as regards labour and wages policies in Allied Military Government territory, the implementation of Italian Government Decrees, the organisation, staff of the Labour Offices.

7 April 1945

SUBJECT: Telephone Call with Col. Lane.

MEMORANDUM FOR FILE.

1. I have arranged to confer with Col. Lane in Florence 1200 hours 8 April 1945.
2. Col. Lane does not expect to take anyone with him on his eventual assignment to Austria, but he would like to have Captain Alessandrini (now assigned on a temporary basis to Toscana), Captain Adams now in Rome, and Priv. Ruisi also now in Rome, attached to 5 Army at an early date. It is his plan to drop these men off at their appropriate stations as soon as possible.
3. Particular reason why Col. Lane wants this additional personnel is to assist him in the development and activation of the Social Insurance programme in Northern Italy.
4. I see no objection to this plan, and pending further conference with Col. Lane, recommend its acceptance.

SUBJECT : Qualifications for Labour Officers
TO : G-1 American
G-1 British

1. It is expected that there will be vacancies for Labour Officers AMG. The following information is submitted for your assistance in selecting officers for this work.

2. The work of a Labour Officer in general is as follows: to assist in assuring adequate supply of labour for the Armed Forces and to advise and assist the Armed Forces in regard to the higher wages and working conditions of civilian employees, to assist in the establishment of provincial and regional labour Offices (these offices have the function of unemployment registration and referral, the settlement of trade disputes and the collection of wage and cost of living data), to assist in the reconstruction of social insurance agencies in general, to apply labour and wage policy as determined by Headquarters.

3. The following qualifications would be helpful: employment with a labour agency of the U.S. or the British government in the field of labour relations, man power supply, social insurance or labour exchanges, experience as representative of labour unions or management in the negotiations over wage disputes or grievances, experience in personnel or social service work.

REF : LSC/111

27 February 1945

SUBJECT: Labor policy in newly liberated territory while under military control.

TO : Economic Section

1. There is a stage immediately after the liberation of the territory when the zone is still regarded as within the field of military operations. At a later date AMG takes over the administration of the territory. So far as labor matters are concerned, AMG follows A.C. policy, which in turn is decided by high authority; but there appears to be no obligation upon the military authorities to follow AMG/AC policy so long as a zone is regarded as within military operations.

2. It is recognized that military necessity is supreme on all matters and that labor considerations must observe this necessity. Nevertheless, it should be possible to agree on broad matters of principle so that it may be recognized that deviation from such principles follow military necessity and not convenience.

3. There is a divergence of practice between that followed by 5th Army and that followed by 8th Army on labor questions. 5th Army post General Order No. 28 and operate its terms. This allows free association of workers in democratic trade unions as distinct from the Fascist-controlled syndicates. It also establishes Labor Offices to handle civilian labor questions including arbitration and negotiations. The result is that, when in due course, 5th Army military territory is transferred to AMG/AC, there is a smooth transition having already initiated action on the lines of the policy which will eventually be followed by AMG/AC.

8th Army does not post General Order No. 28. Within the last few months, owing to the assignment of a Labor Officer from Labor Sub-Commission Headquarters (such assignment being an innovation), Orders have been made which provide for the abolition of the Fascist syndicates and the establishment of Labor Offices. This goes some way towards uniformity with 5th Army. As distinct from the provisions of General Order No. 28, however, no recognition is given to the establishment of free trade unions nor is their organization encouraged.

3262

- 2 -

4. Probably the reason for the difference of practice is that in the 8th Army organization there does not exist a Directorate of Labor establishment on the lines operated by 8th Army through the D.L.L., and D.A.D.L. These act as labor control officers more particularly with regard to military labor units, Pioneer Corps, etc., and directly employed Italian civilian labor.

5. In the absence of a recognition of the principles set out in General Order No. 88 there is a possibility that military employing units may use unofficial employing agencies, such as Camere del Lavoro and associations of workers claiming to be trade unions although not officially recognized as such. This is a definite weakening of the eventual position of the State as regards the establishment of State employment agencies. Although the Ufficio del Lavoro has been a subject of much criticism there is little doubt that a State employment agency, in the principal localities, will inevitably be established by the Italian Government although the functions of such employment offices may eventually differ somewhat from those of the present Ufficio del Lavoro. As a political issue the trade unions and the Camere del Lavoro are trying to centralize employment-placing work in their own hands as a rival to the State -- a political threat which the State cannot disregard.

6. Conversations have been initiated with the Italian Government to ascertain their policies and proposals with regard to the future of Labor Offices, and the attitude of the Labor Sub-Commission will be to offer cooperation with the Italians in following the model which they may wish eventually to establish, provided that such model can guarantee to give military authorities and AMG/AC administration the essential services which those authorities will demand from employment offices.

First proposals for AMG/AC policy, vice-vis., will be put forward when Italian Government proposals have crystallized. But in the meantime it is desirable that 8th Army should be invited to conform with the terms of General Order No. 88. An Order on abolition of Fascist labor organization is issued by AMG government, 8th Army, and Provincial Commissioners operating under 8th Army issue a Provincial Order providing for the establishment of Provincial Labor Offices. These Orders however omit reference to the right of organization of workers, and it is understood that the omission is due to the decision of 8th Army AMG authorities not formally to recognize the free association of workers.

21 February 1945

HQC/45/1

SUBJECT: Office Accommodation.

TO : Vice President, Establishments Section.

1. Reference Land Forces Sub-Commission letter S/AQ/38, dated 15 February 1945.

2. In order to let Land Forces Sub-Commission have the additional accommodation of ten (10) rooms on the 7th floor now occupied by Labour Sub-Commission, and to give the latter alternative accommodation, the following suggestions are put forward.

- a) Inter Governmental Committee on Refugees to move from the Headquarters building to I.M.A. building, thus leaving six (6) rooms vacant on the 3rd floor annex.
- b) M.F.A. & A. Sub-Commission to move from 2nd floor annex to rooms vacated by I.G.C.R. on 3rd floor.
- c) Truck Battalion to move from 2nd floor annex to Accounts Building, Via Romania. This move is desired by Col. Carnes.

3. The above moves would leave about twelve (12) rooms on the 2nd annex available for Labour Sub-Commission. The Director of Labour Sub-Commission viewed this accommodation. He also expressed a desire to see the rooms in the INA Building, and stated that these rooms were much more suited to him.

4. The move of Labour Sub-Commission to the INA Building would obviate the moving of sections, etc. as stated in paras. a and b above.

5. It was pointed out to the Director, Labour Sub-Commission, that the Chief Commissioner did not wish anyone to leave the Headquarters building and it was suggested that he take the matter up with the Vice President, Economic Section.
