missari Provinciali siano in possesso del Decreto Legislativo n.315 del 21 Settembre 1944 (Gazzetta Ufficiale n.85 del 23 Novembre 1944). Inoltre, essi forniranno ad ogni Commissario Provinciale, per informazioni dell'UPIC, copie del presente Ordine e dell'Ordine emanato da questo Quartiere Generale in data 9 luglio 1945 prot. 1.00/ES sopra riferito. Essi dovranno, poi, emanare istruzioni necessarie ai Commissari Provinciali, per assicurare che le locali Autorità Italiane ottemperino a tutte le disposizioni di cui trattasi.

12. Per quanto si riferisce alla distribuzione dei prodotti industriali secondo il piano di cui si è fatto cenno al par.1., gli Uffici di Milano delle Sottocommissioni Industria e Commercio provvederanno ad assicurare l'applicazione della presente circolare da parte del NIIC e dei Comitati Industriali.

SUBJECT: Requisition of cots.

TO : Commanding Officer
Headquarters Company, 2675 Regiment

1. Basic request is for signature and return to PDS Quartermaster. Basic request has been complied with by Officer who made the requisition. Original on file in PDS office was signed by the same Officer who was responsible for appropriate disposition of the cots.
2. These cots were drawn for the use of Officers and enlisted men who came to responsible Officer's billet in Livorno on frequent occasion to confer on labor matters.
3. When responsible Officer's T.O. assignment terminated in Livorno, arrangements were made with Capt. PDS to transfer responsibility to Captain Stanley Beatty, Livorno Province Requisitioning Officer for PDS. Captain Beatty intends to submit new requisition for several cots which will include the four requisitioned by the present responsible Officer.
4. Captain in PDS informed responsible Officer that original requisition was being destroyed and no further action was necessary in light of agreement with Captain Beatty.
5. If Captain Beatty does not pick up the four cots on new requisition responsible Officer will return them to Depot from which they were withdrawn.

3327

As per informations taken it results as follows:

Arches with door were made a long time ago, about 4 or 5 months, but afterwards none were made for it was not allowed for the reason of the high price of such work (about 16.000 liras for each arch with door). A similar work was made long time ago at the 6th floor, Economic Section (Room No 46 or 48).

If only arches are requested it is possible for the relative low cost of such work. Something alike was made 3 or 4 months ago in Room No 2, 4 and 6 Gr. Fl.

TO : Col. Smith

1. I am informed we receive only one copy of Gazzetta Ufficiale from Legal S/C, which circulates and sometimes fails to get back to Room 2 files or is held a long time.

2. At present Room 2 files lack a number of issues containing key labor legislation.

3. I recommend that arrangements be made (through Ex. Officer) for obtaining missing back numbers and that three copies be requested for Labor S/C from now on, to be distributed as follows:

- (1) Circulate for comment regarding implementation.
- (2) Hold in Room 2 files for general reference.
- (3) Legal file to be maintained by Miss Sanseverino in my office for keeping track of status of all decrees of Labor S/C concern.

4. In connection with the third copy for my office, requested above, I should like to make Miss Sanseverino responsible for noting and checking all decrees in labor field and, thereafter, maintaining a running record of

their progress, including date of implementation in Gazette and dates of implementation in individual ANG provinces. Thus, there will be a central point in the Sub-Commission where inquiries from the Ministry, from AG/ANG and from other sources can be answered promptly and accurately. Also, Miss Sanseverino can watch for publication of decrees which have been cleared with us in draft form and which we need to keep track of.

1. In a letter received at this Headquarters 15 January 1945, PBS listed scrap materials available at Quartermaster salvage installations in the Livorno area. AC release of the material or a statement of AC needs was requested by 20 January. An informal check was made of several sub-commissions nearly all of whom indicated a desire to inspect the materials before making any commitment. With the agreement of War Materials Disposal Sub-Commission the signal has gone forward to PBS requesting that all materials be held pending inspection by interested sub-commissions which it is estimated could be completed by 1 February and all sub-commission requirements summarized within a few days thereafter.

2. A complete list of materials as reported by PBS is attached. If interested in any of the items, please arrange for whatever inspection is required and report your final requirements to this office not later than 1 February. It is suggested that it may be possible for several sub-commissions to pool inspecting personnel and divide the work up on a basis which will avoid repeated inspections of the same material by representatives of the sub-commissions. Arrangements for inspection should be made through the War Material Disposal Sub-Commission, Lt. Col. Campbell, Director.
