SUBJECT: Italian Government Decrees - Salaries, Wages and Pensions  
of Public Employees.

TO : Legal Sub-Commission

1. It has been decided to implement, or otherwise place into full operation, in the North, the following Decrees: D.L. No. 15-8 of 6 December, 1943; D.L. No. 208 of 18 November, 1944; R.D.L. No. 35 of 12 March, 1944, and D.L. No. 41 of 20 January, 1945. This action has been approved by Acting Vice-President, Economic Section. The first two Decrees mentioned provide for salary increases to public employees, while the latter two provide for increases in pensions.

2. In preparing the necessary legal documents to effectuate this action, it is suggested that some provision should be made that any salaries, wages, allowances, indemnities and pensions which have hitherto been paid pursuant to General Order No. 41, but which were predicated upon authority granted since 3 September, 1943 by the Fascist-Republican Government, be abrogated. Such provision would leave no doubt either as to the elimination of ~~post~~ September 1943 increases or as to the fact that the Decrees under consideration will go into effect upon the basis as it existed in September, 1943.

3. There should be a further provision which would continue until further notice the Indennità per Offese Belliche (bombardamento), R.D.L. No. 1488 of December, 1943, in all places where it was being paid on 3 April, 1945. This indemnity would expire by operation of the limitations of the Decree establishing it, and it is our intention to continue it in full force and effect until decision has been taken to implement Decree No. 118 of 10 March, 1945, which makes effective provision therefor.

4. The increases provided for by implementation of these Decrees will start from 1 June 1945.

5. It would be appreciated if this were treated as urgent. This memorandum has the concurrence of Finance Sub-Commission.

SUBJ-CT: Socialization of Industry

TO : Acting Vice President  
Economic Section

1. The question of socialization of industry has been under consideration in the Allied Commission since the beginning of 1945. It has been raised in its general aspect by Colonel Densmore's memorandum of 11 April, 1945, LSC/3.80, which collected opinions from various Sub-Commissions; and it was raised with particular regard to the duties of receivers and controllers of businesses of public importance. The matter is of great importance from the political, legal, industrial and social aspects, and I submit that policy and responsibility should be clearly established. Labor Sub-Commission has taken an interest in the question because of the obvious effect upon industrial relations as between employer and worker or as between capital and labor, but the whole problem is of much wider interest.

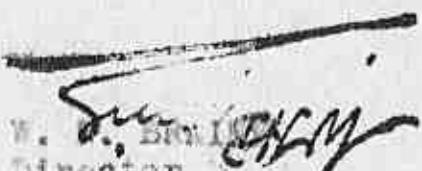

2. There is absence of exact information on developments as to appointment of Works Management Committees in Northern Italy. Acting Vice President may remember that whereas in Rome it was stated that a considerable number of industrial establishments were already affected, Col. Polletti stated in Milan on 8 June that comparatively few concerns were affected.

Memorandum LSC/413 of 1 June, 1945, to all regional Commissioners requested material facts, including the number of plants in which Works Management Committees have been established, the number of plants in which commissioners have been appointed other than by ANG, and the number in which commissioners have been appointed by ANG. The reports requested have not yet begun to arrive. *548*

3. There was discussion with Chief Commissioner on a number of points on 4 June, 1945 when Admiral Stone requested that the Italian Government should be asked to put their views on this subject in writing. A memorandum for the then Prime Minister Bonomi went no further than to say that the Italian Government will immediately study the complex questions involved and that it would be desirable that any provisions which Allied Commission proposed to take for temporary regulation of factories should not ~~be subject to~~ prejudice any more stable and definite solution which the Italian Government might propose in the near future. There were later discussions with Political Advisers and also with Chief Legal Adviser, but these were inconclusive and I am not aware that any clear policy or directive has been evolved.

4. Where receivers or commissioners are appointed by AMG to replace absent or inefficient managers, the position of Works Management Councils might be resolved; but where the managers are not replaced, the position of Works Management Councils still remains obscure. My own recommendation is that a public announcement, agreed between AMG and the Italian Government, should be made and that the so-called Decree of the CIN on the subject should be disposed of. (It will be remembered that Col. Poletti's order of 1 June abolishing CIN Decrees and Orders refers only to such Orders as were superceded by Decrees or Orders of the AMG).

## Commissioni Consultive di azienda

### nelle gestioni commissariali

*Da tempo le macchine, i sindacati e la Camera del Lavoro agitavano il problema delle gestioni commissariali per chiederne l'abolizione o per lo meno correggerne i difetti con l'istituzione di una commissione consultiva di azienda.*

*Qualche Commissario aveva già accettato in via di fatto di far funzionare la Commissione Consultiva, ma non erano molte in realtà le imprese che godevano del beneficio della nuova istituzione democratica.*

*Ma ora è apparso sulla «Gazzetta Ufficiale» il D. L. L. 21 aprile 1945 n. 229 che autorizza tutti i Commissari a farsi assistere da una Commissione Consultiva di Azienda composta da rappresentanti del personale dipendente, designati rispettivamente dai tecnici, dagli impiegati e dagli operai.*

*La Commissione Consultiva si riunisce su invito del Commissario suoi componenti per pronunciarsi su problemi tecnici ed amministrativi concernenti la gestione delle imprese.*

*Non è molto, ne conveniamo, ma è già un primo passo verso il riconoscimento giuridico del diritto dei lavoratori di partecipare alla gestione delle aziende, diritto che in un avvenire più o meno prossimo dovrà essere sempre più esteso.*

*Il citato decreto da facoltà ai commissari di istituire le Commissioni, ma noi siamo sicuri che tutti i Commissari, senza distinzioni, si avvaranno della facoltà per dar prova del loro spirito democratico e per esprimere la loro fiducia nella classe lavoratrice.*

considerata l'alta sensibilità politica e nazionale dello assetto dell'Italia occupata che, astenendosi in massa da ogni partecipazione alle elezioni dei rappresentanti nei consigli di gestione, hanno manifestato la loro chiara comprensione del carattere entusiastico e demagogico della pretesa "socializzazione" fascista,

considerata la situazione di fatto creata dal decreto legislativo del 12.11.1944 e dai successivi decreti di socializzazione di singole aziende,

al fine di assicurare, all'atto della liberazione dei territori ancora occupati dal nemico, la continuità e il potenziamento dell'attività produttiva, nello spirito di una effettiva solidarietà nazionale,

ART. 2. Fino a nuovo e generale regolamento delle materie concernenti i consigli del Governo nazionale, l'amministrazione delle aziende contemplate nei decreti sopra citati resteranno affidate a consigli di gestione nazionale, coi poteri previsti dai decreti medesimi per i consigli di gestione delle aziende "socializzate".

1. Reference is made to Colonel Denison's minute of  
11 April, 1945, LSC/3.20.

2. It is suggested that Allied Commission should adopt  
the attitude that the Allied Military Government should take  
care to avoid prejudging controversial issues affecting the  
rights of ownership of property, plant and material on which  
arbitrary decisions and action by the Nazi-Fascist regime has  
been taken without a clear mandate from the Italian people on  
fundamental issues which, in a democratic world, are decided  
by the citizens exercising a free vote and not by dictation from  
above.

3. So far as industry is concerned, both labor and management  
recognize that they are partners with respective responsi-  
bilities in their various fields. The nationalization of public  
services, public utilities and key industries is a political issue  
on which various political parties have expressed their views.  
These and other controversial issues are being stated in the  
political programs of these parties, who will submit them to the  
voting populace and will, no doubt, measure the degree of support  
on the various issues when later proposing, in a properly consti-  
tuted national assembly, necessary legislative measures to these  
ends. The policy of Allied Military Government is to maintain as  
nearly as possible, a normal status quo so that in due course the  
Italian voters may have a clear field on which to decide their  
own fate in their own way.
